

Mr. BACA. Madam Speaker, this Monday, Colton Joint Unified School District held a dedication ceremony for the new Joe Baca Middle School in Bloomington, California. Next week, 800 students from the surrounding communities in Bloomington and Rialto will begin to attend classes there.

I am truly humbled to receive this distinguished honor, and I thank the Colton Joint Unified School District. I want to especially recognize Superintendent Jerry Almendarez; all of the school board members of the Colton Joint Unified School District; Ignacio Gomez, whose beautiful artwork will be displayed at the school; and Congressman GARY MILLER for his bipartisan support.

Growing up the youngest of 15 children in a poor household, I never would imagine that one day I would have a school named in my honor. I never thought I would live to see this day. Again, I want to thank everyone involved and give a special thank you to my family for their continued love and support.

LET PEOPLE VOTE ALREADY

(Mrs. DAVIS of California asked and was given permission to address the House for 1 minute.)

Mrs. DAVIS of California. Madam Speaker, our democracy flourishes when every citizen who wants to, votes—but just once. And luckily, there's just not much evidence that anyone's voting more than once. Look at Pennsylvania, where one of the Nation's strictest voter ID laws is on trial. The State can offer zero evidence that fraud has been committed. They can offer zero evidence that future fraud is likely.

So why would we require a voter ID when we know one in 10 voters doesn't have ID? Why would we close early voting sites or deny voters an absentee ballot when they can't make it to the polls on election day?

Madam Speaker, the number of people hurt by barriers to voting is clearly higher than the number of illegal votes these methods purport to stop. So let's quit fooling ourselves and let people vote already.

WOMEN'S HEALTH

(Ms. BONAMICI asked and was given permission to address the House for 1 minute.)

Ms. BONAMICI. Madam Speaker, this is an important day for women across this great country. Starting today, all new health insurance plans will include coverage for important preventive health care for women. Many have looked forward to this date since the passage of the Affordable Care Act, and I'm thrilled that it's finally here.

Starting today, women across the country will have access to essential preventive health care without copay-

ments or deductibles. Women who were effectively barred from these services because of the cost will now be able to receive annual visits, testing for diseases like HPV and HIV, breast feeding support and education, domestic violence counseling, and contraceptives.

This is an important step in lowering our country's health care costs and making sure that women have sufficient access to preventive health care.

In my home State of Oregon, there are more than 633,000—and 47 million across the country—who are going to benefit from this change. These are women who had unintended pregnancies because they couldn't access contraceptives. These are women who avoided going to the doctor because they didn't have the money, only to end up in the emergency room. And these are women whose pregnancies were endangered because of lack of prenatal care. Today this changes. Now all women can take control of their health.

SEQUESTRATION

(Mr. CONNOLLY of Virginia asked and was given permission to address the House for 1 minute.)

Mr. CONNOLLY of Virginia. Madam Speaker, sequestration—that's the bogeyman Republicans created last year when they refused, for the first time in American history, to allow a clean debt ceiling vote. So they formed a supercommittee which they doomed to failure when they refused to consider a balanced approach that included revenue and spending cuts. And now they decry the impending \$1.2 trillion cuts they fashioned and voted for as a crisis for national defense. This gives chutzpah a bad name.

If Senators MCCAIN, GRAHAM, and AYOTTE want to resolve this crisis in their town hall meetings—that they helped create—join me in calling our House Republican leadership to cancel the 5-week August recess and solve this solvable problem.

AMERICA NEEDS A FARM BILL

(Mr. WELCH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WELCH. Madam Speaker, America needs a farm bill. America needs a farm bill. Our ranchers, our agricultural conservation districts, our dairy farmers, our commodity farmers need and deserve a farm bill. It was passed by the Senate. It was passed by the House Agriculture Committee in a strong bipartisan vote. But for the first time, literally the first time in the history of this country, a farm bill passed by the Agriculture Committee is not being allowed to come to the floor. There's no excuse for that.

Is it a hard job? Yes. But is that an excuse for Congress to duck its responsibility? No. Are there contentious issues? Yes.

Some on the other side want to cut commodity programs. Give them a shot. Let them bring an amendment. My colleague, ROSA DELAURO, thinks we ought to restore all funding for nutrition. I agree. Give her a shot.

Congress must do its job. It must bring a farm bill to the floor for a vote so that each and every one of us is held to account to our constituents.

WOMEN'S PREVENTIVE HEALTH

(Ms. DELAURO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DELAURO. Madam Speaker, 26 years ago, I was diagnosed with ovarian cancer. I was lucky. I had excellent doctors. They detected the cancer by chance in stage I. If my cancer had not been caught early, I might not be speaking to you today. Many women are not so lucky because they have never had access to preventive health care.

That is why I am so pleased to see that today, thanks to the Affordable Care Act, more lifesaving preventive services will begin to be covered for women all over the country. Last year, 54 million Americans with private health insurance gained access to preventive services without cost sharing, including over 700,000 in my State of Connecticut.

Starting today, 47 million American women, including over 600,000 Connecticut women, will now have access to well-women visits, screenings for gestational diabetes, HPV and HIV, contraception, and counseling and support for STIs, breast feeding, and for domestic violence.

A report in 2009 found that more than half of American women delayed or avoided necessary care because they could not afford it. This is why we passed the Affordable Care Act.

Let's help Americans get quality care. Let's save lives.

MIDDLE CLASS TAX CUTS

(Ms. MCCOLLUM asked and was given permission to address the House for 1 minute.)

Ms. MCCOLLUM. Madam Speaker, House Democrats and President Obama are fighting for families by working to extend middle class tax cuts that will benefit 98 percent of Americans. Our plan will put \$2,200 in the pockets of an average family next year. That's money that can be spent by your family on your family's needs. That money will help Minnesota businesses grow and hire employees in St. Paul, Roseville, and Oakdale.

But House Republicans refuse to extend tax cuts for the middle class unless millionaires and billionaires get an extra tax cut. It's wrong to borrow \$50 billion from China so millionaires and billionaires can get an extra tax cut of \$160,000.

The Bush tax cuts for the super-wealthy built a mountain of debt and
