RESOLUTIONS SUBMITTED TODAY

Ms. MURKOWSKI. Mr. President, I ask unanimous consent that the Senate now proceed to the en bloc consideration of the following Senate resolutions, which were submitted earlier today: S. Res. 538, S. Res. 539, S. Res. 540, S. Res. 541, S. Res. 542, S. Res. 543, S. Res. 544, S. Res. 545, S. Res. 546, S. Res. 547, and S. Res. 548.

There being no objection, the Senate proceeded to consider the resolutions en bloc.

S. RES. 541

Ms. HIRONO. Thank you, Mr. President.

I rise today to introduce a resolution to commemorate Hawaii Volcanoes National Park and Haleakala National Park on their 100th anniversary.

On August 1, 1916, 3 weeks prior to the founding of the National Park Service, Congress established Hawaii National Park, comprised of two sections located on the island of Maui and the island of Hawaii. The two sections of the park were subsequently separated and redesignated as Haleakala National Park and Hawaii Volcanoes National Park.

The two parks were set aside in perpetuity for the benefit and enjoyment of the people of Hawaii and the people of the United States. In the last 100 years, they have served their purpose well. Last year, over 1.2 million people visited Haleakala National Park, while over 1.8 million people visited Hawaii Volcanoes National Park.

The parks have also proven to be an economic boon to the State of Hawaii. In 2015, visitors to Haleakala National Park spent over \$76 million in surrounding communities, supporting nearly 1,000 jobs.

Visitors to Hawaii Volcanoes National Park spent over \$151 million in areas around the park and supported nearly 2,000 local jobs. However, the importance of Haleakala National Park and Hawaii Volcanoes National Park to the people of the State of Ha-

waii, to the Nation, and globally is much more than economic benefit. The parks serve as invaluable scientific and cultural assets and have been instrumental in preserving some of the most ecologically diverse ecosystems in the world.

For example, Hawaii Volcanoes National Park is home to two of the world's most active volcanoes, providing visitors the ability to gain a greater understanding of volcanic and geologic processes. Hawaii's isolation and the substantial number of plant and animal species that are native to Hawaii and found nowhere else in the world have contributed greatly to our understanding of evolutionary biology.

The scientific significance of both Hawaii Volcanoes National Park and Haleakala National Park was highlighted when the United Nations Educational, Scientific and Cultural Organization designated both parks as biosphere reserves in 1980.

Hawaii Volcanoes and Haleakala also provide access to substantial cultural and historic resources. Hawaii Volcanoes National Park is home to a number of precontact archaeological sites, including Puu Loa, which contains over 23,000 petroglyphs.

However, Hawaii's national parks are not places where culture is discussed in the past tense. Even today, Native Hawaiians come to these parks to renew ties to ancestors, conduct cultural gatherings and rituals, and pass traditions down to the next generation.

Both parks also serve as a refuge for hundreds of native plants and animals, many of which are endangered and threatened. Indeed, Haleakala National Park is home to more endangered species than any other site in the National Park System, including the Hawaiian Silversword, and dozens of endangered Native Hawaiian birds.

For the last century, residents of Hawaii, the United States, and the world have visited Haleakala National Park and Hawaii Volcanoes National Park and gained a greater appreciation for the natural environment, the history of Hawaii, and Native Hawaiian culture. As we celebrate the 100th anniversary of the establishment of these parks, I hope my colleagues will join me in recognizing August 1, 2016, as "Hawaii Volcanoes and Haleakala National Parks Day" and encourage as many people as possible from across the Nation to come to Hawaii to visit these national treasures.

S. RES. 542

Mr. GRASSLEY. Mr. President, as a member of the Congressional Trade-mark Caucus, I have made it a goal to increase awareness and spark a dialogue about the importance of trademarks. Because this year constitutes the 70th anniversary of the Lanham Act, I would like to join my colleague, Senator COONS, in introducing a resolution
