

support for H.R. 4596, the Small Business Broadband Deployment Act, which is scheduled to be considered by the full House of Representatives tomorrow.

We commend you, and Communications & Technology Subcommittee Chairman Walden and Representative Loeb sack, for crafting a common-sense bill that provides small broadband providers with greater certainty than the Federal Communications Commission's temporary exemption from the enhanced transparency obligations adopted as part of the Open Internet Order. In multiple industry submissions to the Federal Communications Commission (FCC), including filings regarding the Paperwork Reduction Act, small providers demonstrated that the enhanced requirements would impose time-consuming and costly compliance obligations; yet, the FCC only extended the existing temporary exemption for a limited time. After reviewing the record at the FCC and receiving testimony at its hearing on the legislation in January, the Communications & Technology Subcommittee found there was more than sufficient evidence to further expand and extend the exemption.

We are gratified that the Committee has produced a bipartisan bill that will enable small broadband providers to focus their financial and human resources on providing high-quality broadband service to their customers rather than dealing with new regulatory obligations. We urge support for H.R. 4596 and look forward to its approval tomorrow.
