HONORING THE MEMORY OF  
TERRENCE BARNICH

**HON. MIKE QUIGLEY**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 22, 2009*

Mr. QUIGLEY. Madam Speaker, I rise today to honor the memory of Terrence (Terry) Barnich and the sacrifice he made for his country. Terrence was serving as the Deputy Director of the Iraq Transition Office in Baghdad when his motorcade was attacked by an improvised explosive device on May 25, 2009. He had dedicated his life to his country, leaving a comfortable life in Chicago and signing on for multiple tours in Iraq where he worked for more than two years.

Terrence was an exemplary and valiant U.S. citizen. Volunteering to serve in Iraq in a time of war attests to his loyalty and dedication to our country. As the Deputy Director of the Iraq Transition Group, he lent his skills to rebuilding and improving Iraq's energy infrastructure in an effort to help build a better future for the people of Iraq. His leadership in Iraq's transition has benefited thousands and will continue to affect generations to come. This is a great

loss not only to the Illinois 5th District, but also to the United States and Iraq.

Terry will be remembered by the American people as a selfless public servant whose memory will live on through his great accomplishments both here and in Iraq. On behalf of my family and the people of the 5th Congressional District of Illinois, I extend my deep condolences to his family. I hope that time and memories will help lessen the burden of their grief.

REMEMBERING MARTHA L. LEWIS,  
DADE CITY, FL

**HON. GINNY BROWN-WAITE**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 22, 2009*

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today to pay tribute to a woman who thrived amidst adversity and dedicated her life to educating others so that they might not have to endure the same hardships that were bestowed upon her.

A lifelong Florida resident, Martha L. Lewis was born on November 4, 1922 in Lake Butler, Florida. Growing up, she had a strong desire to become a teacher. After graduating from high school, she saved up enough money to attend Bethune-Cookman College. She graduated first in her class earning a bachelor of science degree in elementary education.

While attending Bethune-Cookman, she also met her future husband, Andrew N. Lewis Jr. He was the first African American to earn a high school diploma in Dade City. In their 48 years of marriage, they raised three children; Andrea, Angela and Andrew III. They were separated only by his death on July 24, 1995.

Martha continued her education earning her masters of education degree in 1957. She parlayed her education into a long and fulfilling career as a teacher in Pasco County. She began as a teacher at Moore Academy; the first all black school in Dade City prior to integration, was later appointed principal of Moore Elementary School in 1968 and, in 1970 was promoted to administrative supervisor of the Migrant Education Program for Pasco County.

She retired in 1973 after 27 years of devoted service to the public schools of Florida as a teacher, principal, and supervisor. Like her husband, she too will forever hold a place in Pasco County's history: upon her death, she was the only living black administrator of the Moore-Mickens Complex.

She spent the next 25 years as a pianist and choirmaster for the St. Paul Missionary Baptist Church in Dade City. After retiring in 2003, she pursued a new found love of travel: she visited four of the seven continents.

Martha leaves behind a litany of loved ones to cherish her memory and pass on her legacy to the many generations to come.

100TH ANNIVERSARY OF BROOKS  
1ST CONSTRUCTION

**HON. MARK E. SOUDER**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, September 22, 2009*

Mr. SOUDER. Madam Speaker, I rise to recognize the 100th Anniversary of Brooks 1st Construction. Brooks Construction is the consummate local family business. It started in 1909 as a partnership between two friends, James Brooks and Lester Ginn, with a \$7,000 dollar investment from a Fort Wayne businessman, and today has grown into a leader in the construction development industry.

The capable hands of Brooks 1st Construction were responsible for much of the Third District's early infrastructure development. What is known today as Old Maumee Road was originally constructed by Brooks in 1911 to connect the cities of New Haven and Fort Wayne and was the first concrete road in the state of Indiana. With the growth of automobiles, Brooks Construction established itself as a leader in highway and road construction and in 1957 was charged with constructing the first section of the Indiana Toll Road.

Today, it is the premier contractor in Northeast Indiana, constructing highways, paving residential and commercial areas, and installing underground utilities across the Midwest. It is the standard for quality—its expansion of I-69 was selected as one of only eight finalists for the 1999 National Quality Initiative Award and five of its plants have received Diamond Awards from the National Association of Pavement and Development Association for excellence in appearance, safety, permitting and compliance, operations, environmental practices, and community relations.

Over the years, innovation has also defined Brooks 1st Construction, and its developments have led to the advances throughout the construction industry. They were one of the first companies to use self propelled concrete mixers. When the limitations of early trucks and drivers led to difficulty transporting materials, James Brooks developed a 'turntable' to automatically turn around trucks and allow for accurate unloading. Early construction projects were often hindered by mobility and the amount of time it would take to move from one

job to the next. To address this issue, Brooks Construction helped design "portable" plants, enabling them to move within 3 to 4 days. Their design soon became the industry standard greatly increasing efficiency.

More recently, Brooks' innovative spirit has led to environmental advances. In collaboration with National Serv-All, it developed a Landfill Gas Energy Recovery Project that utilizes waste gases created at an area landfill to heat one of its asphalt production plants. It also attempts to incorporate recycled materials in its products working to constantly find new ways to reduce costs and create a green product.

Throughout its long and successful history, Brooks 1st Construction has retained strong ties to the community where it got its start. The main facilities are still in Mishawaka, Goshen, Auburn and Fort Wayne Indiana. It is active with a number of local charities including Habitat for Humanity, the Boys and Girls Club, Family and Children Services to name a few. Brooks' contributions to educate young people and help them develop the leadership and entrepreneurial skills needed to succeed resulted in the company being inducted into the Junior Achievement Greater Business Hall of Fame.

I ask my colleagues to join me in recognizing the 100th Anniversary of Brooks 1st Construction.
