

Whereas, in 1984, the APA was renamed the American Podiatric Medical Association to emphasize the profession as part of mainstream medical practice;

Whereas, in 2011, the Council on Podiatric Medical Education adopted the requirements of a 3 year podiatric medicine and surgery residency, which was approved for full graduate medical education funding by the Centers for Medicare and Medicaid Services;

Whereas the American Podiatric Medical Association regularly hosts medical and scientific meetings dedicated to highlighting and disseminating research findings and clinical advances in the prevention, detection, treatment, and cure of foot, ankle, and related conditions;

Whereas the American Podiatric Medical Association continues to meet its clinical and scientific mission through the publication of academic journals and clinical statements on the prevention, diagnosis, treatment, and cure of foot and ankle disorders, as well as through the provision of continuing medical education in foot and ankle care and through consumer education on foot and ankle health;

Whereas feet often reveal indicators of overall health, including signs of arthritis, diabetes, and nerve and circulatory disorders;

Whereas medically necessary care provided by podiatrists can reduce the risk of and prevent complications from these conditions and diseases, while at the same time offer savings to the heavily burdened health care system of the United States; and

Whereas the American Podiatric Medical Association has a long tradition of working in collaboration with the Federal Government to improve the foot and ankle health of all people of the United States: Now, therefore, be it
