

water, clean our air and maintain open spaces. Conserved lands serve as precious wildlife habitat, allowing species to forage and to flourish.

We know that bees, which provide sweet honey and pollinate our crops, are searching for habitat in these modern times. Lancaster County's triumph in conservation helps afford bees, which have lived on Earth for more than 100 million years, a place to inhabit. Another gift created when farmers, foresters and ranchers conserve lands is the knowledge that these critical professions—these cherished ways of life—will continue to have a valued role in American society for many generations to come.

In giving lands over to the committed purpose of conservation, people receive bountiful rewards. As a government official, I believe in the transformative and restorative qualities of conservation easements. I will work to ensure vital conservation programs continue to work for Pennsylvanians and partner organizations, such as the Lancaster Farmland Trust and the Lancaster County Agricultural Preserve Board.

Furthermore, more than half of Pennsylvania and most all of Lancaster County lies within the Chesapeake Bay watershed—and approximately 3 million people live in this area. The challenges of farming in this region are significant. Thus efficient, effective and relevant Federal conservation programs are critical to farmers' success. In advance of the Senate agriculture committee's consideration of the 2012 farm bill, I introduced the Chesapeake Bay Watershed Fairness Act, legislation aimed at helping farmers to better implement beneficial conservation practices and to meet water quality goals in the watershed. The 2013 Senate bill contains portions of this legislation and features additional improvements that better ensure that the remodeled conservation programs will serve the needs of farmers in the Chesapeake Bay watershed.

As we move forward with the farm bill, providing farmers in the watershed with the conservation tools included in the Senate bill is extremely important. Federal farm land conservation programs must remain strong. The voluntary conservation programs in the farm bill provide important tools to help farmers comply with Federal and State regulations while keeping farmers in business. Of particular importance to Pennsylvanians are programs like the proposed Agricultural Land Easements program, designed to take over the current Farmland Protection Program, which helps to preserve working farm lands from development. These conservation programs must continue to work for Pennsylvanians and those across the Nation who desire to perform the sacred act of preserving farmland so our future generations can continue to provide us with food, fiber and fuel for the benefit of all.

REMEMBERING ALBERT HENRY HAAS

Mrs. McCASKILL. Madam President, I ask that the Senate join me in honoring the life of Albert Henry Haas. Albert was killed November 29 in a mortar attack at Bagram Air Force Base in Afghanistan, where he was serving as a civilian aircraft mechanic.

Albert had a long career in service to our country, dating back to his service in the U.S. Army during the Vietnam war and continuing in the Army Reserves during the conflict in Bosnia. Following 30 years of military service, Albert retired and began a 30-year career in aircraft maintenance for companies such as TWA and American Airlines.

Albert had a passion for life that he shared with those around him. He especially enjoyed spending time with his grandchildren and learning about different cultures. He was fascinated with and very knowledgeable about all mechanical things that move like trains, helicopters, and planes. Those around him will remember him as a comical person who was able to make all around him feel comfortable and welcomed.

As the daughter of a caring, loving father who always told me I could achieve anything, and that there were no jobs too tough for me, I was especially happy to hear about Albert's advice for his two daughters. He instilled in them from an early age that they could do anything they put their mind to, without regard to their gender. This resulted in them helping rewire the entire house and working on roof repairs with Albert. Just as I am thankful on a daily basis for the lessons my father taught me, I know Albert's children are thankful for the memories and teachings of their father.

On behalf of the Senate, I wish to offer my condolences to Albert's wife of 41 years, Bay Thi, their three adult children, Thao Haas of Texas, Tina V. Smith of Belleville, IL, and Lisa R. Carnahan of St. Louis, MO, and his eight grandchildren. Albert's life was an example to those around him and I hope his family can take comfort in the memories they shared with him.

TRIBUTE TO MAJOR BOBBY J. COX

Mr. CHAMBLISS. Madam President, I wish to pay tribute to MAJ Bobby James Cox for his exemplary dedication to duty and his service to the U.S. Army and to the United States of America. Major Cox has spent the last year serving in my office as a U.S. Army congressional fellow, and it is my distinct pleasure to congratulate him as he concludes an exemplary tour of duty in the Senate.

Major Cox was born in Spartanburg, SC. He commissioned into the infantry in 2002 upon graduation from the Citadel, the Military College of South Carolina, as a distinguished military graduate and the cadet regimental

commander of the South Carolina Corps of Cadets.

Major Cox was first assigned as a platoon leader in A Company, 3-187 Infantry Regiment, Rakkasans, 101st Airborne Division at Fort Campbell, KY, deploying in support of Operation Iraqi Freedom in 2003. Upon return from Iraq, Major Cox was selected to be a Ranger platoon leader in A Company, 2nd Battalion, 75th Ranger Regiment, at Fort Lewis, WA, deploying twice in support of Operation Iraqi Freedom. After the Maneuver Captains' Career Course at Fort Benning, GA, Major Cox was assigned to 4th Ranger Training Battalion, Fort Benning, GA, to be a platoon Ranger instructor, Company Commander, and Battalion S-1.

Major Cox then moved to Fort Bragg, NC, to become the 3rd Brigade Combat Team air officer at the 82nd Airborne Division. He assumed command of A Company, 1-505 Parachute Infantry Regiment, 82nd Airborne Division while deployed in support of Operation Iraqi Freedom. Following company command and battalion staff, he was selected to be an Army congressional fellow attending the George Washington University, where he earned a master's degree and subsequently joined my personal office on Capitol Hill.

Over the past year, Major Cox has distinguished himself among his fellowship peers as a leader in the Senate. From his legislative contributions supporting my role on the Senate Armed Services Committee to his dedication to constituent services, Major Cox has deftly applied his military expertise to elevate the performance of my personal office. Across my 19 years in office, Major Cox ranks among the very best of a select group of fellows.

The Army says that "Rangers Lead The Way!" Major Cox has served as an inspiration and model Airborne Ranger to me and my colleagues in the Senate. I am deeply grateful for his significant contributions and leadership over the past year. He has certainly lived up to the Ranger motto.

It is my great pleasure to congratulate Major Cox, his wife Joscelyn, and their two children, Reagan and Seth, as they leave the Senate and continue to serve our great Nation. I wish them the very best of luck.

TRIBUTE TO LIEUTENANT COLONEL KELLY MARIE LAUREL

Mrs. MURRAY. Madam President, today I wish to pay tribute to an exemplary leader, an accomplished Soldier, and an extraordinary American, as she retires from Active Duty with the U.S. Army. LTC Kelly Marie Laurel has dedicated nearly 25 years of service to our great Nation and has set the very standard of leadership, strategic thinking, and selfless service that we expect of our finest Army officers. Culminating her career as the hand-picked Deputy Chief of the Secretary of the Army's Strategic Initiatives Group,

Lieutenant Colonel Laurel has served and excelled at every level of our Army, and she exemplifies the patriotism, fidelity, and commitment to which every citizen should strive.

From her early enlisted career as an airman in the Wyoming National Guard to her Active-Duty service in key positions ranging from medical platoon leader and company commander to personally advising the Army surgeon general and the Secretary of the Army, Kelly has been exceptional in every respect. Examples of her ever-increasing responsibilities include medical platoon leader, 61st Area Support Medical Company at Fort Hood, TX, company commander, Headquarters, 52d Medical Evacuation Battalion; and later the chief of the Management Division, 18th Medical Command in Korea; and the chief financial officer for the widely dispersed Heidelberg Hospital and its nine outlying clinics in Germany. Her work and potential was so great that then-Major Laurel was soon personally selected to serve the Army's surgeon general as the senior budget analyst, the chief of the Financial Health Policy Division, and finally as the senior congressional affairs coordinating officer.

Fortunately for me and so many Members of Congress, the Assistant Secretary of the Army for Financial Management and Comptroller soon recognized her outstanding abilities and selected Kelly to serve as the Army's senior budget legislative liaison. I and my colleagues in both Chambers have personally benefited from Kelly's extraordinary intellect, keen analysis, and unmatched determination. During her tenure in this position, Kelly routinely worked the most sensitive, complex, and critical Army actions involving the Senate and House Appropriations Committees. Her wisdom and unmatched expertise led the Army to extraordinary success in obtaining vital funding for the most critical medical, environmental, and behavioral health programs and ensured that our soldiers and their families had the necessary support they needed during these years of war. Moreover, she was instrumental in obtaining vital funding for the restructuring and expansion of the Army National Cemeteries Program. Most recently, recognizing her leadership and exceptional intellect, the Secretary of the Army selected Kelly to be his deputy chief of strategic initiatives. In this capacity, Kelly advised the Secretary and other Army senior leaders on the development and implementation of critical service-wide policies and programs that will benefit the Army for many years to come.

Kelly's superb career and character is also a true testament to the exceptional support and example provided by her family. As the daughter of first-generation Americans, Kelly was taught early the value of hard work, commitment, and selfless service by her parents Jose and Dolores Montemayor. Moreover, as a child of a

career military family, Kelly learned to embody the values of loyalty, duty, respect, selfless service, honor, integrity and personal courage before she even knew there was an Army. As she has repeatedly demonstrated, to Kelly, these are not ideals but character traits; not platitudes, but requirements and expectations of every citizen. Clearly, her character, work ethic, and patriotism are examples to us all. We owe the highest praise and tribute to this great American and her family.

Accordingly, on behalf of a very grateful nation, I join my colleagues today in recognizing and commending LTC Kelly Marie Laurel for nearly 25 years of service to this country. Although, to the Army, Kelly is irreplaceable, I am certain this exceptional citizen will continue to make great contributions to the United States as she embarks on the next chapter of her life.

ADDITIONAL STATEMENTS

TRIBUTE TO DR. LEVI WATKINS, JR.

• Mr. CARDIN. Madam President, today I wish to salute Dr. Levi Watkins, Jr., a renowned cardiac surgeon who will retire at year's end from Johns Hopkins Medicine. During his 4-decade-long career, Dr. Watkins has had a profound impact on American health care—through the countless patients he has treated, the students he has recruited and mentored, and the cultural diversity he has advanced.

Levi Watkins, Jr. grew up in Montgomery, AL, the third of Dr. and Mrs. Levi Watkins, Sr.'s six children. At the Alabama State Laboratory High School, Watkins excelled in academics and athletics: he graduated valedictorian and was selected for the Montgomery All-Star basketball team. It was in Alabama that he witnessed the early days of the civil rights movement. As a member of the First Baptist Church of Montgomery, Watkins developed a close friendship with his pastor, the Reverend Dr. Ralph David Abernathy, and later he attended Dexter Avenue Baptist Church, where he was introduced to the Reverend Dr. Martin Luther King, Jr. and the King family.

Watkins majored in biology as an undergraduate at Tennessee State University, where he was elected president of the student body and joined Alpha Phi Alpha Fraternity, Inc., Alpha Kappa Mu honor society, Beta Kappa Chi honor society, and many other notable organizations. Watkins also led many student movements on campus and graduated with highest honors.

Dr. Watkins' medical career has been one of monumental firsts. In 1966, he integrated the Vanderbilt University School of Medicine as the first African-American student ever admitted. He was later selected to become a member of Alpha Omega Alpha medical honor society. Watkins arrived at Johns Hop-

kins Hospital in 1970 as a general surgery intern and became the first African-American chief resident in cardiac surgery in the institution's history. There, in 1980, he performed the world's first implantation of an automatic heart defibrillator in a human—a procedure that is now performed worldwide and has since saved tens of thousands of lives. In 1991, Dr. Watkins became the first African-American at Johns Hopkins promoted to full professor of cardiac surgery. He was named the first African-American associate dean in the School of Medicine and established the nation's first postdoctoral association, helping to revolutionize the culture of postdoctoral education in the United States. Today, there are more than 50 such associations across the nation.

Dr. Watkins has been a fierce advocate for fairness and diversity. He joined the Hopkins School of Medicine's admissions committee in 1979, and began recruiting minority applicants and sponsoring an annual welcoming and networking reception for new students. In 1982, he founded the Martin Luther King, Jr. Commemoration at Hopkins, an annual event that has brought an illustrious array of speakers to Baltimore, including Coretta Scott King, Rosa Parks, Maya Angelou, Stevie Wonder, and Taylor Branch.

In October 2002, Vanderbilt University established a Professorship and Associate Deanship in his name; in October 2005, Dr. Watkins' portrait was unveiled at the Vanderbilt University School of Medicine honoring his life's work; and, in 2008, Vanderbilt bestowed upon Dr. Watkins its "Most Distinguished Alumnus Award."

Since 2006, when he stopped performing surgery, Dr. Watkins has remained a powerful presence and an important influence on Johns Hopkins and the city of Baltimore. In December 2008, he was honored by the National Black Caucus of State Legislators with the Nation Builders Award, along with President-Elect Barack Obama, and James H. Meredith. In January of 2012, he was appointed co-chair of Mayor Stephanie Rawlings-Blake's transition team for health and human services.

I ask my colleagues to join me in wishing Dr. Levi Watkins, Jr. well as he embarks upon the next phase of his lifelong journey to improve the health and well-being of others. •

TRIBUTE TO DR. LYNN KILCHENSTEIN

• Mrs. SHAHEEN. Mr. President, I wish to recognize Lynn Kilchenstein, president of the New Hampshire Technical Institute, who will step down from her position at the end of the year. Dr. Kilchenstein has demonstrated exceptional leadership at NHTI for the last 10 years, and I thank her for her strong commitment to the students of New Hampshire. While I know she will be missed by the school
