IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 678) to authorize all Bureau of Reclamation conduit facilities for hydropower development under Federal Reclamation law, and for other purposes, with Mr. POE in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

The gentleman from Washington (Mr. HASTINGS) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 30 minutes.

The Chair recognizes the gentleman from Washington.

Mr. HASTINGS of Washington. Mr. Chairman, I yield myself such time as I may consume.

I rise in support of H.R. 678, the Bureau of Reclamation Small Conduit Hydropower Development and Rural Jobs Act.

Those of us from the Pacific Northwest know and understand the importance of hydropower and the significant role it plays in our economy. In my home State of Washington, hydropower produces 70 percent of our power, and it helps keep electricity rates low and affordable for our residents.

□ 1340

It is one of the cheapest and cleanest forms of electricity, and helps make other intermittent sources of renewable energy, like wind and solar, possible.

Yet too often, as is frequently the case with energy projects on Federal lands, the development of new hydropower gets caught up in bureaucratic red tape and regulations.

Today's bill, sponsored by our colleague from Colorado, Mr. TIPTON, would cut through that red tape to expand the development of small conduit hydropower. Specifically, it clears up Federal agency confusion by directly authorizing hydropower development at almost 47,000 miles of Bureau of Reclamation canals. It also streamlines the regulatory process for developing small canal and pipeline hydropower projects on existing Bureau of Reclamation facilities.
