RECOGNIZING MS. MELANIE PE-
TERS AS THE 2011 HURLBURT
AFA CHAPTER 398 ELEMENTARY
SCHOOL TEACHER OF THE YEAR

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, March 30, 2011

Mr. MILLER of Florida. Mr. Speaker, I rise today to recognize Ms. Melanie Peters as the 2011 Hurlburt AFA Chapter 398 Elementary School Teacher of the Year. Ms. Peters is an inspiration to her students and colleagues, and I am honored to recognize her achievements.

Successfully getting a class of kindergarteners to construct and fly Styrofoam planes to test Bernoulli's Principle is an accomplishment worthy of recognition in itself. Ms. Peters surpassed this feat and also taught her five- and six-year olds about rocket propulsion using balloons.

Her creative techniques coupled with her passion for flight continues to provide an enjoyable and unique learning experience for her fourth graders. In her classroom, also known as TOP FUN, Ms. Peters incorporates math, science, and technology into her student's curriculum by utilizing her knowledge of aviation. TOP FUN's doors open into a world where students learn that living and learning coexist as a combined adventure.

Through her hard work and dedication, Melanie Peters continues to provide her students a solid foundation, upon which her students are able to grow, as their love for learning continues to soar. Teaching, a love Melanie credits to her mother, comes naturally to her, and is evidenced in the positive impact she has made on the lives of her students.

Mr. Speaker, on behalf of the United States Congress, I am proud to recognize Ms. Peters for this great achievement and her commitment to excellence. Ms. Peters has earned the title of Elementary School Teacher of the Year. My wife Vicki joins me in congratulating Melanie Peters, and we wish her continued success.

THE HAMP TERMINATION ACT OF
2011

SPEECH OF

HON. LUIS V. GUTIERREZ

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, March 29, 2011

The House in Committee of the Whole House on the State of the Union had under

consideration the bill (H.R. 839) to amend the Emergency Economic Stabilization Act of 2008 to terminate the authority of the Secretary of the Treasury to provide new assistance under the Home Affordable Modification Program, while preserving assistance to homeowners who were already extended an offer to participate in the Program, either on a trial or permanent basis:

Mr. GUTIERREZ. Mr. Chair, I rise today in strong opposition to the HAMP Termination Act, or H.R. 839, a bill to eliminate the Home Affordable Modification Program (HAMP). This is just another attempt by my Republican colleagues to do away with important and necessary programs that help our struggling families and communities cope with the devastation of the housing crisis. Our families are dealing with real emergencies and they want real solutions, yet the Republicans offer no meaningful replacement to help families during this housing and foreclosure epidemic.

The Home Affordable Modification Program was put in place by the Obama Administration to provide critical assistance to American homeowners who are working tirelessly to save their homes. While it wasn't meant to save every home on the brink of foreclosure, this program has helped over 600,000 homeowners since it was first launched. This means that because of HAMP, over 600,000 families were given an opportunity they otherwise wouldn't have had to save their home. Approximately 30,000 homeowners are assisted through HAMP each month. If we eliminate this program now, we would be doing a great disservice to these homeowners and to the recovery of our fragile housing market.

The ineptitude and noncompliance of banks and mortgage servicers have created a laundry list of mistakes and missteps in handling homeowner mortgages that led us into this devastating housing situation. HAMP has been criticized by all parties because it did not meet its initial projected goals. This is partly because HAMP sets strict requirements for homeowners to qualify for a modification to ensure that American taxpayer dollars are not wasted or misused. Modifications that continue to be made outside of HAMP are done by servicers who avoid meeting the strict requirements and rules under this program which are put in place to protect homeowners. We have a responsibility to our constituents and we can't simply leave the fate of homeowners and struggling families to the banks and mortgage servicers when their bad mortgage lending practices contributed to our nation's housing crisis in the first place.

HAMP is not perfect, but there is no question that HAMP has provided critical assistance to homeowners facing avoidable foreclosures. The HAMP program has set affordability standards and, more importantly, this program has created a framework for the private sector to provide assistance. The political theater put together by my Republican colleagues to eliminate HAMP and other valuable housing programs and replace them with nothing, doesn't do anything to alleviate the dire circumstances hundreds of thousands of American families are facing today.

Mr. Chair, ending HAMP now would undoubtedly hamper our nation's economic recovery efforts. Many of my colleagues have mentioned throughout this debate something we all know to be true: not a single witness—including the Government Accountability Office and the Special Inspector General for the
