## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. INHOFE (for himself, Mr. MCCAIN, and Mr. ROUNDS):

S. 1877. A bill to require the Attorney General to appoint a special prosecutor to investigate Planned Parenthood, and for other purposes; to the Committee on the Judiciary.

Mr. INHOFE. Mr. President, we have all been disturbed—just really outraged—about the things that have come from Planned Parenthood recently. We have seen the videos exposing their casual disregard of human life. It is unconscionable. It is very sad. We have known this for a long time. The junior Senator, Mr. LANKFORD, back when he was in the House of Representatives was introducing bills to defund Planned Parenthood, and that was before the most recent events that have happened.

The Center For Medical Progress spent 3 years investigating Planned Parenthood and produced at least three videos revealing what appears to be an intentional and illegal harvesting of body parts from aborted babies.

There are countries such as China that condone killing children, but our Nation should not be condoning the act of killing our own children or allowing these corrupt organizations to sell body parts for profit. There was a book that was written that I remember very well entitled “Modernizing China” by Anthony Kubek. This was 30 years ago, when there was still a separation between China and Taiwan. They talked about at that time having a limit on how many babies people could have. They would go in and find out that there was one more child than they should have had, and they would take that baby and kill it. Of course, the

harvesting of body parts was taking place there. That was China. This is America. It is hard to believe this could be happening.

It is not about being pro-life or pro-choice anymore; it is about our country’s moral conscience. If Planned Parenthood has either profited from selling aborted babies’ organs or they have modified procedures used to conduct an abortion for the purposes of obtaining body parts, then they have broken the law.

In fact, the National Institutes of Health Revitalization Act of 1993 states that “no alteration of the timing, method or procedures used to terminate the pregnancy [may be] made solely for the purposes of obtaining tissue.” That includes arms, legs, kidneys, and body parts, but this is exactly what Planned Parenthood has admitted to doing in these videos.

The Federal law also states it is unlawful to sell human fetal tissue. Title 42 of the U.S. Code, section 289g-2(a) states: “It shall be unlawful for any person to knowingly acquire, receive, or otherwise transfer any human fetal tissue for valuable consideration if the transfer affects interstate commerce.” Again, it is illegal.

Based on the evidence in these videos, particularly with the Planned Parenthood employees haggling and negotiating over prices, joking about it, and using the income of the dead babies’ body parts to buy a Lamborghini—some kind of automobile—it seems as if it is commonplace. There is a total disregard for the babies or what they were doing.

My colleague Senator ERNST of Iowa and I, along with others in the Senate, wrote to the Department of Health and Human Services requesting answers to these questions.

One thing that is important to note is that Planned Parenthood receives \$1.4 million of taxpayers’ money every day. It is unthinkable that they are being supported by the taxpayers in the United States, according to their 2013–2014 annual report. They received 528.4 million taxpayer dollars and then performed and profited from illegal and immoral actions taking the lives of innocent babies. This is so incredibly evil it is even hard to talk about.

We are talking about women being manipulated into putting their health on the line for a government-funded organization to profit from harvesting their child’s body. Vulnerable women are being coerced into having abortions and delaying the abortions until the baby has grown to the age within the womb that they would have fully developed body parts in order to sell. This is what is happening today.

Planned Parenthood fights to keep mothers from seeing the human value of their babies with an ultrasound. They don’t want the mother to hear the baby inside their womb with an ultrasound, but they will use the same technology to guide them to more valuable organs as they perform abortions

for monetary gain. These actions deserve to be fully investigated. Crimes have been committed. It is our moral obligation to fully prosecute any violations of the law.

Today I have introduced legislation that would require the appointment of a special prosecutor to investigate and prosecute these atrocities. To pay for this, the legislation would rescind all moneys that have been appropriated to Planned Parenthood and provide the special prosecutor with as much of this money to conduct the investigation as is necessary.

We have to protect innocent lives. Now that this has opened the door to a reality that has been suspected for so many years, this Senator wants America and the world to know that endangering women’s health and profiting from killing children is not acceptable.

The video just released today shows a lab technician placing and celebrating the monetary value of a baby’s arms, legs, kidneys, and spinal cord as they pulled apart its body.

The bill is S. 1877. We have gotten a lot of calls about it. I didn’t want to let this opportunity go by without coming to the floor and getting something started to do something to stop the barbaric acts we are seeing on behalf of Planned Parenthood.
