

the Alaskan region, overseeing the two largest national forest systems in the U.S.

In 2000, Mr. Cables moved back to Colorado to serve as the regional forester for the Rocky Mountain region. Throughout the past 11 years, Mr. Cables served the Rocky Mountain region, working with both local and federal officials to enhance the productivity of the Rocky Mountains. In June of 2011, Mr. Cables was named to be the director of the Colorado Division of Parks and Wildlife, a position he called a "dream job."

Mr. Speaker, it is an honor to recognize Rick Cables and his outstanding career in conservation and forestry. I look forward to witnessing him continue to bring the same success he has brought to the communities he served throughout the U.S. to the state of Colorado.

HONORING STANLEY WELCH ON
THE OCCASION OF HIS RETIREMENT

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Ms. DeLAURO. Mr. Speaker, I rise today to extend my sincere thanks and appreciation to Stanley Welch, a member of my staff who has been with me from the beginning, as he retires after almost twenty-eight years of federal service. Stanley has dedicated a lifetime to public service and has served the New Haven community in a variety of capacities—all of which have enriched the City and improved the quality of life for its residents.

Stanley has been a member of my staff for more than twenty years, though I have known him for much longer. We first met during Frank Logue's first campaign for Mayor where he was involved in coordinating the roving canvass—a get out the vote initiative that is used by candidates throughout New Haven still today. When I was first elected to Congress, I asked Stan to join my team and he was an invaluable resource as we started up the District Office, hired staff, and began our work in constituent services. Stanley understood the importance of constituent services in the District and, over the years, he has been a mentor to many new staff members—offering them guidance and support as they began their own careers in federal service. As Deputy District Director and casework supervisor he has played an integral role in ensuring that the District Office has run smoothly and that our constituents have had access to federal resources and assistance in resolving issues with federal agencies. Stanley himself worked on issues concerning veterans and over the course of his career he developed an expertise in this area. His presence in my office will certainly be missed.

Born in upstate New York and raised in the greater Boston area, Stanley came to New Haven in 1962. In the nearly five decades since he came to our community, Stanley's work has touched the lives of thousands. He was a teacher in the New Haven public school system, a case manager with the City of New Haven's Department of Human Services, vocational counselor with the Greater New Haven Opportunities Industrial Center as well as the Director of a Connecticut State shel-

tered workshop for mentally challenged adults, Director and Education Coordinator of the Vanguard Teen Center in Newhallville, and served as the first Director of the Community Action Agency of New Haven. Stanley began his career in federal service with my predecessor, Congressman Bruce Morrison, and has spent nearly thirty years assisting the people of Connecticut's 3rd Congressional District with difficulties they have had with federal agencies. In each of these endeavors, Stanley was looking to make a difference in the lives of some of our most vulnerable citizens.

In addition to his professional contributions to the community, Stanley has also dedicated innumerable hours to local civic and service organizations. For more than twenty years he has served on the Board of Directors of Columbus House, Inc., a non-profit organization dedicated to serving the homeless and those at risk of homelessness, as well as the Hill Development Corporation, a local non-profit organization dedicated to the revitalization of New Haven's Hill neighborhood. He has also been involved with the United Way Campaign cabinet and was the first Chairman of the Combined Federal Campaign of Western Central Connecticut. Stanley has been recognized by a myriad of organizations for his efforts on their behalf including MaKela Incorporated, the Marine Cadets of America, Youth Business Enterprises, the Greater New Haven Youth Continuum, the Hamden Black Democratic Club, and Casa Otonal.

It is not often that you find an individual who dedicates so much of themselves to serving others. Throughout his professional career and in his personal time, Stanley has sought every opportunity to do just that. On a more personal note, Stanley is not just a member of my staff—he is family. I cannot thank him enough for all that he has done over the years. Today, as he celebrates his retirement, I am proud to extend my very best wishes to Stanley, his companion of more than twenty years, Linda Thorpe; his five sons Stanley, Jr., Jordon, Julian, Kwad, and Jamal; as well as his fifteen grandchildren; and two great-grandchildren. I wish them all the best for many more years of health and happiness.

PERSONAL EXPLANATION

HON. STEVE KING

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. KING of Iowa. Mr. Speaker, on rollcall No. 323 I was unable to cast my vote on the House floor because I was ill. Had I been present, I would have voted "yes."

HONORING THE COMMUNITY
SERVICE ETHIC OF RALPH NILLES

HON. VIRGINIA FOXX

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Ms. FOXX. Mr. Speaker, I rise today to honor a great American, Ralph Nilles. Ralph is a friend of North Carolina and the High Country whose tireless volunteerism is an inspirational testament to his concern for others and his community.

Ever since he retired in North Carolina's High Country, he has dedicated his retirement years to volunteering for almost every local organization that was doing good things for the community. One of the characteristics people admire most about Ralph is how he never shies away from hard work—he knows the value of a hard day's work, especially when it is given to help others in need.

Although his health has declined recently and taken him from the volunteer work he loved so much, his legacy is strong. He is known as Mr. Volunteer, as the man who will do what it takes to get the job done. From his work with the Foscoe Grandfather Mountain Community Center to his unflagging support for so many good causes, Ralph is the kind of person that every American community loves to call their own.

That's why I'm so proud to honor him today for his many years of selfless service and his countless hours of work on behalf of so many deserving organizations. Ralph is a one-of-kind man who has made an indelible mark on his community and I'm confident he has inspired many to follow in his footsteps of volunteerism.

PERSONAL EXPLANATION

HON. GEOFF DAVIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. DAVIS of Kentucky. Mr. Speaker, on Thursday, July 7, 2011, I mistakenly voted "no" on Rollcall No. 522—Cole of Oklahoma Amendment No. 4, an amendment to H.R. 2219, Department of Defense Appropriations Act. The amendment stated that none of the funds made available by the underlying bill may be used to implement any rule, regulation, or Executive Order regarding the disclosure of political contributions that takes effect on or after the date of enactment of the underlying bill. I intended to vote "yes" on Rollcall No. 522.

INTRODUCTION OF THE SMART
ELECTRONICS ACT

HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, August 1, 2011

Mr. HONDA. Mr. Speaker, I rise today to introduce the Smart Electronics Act.

The Smart Electronics Act is an effort to reduce the amount of energy consumed by consumer electronic devices. Electronic gadgets already account for about 15 percent of household electricity consumption, and as these gadgets proliferate, their energy use continues to grow.

The International Energy Agency (IEA) estimates that by 2030, new electronic gadgets will triple their energy consumption to 1,700 terawatt hours, the equivalent of the home electricity consumption of the U.S. and Japan combined. According to the IEA, the international community will have to build over 15,000 wind turbines (or 200 nuclear power plants) to power all the TVs, iPods, PCs and other home electronics expected to be
