

**ANNOUNCEMENT BY THE SPEAKER
PRO TEMPORE**

The SPEAKER pro tempore. The Chair will entertain up to 15 further requests for 1-minute speeches on each side of the aisle.

**URGING MEMBERS TO COSPONSOR
THE GREEN JOBS ACT**

(Ms. SCHWARTZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SCHWARTZ. I rise today to announce new legislation that will incentivize development and production of the next generation of biofuels.

As Congress seeks ways to grow jobs, reduce our alliance on foreign oil, and develop cost-effective renewable energy sources, the cellulosic biofuel industry has enormous potential to help meet this demand, create green jobs, and bring economic benefits to rural and urban communities across our Nation.

American companies can be at the forefront of producing the next generation of renewable biofuels developed from biomass as alternatives to fossil fuels. Enactment of my proposal, the Green Jobs Act, will accelerate construction of bio-refineries and encourage the domestic production of biofuels, bio-based chemicals and other bio-based products. It will reduce our reliance on foreign oil, reduce carbon emissions, and create thousands of good jobs here at home.

There is no better time than today to make smart investments in America's renewable green economy. I urge my colleagues to cosponsor the Green Jobs Act.

EXTEND THE R&D TAX CREDIT

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, Congress should be considering job creation policies to get America's economy rolling once again. A proven method has been the research and development tax credit to stay competitive in the global marketplace and to keep high value research and development jobs.

This tax credit is only available for certain qualified research performed in the United States, and 70 percent or more of the benefits will go straight to the salaries of workers performing U.S.-based research. In South Carolina alone, more than 600 firms participate in research and development activity, spending more than \$1.3 billion a year.

If Congress will increase the rate from 14 percent to 20 percent, we can promote more R&D jobs in the United States and ensure that South Carolina and America remain competitive for research-intensive companies. The United States now ranks 17th in the world when compared to incentives for

private sector research, and I urge Congress to offer more support.

In conclusion, God bless our troops, and we will never forget September 11th in the Global War on Terrorism.

**TIME FOR COMPREHENSIVE
IMMIGRATION REFORM**

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, in my district, a 45-year-old mentally disabled legal immigrant, Guillermo Gomez-Sanchez, was unjustly detained by ICE for 4 years. This tragedy is further evidence that we need comprehensive immigration reform now.

Over the weekend, I marched with 2,000 individuals in San Bernardino, California, to oppose Arizona's law, SB 1070, and support the passage of comprehensive immigration reform. This unconstitutional law is inspired by racism and will lead to racial profiling of Hispanics and people of color.

The Arizona Association of Chiefs of Police opposes this law because they know it will hurt community relations and waste valuable resources. This hateful law also has a negative impact in schools and will lead to increased bullying of Hispanic children.

I urge Americans to boycott the State of Arizona and show their opposition to the misguided Arizona law by wearing these red, yellow, and blue bracelets.

Republicans and Democrats must work together to enact comprehensive immigration reform for human rights, respect, and having our families work together and work toward securing our borders.

**NEW YORK TIMES OBLIVIOUS TO
IMMIGRATION PROBLEM**

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, when it comes to the subject of immigration, The New York Times is fast losing its credibility.

A New York Times editorial says the new Arizona immigration law turns all the State's citizens into criminal suspects. Of course, that is an unbelievable exaggeration.

The New York Times says the law requires police officers to question anyone who looks like an illegal immigrant. Actually, it doesn't require anyone to do anything except obey the law.

The New York Times says that Arizona should welcome and assimilate all newcomers, making no distinction between illegal and legal immigrants.

Maybe from a New York City skyscraper it is hard to see the border violence, the human smuggling, the drug trafficking, the lost jobs and the crowded schools, much of it caused by those who break our immigration laws.

**COMMENDING MOUNT CARMEL
SCHOOL, NORTHERN MARIANA
ISLANDS**

(Mr. SABLAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SABLAN. Mr. Speaker, the National High School Mock Trial Competition is the premier national law-related academic tournament for high school students. Mock trial programs are designed to give students an inside perspective on our legal system, providing them with an understanding of the mechanism through which society chooses to resolve many of its disputes.

Participation in a performance-based, hands-on program of this nature provides students with a practical knowledge about how our legal system operates and who the major players are in that system. Mock trial programs help develop young citizens who can sustain and build our Nation by making a reasoned and informed commitment to democracy.

Students of Mount Carmel High School have earned the right to represent the Northern Mariana Islands in this year's national competition in Philadelphia. They will compete with teams from around the country.

Mount Carmel students have a tradition of excellence in oratory. The school represented the Northern Mariana Islands in the National We the People program 2 years in a row. Mr. Ryan Ortizo, one of the members of this year's competition in Philadelphia, just won first place in the CNMI Attorney General's Cup competition.

One has to admire and be proud of the dedication of the students and the commitment of the teaching staff at Mount Carmel School for instilling the passion for debate and public speaking year after year.

SHOOTOUT IN ARIZONA

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, Deputy Louie Puroll was in his patrol vehicle last Friday afternoon in Pinal County, Arizona, patrolling the border, but he was 75 miles north of the border. There is not much Border Patrol activity there because it is so far north, but there is plenty of drug smuggling going on.

Deputy Puroll spotted backpacks full of drugs and suspicious activity. He radioed for backup and began to track the group. A drug cartel paramilitary squad opened fire on him with automatic weapons. He was shot in the side by an AK-47. This is the first time one of these squads has shot a lawman that far north, just 50 miles from Phoenix. The shootout lasted 10 minutes. The wounded deputy called for help on his cell phone, and it took an hour to find him.

The drug cartels, Mr. Speaker, are now shooting their way across our border. Until we put armed National
