

Agriculture is one of the Nation's most energy-intensive industries and will be negatively impacted by this legislation. Even a small increase in operating costs could devastate rural farmers and ranchers, and this bill could prove to be a huge burden on our agricultural producers. U.S. farmers would also be at a severe disadvantage compared to farmers in nations which do not have cap-and-trade systems with the correspondingly high input costs.

Yesterday I offered an amendment which would have helped defray increased costs of production and declining prices resulting from increased imports or decreased exports.

It is simply not appropriate for allowances to be set aside for other industries heard by the cap-and-trade bill, but agriculture is left out.

#### PUBLIC HEALTH INSURANCE OPTION

(Mr. MURPHY of Connecticut asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of Connecticut. Madam Speaker, I hope today we are going to pass a transformational climate bill that will not only grow jobs in this country but will make us truly energy independent.

And when we get back from our break, it is time to turn our attention to health care. There is a lot of controversy around these issues, but out in the American public, there is no controversy over their desire to see a public insurance option be part of health care reform: 69 percent support in a recent Kaiser Foundation poll; 72 percent in a CBS/New York Times poll; 76 percent by NBC and Wall Street Journal. And it is nonpartisan: 50 percent of Republicans support it, over 80 percent of Democrats.

There might be a lot of controversy on the issue of energy or health care, but on the issue of whether or not Americans want a public option on their table as part of health care reform, the jury has decided.

#### DRIVING UP PRICES

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Madam Speaker, I have noticed that most environmental radicals come from very wealthy or very upper-income families. Perhaps they do not realize how much they have hurt the poor and the lower income and the working people by destroying jobs and driving up prices.

Now, those who seem to be the loudest in saying they are for the little guy are about to pass a bill that is going to hurt the little guy most of all. This cap-and-trade bill is going to drive up prices for gas, utilities, and especially costs for small businesses and farms. Businesses in China and India will probably jump for joy because this will give them even greater advantages.

And college graduates all over this country wonder why they cannot find good jobs and have to keep working as waiters and waitresses because this bill will drive even more jobs to other countries.

I hope everyone who is undecided on this bill will vote for the little guy instead of the big money environmental groups and the very big businesses which will benefit from this very costly bill.

#### RESIGNATION AS MEMBER OF COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE

The SPEAKER pro tempore (Ms. HIRONO) laid before the House the following resignation as a member of the Committee on Transportation and Infrastructure:

CONGRESS OF THE UNITED STATES,  
HOUSE OF REPRESENTATIVES,  
Washington, DC, June 26, 2009.

Hon. NANCY PELOSI,  
Speaker of the House, U.S. Capitol, Washington, DC.

DEAR SPEAKER PELOSI: Given my nomination by the President as Undersecretary of State for Arms Control and International Security, this letter serves as my intent to resign from the Committee on Transportation and Infrastructure, effective today.

Sincerely,

ELLEN O. TAUSCHER,  
Member of Congress.

The SPEAKER pro tempore. Without objection, the resignation is accepted.

There was no objection.

#### PROVIDING FOR CONSIDERATION OF H.R. 2454, AMERICAN CLEAN ENERGY AND SECURITY ACT OF 2009

Ms. MATSUI. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 587 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 587

*Resolved*, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 2454) to create clean energy jobs, achieve energy independence, reduce global warming pollution and transition to a clean energy economy. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. In lieu of the amendment recommended by the Committee on Energy and Commerce now printed in the bill, an amendment in the nature of a substitute consisting of the text of H.R. 2998, modified by the amendment printed in part A of the report of the Committee on Rules accompanying this resolution, shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions of the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, and on any further amendment thereto, to final passage without intervening motion except: (1) three hours of debate, with two and one half hours equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce and 30 minutes equally divided and controlled by the chair and ranking minority member of the Committee

on Ways and Means; (2) the further amendment in the nature of a substitute printed in part B of the report of the Committee on Rules, if offered by Representative Forbes of Virginia or his designee, which shall be in order without intervention of any point of order except those arising under clause 9 or 10 of rule XXI, shall be considered as read, and shall be separately debatable for 30 minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit with or without instructions.

The SPEAKER pro tempore (Mrs. TAUSCHER). The gentlewoman from California (Ms. MATSUI) is recognized for 1 hour.

Ms. MATSUI. For the purpose of debate only, I yield the customary 30 minutes to the gentleman from Texas (Mr. SESSIONS). All time yielded during consideration of the rule is for debate only.

#### GENERAL LEAVE

Ms. MATSUI. I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to insert extraneous materials into the record.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. MATSUI. Madam Speaker, before I begin my remarks, I would like to speak briefly about all that the Speaker has meant to this body.

Since coming to Congress, I have watched ELLEN TAUSCHER navigate the legislative and political waters of the House of Representatives. She has always done so with uncommon grace, skill and acumen which we would all be well served to emulate.

We will all miss her presence here in this Chamber, whether in the chair or on the floor. But we know that she will continue to serve our country well in her new capacity as Under Secretary for Arms Control and International Security at the State Department.

Madam Speaker, H. Res. 587 provides a structured rule for consideration of H.R. 2454, the American Clean Energy and Security Act. The resolution provides for 3 hours of general debate with 2½ hours controlled by the Committee on Energy and Commerce and 30 minutes controlled by the Committee on Ways and Means.

Madam Speaker, from coast to coast we are seeing the effects of our changing climate. Just last week, experts from 13 government agencies and several universities issued a new report on global climate change impacts in the United States. Their analysis was clear: global warming is caused by human-induced emissions.

It is also already having visible impacts in the United States. We are seeing these effects throughout our country, from increases in heavy storms to rising sea levels. From earlier snow melt to alterations in river flows. These experts concluded that negative effects of climate change will continue to worsen.

Climate change will combine with other air pollution, population growth,
