INTRODUCING A RESOLUTION TO RECOGNIZE JUNE AS MEN'S CANCER AWARENESS MONTH

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 15, 2015

Mr. HASTINGS. Mr. Speaker, I rise today to highlight an issue of growing concern to this nation: cancer among men, by introducing a resolution recognizing June as Men's Cancer Awareness Month.

Cancer is a deadly disease that does not discriminate. It impacts all demographics and every segment of our population. However, what I find extremely alarming is that cancer is claiming the lives of males of all races and ages at an alarming rate. One in 2 men will be diagnosed with cancer over the course of their lifetimes. Men face a 43.31 percent lifetime risk of being diagnosed with some form of cancer. Statistics show that men have a 22.83 percent chance of dying from cancer versus 19.26 percent of women. The Centers for Disease Control (CDC) estimates that nearly 300,000 men die annually as a result of cancer. Furthermore, African American men have the highest cancer incidence and mortality rates according to the CDC.

I ask my fellow Members of Congress to join me in shining a light on this deadly disease that is plaguing the men of our communities. These men are our fathers, grandfathers, brothers, uncles, sons, grandsons, and nephews. Recognizing and preventing men's health problems is not just an issue facing men, it also has a profound impact on the lives of wives, mothers, daughters, and sisters, and is truly a family issue. No one should ever be put in a position to have to prematurely bury their loved one.

Additionally, there are a number of consistent gender differences in cancer susceptibility. In fact, gender differences in cancer susceptibility are rarely publicized and often inadequately addressed. There are a number of common cancers that have the highest male-to-female (M:F) ratios, including colorectal cancers; cancers of the lung and bronchus; non-Hodgkin lymphoma, urinary and bladder cancers, and most alarming Kaposi sarcoma.

I was inspired to introduce this resolution by a constituent from my district, Mr. Joel

Greshman, who founded the Not 1 Forgotten campaign in 2013, after losing two close friends and family members to cancer. Joel created the organization to encourage men to get regular check-ups in order to stay healthy and live longer. By joining Joel and others across the nation to bring greater awareness of cancer among men, it is my sincere hope that we can work together to better promote expanded advocacy, media campaigns and other events. The Not 1 Forgotten campaign has gained momentum in states and cities across our nation from Fort Lauderdale located in my Congressional district to Atlanta, Augusta, Chicago, Houston, Los Angeles, Miami Dade County, and New York.

The purpose of Men's Cancer Awareness Month is to heighten awareness and encourage early detection and treatment of cancer among men and boys.

Mr. Speaker, I urge my colleagues to support this critically important resolution and recognize June as Men's Cancer Awareness Month.

Mr. MESSER. Mr. Speaker, I rise today to pay tribute to the life of Captain Luther Rice, a veteran of the United States Marine Corps and a truly selfless Hoosier.

Luther was a devoted husband, father, and grandfather. He was married to his wife Barbara Anne Nehls Rice for 61 years. Together, they had three children and six grandchildren. Luther was also a proud Marine. He served in the United States Marine Corps for 23 years, eventually retiring with the rank of Captain in 1971. He completed one tour in Korea and two tours of duty in Vietnam, earning a Bronze Star with Combat "V" during his second Vietnam tour. Overall, Captain Rice was awarded an impressive 14 different medals during his career in the Marines.

After his distinguished military career, Luther started attending night and summer school at Indiana State University, where he earned his Bachelor's degree in 1977 and a Master's in K-12 education in 1978. Luther found a passion for education and was named principal of Connersville vocational school where he served from 1979 to 1983. He also taught at the Career Center in Versailles, Indiana, and was eventually appointed school principal there as well—a position he served in until his retirement in 1992. In 1991, Luther was appointed Judge of Aurora City Court by Indiana Governor Evan Bayh, a position he held for six years.

In his spare time, Luther enjoyed supporting fellow veterans in his community. Luther was a lifetime member of the Korean War Veterans Association and served as its National Director for six years. He also volunteered at Dearborn County Hospital for 17 years, where he eventually became President of the Dearborn County Hospital Community Foundation.

Today, it is my privilege to honor the life of Captain Luther Rice. My thoughts and prayers go out to Luther's family, and may God comfort those he left behind with His peace and strength.

INTRODUCING LEGISLATION TO HELP PREVENT HEROIN AND PRESCRIPTION DRUG OVERDOSES

HON. RICHARD E. NEAL
OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 15, 2015

Mr. NEAL. Mr. Speaker, today I am pleased to come before the House to introduce legislation to exempt from civil liability emergency administration of opioid overdose-reversing drugs, like naloxone by people who prescribe or are prescribed them. I am pleased to be joined in my efforts by Senator MARKEY who has introduced a companion bill in the Senate.

Prescription drug overdoses have reached epidemic levels in this country. In the past ten years, opioid prescription has doubled. Every day 120 people die from drug overdoses fueled by prescription painkillers. Drugs like naloxone provide the means to counteract the effects of opioid overdoses. This is a life-saving treatment, but some are deterred from providing these drugs for fear of litigation.

When an opioid overdose occurs, administration of an opioid reversal drug is necessary to prevent death. But it must occur within a certain window of time before the chance of survival is lost. This is the time for quick action, not deliberations over the possibilities of a lawsuit. First responders and other "Good Samaritans" who have the means to treat an opioid overdose should not be dealt this burden.

The bill I am introducing today would protect treatment with opioid overdose-reversing
