

Mr. Speaker. Those senior citizens will experience drastic changes to their Medicare coverage as a result of the \$500 million Medicare Advantage cut imposed by the Democrats' bill, H.R. 3200.

Democrats may silence all of our Republican bills, but they are wrong if they believe Republicans will keep silent and allow senior citizens in America, who have already spent the majority of their lives contributing to this Nation, to be forced to give up the health care coverage they so vitally need in order to pay for a socialist, government takeover of health care which has failed in every State and in every country that has been unwise enough to allow it to happen.

HEALTH CARE

(Mr. SCALISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCALISE. Mr. Speaker, right now, while the Democrats who are running Congress are meeting behind closed doors to rewrite a government takeover of health care, the American people are asking why are they being left out?

Senior citizens know that they are being left out of this health care bill because they are looking at the \$400 billion in cuts to Medicare that President Obama and Speaker PELOSI's bill will impose upon them, including almost the elimination of Medicare Advantage, which is a program that over 100,000 in Louisiana want and like and will be denied under their bill.

Small businesses and families are wondering why they are being left out of these discussions when they look at over \$800 billion in new taxes that American families will have to pay, many of which make below \$70,000, which violates one of the President's pledges.

What the American people want is real health care reform, and that is why we have brought a number of bills, including H.R. 3400, which actually goes in and addresses the problems, like preexisting conditions, addressing those problems like lowering the cost so that people can have portability and buy across State lines, and actually passing real Medicare liability reform to lower the cost of health care.

Let's fix the problems that are broken, not break what is working.

HEALTH CARE

(Mr. LUETKEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LUETKEMEYER. Mr. Speaker, this morning I had the opportunity to meet with a group of Honor Flight veterans at the World War II veterans memorial. These ladies and gentlemen are

our heroes. One of them came up to me and said, Congressman, please don't let them take my Medicare away. That is a solemn promise.

They are concerned about the quality of care, about the costs they are going to incur. This is something that is extremely important to our seniors.

Over the weekend, I had an opportunity to talk to a businessman. He came up and said, Congressman, please don't let them implement these mandates and these excessive taxes on me. I can't survive as a business.

The American people are looking over these proposals and they are saying "no." A while ago we heard that it is not leadership unless you vote "yes." I say it is time we start listening to the people and doing what they want. They have looked at these issues, they have looked at these proposals, and they have said "no." I think we need to listen to them, because they are the ones who are going to pay the bills, they are the ones that are going to be impacted by it, and they say "no."

HEALTH CARE REFORM

(Mrs. CHRISTENSEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CHRISTENSEN. Mr. Speaker, I am sick and tired of all of the lines in the sand on health care reform. This is something that we have to do, something we cannot afford not to do. To quote Fannie Lou Hamer, on behalf of African Americans and all who are un- and underinsured, "We are sick and tired of being sick and tired."

This Congress has an obligation to end this, and those who continue to misrepresent the facts need to stop. The bills being put together will end insurance discrimination and the dropping of coverage when one needs it most. We will provide a public plan for those who choose to use it, and, if we do it right, we will reduce the high cost of insurance and will end those insurance horror stories.

With our bill, we will ensure security for our seniors, affordability for the middle class, access to quality health care for the poor and our responsibility to our children. We can do this without adding to the deficit.

So I think everyone needs to get up off of that hard line and come together around the most important thing we can do in our time here—give every American the possibility of health, wellness, and a decent quality of life.

HEALTH CARE

(Mr. WESTMORELAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WESTMORELAND. Mr. Speaker, this majority has just run a \$1.4 trillion deficit for fiscal year 2009, even as we are told a new health care entitle-

ment will reduce red ink by \$871 billion over 10 years. But let's look at history and what has happened since the government has got involved in health care.

Prior to the creation of Medicare and Medicaid in 1965, health care inflation ran slightly faster than overall inflation. In the years since, medical inflation has climbed 2.5 percent faster than the cost increases elsewhere in the economy.

Let's start with Medicaid. House Ways and Means in 1965 estimated that the first 5 years' cost would be \$238 million. Instead, it hit more than \$1 billion, and costs have kept climbing since.

Let's look at this. In 1965, Medicare, another government program, was projected to cost \$12 billion by 1990. It cost \$110 billion. Medicare hospital, 1965 projected 1990 costs, \$9 billion; actual cost, \$67 billion.

Let's look at history and see what happens when the government gets involved.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members should heed the gavel.

HEALTH CARE

(Mr. RYAN of Wisconsin asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RYAN of Wisconsin. Mr. Speaker, Wisconsinites might want to know that just recently our Blue Cross Blue Shield program announced that people in their twenties under this health care bill will see a 199 percent increase in their health insurance premiums. People in their forties will see a 122 percent increase in their health insurance premiums. People in their fifties will see a dramatic double-digit increase in their health insurance premiums.

Mr. Speaker, 214,000 Wisconsinites might want to know that their Medicare Advantage plan that they enjoy will be either dramatically more expensive or will go away completely. The American taxpayer might want to know that government estimators are telling us that this bill will cost \$1 trillion to \$2 trillion in a new health care entitlement, which will surely add more deficit and debt to future generations.

The shame of all of this, Mr. Speaker, is that we could fix what is broken in health care without breaking what is working in health care. Republicans have offered 40 different pieces of legislation in an attempt to get bipartisan compromise, to make sure that the uninsured get insured, that people with preexisting conditions get health care, and we do this without breaking the bank, without raising taxes and without creating new debt and deficit and entitlements.
