MAKE HEALTH INSURANCE MORE AFFORDABLE FOR SMALL BUSINESSES

(Mr. ADLER of New Jersey asked and was given permission to address the House for 1 minute.)

Mr. ADLER of New Jersey. I rise today to bring attention to the many small business owners and employees in New Jersey and across this country who cannot afford health insurance. Small businesses are the backbone of our local communities and economies. The small business owners are struggling to make ends meet under the weight of their health insurance costs, and the price just keeps rising.

I know the struggle personally. My father owned and operated a small business, a dry cleaning business. My dad lost his business after suffering multiple heart attacks without health insurance. He worked hard, supported his family, but the price of insurance was just too high. Over 30 years later, more and more families in New Jersey are still feeling the same pinch.

From the year 2000 to 2007, health insurance premiums in New Jersey increased by 71 percent, while median yearly wages increased only 15 percent. And more than 28 percent of individuals working for small businesses are living without health insurance.

I hear from small business owners in Burlington County and Ocean County almost every day. They want to provide health insurance for themselves, their families, and their employees. They just can't afford it.

That's why I'm proud to join a bipartisan group of legislators supporting the Small Business Health Options Program, or SHOP Act. The SHOP Act will allow small businesses to pool their resources and find the best options to meet the needs of their employees.

Let's support small business and their hard work and entrepreneurial spirit.

AMERICAN ENERGY INNOVATION ACT

(Ms. JENKINS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JENKINS. Summer travel season is here and prices at the pump are climbing. Rather than pursuing policies that will help Americans who are already struggling, as well as reduce our dependence on foreign energy, some in this body are leading us down a very different path.

This Congress' decision to embark on a journey toward a future where cap-and-trade taxes every man, woman, and child who dares to flip on a light switch or drive to the grocery store is the wrong approach. There's no doubt we can take better care of our environment, and I'm convinced that with an
