RECOGNIZING D & G MACHINE PRODUCTS, INCORPORATED

● Ms. SNOWE. Mr. President, today I honor the work of a small business from my home State of Maine that produces innovative machine products used to expand the capabilities of factories in all sectors of our nation's economy. Founded in 1967 by Dave Gushee and Fred Loring in a one-car garage, D&G Machine Products, Incorporated, of Westbrook, is now responsible for producing the custom machinery vital to the operation of some of our nation's largest manufacturers.

With 79 highly-skilled employees and multiple facilities totaling more than 100,000 square feet, D&G's custom machine production has boundless possibilities. The company's highly trained designers utilize advanced engineering component modeling software to ensure an accurate and time-effective production process in creating a wide range of manufacturing equipment and machinery such as turbine parts, crank shafts, aerospace components, and food processing equipment.

The company also provides products to myriad companies in the pulp and paper, high technology, power, petrochemical, and defense industries. Furthermore, because D&G is a full-service manufacturer, they are capable of producing manufacturing equipment from a "build to print" template, or they can design, install, and implement a new manufacturing model based on a company's request. D&G's commitment to quality and stellar reputation has led to partnerships with numerous American manufacturing giants, such as Georgia-Pacific, General Dynamics, and Raytheon.

Notably, D&G's owner, Duane Gushee, sits on the Manufacturers Association of Maine's, MAMe, Board of Directors. MAMe does tremendous work to promote our State's remarkable manufacturers and to help them become increasingly more competitive. Additionally, as a member of the Maine Aerospace Alliance, one of MAMe's key initiatives, D&G is working to bolster our State's fledgling aerospace industry, which relies upon heavy manufacturing and holds significant promise for Maine's economic future. D&G's equipment design ingenuity is also helping our country keep its waters safe as this innovative small business provides advanced, custom-designed manufacturing tools to the U.S. Coast Guard.

D&G has been consistently recognized for its commitment to quality and critical prowess in the manufacturing field. For example, in 2004, Mr. Gushee was recognized with the Southern Maine Community College Alumni Business Innovation & Entrepreneurial Spirit Award. In turn, D&G has given back to the community in many ways, including making generous yearly do-

nations to the Bruce Roberts Toy Fund, which goes toward the purchase of gifts for needy children.

Beginning as a garage business producing custom tools for manufacturers in Portland and becoming one of the most relied-upon manufacturing equipment suppliers in the nation, D&G and its founders Dave Gushee and Fred Loring provide us with a prescient example of the power of American ingenuity and determination. D&G's success is summed up by Duane Gushee's philosophy of "constantly modernizing"—words of wisdom for companies seeking to become competitive in today's challenging global marketplace. I congratulate everyone at D&G Machine Products for their invaluable service to our Nation, and I wish them continued success in the future.●
