TWENTY-FIRST CENTURY COMMUNICATIONS AND VIDEO ACCESSIBILITY ACT OF 2010

SPEECH OF

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, July 26, 2010

Ms. ESHOO. Mr. Speaker, I rise today in strong support of the 21st Century Communications and Video Accessibility Act. I'm proud to be a cosponsor of this legislation, voting for it in the Communications, Technology, and the Internet Subcommittee and in the full Energy and Commerce Committee. I urge all of my colleagues to join me in voting for it today.

Today is a historic day. It is the 20th anniversary of the enactment of the Americans With Disabilities Act, ADA. Twenty years and one day ago, individuals with disabilities did not enjoy the same access to employment, education, or basic services as other Americans. The ADA changed that forever. Our workplaces, schools, buildings, and sidewalks offer safe and fair access for Americans with disabilities, where for too long they had none.

In the 20 years the ADA has been the law of the land, our country has seen significant change. Much of that change has been driven by the high-tech innovators in my Congressional District, the heart of Silicon Valley. In 1990 a supercomputer that would fill a building the size of a warehouse can now fit in the palm of a hand. We can now watch our favorite television shows outside, on an airplane, or in a coffee shop on our computers. Businesses can allow their employees to collaborate face-to-face from offices thousands of miles apart. Communications and video technology have become truly integral aspects of our everyday lives.

Unfortunately, not all Americans have been able to take full advantage of these innovations in technology. By passing the 21st Century Communications and Video Accessibility Act today, we will change this.

Working to address the needs of individuals with vision, hearing, and other disabilities by updating communications laws last revised in 1996, the 21st Century Communications and Video Accessibility Act makes technology and telecommunications devices and services accessible to everyone.

I commend the author of this legislation, Representative ED MARKEY, for his leadership and advocacy on behalf of the disabilities community. On this historic day, I'm proud to support this legislation that will ensure no one is left behind.

HONORING THE NEW LONDON ROTARY CLUB

HON. JOE COURTNEY

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 27, 2010

Mr. COURTNEY. Madam Speaker, I rise today in appreciation and support for the New

London, Connecticut Rotary Club's Camp Rotary, a service program showcased at a July 23rd event that I had the opportunity to attend. The event joined together the Connecticut College AmeriCorps VISTA volunteers and students and teachers of New London Public Schools to celebrate the success of Camp Rotary.

The Rotary motto "Service Above Self" exemplifies their strong devotion to community service internationally, and the Rotary Club of New London demonstrates this commitment every day. The New London Rotary Club organizes many service projects annually, including a holiday book drive, a literacy initiative, and a community playground cleanup.

Rotarians have long understood that many young students lose academic momentum over summer vacation. Often, students also practice unhealthy eating habits and sedentary lifestyles over the summer because they lack access to healthy, affordable food and places to exercise.

Camp Rotary, now in its 18th year, provides a valuable opportunity for disadvantaged students of the New London Public School system to enrich their summers through physical activities, educational programs, and college preparation. The school system partners with New London teachers and Connecticut College student volunteers who graciously devote their summers to helping these youth progress.

Camp activities aim to provide an educational and entertaining experience for the 11–15 year olds, but the overarching goal of the program is to put the students on a college path. Many of these young people would be the first in their family to attend college, and Camp Rotary helps them plan for their future by offering tours of universities and goal planning workshops.

The importance of this effort was recently underscored by a report issued by the National College Board finding that the U.S. is now ranked 12th in the industrialized world in college graduation rates. As recently as 1986, the U.S. was ranked first. Camp Rotary aims to solve this problem by awakening interest and motivation in college achievement at the middle school level, which experts agree is the most successful strategy to increase college involvement and completion.

The New London Rotarians understood the need for the Camp Rotary program in the community and successfully and generously established a program to provide more productive summers for hundreds of disadvantaged students. I ask my colleagues to join me in honoring the valuable opportunity the New London Rotary Club and the Rotary Foundation continues to provide for the youth of New London, and the New London teachers and AmeriCorps VISTA volunteers that help Camp Rotary to succeed.
