

an agent of the United States Government or serving as a repository for United States Government funds;

agencies shall not procure, or enter into a contract for the procurement of, any goods or services from the sanctioned person;

the Secretary of the Treasury shall take actions where necessary to:

prohibit any United States financial institution from making loans or providing credits to the sanctioned person totaling more than \$10,000,000 in any 12-month period unless such person is engaged in activities to relieve human suffering and the loans or credits are provided for such activities;

prohibit any transactions in foreign exchange that are subject to the jurisdiction of the United States and in which the sanctioned person has any interest; or prohibit any transfers of credit or payments between financial institutions or by, through, or to any financial institution, to the extent that such transfers or payments are subject to the jurisdiction of the United States and involve any interest of the sanctioned person;

block all property and interests in property that are in the United States, that come within the United States, or that are or come within the possession or control of any United States person, including any foreign branch, of the sanctioned person, and provide that such property and interests in property may not be transferred, paid, exported, withdrawn, or otherwise dealt in; or

restrict or prohibit imports of goods, technology, or services, directly or indirectly, into the United States from the sanctioned person.

Section 5 of the order authorizes the Secretary of the Treasury, in consultation with the Secretary of State, to block all property and interests in property that are in the United States, that come within the United States, or that are or come within the possession or control of any United States person, including any foreign branch, of any person upon determining that the person has materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services in support of, NIOC, NICO, or the Central Bank of Iran, or the purchase or acquisition of U.S. bank notes or precious metals by the Government of Iran.

I have delegated to the Secretary of the Treasury the authority, in consultation with the Secretary of State, to take such actions, including the promulgation of rules and regulations, and to employ all powers granted to the President by IEEPA, as may be necessary to carry out the purposes of sections 1, 4, and 5 of the order.

The order was effective at 12:01 a.m. eastern daylight time on July 31, 2012. All agencies of the United States Government are directed to take all appropriate measures within their authority to carry out the provisions of the order.

I am enclosing a copy of the Executive Order I have issued.

BARACK OBAMA,
THE WHITE HOUSE, July 30, 2012.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for a period of less than 15 minutes.

Accordingly (at 5 o'clock and 31 minutes p.m.), the House stood in recess.

□ 1745

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. POE of Texas) at 5 o'clock and 45 minutes p.m.

DISTRICT OF COLUMBIA PAIN-CAPABLE UNBORN CHILD PROTECTION ACT

Mr. FRANKS of Arizona. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3803) to amend title 18, United States Code, to protect pain-capable unborn children in the District of Columbia, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3803

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "District of Columbia Pain-Capable Unborn Child Protection Act".

SEC. 2. LEGISLATIVE FINDINGS.

Congress finds and declares the following:

(1) Pain receptors (nociceptors) are present throughout the unborn child's entire body and nerves link these receptors to the brain's thalamus and subcortical plate by no later than 20 weeks after fertilization.

(2) By 8 weeks after fertilization, the unborn child reacts to touch. After 20 weeks, the unborn child reacts to stimuli that would be recognized as painful if applied to an adult human, for example, by recoiling.

(3) In the unborn child, application of such painful stimuli is associated with significant increases in stress hormones known as the stress response.

(4) Subjectation to such painful stimuli is associated with long-term harmful neurodevelopmental effects, such as altered pain sensitivity and, possibly, emotional, behavioral, and learning disabilities later in life.

(5) For the purposes of surgery on unborn children, fetal anesthesia is routinely administered and is associated with a decrease in stress hormones compared to their level when painful stimuli are applied without such anesthesia.

(6) The position, asserted by some medical experts, that the unborn child is incapable of experiencing pain until a point later in pregnancy than 20 weeks after fertilization predominately rests on the assumption that the ability to experience pain depends on the cerebral cortex and requires nerve connections between the thalamus and the cortex. However, recent medical research and analysis, especially since 2007, provides strong evidence for the conclusion that a functioning cortex is not necessary to experience pain.

(7) Substantial evidence indicates that children born missing the bulk of the cerebral cortex, those with hydranencephaly, nevertheless experience pain.

(8) In adult humans and in animals, stimulation or ablation of the cerebral cortex does not alter pain perception, while stimulation or ablation of the thalamus does.

(9) Substantial evidence indicates that structures used for pain processing in early development differ from those of adults, using different neural elements available at specific times during development, such as the subcortical plate, to fulfill the role of pain processing.

(10) The position, asserted by some commentators, that the unborn child remains in a coma-like sleep state that precludes the unborn child experiencing pain is inconsistent with the documented reaction of unborn children to painful stimuli and with the experience of fetal surgeons who have found it necessary to sedate the unborn child with anesthesia to prevent the unborn child from engaging in vigorous movement in reaction to invasive surgery.

(11) Consequently, there is substantial medical evidence that an unborn child is capable of experiencing pain at least by 20 weeks after fertilization, if not earlier.

(12) It is the purpose of the Congress to assert a compelling governmental interest in protecting the lives of unborn children from the stage at which substantial medical evidence indicates that they are capable of feeling pain.

(13) The compelling governmental interest in protecting the lives of unborn children from the stage at which substantial medical evidence indicates that they are capable of feeling pain is intended to be separate from and independent of the compelling governmental interest in protecting the lives of unborn children from the stage of viability, and neither governmental interest is intended to replace the other.

(14) The District Council of the District of Columbia, operating under authority delegated by Congress, repealed the entire District law limiting abortions, effective April 29, 2004, so that in the District of Columbia, abortion is now legal, for any reason, until the moment of birth.

(15) Article I, section 8 of the Constitution of the United States of America provides that the Congress shall "exercise exclusive Legislation in all Cases whatsoever" over the District established as the seat of government of the United States, now known as the District of Columbia. The constitutional responsibility for the protection of pain-capable unborn children within the Federal District resides with the Congress.

SEC. 3. DISTRICT OF COLUMBIA PAIN-CAPABLE UNBORN CHILD PROTECTION.

(a) IN GENERAL.—Chapter 74 of title 18, United States Code, is amended by inserting after section 1531 the following:

"§ 1532. District of Columbia pain-capable unborn child protection

"(a) UNLAWFUL CONDUCT.—Notwithstanding any other provision of law, including any legislation of the District of Columbia under authority delegated by Congress, it shall be unlawful for any person to perform an abortion within the District of Columbia, or attempt to do so, unless in conformity with the requirements set forth in subsection (b).

"(b) REQUIREMENTS FOR ABORTIONS.—

"(1) The physician performing or attempting the abortion shall first make a determination of the probable post-fertilization age of the unborn child or reasonably rely upon such a determination made by another physician. In making such a determination, the physician shall make such inquiries of the pregnant woman and perform or cause to be performed such medical examinations and tests as a reasonably prudent physician, knowledgeable about the case and the medical conditions involved, would consider necessary to make an accurate determination of post-fertilization age.

"(2)(A) Except as provided in subparagraph (B), the abortion shall not be performed or attempted, if the probable post-fertilization age, as
