

do this. Why in the world would we shut down the Ex-Im Bank that is a critical part of that trade infrastructure? So why in the world, indeed. Why would we ever make this decision? It is a decision that needs to be reversed. We need to get the Ex-Im Bank fully functioning and back in business.

So we are going to be doing everything we can in this next month and into future months, if we expect that we are going to eliminate the possibility of unilateral disarmament in trade financing.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SULLIVAN). Without objection, it is so ordered.

#### TRAGEDY IN CHATTANOOGA

Mr. MCCONNELL. Mr. President, this is a sad day in Chattanooga and a sad day across our country—another terrible tragedy—a mass shooting, apparently. A thorough investigation is underway.

The Senate's thoughts are with the families of the marines and our entire military community. Our thanks, as usual in these situations, goes out to the first responders and the community that mobilized so quickly.

We have two great Senators from Tennessee, who I know are mourning the events of today, and the American people will be interested in knowing as soon as possible as many facts about this horrible shooting as possible.

#### TRIBUTE TO PIKEVILLE INDEPENDENT SCHOOLS

Mr. MCCONNELL. Mr. President, I rise to recognize and congratulate the Pikeville Independent Schools system in Pikeville, KY, on the occasion of its 100th anniversary. Under the leadership of Superintendent Jerry Green, it is one of the best public school systems in the Commonwealth.

Before the founding of Pikeville Independent Schools, in the early 20th century, the region contained only a scattering of small, one-room schoolhouses. In 1915, the first public high school in Pike County opened under the system's first superintendent, Tobias J. Kendrick. There were approximately 150 students and 9 teachers and administrators. Courses taught included geometry, advanced algebra, physics, German, rhetoric, and 4 years of Latin. The first senior class contained only one graduate, a man named Vernon Stump.

Today, Pikeville Independent Schools includes Pikeville Elementary and Pikeville Junior High/High School. The district boasts some 1,280 students

from preschool to the 12th grade, and all go by the nickname "Pikeville Panthers." Both Pikeville Elementary and Pikeville High are accredited by the Southern Association of Colleges and Schools, and the school district has been chosen as one of only 17 Kentucky school districts to receive the What Parents Want Award.

Pikeville Independent Schools is constantly evaluating and creating programs to serve the needs of the students in the district. Pikeville Elementary, which serves preschool through grade 6, features full-time humanities teachers for art, music, and band. It has transition programs for both new students entering preschool and exiting students graduating into the seventh grade. It has many volunteer programs, and Pikeville Elementary volunteers log an average of 3,000 volunteer hours per year. It features a fully equipped science lab, an active and supportive parent-teacher organization, small class sizes, and individual instruction and tutoring.

Pikeville High School, which serves grades 7 through 12, offers its students 8 honors courses and 10 advanced placement courses, as well as unlimited opportunities for students to earn dual credit at the University of Pikeville. Currently, 45 percent of Pikeville High juniors and seniors are taking one or more dual credit courses through the university.

Pikeville High offers five vocational school programs and four career majors—business management, business technology, web development and administration, and information support services. A wide variety of extra-curricular activities are available, including Key Club, Pep Club, Future Business Leaders of America, and the National Honor Society, just to name a few.

Pikeville Independent Schools ranks second in the State for college and career readiness. The district's juniors place sixth in the State on the ACT test composite score. And the high school placed in the 97th percentile this past year among all schools in the State. The district's graduation rate for the 2012–2013 school year was over 96 percent. Athletics and artistic achievement are also highly valued in the district, and Pikeville Independent Schools have a long tradition of outstanding music groups, basketball, and football teams.

For 100 years, Pikeville Independent Schools has excelled at its mission to prepare students to become productive, contributing, valuable members of society who have pride in their school and their community. Kentucky is proud of the Pikeville Independent Schools system, and I congratulate the many men and women who work there for their service. I wish them the very best as they embark on a new century of representing the very best of Kentucky public education.

#### STORMS IN QUINCY, ILLINOIS

Mr. DURBIN. Mr. President, I have represented Quincy, IL, and Adams County since coming to Congress in 1983 as a Member of the House of Representatives. I have found that there is something special about the Gem City—its people, its strong sense of community, and the fighting spirit to tackle any crisis from floods to storms.

That spirit was tested this week.

I am relieved and thankful that there were no serious injuries or fatalities after a major storm tore through Quincy on Monday night. Torrential rain and winds up to 74 miles per hour felled trees, broke dozens of utility poles, and tore roofs off several homes and businesses during the event. The Quincy mayor declared a citywide state of emergency Monday evening and Adams County followed with a state of disaster declaration. Several people say the battered city looked like a warzone.

More than 21,000 people were without power on Monday night and Tuesday. Crews have worked around the clock to restore electricity to most. Due to the loss of power, many stoplights were out throughout the city. Between the outages, flooded streets, and streets made impassable by fallen trees, navigating Quincy has been a challenge.

The Quincy Park District estimates that the "jaw dropping" damage to the city's 29 parks—especially Madison and South Parks—far exceeds the devastation from severe storms in 2011 that costs the District more than \$400,000. Caretakers at Woodland Cemetery discovered after the worst of the storm had passed that a 20-foot piece of a Civil War monument was toppled by the high winds and at least 35 trees were uprooted in the cemetery, many of which were more than a century old.

Dozens of Quincy residents checked into motels to escape the heat as they started the cleanup of their homes and properties without power. John Wood Community College and the Quincy Senior and Family Resources Center set up cooling centers to give people a place to take a break. The Red Cross, Salvation Army, and other local agencies have been on site to lend a helping hand.

I am grateful that Quincy fire chief Joe Henning, Adams County emergency management agency director John Simon, Quincy police chief Rob Copley, and many other elected officials and community leaders are leading cleanup and recovery efforts. Getting the city back on its feet and helping the people whose homes and businesses were damaged is a big job.

In today's Quincy Herald-Whig columnist Steve Eighinger said it best, "It's going to be quite a while before things are back to what we consider normal, but we'll get there. We're Quincy. We pay it forward."

Mr. President, I ask unanimous consent that the column be printed in the RECORD.

In closing, I would like to commend the Quincy and Adams County community for pulling together to get through this storm and the aftermath. The cleanup is daunting, but the spirit endures. From the people of Hannibal and Macomb who have sent crews, trucks, and supplies to area residents who opened their homes and businesses to the displaced to the local businesses—grocery stores and gas stations—that have supplied free ice, water, and recharging stations, and done their best to restock basic supplies so residents can feed and care for their families to the Kroc Center and its supporters who have fed Quincyans. This has been a team effort.

I stand ready to support the local clean up and recovery efforts in Quincy and Adams County and will continue to keep community residents in my thoughts as they get the Gem City back up and running.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Quincy Herald-Whig, July 16, 2015]  
'NORMAL' STILL A WAYS AWAY, BUT WE WILL GET THERE

(By Steve Eighinger)

There is no use trying to sugar coat what has happened. It has been a brutal week in and around Quincy, thanks to the monstrous storm that swept through Monday night.

It was the first time in my life that I was legitimately scared of what might happen at the height of that blowing downpour and accompanying 74 mph winds.

My wife, Kathy, was screaming at me to get in the basement with her and Ashes, the family dog. For some reason, I refused. I vowed to stay upstairs, running from one window to another, from one door to the next, to make sure they didn't blow open.

Massive limbs and entire trees were falling all around our home. I saw them. I heard them. It was like nothing I had ever experienced.

If our home was going down, I had vowed to go with it.

Obviously, that was not the smartest thing I ever chose to do. If I had to relive those frightening 30 minutes or so, I would have joined Kathy and Ashes in the basement.

It's what happened after the storm had finally passed that was equally—if not more so—incredible.

On street after street, block after block, neighbors were assisting friends and helping people they did not even know. While only initial, limited assistance could be offered Monday night because of the lack of light, but the true heart of Quincy emerged Tuesday, as it always does.

One of the most heartwarming stories I encountered this week involved a family of five—a husband, wife and three kids—seeking out homeowners, particularly older adults, in need of help. The anonymous family cleaned yards, did not ask for anything in return and quietly moved on to the next person in need.

They did not seek and would not accept publicity. I admired that more than anything.

"We're doing it because we should," they answered.

That is the ultimate pay it forward.

Another offering of help was provided by at least one Hannibal inn handling an influx of displaced Quincyans on Monday night who needed a place to stay, including one family

with a special-needs child who needed air conditioning. The lodge in question not only found the Quincyans rooms, but also provided them at a discount.

Hannibal has a big heart, too.

How about the cooperation of the drivers working their way through the maze of downed trees and no stoplights? Most major Quincy intersections became a little more than four-way stops, which could have become incredibly dangerous at major sites like 36th and Broadway. Instead, there was an esprit de corps among Quincyans, who politely made it all work.

Hats off to the local supermarkets for providing items like free bags of ice and places to recharge cellphones.

If you follow any social media, you have been impressed with the salutes, praises and admiration of Ameren and other workers trying to restore power to city residents. More than 1,000 Ameren workers alone have been working around the clock.

It's going to be quite awhile before things are back to what we consider "normal," but we'll get there.

We're Quincy. We pay it forward.

#### EVERY CHILD ACHIEVES ACT

Mr. LEAHY. Mr. President, today, the Senate has approved landmark legislation to reauthorize the Elementary and Secondary Education Act of 1965. Since 2001, the failed policies of No Child Left Behind have unfairly burdened educators and administrators by holding students accountable for snapshot academic progress. The Senate's bipartisan action today—an overwhelming vote of approval—is one step forward in the reversal of these troubling measures. The Every Child Achieves Act further highlights the Federal Government's crucial responsibility to ensure that students everywhere, across the country, have access to the resources they need for lasting academic success.

Since 2001, I have heard from parents, teachers, students, policymakers, and administrators about the negative impact of No Child Left Behind. I voted against the legislation, as I did not agree, and still do not agree, with a one-size-fits-all approach to education. I was also disappointed with the bill's rigid Federal accountability measures, as I truly believe States and local education agencies deserve flexibility when it comes to how schools operate.

The Every Child Achieves Act restores educational flexibility to the States, while safeguarding student access to resources, regardless of race, gender, financial status, and learning level. I am pleased that the bill takes into account the greater needs of students in rural areas, increases funding for early childhood education programs, and improves school safety measures. I am especially pleased with the bill's innovative assessment and accountability demonstration authority provision, which will allow Vermont to adopt competency and performance-based assessments that prove far more than how well a student can perform on a test on one given day.

Of course, no bill is perfect, and this one is no different. I am disappointed

that several amendments that would have improved the bill were not adopted. The Student Non-Discrimination Act, authored and filed as an amendment by Senator FRANKEN, would have taken the important step of ensuring protections for students who face harassment and bullying simply because of their actual or perceived gender identity or sexual orientation. I was proud to cosponsor the amendment, and remain committed to revisiting this important discussion to ensure all children are protected against bullying and discrimination in our schools. It garnered a majority of support in the Senate; it should have been adopted.

In a strong statement of support, the Senate came together in opposition against amendments on portability and private school vouchers, which would have unfairly redistributed title I funding from our Nation's highest need schools. I commend Chairman ALEXANDER and Ranking Member MURRAY for their leadership throughout the debates, and for their tireless dedication to promoting educational reform that serves the needs of all students.

We have come together, members on both sides of the aisle, to support the Every Child Achieves Act. Amid the partisan rancor, bipartisanship won the day, and the winners in this debate will be students in Vermont and across the country. As the House and Senate move to conference, I hope Congress will use this opportunity to promote the many measures included in the Senate's bill, which reflect the true needs of all students, educators, parents, and administrators.

#### TRUCK SAFETY ACT

Mr. BOOKER. Mr. President, trucking is critical to the movement of goods to consumers across the country. The trucking industry is a vital part of our economy. But we must also strive to ensure that goods are moved as safely as possible.

Each year, nearly 4,000 lives are lost due to truck crashes on our Nation's highways. Research by the National Transportation Safety Board has shown that many of these crashes could have been prevented. We owe it to the individuals and families affected by these tragedies to take every step possible to reduce the risks and prevent needless crashes.

That is why I have introduced the Truck Safety Act of 2015, legislation that will modernize our truck safety standards and embrace new technologies that can help reduce crashes across the country.

This legislation includes a provision to require collision-avoidance technologies in commercial vehicles involved in interstate commerce. Many of the fatalities that occur today are the result of rear-end collisions that could have been prevented with current technology. The technology can detect an impending collision or unsafe lane departure and automatically apply corrective action if a human operator is
