Whereas saving for retirement is a key component of overall financial health and security during retirement years and the importance of financial literacy in planning for retirement must be advocated;

Whereas many workers may not—

(1) be aware of the various options in saving for retirement; or

(2) have focused on the importance of, and need for, saving for retirement and successfully achieving retirement security;

Whereas, although many employees have access through their employers to defined benefit and defined contribution plans to assist the employees in preparing for retirement, many of those employees may not be taking advantage of those plans at all or to the full extent allowed by Federal law;

Whereas effectively and sustainably withdrawing retirement resources throughout the retirement years of an individual is as important and crucial as saving and accumulating funds for retirement; and
