

to bring these resolutions to the floor as the climate change conference is taking place in Paris because we want the world to know that there are differences of opinion between the Congress and the President on this issue and on his clean energy plan.

I would respectfully ask every Member of Congress to vote for this resolution. As we said earlier, the U.S. Senate has already passed both of these resolutions because they are concerned about the President exceeding his legal authority, his power grab, his extreme plan. Even Democrats in the Senate supported these resolutions.

That is all we are trying to do today. We are not debating climate change. We are not debating the science of climate change. But we are debating the President's view on the way you address it and the fact that he is jeopardizing America because he is making us jump through more severe obstacles and hoops than any other country is being asked to do. That is why we are here today.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to the rule, the previous question is ordered on the joint resolution.

The question is on third reading of the joint resolution.

The joint resolution was ordered to be read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the joint resolution.

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Mr. PALLONE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on the passage of S.J. Res. 24 will be followed by a 5-minute vote on the passage of S.J. Res. 23.

The vote was taken by electronic device, and there were—yeas 242, nays 180, not voting 11, as follows:
