

threshold. And I will include something. I ask that unanimous consent as in legislative session.

The PRESIDING OFFICER. Is there objection?

The Senator from Texas.

Mr. CORNYN. Reserving the right to object.

Mr. President, we have been trying to get the Keystone Pipeline approved and on the President's desk since 2012. The leader on our side has been the Senator from North Dakota, Senator HOEVEN. We have all supported this effort because we believe the State Department estimate that roughly 42,000 jobs would be created once the pipeline is approved. If the oil doesn't come to the United States and is not turned into fuel here, it will be shipped to China.

Unfortunately, the majority has blocked this pipeline several times. It has been stalled for way too long, so I am glad to see some progress is being made, albeit at this late date, after a dramatic election on November 4.

I ask the Senator to modify her request so that if the Senate passes S. 2280 and receives a bill from the House that is identical to S. 2280, then the House bill will be read three times and passed with no intervening action or debate, and thus we can send this bill directly to the President without further action.

The PRESIDING OFFICER. Does the Senator wish to modify the request?

Ms. LANDRIEU. Reserving the right to object.

I thank the Senator from Texas engaging on this matter today. I appreciate it. Most importantly, I appreciate the comments he made earlier on the floor about rolling up our sleeves and getting to work. He was one of the first speakers this morning when our Senate convened, and I was here when he spoke. I wish to thank him for his very insightful and courageous words that said we should roll up our sleeves and get to work.

He knows very well that I, and about 12 to 15 Members on our side, have been working very hard with him and his leadership and all the Members of the Republican side to move the Keystone Pipeline bill forward.

I think the Senator also knows the bill that Senator HOEVEN and I drafted respects this process, wanted to see the process complete, and acknowledges that the process is now complete and it is time to move.

So because the House heard these words today and has decided to introduce the identical language in the Hoeven-Landrieu bill—and I think the Senator will agree with me it is good news—it looks to me as if they are prepared to pass it. I can see no reason to object to what the Senator from Texas is asking for, and I consider it extraordinary progress.

I am very happy that I came to the floor at 2:00 p.m. to get the ball rolling and that I was here in time to hear the Senator's remarks: Let's get to work.

So let's get it done. We can get it done in the lameduck session, and I will accept the Senator's counter.

The PRESIDING OFFICER. The request has been modified.

Is there an objection to the modified request?

Mr. CORNYN. Mr. President, a point of clarification. It is my understanding the Senator from Louisiana is not objecting to my amended request and has not posed another modification. I believe the question is, is there an objection to my modified request?

The PRESIDING OFFICER. The Senator from Louisiana.

Ms. LANDRIEU. I will clarify. I want the record to reflect my remarks. The Senator from Louisiana has absolutely no objection to the House of Representatives taking the exact language from my bill with Senator HOEVEN and passing it. Why would I object? I have been working on this for 4 years. Why would I object to that? The record should reflect that. The Senator from Louisiana has no objection whatsoever—and I am encouraged that the House is taking the exact language of the bill that I carefully drafted with Senator HOEVEN. He is the lead on this bill. I am not. It is his bill. He is the lead. I am just the Chair of the energy committee.

I wish to thank Senator TESTER and others who helped to craft a bill that the House would accept, and so I have no objection to that.

The PRESIDING OFFICER. Is there objection to the modified request?

Without objection, it is so ordered.
