

power, and the world could see more years of peace and could see an end in sight maybe for 100 years or so of radical Islam. Moderate Muslims could live in peace. Jews could live more in peace. Christians could live more in peace.

There are Christians being persecuted around the world, probably in greater numbers than ever before, not in percentages, but in numbers. In countries like Iraq, where we gave them their freedom, they are persecuting Christians and Jews. In Afghanistan, where we gave them their freedom, they are persecuting Christians and Jews.

They were persecuting Christians and Jews in Egypt until the people rose up and demonstrations—literally went arm in arm, a beautiful, incredible scene for world peace, as Muslims, Jews, Christians, secularists took to the streets to rebel and demand the ouster of a radical Islamist who was seizing power, and had they waited another year, they probably would not have been able to do it.

□ 2015

For those who believe in the power of prayer, we need to continue to pray for Israel and we need to continue to pray for Egypt and the Egyptian leaders.

I applaud the Obama administration. I was thrilled and am so pleased that this administration has announced they are going to go ahead and furnish Apache helicopters to the new government in Egypt.

It is going to be tough for the Egyptians. They have got a tough economy. They have too many on welfare. They have got a lot of adjustments to make. But they want freedom. The masses of Egypt want freedom. They don't want radical Islam. They don't want radical Islam like that which rebelled and killed Qadhafi and took over Tunisia. They don't want that.

We need to encourage them. We need to help them. We need to help them eliminate all the weaponization that Morsi encouraged and allowed, it turns out, in the Sinai, as Egypt stands up against radical Islam.

So I really want to thank the Obama administration for following through in supplying the Apache helicopters that were supposed to be supplied.

As General el-Sisi, who has stepped down as general of the military, and who will likely be elected President, said previously, Do you not understand we use the Apaches to keep the Suez Canal open? We are using the Apaches to clear out the radical Islamists in the Sinai. Why wouldn't you want to help us do that? Why would you rather help radical Islam?

I know that in this body a majority would stand with our President and we would be proud of him if he would protect us and protect Israel, stop the nuclear proliferation in its tracks, not by promising to release murderers, not by talking Israel into releasing more murderers, and not giving Iran billions and

billions of more money and not eliminating any more of the sanctions against Iran, but just take out the nuclear capability that has developed so far. Because otherwise, if we let them get nukes, they will be glad to supply them to terrorists.

You don't have to have intercontinental ballistic missiles to get a nuke to America. You can put them on a boat and float them right up the Potomac, the Hudson, right up to Chicago, up to Houston, New Orleans, and take out 70 percent of our refining capacity.

So they could put a nuclear weapon on even a sorry Scud missile that is so inexact and launch it from a boat or a barge into the interior airspace. It doesn't need to hit the ground, but there is a huge range that even a Scud missile could make, and explode a nuclear weapon, creating an electromagnetic pulse, or EMP, that would fry most of the computer chips in the country, shut down most of our electrical capacity, shut down grocery stores, shut down stores relying on computers, shut down cars that have reliance on computer chips.

They could do all that with one nuke and a lousy missile that is not very exact. They could do that.

It is time we acted before they destroy America as we have known it, as it has come to be the greatest country in the history of the world. It has more individual freedom, but we see that waning. It has the greatest economy in history, but we have seen that wane.

Now we are told in a very short time China will be the biggest economy, unless something happens. How about if the United States stops the modern-day gas chambers from being completed, stops the radical Islamist enemies of America, Israel, and of moderate Muslims?

How about if we do moderate Islam a favor and take out the radicals for them as well?

Let's get peace on track. And you don't do it with a Secretary of State that condemns our closest allies and accuses our allies of being criminals. You don't do it by releasing murderous thugs of countries that hate us and are planning to kill us at some point whenever they get the capability. You do it by self-preservation.

In Texas, we are pretty proud of our self-defense laws. When somebody has told you they are going to kill you, and they are close to having the ability to do that, it is self-defense to stop them.

It is time.

Mr. Speaker, I yield back the balance of my time.
