IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the consideration of the bill (H.R. 8), to modernize energy infrastructure, build a 21st century energy and manufacturing workforce, bolster America's energy security and diplomacy, and promote energy efficiency and government accountability, and for other purposes, with Mr. JENKINS of West Virginia in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time.

General debate shall not exceed 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce.

The gentleman from Michigan (Mr. UPTON) and the gentleman from New Jersey (Mr. PALLONE) each will control 30 minutes.

The Chair recognizes the gentleman from Michigan.

Mr. UPTON. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, today we commence debate on H.R. 8, the North American Energy Security and Infrastructure Act of 2015. This bill culminates a multiyear, multi-Congress effort to ensure that folks in Michigan and every corner of the country have access to affordable and reliable energy. It has been nearly a decade since we last considered a broad energy package and a lot—a lot—has changed.

Back then, the energy situation looked downright dire: declining domestic oil and natural gas output, increasing reliance on imports, and energy prices that seemed like they had nowhere to go but up. Remember 7 years ago they were \$3.84 a gallon.
