

an estimated 11,090 women will die from ovarian cancer this year. Too many American women—sisters, daughters, nieces, wives, friends, neighbors, and coworkers—are losing their lives to this disease.

Because ovarian cancer screening or early detection test do not currently exist, organizations stress that “until there’s a test, awareness is best.” I commend the Ovarian Cancer National Alliance for its steadfast commitment to make women aware of the risk factors, signs, and symptoms of ovarian cancer and for its advocacy on behalf of women and families touched by this devastating disease. I also would like to commend the Ovarian Cancer National Alliance’s Partner Member groups in Arizona.

Experts recommend that women see a gynecologist if they experience any of the often subtle symptoms of ovarian cancer daily for more than a few weeks. Four major symptoms of ovarian cancer include bloating, pelvic or abdominal pain, difficulty eating or feeling full quickly, and frequent or urgent need to urinate. I ask all of my colleagues to become familiar with these symptoms and to share the information with their friends, family, staff, and constituents.

Ovarian cancer is the ninth most common cancer among women and the fifth leading cause of cancer-related deaths, making it the deadliest of gynecologic cancers. If ovarian cancer is treated before it has spread outside the ovary, the five-year survival rate is 93 percent. Currently, only 15 percent of ovarian cancers are found at such an early stage and overall the relative five-year survival rate is 46 percent. I urge my colleagues to help make women aware of the potential warning signs to prevent future deaths. Experts acknowledge that symptoms can be vague and may be associated with other medical conditions, however, as the saying goes, it is better to be safe than sorry.

September is National Ovarian Cancer Awareness Month—an important time during which ovarian cancer organizations, advocates, and others will be helping to raise awareness about the disease and its symptoms. Teal is the official color for ovarian cancer, like pink is for breast cancer. My staff and I will be wearing teal or teal ribbons to indicate our support of the ovarian cancer community and their efforts, including increasing awareness of the symptoms, boosting federal funding for ovarian cancer awareness, and expanding federal research to improve treatments and support the development of a desperately needed screening or early detection test.

I urge my colleagues and their staffs to join me in recognizing September as National Ovarian Cancer Awareness Month and to join with us in wearing teal throughout September to increase public knowledge about this deadly disease.

HONORING CITY COUNCILMAN
GREG NORDBAK

HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Ms. LINDA T. SÁNCHEZ of California. Mr. Speaker, I rise today to recognize Greg

Nordbak and his 18 years of public service to the people of Whittier, California. Greg and his wife Donna have called Whittier home since 1980, and they have been fixtures in Whittier civic life ever since.

Since beginning the first of his five terms on the Whittier City Council in 1994, Greg has worked tirelessly to ensure Whittier remains safe for its residents and economically vibrant for its business community. Under his tenure, Whittier has seen the creation of various city resources such as the Whittier Greenway Trail acquisition and development, the construction of the Parnel Park Community and Senior Center, a new Whittier Police Headquarters Building, Pio Pico State Historic Park Renovation, the Uptown Whittier Specific Plan, the Whittier Boulevard Specific Plan, and release of Fred C. Nelles property for development.

Over the years, Greg’s civic involvement has grown exponentially to include proudly serving as Chairman of the San Gabriel Basin Water Quality Authority (WQA), as past president of the Gateway Cities Council of Governments, as a former Board Member of the Whittier Rio Hondo AIDS Project (WRHAP), as well as volunteering with the Boys and Girls Club of Whittier, the Skills Foundation, and the Rio Hondo Chapter of the American Red Cross.

Over the past decade, Greg has always worked to ensure that Whittier operates on firm financial footing and never outside its fiscal means. While the broader economy has impacted many cities throughout Southern California, Whittier has managed to maintain funding for all city services and capital improvement projects. Greg Nordbak is a big reason why Whittier can continue to deliver for its residents.

From one public servant to another, I praise Greg Nordbak and commend him on his many years of outstanding public service and dedication to the City of Whittier and the community. Whittier would not be the community it is today without him.

A TRIBUTE TO NEIL ARMSTRONG,
A TRUE AMERICAN HERO

HON. BILL POSEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. POSEY. Mr. Speaker, I rise today to pay tribute to an American hero, Neil Alden Armstrong whose recent passing has impacted not only family members and those who were close to him, but also a nation that will forever salute his unforgettable step onto the surface of our moon.

Born August 5, 1930; Armstrong lifted off the runway for the first time at the age of two on a Ford Trimotor nicknamed “The Tin Goose.” As a young man, he found a passion in flying planes, becoming flight certified early in life at the age of fifteen. It is no surprise that he studied aerospace engineering at Purdue University as a member of the Naval Reserve Officer Training Corps under the Holloway Plan.

After completing two years of college, Armstrong was ordered to enroll in flight training in Pensacola, Florida on the path to becoming an active duty Naval Aviator. Armstrong’s resolute character and bravery reached a new

pedestal after he was shot down in combat during the Korean War. He returned to Purdue University, graduated in 1955, and took an assignment to continue his Navy service at Edward’s Air Force Base, where he subsequently earned a masters degree in aeronautics. Soon after, he flew as a civilian pilot for NASA’s parent agency, the National Advisory Committee for Aeronautics (NACA), in Cleveland, Ohio.

As a test pilot, Armstrong was exposed to innovative military aircraft, playing a central role in helping to refine and improve aeronautic technologies. Armstrong’s ascension as a strong leader was inevitable as respect for his reliable character and yet humble personality was recognized within the ranks of the military and space elite.

In 1958, after a successful tenure piloting aircraft as both a civilian and military airman, Armstrong was recruited into the Air Force’s “Man in Space Soonest,” division. He piloted some of the earliest aircraft to be engineered to breach the Earth’s atmosphere and outpace the speed of sound surpassing 4,000 miles per hour. This was a very exciting era in space innovation, which remains close to our hearts in Florida’s Space Coast, where many residents, including myself, were fortunate enough to be employed by NASA’s Apollo program in the late 1960’s.

Over the course of Armstrong’s career as an astronaut he logged thousands of hours in preparation for space travel. Relentless in the pursuit to harvest knowledge, he became a college professor after his retirement from NASA. Armstrong’s commitment to his work and his unwavering receptiveness of challenge after challenge set a precedent, hand in hand, complimenting the world-shadowing message of the American space revolution. He was not simply a man with a technical ability to fly, rather a renaissance example of humble character and passionate conviction for the advancement of humankind.

Those of us who were alive on July 20, 1969, will never forget what we felt as an American space pioneer, Neil Armstrong, stepped from the lunar module and was the first human to place foot on the moon. “That’s one small step for man, one giant leap for mankind” are a constant reminder of human achievement and American ingenuity and they serve as a constant reminder to that the seemingly impossible can be achieved.

An American icon has passed after eighty-two fulfilling years. Neil Armstrong’s chronicled achievements will be forever observed in history and he will never be forgotten as the father of lunar exploration. He was a wonderful human being, a true gentleman, honest, sincere, and seemingly unaffected by his many accomplishments and notoriety. He will continue to serve as a role model and an inspiration for generations to come.

HONORING THE LIFE AND SERVICE
OF NORTHWEST FLORIDA’S BE-
LOVED DR. WILLIAM “BILL”
MALOY

HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. MILLER of Florida. Mr. Speaker, I rise today to recognize the life and service of

Northwest Florida's beloved William "Bill" Maloy.

Dr. Maloy was born in Des Moines, Iowa and grew up in Omaha, Nebraska. During World War II, he answered the call of duty and served our Nation with honor and distinction in the United States Navy. He was awarded the Silver Star for his gallantry in action. After the war, Dr. Maloy attended the University of Nebraska where he earned a bachelor's and master's degree in education, while also being commissioned into the Naval Reserves. He was recalled to active duty during the Korean War and came to Pensacola, Florida, intending to pursue a naval career; however, Dr. Maloy soon realized that he had a true passion and aptitude for teaching, and after the end of the war, he dedicated himself to education.

Dr. Maloy began his teaching career in Northwest Florida as a teacher and assistant dean at Pensacola High School (PHS). After two years at PHS, Dr. Maloy moved to Tallahassee to pursue his doctorate degree in educational technology. This experience led Dr. Maloy to appreciate the important role that technology would play in education, and he proved to be a strong proponent of integrating technology into the curriculum throughout his career. After completing his doctorate in 1958, Dr. Maloy moved back to Pensacola to serve as Assistant Principal at Escambia High School.

In 1959, Dr. Maloy began working with the Florida Department of Education, helping to spearhead Florida's first efforts to utilize new technology as a teaching tool. During the Cuban Missile Crisis, Dr. Maloy again answered our nation's call and served as Executive Officer and subsequently Commanding Officer of the USS *Tweedie*, a *Butler*-class destroyer escort. After finishing his service, he accepted a position at Florida State University, where he became Assistant Dean of the College of Education. His expertise and dedication to education led him to serve as Education Advisor to two Florida governors, before becoming the Senior Civilian Advisor to the Chief of Naval Education and Training. In 1978, he was appointed to the Florida Board of Regents, the governing body for the State University System of Florida, and helped oversee the state's public universities.

In 1992, Dr. Maloy was elected as Superintendent of Schools in Escambia County. As Superintendent, he was credited with beginning the technological revolution in the school district, and he helped move the district to the forefront of instructional education technology adopting applications to help improve student experience and performance. In 1996, he retired as Superintendent and moved to the University of West Florida where he taught until his retirement in 2009.

Dr. Maloy was a loving and dedicated husband and father who instilled in his children the importance of education in helping to improve the lives of every child in America. Two of Dr. Maloy's sons went on to become educators, continuing the family legacy of promoting excellence in education. Family was everything to Dr. Maloy, and he was a true inspiration to his four children, fourteen grandchildren and one great-grandchild.

To some, Dr. Bill Maloy will be remembered as a world-class educator and innovator who saw the importance of technology in education and helped to implement it in the classroom.

To others, he will be remembered as a true patriot who served his country with honor and distinction in World War II and the Korean War. To his family, he will most fondly be remembered as a loving husband, father, grandfather and great-grandfather. His contributions to education in Northwest Florida and throughout the entire State have improved the lives of countless students.

Mr. Speaker, on behalf of the United States Congress, it gives me great pride to honor the life and selfless service of Dr. William "Bill" Maloy. My wife Vicki joins me in extending our most sincere condolences to the entire Maloy family.

CELEBRATING THE ROCKLEDGE
JUNIOR LEAGUE BASEBALL
TEAM'S WORLD SERIES VICTORY

HON. BILL POSEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 12, 2012

Mr. POSEY. Mr. Speaker, I rise today to congratulate the Rockledge Junior League Baseball team for winning the Junior League World Series championship at Heritage Park in Taylor, Michigan on August 18, 2012.

Thirty-two years after the Junior League Baseball World Series was established in 1981, Rockledge became the tenth Florida team to bring home a championship.

The team dominated across the state of Florida, with a record of 11–0. Rockledge continued forward to defeat five state champions from Virginia, Tennessee, North Carolina, Georgia, and Alabama. They traveled for 1,158 miles and 19 hours to Michigan with a record of 16–0 as the USA Southeast regional title holder, and triumphed to become the USA bracket leader. Only team Aruba, the international title holder, was standing between the ambitions of Rockledge team members, who were led by Manager David Clanton and Coaches Tom Hall and Robbie Robedeau.

The championship began with a quick 5–2 lead as Rockledge asserted its presence. Justin Robedeau, Kevin Clanton, Trevor Payne, Andrew Parrish, Mason Studstill, Blake Beyel, Brady Martello, Michael Hall, Gavin Spinneweber, and Jackson Parker each maintained their confidence while Aruba inched closer, shortening the gap 9–8 in the 6th inning.

The Rockledge All Stars kept their composure and brought home a 12–10 win in the 8th inning. Managed by an exceptional coaching staff, each teammate played a major role in winning the World Series title, with a final 22–0 post season record. We salute the Rockledge Junior League Baseball team for their success and the measure to which they represented our community and state.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily

Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, September 13, 2012 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED
SEPTEMBER 14

9:30 a.m.

Armed Services

To receive a closed briefing on the situation in Syria.

SVC-217

2:30 p.m.

Indian Affairs

To hold hearings to examine the nomination of Kevin K. Washburn, of New Mexico, to be Assistant Secretary of the Interior for Indian Affairs.

SD-628

SEPTEMBER 19

9:30 a.m.

Energy and Natural Resources
Water and Power Subcommittee
