

also affirms the sense of the Congress that by 2024, the gas tax should be repealed and replaced with a more sustainable funding source. My second piece of legislation, the Road Usage Charge Pilot Program Act, provides research funding for states to explore a transition away from the gas tax to a system based on vehicle miles travelled (VMT). Such a Road Usage Charge system would be more fair, a more accurate reflection of road use, and more sustainable for the long term, as fuel efficiency increases and hybrid and electric vehicles rise in popularity. Questions remain about how best to implement such a system, collect revenue, and address privacy concerns. Congress should encourage states to answer these questions through pilot projects. This legislation, instead of tying America's transportation system to the past, paves the way for the future.

Addressing the infrastructure deficit, stabilizing transportation funding, and helping America's all-too-slow economic recovery is critical if we want a livable and economically prosperous country in the years to come. All we need to make it happen is a commitment to build the future together.

RECOGNIZING MAJOR KRISTEN  
CLARK CASTONGUAY

**HON. MICHAEL G. FITZPATRICK**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. FITZPATRICK. Mr. Speaker, today I offer congratulations to Major Kristen Clark Castonguay on her recent promotion as an officer in the United States Air Force. A graduate of Neshaminy High School in Langhorne, Bucks County, and Syracuse University, New York, Major Castonguay also holds a master's degree in aerospace engineering from Pennsylvania State University. Kristen's father, David Clark, and her uncle, Terry Clark, an Air Force veteran, inspired her to explore her interest in rockets and space exploration. Major Castonguay believes she was called to serve for the greater good of the country and wanted to be a part of something bigger than herself. She was commissioned as an Air Force officer in 2004 and subsequently served on active duty in various Air Force bases in space propulsion and engineering supervisory positions. Major Castonguay currently teaches Rocket Propulsion and Space System Lab in the aerospace engineering department of the United States Naval Academy in Annapolis, Maryland. I gratefully acknowledge Major Kristen Clark Castonguay's dedication and many contributions to our country. She has set an example of diligence and duty and service for others to follow. Once again, I am pleased to offer my congratulations on her outstanding achievements and wish her continued success.

PERSONAL EXPLANATION

**HON. JOSEPH CROWLEY**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. CROWLEY. Mr. Speaker, on January 28, 2015 I missed recorded votes #49–50 as

I was returning from the presidential delegation to India to support this important partnership between our two countries.

I would like to reflect how I would have voted if I were here.

On Roll Call #49 I would have voted yes

On Roll Call #50 I would have voted no

PERSONAL EXPLANATION

**HON. PETER J. ROSKAM**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. ROSKAM. Mr. Speaker, on roll call no. 51 I had an unavoidable conflict. Had I been present, I would have voted aye.

HOUSTON, TEXAS RECOGNIZES INAUGURAL MISSING PERSONS DAY

**HON. TED POE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. POE of Texas. Mr. Speaker, today, February 3, 2015, we recognize Missing Persons Day in Houston, Texas.

There are few situations harder than when a family member or friend disappears.

We cannot forget each and every person missing from our community.

And help families, law enforcement, and community organizations raise awareness.

Today, we keep the hope alive that young people like Ali Lowitzer will return home.

Today is Ali's 21st birthday.

She went missing almost 5 years ago in April 2010 nearby her home in Spring, Texas.

She got off the bus after school and headed to work.

And she hasn't been heard from since.

Her family will not stop until she is found.

We join them in staying vigilant.

Citizens should report sightings and suspicious activity to law enforcement, Crime Stoppers or the National Center for Missing and Exploited Children.

All of these groups are partners in solving crimes.

One never knows when a report will end in a missing person returning to their family.

Ali's mother, Jo Ann, and her family are to be commended for raising the profile on this serious issue in Houston and providing support to other families.

We pray that Ali's mother, father, and brother and all those whose loved ones are missing will soon be reunited as a complete family.

And that's just the way it is.

PERSONAL EXPLANATION

**HON. ANNA G. ESHOO**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Ms. ESHOO. Mr. Speaker, I was not present during roll call vote numbers 51, 52, and 53 on February 2, 2015, due to a flight cancellation.

I would like to reflect how I would have voted:

On roll call vote no. 51 I would have voted YES.

On roll call vote no. 52 I would have voted YES.

On roll call vote no. 53 I would have voted YES.

INTRODUCTION OF THE VETERANS  
EQUAL ACCESS ACT

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. BLUMENAUER. Mr. Speaker, today, I am introducing the bipartisan Veterans Equal Access Act along with my colleagues DANA ROHRBACHER, WALTER JONES, JUSTIN AMASH, TOM REED, RICHARD HANNA, DINA TITUS, SAM FARR and JARED POLIS, which will allow Veterans Health Administration physicians to recommend medical marijuana to their patients in states where it is legal.

Twenty-three states and the District of Columbia have passed laws that provide for legal access to medical marijuana. As a result, well over one million patients across the country, including many veterans, now use medical marijuana at the recommendation of their physician to treat conditions ranging from seizures, glaucoma, anxiety, chronic pain, and nausea.

There are also nine states and the District of Columbia that now allow physicians to recommend medical marijuana for the symptoms of Post-Traumatic Stress (PTS), due to a growing body of anecdotal evidence suggesting that marijuana offers relief when nothing else has.

While outdated federal barriers often prevent the research necessary to develop marijuana into an FDA approved drug, states have heard from their citizens, including veterans suffering from PTS, that marijuana is helping them now, and have adjusted their laws.

Despite this growing state availability of medical marijuana, the Department of Veterans Affairs (VA) prohibits VA medical providers from completing forms brought by their patients seeking recommendations or opinions regarding participation in a state marijuana program.

The Veterans Equal Access Act would require the Secretary of Veterans Affairs to authorize physicians and other health care workers employed by the VA to provide recommendations and opinions regarding the participation of a veteran in a state medical marijuana program. This includes authorizing them to fill out any forms involved in the process of recommending medical marijuana.

Veterans should not be forced outside of the VA system to seek a treatment that is legal in their state. VA physicians should not be denied the ability to offer a recommendation they think may meet the needs of their patient. I hope my colleagues will join me in supporting this effort.

## PERSONAL EXPLANATION

**HON. STEVE KING**

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. KING of Iowa. Mr. Speaker, on roll call no. 52, had I been present, I would have voted Yes.

HONORING THE PUBLIC SERVICE  
OF EULESS CITY MANAGER  
GARY MCKAMIE

**HON. KENNY MARCHANT**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. MARCHANT. Mr. Speaker, I rise today to recognize Gary McKamie who retired as the Eules City Manager on January 31, 2015. Gary has spent the last 42 years serving the City of Eules, and I am privileged to highlight his astonishing career.

Gary McKamie began his career with the City of Eules in 1973 as a public safety dispatcher. He worked in several positions in the Eules Police Department where he rose through the ranks as a Patrol Officer, Detective, Sergeant, Lieutenant, Assistant Police Chief and, ultimately, as Chief of Police for six years beginning in 1993.

As the Chief of Police, Gary McKamie was instrumental in executing several community projects which included the passage of the criminal tax, establishment of the Citizen's Police Academy, conducting town hall meetings and assisting with the development of the police and courts facility.

In 1999, Gary McKamie became the Deputy City Manager in Eules and served in that capacity for eight years. He was then appointed City Manager in 2007. As City Manager, Gary oversaw major commercial development projects in Eules including Glade Parks and the Riverwalk. Both projects were successfully completed to maintain the charm of the community while protecting the natural scenery that defines Eules. He led significant initiatives to improve water conservation, such as the Reclaimed Water Project, which delivers recycled water for irrigation use in northeast Eules. During his tenure as City Manager, Gary was successful in maintaining a conservative budget, allowing Eules to remain in a strong financial position.

Gary McKamie and his wife, Paula, have been married for 40 years. They have three sons: Blake, Brant and Blane, and six grandchildren: Kylar, Kaylee, Kelsie, Jaxon, Addie and Annabelle.

Gary McKamie's leadership in Eules will be missed, but his impact on the city will always be remembered. Mr. Speaker, it is my honor to ask all of my distinguished colleagues to join me in thanking Gary McKamie for his 42 years of public service with the City of Eules.

## PERSONAL EXPLANATION

**HON. FRANK C. GUINTA**

OF NEW HAMPSHIRE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. GUINTA. Mr. Speaker, on roll call no. 52 I was unable to vote because my flight was cancelled due to inclement weather. Had I been present, I would have voted yes.

## PERSONAL EXPLANATION

**HON. PETER J. ROSKAM**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. ROSKAM. Mr. Speaker, on roll call no. 52 I had an unavoidable conflict. Had I been present, I would have voted AYE.

IN RECOGNITION OF THE 80TH  
BIRTHDAY OF MAJOR GENERAL  
[RET.] GERALD G. WATSON

**HON. MIKE ROGERS**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. ROGERS of Alabama. Mr. Speaker, I rise today to recognize my friend, Major General (Ret.) Gerald G. Watson, in honor of his 80th birthday.

Watson graduated from Trinity University with a Bachelor of Science degree in chemistry. He was designated a distinguished military graduate and received a regular Army commission in the U.S. Army Chemical Corps. He went on to earn a Master of Science in logistics systems analysis from the Air Force Institute of Technology. His military education included the Artillery Officers Basic Course, the Chemical Officers Advanced Course, the Army Command and General Staff College and the U.S. Army War College.

During Watson's extensive military career, he served as the first chemical operations officer in the Military Assistance Command in Vietnam, where he directed the U.S. Air Force "Ranch Hand" operations, involving the chemical defoliation program. Most of his missions were flown in a craft nicknamed "Patches," due to the vessel having endured more than 500 direct hits from enemy ground fire. Under his leadership, the defoliation program successfully resulted in over a 90 percent reduction in ambushes from Vietcong forces in South Vietnam.

Watson directed the construction and operation of the first two large scale chemical weapons demilitarization facilities while serving as Commander of Rocky Mountain Arsenal. During this time, 7,000 tons of chemical warfare agents were successfully destroyed.

He oversaw the development of the Army's plan for the destruction of its biological weapons stockpile. Later, he served as Program Manager to see the plans be carried out and the biological weapons sufficiently eliminated.

In the office of the Army's deputy Chief-of-Staff for Operations, Watson spearheaded the re-establishment of the U.S. Army Chemical Corps while acting as Director of the Nuclear,

Biological and Chemical Operations Division. He also served as the Deputy Inspector General for the U.S. Army, where he contributed greatly to the Army's world-wide readiness.

Following that assignment, Watson was promoted to Brigadier General, and assigned as the Commandant, U.S. Army Chemical School where he was responsible for the development of the U.S. Army Chemical Corps' operational doctrine and material requirements. As Commanding General, he was responsible for the officer and enlisted personnel training activities to include the approval of the first chemical live agent training facility in the free world. During this time, he was responsible for conducting officer and enlisted basic and advanced training for approximately 3,000 officers, 25,000 NCOs and enlisted personnel per year.

Selected to be the Director of the Defense Nuclear Agency in 1989, Watson was responsible for conducting underground nuclear weapons tests to determine the equipment and personnel's survivability and vulnerability to withstand the environment created by nuclear weapons.

Watson served as General Manager and President of Teledyne-Commodore LLC after retiring from active duty. From 1998–2009, he acted as senior advisor to the Vice President for Research at Auburn University. He has served on the Board of Directors of Science Engineering Services, Inc., as well as the Board of Directors of the Community Foundation of Calhoun County. General Watson has also completed his third term as a member of the Vestry of St. Michael's and All Angels in Anniston, Alabama.

Currently, he continues to serve as a senior consultant in a range of issues including domestic preparedness, fuel cell technology, chemical and biological sensors, automotive manufacturing technology and canine olfactory technology. Watson is engaged in support of areas relating to the domestic preparedness of first responders and to acts of terrorism involving weapons of mass destruction.

Although his birthday is on February 19th, a surprise celebration will be held on February 21st at Classic on Noble in Anniston, Alabama.

Mr. Speaker, please join me in celebrating Major General (Ret.) Gerald Watson on this milestone, and thanking him for his outstanding service to our country.

## PERSONAL EXPLANATION

**HON. GENE GREEN**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 3, 2015*

Mr. GENE GREEN of Texas. Mr. Speaker, I rise today to state that I was unable to be in Washington on February 2nd for votes due to inclement weather that impacted travel throughout the Midwest and Northeast.

If I had been able to vote yesterday, I would have voted as follows:

On passage of H.R. 361, the Medical Preparedness Allowable Use Act, I would have voted "yea."

On passage of H.R. 615, the Department of Homeland Security Interoperable Communications Act, I would have voted "yea."

On passage of H.R. 623, the Social Media Working Group Act of 2015, I would have voted "yea."
