

Federal Government service. He is a remarkable, inquisitive man who, with passion and dedication, has worked tirelessly throughout his career to advance our knowledge of the Earth, Space and social sciences. He has been a soldier, educator, explorer, scientist, writer and devoted family man.

Mr. Meunier, originally from Buffalo, New York, began his Federal Career by enlisting in the U.S. Air Force (USAF) in 1963, when President John F. Kennedy was Commander-in-Chief. Staff Sergeant (E-5) Meunier served overseas for almost 3 of his 4 years with the USAF Security Service. After military service, he used the GI Bill (Vietnam War Era) to earn a Bachelors and Masters Degree in Geology, Geography, and Earth-Space Sciences from the State University of New York at Geneseo and SUNY Brockport, New York. After teaching math and science in the Rochester, New York area, Mr. Meunier joined the USGS Topographic Division, Office of Research and Technical Standards, in May 1972.

Always interested in cutting edge science and technology, Mr. Meunier became one of the USGS's first Research Digital Cartographers and an early advocate of using Landsat imagery for field research and mapping applications. Also, as a physical scientist/cartographer, Mr. Meunier made significant contributions to the USGS program in Antarctica, an international program that spans more than 60 years. He has been a member of three deep field expeditions to Antarctica, including a 14 month period, serving as a member of one of the first USGS satellite surveying winter-over teams at South Pole Station during 1974. For this expedition, in 1974, Mr. Meunier was awarded the Antarctic Service Medal of the United States of America. During the 1982-83 field season, as a member of Antarctic Search for Meteorites (ANSMET) group, working in a previously unexplored region on the East Antarctic Plateau, he initiated a successful plan for locating blue-ice areas with meteorite concentrations using Landsat satellite imagery and also developed a new satellite surveying positioning method to locate and map the meteorites discovered in field operations. In 1995-96, Mr. Meunier was a member of the first U.S. Absolute Gravity team obtaining measurements in the McMurdo and Dry Valley areas and as a supporting member of the South Pole Overland Traverses' search for a usable over-snow route to resupply the South Pole Station. Finally, during the just completed International Polar Year (IPY), Mr. Meunier published a series of USGS Open-File Reports on the Scientific Accomplishments of the USGS over the past 60 years.

Throughout his career, Mr. Meunier has demonstrated a continuing dedication to the advancement of polar science. His contributions to research and the mapping of Antarctica have provided the Nation an invaluable asset. In 1977, at the recommendation of the Advisory Committee on Antarctic Names, Mount Meunier, a feature on the Walgreen Coast of Marie Byrd Land, Antarctica, was named in his honor by the United States Board on Geographic Names. Also, in recognition of his exemplary scientific and programmatic contributions to the U.S. Geological Survey's scientific activities in the exploration of Antarctica, the Department of the Interior, in 2009, awarded Tony Kenneth Meunier, its second highest honor, the Meritorious Service Award.

Madam Speaker, I ask my colleagues to join me in saluting Mr. Meunier for his 42 years of public service, for his accomplishments and for all he has done to engender continued interest in the advancement of knowledge among his colleagues and the public at large.

HONORING BUD HUDDLESTON

HON. TRAVIS W. CHILDERS

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 21, 2010

Mr. CHILDERS. Madam Speaker, I rise today to recognize the life of Bud Huddleston as a music legend from North Mississippi. Mr. Huddleston has been a working musician in Tippah County and across North Mississippi for over 50 years.

Mr. Huddleston, a lifelong resident of Tippah County, has spent the last half century making music and thrilling local crowds with his beloved wife, Hazel, now sadly deceased. The two met in the mid-1940s when Bud encountered Hazel playing at a dance in a band with her father and brothers. He remembers liking both her looks and her guitar playing. Despite the fact that Hazel's father accompanied them on their first date, they continued to see one another and play together, eventually getting married in 1949.

Both Bud and Hazel Huddleston played music from childhood and learned from family members. The Huddlestons attributes a 1979 encounter with bluegrass musician Clarence Goodrum as having a significant impact upon their career. Although the two played country music, Mr. Huddleston's great love was bluegrass. Having the opportunity to spend time and play with Goodrum convinced Mr. Huddleston to make the change and they have played mountain music ever since.

Despite an excellent reputation as live performers, the couple may be best known for their radio work. Since 1982, the Huddlestons were a fixture on the airwaves on Kudzu 102, a station that covers a large portion of North Mississippi, North West Alabama and South West Tennessee. They performed a bluegrass show on KUDZU 104.9 Saturday mornings and a bluegrass gospel program on Sundays. Mr. Huddleston is the voice of the program and chooses the music. Mrs. Huddleston lost her long battle with cancer on March 29, 2008.

Mr. Huddleston still lives in Ripley, Mississippi where the Huddlestons have sponsored the Tippah Lake bluegrass festival for over 20 years, now with crowds of more than 700. I ask my colleagues to join me today in thanking Mr. Bud Huddleston for the joy his years of performances and broadcasts have brought to his audience. We recognize him today for a life of love and musicianship.

IN HONOR OF BISHOP DR. AUDREY F. BRONSON

HON. JOE SESTAK

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, January 21, 2010

Mr. SESTAK. Madam Speaker, I would like to honor Bishop Dr. Audrey F. Bronson in recognition of her investiture as President of the

Zion Baptist Church in Philadelphia, Pennsylvania on January 24, 2010.

Dr. Bronson is an ordained minister and consecrated bishop. She began preaching at the early age of fourteen and after many years of serving as an evangelist, she established the Sanctuary Church of the Open Door in 1975. Under her leadership, Sanctuary Church grew rapidly. She also founded the Sanctuary Christian Academy in 1978, a private academic school from pre-school to fifth grade; the Sanctuary Bible Institute and the Sanctuary Counseling and Referral Center.

Because of the demands of a growing church, Dr. Bronson retired from Cheyney University in 1984 as Associate Professor of Psychology after seventeen years of teaching. She served as Dean of the Philadelphia Urban Education Institute, a subsidiary of the African American Interdenominational Ministries, Inc. (AAIM, Inc.) of Philadelphia in association with the major seminaries of Philadelphia, Pennsylvania. Dr. Bronson serves as secretary on the board of One Church, One Child, Inc. of Pennsylvania, a statewide organization organized to encourage members of African American Churches to adopt African American children. She also served on the Mayor's Transition Team.

Dr. Bronson is deeply touched by human suffering and her church doors are open seven days a week to minister to people in need of both spiritual and physical help. Dr. Bronson has served as block captain; ministered in prisons; worked to rid the area of drugs surrounding her church and helped to feed homeless people. She has a tremendous desire to bring about changes in the lives of her fellowman and faith in his ability to help himself. Dr. Bronson will continue her good works as President of the Zion Baptist Church.

The Zion Baptist Church began as a missionary prayer meeting in 1882 led by Reverend Horace B. Wayland in the home of Mr. & Mrs. Lewis Simms. Over the years, Zion membership grew to an extraordinary 6,000 congregants. In 1955, Zion moved to its current location at Broad & Venango Streets, where it was transformed into an urban Christian center. To this end, the Church initiated the following programs: a day care center, credit union, community center programs, employment agency, retirement home, adult education courses, reading classes and family counseling.

The Zion Baptist Church and its leadership have consistently placed an emphasis on community development and Christian youth leadership. Community, social, and theological initiatives organized by the Church include the Zion Center for Corresponding Biblical Studies, weekly Bible Study, Transportation Ministry, Puppet and Clown Ministry, spiritual retreats, leadership workshops, Zion Outreach Support Ministry and the Human Services Center.

Dr. Bronson's selection as President of the Zion Baptist Church is the well earned result of many years of dedicated service to the church and the Philadelphia community at large. On behalf of the Seventh Congressional District, I wish Dr. Bronson continued success in this new endeavor.
