

of rules on this government that, basically, our Federal regulators would not let us borrow any more money.

The point of the matter, Mr. Speaker, is that we have a spending problem here in Washington. We cannot raise this debt ceiling unless we do three things: unless we cut, we cap, and we balance our budget.

THE TRUTH: AMERICA'S DEBT CEILING MUST BE RAISED

(Ms. JACKSON LEE of Texas asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE of Texas. Mr. Speaker, my good friend did what many of us did, my neighbor in Louisiana. I went home to Texas, and interacted with so many constituents, many of them asking the question: Why? I believe it's important to ask the question: Why not?

Let me tell you, my friends, that we don't need to politicize the debt ceiling, which has been raised many, many times, but we do need to tell the truth: for if the debt ceiling is not raised, trillions of dollars will be lost, not of those of us who sit on this floor, but from the portfolios and packages for seniors and 401(k)s.

If you want to talk about \$1 trillion, talk about what will be lost to our seniors and hardworking Americans in collapsing their 401(k)s. There is no option. There is not an option for the short term. That's a joke. That's politics to start us back again in April or March. Let's go forward with the proposed Reid plan. Let's get a deficit reduction; raise the debt ceiling; cut what we can and go into regular order. That is the responsible, adult way to go.

America is watching. America is looking. I am not going to stand by while trillions of dollars are lost. I ask my Republican friends to join us in a reasoned response to America's concerns.

PROVIDING FOR CONSIDERATION OF H.R. 2584, DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

Mr. BISHOP of Utah. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 363 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 363

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 2584) making appropriations for the Department of the Interior, environment, and related agencies for the fiscal year ending September 30, 2012, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to

the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. The amendment printed in section 2 of this resolution shall be considered as adopted in the House and in the Committee of the Whole. Points of order against provisions in the bill, as amended, for failure to comply with clause 2 of rule XXI are waived. During consideration of the bill for further amendment, the chair of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII. Amendments so printed shall be considered as read. When the committee rises and reports the bill, as amended, back to the House with a recommendation that the bill do pass, the previous question shall be considered as ordered on the bill, as amended, and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. The amendment considered as adopted in the House and in the Committee of the Whole is as follows: Strike section 427.

The SPEAKER pro tempore. The gentleman from Utah is recognized for 1 hour.

Mr. BISHOP of Utah. For the purpose of debate only, I yield the customary 30 minutes to the gentlewoman from New York (Ms. SLAUGHTER), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

GENERAL LEAVE

Mr. BISHOP of Utah. I ask unanimous consent that all Members may have 5 legislative days during which they may revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

Mr. BISHOP of Utah. Mr. Speaker, this resolution provides an open rule for the consideration of H.R. 2584. It allows any Member of the House to offer amendments which are germane and comply to the House rules. The rule allows priority recognition for the amendments that have been preprinted in the CONGRESSIONAL RECORD. I am pleased to support this resolution, which continues the record of our Rules Committee in this Congress of providing for as open and fair and orderly a process as possible.

□ 1220

I commend our chairman, Mr. DREIER, for continuing the record of fairness and openness in the formulation of this rule, which is in contrast to some rules that we have had in past years.

Mr. Speaker, H.R. 2584 provides \$27.5 billion overall for programs within the Department of Interior and the Forest Service, Environmental Protection Agency, the Indian Health Service, and other agencies. But it is a bill that strikes a fiscally responsible balance

between providing funds for ongoing Federal programs while also saving the taxpayers 7 percent over last year's enacted levels. It puts us back roughly to the 2009 levels.

There are some who will claim that there are certain programs that have been hurt heavily. It is true, for example, that the Environmental Protection Agency has an 18 percent reduction in funding in this bill. Please remember, though, that this was made possible simply because of unprecedentedly high record appropriations for EPA in 2009, of which \$3 billion remains unobligated.

In an era when 42 to 44 cents of every dollar that we spend goes for interest, it makes no sense in continuously overappropriating line items where money is not needed, not used, and sits there vacant.

This is a bill that oftentimes for those of us who live in the West has been full of riders year after year after year. It probably makes no difference here, but I realize that some are going to be very sensitive to this issue. I know the gentlelady from New York is very concerned about these potential issues that may be on this bill. And why should she not be? If you include the military, 0.8 percent of New York is owned by the Federal Government. I will contrast that with my State, which has 64 percent owned by the Federal Government. And we're not the highest.

This is an issue and a bill that is very important to those of us. And, Mr. Speaker, this is a good bill; it is an extremely fair rule. It can't get any fairer than this one. I urge its adoption.

I reserve the balance of my time.

Ms. SLAUGHTER. I thank the gentleman from Utah, my colleague, for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Mr. Speaker, in these tough times we must make choices that reflect our values and our belief that we solve our toughest problems through shared sacrifice and working together. Unfortunately, today we consider yet another bill that is devoid of these values.

Once again, today's legislation places the burden on the American people while rewarding the special interests and the lobbyists who walk these halls.

One of the many riders inserted into the bill will effectively open up a million acres of national forest and other public land around the Grand Canyon National Park because people want to mine uranium there.

Democrats have great concerns about maintaining the integrity of the Grand Canyon and the effect of uranium mining on water quality, not to mention the spectacle that shows us auctioning off a national treasure with the proceeds going to mostly foreign-owned entities.

Who is it that wants to drill for uranium and mine for uranium? Russia, their state atomic energy corporation, and South Korea's state-owned utility.
