

sitting around. Americans are struggling to make ends meet. I ask my colleagues not to raise taxes on those who can least afford it.

ENERGY BILL IS A WIN-WIN FOR AMERICANS

(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Mr. Speaker, the energy bill that the House Energy and Commerce Committee is about to finish marking up today is a win-win situation for Americans. First of all, it achieves energy independence, which is so important for our national security. At the same time, it basically helps in a significant way to reduce pollution. We know about global climate change. We know we must address it in a significant way.

But even more important, I want to stress the job creation. The fact of the matter is, it will create a lot of jobs by investing in new renewable technologies, such as solar power, wind power, geothermal. Imagine this: In one piece of legislation, which will come to the House when we come back after Memorial Day, we will be able to make headway towards energy independence, not rely on foreign oil, create jobs in new industries and new technologies, and also address the problem of global climate change.

The fact of the matter is, it's a win-win situation for the American people. It is something that most of my constituents have been clamoring for for a long time. Once again, this new Congress and this President will achieve a major victory for the American people.

CAP-AND-TAX WILL CAP OUR GROWTH AND TRADE OUR JOBS

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Mr. Speaker, the crazy cap-and-tax idea advanced by my liberal colleagues would create \$640 billion in new taxes on American businesses and raise electrical bills by \$3,100 per household per year. This cap-and-tax proposal creates an artificial market to find revenue to pay for various social programs that this administration plans to enact, such as government takeover of our health care. This boondoggle will cap our growth and trade our jobs. Companies looking to invest in our economy will simply move overseas to escape this enormous tax increase.

You don't believe me? Look in the crystal ball at Spain, which has been on this plan for 10 years. After losing a number of companies, seeing utility prices skyrocket and suffering a 17.5 percent unemployment rate, we can see our future clearly. Even worse, experts tell us that cap-and-tax will do nothing to cap greenhouse gases, but it will put the United States at a global economic disadvantage because China and India

will ignore this scheme. In fact, it will also serve as an economic stimulus for all developing countries which will be happy to accept our jobs.

Why not use common sense for a change and develop true renewable resources as well as nuclear power, which has a zero carbon footprint?

AMERICAN ENERGY INDEPENDENCE

(Mrs. McMORRIS RODGERS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. McMORRIS RODGERS. Mr. Speaker, I am proud to represent one of the greenest districts in America, thanks to our hydroelectric dams that produce 70 percent of our electricity in Washington State. When you combine that with nuclear and wind and solar and biomass, we have one of the smallest carbon footprints in the country. Yet cap-and-trade would penalize Washington State, too, forcing us to pay higher costs for our energy. A Federal judge in Portland is proposing, or wants us to consider at least, removing the four lower Snake River dams that provide 5 percent of our electricity.

Mr. Speaker, we need to stop saying no to American energy and start saying yes to American energy. We need to unleash American energy producers and not implement policies that are actually going to hurt our economy, trade our jobs and cause them to go overseas make us more dependent on foreign sources of energy.

Let's say yes to American energy. Let's say yes to American energy independence.

INVESTING IN ALTERNATIVE ENERGY

(Mrs. CAPITO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPITO. Mr. Speaker, last summer's run-up in gasoline prices highlighted for all of us the challenges that face our Nation because we have not embraced a wide range of our own energy resources. With that premise in mind, I've joined with my Republican and Democrat colleagues to craft an energy bill that will invest in alternative energy, promote new technology and encourage conservation—all without raising taxes on consumers.

Instead of penalizing domestic energy production with a national energy tax like the one moving through our Energy and Commerce Committee, we need to use our royalties from offshore energy exploration to fund investments in new cleaner energy technologies. That means renewable, nuclear, environmental restoration and clean water efforts.

In addition, this bill reflects the fact that coal is one of our most abundant resources. Based on current energy prices, we could see up to \$220 billion to

invest in clean coal reserves from royalty revenue from this bill.

Simply put, this bill helps us cleanly take advantage of our immense domestic resources and provides incentives for lower emissions without imposing a burdensome national energy tax on everyday consumers. Remember, energy policy has real costs for real people.

PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON S. 454, WEAPON SYSTEM ACQUISITION REFORM ACT OF 2009

Ms. PINGREE of Maine. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 463 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 463

Resolved, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (S. 454) to improve the organization and procedures of the Department of Defense for the acquisition of major weapon systems, and for other purposes. All points of order against the conference report and against its consideration are waived. The conference report shall be considered as read.

SEC. 2. The Chair may postpone further consideration of the conference report to such time as may be designated by the Speaker.

The SPEAKER pro tempore (Mr. GUTIERREZ). The gentlewoman from Maine is recognized for 1 hour.

Ms. PINGREE of Maine. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from California (Mr. DREIER). All time yielded during consideration of the rule is for debate only.

I yield myself such time as I may consume.

GENERAL LEAVE

Ms. PINGREE of Maine. I also ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and insert extraneous materials into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maine?

There was no objection.

Ms. PINGREE of Maine. Mr. Speaker, House Resolution 463 provides for consideration of the conference report to accompany S. 454, the WASTE TKO Act of 2009.

Mr. Speaker, today the House will consider the conference report to accompany S. 454, the Weapon System Acquisition Reform Act of 2009. Last week, the House took an important step toward sending this legislation to the President when it passed H.R. 2101, the WASTE TKO Act of 2009, as amended, by a vote of 428-0. I would like to thank my colleagues on the House Armed Services Committee, Chairman SKELTON, Ranking Member McHUGH, Representative ANDREWS, and Representative CONAWAY, for their tireless work on this bill.
