

about the quality of life there hasn't yet gotten out. Being a well-kept secret is just fine for some residents.

"I'm a big proponent of Pittsburgh," says Hermann. "But I don't want to spread the message too much."

TRIBUTE TO KATHLEEN MCGHEE

Mr. BOND. Mr. President, today I rise to pay tribute to one of the most widely respected professional staff members in the Senate—Kathleen McGhee. She recently marked her 30th anniversary with the Senate Select Committee on Intelligence and has been serving here longer than I have been serving as a U.S. Senator.

Kathleen joined the committee staff on April 7, 1980, in order to assist the committee's arms control expert. She subsequently provided administrative support to the committee's budget director, minority counsel, and minority staff director. In 1987, Chairman David L. Boren appointed Kathleen as the chief clerk of the Intelligence Committee, a position she has held ever since. She has served 11 chairmen, 12 vice chairmen, and 278 staff members since joining the staff.

Kathleen is the longest serving staff member and the longest serving chief clerk in the committee's history, but you would not know it by looking at her. I have it on good authority that she is just as bright and energetic today as she was more than 20 years ago. If only we all were so fortunate.

In a world where politics often seems to define who we are and with whom we associate, Kathleen transcends those barriers. She has earned the deep respect of Members and colleagues on both sides of the aisle. Her work ethic—as evidenced by long hours and ready availability—and her attention to detail are admired by all.

During my tenure on the Intelligence Committee, and in particular, since becoming the vice chairman, I have benefited from Kathleen's behind-the-scenes orchestration of committee activities. She supervises the administrative support staff of the committee, manages all of the day-to-day operations, and is responsible for the preparation and implementation of the committee's operating budget. Simply put—the committee would cease to function without Kathleen at the helm; she has kept the place running like a Swiss watch. We all know that the demands of working in Congress often take the greatest toll on those who support us and sustain us in life—our families. For selflessly giving Kathleen to us for so many years, her husband Mike, son Luke, and daughter Molly deserve our gratitude. We thank them for their sacrifices.

Ensuring our great Nation's security is a high calling and one of tremendous responsibility. Through her service to the Intelligence Committee, the U.S. Senate, and the United States of America, Kathleen McGhee has answered this call with outstanding profes-

sionalism, integrity, and perseverance. Although I will be retiring at the end of this Congress, it is my hope that Kathleen will continue to honor the Senate with her service for many years to come. May God bless Kathleen and her family.

ADDITIONAL STATEMENTS

NEW MEXICO'S NATIONAL SCIENCE BOWL WINNER

• Mr. BINGAMAN. Mr. President, today I congratulate a group of middle school students from Albuquerque Academy in Albuquerque, NM, for winning the top prize at this year's National Science Bowl. This is an outstanding and well-deserved achievement after all their hard work throughout this competition, both in Albuquerque and here in Washington, DC.

Every year since 1991 the U.S. Department of Energy has sponsored the National Science Bowl to encourage high school students to excel in mathematics and science. In 2002 a contest was introduced for middle school students, which now involves more than 5,000 students nationwide. This year there was an academic question and answer competition as well as a model hydrogen fuel cell car challenge. By encouraging math and science education, competitions like these are helping to create a technically trained and diverse workforce for this generation and the next.

Teammates Andy Chen, Jason Frank Hou, Ben Zolyomi, Eric Li, Raya Koreh, and their coach Barbara Gilbert came to Washington, DC, to compete against 37 middle school regional Science Bowl champions in the National Finals. On Monday, May 3, they answered many challenging questions pertaining to biology, geology, and other areas of science. They even answered a few bonus questions from First Lady Michelle Obama, who later awarded them their trophy, along with Secretary of Energy Stephen Chu. I realize how much studying it takes to prepare for a competition as rigorous as this, and I commend them on their hard-earned reward. It has certainly paid off. Their success should be applauded as this truly is a remarkable feat.

When they return home to New Mexico, I hope their fellow students and teachers are as encouraged as I am by their accomplishment. It is vitally important that talent like this doesn't go unnoticed as these young students will likely be among those helping to find solutions to some of the future's most challenging problems. I believe this team's success demonstrates how the United States, and New Mexico in particular, has potential to produce some of tomorrow's scientific leaders and innovators. That is why I hope these students will continue to pursue their intellectual interests and one day join a critical sector within our workforce.

I have always believed that investing in science and technology in our schools is essential in ensuring that the United States maintains a competitive edge to provide for our nation's economic strength and security. Our students' success depends on the quality of their educational opportunities today, and the talent demonstrated by these students makes me very optimistic about the future.

Again, I commend them on this outstanding achievement and wish them the best of luck in the future.●

RECOGNIZING EL CAMINO REAL HIGH SCHOOL

• Mrs. BOXER. Mr. President, I wish to recognize the great work and remarkable accomplishments of El Camino Real High School's Academic Decathlon team for winning the 2010 Academic Decathlon and its sixth National Championship. Members of the National Championship team include: Vivian Cheng, Daniel de Haas, Evan Edmisten, Andrew Fann, Audrey Goldbaum, Jessica Lin, Daniel Moreh, Adriana Ureche, Michael Walker, and team coaches John Dalsass, and Stephanie Franklin.

With this win, El Camino Real High School has earned the distinction of becoming six-time Academic Decathlon National Champions and nine-time State Champions. This milestone gives El Camino Real High School the distinction of being the Nation's all-time leader in national academic decathlon championships.

Competing in an Academic Decathlon is a daunting task. The Academic Decathlon's intense two-day national final competitions include multiple-choice testing in seven different events, speeches, essay writing, and interviewing exercises. Students spend many hours studying, practicing, and competing, often away from their family and friends. I invite all of my colleagues to join me, the Woodland Hills community and the State of California in congratulating California's El Camino Real High School Academic Decathlon team for becoming 2010 National Academic Decathlon Champions.●

NATIVE HAWAIIAN AND PACIFIC ISLANDER NURSING GRADUATES

• Mr. INOUE. Mr. President, today I wish to commemorate the graduation of the first 100 Native Hawaiian and Pacific Islander nurses from the University of Hawaii at Manoa. As a proud supporter of the nursing profession, I am pleased to recognize IKE AO PONO, the Workforce Diversity Program for Native Hawaiian and Pacific Islander nursing students at the School of Nursing and Dental Hygiene.

On May 7, 2010, IKE AO PONO will commemorate a historic achievement in celebrating the graduation of the first 100 Native Hawaiian and Pacific Islander nurses from its program in
