So the Journal was approved.  
The result of the vote was announced as above recorded.

WATER

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Mr. Speaker, yesterday was World Water Day.

When we are thirsty, we walk 3 feet to the nearest faucet or grab a bottle of water out of the refrigerator. Sadly, there are almost 800 million people who lack access to clean drinking water.

It is unacceptable that in the year 2017 there are women who are still forced to walk miles to obtain water from polluted rivers. These rivers are not clear springs. Instead, they are rivers infected with waste, parasites, and other insects.

That is why my friend Representative BLUMENAUER and I filed and Congress passed the Senator Paul Simon Water for the World Act. It helps USAID focus on safe drinking water, better sanitation, hygiene in schools, and clinics in villages for poor people throughout the world.

USAID's goal is to give 10 million people sustainable access to clean water by next year. They are well on their way to achieving this.

Clean water saves lives, and Americans should be proud of what they are doing in helping people worldwide to have that clean water.

And that is just the way it is.

RISING IN STRONG OPPOSITION TO THE AMERICAN HEALTH CARE ACT

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, I rise in strong opposition to the Republican effort to gut the Affordable Care Act.

Twenty million people, including 100,000 Rhode Islanders, receive health coverage under the ACA. Because of the proposed plan to repeal the ACA that the Republicans are proposing, they are now threatened with losing that coverage.

Instead of working in a bipartisan manner to improve the law, this bill will eliminate coverage for 24 million people, while drastically increasing healthcare costs on hardworking middle class Americans.

Over the next 5 years, Rhode Island officials estimate Medicaid cuts would cost the State \$595 million to make sure that 75,000 low-income adults don't lose coverage.

Now, this is a burden that my State or others cannot afford to bear, and it will decimate services and supports for low- and middle-income adults, children, seniors, and especially people with disabilities.

Mr. Speaker, we are better than this as a country. Americans' health will be jeopardized if consumer protections and comprehensive coverage developed under the ACA are cast aside in a partisan push to repeal.

Let's not do this. Let's join together instead and make improvements to the ACA to make it better. Let's not work against us to repeal it.

I urge my colleagues to oppose this unconscionable bill.

LET'S GO BACK TO THE DRAWING BOARD FOR A BETTER HEALTHCARE BILL

(Mr. BERA asked and was given permission to address the House for 1 minute.)

Mr. BERA. Mr. Speaker, I stand here not as a Member of the Congress, but as a doctor. And as a doctor, health care is about taking care of patients.

That is why the bill that might come before us is a bad bill. It raises the cost of care for many people. It makes millions of folks lose their health insurance. It raises the cost on elderly patients. There is an age tax in there.

This is a bad bill. Let's go back to the drawing board. Let's come together as Democrats and Republicans, and
