□ 1856

AMENDMENT NO. 57 OFFERED BY MR. REHBERG

Mr. REHBERG. Mr. Chairman, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

Page 24, line 18, after the dollar amount insert "(reduced by \$2,200,000) (increased by \$2,200,000)".

The Acting CHAIR. The gentleman from Montana is recognized for 5 minutes.

Mr. REHBERG. Mr. Chairman, this amendment directs \$2.2 million of the Department of Energy's Fossil Energy Research Development budget to the Risk Based Data Management System.

The Risk Based Data Management System is a State governmental agency-based information system initiative to help States collect and aggregate essential oil, gas, and environmental compliance information, local geology data, base of freshwater data, well construction specifics, area production historical data, and information provided by companies applying for permits.

This type of information system has resulted in better environmental protection; public disclosure of all chemicals; easier, cheaper, and faster environmental compliance for industry-enhanced State environmental enforcement. That's why my amendment is broadly supported by State environmental agencies, State regulators, the energy industry, and many in the environmental community.

Providing this funding will allow for enhanced environmental protection
