

stifling job creation. I believe that both sides of the aisle believe that we should be focusing on job creation. This is not the way forward. Indeed, the new taxes and regulations will hurt our small businesses, including the medical device industry, a sector of the economy where our region leads the Nation.

Ultimately, the new law, if not repealed, will hurt families across my district and across America. Moreover, the changes to the Medicaid program will put additional burdens on States already facing very difficult challenges.

I plan to vote for repeal. And then later this week, I plan to vote for House Resolution 9, so that we can instruct committees to report a replacement bill that includes insurance reform for wider access to options and choices, and medical liability reform to rein in defensive medicine practices. I think we should engage in a civil, bipartisan discussion with our colleagues across the aisle. Our replacement bill should include coverage for preexisting conditions and ensure that coverage can't be dropped when you are sick.

Ultimately, I believe the fate of this repeal effort will hinge on the content and quality of the replacement bill. If we bring forward in this House a new plan that drives down costs, increases access, while protecting choices and the patient-doctor relationship, I believe the American people, evaluating the two respective plans side by side, will pressure the Senate and the President to repeal and replace, because we need reform, but the bill last year is not the answer. It's time to start over.

Ms. VELÁZQUEZ. Madam Speaker, may I inquire of the time remaining?

The SPEAKER pro tempore. The gentlewoman from New York has 3 minutes remaining. The gentleman from Missouri has 2½ minutes remaining.

Ms. VELÁZQUEZ. I would like to inquire through the Chair how many speakers the gentleman has remaining.

Mr. GRAVES of Missouri. I don't have any more speakers, and I am prepared to close.

Ms. VELÁZQUEZ. I yield 2 minutes to the gentleman from California (Mr. GARAMENDI).

Mr. GARAMENDI. Madam Speaker, this is the most remarkable of all Chambers where discussions take place, because in this Chamber if you say something that is not true, often enough somebody will believe that it's actually true. What I have heard today on the floor I am just going, well, that's a marvelous thing, when in fact our colleagues on the Republican side want to enact reforms that are already in place. Already in place is the Patients' Bill of Rights. No rescissions. No preexisting conditions. Children being able to stay, or young adults being able to stay on their parents' policies until the age of 26. They say they want it—it's already the law of America. Wow. What are we going to repeal? You are going to repeal that?

You want small businesses to be well taken care of? Well, so do we. That's why, if you employ less than 50 people as a small business you don't have any requirements at all. But if you want to provide health insurance to your employees, wow, the government's going to give you a subsidy, 35 percent now, building to 50 percent in the years ahead. What's wrong with that? Where's the harm to small business? What in the world are our colleagues talking about here? I don't get it. It's in the law already.

Everything I have heard here in the last half hour is the law of America. So why are you repealing it? So you can have the insurance companies get another shot at taking over the care of patients, which is exactly what they do, and exactly what I know because I was the insurance commissioner for 8 years in California, and I know what the insurance companies do. They are the ones that make the decisions. We don't want that to happen. That's why the Patients' Bill of Rights is the law in America today. The Patients' Bill of Rights would be repealed by this H.R. 2. Not good for Americans. Not good. Some 30 million people would lose their opportunity for insurance.

Ms. VELÁZQUEZ. Madam Speaker, what will small businesses lose if health care reform is repealed? The small business tax credit of up to 50 percent will be lost. Insurers will be able to continue price gouging. Insurers will be able to deny small businesses coverage without any justification. New health insurance options for small businesses will be eliminated. Small businesses will be unable to pool resources to purchase coverage. Insurers will be able to delay small businesses' access to health insurance. New health options for the self-employed will be abolished.

I urge a "no" vote. And I hope that we spend the remainder of this Congress on measures that truly get small businesses hiring and creating jobs. What we need is to get this economy back on track. By repealing health care reform, we will not achieve that.

I yield back the balance of my time.

Mr. GRAVES of Missouri. Madam Speaker, some of my colleagues on the other side of the aisle continue to claim that the health care law is actually going to benefit small businesses despite the mountain of facts that are out there. Specifically, and what was argued earlier, is that the health care tax credit's going to make it easier for employers to offset the costs that are being required to provide health insurance. Unfortunately, this is far from the truth. Any potential assistance from this tax credit is far outweighed by the tax increases and paperwork burdens that this law is going to pile on small businesses.

Madam Speaker, the American people spoke loudly in November. And we need to make sure that we move away from the health care law that penalizes our Nation's entrepreneurs and place a

renewed focus on enacting targeted, commonsense reforms that increase access and lowers costs.

Madam Speaker, with that I would urge my colleagues to vote for H.R. 2, and let's get back on track.

Ms. WATERS. Madam Speaker, I'm proud to join my Democratic colleagues on the floor this afternoon to state our unequivocal stance against health care reform repeal.

The landmark health reform law takes a stand against the health care disparities that exist for low-income Americans, people of color, and people with pre-existing conditions.

Twenty percent of African-Americans were uninsured in the United States, and 32 percent of the Hispanic population was uninsured.

Though African-American women are 10 percent less likely to get breast cancer than white women, we are 34 percent more likely to die from it. And Hispanic women are twice as likely to die from cervical cancer as White women.

Both African-American and Mexican-American men are 30 percent more likely to die from heart disease than White Americans.

Hispanic men were one-and-a-half times as likely to die from diabetes as White Americans, and African-Americans were 2.2 times as likely to die from diabetes as compared to White Americans.

Finally, though they comprise 15 percent of the U.S. population, Hispanics make up 17 percent of new HIV infections. And more shockingly, though we make up only 12 percent of the U.S. population, African Americans are 45 percent of new HIV infections.

Many Americans are suffering from a lack of access to health care because health insurance is simply unaffordable. This problem has existed for far too long in the most prosperous nation in the world. Meaningful health care must be available for all Americans regardless of race, level of income, gender, or the existence of a pre-existing condition. That's why the health care reform law specifically addresses these disparities and other pre-existing conditions and makes it illegal to be denied health care insurance because of them.

So I implore my Republican colleagues to work with us to strengthen the law, make it better, and provide health care and jobs to millions of Americans.

Mr. GRAVES of Missouri. I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to clause 1(c) of rule XIX, further consideration of this bill is postponed.
