

greenhouse gases and their impact on the environments. The Center for Zero Emissions Research and Technology focuses on developing and validating zero emission technologies for clean energy production from fossil fuels. This would provide an economic benefit in coal and power producing states, reduce reliance on foreign energy sources, and contribute to a better environment.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Department of Energy—EERE

Requesting Entity: Flathead Electric Cooperative, 2510 U.S. Highway 2 East, Kalispell, MT 59901

Description: Funding would be used to extend the geothermal test well to power-generation depths to determine viability of the resource for a future renewable energy source. The Hot Springs area in Lake County, Montana is a proven source for geothermal. The hot water is used as a spa. Shallow wells indicate that the source goes deeper. Preliminary work in the 1980s drilled to 250 feet. The cognizant hydrologist believes that a hot water source which is hot enough for geothermal power production lies deeper in the earth at this spot. Flathead Electric would like to continue drilling this well to verify the potential source for development. Geothermal power is a valuable source of distributed, renewable power for this area.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Corps of Engineers—Construction
Requesting Entity: Rural Montana Water Projects. Allocation of projects and activities within the Corps of Engineers Construction account.

Description: The entities to receive funding for this project are various towns, cities and counties across the state of Montana.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Department of Energy—EERE

Requesting Entity: The Montana Physical Sciences Foundation, 130 North Main, Butte, MT 59701

Description: Funding would be used for research that will provide an alternative means to make carbon-neutral fuel from abundant biomass waste products such as straw, wood mill waste, as well as non-food crops such as switch grass, for the production of renewable fuels.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Corps of Engineers—Investigations
Requesting Entity: Yellowstone River Conservation District Council, 1371 Rimtop Drive, Billings, MT 59105

Description: The purpose of the project is to better the management of the Yellowstone River, its waters and adjacent lands. The project study products have already been used to: (1) develop best management practices to control riparian spread of Russian olive, including bringing in demonstrations of equipment and practices best suited for removing this negatively impacting invasive plant; (2) be a catalyst for fish passage projects on the Yellowstone main stem and the Tongue River. These projects have both increased habitat for warm water fish in the lower Yellowstone and improved/promised improvement of irrigation infrastructure by stabilizing diversion structures and/or helping purchase pumps and pump equipment; (3) de-

velop a method to understand how far the Yellowstone river channel is likely to migrate through the next 50 years, allowing better planning for safe riverside development; and (4) improve conditions for the endangered pallid sturgeon while preserving and improving irrigation facilities.

Requesting Member: Hon. DENNY REHBERG
Bill Number: H.R. 3183

Account: Corps of Engineers—Construction
Requesting Entity: Yellowstone River Intake Irrigation Diversion Fish Passage (Missouri River Fish Mitigation), The Nature Conservancy, 2721 2nd Ave N, Suite 310, Billings, MT 59101

Description: The Lower Yellowstone Project at Intake is a Bureau of Reclamation irrigation project located on the Yellowstone River. The Corps of Engineers received authority to utilize Missouri River Recovery Program funds to proceed with the Lower Yellowstone Project through WRDA 2007. The Yellowstone River is the largest tributary to the Missouri River and historically served as native habitat to pallid sturgeon. Providing fish passage at Intake Diversion Dam will open up a minimum of 165 river miles of additional pallid sturgeon habitat.

EARMARK DECLARATION

HON. CLIFF STEARNS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, September 14, 2009

Mr. STEARNS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I have received in the Defense Appropriations Act, the Labor, Health and Human Services and Education Appropriations Act and the Transportation and Housing and Urban Development Appropriations Act.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3326

Account: OP,A

Legal Name of Requesting Entity: Florida National Guard

Address of Requesting Entity: 82 Marine Street, St. Augustine, FL 32084

Description of Request: I have secured \$5,000,000 by the Florida National Guard at Camp Blanding to install a Regional Emergency Response Network that would provide cellular service during the crucial hours after a disaster occurs. This would allow first responders to communicate with already existing hand held equipment thus providing a much quicker and focused coordinated recovery effort. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3326

Account: RDTE,A

Legal Name of Requesting Entity: Nanotherapeutics

Address of Requesting Entity: 13859 Progress Boulevard, Suite 300, Alachua, FL 32615

Description of Request: I have secured \$2,000,000 for Nanotherapeutics to evaluate NanoFUSE for its ability to expedite the healing of open bone fractures among injured U.S. soldiers. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3326

Account: RDTE,A

Legal Name of Requesting Entity: University of Florida

Address of Requesting Entity: 229 Tigert Hall, Post Office Box 113157, Gainesville, FL 32611

Description of Request: I have secured \$2,750,000 for the University of Florida. Working in cooperation with the Army Natick Soldier Center, UF/IFAS CFDR will use the funds to manage a multidisciplinary program to identify and demonstrate wireless technologies such as radio frequency identification (RFID) in a simulated perishables supply chain. This project will address a critical area to the delivery of optimum quality combat rations and other perishable products: Wireless technologies will be coupled with various environmental and bio-sensors in order to accurately capture and transmit environmental storage and product quality data, and programs developed to automatically calculate in real time the remaining shelf life of combat rations and other perishable products. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3326

Account: RDTE,AF

Legal Name of Requesting Entity: Florida Institute for Human and Machine Cognition

Address of Requesting Entity: 15 Southeast Osceola Avenue, Ocala, FL 34471

Description of Request: I have secured \$1,000,000 for the Florida Institute for Human and Machine Cognition. Many military scenarios ranging from combat operations to search and rescue can benefit significantly from teams of humans, robots, and computers that collaborate and coordinate together to solve a problem. This project will provide an innovative solution to the collaboration and coordination problem by tying together computers and humans into a single, collaborating system by virtue of a single program that rapidly moves between all the computers in the system. By making the program move fast enough, the approach creates the illusion of each computer running the same program all the time. Having a single program greatly simplifies the complexity of developing a solution for coordination and collaboration while at the same time improving the ability to debug, verify, and validate the solution. Furthermore, this approach will allow the system to be more robust, resilient, predictable, and efficient when compared to other approaches. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3288

Account: Federal Transit Administration, Bus and Bus Facilities

Legal Name of Requesting Entity: City of Gainesville, FL

Address of Requesting Entity: 200 East University Avenue, Gainesville, FL 32501

Description of Request: I have secured \$750,000 for the City of Gainesville. The funding will be used by the City of Gainesville for bus replacement. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3293

Account: HHS, HRSA

Legal Name of Requesting Entity: University of Florida

Address of Requesting Entity: 229 Tigert Hall, Post Office Box 113157, Gainesville, FL 32611

Description of Request: I have secured \$350,000 for the University of Florida for facilities and equipment. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3293

Account: DOE, Higher Education

Legal Name of Requesting Entity: Santa Fe College

Address of Requesting Entity: 3000 NW 83rd Street, Gainesville, FL 32606

Description of Request: I have secured \$450,000 for Santa Fe College. The funding will be used to establish a Clinical Laboratory Sciences Program at Santa Fe College. Alachua County is home to the largest cluster of bioscience companies in the state of Florida. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3293

Account: HHS, HRSA

Legal Name of Requesting Entity: Santa Fe College

Address of Requesting Entity: 3000 NW 83rd Street, Gainesville, FL 32606

Description of Request: I have secured \$150,000 for Santa Fe College. The funding will be used to construct an additional 40,000 square feet of classroom space at the new Alachua Emerging Technologies Center. This Center will house the new Clinical Laboratory Sciences program and a Biotechnology program. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman CLIFF STEARNS

Bill Number: H.R. 3293

Account: DOE, Elementary & Secondary Education

Legal Name of Requesting Entity: Alachua County, FL

Address of Requesting Entity: 12 South East 1st Street, Gainesville, FL 32601

Description of Request: I have secured \$250,000 for Alachua County, FL. The funding will be used for the expansion of a multi-agency initiative designed to provide programs and services to at-risk children through a comprehensive after school program. I certify that neither I nor my spouse has any financial interest in this project.

TRIBUTE TO DANIEL S. HOFFMAN

HON. DIANA DeGETTE

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Monday, September 14, 2009

Ms. DeGETTE. Madam Speaker, I rise to honor the extraordinary life and remarkable achievements of Daniel S. Hoffman. Dan Hoffman was an icon in the legal community, an educator, and a public servant who spent his life working for justice.

Dan Hoffman was a leader of Colorado's legal community. He served as president of both the Colorado Bar Association and the Colorado Trial Lawyers Association (the only person who has held both those posts) and state chair of the American College of Trial Lawyers. In recognition of his outstanding work, Dan was honored with the Colorado State Committee of the American College of Trial Lawyers Lifetime Achievement Award, the American Jewish Committee Judge Learned Hand Award, and the University of Denver Sturm College of Law Outstanding Alumni Award.

Dan was an inspiring teacher at the University of Denver Sturm College of Law, where he also served as Dean from 1978 to 1984. The Hoffman Cup, Sturm's most prestigious trial advocacy award, is named for Dan. Students remember Dan as a legal giant who was nonetheless accessible to everyone, including first-year law students, and made them feel that he cared. He mentored many law students and lawyers early in their careers, including my husband, Lino Lipinsky.

Dan was a stellar litigator and advocate. In the 1970s, Dan became part owner of the Denver Nuggets of the American Basketball Association and negotiated the merger of the ABA with the NBA. In one notable case, he represented Michael Jackson against a Denver woman who claimed she had written one of Jackson's hits. Dan's masterful direct examination of Jackson, which included having Jackson sing two songs a cappella, giving the jury a new view of Michael Jackson, is taught in law schools and at the National Institute of Trial Advocacy as a model of direct examination. Whether representing his corporate clients or the "little guy," he was, in the words of Colorado Supreme Court Justice Michael Bender, "the ultimate model of a wonderful lawyer."

Dan Hoffman was born May 4, 1931, in New York City. He graduated from high school at 15 and enrolled in college at the University of Colorado at 16. He received his law degree magna cum laude from the University of Denver. At age 32, he became the City of Denver's youngest-ever public safety manager and led a successful campaign to clean up corruption in the Denver Police Department. Public service was always part of this life.

Dan's commitment to justice and fairness was lifelong. In 1965, he joined Martin Luther King on his civil-rights protest march in Alabama from Selma to Montgomery. He was state director for Sen. Robert Kennedy's 1968 presidential campaign. He joined the protests later that year at the Democratic National Convention in Chicago. As an activist and an advocate, he stood up for the injured and those without a voice.

The Colorado legal community has seen many notable lawyers pass through its diverse community, but none like Dan Hoffman. A champion of justice, a crusader for civil rights, a community leader and a teacher and mentor to many, Dan Hoffman has left an indelible mark on all those privileged to have known him. Please join me in paying tribute to the life of Daniel Hoffman.

TRIBUTE TO FIRST AFRICAN METHODIST EPISCOPAL ZION CHURCH

HON. BILL PASCHELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, September 14, 2009

Mr. PASCHELL. Madam Speaker, I would like to call to your attention the work of an outstanding religious institution, the First African Methodist Episcopal Zion Church in Paterson, New Jersey, which is celebrating its 175th Anniversary of dedicated service to its members, and by extension, the greater community.

It is only fitting that the First African Methodist Episcopal Zion Church in Paterson be honored in this, the permanent record of the greatest democracy ever known, for the spiritual home it has provided to its members, and to the greater Paterson community that helps keep this deeply rooted Church family growing towards the future.

The documented history of the First African Methodist Episcopal Zion Church begins in 1834, making it the oldest Black Church in Passaic County. The first Pastor in Charge of what was then the Paterson A.M.E. Zion Church was Rev. William Serrington, and he reported 22 members. They built a church on Godwin Street and adopted the name of Zion Methodist Episcopal Church, affiliating with the Zion Methodist Episcopal Connection. By 1836, the membership had grown to 26. The next documents report in 1845, that Rev. George Gernet was Pastor in Charge. In 1846, the Trustees of the Church deeded property on Godwin Street, and contracted to have a church built. They leased a nearby home for the minister.

In 1847, the Pastor in Charge, Rev. Vanhass, serving as the first minister of the Godwin Street A.M.E. Zion Church, reported a membership of 13 people. Nine more ministers would succeed Rev. Vanhass over the next five decades. In 1889, during the pastorate of Rev. White, a great revival coupled with the failure of the Bethel A.M.E. Church in Paterson added 105 more people to the congregation. The next Pastor was Rev. Anderson, whose plans to build a new edifice led to the demolition of the Godwin Street Church. He was soon transferred, and the task of raising funds for a new building fell to Rev. Blalock, which was completed in 1897. Five other pastors followed before Rev. Williams was appointed in May of 1911. He led the congregation in the purchase of the current site in 1915, but the building was destroyed by fire in 1921. Rev. Donawa led the construction of a parsonage, and then in 1924, Rev. Cole erected the church which the congregation still worships in today.

Keeping the name of the Godwin Street A.M.E. Zion church now stood on the corner of Summer and Ellison Streets. It was led through this period by Rev. Robeson, then Rev. Cowan, and then Rev. Taylor who later became the Bishop. In 1945, the mortgage was paid off and the name of the church changed to First A.M.E. Zion.

During the pastorate of Rev. Roberts, a conflict resulted in a separation, and sonic congregants left him to establish the New A.M.E. Zion Church, also located in Paterson. A building fund started by Rev. Mapp left the Church with over \$11,000 in the Treasury, and
