So the Journal was approved. The result of the vote was announced as above recorded.

AMERICAN HEALTH CARE ACT OF 2017

Mrs. BLACK. Mr. Speaker, pursuant to House Resolution 228, I call up the bill (H.R. 1628) to provide for reconciliation pursuant to title II of the concurrent resolution on the budget for fiscal year 2017, and ask for its immediate consideration.

The Clerk read the title of the bill. The SPEAKER pro tem proposed the Speaker pro tern of the Committee on the Budget to be in the Chair, whereupon the amendment having been adopted, the bill was read as amended and the same was ordered to the Appropriate Committees for the purpose of consideration of amendment.

H.R. 1628

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “American Health Care Act of 2017”.

SEC. 2. TABLE OF CONTENTS.
The table of contents of this Act is as follows:

SEC. 1. SHORT TITLE.

SEC. 2. TABLE OF CONTENTS.

TITLE I—ENERGY AND COMMERCE

Subtitle A—Patient Access to Public Health Programs

Sec. 101. The Prevention and Public Health Fund.
Sec. 102. Community health center program.
Sec. 103. Federal payments to States.
Sec. 104. Medicare Enhancement Program

Subtitle B—Medicare Enhancement Program
Sec. 111. Repeal of Medicare provisions.
Sec. 112. Repeal of Medicare expansion.
Sec. 113. Elimination of DSH cuts.
Sec. 114. Reducing Medicaid costs.
Sec. 115. Safety net funding for non-expansion States.
section 5009 of the 21st Century Cures Act, is amended—
(1) in paragraph (2), by adding “and” at the end; and
(2) in paragraph (3)—
(A) by striking “each of fiscal years 2018 and 2019” and inserting “fiscal year 2018”;
and
(B) by striking the semicolon at the end and inserting a period; and
(c) by striking paragraphs (4) through (8).
SEC. 102. COMMUNITY HEALTH CENTER PROGRAM.
Effective as if included in the enactment of the Medicare Access and CHIP Reauthorization Act of 2015 (Public Law 114-10, 129 Stat. 87), paragraph (1) of section 221(a) of such Act is amended by inserting “and an additional $422,000,000 for fiscal year 2017’’ after “2016’’.
SEC. 103. FEDERAL PAYMENTS TO STATES.
(a) IN GENERAL.—Notwithstanding section 509(a), 1902(a)(23), 1905(a), 2012(a), 2012(a)(20), 2102(a)(10)(A), 2105(a)(4), 2110(c), and 2109 of the Social Security Act (42 U.S.C. 704(a), 1396a(a)(23), 1396b, 1397a, 1397d(a)(4), 1397f(b)(a)(7), 1397e(a)(1)), and the terms of any Medicaid waiver in effect on the date of enactment of this Act that is approved under section 1115 or 1915 of the Social Security Act (42 U.S.C. 1315, 1316n), for the 1-year period beginning on the date of the enactment of this Act, no Federal funds provided from a program referred to in this subsection that is considered direct spending for any year may be made available to a State for payments to a prohibited entity, whether made directly to the prohibited entity or through a managed care organization under contract with the State.
(b) DEFINITIONS.—In this section—
(1) PROHIBITED ENTITY.—The term ‘‘prohibited entity’’ means an entity, including its affiliates, subsidiaries, successors, and clinical branch offices,
(A) that, as of the date of enactment of this Act—
(i) is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code;
(ii) is an essential community provider described in section 1861(r)(3) of title 42, Code of Federal Regulations (as in effect on the date of enactment of this Act), that is primarily engaged in family planning services, reproductive health care, or related medical care; and
(iii) provides for abortions, other than an abortion—
(I) if the pregnancy is the result of an act of rape or incest; or
(II) in the case where a woman suffers from a physical disorder, physical injury, or physical illness that would, as certified by a physician, threaten the woman’s life; or
(B) in subsection (a) of section 1902(nn) of the Social Security Act (42 U.S.C. 1396d(nn)), by inserting—
(i) after ‘‘(j)’’, ‘‘(g),’’ and ‘‘(h)’’;
(ii) the following: ‘‘(I)’’; and
(iii) after subparagraph (A)—
(G) in subsection (e)—
(1) in paragraph (6), by adding—
(A) ‘‘IN GENERAL .—The term ‘grandfathered expansion enrollee’ means an individual who is under 65 years of age;’’;
(B) ‘‘who is not pregnant;’’;
(C) who is not entitled to, or enrolled for, benefits under part A of title XVIII, or enrolled for benefits under part B of title XVIII;
(D) who is not described in any of subclauses (I) through (VI) of section 1902(a)(10)(A)(i); and
(E) whose income (as determined under subsection (e)(14) does not exceed 133 percent of the federal poverty level in section 1115(c)(5)) applicable to a family of the size involved.
‘‘(2) GRANDFATHERED EXPANSION ENROLLEES.—The term ‘grandfathered expansion enrollee’ means an individual who—
(A) was enrolled under the State plan under this title (or under a waiver of such plan) as of December 31, 2019; and
(B) does not have a break in eligibility for medical assistance under such State plan (or waiver) for more than one month after such date.
‘‘(3) APPLICATION OF RELATED PROVISIONS.—Any reference in subsection (a)(10)(G), (K), or (gg) of this section or in section 1903, 1906(a), 1920(e), or 1937(a)(1)(B) to individuals described in clause (viii) of subsection (a)(10)(A)(i) shall be deemed to include a reference to expansion enrollees (including grandfathered expansion enrollees).’’; and
(2) in section 1905 (42 U.S.C. 1396d)—
(A) in subsection (y)(1), in the matter preceding subsection (a)(1), by inserting “and that has elected to cover newly eligible individuals before March 1, 2017’’ after ‘‘that is one of the 50 States, the District of Columbia, or the Outlying Areas’’;
(B) in subsection (y)(1), by striking—
(i) “(1) IN GENERAL .—In the case of an individual who is the recipient of qualified lottery winnings and income received as a lump sum—
(‘‘(1) IN GENERAL .—In the case of an individual who is the recipient of qualified lottery winnings and income received as a lump sum—
(‘‘(1) IN GENERAL .—In the case of an individual who is the recipient of qualified lottery winnings and income received as a lump sum—
(‘‘(1) IN GENERAL .—In the case of an individual who is the recipient of qualified lottery winnings and income received as a lump sum—
(‘‘(1) IN GENERAL .—In the case of an individual who is the recipient of qualified lottery winnings and income received as a lump sum—
`}
date) and whose eligibility for medical assistance is determined based on the application of modified adjusted gross income under subparagraph (A), a State shall, in determining eligibility, include winnings or income (as applicable) as income received:

(1) in the month in which such winnings or income is received, the amount of such winnings or income is less than $80,000;

(2) over a period of 2 months if the amount of such winnings or income (as applicable) is greater than or equal to $80,000 but less than $90,000; and

(3) over a period of 3 months plus 1 additional month for each increment of $10,000 of such winnings or income (as applicable) received, not to exceed a period of 12 months (for winnings or income of $350,000 or more), if the amount of such winnings or income is greater than or equal to $100,000.

(ii) COUNTING IN EQUAL INSTALLMENTS.—For purposes of subparagraph (A), the periods specified in clause (i), winnings or income to which such subclause applies shall be counted in equal monthly installments over the period of months specified under such subclause.

(iii) HARDSHIP EXEMPTION.—An individual whose income, by application of clause (i), exceeds the provision of subparagraph (A) and whose eligibility is not established by the State, may continue to be eligible for medical assistance to the extent that the State determines, under procedures established by the State under the State plan (or in the case of a waiver of the plan under section 1115 of the Social Security Act for medical assistance (42 U.S.C. 1396 et seq.) (or a waiver of such plan) made by applying modified adjusted gross income under subparagraph (A) of section 1902(e)(14) of such Act (42 U.S.C. 1396a(e)(14)), as limiting the eligibility for such medical assistance of any individual that is a member of the household other than the individual (or the individual’s spouse) who received qualified lottery winnings or qualified lump-sum income (as defined in subsection (a)(1)(B)(i)) of section 1902(e)(14), as added by paragraph (1)(B)(i) of this subsection).

(b) REPEAL OF RETROACTIVE ELIGIBILITY.—

(1) IN GENERAL.—

(A) STATE PLAN REQUIREMENTS.—Section 1902(a)(34) of the Social Security Act (42 U.S.C. 1396d(a)) is amended by striking "in or after the third month before the month in which he made application" and inserting "in or after the month in which the individual made application".

(B) DEFINITION OF MEDICAL ASSISTANCE.—Section 1905(a) of the Social Security Act (42 U.S.C. 1396a(a)) is amended by striking "in or after the third month before the month in which the recipient makes application for assistance" and inserting "in or after the month in which the recipient makes application for assistance".

(2) EFFECTIVE DATE.—The amendments made by paragraph (1) shall apply to medical assistance with respect to individuals whose eligibility for such assistance is based on an application for such assistance made (or deemed to be made) on or after October 1, 2017.

(c) UPDATING ALLOWABLE HOME EQUITY LIMITS IN MEDICAID.—

(1) IN GENERAL.—Section 1917(f)(1) of the Social Security Act (42 U.S.C. 1396p(f)(1)) is amended—

(A) in subparagraph (A), by striking "subparagraphs (B) and (C)" and inserting "subparagraph (B)";

(B) by striking subparagraph (B);

(C) by redesignating subparagraph (C) as subparagraph (B); and

(D) in subparagraph (B), as so redesignated, by striking "dollar amounts specified in this paragraph" and inserting "dollar amount specified in subparagraph (A)".

(2) EFFECTIVE DATE.—(A) IN GENERAL.—The amendments made by paragraph (1) shall apply with respect to eligibility determinations made after the date that is 180 days after the date of enactment of this section.

(B) EXCEPTION FOR STATE LEGISLATION.—In the case of a State plan under title XIX of the Social Security Act that the Secretary of Health and Human Services determines requires State legislation in order for the respective plan to meet any requirement imposed by this section, the respective plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet such a requirement before the first day of the first calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act. For purposes of the previous sentence, in the case of a State that does not have a regular legislative session, each year of the session shall be considered to be a separate regular session of the State legislature.

SEC. 115. SAFETY NET FUNDING FOR NON-EXPANSION STATES.

Title XIX of the Social Security Act is amended by inserting after section 1923 (42 U.S.C. 1396n–4) the following new section:

"SEC. 1923A. (a) IN GENERAL.—Subject to the limitations of this section for each year during the period beginning with fiscal year 2018 and ending with fiscal year 2022, each State that is one of the 50 States or the District of Columbia and that, as of July 1 of the preceding fiscal year, did not provide for eligibility under clause (i)(VIII) or (ii)(XX) of section 1902(a)(10)(A) for medical assistance under this title or a waiver of the State plan approved under section 1115 (each such State or District referred to in this section for the fiscal year as a "non-expansion State") may adjust the amount of assistance otherwise provided under the State plan under this title (in this section referred to as "eligible providers") so long as the payment adjustment to such an eligible provider does not reduce the amount of assistance otherwise provided under the plan (or a waiver of such plan) to health care providers that provide health care services to individuals that are otherwise eligible for medical assistance under the State plan (or a waiver of such plan) or to have no health insurance or health plan coverage for such services.

(b) INCREASE IN APPLICABLE FMAP.—Notwithstanding section 1905(b), the Federal medical assistance percentage applicable with respect to expenditures attributable to a payment adjustment under subsection (a) for which payment is permitted under subsection (c) shall be equal to—

(1) 100 percent for calendar quarters in fiscal years 2018, 2019, 2020, and 2021; and

(2) 95 percent for calendar quarters in fiscal year 2022.

(c) ANNUAL ALLOWMENT LIMITATION.—Payment under section 1903(a) shall not be made to a State with respect to an adjustment made under this section for all calendar quarters in a fiscal year in excess of the $2,000,000,000 multiplied by the ratio of—

(1) the population of the State with income below 138 percent of the poverty line in 2015 (as determined based the table entitled "Health Insurance Coverage Status and Type by Income Level by Age for the Past 12 Months by Age" for the universe of the civilian noninstitutionalized population for whom poverty status is determined based on the 2015 Annual Social and Economic Supplement of the Current Population Survey) and in the Past 12 Months by Age for the universe of the civilian noninstitutionalized population for whom poverty status is determined based on the 2014 Annual Social and Economic Supplement of the Current Population Survey), to—

(2) the sum of the populations under paragraph (1) for all non-expansion States.

(d) DESQUALIFICATION IN CASE OF STATE COVERAGE EXPANSION.—If a State is a non-expansion State for a fiscal year and provides eligibility for medical assistance described in subsection (a) during the fiscal year, the State shall no longer be treated as a non-expansion State under this section for any subsequent fiscal year.

SEC. 116. PROVIDING INCENTIVES FOR INCREASED FREQUENCY OF ELIGIBILITY DETERMINATION.

(a) IN GENERAL.—Section 1902(e)(14) of the Social Security Act (42 U.S.C. 1396a(e)(14))...
SEC. 117. PER CAPITA STATES TO APPLY A WORK REQUIREMENT FOR NONDISABLED, NONELDERLY, NONPREGNANT ADULTS UNDER MEDICAID.

(a) IN GENERAL.—Section 1902 of the Social Security Act (42 U.S.C. 1396a), as previously amended, is further amended by adding at the end the following:—

"(K) FREQUENCY OF ELIGIBILITY REDETERMINATIONS.—Beginning on October 1, 2017, and notwithstanding subparagraph (H), in the case of an individual whose eligibility for medical assistance under the State plan under section 1902(a)(10)(A) is otherwise determined based on the application of modified adjusted gross income under subparagraph (a) to be eligible on the basis of the phrase of clause (i)(VIII) or clause (ii)(XX) of section (a)(10)(A), a State shall redetermine such individual’s eligibility for such medical assistance no less frequently than once every 6 months.”;

(b) INCREASED ADMINISTRATIVE MATCHING PERCENTAGE.—For each calendar quarter during the period beginning on October 1, 2017, and ending on December 31, 2019, the Federal matching percentage otherwise applicable under section 1903(a) of the Social Security Act (42 U.S.C. 1396a) with respect to State expenditures during such quarter that are attributable to meeting the requirement of section 1902(e)(14) (relating to determinations of eligibility using modified adjusted gross income of such Act) shall be increased by 5 percentage points with respect to State expenditures that are attributable to activities carried out by the State (and approved by the Secretary) to increase the frequency of eligibility redeterminations required by subparagraph (K) of such section, so as to be eligibility redeterminations made on a 6-month basis (as added by subsection (a)).

SEC. 117. PER CAPITA STATES TO APPLY A WORK REQUIREMENT FOR NONDISABLED, NONELDERLY, NONPREGNANT ADULTS UNDER MEDICAID.

(a) IN GENERAL.—Section 1902 of the Social Security Act (42 U.S.C. 1396a), as previously amended, is further amended by adding at the end the following:—

"(oo) WORK REQUIREMENT OPTION FOR NONDISABLED, NONELDERLY, NONPREGNANT ADULTS.—

"(1) IN GENERAL.—Beginning October 1, 2017, subject to paragraph (3), a State may elect to condition medical assistance to certain nonelderly, nonpregnant adults under the State plan to the completion of a specified work requirement, as defined in paragraph (2). To the extent such an adult meets the requirements of this subsection, such adult shall no longer be treated as eligible for medical assistance payments for the remainder of the calendar year, subject to paragraph (4), if such an adult—

"(A) enrolls in the medical assistance program and is ascertained to be eligible for medical assistance payments for such year (as defined in paragraph (1));

"(B) inserts into the medical assistance enrollment data and subsequent adjustment report form (as defined in paragraph (3)) the information required by such form;

"(C) satisfies satisfactory attendance at secondary school or the equivalent; or

"(D) participates in education directly related to employment.

"(b) IN MENTALLY RETARDED RATE FOR IMPLEMENTATION.—Section 1903 of the Social Security Act (42 U.S.C. 1396b) is amended by adding at the end the following:—

"(aa) The Federal matching percentage otherwise applicable under subsection (a) with respect to State administrative expenditures during a calendar quarter for which the State receives payment under such subsection shall, in addition to any other increase to such percentage otherwise applicable under such subsection determined based on the application of modified adjusted gross income under subparagraph (a) to be eligible on the basis of the phrase of clause (i)(VIII) or clause (ii)(XX) of section (a)(10)(A), be increased for such calendar quarter by 5 percentage points with respect to State expenditures attributable to activities carried out by the State (and approved by the Secretary) to implement subsection (oo) of section 1902.”;

Subtitle C—Per Capita Allotment for Medical Assistance

SEC. 121. PER CAPITA ALLOTMENT FOR MEDICAL ASSISTANCE.

Title XIX of the Social Security Act is amended—

"(1) IN GENERAL.—(A) in section 1902A (42 U.S.C. 1396ab)—

"(i) in subsection (a), in the matter before paragraph (1), by inserting “and section 1906(a)(2)” after “except as otherwise provided in this section”;

"(ii) in subsection (b), by striking “to which, subject to section 1906A(a)(1),” and

"(b) by inserting after such section 1902A the following new section:

"SEC. 1903A. PER CAPITA-BASED CAP ON PAYMENTS FOR MEDICAL ASSISTANCE.

"(1) IN GENERAL.—If a State has excess aggregate medical assistance expenditures (as defined in paragraph (2)) for a fiscal year (beginning with fiscal year 2020), the amount of payment to the State under section 1903A(a)(1) for each quarter in the following fiscal year shall be reduced by ½ of the excess aggregate medical assistance payments (as defined in paragraph (3)) for that previous fiscal year. For this subsection the States means only the 50 States and the District of Columbia.

"(2) EXCESS AGGREGATE MEDICAL ASSISTANCE EXPENDITURES.—In this subsection, the term ‘excess aggregate medical assistance expenditures’ means, for a State for a fiscal year, the amount (if any) by which—

"(A) the amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State and fiscal year exceeds

"(B) the amount of the target total medical assistance expenditures (as defined in subsection (c)) for the State and fiscal year.

"(3) TARGET TOTAL MEDICAL ASSISTANCE EXPENDITURES.—In this subsection, the term ‘target total medical assistance expenditures’ means—

"(A) the aggregate medical assistance expenditures (as defined in paragraph (2)) for the State for the fiscal year;

"(B) the Federal average medical assistance matching percentage (as defined in paragraph (4)) for the State for the fiscal year;

"(C) the Federal social security percentage (as defined in subsection (e)) for the State for the fiscal year;

"(D) the Federal average medical assistance matching percentage (as defined in subsection (f)) for the State for the fiscal year;

"(E) the State and Federal matching percentage otherwise applicable under section 1903A FY16 population percentage (as defined in paragraph (2)); and

"(F) the sum of the products of (D) and (E), reduced by—

"(i) the amount of the medical assistance expenditures (as defined in paragraph (2)) for the State and fiscal year, reduced by the amount of any excluded expenditures (as defined in paragraph (4)) for the State and fiscal year otherwise included in such medical assistance expenditures; and

"(ii) the 1903A FY16 population percentage (as defined in paragraph (2)) for the State and fiscal year otherwise included in such medical assistance expenditures.

"(4) FEDERAL AVERAGE MEDICAL ASSISTANCE MATCHING PERCENTAGE.—In this subsection, the term ‘Federal average medical assistance matching percentage’ means, for a State for a fiscal year, the ratio (expressed as a percentage) of—

"(A) the amount of the Federal payments made pursuant to section 1903(a)(1).

"(b) ADJUSTED TARGET MEDICAL ASSISTANCE EXPENDITURES.—Subject to subsection (g), the following shall apply—

"(1) IN GENERAL.—In this section, the term ‘adjusted target medical assistance expenditures’ means, for a State—

"(A) for fiscal year 2016, the product of—

"(i) the amount of the medical assistance expenditures (as defined in paragraph (2)) for the State and fiscal year, reduced by the amount of any excluded expenditures (as defined in paragraph (4)) for the State and fiscal year otherwise included in such medical assistance expenditures; and

"(ii) the 1903A FY16 population percentage (as defined in paragraph (2)) for the State and fiscal year otherwise included in such medical assistance expenditures.

"(2) MEDICAL ASSISTANCE EXPENDITURES.—In this section, the term ‘medical assistance expenditures’ means, for a State and fiscal year, the medical assistance payments as reported by medical service category on the Form CMS-64 quarterly expense report for such fiscal year (beginning with fiscal year 2020), including enrollment data and subsequent adjustment to such report, in this section referred to collectively as a ‘CMS-64 report’ for which payment is (or may otherwise be) made pursuant to section 1903(a)(1).

"(3) EXCLUDED EXPENDITURES.—In this section, the term ‘excluded expenditures’ means, for a State and fiscal year, expenditures under the State plan (or under a waiver of such plan) that are attributable to any of the following:

"(A) DSH.—Payment amounts made for disproportionate share hospitals under section 1922.

"(B) MEDICARE COST-SHARING.—Payment amounts made for medicare cost-sharing (as defined in section 1905(p)(3)).

"(C) SAFETY NET PROVIDER PAYMENT ADJUSTMENTS IN NON-EXPANSION STATES.—Payment adjustments under subsection (a) of section 1923A for which payment is permitted under subsection (c) of such section.

"(D) EXCLUDED EXPENDITURES.—In this subsection, the term ‘1903A FY16 population percentage’ means, for a State, the Secretary’s calculation of the percentage of the actual medical assistance expenditures, as reported by the State on the CMS-64 reports for calendar quarters in fiscal year 2016, that are attributable to 1903A enrollees (as defined in subsection (e)(2)), of—

"(i) the amount of the per capita medical assistance expenditures (as defined in paragraph (2)) for the State and fiscal year, reduced by the amount of any excluded expenditures (as defined in paragraph (4)) for the State and fiscal year otherwise included in such medical assistance expenditures;

"(ii) the number of 1903A FY16 enrollees for such State, category and fiscal year; and

"(iii) the amount of any excluded expenditures (as defined in paragraph (4)) for the State; or

"(3) MEDICAL ASSISTANCE EXPENDITURES.—In this section, the term ‘target total medical assistance expenditures’ means, for a State for a fiscal year, the medical assistance payments for calendar quarters in fiscal year 2016, that are attributable to 1903A enrollees (as defined in subsection (e)(2)), of—

"(A) the target per capita medical assistance expenditures (as defined in paragraph (2)) for the State and fiscal year; or

"(B) the number of 1903A enrollees for the State for the fiscal year, otherwise included in such medical assistance expenditures.
“(A) for fiscal year 2020, an amount equal to—

(i) the provisional FY19 target per capita amount for such enrollee category (as calculated under subsection (d)(5)) for the State; increased by

(ii) the applicable annual inflation factor (as defined in paragraph (3)(f) for fiscal year 2020; and

(B) for each succeeding fiscal year, an amount equal to—

(i) the target per capita medical assistance expenditures for the State under subparagraph (A) or this subparagraph for the 1903A enrollees of the State and fiscal year shall be decreased (beginning with fiscal year 2020), the target under a waiver of such plan) for a fiscal year in the State to contribute funds towards the average medical assistance expenditures per capita for the State for fiscal year 2019 (as calculated under paragraph (3)(B); and

(ii) the applicable annual inflation factor for that succeeding fiscal year.

(3) APPLICABLE ANNUAL INFLATION FACTOR.—Except as provided in paragraph (2), the term ‘applicable annual inflation factor’ means, for a fiscal year—

(A) for each of the 1903A enrollee categories described in subparagraphs (C), (D), and (E) of subsection (e)(2), the percentage increase in the medical care component of the consumer price index for all urban consumers (U.S. city average) from the last month of the previous fiscal year to September of the fiscal year involved; and

(B) for each of the 1903A enrollee categories described in subparagraphs (A) and (B) of subsection (e)(2), the percentage increase described in subparagraph (A) plus 1 percentage point.

(4) DETERMINATION OF TARGET EXPENDITURES FOR REQUIRED EXPENDITURES BY CERTAIN POLITICAL SUBDIVISIONS.

(A) IN GENERAL.—In the case of a State that had a DSH allotment under section 1923(f) for fiscal year 2016 that was more than 6 times the national average of such allotments for all the States for such fiscal year and that requires political subdivisions within the State to contribute funds towards medical assistance or other expenditures under the State plan under this title (or under a waiver of such plan) for a fiscal year (beginning with fiscal year 2020), the target total medical assistance expenditures for such State and fiscal year shall be decreased by the amount that political subdivisions in the State are required to contribute under the plan (or waiver) without reimbursement from the Federal Government during such fiscal year, rather than contributions described in subparagraph (B).

(B) EXCEPTIONS.—The contributions described in this subparagraph are the following:

(i) Contributions required by a State from a political subdivision that, as of the first day of the calendar year in which the fiscal year involved begins—

(I) has a population of more than 5,000,000, as estimated by the Bureau of the Census; and

(II) imposes a local income tax upon its residents.

(ii) Contributions required by a State from a political subdivision for administrative expenses if the State required such contributions from such subdivision without reimbursement from the State as of January 1, 2017.

(iii) CALCULATION OF FY19 PROVISIONAL TARGET AMOUNT FOR EACH 1903A ENROLLEE CATEGORY.—Subject to subsection (g), for purposes of this section, the following shall apply:

(I) CALCULATION OF BASE AMOUNTS FOR FISCAL YEAR 2019.—For each State the Secretary shall calculate (and provide notice to the State not later than April 1, 2018, of the following:

(A) The amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State for fiscal year 2016.

(B) The number of 1903A enrollees for the State in fiscal year 2016 (as determined under subsection (e)(4)).

(C) The average per capita medical assistance expenditures for the State for fiscal year 2016 equal to—

(i) the amount calculated under subparagraph (A); divided by

(ii) the number calculated under subparagraph (B).

(D) FISCAL YEAR 2019 AVERAGE PER CAPITA AMOUNT BASED ON INFLATING THE FISCAL YEAR 2016 AMOUNT FOR EACH 1903A ENROLLEE CATEGORY.—The Secretary shall calculate a fiscal year 2019 average per capita amount for each State equal to—

(A) the average per capita medical assistance expenditures for the State for fiscal year 2016 (calculated under paragraph (1)(C)); increased by

(B) the percentage increase in the medical care component of the consumer price index for all urban consumers (U.S. city average) from September, 2016 to September, 2019.

(E) AGGREGATE AND AVERAGE EXPENDITURES PER 1903A ENROLLEE CATEGORY.—The Secretary shall calculate for each State the following:

(A) The amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State for fiscal year 2019.

(B) The number of 1903A enrollees for the State in fiscal year 2019 (as determined under subsection (e)(2)).

(C) The average per capita medical assistance expenditures for the State for fiscal year 2019 (as calculated under subsection (e)(3)(A)).

(E) 1903A ENROLLEE; 1903A ENROLLEE CATEGORY.—Subject to subsection (g), for purposes of this section, the following shall apply:

(I) 1903A ENROLLEE.—The term ‘1903A enrollee’ means, with respect to a State and a month and subject to subsection (1)(k)(B), any Medicaid enrollee (as defined in paragraph (3)(A)) for fiscal year 2019 for individuals in the enrollee category equal to the average medical assistance expenditures per capita for the State for fiscal year 2019 (as calculated under paragraph (4)(D)) for such enrollee category multiplied by the ratio of—

(i) the fiscal year 2019 average per capita amount for the State, as calculated under paragraph (2); and

(ii) the number of 1903A enrollees for the State in fiscal year 2019, as calculated under paragraph (3)(B); to

(B) the amount of the adjusted total medical assistance expenditures for the State for fiscal year 2019, as calculated under paragraph (3)(A).

(II) 1903A ENROLLEE CATEGORY.—Subject to subsection (g), for purposes of this section, the following shall apply:

(i) is an alien who is entitled to medical assistance under this title only pursuant to section 1905(v)(2); and

(ii) is entitled to medical assistance under this title only pursuant to subsection (h)(2)(A)(vii)

(III) is a dual eligible individual (as defined in section 1915(h)(2)(B)) and is entitled to medical assistance under this title only pursuant to section 1902(a)(10)(A)(vii)

(IV) is entitled to medical assistance under this title only pursuant to section 1915(b)(2)(B)

(V) is entitled to medical assistance under this title only pursuant to section 1902(a)(10)(A)(xvi)

(VI) is entitled to medical assistance under this title only pursuant to section 1902(a)(10)(A)(xx)

(VII) is entitled to medical assistance under this title only pursuant to section 1906(a)(15)

(VIII) is entitled to medical assistance under this title only pursuant to section 1906(d)

(IV) is entitled to medical assistance under this title only pursuant to section 1917

(V) is entitled to medical assistance under this title only pursuant to section 1917

(VI) is entitled to medical assistance under this title only pursuant to section 1917
"(A) ELDERLY.—A category of 1903A enrollees who are 65 years of age or older.

"(B) BLIND AND DISABLED.—A category of 1903A enrollees (not described in the previous subparagraph) who are eligible for medical assistance under this title on the basis of being blind or disabled.

"(C) CHILDREN.—A category of 1903A enrollees (not described in a previous subparagraph) who are children under 19 years of age.

"(D) EXPANSION ENROLLEES.—A category of 1903A enrollees (not described in a previous subparagraph) for whom the amounts expended for medical assistance are subject to an unwind under section 1902(a)(22), which shall be instead of the such assistance otherwise provided under this subsection, such assistance shall be instead of medical assistance otherwise provided to the individual under this title.

"(E) Other nonelderly, nonblind, and non-disabled enrollees who are not described in any previous subparagraph.

"(3) MEDICAID ENROLLEES.—The term 'Medicaid enrollee' means, with respect to a State for a month, an individual who is eligible for medical assistance for items or services under this title and enrolled under the State plan (or a prior version of such plan) under this title for the month.

"(4) DETERMINATION OF NUMBER OF 1903A ENROLLEES.—The number of 1903A enrollees for a State plan year (as determined and, if applicable, under section 1902(a)(10)(A) of the Act for a 1903A enrollee category, is the average monthly number of Medicaid enrollees for such State and fiscal year (and, if applicable, in such subsequent fiscal year, which shall be applied as if such expenditure and payments had been made under a State plan under this title and the limitations on expenditures under this section shall supersede any other payment limitations or provisions (including limitations based on a per capita limit) otherwise applicable under such a waiver).

"(2) TREATMENT OF STATES EXPANDING COVERAGE AFTERTHE FISCAL YEAR 2016.—In the case of a State that did not provide for medical assistance for items and services under section 1115, section 1915, or another provision of this title, the number of individuals and expenditures reported under this section shall be used to determine the average monthly number of Medicaid enrollees for such State and fiscal year and any succeeding fiscal year for which such data are not satisfactorily submitted—

"(A) the Secretary shall calculate and apply a proportional factor to the number of enrollees described in subsection (e)(2)(D) during fiscal year 2016 but which provides for such assistance for such category in a subsequent year, the provisional FY18 per capita target amount for such enrollee category under section (e)(2)(D) shall be equal to the prorogation FY18 per capita target amount for the 1903A enrollee category described in subsection (e)(2)(D).

"(3) IN CASE OF STATE FAILURE TO REPORT NECESSARY DATA.—If a State for any quarter in a fiscal year beginning with fiscal year 2019 fails to satisfactorily submit data on expenditures and enrollees in accordance with subsection (h), for such fiscal year and any succeeding fiscal year for which such data are not satisfactorily submitted—

"(A) the Secretary shall calculate and apply a factor to the number of enrollees described in subsection (h), for such fiscal year and any succeeding fiscal year for which such data are not satisfactorily submitted—

"(B) the growth factor otherwise applied under subsection (c)(2)(B) shall be decreased by 1 percentage point.

"(C) an overstatement of certain amounts for data errors.—The amounts and percentage calculated under paragraphs (1) and (4)(C) of subsection (d) for a State for fiscal year 2016, and the amounts of the adjusted total medical assistance expenditures calculated under subsection (b) and the number of enrollees described in subsection (e)(4) for a State for fiscal year 2016, fiscal year 2019, and any subsequent fiscal year that specifies—

"(A) the applicable block grant category with respect to which the State will apply the option under this subsection for such period;

"(B) the conditions for eligibility of block grant individuals within such applicable block grant category for block grant health care assistance under the option, which shall be instead of other conditions for eligibility under this title, except that in the case of a State that has elected the applicable block grant category described in—

"(i) subsection (A) of paragraph (6), the plan must provide for eligibility for pregnant women and children required to be provided medical assistance under subsections (a)(10)(A)(i) and (e)(4) of section 1902; or

"(II) subparagraph (B) of paragraph (6), the plan must provide for eligibility for pregnant women required to be provided medical assistance under subsections (a)(10)(A)(i) and (e)(4) of section 1902, or

"(III) the types of items and services, the cost-sharing with respect to such services, the method for delivering block grant health care assistance under this subsection, which shall be instead of such types, amount, duration, and scope of such services, the cost-sharing with respect to such services, and the method for delivering block grant health care assistance otherwise required under this title, except that the plan must provide for assistance for—

"(i) hospital care;

"(II) surgical care and treatment;

"(III) medical care and treatment;

"(IV) obstetrical and prenatal care and treatment;

"(V) prescribed drugs, medicines, and prosthetic devices;

"(VI) other medical supplies and services; and

"(VII) health care for children under 18 years of age.

"(B) REVIEW AND APPROVAL.—A plan described in subparagraph (A) of paragraph (6) shall be deemed approved by the Secretary unless the Secretary determines, within 30 days after the date of the Secretary's receipt of the plan, that the plan is incomplete or materially unsound and, with respect to such plan and its implementation under this subsection, the requirements of paragraphs (1), (10)(B), and (22) of section 1902(a) shall not apply.

"(3) AMOUNT OF BLOCK GRANT FUNDS.—
"(A) FOR INITIAL FISCAL YEAR.—The block grant amount under this paragraph for a State for the initial fiscal year in the first 10-fiscal-year period is equal to the sum of the products for each applicable block grant category for such State and period of—

"(i) the target per capita medical assistance expenditures for such State for such fiscal year (c(2)); and

"(ii) the number of 1903A enrollees for such category and State for fiscal year 2019, as determined under subsection (e)(4); and

"(iii) the average medical assistance matching percentage (as defined in subsection (a)(4)) for the State for fiscal year 2019.

"(B) FOR ANY SUBSEQUENT FISCAL YEAR.—The block grant amount under this paragraph for a State for each succeeding fiscal year (whether in a 10-fiscal-year period) is equal to the block grant amount under subparagraph (A) (or this subparagraph) for the State for the previous fiscal year increased by the annual increase in the consumer price index for all urban consumers (all items; U.S. city average) for the fiscal year involved.

"(C) AVAILABLE OF ROLLOVER FUNDS.—The amount under this paragraph for a State for a fiscal year shall remain available to the State for expenditures under this subsection for the succeeding fiscal year if in the election in effect under this subsection for the State in such succeeding fiscal year.

"(D) FEDERAL PAYMENT AND STATE RESPONSIBILITY.—The Secretary shall pay to each State with an election in effect under this subsection for a fiscal year, from its block grant amount under paragraph (3) available for such fiscal year, an amount for each quarter of such fiscal year equal to the enhanced FMAP described in the first sentence of section 1903(b)(1) (as increased by the applicable percentage under this section) for the purpose described in paragraph (7) of subsection (a). The State shall provide for each such quarter of such fiscal year, from the block grant amount described in paragraph (3) available for such fiscal year, an amount for each quarter of such fiscal year equal to the enhanced FMAP described in the first sentence of section 1903(b)(1) for the purpose described in paragraph (7) of subsection (a). The State shall not use any such additional amount for purposes described in paragraphs (6) and (7) of subsection (a).

"(E) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(6) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, either of the following:

"(i) the target per capita medical assistance expenditures for such State for such fiscal year (c(2)); and

"(ii) the number of 1903A enrollees for such category and State for fiscal year 2019, as determined under subsection (e)(4); and

"(iii) the average medical assistance matching percentage (as defined in subsection (a)(4)) for the State for fiscal year 2019.

"(7) BLOCK GRANT INDIVIDUAL DEFINED.—In this subsection, the term 'block grant individual' means, with respect to a State for a 10-fiscal-year period, an individual who is not disabled (as defined for purposes of the State plan) and who is within an applicable block grant category for the State and such period.

"(8) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, either of the following:

"(1) provided in subparagraph (C) of such subsection.

"(B) OTHER NONELDERLY, NONDISABLED, NON-EXPANSION ADULTS.—Only the 1903A enrollee category specified in subparagraph (E) of such subsection.

"(C) CHILDREN.—The 1903A enrollee category specified in subparagraph (C) of such subsection.

"(D) CHILDREN INDIVIDUAL DEFINED.—In this subsection, the term 'children' means—

"(1) the number of 1903A enrollees for such category and State for fiscal year 2019, as determined under subsection (e)(4); and

"(2) the average medical assistance matching percentage (as defined in subsection (a)(4)) for the State for fiscal year 2019.

"(E) FEDERAL PAYMENT AND STATE RESPONSIBILITY.—The Secretary shall pay to each State with an election in effect under this subsection for a fiscal year, from its block grant amount under paragraph (3) available for such fiscal year, an amount for each quarter of such fiscal year equal to the enhanced FMAP described in the first sentence of section 1903(b)(1) (as increased by the applicable percentage under this section) for the purpose described in paragraph (7) of subsection (a). The State shall provide for each such quarter of such fiscal year, from the block grant amount described in paragraph (3) available for such fiscal year, an amount for each quarter of such fiscal year equal to the enhanced FMAP described in the first sentence of section 1903(b)(1) for the purpose described in paragraph (7) of subsection (a).

"(F) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(G) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(1) The block grant amount under this paragraph for the State and such 10-fiscal-year period is equal to the sum of the products for each applicable block grant category for such State and period of—

"(i) the target per capita medical assistance expenditures for such State for such fiscal year (c(2)); and

"(ii) the number of 1903A enrollees for such category and State for fiscal year 2019, as determined under subsection (e)(4); and

"(iii) the average medical assistance matching percentage (as defined in subsection (a)(4)) for the State for fiscal year 2019.

"(2) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(3) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(4) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(5) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(6) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.

"(7) APPLICABLE BLOCK GRANT CATEGORY DEFINED.—In this subsection, the term 'applicable block grant category' means with respect to a State for a 10-fiscal-year period, a block grant category as specified by the applicable block grant amount under this paragraph for the State and such 10-fiscal-year period.
section 2204(e), the Administrator, in consultation with the State insurance commissioner, shall use the allocation that would otherwise be provided to the State under this title and shall provide such additional funds in accordance with paragraph (2), for such State.

(2) Required Use for Market Stabilization Payments to Insurers.—Subject to section 2203(b), the Administrator shall make an allocation for a State made pursuant to paragraph (1) for a year shall be used to carry out the purpose described in section 2203(2) in such State by providing payments to appropriate entities described in such section with respect to claims that exceed $50,000 (or, with respect to allocations made under this title for 2020 or a subsequent year, as specified in section 2201, such dollar amount specified by the Administrator), but do not exceed $350,000 (or, with respect to allocations made under this title for 2020 or a subsequent year during such period, such dollar amount specified by the Administrator), in an amount equal to 75 percent (or, with respect to allocations made under this title for 2020 or a subsequent year during such period, such percentage specified by the Administrator) of the amount of such claims.

SEC. 2204. ALLOCATIONS.

(a) Appropriation.—For the purpose of providing allocations for States (including pursuant to 2203(b)) under this title there shall be appropriated out of any money in the Treasury not otherwise appropriated—

(1) for 2018, $15,000,000,000;
(2) for 2019, $15,000,000,000;
(3) for 2020, $10,000,000,000;
(4) for 2021, $10,000,000,000;
(5) for 2022, $10,000,000,000;
(6) for 2023, $10,000,000,000;
(7) for 2024, $10,000,000,000;
(8) for 2025, $10,000,000,000; and
(9) for 2026, $10,000,000,000.

The amount otherwise appropriated under the purpose for 2020 shall be increased by $15,000,000,000, to be used and available under subsection (d) only for the purposes described in paragraphs (6) and (7) of section 2203(a).

(b) Allocations.—

(1) Payment.—

(A) In general.—From amounts appropriated under paragraph (a) for a year, the Administrator shall, with respect to a State and not later than the date specified under subparagraph (B) for such year, allocate, subject to section (c), for such State (including pursuant to 2203(b)) the amount determined for such State and year under paragraph (2).

(B) Formula for allocation.—For purposes of paragraphs (A) and (C) of section 2202—

(i) for 2018, the date that is 45 days after the date of the enactment of this title; and
(ii) for 2019 and subsequent years, January 1 of the respective year.

(2) Allocation Amount Determinations.—

(A) For 2018 and 2019.—

(i) In general.—For purposes of paragraphs (1) and (2), the amount determined under this paragraph for 2018 and 2019 for a State is an amount equal to the sum of—

(I) the relative incurred claims amount described in clause (ii) for such State and year;

(II) the relative uninsured and issuer participation amount described in clause (iv) for such State and year.

(B) For 2020 and subsequent years.—For purposes of clause (i), the amount determined under this paragraph for a year (beginning with 2020) during the period described in section 2201 for a State is an amount determined in accordance with an allocation methodology specified by the Administrator which—

(i) takes into consideration the adjusted incurred claims of such State, the number of residents of such State who for the previous year were not enrolled in a health plan or otherwise did not have health insurance coverage (including through a Federal or State health program) and whose income is below 100 percent of the poverty line applicable to a family of the size involved, and the number of health insurance issuers participating in the insurance market in such State for such year;

(ii) determines the amount of funds, if any, from the amounts appropriated under subsection (a) for the previous year but not allocated for such previous year; and

(iii) determines the amount of funds, if any, from the amounts appropriated under subsection (a) for the previous year but not allocated for such previous year; and

(C) Adjustment for 2020.—For purposes of paragraph (1), the amount determined under this paragraph for a year (beginning with 2020) during the period described in section 2201 for a State is an amount determined in accordance with an allocation methodology specified by the Administrator which—

(i) takes into consideration the adjusted incurred claims of such State, the number of residents of such State who for the previous year were not enrolled in a health plan or otherwise did not have health insurance coverage (including through a Federal or State health program) and whose income is below 100 percent of the poverty line applicable to a family of the size involved, and the number of health insurance issuers participating in the insurance market in such State for such year;

(ii) is established after consultation with health care consumers, health insurance issuers, State insurance commissioners, and other stakeholders and after taking into consideration factors that may inhibit health care consumer and health insurance issuer participation; and

(iii) reflects the goals of improving the health insurance risk pool and shifting the burden of increased costs for health care consumers and health care providers to a more competitive health insurance market, and increasing choice for health care consumers.

(D) Annual Distribution of Previous Year's Remaining Funds.—In carrying out subsection (b), the Administrator shall, with respect to a year (beginning with 2020 and ending with 2027), not later than March 31 of such year—

(1) determine the amount of funds, if any, from the amounts appropriated under subsection (a) for the previous year but not allocated for such previous year; and

(2) if the Administrator determines that any funds were not so allocated for the previous year, allocate such remaining funds, in accordance with the allocation methodology specified pursuant to subsection (b)(2)—

(A) to States that, not later than March 31 of the previous year, to be used by the Administrator for such States, to carry out the purposes described in section 2202; to such States by providing payments to appropriate entities described in such section with respect to claims that exceed $1,000,000; and

(B) to States for which such remaining funds were made pursuant to section 2203(b) for such previous year, to be used by the Administrator for such States, to carry out the purposes described in section 2202; to such States by providing payments to appropriate entities described in such section with respect to claims that exceed $1,000,000.

(E) Conditions for and Limitations on Receipt of Funds.—The Secretary may not allocate under this title for a State, with respect to a purpose described in section 2202—

(1) in the case of an allocation that would be made pursuant to section 2203(a), if the State does not agree that the State will make available non-Federal contributions towards such purpose in an amount equal to—

(A) for 2020, 7 percent of the amount allocated under this subsection to such State for such year and purpose;

(B) for 2021 and subsequent years, 14 percent of the amount allocated under this subsection to such State for such year and purpose;

(C) for 2022, 21 percent of the amount allocated under this subsection to such State for such year and purpose;

(D) for 2023, 28 percent of the amount allocated under this subsection to such State for such year and purpose;

(E) for 2024, 35 percent of the amount allocated under this subsection to such State for such year and purpose;

(F) for 2025, 42 percent of the amount allocated under this subsection to such State for such year and purpose; and

(G) for 2026, 50 percent of the amount allocated under this subsection to such State for such year and purpose;

(2) in the case of an allocation that would be made pursuant to section 2203(a), if the State does not agree that the State will make available non-Federal contributions towards such purpose in an amount equal to—

(A) for 2020, 10 percent of the amount allocated under this subsection to such State for such year and purpose;

(B) for 2021 and subsequent years, 14 percent of the amount allocated under this subsection to such State for such year and purpose;

(C) for 2022, 28 percent of the amount allocated under this subsection to such State for such year and purpose;

(D) for 2023, 35 percent of the amount allocated under this subsection to such State for such year and purpose;

(E) for 2024, 42 percent of the amount allocated under this subsection to such State for such year and purpose; and

(F) for 2025, 50 percent of the amount allocated under this subsection to such State for such year and purpose;

(G) for 2026, 60 percent of the amount allocated under this subsection to such State for such year and purpose;
(B) for 2021, 30 percent of the amount allocated under this subsection to such State for such year and purpose; and

(C) for 2022, 30 percent of the amount allocated under this subsection to such State for such year and purpose;

(D) for 2023, 40 percent of the amount allocated under this subsection to such State for such year and purpose; and

(E) for 2024, 50 percent of the amount allocated under this subsection to such State for such year and purpose;

(2) except that if in any of the 3 years described in paragraph (1) the Secretary determines that is equal to 30 percent of the monthly rollments for such plan year, is the amount

enforcement period applicable to enrollment coverage described in paragraph (1) for cable policyholder enrolling in health insurance coverage in the individual market, for the purposes of section 36B of the Internal Revenue Code of 1986, beginning with plan year 2018 and after such date any reference to

special enrollment period following the date on which such coverage so ceased;

(2) LOOK-BACK PERIOD.—The term ‘look-

back period’ means, with respect

to a pregnancy that is the result of a rape or incest).”.

(3) ENFORCEMENT PERIOD.—The term ‘en- forcement period’ means—

(A) with respect to enrollments during a special enrollment period for plan year 2018, the period beginning with the first month that is during such plan year and that begins subsequent to such date of enrollment, and ending with the last month of such plan year; and

(B) with respect to enrollments for plan year 2019 or a subsequent plan year, the 12- month period beginning on the first day of the respective plan year.”.

SEC. 134. INCREASING COVERAGE OPTIONS.

Section 1302 of the Patient Protection and Affordable Care Act (42 U.S.C. 18022) is amended—

(1) in subsection (a)(3), by inserting “and with respect to a pregnancy that is the result of an act of

SEC. 201. RECAPTURE EXCESS ADVANCE PAYMENTS OF PREMIUM TAX CREDITS.

Subparagraph (B) of section 36B(f)(2) of the Internal Revenue Code of 1986 is amended by adding at the end the following new clause:

(III) NONAPPLICABILITY OF LIMITATION.—This subparagraph shall not apply to taxable years beginning after December 31, 2017, and before January 1, 2020.

SEC. 202. ADDITIONAL MODIFICATIONS TO PREMIUM TAX CREDIT.

(a) MODIFICATION OF DEFINITION OF QUALIFIED HEALTH PLAN.

(1) IN GENERAL.—Section 36B(c)(5)(A) of the Internal Revenue Code of 1986 is amended—

(A) by inserting “(determined without regard to subparagraphs (A), (C)(i), and (C)(iv) of paragraph (1) thereof)” after “the plan is offered on an Exchange” after “(a)(1) of the Patient Protection and Affordable Care Act,” and

(B) by striking “shall not include” and all that follows and inserting “shall not include any health plan that—

(i) is a grandfathered health plan or a grandmothered health plan, or

(ii) includes coverage for abortions (other than any abortion necessary to save the life of the mother or any abortion with respect to a pregnancy that is the result of an act of rape or incest).”.

(2) DEFINITION OF GRANDMOTHERED HEALTH PLAN.—Section 36B(c)(5)(A) of the Internal Revenue Code of 1986 is amended by adding at the end the following new subparagraph:

“(C) GRANDMOTHERED HEALTH PLAN.—In this section, ‘grandmothered health plan’ means health insurance coverage which is offered in the individual health insurance market as of October 1, 2013, and is offered in such market after January 1, 2014, as a result of CCIO guidance.”

“(ii) CCIO GUIDANCE DEFINED.—The term ‘CCIO guidance’ means the letter issued by the Centers for Medicare & Medicaid Services on November 14, 2013, to the State Insurance Commissioners outlining a transitional policy for non-grandmothered coverage in the individual health insurance market, as subsequently extended and modified (including by a communication entitled ‘Insurance Standards Bulletin in Section 1102: Extension of Transitional Policy through Calendar Year 2017’ issued on February 29, 2016, by the Director of the Center for Consumer Information & Insurance Oversight of such Centers).”.

“(II) CCIO GUIDANCE DEFINED.—The term ‘CCIO guidance’ means the letter issued by the Centers for Medicare & Medicaid Services on November 14, 2013, to the State Insurance Commissioners outlining a transitional policy for non-grandmothered coverage in the individual health insurance market, as subsequently extended and modified (including by a communication entitled ‘Insurance Standards Bulletin in Section 1102: Extension of Transitional Policy through Calendar Year 2017’ issued on February 29, 2016, by the Director of the Center for Consumer Information & Insurance Oversight of such Centers).”.

“(III) INDIVIDUAL HEALTH INSURANCE MARKET.—The term ‘individual health insurance market’ means health insurance coverage (as defined in section 9832(b)) to individuals other than in connection with a group health plan (within the meaning of section 9832(b)) of
such Code, as amended by paragraph (2), is amended by adding at the end the following new subparagraph:

"(D) CERTAIN RULES RELATED TO ABORTION.—

"(1) OPTION TO PURCHASE SEPARATE COVERAGE OR PLAN.—Nothing in subparagraph (A) shall be construed as prohibiting any individual from purchasing separate coverage for abortions described in such subparagraph, or a health plan that includes such abortions, so long as no credit is allowed under this section with respect to the premiums for such coverage or plan.

"(2) OPTION TO OFFER COVERAGE OR PLAN.—Nothing in paragraph (A) shall restrict any health insurance issuer offering a health plan from offering separate coverage for abortions described in such subparagraph, or a plan that includes such abortions, so long as no credit is allowed under this section with respect to the premiums for such coverage or plan.

"(iii) OTHER TREATMENTS.—The treatment of any premium growth for calendar year 2013 and ending with calendar year 2018, subclause (I), the excess (if any) of the rate of premium growth for calendar year 2018, (B) the premiums paid with respect to such coverage,

"(C) the months during which such coverage is provided for months beginning after December 31, 2017.

"(D) MODIFICATION OF APPLICABLE PERCENTAGE.—The amendment made by subsection (a)(4)(B) shall apply to coverage which includes abortion, and all that follows and inserting "the Exchange established by the State under section 1311 of the Patient Protection and Affordable Care Act".

"(b) MODIFICATION OF APPLICABLE PERCENTAGE.—Section 36B(b)(3)(A) of such Code is amended to read as follows:

"(A) APPLICABLE PERCENTAGE.—

"(i) IN GENERAL.—The applicable percentage for any taxable year shall be the percentage such that the applicable percentage for any taxpayer whose household income is within an income tier specified in the following table shall increase, on a sliding scale in a linear manner, from the initial percentage to the final percentage specified in such table for such income tier with respect to a taxpayer of the age involved:

```
<table>
<thead>
<tr>
<th>Income Tier</th>
<th>Initial</th>

```

"(ii) AGE DETERMINATIONS.—

"(1) IN GENERAL.—For purposes of clause (1), the taxpayer taken into account under clause (i) with respect to any taxable year is the age attained by such taxpayer before the close of such taxable year.

"(ii) INDEXING.—In the case of any taxable year beginning in calendar year 2019, the initial and final percentages contained in clause (i) shall be adjusted to reflect—

"(A) the excess (if any) of the rate of premium growth for the period beginning with calendar year 2013 and ending with calendar year 2018, over the rate of income growth for such period, and

"(B) in addition to any adjustment under subparagraph (E), the excess (if any) of the rate of premium growth for calendar year 2018, over the rate of growth in the consumer price index for calendar year 2018.

"(iii) FAILSAFE.—Clause (ii)(1) shall apply only if the aggregate amount of premium tax credits under this section and cost-sharing reductions under section 1402 of the Patient Protection and Affordable Care Act for calendar year 2018 exceeds an amount equal to 0.504 percent of the gross domestic product for such calendar year.”.

"(c) EFFECTIVE DATE.—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendment made by this section shall apply to taxable years beginning after December 31, 2017.

"(A) ADVANCE PAYMENT NOT APPLICABLE.—

"Section 1412 of the Patient Protection and Affordable Care Act is amended by adding at the end the following new subsection:

"(b) EXCLUSION OF OFF-EXCHANGE COVERAGE.—Advance payments under this section, and advance determinations under section 1411, with respect to any credit allowed under section 36B shall not be made with respect to any health plan which is not enrolled in through an Exchange.

"(B) REPORTING.—Section 6055(b)(3) of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

"(8) INFORMATION RELATING TO OFF-EXCHANGE PREMIUM ELIGIBLE COVERAGE.—If—

"(i) the health plan provider—(I) reports to the Secretary under this subparagraph, or a health plan that includes such abortions, so long as no credit is allowed under this section with respect to such coverage, and

"(ii) the health plan provider—(I) reports to the Secretary under this subparagraph, or a health plan that includes such abortions, so long as no credit is allowed under this section with respect to such coverage, and

"the performance of an abortion shall not be treated as an abortion for purposes of subparagraph (B) and subparagraph (C) of this subsection (as so amended), with respect to any credit allowed under this section with respect to such credit.

"(b) DISALLOWANCE OF SMALL EMPLOYER HEALTH INSURANCE EXPENSE CREDIT FOR PLAN WHICH INCLUDES COVERAGE FOR ABORTION.—

"(1) IN GENERAL.—The amendment made by subsection (a) shall be construed as prohibiting any employer from purchasing for its employees separate coverage for abortions described in such subparagraph, or a plan that includes such abortions, so long as no credit is allowed under this subsection with respect to the employer contributions for such coverage or plan.

"(ii) OPTION TO OFFER COVERAGE OR PLAN.—Nothing in subparagraph (A) shall restrict any health insurance issuer offering a health plan through an Exchange established by the State under section 1311 of the Patient Protection and Affordable Care Act.

"(c) EFFECTIVE DATES.—

"(1) IN GENERAL.—The amendment made by this subsection (a) shall apply to taxable years beginning after December 31, 2019.

"(2) DISALLOWANCE OF SMALL EMPLOYER HEALTH INSURANCE EXPENSE CREDIT FOR PLAN WHICH INCLUDES COVERAGE FOR ABORTION.—

The amendments made by subsection (b)
shall apply to taxable years beginning after December 31, 2017.

SEC. 204. INDIVIDUAL MANDATE. (a) In General.—Section 5000A(c) of the Internal Revenue Code of 1986 is amended—
(i) by striking subsection (i)(1), by striking "2.5 percent" and inserting "Zero percent", and
(ii) by striking paragraph (2). (b) Effective Date.—The amendments made by this section shall apply to months beginning after December 31, 2015.

SEC. 205. EMPLOYER MANDATE. (a) In General.—(1) Paragraph (1) of section 4980B(b)(1) of the Internal Revenue Code of 1986 is amended by inserting "(A) in the case of months beginning after December 31, 2015)" after "(2015)". (b) Effective Date.—The amendments made by this section shall apply to months beginning after December 31, 2015.

SEC. 206. REPEAL OF THE TAX ON EMPLOYER HEALTH INSURANCE PREMIUMS FOR FLEXIBLE SPENDING ARRANGEMENTS. Section 4980I of the Internal Revenue Code of 1986 is amended by adding at the end the following new subsection:
(b) SHALL NOT APPLY.—No tax shall be imposed with respect to any amount paid for a qualified health insurance plan for the taxpayer and the taxpayer’s spouse for taxable years beginning after December 31, 2016.

SEC. 207. REPEAL OF TAX ON OVER-THE-COUNTER MEDICATIONS. (a) HSAs.—Subparagraph (A) of section 223(d)(2) of the Internal Revenue Code of 1986 is amended by striking "Such term" and all that follows through the period.
(b) MSA.—Subparagraph (A) of section 223(d)(2) of the Internal Revenue Code of 1986 is amended by adding after the period "and".
(c) Health Flexible Spending Arrangements and Health Reimbursement Arrangements.—Section 106 of the Internal Revenue Code of 1986 is amended by striking subsection (f) and redesignating subsection (g) as subsection (f).
(d) Reimbursements.—(1) Distributions from Savings Accounts.—The amendments made by subsections (a) and (b) shall apply to amounts paid with respect to taxable years beginning after December 31, 2016.
(2) Reimbursements.—The amendment made by subsection (c) shall apply to expenses incurred with respect to taxable years beginning after December 31, 2016.

SEC. 208. REPEAL OF INCREASE OF TAX ON HEALTH SAVINGS ACCOUNTS. (a) HSAs.—Section 223(h)(4)(A) of the Internal Revenue Code of 1986 is amended by striking "20 percent" and inserting "15 percent".
(b) MSA.—Section 223(h)(4)(A) of the Internal Revenue Code of 1986 is amended by adding "and by striking "20 percent" and inserting "15 percent'.'.
(c) Effective Date.—The amendments made by this section shall apply to distributions made after December 31, 2016.

SEC. 209. REPEAL OF LIMITATIONS ON CONTRIBUTIONS TO FLEXIBLE SPENDING ARRANGEMENTS. (a) In General.—Section 125 of the Internal Revenue Code of 1986 is amended by striking subsection (i). (b) Effective Date.—The amendment made by this section shall apply to taxable years beginning after December 31, 2016.
“(2) any dependent of the taxpayer, and
“(3) with respect to any eligible coverage month beginning in such taxable year, any child (as defined in section 152(f)(1)) of the taxpayer who as of the beginning of such taxable year has not attained age 27 if such child is covered for such month under a qualified health plan which also covers the
“taxpayer in the case of a joint return, either spouse

(1) QUALIFIED HEALTH PLAN.—For purposes of this section, the term ‘qualified health plan’ means any health insurance coverage (as defined in section 9832(b)) if—
“(1) such coverage is offered in the individual health insurance market within a State, and in the case of a joint return, either spouse
“(2) substantially all of such coverage is not of excepted benefits described in section 9832(c);
“(3) such coverage does not consist of short-term limited duration insurance (within the meaning of section 2791(b)(5) of the Public Health Service Act);
“(4) such coverage is not a grandfathered health plan (as defined in section 1251 of the Patient Protection and Affordable Care Act) or a high deductible health plan (as defined in section 36B(c)(3)(C) as in effect for taxable years beginning before January 1, 2020), and
“(5) such coverage includes, as a minimum, all of the following:
“short-term limited duration insurance (within the meaning of section 9831(d)(3)(C)) under such arrangement
“any abortion with respect to a pregnancy that is the result of an act of rape or incest.

(g) Special Rules.—
“(1) Married couples must file joint return.
“(A) IN GENERAL.—Except as provided in subparagraph (B), if the taxpayer is married (within the meaning of section 7703) at the close of the taxable year, no credit shall be allowed under this section to such taxpayer unless such taxpayer and the taxpayer’s spouse file a joint return for such taxable year.
“(B) Exception for certain taxpayers.—Subparagraph (A) shall not apply to any married taxpayer who—
“(i) is living apart from the taxpayer’s spouse at the time the taxpayer files the tax return,
“(ii) is unable to file a joint return because such taxpayer is in a state of domestic abuse or spousal abandonment,
“(iii) certifies on the tax return that such taxpayer meets the requirements of clauses (i) and (ii), and
“(iv) has not met the requirements of clauses (i), (ii), and (iii) for each of the 3 preceding taxable years.

(2) Coordination with dependents.—
“(A) IN GENERAL.—No credit shall be allowed under this section to any individual who is a dependent with respect to another taxpayer for any taxable year beginning in the calendar year in which such individual’s taxable year begins.
“(B) Coordination with rule for older children of any individual who is a qualifying family member described in subsection (e)(3) with respect to another taxpayer for any month, in determining the amount of any credit allowable to such individual under this section for any taxable year of such individual which includes such month, the monthly limitation amount with respect to such individual for such month shall be zero and no amount paid for any qualified health plan with respect to such individual for such month shall be taken into account.

(3) Coordination with medical expense deduction.—Amounts described in subsection (b)(1)(B) with respect to any month shall be taken into account in determining the deduction allowed under section 213 except to the extent that such amounts exceed the amount described in subsection (b)(1)(A) with respect to such month.

(4) Coordination with advance payments of credit.—With respect to any taxable year—
“(A) the amount which would (but for this subsection) be allowed as a credit to the taxpayer under subsection (a) shall be reduced (but not below zero) by the aggregate amount paid on behalf of such taxpayer under section 1412 of the Patient Protection and Affordable Care Act for months beginning in such taxable year, and
“(B) the tax imposed by section 1 for such taxable year shall be increased by the excess (if any) of—
“(i) the aggregate amount paid on behalf of such taxpayer under section 1412 of the Patient Protection and Affordable Care Act for months beginning in such taxable year, over
“(ii) the amount which would (but for this subsection) be allowed as a credit to the taxpayer under subsection (a).

(5) Special rules for qualified small employer health reimbursement arrangements.—
“(A) IN GENERAL.—If the taxpayer or any qualifying family member of the taxpayer is provided a qualified small employer health reimbursement arrangement for an eligible coverage month and such arrangement is not provided (but not below zero) by the aggregate amount paid on behalf of such taxpayer under subsection (b)(1)(A) with respect to the taxpayer shall be reduced (but not below zero) by 1/4 of the permitted benefit (as defined in section 9831(d)(3)(C)) under such arrangement for each such month the arrangement is provided to such taxpayer.

(B) QUALIFIED SMALL EMPLOYER HEALTH REIMBURSEMENT ARRANGEMENT.—For purposes of this subsection, the term ‘qualified small employer health reimbursement arrangement’ has the meaning given such term by section 9831(d)(2).

(6) Inflation adjustment.—
“(A) IN GENERAL.—In the case of any taxable year beginning after January 1, 2018, the amount described in paragraph (1) for the taxable year shall be increased by an amount equal to
“(i) such dollar amount, multiplied by
“(ii) the annual percentage increase determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined—
“(I) by substituting ‘calendar year 2019’ for ‘calendar year 1992’ in subparagraph (B) thereof, and
“(II) by substituting for the CPI referred to in section 1(f)(3)(A) the amount that such CPI would have been if the annual percentage increase in CPI with respect to each year after year 2020 had been one percentage point greater.
“(B) TERMS RELATED TO CPI.—
“(1) ANNUAL PERCENTAGE INCREASE.—For purposes of subparagraph (A)(ii), the term ‘annual percentage increase’ means the percentage (if any) by which CPI for any year exceeds CPI for the prior year.
“(ii) OTHER TERMS.—Terms used in this paragraph and also in section 1(f)(3) shall have the same meanings as when used in such section.
paragraph (1) and section 36B (determined without regard to subsection (g)(4)(A) thereof) for such taxable year, and
(ii) section 36B(g)(4)(B) shall not apply with respect to such taxpayer for such taxable year.

"(2) TRADE OR BUSINESS DEDUCTION.—Section 162(i) of such Code is amended by adding at the end the following new paragraph:

"(6) COORDINATION WITH HEALTH INSURANCE COVERAGE CREDIT.—The deduction otherwise allowable to a taxpayer under paragraph (1) for any taxable year shall be reduced (but not below zero) by the amount of the credit allowable to such taxpayer under section 36B (determined without regard to subsection (g)(4)(A) thereof) for such taxable year.

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to months beginning after December 31, 2017.

SEC. 215. MAXIMUM CONTRIBUTION LIMIT TO HEALTH SAVINGS ACCOUNT INCREASED TO AMOUNT OF DEDUCTIBLE AND OUT-OF-POCKET LIMITATION.

(a) Shell-Only Coverage.—Section 223(b)(2)(A) of the Internal Revenue Code of 1986 is amended by striking "$2,250" and inserting "the amount in effect under subparagraph (A) of section 223(b)(1)(C) in effect for calendar year 2003".

(b) Family Coverage.—Section 223(b)(2)(B) of such Code is amended by striking "$4,500" and inserting "the amount in effect under subparagraph (A) of section 223(b)(1)(C) in effect for calendar year 2003".

(c) Conforming Amendments.—Section 223(c)(1) of such Code is amended—

(1) by striking "subsections (b)(2) and (3)
both of which appear insection one", and

(2) in subparagraph (B), by striking ""determined by", and inserting ""determined under paragraph (6) of section 162(m) of the Internal Revenue Code of 1986 is amended by adding at the end the following new subparagraph:

"(6) COORDINATION WITH HEALTH INSURANCE COVERAGE CREDIT.—The deduction otherwise allowable to a taxpayer under paragraph (1) for any taxable year shall be reduced (but not below zero) by the amount of the credit allowable to such taxpayer under section 36B (determined without regard to subsection (g)(4)(A) thereof) for such taxable year.

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2017.

SEC. 216. ALLOW BOTH SPOUSES TO MAKE CATCHUP CONTRIBUTIONS TO THE SAME HEALTH SAVINGS ACCOUNT.

(a) In General.—Section 223(b)(5) of the Internal Revenue Code of 1986 is amended to read as follows:

"(5) SPECIAL RULE FOR MARRIED INDIVIDUALS WITH FAMILY COVERAGE.—

"(A) IN GENERAL.—In the case of individuals who are married to each other, if both spouses are eligible individuals and either spouse has family coverage under a high deductible health plan as of the first day of any month—

"(i) the limitation under paragraph (1) shall be applied by not taking into account any other high deductible health plan coverage of either spouse (and if such spouses both have family coverage under separate high deductible health plans, only one such coverage shall be taken into account),

"(ii) such limitation (after application of clause (i)) shall be reduced by the aggregate amount paid to Archer MSAs of such spouses for the taxable year, and

"(iii) such limitation (after application of clauses (i) and (ii)) shall be divided equally between such spouses unless they agree on a different division.

"(B) TREATMENT OF ADDITIONAL CONTRIBUTION AMOUNTS.—If both spouses referred to in subparagraph (A) have attained age 55 before the close of the taxable year, the limitation referred to in subparagraph (A)(iii) which is subject to division between the spouses shall include the additional contribution amounts determined under paragraph (5) for those spouses. In any other case, any additional contribution amount determined under paragraph (3) shall not be taken into account under subparagraph (A)(iii) and shall not be subject to division between the spouses.''

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2017.

SEC. 217. SPECIAL RULE FOR CERTAIN MEDICAL EXPENSES INCURRED BEFORE ESTABLISHMENT OF HEALTH SAVINGS ACCOUNT.

(a) In General.—Section 223(d)(2) of the Internal Revenue Code of 1986 is amended by adding at the end the following new subparagraph:

"(D) TREATMENT OF CERTAIN MEDICAL EXPENSES INCURRED BEFORE ESTABLISHMENT OF ACCOUNT.—If a health savings account is established during the 60-day period beginning on the date that coverage of the account beneficiary under a high deductible health plan begins, then, solely for purposes of determining whether an amount paid is used for a qualified medical expense, such account shall be treated as having been established on the date that such coverage begins.''

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to coverage beginning after December 31, 2017.

Subtitle B—Repeal of Certain Consumer Taxes

SEC. 221. REPEAL OF TANF.

Subsection (j) of section 9008 of the Patient Protection and Affordable Care Act is amended to read as follows:

"(j) REPEAL.—This section shall apply to calendar years beginning after December 31, 2010, and ending before January 1, 2017.''

SEC. 222. REPEAL OF HEALTH INSURANCE TAX.

Subsection (j) of section 9008 of the Patient Protection and Affordable Care Act is amended to read as follows:

"(j) REPEAL.—This section shall apply to calendar years beginning after December 31, 2013, and ending before January 1, 2017.''

Subtitle C—Repeal of Tanning Tax

SEC. 223. REPEAL OF TANNING TAX.

(a) In General.—The Internal Revenue Code of 1986 is amended by striking chapter 2A.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to services performed after June 30, 2017.

Subtitle D—Remuneration From Certain Insurers

SEC. 241. REMUNERATION FROM CERTAIN INSURERS.

Paragraph (6) of section 162(m) of the Internal Revenue Code of 1986 is amended by adding at the end the following new subparagraph:

"(d) TERMINATION.—This paragraph shall not apply to taxable years beginning after December 31, 2016.''

Subtitle E—Repeal of Net Investment Income Tax

SEC. 251. REPEAL OF NET INVESTMENT INCOME TAX.

(a) In General.—Subtitle A of the Internal Revenue Code of 1986 is amended by striking chapter 2A.

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to years beginning after December 31, 2017.

The SPEAKER pro tempore. The bill shall be debatable for 4 hours equally divided and controlled by the chair and ranking minority member of the Committee on the Budget or their respective designees.

The gentlewoman from Tennessee (Mrs. BLACK) and the gentleman from Kentucky (Mr. YARMUTH) each will control 2 hours.

The Chair recognizes the gentlewoman from Tennessee.
We were promised we could keep our doctor, and keep our health insurance plans; instead, millions of Americans have lost their insurance and the doctors that they liked. In short, the Affordable Care Act was neither affordable, nor did it provide the quality of care that the American people deserve.

The American Health Care Act is a first step in our efforts to deliver patient-centered reforms that will return to the American people freedom and choice in their healthcare decisions. It gets government out of the relationship between patients and their doctors—where it has never belonged—and puts people back in charge of their own health care. It brings the free market principle of competition to an industry that has long been dominated by government intervention.

Today we are faced with a stark choice. One plan grants unique access to their families, instead of purchasing a one-size-fits-all plan that is mandated by some Washington bureaucrat, and it modernizes Medicaid, a once-in-a-lifetime entitlement reform.

Ending Medicaid’s open-ended funding structure will play an important role in addressing the future budget deficits and our growing national debt. I applaud my colleagues who have stayed in this fight and continue to make this bill better.

The members of the Budget Committee, which I chair, outlined four principles they believed would improve the bill. Those principles led to significant changes to allow more State flexibility, and ensure that tax credits truly served the people they are meant to serve.

Others fought to eliminate Federal Obamacare regulations that drive up the cost of health care for all Americans and give those powers back to the States. At the same time, we also ensure that States have the resources to provide maternity and newborn care and treatment for mental health and substance abuse.

I agree with these changes, and I applaud my colleagues for the work to make sure that we truly reverse the damage Obamacare is doing to our healthcare system and our economy.

Obamacare’s legacy is clear: more government, less choice, and higher costs. Our vision for health care in America is the opposite: more freedom, more choice, and lower costs. Put simply, the American Health Care Act is a good first step, but it is only a first step.

My good friend and our former colleague, Dr. Tom Price, will use his position as Secretary of Health and Human Services to address some of the regulatory burden of Obamacare through administrative action. We have voted already and will continue to vote on individual pieces of legislation to implement even more patient-centered reforms, because we cannot address through reconciliation.

In fact, we just passed two bills already this week. One would allow small businesses to join together to purchase insurance, and the other would increase competition and bring down antitrust regulations. That bill received 416 votes. This shows that these bills are common sense measures that include bipartisan support.

The day is finally here where we have an opportunity to fulfill that promise that we have made to the American people. I, for one, cannot sit idly by and let this opportunity go to waste. Campaigning is easy compared to governing, but our constituents did not elect us to do nothing. They elected us to do what is right.

I urge my colleagues to join me in voting “yes” on the American Health Care Act, to rescue the American people from Obamacare.

Mr. Speaker, I reserve the balance of my time.

Mr. YARMUTH. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, after 7 years of campaigning against the Affordable Care Act, congressional Republicans have finally produced what we can describe as a replacement plan.

Sadly, however, this bill will unravel all of the progress we made under the ACA, including expanding access to health insurance to 22 million Americans and improving the quality of coverage and care for tens of millions more.

It nearly doubles the amount of uninsured people in this country, guts Medicaid by almost $900 billion, and weakens the Medicare trust fund.

That was bad enough. But the last-minute changes to this bill are astonishing and appalling. This legislation now allows insurers to end coverage for prescription drugs, mental health, maternity and newborn care, preventive care, emergency room visits, hospitalizations, outpatient care, rehabilitation, and pediatric care. That is not progress. That is not a fix. That is a potential health crisis for every American.

My Republican colleagues are well aware of this. Why else would they have drafted this bill and these last-minute changes in secret? Why else would complicated legislation affecting the lives of millions be sent to the floor just 2 weeks after it was introduced with no congressional hearings, not a single one, on a bill that impacts the health care of every American family? Why else would they rush the bill to the floor without an updated Congressional Budget Office estimate of how much coverage and care will be lost by their backroom deal that ends consumer protections?

I get it. I wouldn’t want to, nor would I know how to justify giving nearly $1 trillion in tax cuts to corporations and the wealthy paid for by those who have bought the health care of millions of American families.

Who is getting these huge windfalls? Companies like Amgen, with annual profits of more than $3 million; Medtronic, with annual profits of more than $6 billion; and Gilead Sciences, with $13 billion in profits in 2016 alone.

When the CBO released its report last week showing that 24 million hard-working Americans will be left without healthcare coverage by 2026 if we pass this bill, that premiums will rise 15 to 20 percent next year, that people will pay thousands of dollars more in deductibles and out-of-pocket costs, and that older Americans will be priced out of the market by an age tax, I thought for sure it was time. I thought for sure that there was no way my Republican colleagues would walk this plank. But here they are, and they are trying to take millions of American families with them.

Fourteen million Americans will lose health coverage next year if this bill is approved. Twenty-one million Americans will lose coverage in the next 3 years alone, wiping out all of the coverage gains from the ACA in just 3 years. For pretty much everyone else in the individual market, deductibles and other costs will be higher. And for lower-income individuals, out-of-pocket costs will be much higher.

Insurance companies will again be able to sell plans that offer much less financial protection, and we will return to the days when millions of people in this country will live in fear that they are always one serious illness or accident away from bankruptcy.

This bill will result in the largest transfer of wealth from struggling families to the well-off in our Nation’s history, giving $1 trillion in tax breaks to millionaires, billionaires, and corporations. It is Robin Hood in reverse, but this is far worse because access to lifesaving care is being stolen.

I don’t say that casually. I have met people, constituents of mine, whose lives have been saved because of the Affordable Care Act.

This is from one of my constituents: “My name is Kevin Schweitzer. I am 62 years old and I’m a lifelong resident of Louisville, Kentucky. I worked hard, took risks and built a successful small business that I sold at age 59. My wife and I were excited about our prospects as we headed into early retirement. As a retiree too young for Medicare, I purchased health insurance on the open market. Less than a year later, I was diagnosed with lymphoma. I have undergone multiple cycles of chemotherapy and radiation, winning the battle so far, but since this disease is in my blood I will be fighting it for the rest of my life.”
Mr. Speaker, the health of my constituents Kevin Schweitzer and Sarah Adkins is at stake in this debate. They, and the hundreds of other constituents I have heard from who have serious and chronic health conditions, will need high-quality and affordable health coverage for the rest of their lives. Under this bill, they will get less coverage, it will cost more, and eventually they will be priced out of the market, leaving them nowhere to turn for the care they need.

And that is not all. Because of the last-minute changes to this bill, insurers will be able to sell stripped-down coverage to weed out people with preexisting conditions. They will be able to replace, for example, to our coverage for chemotherapy drugs and cancer treatments, insulin pumps, hospital stays, and prescription drugs that treat chronic conditions across the board. Basically, if you have a serious health problem, the care you need may not be available to you at all.

When the American people were promised by President Trump and Republican congressional leadership that their existing coverage would be preserved, everybody wanted health coverage for the rest of their lives. Under this bill, they will get less coverage, it will cost more, and eventually they will be priced out of the market, leaving them nowhere to turn for the care they need.

Mr. Speaker, I urge my colleagues to oppose this legislation, and I reserve the balance of my time.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. MCCLINTOCK).

Mr. MCCLINTOCK. Mr. Speaker, I remind my colleagues that my vote for this bill will result in 38,200 people losing health care and coverage. Mr. Speaker, I yield 1 1/2 minutes to the gentlewoman from California (Ms. LEE), a distinguished member of the Budget Committee.

Ms. LEE. Mr. Speaker, I rise in strong opposition to H.R. 1628, which is a bill to take away health care from 24 million Americans.

Whether you believe it or not, health care is a basic right. This shameful bill steals from those who can least afford it, including seniors, veterans, people living with chronic conditions, and the disabled. It would, yes, rip away health care from 24 million people. It would reduce benefits, make families pay more for less, and transfer $600 billion in tax cuts to the very wealthy. This is outrageous.

Access to women’s health is denied by defunding Planned Parenthood. Medicaid, as we know it, will end. Healthcare costs for working families and seniors will skyrocket. And now it eliminates essential health benefits like maternity, mental health, and emergency care.

This is not a health bill. It is a tax giveaway to the wealthy.

Let me tell you, as a woman of faith, I am appalled and I am saddened by the hypocrisy displayed in this bill by people who say they are religious. I want to remind you—in the Scriptures, the Book of Mark, chapter 12:31, we are reminded to love your neighbor as yourself.

This bill shows disdain for the most vulnerable and would lead to death and destruction and disease for millions of Americans.

I hope Republicans remember to love their neighbor as themselves today and vote “no” on this mean-spirited bill. Let’s defeat this harmful and morally bankrupt bill. This is a matter of life and death, and the American people deserve better.

Two years ago, I had a cancer diagnosis and was warned that I would likely die. Thanks to ObamaCare, I’ve been able to rest easier knowing that my illness wouldn’t bankrupt my family and that I’ll be able to provide for my children.

I also heard from a young woman named Sarah Adkins. She suffers from chronic kidney disease. Sarah was able to get health insurance because of the ACA. On January 9, 2011, it saved her life. She hopes to get transplanted, but she has shut down and almost went septic. If she didn’t have coverage, she would have waited or not gone to the hospital at all. The doctor told her that if she had arrived at the ER an hour later; she would have died.

Mr. Speaker, I urge my colleagues to oppose this legislation, and I reserve the balance of my time.
continued commitment to universal health coverage."

This constituent is the Republican Governor of Massachusetts, who knows that TrumpCare destroys our ability to ensure access to quality, affordable healthcare coverage.

Another Republican in my State, Governor Mitt Romney, worked with the Democratic legislature to create the Nation’s first system to provide affordable, comprehensive health care. RomneyCare wasn’t perfect, but Republicans and Democrats worked together to improve it, and they created a system with higher approval ratings than TrumpCare or even ObamaCare.

We can do this. Affordable care should not be partisan. It should be about investing in our people, in our families, and in our future so that Americans can live healthy, productive lives. But that is not what this Republican TrumpCare bill does.

Michael is a constituent from Gloucester, the old fishing city. He was prescribed OxyContin by his doctors, and then became addicted. But he was able to enter a treatment program through Medicaid, the kind of program that will be cut by TrumpCare. He is now back at work as an electrician, and he says that the Affordable Care Act saved his life.

I am a veteran, and I get my health care at the VA. Sometimes it takes me weeks to get an appointment. If this Republican bill passes, it will throw 8 million veterans off private health care, pull them into the VA, and creating even longer wait times. That is no way to treat those who have put their lives on the line for our country.

Perhaps it’s no surprise that this bill is being jammed down the throats of Congress and the American people like a dead fish.

Nobody wants it and it will make a lot of people sick.

What we should be doing here in Washington is coming together as Republicans and Democrats to open, honest debate, and improve the health care system.

Everyone says Congress doesn’t work—don’t prove them right.

I urge my colleagues to vote no on this terrible bill and instead come to the table like we did in Massachusetts.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota (Mr. LEWIS), who is a distinguished member of the Budget Committee.

Mr. LEWIS of Minnesota. Mr. Speaker, I rise today in support of the American Health Care Act, and I ask the other side: Just what is it you are trying to preserve by voting “no”?

Premiums rising double digits for years for the last 7 years? In my home State of Minnesota, back-to-back premium increases of 50 to 67 percent?

Young, healthy people being priced out of the insurance market, 8 million in 2014, choosing to pay the penalty instead of buying insurance?

That is the genesis of the death spiral in the insurance markets. That is what this bill is trying to correct.

Deductibles, copays—I had a deductible on my own individual policy, a skyrocketing deductible. There are deductibles of $13,000. That is not health care. That is not even access.

Drug formularies being tightened to save money, so people are denied pre-scriptions and they take the drug tax; thousands of Minnesotans losing their plans, 100,000 when a big insurer dropped out; 1,000 counties with one insurer—that is what you are trying to preserve on the other side, people voting “no” on this bill.

Emergency State legislation trying to prop up MNSure in my home State because it is failing, and $1 trillion in taxes and spending that is bankrupting the country—that is what the other side is trying to preserve.

Those voting “no” on this bill, we have a choice today. You can embrace the status quo and see the markets spiral out of control completely, or you can vote for change and do the right thing.

Mr. YARMUTH. Mr. Speaker, I remind my colleague that his vote for this bill will result in 50,200 people from his congressional district in Minnesota losing health coverage and care.

I yield 2 minutes to the gentleman from New York (Mr. JEFFRIES), a distinguished member of the Budget Committee.

Mr. JEFFRIES. Mr. Speaker, the Trump Presidency has been characterized by the exact phrase, and this Republican healthcare debacle has been no different.

The American people clearly understand that TrumpCare will be an unmitigated disaster. Under TrumpCare, working families will pay more and get less. Under TrumpCare, premiums will increase. Under TrumpCare, copays will increase. Under TrumpCare, deductibles will increase. Under TrumpCare, out-of-pocket expenses will increase.

Under TrumpCare, 24 million hard-working Americans will lose their health coverage. Under TrumpCare, individuals between the age of 50 and 64 will pay a regressive age tax.

Health care is a matter of life and death; that is why we take it so seriously. TrumpCare will lead to increased death, disease, and destitution, and that is why we oppose this horrible piece of legislation.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. ARRINGTON) who is a member of the Budget Committee.

Mr. ARRINGTON. Mr. Speaker, ObamaCare’s disastrous effects over the last several years have wreaked havoc on our small businesses, broken the backs of middle and working class families, and have had a disproportionately negative impact on rural America. Those are the folks who I represent in west Texas.

While the current bill before us is far from perfect—and let’s be honest, there is no such thing as perfect legislation—it reverses course and takes us in the right direction. It repeals the mandates and restores freedom to individuals and markets.

It repeals about $1 trillion of taxes. It reduces deficit spending by over $100 billion, making it the largest enterprise tax cut since 1986. It rolls back regulations, gives maximum flexibility to States, and begins to defederalize health care.

For 7 years now, Republicans have promised the American people that if we give them control of the Presidency and the House and the Senate, then we would repeal and replace ObamaCare. And now that we are given the opportunity to govern and to keep our promises and to deliver results for the American people, we can’t let perfection be the enemy of good.

The debate is now closing. We have two choices. We either pass a good imperfect bill, or we leave ObamaCare in place. That is an unacceptable alternative.

As leaders, we have a moral obligation to do something, to not stand idly by while the people suffer under a system that is failing them.

If we are going to restore the greatness of America and transfer power back to the people, we need more than policy solutions, even perfect policy solutions. We need the political will and the courage to lead.

This is a rescue mission, Mr. Speaker, and it isn’t without risk; but I have faith in the President and his team. I have faith in our States and the free markets, and, above all, Mr. Speaker, I have faith in the American people.

Mr. YARMUTH. Mr. Speaker, I remind my colleague that his vote for this bill will result in 60,400 people from his congressional district in Texas losing health coverage and care.

I yield 2 minutes to the gentleman from New York (Mr. HIGGINS), a distinguished member of the Budget Committee and the Ways and Means Committee.

Mr. HIGGINS of New York. Mr. Speaker, this never needed to be an ideological fist fight. Democrats were always willing to take into account serious and constructive alternatives to the law that we have today that make it better, to make it affordable, more affordable for the American people.

But this bill is a blatant takeaway from the American people of money back in protection. If you are 50 to 64 years old, you get clobbered. If you are 64 years old, you make $26,000 a year, according to the Republican-led Congressional Budget Office, your premiums go from $1,700 a year to $14,000 a year.

Fact: UnitedHealthcare is one of the largest private health insurers in America.

Fact: UnitedHealthcare will have $200 billion in revenues this year, and they paid their chief executive officer $66 million in compensation in 2014. UnitedHealthcare is under investigation today by the Department of Justice for stealing billions of dollars from the Medicare program.
Fact: The Republican health bill, on page 67, in 7 words, gives UnitedHealthcare, their high-paid executives, and all of their cronies, a massive tax cut to continue to screw the American people.

Mr. Speaker, we can do much better. We are prepared to do much better. But this is a financial assault on good, hardworking Americans who want to do one thing at the end of the day, after paying too much money for health care throughout the year, and that is, we are, for the first time, equalizing the treatment of people who do not have employer-provided health care.

Those of us who have employer-provided health care, 170 million Americans, that is not a taxable event for them anymore. A taxable event where they have to pay tax at the end of the year on the value of that employer-provided health care.

And yet, if you are the person who does not have employer-provided health care, if you are the husband and wife with two kids making 45 or $50,000, and your employer does not provide health care, you receive absolutely no tax subsidy through the Tax Code.

This bill, through the advance refundable tax credits, will, for the first time, give someone the choice to buy health care and give them the opportunity and the means to buy health care that they previously have not had. It is not a markedly important distinction, frankly, from the Affordable Care Act, where you only could buy the health care through an exchange-approved policy.

This policy, under this legislation today, will allow someone the flexibility and the freedom to buy a policy of their choosing, not one dictated by Washington. So that is a fundamental important distinction between the status quo and what this legislation would offer.

Mr. Speaker, and my colleagues, I urge support for the bill. It is not perfect, as we all know, but it is something that is long overdue.

I would also point out that the numbers that my colleague from Kentucky uses are really based upon fantasy. Those numbers are simply incorrect, and the people of our State and our country will have health care under the provisions of this bill, and we will work hard to ensure that they do.

Mr. YARMUTH. Mr. Speaker, I remind my colleagues that his vote for this bill will result in 65,800 people from his congressional district in New York losing health coverage and care.

I yield 2 minutes to the gentlewoman from Florida (Ms. DELBENE), a distinguished member of the Budget Committee.

Ms. DELBENE. Mr. Speaker, if Republicans crafted legislation that lived up to the promise of insurance for everybody, they would have broad bipartisan support. But that is not what they did.

This bill threatens massive disruption and uncertainty to our healthcare system, but to middle class families, families who sit at their kitchen table trying to figure out how to pay their mortgage, buy groceries, and also get health coverage for their kids. This Republican bill does nothing to help them.

In their rush to check a political box, Republicans have crafted legislation that does nothing but hurt working Americans, and, in the last 24 hours, it has gone from bad to worse. Make no mistake, the changes made in the 11th hour to appease the most extreme Members of Congress have put lifesaving care even further out of reach.

Some may use alternative facts, but this is reality, and the reality is that their bill robs $75 billion from Medicare, forces older Americans to pay five times more than others, and shifts $312 billion in out-of-pocket costs onto middle class families.

But this is about more than numbers. It is about people like Rachel from Kirkland, Washington, who suffered a heart attack and blood clot at the age of 35. She now depends on frequent tests, medications and doctors' visits to stay healthy. Thankfully, it is all covered by her insurance.

Rachel told me: "I'm horrified by the talking point that equates repealing the Affordable Care Act with getting freedom back. For me, the loss of the ACA means nothing but the freedom to die sooner and worry more."

I am not voting against this bill because it is a Republican bill. I am voting "no" for families like Rachel's.

Health care doesn't need to be a partisan issue, and I stand ready and willing to work on commonsense solutions that expand coverage and reduce costs. But I was sent here to make my constituents' lives better. This bill does not do that. I encourage my colleagues to vote "no."
Tell that to Suzanne Boyd from Sunrise, Florida, who, with two daughters heading to college, lost her husband to lung cancer and then lost the insurance coverage she had through her employer. Thankfully, she was able to obtain coverage under the ACA for $192 a month with subsidies rather than a 30 percent Republican sick tax for getting a life-threatening illness.

Yet this bill apparently isn’t harmful enough for the far-right extremists in the Republican Party, whom Republican leadership has tried to appease by cutting the ACA essential health benefits like mental health, maternity, and emergency services.

Mr. Speaker, this bill is like taking a sledgehammer to a clock that is moving a little slow rather than working on precision fine tuning instead. It is an immoral piece of legislation. As a breast cancer survivor, I urge every Member to stand with my sister survivors all across the country, who number in the millions, to make sure that you don’t devastate our health and make sure that we don’t have our lives threatened.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. ROKITA), who is the vice chair of the Budget Committee.

Mr. ROKITA. Mr. Speaker, I thank the Chairwoman.

I am really proud, Mr. Speaker, of the Budget Committee. We did great work last week, and everyone was heard: six motions on the Republican side, six motions on the Democratic side, but the vote was civil. Tones weren’t raised; theatrics, by and large, weren’t employed; and we made the bill better. That was the process the week before that when the committees of jurisdiction had this legislation.

It is my hope that, as we pass this bill off the floor of the House—and it is a bill being passed off the floor of the House and not into law right now—and as it goes to the Senate, that the bill will continue to be improved. That is the legislative process.

I am very proud of the members of the staff of the Budget Committee for being a major part of that process and starting that process. We did good work. You don’t have to pass this bill to find out what is in it as we had to with ObamaCare. This process will continue.

I am very pleased, also, that we have Medicaid block grants, or lump sum payments, that are available now to cover at least our able-bodied children and adults. It is a huge step forward in letting States have the flexibility they need to decide who really needs this assistance, how they should get it, and what they should get in terms of healthcare.

This is good legislation. This is what we were sent to do, and we are keeping our promises to the American people by passing this legislation.

Mr. Speaker, I urge all my colleagues to vote “yes.”

Mr. YARmuth. Mr. Speaker, I remind my colleagues from Indiana that his vote for this bill will result in 37,900 people from his congressional district losing health coverage and care.

Mr. Speaker, I yield 1½ minutes to the gentleman from Pennsylvania (Mr. BREndan F. BOyle), who is a distinguished member of the Budget Committee.

Mr. BREndan F. BOyle of Pennsylvania. Mr. Speaker, I rise today in opposition to TrumpCare, the Republican plan to cut Medicare and Medicaid, increase healthcare costs, and take healthcare away from tens of millions of Americans, all while providing the largest transfer of wealth from working families to our Nation’s richest, and all of this in the name of choice and freedom. But we all know that, under this bill, that is just code for survival of the fittest, economic Darwinism.

Mr. Speaker, let me bring this a little closer to home for me. Thanks to TrumpCare, 36,700 of my constituents are facing the ACA Medicaid expansion now stand to lose this lifesaving coverage. Here is one of them, constituent Maura McGrath, a 17-year-old with Down syndrome.

Maura’s parents, Joe and Rita, know firsthand why Medicaid is so important. Medicaid has been critical to keeping their daughter alive and saving their family from bankruptcy. Even though Joe and Rita both work, the cost of Maura’s care is too expensive to bear. Any mention that Rita is a breast cancer survivor and Joe suffers from Parkinson’s disease Medicaid provides the McGraths peace of mind knowing Maura will receive the care that she needs and they aren’t alone to fend for themselves, given the tough hand they have been dealt.

Mr. Speaker, for Maura and everyone in my district, say “no” to TrumpCare.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana (Mr. HIGGINS).

Mr. Higgins of Louisiana. Mr. Speaker, I rise unscripted and in passionate support of freedom. I have heard many statements with words like “fact” and details of the minutia of these plans. I will share with you a fact.

Two hundred years ago, my ancestral forefather was born. He was a young, poor Irishman born into indentured servitude. He never was born on a land, born across the sea, a land where a man could own his own property, a land where a man could keep the toil of his labor. So he garnered his courage, he saved his money, and he booked passage on a cargo vessel converted to carry human beings. According to the letter unearthed by my sainted mother, his sleeping berth measured 2 by 2 by 5.

What could have driven my ancestral forefather—and yours, Mr. Speaker—to indeed, all of America? What drove our ancestral forefathers to come to this land? Freedom. Freedom drove us, and it is freedom for which I stand.

The Affordable Care Act, known as ObamaCare, is 8,000 pages—8,000 pages—of regulation and taxation. There is not a man or a woman amongst us, from sea to shining sea, who believes this body can produce the cost of freedom. The American Health Care Act is 124 pages of reasonable legislation based upon the best input of free market principles.

A vote against the American Health Care Act is a vote against freedom. It is a vote against 124 pages of reasonable legislation, as well as a vote for 8,000 pages of ObamaCare.

Mr. Speaker, I urge my colleagues to vote “yes” for the American Health Care Act.

Mr. Yarmuth. Mr. Speaker, I remind my colleagues that the gentleman’s vote for this bill will result in 50,100 people from his congressional district in Louisiana losing health coverage and care.

Mr. Speaker, I yield 1½ minutes to the gentlewoman from Washington (Ms. Jayapal), who is the distinguished vice ranking member of the Budget Committee.

Ms. Jayapal. Mr. Speaker, I thank the distinguished gentleman for yielding and for his tremendous leadership.

Mr. Speaker, this reckless Republican plan is a betrayal of the American people. How is it a betrayal?

Callously stripping 24 million people of health care is a betrayal.

Putting an age tax on people aged 50 to 64 who will pay up to $14,000 more in annual premiums is a betrayal.

Cutting essential benefits like maternity care, prescription drug coverage, emergency services, and fundamentally destroying protections for Americans with preexisting conditions is a betrayal.

Slashing Medicaid by $380 billion and stripping the safety net for our seniors, our kids, and people with disabilities is a betrayal.

The burden of all of this, Mr. Speaker, will fall on the States, who will have to come up with billions of dollars.

Mr. Speaker, this bill is not about freedom or choice. This bill is a travesty, and the American people will pay the price.

This is not a healthcare bill. The only people who benefit are millionaires, billionaires, and insurance companies, who will get $1 trillion in tax benefits while working Americans pay more and get nothing.

Mr. Speaker, this bill is pure greed, and real people will suffer and die from it. Vote “no,” and protect our care.

Mrs. Black. Mr. Speaker, I yield myself such time as I may consume. I want to recognize that our Members on the other side of the aisle are sharing some data on the coverage of per congressional district based on a study that was conducted by the Center for American Progress, which is a left-leaning organization to begin with. The Center for American Progress employs a flawed methodology for estimating this coverage. In
fact, their foundational numbers are actually based on CBO’s coverage estimates, estimates that the CBO itself has established are not infallible.

These coverage numbers only take into account plans that they consider comprehensive for medical policies. This is a term that is used in the very law that we are trying to dismantle today. These coverage estimates do not account for things that we have in our bill, such as HSA plans that allow purchase with tax credits, and many medical policies.

So the AHCA increases freedom for Americans to purchase the kind of coverage that works for them, not the narrowly defined coverage that we see that the Federal Government likes.

Mr. Speaker, I yield 1 1/2 minutes to the gentleman from California (Mr. McCLINTOCK), who is a member of our committee.

Mr. McCLINTOCK. Mr. Speaker, I simply want to underscore what the chairman has already laid out. When my friend from Kentucky says that his constituents will lose coverage, he is basing it on two premises. He is ignoring the $90 billion of additional funds that we freed up in the Budget Control Act to assure that nobody will face sticker shock as we make this transition.

Second, he assumes that the only reason that people buy insurance is if we force them to buy it. The reality is many are refusing to buy Obamacare policies even when they are faced with these crushing tax policies. The AHCA replaces this heavy-handed and failing bureaucratic nightmare.

Ultimately, we are going to be judged not on polls or fairy tales, but on whether the vast majority of Americans have a better experience with this new consumer-driven market than they had with the bureaucratized, one-size-fits-all ObamaCare system. That system was unbalanced, weighed against the American people, and I am here to stake my reputation on the prediction that they will find better policies with better services at lower costs when they are reformed the freedom to be consumers in a marketplace with a supportive tax structure that assures that these policies are within the financial reach of every American family.

Mr. YARMUTH. Mr. Speaker, I remind my colleague that his vote for this bill will result in 38,200 people from his congressional district in California losing health care and care. Mr. Speaker, I yield 1 1/2 minutes to the gentleman from California (Mr. CARBAJAL), who is a distinguished member of the Budget Committee.

Mr. CARBAJAL. Mr. Speaker, before I came to Congress, I worked in local government as a county supervisor. One of my proudest achievements during that time was working in a bipartisan way to create a program that reduced the rate of uninsured children in our county by over 90 percent—all because the Affordable Care Act was signed into law. Since the Affordable Care Act, I saw firsthand the direct and positive impact of this legislation over the past 7 years to communities and families across the central coast.

The AHCA does not mean that Sarah, from Buellton, now could open her small business and afford insurance coverage for her two children. It meant that Kathleen, in San Luis Obispo, who was diagnosed with ovarian and breast cancer, that her $500,000 medical bill was covered by her healthcare plan. It meant that Adrienne, from Buelton, now could afford to pay for her husband’s nursing facility, as his debilitating disease prevents her from being able to physically care for him.

Repealing legislation that has improved the quality of life not only for Sarah, Kathleen, and Adrienne, but for the over 20 million Americans who have gained coverage under the Affordable Care Act, would be callous, cruel, and irresponsible.

Instead of taking away health care from 24 million Americans, let’s work together to create a more equitable, affordable, and accessible healthcare system for all.

Mrs. BLACK. Mr. Speaker, I yield 1 minute to the gentleman from South Carolina (Mr. SANFORD).

Mr. SANFORD. Mr. Speaker, I want to make clear that I agree with what every Republican speaker has said thus far on the need to repeal and replace the Affordable Care Act. I want to say how much I admire the Speaker and the leadership team, President Trump and his team, Chairwoman Black, and others on the Budget Committee for what they have brought to bear.

My simple question is one of timing. What I tell my boys consistently is: If you don’t know, you don’t go.

One of the things that I think we have to realize is that this bill is one of process. It does do a lot of good things, as has been pointed out by the Republican speakers, but it still leaves in place community rating. It leaves in place the architecture, I think, of a flawed bill that came with the Affordable Care Act.

The question is: Can we build on top of that to do the very good things that are talked about in this bill, or do we take just a little bit more time to make certain that it’s right?

I think that when you look at this notion of lowering premiums, look at it like rent control in New York. Rent control in New York has done a lot of good for some folks, but it has hurt a lot of others.

The question we fundamentally have to ask ourselves is: At this juncture, can we make the changes necessary? Mr. YARMUTH. Mr. Speaker, I mention to my colleague that his vote against this bill will result in 56,600 people from his congressional district in South Carolina losing health coverage and care.

Mr. Speaker, I yield 1 1/2 minutes to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Speaker, I thank the distinguished gentleman of the Budget Committee for his leadership.

Our mothers and our doctors have warned us about poison pills. Well, let me say that, this morning, the Republicans are giving to the American people a poison meal that would affect my friend, the senior citizen, with $175 billion taken away from Medicare; a poison meal that will affect a young child who is being seen by a doctor.

The Children’s Hospital Association, including the Texas Children’s Hospital, has said to vote “no” on this bill because 30 million children will have no health insurance.

This will impact working families making $31,000 a year. They will have to pay $4,000 more out of pocket. In 2026, under pay more for less, $32 million Americans will be uninsured.

This poison meal is getting worse and worse.

Then, in the dark of night, what did they do?

They took away hospitalization. They took away pregnancy, maternity, and newborn care. They took away mental health and substance abuse care.

Those States that are experiencing the opioid abuse and epidemic, what are they going to do?

They have threatened community health centers. They are closing rural hospitals.

What is this disaster of TrumpCare?

It is injuring my good friend who is sitting there in the hospital room. It is injuring Anna Nunez. It is injuring small businesses who say that they can live better under the Affordable Care Act, and the youngster that is a junior in college who said she would not be able to pay her tuition had it not been for the Affordable Care Act.

More than half of the American people—and it is growing—are against this bill done in the dark of night. It is the poison meal that is keeping those who need health insurance away from health insurance.

I ask my colleagues to vote “no.” Don’t feed the American people a poison meal.

Mr. Speaker, as a member of the Budget Committee and the representative of a congressional district that has benefited enormously from the Affordable Care Act, I rise in strong and unyielding opposition to H.R. 1628, the so-called “American Health Care Act,” which more accurately should be called “Trumpcare, the Pay More For Less Act.”

Seven years ago yesterday, March 23, 2010, President Barack Obama signed into law the landmark Affordable Care Act passed by the Democratic controlled 111th Congress.

Seven years later, the verdict is in on the Affordable Care Act; the American people have judged it a success and are unanimously opposed to any effort to repeal a law that has brought to more than 20 million Americans the peace of mind and security that comes with...
knowing they have access to affordable, high quality health care.

Before the passage of the Affordable Care Act, 17.1 of Americans lacked health insurance; today nearly nine of ten (89.1%) are insured, which is the highest rate since Gallup began tracking health care coverage in years.

Because of the Affordable Healthcare Act:
1. insurance companies are banned from discriminating against anyone, including 17 million children, with a preexisting condition, or charging higher rates based on gender or health status;
2. 6.6 million young-adults up to age 26 can stay on their parents’ health insurance plans;
3. 100 million Americans no longer have annual or life-time limits on healthcare coverage;
4. 4.3 million seniors in the “donut hole” have saved $6.1 billion on their prescription drugs;
5. 3.2 million seniors now get free annual wellness visits under Medicare, and
6. 360,000 Small Businesses are using the Healthcare Tax Credit to help them provide health insurance to their workers;
7. Pregnancy is no longer a pre-existing condition and women can no longer be charged a higher rate just because they are women.

We are becoming a nation of equals when it comes to access to affordable healthcare insurance.

The President and congressional Republicans call this enviable record of success a “disaster.”

The American people do not agree and that is why they reject overwhelmingly (56%–17%) this Republican attempt to repeal the Affordable Care Act according to the latest Quinnipiac poll.

America is not a disaster when they see one and they see one in the making: it is called “Trumpcare,” masquerading as the “American Health Care Act,” which will force Americans to “pay more for less.”

And they are right to be alarmed at what they see.

This “Pay-More-For-Less” bill is a massive $900 billion tax cut for the wealthy, paid for on the backs of America’s seniors, the vulnerable, the poor, and working class households.

This “reverse” bill is unprecedented and breathtaking in its audacity—no bill ever tried to give so much to the rich while taking so much from the poor and working class.

Trumpcare represents the largest transfer of wealth from the bottom 99% to the top 1% in American history.

This callous Republican scheme gives gigantic tax cuts to the rich, and pays for it by taking insurance away from 24 million people, leaving 52 million uninsured, and raising costs for the poor and middle class.

In addition, Republicans are giving the pharmaceutical industry a big tax repeal, worth nearly $25 billion over a decade without demanding in return any reduction in the cost of prescription and brand-name drugs.

To paraphrase Winston Churchill, if this bill, it can truly be said that “never has so much been taken from so many to benefit so few.”

The Pay-More-For-Less plan destroys the Medicaid program under the cover of repealing the Affordable Care Act Medicaid expansion.

CBO estimates 14 million Americans will lose Medicaid coverage by 2026 under the Republican plan.

In addition to terminating the ACA Medicaid expansion, the bill converts Medicaid to a per-capita cap that is not guaranteed to keep pace with health costs starting in 2020.

The combined effect of these policies is to slash $880 billion in federal Medicaid funding over the next decade.

The cuts get deeper with each passing year, reaching 25% of Medicaid spending in 2026.

These steep cuts will force states to drop people from Medicaid entirely or ration care for those who most need access to comprehensive coverage.

The Pay-More-For-Less plan undermines the health care safety net for vulnerable populations.

Currently, Medicaid provides coverage to more than 70 million Americans, including children, pregnant women, seniors in Medicare, people who are too disabled to work, and parents struggling to get by on poverty-level wages.

In addition to doctor and hospital visits, Medicaid covers long-term services like nursing homes and home and community-based services that allow people with chronic health conditions and disabilities to live independently.

To date, 31 states and D. C. have expanded Medicaid eligibility to low-income adults, which, when combined with the ACA’s other provisions, has helped to reduce the nation’s uninsured rate to the lowest in history.

Trumpcare throws 24 million Americans off their health insurance by 2026 according to the Congressional Budget Office.

Low-income people will be hit especially hard because 14 million people will lose access to Medicaid by 2026 according to CBO.

Trumpcare massively shifts who gets insured in the nongroup market.

According to CBO, “fewer lower-income people would obtain coverage through the nongroup market under the legislation than current law,” and, “a larger share of enrollees in the nongroup market would be younger people and a smaller share would be older people.”

The projected 10% reduction in premiums is not the result of better care or efficiency—it is in large part the result of higher-cost and older people being pushed out of a market that is also selling plans that provide less financial protection.

People with low incomes suffer the greatest losses in coverage.

CBO projects the uninsured rate for people in their 30s and 40s with incomes below 200% of poverty will reach 38% in 2026 under this bill, nearly twice the rate projected under current law.

Among people aged 50–64, CBO projects 30% of those with incomes below 200% of poverty will be uninsured in 2026.

Under current law, CBO projects the uninsured rate would only be 12 percent.

Being uninsured is not about “freedom.” Speaker Ryan has argued that people will happily forego insurance coverage because this bill gives them that “freedom.”

The argument makes as much sense as the foolish claim that slaves came to America as “immigrants” seeking a better life.

The freedom to be uninsured is no freedom at all to people in their 50s and 60s with modest incomes who simply cannot afford to pay thousands of dollars toward premiums.

They do not really have a choice.

The claim of our Republican friends that Trumpcare provides more freedom to all Americans calls to mind the words of Anatole France:

“The law, in its majestic equality, forbids the rich as well as the poor to sleep under bridges; to lie in the streets and to steal bread from the market.”

Trumpcare raises costs for Americans nearing retirement, essentially imposing an “Age Tax.”

The bill allows insurance companies to charge older enrollees higher premiums than allowed under current law, while reducing the size of premium tax credits provided.

Again, these changes hit low-income older persons the hardest.

A 64-year-old with an income of $26,500 buying coverage in the individual market will pay $12,900 more toward their premiums in 2026, on average.

Trumpcare raises costs for individuals and families with modest incomes, particularly older Americans.

A recent analysis found that in 2020, individuals with incomes of about $31,000 would pay on average $4,000 more out of pocket for health care—which is like getting a 13% pay cut.

And the older you are, the worse it gets.

An analysis by the Urban Institute estimates that for Americans in their 50s and 60s, the tax credits alone would only be sufficient to buy plans with major holes in them, such as a $30,000 deductible for family coverage and no coverage at all of brand-name drugs or many therapy services.

Another reason I oppose the Trumpcare bill before us is because its draconian cuts in Medicaid funding and phase-out of Medicaid expansion put community health centers at risk.

Community health centers are consumer-driven and patient-centered organizations that serve as a comprehensive and cost effective primary health care option for America’s most underserved communities.

Community health centers serve as the health care home for more than 25 million patients in nearly 10,000 communities across the country.

Across the country, 550 new clinics have opened to receive 5 million new patients since 2009.

Community health centers serve everyone regardless of ability to pay or insurance status:
1. 71% of health center patients have incomes at or below 100% of poverty and 92% have incomes less than 200% of poverty;
2. 49% of health center patients are on Medicaid; and
3. 24% are uninsured.

Community health centers reduce health care costs and produce savings—on average, health centers save 24% per Medicaid patient when compared to other providers.

Community health centers integrate critical medical and social services such as oral health, mental health, substance abuse, case management, and translation, under one roof.
Community health centers employ nearly 190,000 people and generate over $45 billion in total economic activity in some of the nation’s most distressed communities.

Community health centers serve on the front lines of public health crises, from pandemics to care (and employment) to veterans to responding to public health threats like the Zika virus.

We should be providing more support and funding to community health centers, not making it more difficult for them to serve the communities that desperately need them by slashing Medicaid funding.

Trumcare Republican plan leaves rural middle class worse off.

Mr. Speaker, health insurance has historically been more expensive in rural areas because services cost more and it is hard to have a stable individual market with a small population.

Under the Affordable Care Act, premium subsidies are tied to local costs, which helps keep premium costs down. But they are not under the Republican plan.

So, under the Republican plan residents in rural areas, who tend to be older and poorer, will pay much more and get much less health insurance.

At the end of the day, Mr. Speaker, the powerful and compelling reasons to reject Trumcare lies in the real world experiences of the American people.

Let me briefly share with you the positive, life-affirming difference made by the Affordable Care Act in the lives of just three of the millions of Americans it has helped.

Joan Fanwicks: “If Obamacare is repealed, I don’t know if I’ll live to see the next President”

“After nearly a decade of mysterious health scares, I was diagnosed with an autoimmune disorder called Sjogren’s Syndrome last year, when I was a junior at Temple University.

“It’s a chronic illness with no known cause or cure, and without close medical surveillance and care, it can lead to life-threatening complications (like the blood infections I frequently experience).

“For me, having this disorder means waking up every morning and taking 10 different medications.

“It also means a nurse visiting my apartment every Saturday to insert a needle into the port in my chest, so I can give myself IV fluids throughout the week.

“Without insurance, my medical expenses would cost me about $1,000 per week—more than $50,000 per year. And that doesn’t even include hospitalizations.

“My medical bills aren’t cheap under Obamacare, but I can afford them.

“Under Obamacare, insurance companies aren’t allowed to cut you off when your costs climb so right now, the most I personally have to pay out of pocket is $1,000 per year.”

Brian Norgaard: “I am a small business owner and leadership trainer who Obamacare has helped tremendously.”

Brian Norgaard, a Dallas, Texas resident, called my office to express his opposition to Trumcare and to offer share how the Affordable Care Act has helped small business owners like himself:

“I am a small business owner and leadership trainer who Obamacare has helped tremendously.

“My wife and I both own small businesses in the Dallas, Texas area and as a result of the huge savings we received after paying lower [healthcare] premiums under Obamacare, we were able to reinvest those savings into both of our businesses and the community.

“And the healthcare we received was quality, at that.”

Ashley Walton: “For cancer survivors, we literally live and die by insurance”

Ashley Walton was 25 when a mole on her back turned out to be melanoma.

She had it removed, but three years later she discovered a lump in her abdomen.

She was then unemployed and uninsured, and so she put off going to a doctor.

She tried to buy health insurance.

Every company rejected her.

Ashley eventually became eligible for California’s Medicaid program, which had been expanded under the Affordable Care Act.

The 32-year-old Oakland resident credits her survival to the ACA.

Without it, “I would likely be dead, and my family would likely be bankrupt from trying to save me.”

Before any of our Republican colleagues supporting this bill cast their vote, I urge them to reflect on the testimony of Joanne, and Ashley, and to vote on this question posed by a constituent to Sen. CORRINTON of Arkansas at a recent town hall:

“I’ve got a husband dying and we can’t afford—let me tell you something.

“If you can get us better coverage than this [Obamacare], go for it.

“Let me tell you what we have, plus a lot of benefits that we need.

“We have $39 for me.”

“We have $29 per month for my husband. Can you beat that?”

With all the congestive heart failures, and open heart surgeries, we’re trying. $29 per month. And he’s a hard worker.

$39 for me.

I urge all Members to reject Trumcare, one of the most monstrosely cruel and morally bankrupt legislative proposals ever to be considered in this chamber.

To paraphrase a famous former reality television personality, “believe me, Trumcare is a disaster.”

We should reject it and keep instead “something terrific” and that is the Affordable Care Act, regarded lovingly by millions of Americans as “Obamacare.”
If this bill doesn’t pass, we won’t be able to stop the bleeding on Medicaid funding. We are approaching a $20 trillion debt. Of course, the bulk of that spiraling debt is caused by mandatory spending, of which Medicaid is one of the worst culprits.

Finally, for the first time in years, we are passing a law that will make a significant dent in that mandatory spending. If this bill isn’t passed, we continue to fund Obamacare. I think this is the best bill in decades for those of us who wish we would stop funding these organizations.

We are providing assistance for people who can’t get insurance through their employer. It is high time the Tax Code provided equality for people who get insurance from their employer and those who don’t.

Finally, if we don’t pass this bill, we don’t end Obamacare.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey, who is a physician.

Mr. MARSHALL. Mr. Speaker, I yield an additional 30 seconds to the gentleman.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Illinois, who is a distinguished member of the Budget Committee and the Energy and Commerce Committee.

Ms. SCHAKOWSKY. Mr. Speaker, I remind my colleagues in both parties that the ObamaCare bill has already been passed. We are repealing it. We are providing assistance for people who can’t get insurance through their employer. It is high time the Tax Code provided equality for people who get insurance from their employer and those who don’t.

Finally, if we don’t pass this bill, we don’t end Obamacare.

Mr. YARMUTH. Mr. Speaker, I remind my colleagues that this bill will result in 44,600 people going without insurance companies remaining in the State of Tennessee, there are 14 counties where they will have no insurance provider on the marketplace. So when we talk about people losing their insurance, they are losing their insurance by not having access to even purchase the insurance.

One of my former colleagues, the gentleman from Minnesota, asked: What are my colleagues on the other side of the aisle trying to preserve?

I want to point to this chart here to ask that question, because these are the broken promises of Obamacare. Why are you trying to preserve something where they say premiums will decrease by $2,500, and we see the average family premiums have soared by $4,300, making insurance unaffordable for many families?

Another broken promise: the cost of health care will go down. We see some deductibles that have gone up as much as 60 percent. In my own State, they have gone up by 63 percent. Why are you trying to preserve something where the premiums will decrease by $2,500, and we see the average family premiums have soared by $4,300, making insurance unaffordable for many families?

We are not the only ones opposing this legislation. It is opposed by an amazing array of American organizations and individuals, including the American Medical Association, the American Hospital Association, the American Nurses Association, the National Rural Health Association, AARP, the National Disability Rights Network, the American Diabetes Association, American Cancer Society, and Easterseals, virtually every healthcare provider and consumer group, Governors from both sides of the aisle, and a growing list of our Republican colleagues.

Mr. Speaker, I thank the Budget Committee staff for the incredible job they have done throughout this process.

Mr. Speaker, I reserve the balance of my time, and I ask unanimous consent that the gentleman from New Jersey, chairman of the Energy and Commerce Committee, control the balance of my time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

Mrs. BLACK. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to remind my fellow colleagues that, currently, when we look at the access to care for people, one-third of our counties only have one provider; two-thirds of our counties only have two providers. In my State of Tennessee, there are 14 counties where they will have no insurance provider on the marketplace. So when we talk about people losing their insurance, they are losing their insurance by not having access to even purchase the insurance.

We are not the only ones opposing this legislation. Why are you trying to preserve something where the premiums will decrease by $2,500, and we see the average family premiums have soared by $4,300, making insurance unaffordable for many families?
Want a system that is going to be open with patient care and give affordability so people can get the services that they want with a cost that they can afford.

I also thank the Budget Committee for the work that they have done, and all the staff that have worked endless hours to make this possible for this to be here on the floor today.

Mr. Speaker, I yield 30 minutes to the gentleman from Oregon (Mr. WALDEN), and I ask unanimous consent that he may control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. WALDEN. Mr. Speaker, I yield myself such time as I may consume.

After 7 years, we have heard the stories of our constituents, patients, friends, and family who have suffered under ObamaCare. We have heard from those who have benefited in some respects.

I think of the struggles of constituents like Indra from Bend, Oregon. She lost her private insurance and her preferred doctor. When she went to look for a new plan under ObamaCare, she found the plans were too expensive, and she was uninsured for almost 2 years. See, her story should not be lost in this debate either.

Then there is April. Last fall, she found out her insurer would not be offering her plan this year. The most comparable plan available would raise her monthly premium by $564 per month, bringing her total monthly premium to $1,531. This was before Humana pulled out and other companies said they would not offer her plan this year. The most comparable plan available would raise her monthly premium by $564 per month, bringing her total monthly premium to $1,531.

You see, there is a whole other group of Americans out there who are suffering these effects of ObamaCare. The American Health Care Act represents a better way for patients like Indra and April all across our country. Our plan will rescue and revitalize the market and lower costs and increase flexibility for patients to choose. They will have more choices for health care and keep a health insurance plan that works for them and for their family.

This legislation creates the Patient and State Stability Fund. Now, this is an innovative approach to give States the financing and flexibility to repair the damage done to the insurance markets by ObamaCare and meet the unique needs of their citizens. More importantly, we provide an additional $15 billion. Mr. Speaker, to States devoted for maternity coverage. We heard from people who said we need to do more in this area: newborn care, mental health, and substance disorders.

We are also taking action to strengthen Medicaid. We want to put Medicaid on a sustainable path so it can better care for those it was intended to serve, a path through this per capita program for States that, frankly, was embraced by Democrats, including President Clinton.

The most vulnerable in our communities need this help. It represents the most substantive reform to the Medicaid program since its creation and will restore power to our States and local communities and governments where they can make better decisions than one-size-fits-all here in Washington. We want to give our States more control over those people that they are closest to.

In closing, I want to thank our colleagues and the President of the United States and the Vice President and Secretary Price. They have worked day in and day out without hesitation, to help get to the best policy possible here and to work and listen to our colleagues, as we have all done, to craft the best bill we can, given the constraints under which we must operate.

The end result highlights the diverse ideas of our Conference that come from the American people and the determination that we share to save this market and make it work again.

Remember, Remembe...
The ACA ensured that, when a consumer purchased health insurance on the individual market or gained coverage through Medicaid expansion, their plan would cover 10 critical, essential benefits. “TrumpCare” eliminates this guarantee, meaning that unscrupulous insurance companies can sell skeletal plans, junk insurance, without benefits for hospitalization, maternity care, mental health, drug treatment services, and Americans won’t even know what they are getting. They won’t realize that they have worthless insurance until they get sick and it is too late.

The bottom line is this bill should be defeated for so many reasons because so many more people will not have health insurance, because their costs are going to go up, and because they won’t even know what insurance they are buying. We are going go back to the old days of the Wild West when insurance companies could sell whatever junk plans they want and the public won’t even know what they are getting. It is a disaster for the American people.

I urge my colleagues to vote “no,” and I reserve the balance of my time.

Mr. Speaker, I yield myself 20 seconds.

The irony of that argument is it was just a year or so ago that every Member of this House who was here at the time and the Senate, by a unanimous vote, agreed to waive the essential benefits he just listed off for the employment market between 51 and 100—and, by the way, those essential benefits don’t apply to the large group market—so this has already been done.

I yield 1½ minutes to the gentleman from Texas (Mr. BARTON), the vice chairman of the full committee.

Mr. BARTON. Mr. Speaker, I supported this bill when it came out of the Energy and Commerce Committee 2 or 3 weeks ago. I want to thank Chairman WALDEN for his excellent leadership.

As he knows, I have some concerns about the bill at the time. I didn’t think it addressed all the problems that we needed to address.

At the start of this week, I was a “no” vote—a friendly “no” vote, but I was a “no” vote. Our Republican leadership in the House and the President and his senior advisers continued to involve us in constructive discussions with people like myself. Yesterday they agreed to put back in the repeal of the essential health benefits provision, and that is a big win for conservative values, so I am now a “yes” vote.

My friends on the left seem to think the only way to get a benefit is to have the Federal Government mandate it and then have the Federal Government pay for it. I am here to tell you, Mr. Speaker, that markets work. If we create a healthcare market where people can choose their insurance that fits their needs, there will be plans that provide for every so-called essential health benefit. But there will also be plans that provide for specific markets of young people without children or elderly couples or whatever it is.

Mr. Speaker, markets work, and you don’t have to mandate benefits for those markets.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. WALDEN. Mr. Speaker, I yield an additional 15 seconds to the gentleman from Texas.

Mr. BARTON. Mr. Speaker, we always want to score a touchdown. Sometimes we take a field goal. What we don’t want to do today is take a safety.

Vote for this bill. Let’s send it to the other body and continue to work to improve it. It is a good bill. Please vote “yes.”

Mr. PALLONE. Mr. Speaker, I remind my colleagues that, in Mr. Barton’s case, his vote for this bill will result in 64,900 people from his congressional district in Texas losing health coverage.

I yield 2 minutes to the gentlewoman from California (Ms. ESHOO).

Ms. ESHOO. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, American people are very smart. They listen up. They kind of knit their eyebrows together. They listen to the debate. They want the facts, and then they make up their mind. What our colleagues on the other side of the aisle have brought forward today is a disaster for the American people, and the American people know it.

You have 17 percent of the American people that are for your plan, and the reason why? They know there are going to be higher costs. Families are going to have to pay more and get less—pay more for their premiums, more for their deductibles, and more in their out-of-pocket costs.

You are taking health care away from 24 million Americans. That is more than the entire population of Australia. Who comes to Congress to hurt people?

The promise of the Affordable Care Act was no one—no one ever again—will be able to take away your insurance the way the insurance companies did 7-plus years ago. Now it is only the Republican Party that can take away Americans’ insurance.

There isn’t one developed country in the world that has your plan. It is a combination of all kinds of things to get votes.

What free markets? What are you talking about? There is hypocrisy here because you all have the Affordable Care Act insurance. Every single Member of Congress does. So I guess it is good enough for you but it is not good enough for your constituents.

This is a matter of life and death. You are playing with people’s lives. It is a profound issue. This doesn’t deserve one vote in the House of Representatives.

The SPEAKER pro tempore. The Chair would remind all Members to direct their remarks to the Chair.

Mr. WALDEN. Mr. Speaker, I yield myself 10 seconds before I yield to the gentleman from Michigan.

I would just suggest that the American people are very smart. Unfortunately, under ObamaCare, 19.2 million Americans said: I am not going to buy ObamaCare. I am going to pay a penalty to the IRS instead.

You see, we are trying to fix it so they will want to buy it.

I yield 2 minutes to the gentlewoman from Michigan (Ms. ESHOO).

Ms. ESHOO. Mr. Speaker, you know, there is an old Upton family quote that my grandfather would always say: Was you always perfect? No, none of us are. And you know what? This is not a perfect bill. That is for sure. But ObamaCare is broken. One out of three counties has only one provider, and it looks like it is going to get worse as other major insurance companies are on the verge of pulling the plug.

Nearly two dozen of the nonprofit CO-OPS have already gone belly up. In my home State, folks saw their premiums increase by nearly 17 percent. Some States have had premium increases of more than 100 percent. Most had double-digit increases, many over 20 percent, and some forecast 40 to 50 percent increases come fall if nothing happens.

The calls on both sides of the aisle have often used the R word—on this side, “replace”; on your side, the Democratic side, “repair.” Let’s both agree. The status quo is not acceptable.

But this, this bill, is the only train leaving the station. Is it going to improve if it gets to the Senate? Of course it will. We should all work for that goal.

For me, I worked with Medicaid expansion States like Michigan providing a reasonable transition until 2020 and then grandfathering all those folks until they are off. Some of my colleagues called to end Medicaid expansion even this year. They want total repeal.

What would total repeal mean? Total repeal would mean taking away the ability of HHS to provide flexibility to the States to administer this critical program. It would mean taking away insurance for young kids on their parents’ policies. It would reinstall a cap for CO-OPS and some forecast 40 to 50 percent increases come fall if nothing happens.

This bill still allows all of those important protections to stay in place. A number of us will continue to work with HHS to provide even more flexibility to States like Michigan. This has to be a key component of moving forward.

At the end of the day, I would like to think that we could work together on a bipartisan basis. HHS premiums and a lack of access impact us all. Let’s work together. You can’t get to second base unless you get to first.
Mr. PALLONE. Mr. Speaker, I remind my colleague from Michigan that his vote for this bill will result in 43,500 people from his congressional district in Michigan losing health coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from New York (Mr. ENGEL).

Mr. ENGEL. Mr. Speaker, when people look at these bills, they want to know what they are going to pay. What this bill does is simple—you pay more and you get less. That is the bottom line—pay more and get less.

The President promised better health care for more people at a lesser cost. But my Republican colleagues can no longer claim with any credibility that their plan achieves these goals.

Twenty-four million people will lose coverage. People 50 to 64 will be hit with an age tax and pay premiums five times higher than everybody else. Deductibles will go up. And protections that make sure insurance companies offer minimum value will be thrown out.

Again, the Republican bill, TrumpCare—pay more, get less—but it gives billionaires a tax break. That is really important; isn’t it? With the Affordable Care Act, we set out to give Americans more affordable, higher quality health care.

Is the law perfect? No. We should be working together to tweak the law. We should be working together to improve the law. But this bill does not do that. This bill, which will roll back the time on people’s coverage. Roll back the time, give people less coverage, and let them pay more. That is not what the American people want. I urge my colleagues to vote ‘no.’

Mr. WALDEN. Mr. Speaker, I yield 1½ minutes to the gentleman from Mississippi (Mr. HARPER), the chairman of the House Administration Committee, and a valuable member of the Energy and Commerce Committee.

Mr. HARPER. Mr. Speaker, ObamaCare has failed. Contrary to what was promised, premiums have gone up and there are fewer health insurance options. This bill addresses a crisis that before now had no end in sight.

Not only does this bill work to solve the problems we see in the private insurance market, it addresses one of our Nation’s most vital programs—Medicaid. This program is a critical lifeline for hundreds of thousands of Mississippians.

Medicaid is a safety net program that was designed for children, the elderly, pregnant mothers, and the disabled. This bill will refocus attention back on the program’s initial goals, but will modernize it to better serve these patients.

We should move decisionmaking authority down to those who are best positioned to address these problems. A program run primarily by the States with assistance from the Federal Government will best be able to help those who need it most.

By giving States more tools to address costs, this bill will allow States to explore ways to make accepting Medicaid more attractive to providers, leading to better health outcomes. Without addressing the current problems facing the Medicaid program, it will not survive. This bill puts Medicaid on a path to sustainability. An insolvent safety net will harm those it intends to help.

This is our moment. We have a historic opportunity to enact the biggest entitlement reform in our lifetime. We have a chance to save Medicaid.

I urge my colleagues to vote for this bill.

Mr. PALLONE. Mr. Speaker, I remind my colleague from Mississippi that his vote for this bill will result in 69,600 people from his congressional district losing health coverage and care.

Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. GREEN), the ranking member of the Health Subcommittee.

Mr. GENE GREEN of Texas. Mr. Speaker, this is outrageous.

TrumpCare will rip health insurance from 24 million Americans, almost as many people who live in the State of Texas.

TrumpCare is a direct assault on the President’s promise to the American people. It will saddle families across the country with massive health costs. It will provide less coverage, less benefits, and more people uninsured.

Under this bill, premiums increase 15 to 20 percent in each of the next 2 years. It will particularly be terrible for the near-elderly Americans because TrumpCare allows insurance companies to charge them five times higher than what others would pay for coverage. It destroys protections for Americans with preexisting conditions. It guts the essential benefits so consumers can purchase insurance policies. It undermines health care for those Americans who depend on Medicaid.

TrumpCare is a direct assault on the President’s promise to the American people. It will saddle families across the country with massive health costs. It will provide less coverage, less benefits, and more people uninsured.

What do you do when you leave people with that? Junk plans that are insurance in name only. What is the point of having insurance if it doesn’t cover anything?

For those who aren’t one of the 24 million who lose insurance, many will be left with plans that are more expensive but don’t have to cover things like prescription drugs or mental health and substance abuse.

This bill will make it harder for people to get treatment. It will destroy the Medicaid program, the bedrock of our social safety net that insures 74 million Americans, including children, pregnant women, and one in seven seniors on Medicare.

TRUMP CARE harms Medicare. It will make the program insolvent 3 years earlier, directly causes part B premiums to go up $8.7 billion, and takes away funds that seniors depend on for long-term care. It is impossible to overstate how terrible TrumpCare will be for the American people.

This is a dangerous bill. It is opposed by physician groups and hospital associations.

I urge my colleagues to vote ‘no.’

Mr. WALDEN. Mr. Speaker, I yield 1½ minutes to the gentleman from Kentucky (Mr. GUTHRIE), the former head of the Medicaid task force.

Mr. GUTHRIE. Mr. Speaker, about 7 years ago, I was on the floor talking on the Affordable Care Act. And I remember talking about. I had just left the State Senate, and bringing up that my colleagues are in Frankfort and they are doing work on the budget; and, in the future, it is going to make it more difficult for them to pass budgets because of the expansion in Medicaid, and that is coming to pass. It will be in the next budget session they have to deal with moving forward, if we don’t address this situation.

So people keep talking about a rush process. Over a year ago, we put together a Medicaid task force, met with groups of people, met with Governors, we took a lot of information, and put together a plan that addresses the needs of Medicaid. Medicaid is growing. It is going to implode. So we actually worked to put it on a sustainable budget. It is growing. People talk about cuts to Medicaid. Only in Washington, D.C., does Washington think individuals can, too.

The other thing I want to talk about is, last year, small businesses were going to be hit by the minimum essential benefits. Small businesses were saying: We like our plans, and we want to keep it. We are going to have our prices go up, and we are not going to be able to afford to provide coverage.

So we all came together, bipartisan, to address that to exempt the small-business plans for those programs. It passed by voice vote in the House, unanimous consent in the Senate, and signed by then-President Obama.

So the question is, if small businesses can design and keep their own plans, I think individuals can, too.

I agree with my friend from California that the American people are smart. I disagree with my other colleague who says: They will buy things, and they won’t even know what is in it. They are smarter, and I urge support for this bill.

Mr. PALLONE. Mr. Speaker, I remind my friend from Kentucky that his vote for this bill will result in 40,000 people from his congressional district losing health coverage and care.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Colorado (Ms. DEGETTE).

Ms. DEGETTE. Mr. Speaker, President Trump’s proposed health care plan would be “much better health care at a much lower cost.” Secretary of Health and Human Services Tom Price even promised “nobody will be
worse off financially.” In reality, of course, the TrumpCare bill will leave just about everybody worse off, with less care at a higher cost.

This bad bill would rip health insurance money away from millions of people—24 million over 10 years, and 14 million next year alone.

Americans who are lucky enough to hold on to coverage if this bill becomes law will pay more for it in premiums, deductibles, out-of-pocket costs, especially people age 50 and up.

Mr. Speaker, the deals that were cut last night to win more Republican votes for TrumpCare would be even more devastating. Trips to the emergency room, mental health, substance abuse treatment, maternity care both before and after birth, prescription drugs, lab tests, and more essential services could be cut.

Apparently, some people don’t think these emergency services guaranteed health insurance. They would let insurers sell skimpy plans that don’t even cover patients’ basic needs.

Democrats believe we can and should work together to improve the ACA, not to work on a misguided bill that would gut it.

We owe this to folks like Amanda Miller of Denver. Amanda changed jobs last year. During her period of unemployment, she and her husband decided the smart thing to do was to get coverage to fill the gap. Thank God they did.

Shortly after that, she and her husband got into a serious car accident. Amanda was badly injured, but her husband was badly injured. She could see more of his skull than she could see of his scalp. Luckily, there were some nurses in a car behind them, and they stabilized him and took him to the emergency room.

Their hospital bill of $16,000 was paid in full, thanks to Amanda’s coverage through the ACA. What do we say to Amanda? Can we guarantee her better insurance and a better financial situation?

Let’s defeat this bill, and let’s start working towards a good one that will cover everybody.

Mr. WALDEN. Mr. Speaker, I yield 1½ minutes to the gentleman from Indiana (Mr. BUCSHON).

Mr. BUCSHON. Mr. Speaker, when ObamaCare was debated 7 years ago, I wrote my Member of Congress to urge him to vote against what I saw as a government takeover of our healthcare system.

At that time, I was a practicing physician, and I could foresee the disastrous consequences of this law and what it would do to patients across this country, including my own. And I wasn’t alone.

Citizens from every corner of America stood up and demanded that Congress reject the ObamaCare bill, but we were ignored. Since then, out-of-pocket costs for families have skyrocketed, patient-choice has evaporated, and ObamaCare has inched closer to the brink of collapse.

In that time, those same Americans who fought against passage of ObamaCare have delivered Republicans majorities in the House, in the Senate, and put a Republican in the White House. They did so, in part, based on our promises to repeal and replace ObamaCare.

And here we stand, 7 years after ObamaCare passed, with the opportunity to finally deliver on that promise, and to bring relief to patients across this country who haven’t been able to find the care more promised at a cost they can afford.

It is an opportunity for us to fulfill our promise to our constituents. Let’s be clear: a vote against this bill today is a vote for preservation of the ObamaCare disaster, a vote to keep critical healthcare decisions in the hands of bureaucrats in Washington, D.C., and a vote against the largest entitlement reform in a generation.

I urge all of my colleagues to do the right thing and vote for this bill.

Mr. PALLONE. Mr. Speaker, I remind my colleague from Indiana that his vote for this bill will result in 37,800 people from his congressional district losing health coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania (Mr. MICHAEL F. DOYLE).

Mr. MICHAEL F. DOYLE of Pennsylvania. Mr. Speaker, for the last 7 ½ years, Republicans have promised Americans something better than the ACA. Instead, today, they are giving us something much worse.

Twenty-four million people lose their insurance? Stripping away guaranteed benefits? Putting maternity, mental health, and pediatric care at risk? Shame on you.

Pitting the elderly against children, the disabled, and the mentally ill in the Medicaid program? Placing a tax penalty on veterans? Charging a crushing age tax on 50- to 64-year-olds, forcing them to pay more than what others pay? Shame on you.

This isn’t a healthcare bill. This is a tax cut bill masquerading as a healthcare bill. This bill does nothing to lower premiums, copays, or deductibles.

You cut taxes by almost $1 trillion for corporations and the rich, while ransacking Medicaid and the Medicare trust fund. That is shameful.

Americans will not forget who did this. And you can vote for this bill.

Mr. WALDEN. Mr. Speaker, I yield 1½ minutes to the gentleman from Texas (Mr. FLORES), a real leader on the Energy and Commerce Committee.

Mr. FLORES. Mr. Speaker, we have heard numerous comments from the left extolling the virtues of ObamaCare, and I think it is instructive to hear the words of a former Democratic President that is beloved by the left. Here is what he said less than 6 months ago: “So you’ve got this crazy system where all of a sudden 25 million more people have health care and then the people who are out there busting it, sometimes 60 hours a week, wind up with their premiums doubled and their coverage cut in half. It’s the craziest thing in the world.”

Mr. Speaker, instead of listening to American families in my district, they don’t want crazy. They want the American Health Care Act, a sane plan that gives them their freedom back.

In a few minutes, Mr. Speaker, you are going to hear somebody from the left say that bunch of my constituents are going to lose coverage. That is absolutely false. Those constituents are getting their freedom back to choose whether or not they want healthcare coverage and what kind of healthcare coverage they want. I say vote “yes.”

Mr. PALLONE. Mr. Speaker, I remind my colleague from Texas that his vote for this bill will result in 61,900 people from his congressional district losing health coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from North Carolina (Mr. BUTTERFIELD).

Mr. BUTTERFIELD. Mr. Speaker, over the last few days, 110 organizations have written to me in opposition to TrumpCare. You know who they are: AARP, American Hospital Association, American Heart Association, American Medical Association, American Academy of Physicians, American Academy of Pediatrics, American Psychiatric Association, National Association of School Nurses, Alliance for Retired Americans, American Federation of Teachers, National Association of School Psychologists, National School Boards Association, National Education Association, the Children’s Defense Fund, March of Dimes, the National Committee to Preserve Social Security and Medicare, the American College of Physicians North Carolina Chapter, North Carolina Society of Addiction Medicine, Consumers Union, United Steelworkers, AFL-CIO, Families USA, Center for American Progress, National Association of Pediatric Nurse Practitioners, and the list goes on and on.

Mr. Speaker, I include in the RECORD a list of entities opposing TrumpCare.

1. AARP
2. American Hospital Association
3. American Heart Association
4. American Medical Association
5. American Academy of Physicians
6. American Academy of Pediatrics
7. American Psychiatric Association
8. National Association of School Nurses
9. Alliance for Retired Americans
10. American Federation of Teachers
11. National Association of School Psychologists
12. National School Boards Association
13. National Education Association
15. March of Dimes
16. National Committee to Preserve Social Security and Medicare
17. American College of Physicians North Carolina Chapter
18. North Carolina Society of Addiction Medicine
Mr. Speaker, today is a historic day, make no mistake about it. The American Health Care Act changes the trajectory of health policy in this country. Here are just a few of the highlights:

This bill eliminates the individual mandate penalty; eliminates the employer mandate penalty; eliminates the ObamaCare subsidies in 2020; eliminates ObamaCare tax increases; eliminates insurance mandates so we can lower premiums; provides refundable tax credits for individuals and families who do not get their health insurance through their employer or the government, and allows them to choose the health care that works for them; almost doubles the contribution limits with other Governors from around the country who support this bill, he, too, believes it is in the best interest of Hoosiers. I agree and I urge my colleagues to join me in support of the American Health Care Act.

Mr. PALLONE. Mr. Speaker, I remind my colleague from Indiana that her vote for this bill will result in 37,700 people from her congressional district losing health coverage and care.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Florida (Ms. CASTOR), the vice ranking member of our committee.

Ms. CASTOR of Florida. Mr. Speaker, many neighbors back home in Florida work very hard for their health coverage. When they pay their hard-earned copayments and premiums, they expect something meaningful in return: real health care. That is what the Affordable Care Act was about: not just a piece of paper, but real health services, an end to discrimination against pre-existing conditions, and all sorts of other consumer protections.

But in the middle of the night last night, the Republicans turned back the clock. They have eliminated from the basic health insurance policy coverage for emergency room visits, hospitalization, prescription drugs, and more. They have really embraced the moniker of pay more for less. And on top of it, remember, this bill rips health insurance away from millions of our neighbors back home. It raises costs on hardworking Americans, especially our older neighbors. It is practically an age tax, if you are over 50 years old. It breaks that fundamental guarantee that has existed for 50 years, that if your family is struck with an Alzheimer’s diagnosis, a child with a complex condition, a heart condition, or you are not going to live your remaining years in poverty, all the while, taking your tax dollars and shifting it to millionaires and billionaires and corporations.

TrumpCare is a recipe for disaster. It is a fundamental violation of the values we share as Americans, and it should meet its demise today.

Mr. WALDEN, Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. COLLINS of New York. Mr. Speaker, this is totally wrong. Don’t let your base push you over the cliff on this bill.

Mr. WALDEN. Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. COLLINS of New York. Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.

Mr. Speaker, I yield 11/2 minutes to the gentleman from New York (Mr. COLLINS), a real leader on our committee.
for health savings accounts; provides $115 billion for the Patient and State Stability Fund to lower patient cost and stabilize the insurance market; and enacts the most significant reforms to Medicaid in history, ensuring that Medicaid is sustainable and available for generations to come.

The American Health Care Act is a monumental step toward freedom, choice, and individual responsibility in health care.

Mr. Speaker, I will proudly vote for this bill today, and I urge all of my colleagues to do the same.

Mr. PALLONE. Mr. Speaker, I remind my colleague from New York that his vote for this bill will result in 62,800 people from his congressional district losing health care and care.

Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. MCNERNY).

Mr. MCNERNY. Mr. Speaker, this is a terrible bill. It is a terrible bill. It is wrong for the country.

Why would the President, why would the leadership on the Republican side here in Congress, why would they choose as the first order of business taking health care coverage away from 24 million Americans?

It is wrongheaded. It is immoral. It is inhumane. It makes no sense. It is wrong for America.

In the people’s House, we need to vote it down.

Mr. WALDEN. Mr. Speaker, I yield 1 1/2 minutes to the gentleman from Michigan (Mr. WALBERG).

Mr. WALBERG. Mr. Speaker, for 7 years, I have heard story after story from people in my district about how the Affordable Care Act is anything but affordable.

Families and small businesses are paying more for less, and insurers are dropping out of the marketplaces, leaving behind fewer options. Government-run health care isn’t working, and we are repealing and replacing ObamaCare like we promised our constituents we would do.

The American Health Care Act is the first step of a three-step process to repair our broken healthcare system. This bill moves power away from Washington and puts doctors and patients at the center of their healthcare decisions; brings reforms and strengthens Medicaid; and gives States the flexibility to innovate and best meet the needs of their citizens.

This patient-centered approach will bring costs down, increase choice and competition, and provide important protections for patients with pre-existing conditions.

Mr. Speaker, these are the types of things we promised, and doing nothing is not an option. May I remind my colleague from the other side of the aisle: I have heard your numbers. My constituents will not simply walk away and do nothing just because the other side says that they will be uncovered.

Now they will have a choice. Those thousands of people will not walk away. They will choose something better for them. There will be thousands of people that have insurance that covers their needs, and not what, Mr. Speaker, my colleague says they will do. That is not stupid. They won’t walk away.

Mr. PALLONE. Mr. Speaker, I remind my colleague from Michigan that his vote for this bill will result in 39,500 people from his congressional district losing health care coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. MCNERNY).

Mr. MARINANKER. Mr. Speaker, since the implementation of the ACA, over 3.9 million women age 18 to 64 have gained health care coverage through Medicaid. The ACA ended gender rating, meaning that the insurance companies couldn’t charge men for the same coverage. TrumpCare also eliminates Medicaid funding for Planned Parenthood, reducing access to health care for women. Millions of women rely on Planned Parenthood for routine and lifesaving care, such as preventative services, family planning, and preventing unwanted pregnancies. When the GOP strips Planned Parenthood funding, health care of women will suffer.

TrumpCare also cuts also hurts seniors. Older Americans account for over 60 percent of Medicare spending. Insurance companies will now be able to charge more based on their age. Which will increase premiums by thousands.

Mr. Speaker, watching Republicans sell this bill is like buying a used car from a guy with a crooked smile, even they don’t believe in it. I ask my Republican colleagues to withdraw this horrible bill and work with Democrats to improve the ACA instead of trying to sell this atrocity.

Mr. WALDEN. Mr. Speaker, I yield 1 1/2 minutes to the gentleman from Georgia (Mr. CARTER), our resident pharmacist on the committee.

Mr. CARTER of Georgia. Mr. Speaker, I am joyous to be here today on such a historical day. You see, for the past 7 years, I have practiced in ObamaCare, I have practiced under ObamaCare, and I have practiced in that setting; and I can tell you that what it promised, it has not delivered on.

There has not been increased accessibility, no. Instead of that, we have got five States in our country that only have one plan to offer. We have three of the counties in our country that only have one plan to offer. We have 16 counties in just Florida that don’t even have a plan, and now we are going to have the opportunity to have access. Now we are going to have choice.

We have also been told about affordability. Well, let’s talk about affordability. We see what ObamaCare did. It increased premiums 25 percent this year alone; 50 percent in seven States. That is unsustainable.

What is our plan going to do? It is going to give affordability. It is going to give competition. We are going to have choices.

And what else? It is going to remove red tape. It is going to remove the barriers between healthcare providers, patients and insureds.

The two worst things that ObamaCare did to the healthcare system in America, first of all, is it took the free market out of America. It took the free market out of healthcare in America. It also expanded Medicaid, a safety net program that was intended for the aged, the blind, the disabled, children, and mothers, and extended it to able-bodied adults—something that it was never intended to do.

Mr. Speaker, I look forward to hearing how many people in my district are going to be empowered now from the gentleman from New Jersey.

Mr. PALLONE. Mr. Speaker, I remind my colleague from Georgia that his vote for this bill will result in 62,800 people from his congressional district losing health care and care.

Mr. Speaker, I yield 1 minute to the gentleman from Vermont (Mr. WELCH).

Mr. WELCH. Mr. Speaker, those of us who support the Affordable Care Act know that the work of improving health care and making it more affordable and accessible is never done. It matters. It really matters to the mothers and fathers we represent and to the children that they love. But this bill, stripping 24 million Americans of health care, a $1 trillion tax cut to the wealthiest among us, making people 50 to 64 pay five times as much as other Americans, obviously, is a giant step backwards.

One of those Americans is Linda from Burlington. She left an abusive marriage, but had to leave her health care behind. The Affordable Care Act rescued her, and she has gone on to revive her life and her future.

Our community hospitals that do so much good in our communities have gone from red ink to black ink by the strength of the Medicare expansion provided.

It is a sad day for this institution. We did all of this without hearing from a single patient, a single doctor, a single person. We had no hearings.

Mr. Speaker, can we do better than that?

Mr. WALDEN. Mr. Speaker, I yield 2 minutes to the gentlewoman from North Carolina (Ms. FOXX), the chairwoman of the Education and the Workforce Committee.

Ms. FOXX. Mr. Speaker, skyrocketing cost, diminished choices for patients, small businesses destroyed, fewer jobs, and lower wages, that is

Chair has provided the total time remaining split equal? The SPEAKER pro tempore. There are 67 minutes remaining for the gentleman from New Jersey as the designee of the gentleman from Kentucky. That is 1 hour and 7 minutes.

Mr. WALDEN. Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 1 minute to the gentleman from Iowa (Mr. LOEBSACK).

Mr. WalDEN. Mr. Speaker, I am disheartened by what Congress is doing here today.

My number one goal has always been to ensure Iowans have access to quality, affordable care. This legislation does not implement an age tax, raising costs on older Americans. It cuts nearly $900 billion from the elderly, nursing homes, and disabled children.

This is unacceptable. Exactly those who need health coverage the most—middle class families, people with disabilities, and those who are less fortunate—are the ones who lose out in this Republican bill.

I remain committed to working to improve healthcare coverage so it works better for Iowans and all Americans. We cannot go back to a time when Iowa families had to choose between putting food on the table and getting medical care for their children. Unfortunately, that is just what this bill does.

I urge my colleagues to vote this bill down.

Mr. WALDEN. Mr. Speaker, if I could get an indication in terms of the amount we are down on each side here? I think we were allocated a half an hour.

The SPEAKER pro tempore. Is the gentleman referring to the time in which he is acting as the designee of the gentlewoman from Tennessee on behalf of the Committee on Energy and Commerce?

Mr. WALDEN. Yes.

The SPEAKER pro tempore. The gentleman from Oregon has 9 1/2 minutes remaining in the Energy and Commerce portfolio of this debate.

Mr. WALDEN. Mr. Speaker, and the minority side? Or is that what is remaining split equal?

The SPEAKER pro tempore. The gentleman from Kentucky has not assigned designees on the basis of committee affiliation. The rule provides for four total hours of debate.

Mr. PALLONE. Mr. Speaker, could we just ask the total because then maybe we can figure it out on the minority side?

The SPEAKER pro tempore. The Chair has provided the total time remaining for the minority. So that is the total time we are working back off of. The Chair will consult with the gentleman on the committee time.

The gentleman from Oregon has 9 1/2 minutes remaining in the Energy and Commerce portfolio.

Mr. PALLONE. What is the total time remaining currently? The SPEAKER pro tempore. There are 67 minutes remaining for the gentleman from New Jersey as the designee of the gentleman from Kentucky. That is 1 hour and 7 minutes.

Mr. WALDEN. Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. SCHRADER).

Mr. SCHRADER. Mr. Speaker, after all these late nights and backroom deals, here we are. This version of the bill was just dropped on our lap this morning, so we ought to take a careful look at what is in front of us.

First of all, the bill defunds access to preventative health care and wellness. All the programs that we made progress on will be gone.

It shortchanges the Medicare trust fund. Seniors might be paying thousands more than they are now to get the care they need.

It returns us to a system with skimpy benefits without serious coverage for maternity care and mental health.

Most dramatically, the bill dismantles the Medicaid system as we know it, which has been a success across much of the country.

In Oregon, children and families finally have access to care that fits their needs. People living with disabilities are leading productive lives now. Hospitalizations and emergency room visits have been cut in half, and costs are down.

We are all going to do this—take health care away from 24 million Americans, 14 million just this next year—and not going to save any more money than under the original ACA?

Look, it keeps parts of the ACA that need fixing. While millions of people got coverage for the first time, premiums are still too high in the individual market. That is only 5 percent. Vote no on this bill, and let’s make the system better.

Mr. WALDEN. Mr. Speaker, I don’t believe I have any other speakers, so I will continue to reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts (Mr. Kennedy).

Mr. KENNEDY. Mr. Speaker, 5 years ago, I got the phone call everyone dreads. My wife had collapsed at work and was being rushed to an emergency room. It is a moment that is painfully familiar to far too many. Time stops. You flush your breath down your throat. Your brain gets stuck in that highlight reel of worst-case scenarios. You are terrified.

Fortunately, we were among the lucky ones. Lauren was okay. Most critically, our health coverage gave us the support that we needed to be able to focus on the one thing that mattered most, her recovery.

For families in America, that is the simple expectation of our country’s healthcare system, a commitment that our society makes to care for one another in our time of deepest need because our health is our great equalizer.

No matter your power or privilege, no one, among us escapes our time here on Earth without watching someone we love fight for their life. So we fortify this social contract, not just out of sympathy for the suffering, but so that it is there for us, too, when we need its sturdy brace.

“Blessed are the merciful, for they shall be shown mercy.”

Mr. WALDEN. Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield to the gentleman from California (Ms. LOFGREN) for an unanimous consent request.

(Ms. LOFGREN asked and was given permission to revise and extend her remarks.)

Ms. LOFGREN. Mr. Speaker, I rise in opposition to this terrible bill that will hurt my constituents in California.

Mr. Speaker, each one of us was elected by our constituents to stand up for them here in Washington. Today, I will stand up for people who live in the 19th Congressional District by voting no on this poorly crafted bill.

It’s small wonder that polling shows only 19 percent of Americans are in favor of this bill. With the bill, 24 million fewer Americans will have health care insurance. Families will pay increased out of pocket costs with higher deductibles.

Incredibly, it allows insurance companies to penalize people older than 50 by allowing them to charge 5 times more for insurance than younger Americans.

It hurts Seniors in other ways too. It shortens the life of the Medicare trust funds, by increasing costs for medicine for medicare recipients and by smashing the safety net for nursing home care which the Medicaid program provides.

Incredibly, it also has a special penalty for veterans, by barring veterans from receiving tax credits if they are nominally eligible for VA care, even if there is no room for them at the VA.

Let’s stand together for our hardworking Americans all over our country and in our own districts by voting no on this poorly crafted bill that cuts taxes for the richest Americans and leaves regular Americans on the short end of the stick when it comes to health care.

Mr. PALLONE. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. CARDEÑAS).

Mr. CARDEÑAS. Mr. Speaker, I rise today to urge my colleagues to own up to their bad bill. It is clear this is not what the American people deserve or what the American people are asking for.

This legislation guts Medicaid. It steals from Medicare. It crushes our seniors and our working families. And
just when you thought it couldn’t get worse, they went after veterans and their children.

What’s more, this bill means insurance companies won’t cover new mothers, newborn babies, and prescription drugs. The Republicans are making health care for Americans worse and worse and worse.

The Republicans have secretly wheeled and dealed in back rooms at the expense of millions of Americans in our next country, while giving tax breaks to millionaire and billionaires.

Mr. Speaker, I urge my colleagues to own up to this bill and oppose it for the sake of the American people.

God bless us.

Mr. WALDEN. Mr. Speaker, I yield myself such time as I may consume.

One of the great tragedies of this debate is some of the scare tactics we have heard. And to listen to the gentleman from California talk about how removing essential benefits from the Federal mandate from the law is going to cause all that to happen is tragic because he, on March 25 of 2015, cosponsored legislation that did precisely that, removed the same Federal mandates for workers in the 51-100 pool of employers. He said it was too much of a mandate then on those businesses, when they provide insurance.

So every Member of the House who was here then and every Senator, including the Democrat leader of the Senate at the time, voted for that, passed unanimously.

By the way, the Congressional Budget Office said that those regulations that we are pulling back here would have made nongroup premiums 27 percent to 30 percent higher in 2016, than they otherwise would have been. So we are basically taking what CBO said is a good policy and implementing it here once again.

Last time, in 2015, that was bipartisan. It was a vote yes. Today, you would think the world was falling around us, the sky was falling. Yet, everybody who was here in 2015 said, that is okay, it is the right thing to do because it will lower premiums, like CBO said, by 27 to 30 percent.

So we thought what was good for those in the work world, for everybody who is insured through a large group plan, which is about 155 million Americans who live under this mandate, yet they have all those services and benefits—that that would make sense to lower premiums for individuals on the ObamaCare exchange, because what I hear is, premiums are too high, deductibles go up.

Nobody sees this thing coming down. We are making changes here because those changes are collapsing. We want to bring the premiums down. We want to make the changes that will bring them down. CBO says doing this on employers would have resulted in nongroup premiums 27 to 30 percent lower than they would have otherwise been. They basically say they would be higher in 2016 than they would have otherwise been. So we are taking that, using that and saying: let’s drive them down; let’s get premiums down.

It is unfortunate that you were willing to do that 2 years ago. It was bipartisan. Today it is extraordinary thing we are doing that is bad. It is not. We want to get lower premiums.

Mr. Speaker, I reserve the balance of my time.

Mr. Pallone. Mr. Speaker, Chairman WALDEN is completely mischaracterizing the bill that was led by Mr. Cárdenas.

I yield 1 minute to the gentleman from California (Mr. Ruiz).

Mr. Ruiz. Mr. Speaker, the majority of my patients in the emergency department are age 50 and older. This bill’s age tax will devastate Americans ages 50 to 64 who have worked their whole lives, planned for retirement, and now are wondering how they will make ends meet.

The age tax will force older Americans to pay premiums up to five times higher than others, no matter how healthy they are, no matter how responsibly they have lived, making coverage too expensive, and forcing them to be uninsured.

For example, Rex, from my district, wrote me that he was worried about choosing between affordable insurance or saving for his retirement. Insurance for older Americans like Rex will be too expensive, leaving them uninsured when they need coverage the most.

Under this bill, a 64-year-old like Rex, with an income of $26,500, in the individual market, will pay up to $14,000 for health insurance. That is more than half of their income on premiums alone, leaving little for food, for medicine, rent, and other basic necessities.

I stand with our older Americans, and I urge everyone, Democrats and Republicans, to stand with older Americans. Put ideology, partisanship, and politics aside and do the right thing.

Mr. WALDEN. Mr. Speaker, I reserve the balance of my time.

Mr. Pallone. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. Peters).

Mr. Peters. Mr. Speaker, I came to Congress ready to help improve our healthcare system. And as our colleagues on both sides have pointed out, there are some insurance markets that aren’t providing the choice and the low cost that consumers want, so let’s fix them.

But that is not what this bill does. This bill takes away health insurance from 24 million Americans, including 37,000 people in my district in San Diego. And the last-minute changes made will cost the Federal Government even more money, without increasing coverage or reducing premiums. Is that really the right thing to do?

The only reason we are in this mess is because the Speaker of the House only ever sought 218 Republican votes.

That is why we are left with a bill that is opposed by doctors, nurses, hospitals, and just about everyone because it makes the problems in our healthcare systems worse, not better. That is what happens when you never even reach out to the other side.

Whether this bill dies today, or in the Senate, I hope we can get to work together, Republicans and Democrats, to do better for the American people.

Mr. WALDEN. Mr. Speaker, I yield myself 30 seconds.

Actually, we did reach out to Democrats. We have always reached out to Democrats. The vice chair of the Committee held lunches with Democrats to say: how can we work together on this? And we were told: No, we can’t work with you on this particular measure. I hope we can. I agree, there is a lot we need to do together. It is what the American people expect.

We have had these individual conversations out of the bright lights of the cameras. Let’s get together. Let’s get this done. A lot hangs in the balance.

Mr. Speaker, I reserve the balance of my time.

Mr. Pallone. Mr. Speaker, I yield 1 minute to the gentlewoman from Michigan (Mrs. Dingell).

Mrs. Dingell. Mr. Speaker, today, the House will vote on a bill that will take us back in our Nation’s history. My family has worked for decades for affordable quality health care for every American. It took a long time to achieve the progress we have made today.

We began with Social Security, then we created Medicare, developed the National Institutes of Health, the children’s healthcare program, and many other efforts that have helped every single one of our communities across this country.

Hearing after hearing, amendment after amendment, the Affordable Care Act was eventually developed. Coverage was expanded. Costs were lowered. Certainty was brought to uncertainty.

Let me remind you that before the Affordable Care Act, many had to decide between bankruptcy and death. Children hit lifetime caps. Cancer and being a woman were preexisting conditions where it costs too much money for premiums, or you couldn’t get them at all.

Millions now have coverage who didn’t, lifesaving screenings, preventative care, and, today, we are talking about taking it back by eliminating essential services. Please vote “no” for America’s heart and soul.

Mr. WALDEN. Mr. Speaker, I reserve the balance of my time.

Mr. Pallone. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I think it is very telling that the gentleman from Oregon has no more speakers on his side for what they claim to be a very significant bill. It is not, certainly is significant; but the reason for that, in my opinion, is because this Republican bill is hurting real people.
Don’t tell the real people, don’t tell the Americans in my district or the rest of the country who are coming to your doors and going to your legislative offices and calling you by the thousands to tell you not to pass this bill, don’t tell them your answer that I hear over and over again: Well, trust us, trust us.

The problem is we have to look at the bill that is before us today. This is a terrible bill. Millions of people, 24 million people, are going to lose their insurance plans. They are going to pay a lot more out of pocket with higher deductibles and higher copays.

And the worst part of all is you are allowing the insurance companies to sell junk insurance that doesn’t even cover their care; it doesn’t even necessarily provide any coverage.

So I ask my colleagues on the other side, think of the people. Think about your heart. Think about what this really means. And if you look at it, you will know that this is a bad bill and should be defeated.

Vote “no.” I urge my colleagues to vote “no.”

Mr. Speaker, I reserve the balance of my time.

Mr. WALDEN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, here is what I would say: What you have heard from the other side is everything is working perfectly; leave it alone.

Democrats created ObamaCare. Democrats created the exchange. They said: We are going to tell you the kind of insurance you have to buy; we are going to force you to buy it, or you will answer to the IRS and pay a penalty.

They mandated that.

Then they came back and said: Well, that didn’t work so well, so we had to sell more of the essential benefits for the workers and employers, 51–100 employees in a company; we are going to take that off because that will drive up premiums. And they voted unanimously to do that. Today, they come back and say: Oh, that would be horrible. But they did it before, so they were for it before they were against it.

But let me talk about what really matters here. First of all, there is lot of scare tactics out there by a lot of high-paid organizations. The first is, we preserve your right as a citizen to acquire health insurance regardless of your health condition.

So here is the deal: preexisting conditions, we protect that; lifetime caps, we protect that so that insurance companies can’t cancel the insurance; and keep your kids on until they are 26, we want those protections in place—existing

Mr. Speaker, last month, President Trump stood right here in this room and said to Congress: ObamaCare is collapsing. He called on us to take decisive action to protect all Americans.

Today we have a choice to make; will we provide the American people with decisive action and pass this legislation to repeal and replace ObamaCare? Or will we allow ObamaCare to remain fully in place and deny our constituents the relief they urgently need?

For one, refuse to allow my constituents in Texas to suffer ObamaCare’s impacts any longer. For the past 7 years, we have watched ObamaCare fail Americans on every single promise, and throughout this time, as the Obama administration turned a deaf ear to the American people, House Republicans were listening.

We were listening to all those facing severe premium increases, people like Lauren in my district, in my hometown of The Woodlands. Lauren received an email from an insurance company this year and next.

Meanwhile, Mr. Speaker, the insurers are losing too much money, and we are out.

That is why, in one out of three counties today in America you only have one choice, and that is called a monopol.

We are trying to try this market so people will have choices that are affordable. We are trying to make sure people have access to coverage they want and can afford. This is the first step, not the last step, toward fixing this market.

I look at it like we have poured the foundation. Construction projects are a little messy when you are just pouring the foundation. Now we are going to put up the walls, we are going to put the roof on, and we are going to build this out in multiple steps throughout this year and next.

Meanwhile, we provide complete coverage. We do all the protections ObamaCare continues in its support for people while we fix the market and allow it to come back. We have timed this out. I know there are some on my side of the aisle who wanted to get rid of those protections, and we brought them around or they are going to vote “no.” But we said: No; we have to do those protections in place—existing conditions, and no lifetime caps, keeping your kids on until they are 26.

We have a product here that needs to go to the next step. We will all work on it and continue to make it better as we go forward. But if we do nothing and let it fall today, these markets are going to get worse and worse under the Democrats’ ObamaCare plans, and people won’t have a choice in States and counties all over America.

I wish we could join together today and put forward a bipartisan vote to save these markets and help our constituents going forward, Mr. Speaker, we owe it to them. They have asked for it for 7 years. The Speaker, I urge support for this legislation, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield the balance of my time to the gentleman from Massachusetts (Mr. NEAL), and I ask unanimous consent that he be allowed to control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mrs. BLACK. Mr. Speaker, I yield 30 minutes to the gentleman from Texas (Mr. BRADY) and ask unanimous consent that he may control that time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection. Mr. BRADY of Texas. Mr. Speaker, I yield myself such time as I may consume.
March 24, 2017

CONGRESSIONAL RECORD — HOUSE

H2425

costs, and enhance competition. This is where we reclaim control of health care from Washington and put it back where it belongs—with patients, families, and States.

We expand health savings accounts, making flexible and more user-friendly. We protect health coverage for the more than 150 million Americans who receive it through their job. We deliver the largest entitlement reform in decades, giving power to States to improve and streamline Medicaid so they can better serve the needs of local patients and families.

For low- and middle-income Americans who don’t receive coverage through work or a Federal program, we offer an advanceable, refundable tax credit that people can use immediately to help purchase coverage that is tailored to their needs. These tax credits provide a conservative, free-market alternative to inefficient ObamaCare subsidies that exist today. They deliver support to those who need it, while encouraging the American people, and provide a conservative, free-market alternative to the ObamaCare mandate. These include .

I would like to give a special thanks to Emily Murry, Stephanie Parks, and all of our hardworking staff on the Ways and Means Committee.

At the end of the day, on this day, we will have our first true vote to repeal ObamaCare. History will record where we stand. This is a clear choice. We can stand with President Trump and more freedom for Americans to buy health care they choose, or stand with ObamaCare and more government that gets in the way. I proudly stand with President Trump and more freedom for the American people.

Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield myself such time as I may consume.

Recently, President Trump said: Who knew that health care could be so complicated?

Well, 70 years ago, Harry Truman knew how complicated it could be when he first proposed national health insurance. John Johnson knew more than 50 years ago when he proposed, successfully, Medicare and Medicaid. Richard Nixon knew when he proposed the individual mandate. Bob Dole knew when he proposed the individual mandate. In Massachusetts, Mitt Romney knew when he proposed the individual mandate.

Mr. Speaker, recently, within the last week, the great on-the-street writer, Jimmy Breslin, died. Amongst the great columns and the great books he wrote, one of them that he wrote that will be with us in a timeless manner was “The Gang That Couldn’t Shoot Straight.”

That is what this institution has been like for the last 10 days. There were caucuses and there were conferences. People were running back and forth with new CBO scores and coming back to the floor with new proposals. Members are put in the position of being offered special arrangements so that they might be brought over the goal line—that, after 61 times they have voted in this House to try to repeal the Affordable Care Act.

Well, here is what we have in front of us this afternoon: a CBO score says that 24 million Americans will see either an increase in premiums or they will lose their insurance, there will be an imposition of an age tax on older Americans, and a tax cut of $1 trillion. This bill has gone from bad to worse.

If that wasn’t enough, to get the votes to pass the bill, they want to cut prescription drug benefits, mental health benefits, hospital benefits, and maternity care; and, yes, every one of us in this institution knows a family who is struggling with a loved one’s addiction, and they want to roll back that benefit.

Recently, the conservative columnist Bill Kristol tweeted:

“The healthcare bill doesn’t, A, lower costs that they have; B, it doesn’t improve insurance; C, it doesn’t increase liberty; D, it doesn’t make health care better. So what is the point?”

Here is the point: it is a $1 trillion tax cut so that they can change the baseline for their tax cuts that are coming down the road. That is what this is about.

Now, the President said he wanted an insurance protections that covered all members of the American family. What they are offering up today is a plan that cuts health insurance for 24 million American family members. It does not increase coverage, it does not lower costs, and it does not strengthen consumer protections.

So what does it do?

Sadly enough, back to the old argument that we have had in this institution for years: a $1 trillion tax cut for the people at the top and special interests.

The former speaker here a minute ago, the chairman of the Energy and Commerce Committee, spoke about perfection. I was here when this legislator was authorized to write it. I can tell you this right now: we knew it was not about perfection, but we subscribed to the idea, as was the case with Social Security, Medicare, and Medicaid, that we would improve it as time would fix it so that all members of the American family might benefit from the basic notion of access and affordability as it relates to health care.

So what do we have here? $859 billion of cuts to Medicaid, which is now long-term care for members of the American family.

Do you know why?

Sixty percent of Medicaid dollars go to nursing home care, and they want to cut $859 billion to provide a $1 trillion tax cut. Let me tell you, members of the American family can understand that.

In Massachusetts, where proudly I can say 100 percent of the children in our State are covered, 97 percent of the adults in Massachusetts are covered. And guess what? It polls regularly in the high seventies as to consumer satisfaction. A Republican Governor of Massachusetts has to go slow and go carefully, that this is not the path that they want to travel down, as well as other Governors across the country who happen to be a Republican.

Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Texas. Mr. Speaker, I yield to the gentleman from Ohio (Mr. TIBERI), the chairman of the House Committee on Ways and Means.

Mr. Speaker, I reserve the balance of my time.

Mr. TIBERI. Mr. Speaker, I return to the floor. I would like to offer my gratitude to my colleague, Chairman TIBERI, the gentleman from Ohio, for his tireless and relentless effort from both Congress and the administration. For-
Mr. TIBERI. Mr. Speaker, I thank the gentleman for his leadership in this important matter, and I echo his words with respect to the staff, Emily Murry and her team, as well as Whitney Daffner and Abby Finn in my office.

Mr. Speaker, like the chairman, I had a front row seat in 2009 and 2010 to the passage of the Affordable Care Act and a front row seat to all the promises made about this wonderful bill called the Affordable Care Act.

That last 6 years, like the chairman, I heard from my constituents and fellow Ohioans. I heard about their sad ObamaCare stories of a road of broken ObamaCare promises.

There was a lady east of Columbus who had cancer. She was a survivor. Fast-forward to a few years ago. She gets cancer again and finds out that the oncologist that she had, she could no longer have. He was not in the network. She could not go to the hospital in her community. She had to go 60 miles away.

Or there is the small-business owner and his wife and family on the individual market and now on the exchange not getting employer-provided health care and, therefore, not getting the benefit. They saw their plan price quadruple in the last several years. Mr. Speaker, we are going to take care of that person and give them a tax credit so they have the ability, just like employer-provided employee's health care.

In Ohio, last year, our CO-OP collapsed. We had 20,000 people without health care. Many saw bills not being paid. Twenty counties in my State had one provider and fewer choices.

One promise wasn't broken, and that is a government-mandated, one-size-fits-all Washington plan that many of my constituents didn't want and others couldn't afford. That was their ObamaCare.

We can do better, and in this bill we do. In one step, in the first step, more steps to come, we begin creating a patient-centered healthcare system that will not only put more power in the hands of our constituents, but it will also drive down healthcare costs.

Remember what they said in Ohio newspapers in my State about ObamaCare: a tough pill to swallow, a nightmare, very taxing, just more red tape. These aren't my words. Mr. Speaker; these are hardworking Ohioans' words. They deserve better. They deserve more choices. They deserve better access, the access and the choices they want for them and their families.

We begin, Mr. Speaker, with this bill. We don't end here. There is much more to do. We are putting the people's power back in their hands, not in Washington's hands. Today, it is time for us to deliver.

Mr. NEAL. Mr. Speaker, I would remind my friend—and he is my friend—from Ohio that his vote will result in 39,500 people losing their healthcare coverage if this legislation prevails. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. LEVIN), who was a substantive and major player in the development of the ACA when it was passed.

(Mr. LEVIN asked and was given permission to revise and extend his remarks.)

Mr. LEVIN. Mr. Speaker, I thank Mr. Neal for his work and that of all of us on the committee on the Democratic side.

As CBO has said, under this bill, 24 million Americans would lose their health insurance next year, and 24 million over the next decade.

Today, most are invisible, but they would become seen and heard at emergency rooms, with no other place to go with more serious illnesses because of no preventive care.

They are pricing hospitals 50 to 64 with far higher premiums; mothers without access to affordable maternity care; elderly evicted from nursing homes, losing coverage from Medicaid, the largest source of long-term care in our Nation; and lives lost that could have been saved.

I remember some time ago I met a woman who had health insurance through her job. She contracted breast cancer and received treatment but then lost her job and insurance. Then the ACA covered her. She looked straight at us and said that, without further treatments, she would not be alive today.

Under this bill, a trillion dollars is lost for health care, and there will be a trillion dollars in tax cuts, mostly for the very wealthy and corporations.

This is not America. I repeat: This is not America.

Mr. BRADY of Texas. Mr. Speaker, I yield 2 minutes to the gentleman from Nebraska (Mr. SMITH), the chairman of the Human Resources Subcommittee.

Mr. SMITH of Nebraska. Mr. Speaker, I rise today in support of H.R. 1629, the American Health Care Act of 2017. This legislation is the first step in a process to unravel ObamaCare's taxes and mandates and provide relief to the American people.

To understand the extent of ObamaCare's failures and their impact on hardworking Americans and their families, just look at the rapid collapse of ObamaCare's Consumer-Operated and Oriented Plans, or CO-OPs.

The story of these failed ObamaCare CO-OPs began in my home State of Nebraska, with the abrupt collapse of CoOpportunity Health, which left 120,000 Nebraskans and Iowans without health insurance. I repeat: It left 120,000 Nebraskans and Iowans without health insurance.

CoOpportunity Health was the first ObamaCare CO-OP to collapse, but it wasn't long before 18 more followed suit, closing their doors and leaving hundreds of thousands more without health insurance. Only 4 of the 23 CO-OPs created under ObamaCare actually remain, and these remaining 4 will likely face the same fate as they continue to struggle with dire financial challenges.

Americans were falsely promised, if they liked their insurance, they could keep it. After complying with ObamaCare's mandates, many Nebraskans could not even keep the insurance this law created.

One of my constituents in western Nebraska, Pam, who is self-employed, lost her insurance four times under ObamaCare. Prior to ObamaCare's implementation, she had a plan she liked and that actually covered her pre-existing condition. She was forced off of that original plan when ObamaCare began and then lost her coverage three more times through no fault of her own.

For Pam and millions of others across the country, ObamaCare has severely limited options for affordable care. This is simply unsustainable. Constituents in rural districts like mine are being hit the hardest by ObamaCare's dwindling insurance markets. Because of ObamaCare, Nebraskans are down to only two insurers from which to choose, and other rural areas are down to only one or even zero providers on their exchanges.

Adding insult to injury, according to the Obama administration's own report on the individual market, 2017 premiums in Nebraska increased by 51 percent.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BRADY of Texas. Mr. Speaker, I yield the gentleman an additional 30 seconds.

Mr. SMITH of Nebraska. Mr. Speaker, those like Pam are experiencing premium increases of 69 percent, and it is only projected to get worse if we do not act.

Doing nothing is certainly not an option. We must come together to rescue this rapidly collapsing healthcare system. Let's come together to do right by the American people.

I urge passage of this bill.

Mr. NEAL. Mr. Speaker, I would remind my colleagues that his vote for this bill will result in 50,000 people in his congressional district in Nebraska losing their health coverage and care.

Mr. Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. LEWIS), a giant in terms of the morality of our time and a good friend and individual who helped write the Affordable Care Act, as well.

Mr. LEWIS of Georgia. Mr. Speaker, I want to thank my friend for yielding.

Mr. Speaker, I rise to oppose this bill.

As elected Representatives, we have a mission, an obligation, and a mandate to fight for each and every American.
I ask you, Mr. Speaker: Who will stand for the American people? Who will speak up for those who have been left out and left behind?

Mr. Speaker, I have said it time and time again: Health care is a right. It is not a privilege reserved for a wealthy few, but a right that protects all of us.

Mr. Speaker, today my heart breaks for the disabled, for women, for seniors, and for working families. My heart aches for those who are living paycheck to paycheck. My heart mourns for innocent little children whose very lives depend on if their families can pay the bills.

This is the right and wrong of it. This is the heart and soul of the matter. We cannot abandon our principles. Mr. Speaker, we cannot forget our values. I have fought too hard and too long to back down now.

I will fight any bill that turns the clock on this country back to a darker time. I will fight every single attempt to turn a deaf ear, a blind eye, and a cold shoulder to the sick, to our seniors, and to working families.

Mr. Speaker, I will fight every day, every hour, every minute, and every second. I oppose this bill with every breath and every bone in my body. We must not give up. We cannot— I will not— give in, not today, not tomorrow, not never. Ever.

On this bill, there is only one option, and that option is to vote “no.” We can do better. Mr. Speaker, we must do better. Vote “no” on this bill.

Mr. BRADY of Texas. Mr. Speaker, I first would remind my friend from Georgia that nearly 700,000 Georgians have chosen to either pay a fine or expend themselves from ObamaCare rather than accept that failed health care.

Mr. Speaker, I yield 2 minutes to the gentleman from Minnesota, (Mr. PAULSEN), a key member of the Ways and Means Committee.

Mr. PAULSEN. Mr. Speaker, today we are taking a very important step to lift the burden of the Affordable Care Act off of the backs of the American people. A key component of this is repealing the burdensome mandates and tax increases that were imposed to help fund this failed law. This includes the medical device tax, a senseless policy that placed an excise tax on lifesaving medical technology.

What did this achieve? A loss of 30,000 high-paying American jobs, less research and development, canceled projects, and postponed expansions. Most importantly, it hurt patients.

There is good news. Just a few years ago, in 2015, we came together on a bipartisan basis and suspended the tax for 2 years. We are seeing positive results. Companies are now hiring again, we have increased research and development, and we have new investments in facilities coming online.

We need to permanently repeal this onerous tax or it is going to start up again. Voting “yes” today means permanent repeal of the medical device tax.

Mr. Speaker, I am also encouraged to see several provisions I have authored to enhance and expand the use of health savings accounts and flexible spending accounts that are included in this legislation today. HSAs and FSAs are now more popular than ever and used by 20 million Americans. It is time to remove the restrictions on HSAs that were imposed in ObamaCare so that we can make them more accessible and easier to use and empower Americans to take more control of their healthcare decisions.

Expanding HSAs will help us also begin to address the rising costs of health care. One recent study showed that when a large employer switched their employees from FSA plan to the AHCA plan, it lowered their healthcare spending by an average of $900 per employee over a 5-year period. That is real savings, Mr. Speaker.

Let’s support a better way forward to lower healthcare costs for patients and put them back in control of their healthcare decisions.

Mr. Speaker, I remind my colleague that his vote for this bill will result in 89,200 people in his congressional district in Minnesota losing their healthcare coverage and care.

Mr. Speaker, I include in the Record a letter from Governor Charlie Baker of Massachusetts that relates to the debate we are having today.

DEAR DELEGATION MEMBER: Health care is once again at the forefront of national and state policy discussions. We still share the goal of ensuring access to quality, affordable health care coverage for the people of Massachusetts. With Congress set to take up the American Health Care Act (AHCA) immi-

antly, I wanted to share with you my ad-

ministration’s analysis of the potential ef-

fects this bill would have on our state.

The Commonwealth does have certain protections in place that could mitigate the im-

pact of some of these changes. Massachusetts retains its individual health insurance mandate, reducing the likelihood that many people would drop out of the market due to the repeal of the federal mandate. Massachusetts also has protective insurance coverage laws that would not be superseded by federal legislation.

The AHCA includes a provision that would prevent Medicaid from reimbursing Planned Parenthood for providing important health services such as cancer screenings. My ad-

ministration opposes this provision, and has already committed to funding these services with state dollars if it should pass.

During conversations with governors across the country, the Trump Administra-

tion has expressed a general openness to providing greater state flexibility with respect to health care, including through a letter issued by HHS Secretary Price on March 14 to states. Our administration will pursue addi-

tional flexibilities to stabilize our markets and ensure the continued commitment of states and we urge you to support these efforts by leading discussions in Congress to ensure the people of Massachusetts continue to have access to a quality health care system.

Overall, our analysis indicates that the AHCA would increase the fiscal resources necessary to support the Common-

wealth’s continued commitment to universal health care coverage. I hope this information is helpful to you as Congress takes up the American Health Care Act.

My administration and I will continue to stay in touch with you as we work together to ensure access to quality, affordable health care coverage for all Massachusetts residents.

Sincerely,

CHARLES D. BAKER,
Governor.

Mr. NEAL. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. DOGGETT), who played a major role in the substantive contribution he made to writing the ACA.

Mr. DOGGETT. Mr. Speaker, TrumpCare is big on Trump, but it is weak on care. After falsely promising that there would be no change for everyone for less and better, TrumpCare only cares about huge tax breaks for the superrich and special interests, like
VerDate Sep 11 2014 05:11 Mar 25, 2017 Jkt 069060 PO 00000 Frm 00056 Fmt 0636 Sfmt 0634 E:\CR\FM\K24MR7.071 H24MRPT1SSpencer on DSK4SPTVN1PROD with HOUSE

Mr. REED. Mr. Speaker, I rise today in support of this legislation. I ask my colleagues on the other side of the aisle—as I stood in front of town halls and I listened to thousands of folks across my district say what we should be working on is fixing the Affordable Care Act to a T. I have heard my colleagues on the other side of the aisle say: It is not perfect; we need to repair it.

Yet, today we take the first step in this endeavor by the legislation that is before us, and all we hear is how bad this legislation is. All we hear today, Mr. Speaker, is how bad this first step in the journey for the American people we need to go on when it comes to American health care is.

I don’t hear rhetoric saying let us talk about phase 2, let us talk about phase 3, where we can come together as Democrats and Republicans for the people we represent.

The American people are lost in this bickering that we have here in this Chamber today, but I don’t forgot their voice. I am not going to forget the voice of the constituents that came to me as small-business owners saying: You are putting me out of business with these insurance premiums. They are going through the roof.

I won’t forget the voice of the people who are saying: My copays are going through the roof. My deductibles are higher. I don’t have coverage that I had 7 years, 8 years ago before ObamaCare. Mr. Speaker. We have remade all of us in this Chamber to work together for the American people as a whole. The American people want freedom. They don’t want mandates. They want to choose the insurance that works best for them. They want to access their doctors that they select. They want to have the promise that was made to them, that they could have their insurance and keep it going forward honored and respected by this institution. That is what our legislation starts today.

Not a single aisle says the issue of health care will go away because of the first step we take today, because we have to do better for the American people when it comes not only to health insurance, but for their health care. We can, and I want to be a voice to say let us join together to get this done for the American people.

Mr. NEAL. Mr. Speaker, I remind my colleagues that his vote for this bill today will mean people from this congressional district losing their health coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. THOMPSON), a very thoughtful member of the Committee on Ways and Means who also helped to write the ACA.

Mr. THOMPSON of California. Mr. Speaker, I rise in opposition to this bad bill. It is not a step toward fixing the ACA, this is a step toward destroying a health care system we simply don’t need. I know my situation, and I should be able to buy whatever I want without incurring four-figure tax penalties.

Jason says to me: Dear MIKE, I am a self-employed father of four feeling the hurtful effects of ObamaCare. For years there has been so much talk from Republicans about repealing ObamaCare. I am paying yet more money for less coverage. We are really feeling the effects of this in my family’s budget. My kids are going to bed hungry after dinner. We desperately need relief and now, not next year. I enthusiastically pulled the lever for Donald Trump and for you, and we are counting on you to make some real change in D.C. Please keep up the fight, and do it quickly.

So this is not about MIKE, it is not about John, it is not about any of us. What it is about is taking care of the people that we were sent here to represent. They are Republicans and they are Democrats. Some people could care less about any of us, but they expected us to do something for them. We are sitting here today because this law
is so bad. If it was so good, we wouldn’t have to worry, but it is bad, with a capital B.

Now, I have got to tell you, growing up, as a young kid, as it got toward Christmas—and I say this to my friends, by the way, who are listening—my parents used to make a list right before Christmas. I put on that list everything I wanted. You know what, Mr. Speaker? Come Christmas morning, I never got everything I wanted, but I was so thankful for everything I got.

We have to do better today. We have to keep a promise today to the American people. We have to backtrack on a rookie mistake 7 years ago and make it better for the American people, not just for Republicans, not just for Democrats, not just for those who vote blue or red, but for those who expect us to do what we are supposed to do in the people’s House. This is not the Republican House or the Democrat House, this is the people’s House.

Isn’t it true for all of us to come together to get this done?

We have a marvelous opportunity, but we could lose it. I ask you all and I urge you all to please vote for this act.

Mr. NEAL. Mr. Speaker, I remind my colleague and my friend that with his vote for this bill, 41,400 people from his congressional district in Pennsylvania will lose their healthcare coverage.

Mr. Speaker, I yield 2 minutes to the gentleman from Connecticut (Mr. Larson), who is from an adjacent district and a close friend and a long-time member of the Committee on Ways and Means and an individual who also contributed mightily to the development and writing of the Affordable Care Act.

Mr. LARSON of Connecticut. Mr. Speaker, I associate myself with Mr. NEAL’s remarks, and especially him framing this issue from the outside about the arc of history.

As we have been pressed in this Chamber time and again, dating back to Franklin Delano Roosevelt, when you look at the impact of 24 million people, you have to look at your colleagues on the other side of the aisle and say: Are you frozen in the ice of your indifference to what impacts the daily lives of people who have showed up at our forums and the forums that you have conducted?

The sheer humanity of what is taking place across this country cries out for a solution. Yet all we have heard, as Mr. NEAL said, is the helter-skelter back and forth of who is winning politically, what is happening with the Freedom Caucus, what is going to—if Trump leaves, is RYAN out?

The American people don’t care about that. They care about their families. And this is the institution that we were sent to to work on their behalf. It is up to us to come together and work on behalf of the American people.

This is a tax bill. This is a tax bill. We are going to work on that later on, but we shouldn’t start by saying that we are going to have a trans-

fter of wealth in this Chamber from people who are begging and pleading and showing up at the townhalls and asking for our help, and our answer is a transfer of wealth in a tax bill. Everybody wants to know why we are taking this up first and not taxes. Because it is a tax bill, that is what it is.

Mr. BRADY of Texas. Mr. Speaker, I would remind my friend from Connecticut that 190,000 residents in Connecticut, two out of three eligible for ObamaCare, believed it failed them so badly they paid a tax or exempted themselves.

Mr. Speaker, I yield 2 minutes to the gentlewoman from South Dakota (Mrs. NOEM), who has weighed in such a key way on health care.

Mrs. NOEM. Mr. Speaker, it is no surprise that the Democrats today are upset, that they are complaining that they don’t like this bill because their number one goal all along, and I have heard them say it to me in conversations over the years, their number one goal was to go to a single-payer system. They wanted government-run health care, and we are on the track to that today.

In fact, in my home State of South Dakota, at one time, we had 17 options and companies that people could shop for their healthcare policies from. Today we have 2.

We are well down our road now to giving them exactly what they want. They hate this bill because it puts people back in control of their own health care. It doesn’t let some bureaucrat in Washington, D.C., decide what treatment they can get in the future. It lets people decide that with their doctors.

This is a vote, today, for freedom for people who have lived under the bureaucracy of the Federal Government and trying to figure out how to take care of themselves and their families.

Rising costs, shrinking options, increasing bureaucracy under ObamaCare has taken healthcare control away from patients, away from people, away from families struggling to pay their bills; and, against their best and own common sense and household budgets, they are forced to pay $10,000, $15,000, $20,000 more per year for health coverage, health coverage which has a deductible so high that they don’t even utilize it. They can no way meet the $6,500 deductible, $10,000 deductible, $12,000 deductible. So they don’t even use it at all if they do have it. Their stories are reflected in all the data that we have seen.

One hundred percent of the healthcare options on healthcare.gov in South Dakota have seen double-digit rate increases. Meanwhile, the number of providers families have to choose from has gotten much, much worse.

We have a responsibility to eliminate ObamaCare and employer mandates, which today’s legislation does. It also abolishes the taxes that were included in ObamaCare, up to $1 trillion of taxes that were put on health care in order to pay for the bill, which will be eliminated as well.

If left in place, the health insurance tax alone will raise costs on families up to $5,000 over the next decade.

Conservatives congregated. Members have repeatedly opposed taxpayer funding of abortions, and that is fixed in this bill as well.

When we talk about health care, we are talking about something very personal, which is why I want patients put back in control.

Mr. NEAL. Mr. Speaker, I would remind my colleague that her vote for this bill will result in 63,000 people in South Dakota losing their healthcare coverage and care.

Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. BLUMENAUER), a visionary, certainly, a forward-looking individual who also helped to write the ACA.

Mr. BLUMENAUER. Mr. Speaker, it has come to this: considering hopelessly flawed legislation that the Republicans have had 7 years to prepare for and still couldn’t do it right. It may still pass, but it is never going to be enacted because most people are figuring it out. They don’t like it and they are hacking it. That is why this bill has been stalled and the Republicans have been forced to twist the legislation in this fashion.

But the bottom line remains: TrumpCare will cost more for people who want it the most. It will hurt older and lower-income people in order to create tax cuts for people who need them the least. TrumpCare will destabilize health insurance and will slowly but surely destroy Medicaid.

It didn’t have to be that way, but as long as people continue speaking out and fighting back with us, it won’t be in the future, and we can have a new era in health care and in politics.

With their help, Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee (Mr. COLE), a friend and a former colleague.

Mr. Speaker, I yield 2 minutes to the gentleman from South Carolina (Mr. RICE), my good friend and a key member of the Ways and Means Committee.

Mr. RICE. Mr. Speaker, I stand in strong support of the American Health Care Act and urge my colleagues to vote in favor of the bill.

ObamaCare was built on broken promises. President Obama said you could keep your policy, keep your doctor, and it would bring down the cost of the insurance for a family of four by $2,500 per year.

It is time for the lies to stop. Let me share with Members the shameful reality of ObamaCare in South Carolina. It turns out you couldn’t keep your doctor. In fact, the Medical University of South Carolina is not an accepted provider under ObamaCare in South Carolina. That is right. South Carolinians cannot go to the Medical University of South Carolina if they are
covered by ObamaCare exchange policies.

It turns out you couldn’t keep your policy. It is hard to believe, but more South Carolinians had their plans canceled by ObamaCare than have enrolled in the exchange. 207,000 have a Carolinians’ policies were canceled in ObamaCare.

It turns out South Carolinians did not see a $2,500 reduction in their healthcare premiums. In fact, premiums have increased by double digits every year since the exchange opened; and this year, premiums increased 28 percent and deductibles 26 percent.

I submit to you that if you have a health insurance policy with $6,000 in deductibles and copays so high you can’t afford to use your policy, regardless of the fact that statistics say you are covered, you are not covered.

206,000 South Carolinians have signed up for ObamaCare—4 percent of the population. Ninety-six percent of South Carolinians are not on ObamaCare. Three times as many people in South Carolina have chosen to pay the mandate penalty rather than to purchase policies.

Mr. Speaker, President Obama promised South Carolinians we would have many competitive plans to choose from, but after only 3 years of Obama’s mandate to overhaul our healthcare system, only one provider remains, and they are threatening to pull out.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BRADY of Texas. Mr. Speaker, I yield 15 additional seconds to the gentleman from South Carolina.

Mr. RICE of South Carolina. The CEO of a major hospital in South Carolina stated, the way it is going right now, it is probably going to implode in the next year or two. Our State’s director of insurance, last year, said companies have given their best shot and can’t sustain this business model, can’t make a profit. The Affordable Care Act has damaged care to our healthcare system, only one provider remains, and they are threatening to pull out.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BRADY of Texas. Mr. Speaker, I yield my colleague from Wisconsin (Mr. KIND), who is a thoughtful member of the Commonwealth of Massachusetts.

Mr. KIND. Mr. Speaker, we face a historic day today in the United States Congress. For the first time in our history, we have a Congress working with an administration offering the American people a healthcare reform bill that, instead of reducing the number of uninsured in this country, increases the uninsured by 20 million, including 331,000 in my home State of Wisconsin.

And we understand why. It is a simple explanation. This is a tax cut bill for the most wealthy in the guise of healthcare reform. That is unfortunate because it is a missed opportunity of fixing what isn’t currently working in the healthcare system.

If we wanted to be honest with the American people today, we would admit that there are important, good features of the Affordable Care Act that should remain and we should not end. But there are things that need to be fixed, and we have to stay focused on responsible, lifesaving costs for all Americans. Let’s continue to work on delivery system reform and payment reform so we get better results at a better price.

But a bill before us that increases the uninsured by 24 million, that delivers huge tax breaks to the most wealthy, that applies a new American tax, especially in rural areas like mine in Wisconsin, and that robs money from the Medicare trust fund is not only a missed opportunity, it is bad legislation.

I encourage my colleagues to vote “no.” We can do better. We must do better.

Mr. Speaker, President Obama promised South Carolinians we would have many competitive plans to choose from, but after only 3 years of Obama’s mandate to overhaul our healthcare system, only one provider remains, and they are threatening to pull out.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. BRADY of Texas. Mr. Speaker, I remind my thoughtful friend that 290,000 Wisconsinites chose not to get ObamaCare were willing to pay a tax to stay out of a failed healthcare system.

I am proud to yield 2 minutes to the gentlewoman from Indiana (Mrs. WALORSKI), a new member of our committee who is doing tremendous things in health care.

Mrs. WALORSKI. Mr. Speaker, I rise today in strong support of the American Health Care Act.

Yesterday marked 7 years since the ObamaCare law was signed into law. For 7 years, we have seen the same pattern: rising premiums, dwindling options, broken promises, and a collapsing system.

In the State of Indiana, four insurers left the ObamaCare exchange just this year in the past 3 months, forcing 68,000 Hoosiers to shop for a new plan, making it even harder for them to choose and keep their doctor.

But today we have the opportunity to repeal ObamaCare and replace it with a patient-centered system, lowering costs, increasing choices, and providing real protection.

This legislation dismantles ObamaCare’s burdensome taxes, mandates, and the job-killing medical device tax.

It gives individuals and families access to quality, affordable health care through refundable tax credits and expanded health savings accounts.

It provides resources for States to tailor solutions to the needs of their citizens, including women’s health, addressing the opioid crisis.

It gives States flexibility to implement innovative reforms.

It allows my home State to continue building upon its patient-centered Healthy Indiana Plan.

It protects patients with preexisting conditions and ensures a stable transition so no one has the rug pulled out from underneath them.

With the American Health Care Act, we are delivering on our promise and acting on the policies of President Trump. This bill is just the first step in the important effort to repair our Nation’s healthcare system. Coupled with administrative actions and additional legislation, the AHCA will lower costs and build a marketplace with real choices instead of a one-size-fits-all plan.

Mr. Speaker, 7 years of ObamaCare is long enough. Seven years of families seeing their premiums rise, plans canceled, and doctors dropped is enough.

Today we can deliver on our promise and put our bold solutions into decisive action. The AHCA is a bill 7 years in the making. I urge my colleagues to join me in supporting it.

Mr. NEAL. Mr. Speaker, I remind my colleague that her vote for this bill will result in 42,000 people in her congressional district in Indiana losing their healthcare coverage and care.

I include in the RECORD a letter from Republican Governor Snyder of the State of Michigan raising his concerns about this legislation.

Hon. SANDY LEVIN, House of Representatives, Washington, DC.

DEAR REPRESENTATIVE LEVIN: As Congress considers legislation to repeal and replace the Affordable Care Act and reform Medicaid, I want to ensure you are aware of the devastating impact changes in the Affordable Care Act and Medicaid have had in Michigan and how they have been utilized at the state level to drive meaningful reform that has increased access to cost-effective care.

In its current form, the American Health Care Act (AHCA) shifts significant financial risk and cost from the federal government to states without providing states sufficient flexibility to manage this additional responsibility. The proposed legislation reduces federal resources that our state relies on to assist 2.4 million Michiganians, including over 650,000 children and roughly 13,000 of them beneficiaries in Michigan who rely on these programs for access to care and overall health.

I also want to provide my perspective on priorities for federal health reform and highlight how they have been utilized at the state level to drive meaningful reform that has increased access to cost-effective care.

The current federal debate has largely focused on the Medicaid expansion population, including over 650,000 childless adults and parents that are enrolled in the Healthy Michigan Plan. However, half of all children in Michigan are served by traditional Medicaid each year and roughly 67,000 of them reside in your district. Moreover, more than 398,000 individuals with disabilities receive their healthcare and support services through Medicaid and an estimated 23,000 of these individuals reside in your district. Altogether, there are 1.75 million children, seniors, pregnant women and disabled individuals served by traditional Medicaid in Michigan, and roughly 70,000 of them reside in your district. As you know, these are our state’s most vulnerable citizens, friends and neighbors. The proposed AHCA will adversely impact them.

While reforming the nation’s health care system is vital, it is imperative that gains in healthcare access and coverage are maintained. These ideas are not mutually exclusive.
In Michigan, innovative approaches to improving quality and value are being utilized to support each individual’s personal responsibility for their health. This has resulted in significant reductions of nearly 50% in uncompensated care, a dramatic decrease in the number of individuals using the emergency room as a regular source of care, and nearly eliminating the need for primary or preventive care visits. As drafted, the AHCA would eliminate coverage from the 48,000 individuals enrolled in the Healthy Michigan Plan in your district, as Michigan taxpayers assume responsibility over time for up to $800 million in additional costs. This cost shift will trigger a provision in Michigan law ending the Healthy Michigan program.

I believe Medicaid reform is necessary, however, that reform must be approached deliberately to ensure that state flexibility and innovation are valued. Michigan providers remain strong, and our most vulnerable citizens do not fall through the cracks. Ideally, this would be done by removing prescriptive program requirements that require states to seek waivers when implementing innovative ideas. Instead, states would be given performance-based outcomes with federal involvement only when performance is lacking.

If Congress moves forward in passing the proposed AHCA, which shifts financial risk to state taxpayers, my administration and the Michigan Legislature must possess the flexibility necessary to manage that risk. The Trump Administration may provide additional flexibility to states, however, I am concerned that federal agencies may encounter limitations in federal statute. Ultimately, Michigan cannot rely solely on the promise of future action without seeing all of the tools that will be at our disposal to manage the program.

In addition, under the proposed AHCA, I remain concerned about the affordability of insurance coverage in the individual market. I am particularly concerned about the impact this legislation may have on older Michiganders who could see significant cost increases. I welcome the opportunity to partner with you to provide greater federal budget predictability and improve health outcomes of Michiganders, which in turn relieves pressure on state budgets. I have worked with other Governors to develop a proposal to accomplish these objectives while also preserving coverage for Michiganders, and I hope we may continue to work together to accomplish these goals. I look forward to continuing our partnership to help Michiganders lead healthy and productive lives.

Sincerely,

RICK SNYDER,
Governor.

Mr. NEAL. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. PASCRELL), who is a well-regarded member of the Ways and Means Committee. I think it is fair to say that everybody in this institution looks forward to his time when he gets up to speak.

Mr. PASCRELL. Mr. Speaker, the question I get asked is: What the heck are we going to accomplish these objectives while also preserving coverage for Michiganders, and I hope we may continue to work together to accomplish these goals. I look forward to continuing our partnership to help Michiganders lead healthy and productive lives.

I came to Congress to make a difference, to find solutions to the many issues that vex our country. I came here to reduce the size and scope of an unwieldy government, to get government out of the way of everyday citizens. I came here to address spending, and force billion-dollar debt in this country, to bring back free-market principles. I came here to defend the Constitution and our founding principles, and turn power back to the States and to the people.

Here’s the thing: that said, every single one of these principles can be found in this bill. The American Health Care Act reduces spending and cuts the taxes that have strangled businesses and individuals for the last 7 years. It represents the first real entitlement reform in the 52-year history of Medicaid. It deletes Federal mandates that rob citizens of their individual liberty.

Mr. Speaker, this bill may not be perfect, but it is a dramatic step in the right direction. An administration that lectured us as to unsubstantiated facts and fear tactics as to how this is going to impact my State, I would suggest to you that 420,000 Michiganders eligible for Medicare said “thanks, but no thanks.” The AHCA would eliminate coverage from 38,200 people from his congressional district in Michigan losing their healthcare coverage, and 313,123 people in the State of Michigan, indeed, did sign up for the Affordable Care Act.

Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. CROWLEY), a long-time friend, a very sound member of the committee, and also the well-regarded chairman of the Democratic Caucus.

Mr. CROWLEY. Mr. Speaker, this bill is a bad policy built on horrible process. Twenty-four million Americans will lose their coverage if this bill becomes law. Premiums and out-of-pocket expensive will skyrocket, especially for older Americans because of the age tax, as hardworking Americans are forced to subsidize tax cuts for the wealthy.

It is no wonder this bill was crafted in the dead of night behind closed doors. It is so bad, even Members of the Republican Party are rejecting this bill, but President Trump and Republican leadership insisted they need to repeal ObamaCare at any cost, even if the price will be making health care out of reach for veterans, seniors, and many of the hardest-working Americans.

So the majority made it worse, and then they made it worse again. Now they have taken away the bare minimum of insurance that包括 covering emergency room visits or prescription drugs. It will crush any protections for preexisting conditions.
Mr. NEAL. Mr. Speaker, I remind my friend from New York, nearly four out of five New Yorkers said no to ObamaCare because it failed them. Seven years ago today, I brought the first repeal of ObamaCare here to this Congress. Forty words, to rip it out by the roots as if such act had never been enacted. I would like to be here today in opposition to the Republican’s so-called health care bill.

It pains me to even call it a healthcare bill because it is actually a massive tax cut for insurance CEOs that provides nearly zero healthcare benefits for the American people. It is a tax cut for the rich come into effect, on January 1, 2018, at least 40,000 of my own constituents would immediately lose their health care.

But that is not all. The Republican idea of health coverage will leave millions of Americans without the basic health services that they expect and that they deserve. That means that the monthly premium you pay won’t cover all of the services you will need to get better if you get sick. The Republican health care bill does not cover your emergency room visit, the X-rays, or even the prescription drugs you need to recover.

Mr. Speaker, I urge its adoption.

Mr. NEAL. Mr. Speaker, I yield 2 minutes to the gentlewoman from Alabama (Ms. SEWELL), a valued member of the Ways and Means Committee.

Ms. SÁNCHEZ. Mr. Speaker, I rise today in opposition to the Republican’s so-called health care bill.

It pains me to even call it a healthcare bill because it is actually a massive tax cut for insurance CEOs that provides nearly zero healthcare benefits for the American people. In fact, TrumpCare ensures that 24 million Americans will lose their health insurance coverage. Seniors will be charged more, and insurance companies will once again dictate the health of the American people. On the very day the Republican bill will take effect, for the rich come into effect, on January 1, 2018, at least 40,000 of my own constituents would immediately lose their health care.

So if you vote to break all of the promises you made to the American people, then you are going to own it, and you are going to be responsible for whatever happens. Vote down this bill.

Mr. BRADY of Texas. Mr. Speaker, I yield 1 minute to the gentlewoman from Alabama (Ms. SEWELL), a valued member of the Ways and Means Committee.

Ms. SEWELL of Alabama. Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Texas. Mr. Speaker, I yield 1 minute to the gentleman from Iowa (Mr. KING), my dear friend.

Mr. KING of Iowa. Mr. Speaker, I want to thank the chairman for yielding to me.

Seven years ago today, I brought the first repeal of ObamaCare here to this Congress. Forty words, to rip it out by the roots as if such act had never been enacted. I would like to be here today passing the full repeal of ObamaCare. We are going to do this: This is the first bite at the apple in a process to hopefully get all of this thing done in one day.

If I thought we could do it all in one bite, I would stand for that, but instead, here is what we have got. We have got a $1 trillion tax cut. We have got a $1.15 trillion spending cut. We have got a $150 billion deficit reduction. We have got a bill that eliminates the employer mandate, eliminates the individual mandate, and it eliminates Federal mandates in the essential health benefits package of those 10 mandates—that I despise, by the way.

It expands health savings accounts—doubles them—it allows for us to pass selling insurance across State lines, and it enables catastrophic health insurance. That is a pretty good list, and that is the list of things that I am going to support here when this goes up for a vote.

Mr. Speaker, I urge its adoption.

Mr. NEAL. Mr. Speaker, I remind my colleague that his vote for this bill will result in 40,900 people from his congressional district in Iowa losing health care coverage. I also want to thank the gentleman for being the first speaker on the Republican side to acknowledge that this is a tax cut.

Mr. Speaker, I yield 1 minute to the gentleman from Chicago, Illinois (Mr. DANNY K. DAVIS), a distinguished member of the Ways and Means Committee and my friend.

Mr. DANNY K. DAVIS of Illinois. Mr. Speaker, I rise in strong opposition to this draconian, Dracula-inspired health bill. It is not really a health bill at all. It is a $2 billion cut for Medicaid, a $2 billion cut for the wealthiest individuals in our country. This bill will decimate all of the public health gains that professional health personnel and activists have fought for the last 50 years.

This bill will take out the opportunity for those low- and moderate-income individuals who fall between the gap created by Medicaid and nothing. They are the least of those in our society. And when you take away health care for that group of individuals, history will not regard you well.

I believe that the best way to measure the effectiveness of a society is by how well it treats its young, how well it treats its old, and how well it treats those who have difficulty caring for themselves.

I will vote “no.” I urge us all to do so.

Mr. BRADY of Texas. Mr. Speaker, I remind my good friend from Illinois, nearly half a million Illinoisans have said no to ObamaCare because it failed them.

Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. SÁNCHEZ), the vice chair of the Democratic Caucus, and a very strong performer on the Ways and Means Committee.

Ms. SÁNCHEZ. Mr. Speaker, I rise today in opposition to the Republican’s so-called health care bill.

It is a tax cut for the rich. By every matrix, cost, coverage, and care, it is a bad deal. For the average American, TrumpCare, is a bad deal for Americans, and it is a bad deal for Alabamians. By every matrix, cost, coverage, and care, it is a bad deal. On cost, TrumpCare will hurt and give us less. For Alabama hospitals, TrumpCare will mean a $97 million increase in uncompensated cost care, and it is an age tax for seniors. Seniors will pay five times more than the young for their health insurance.

On coverage, TrumpCare will mean 24 million Americans and 243,000 Alabamians will lose their healthcare coverage. On quality of care, TrumpCare will mean that essential benefits will be lost: essential benefits like rehabilitation, home care, mental health, and preventive services.

Mr. Speaker, what is clear, TrumpCare is not a healthcare bill. It is a tax-cut-for-the-wealthy bill—$600 billion in tax cuts. So I say to you, my Republican colleagues know what they are against, the Affordable Care Act. But what are they for? What are they for? I ask all of you.

Mr. BRADY of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield the balance of my time.
Mr. NEAL. Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. CHU), a new member on the Ways and Means Committee, and a very thoughtful Member of Congress.

Ms. JUDY CHU of California. Mr. Speaker, my constituent Patty never had a worry about health care. Her husband had insurance through his job. But last year, Patty’s husband passed away suddenly. Overnight, Patty found herself without health coverage for herself and her 20-year-old son, who had a preexisting condition.

Even though she was grieving over the sudden loss of her husband, Patty couldn’t afford COBRA and had less than a month to find health care for her family. Thank goodness she was able to get coverage through the ACA.

Under TrumpCare, Patty could lose her insurance and 6 years old, and TrumpCare would cause premiums for people over 60 to increase by more than $6,000 a year, making insurance unaffordable. And under the age tax created in this bill, insurance companies could charge Patty five times as much as a young person. She could see skyrocketing costs for her hypertension and doctor’s visits.

TrumpCare is a bad deal for Americans like Patty.

Mr. Speaker, I urge my colleagues to vote a resounding “no” to this downright cruel bill.

Mr. BRADY of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield 1 minute to the gentleman from Oregon (Mr. DEFAZIO).

Mr. DEFAZIO. Mr. Speaker, this so-called health bill is actually just most- ly targeted for tax cuts for the wealthiest amongst us. Let’s look at it this way: a millionaire gets—they will see a million dollars a year—that is all he earns, just the tax cut the millionaire gets—they will see their premium go from $1,700 a year, to $15,000 a year. That is half their income.

They are going to have a choice: give up their house so they can buy health insurance or don’t buy health insurance and don’t have a health emergency, and go bankrupt or die. Those are great choices.

This says a lot about the values of the Republican leadership and their ob- session. Instead of fixing the problems with the Affordable Care Act, they want to kill it. It says a lot about their values. They are pathetic.

Mr. BRADY of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield 1 minute to the gentleman from Arizona (Mr. O’HALLERAN).

Mr. O’HALLERAN. Mr. Speaker, I rise in strong opposition to the so-called American Health Care Act. I am alarmed at the real consequences this bill will have on rural Arizona and rural America.

These communities will be disproportionately harmed by this bill. In Coconino County, a 40-year-old making $30,000 a year will go from a $2,400 payment to a $6,000 payment.

Getting away from my script for a second, I spent many years on the west side of Chicago looking at what the core side of poverty looks like night after night, family after family, in our cities and our towns in this wonderful America. I know a little bit about math, and I know that 20 million people insured is better than 24 million people uninsured. Please vote “no.”

Mr. BRADY of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield 30 seconds to the gentleman from Tennes- see (Mr. COHEN).

Mr. COHEN. Mr. Speaker, this is not a healthcare bill. This is a wealth care bill.

Unfortunately, President Trump, when he spoke in Louisville, said we had to pass this bill to get the big tax cuts. It is about wealth care. It is the Ebenezer Scrooge law of this Congress. The insurance you will get with the amendments made will be as worthless as the degree from Trump University. We do not need wealth care, but we need health care.

Mr. BRADY of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. NEAL. Mr. Speaker, I yield myself the balance of my time.

In closing, I want to make sure the people of America understand what we are doing here in 1 hour. We heard during the course of a Presidential campaign the promise that everything was going to be covered and we would be tired of winning.

If winning means that 24 million Americans are going to lose their healthcare coverage, if winning means imposing an age tax on seniors, if winning means higher out-of-pocket costs for working Americans, and if winning means robbing $75 billion from the Medicare trust fund, we don’t want to be part of that victory lap.

This isn’t about one person making up alternative facts. Our statements today have been based upon the CBO, the National Rural Health Association, the American Medical Association, the American Association of Retired Persons, and the March of Dimes.

This bill has fewer covered, weaker protections, and higher costs. Let’s call this what it is today; it is a $1 trillion tax cut for the richest amongst us.

The Republicans are now facing the art of the ordeal. They have a bad plan, and they know it. They have scammed for the last week to try to figure out how to stitch it together, and it hasn’t worked.

For those across this country, think of the following: no maternity care, fewer hospital visits, no mental health services for those families who are struggling with a family member who has an opiate addiction, which is the crisis of our time.

This is more of the same: tax cuts for the wealthiest amongst us and healthcare cuts for everyone else.

Mr. Speaker, I reserve the balance of my time.

Mr. BRADY of Texas. Mr. Speaker, I yield myself the balance of my time to close.

Mr. Speaker, do you want to know how bad ObamaCare is?

Twice as many Americans have ex- empted themselves, have paid a fine, or found another way out of ObamaCare for everyone who took it.

I am a conservative, and I am proud of the conservative win in this bill. I am proud of the $1 trillion in tax relief on our small businesses, our patients, and our families. I am proud of the more than $1 trillion of spending cuts that Washington cannot afford nor sustain.

I am proud of the first reforms in Medicaid since the program was cre- ated in giving States back control of that plan, including the option of a work requirement.

I am proud to repeal ObamaCare mandates that have forced Americans into health care they can’t afford and don’t want. I am proud to defund Planned Parenthood once and for all.

And I am proud of the $150 billion of deficit reduction.

This is a clear choice, and we will stand where we stand today: the choice between President Trump and more freedom or ObamaCare and less freedom. I stand with President Trump.

Mr. Speaker, I yield back the balance of my time.

Mrs. BLACK. Mr. Speaker, I yield myself such time as I may consume.

I include in the RECORD a letter dated March 7, 2017, from Dr. Thomas Price, the Secretary of Health and Human Services, who sent a letter of support for the American Health Care Act to Chairmen Walden and Brady.

THE SECRETARY OF
HEALTH AND HUMAN SERVICES,

Hon. Greg Walden, Chairman, Committee on Energy & Commerce, Washington, DC.

Hon. Kevin Brady, Chairman, Committee on Ways & Means, Washington, DC.

Dear Chairman Walden and Chairman Brady: On behalf of the Trump Administration, I am writing in support of the reconcili- ation, I am writing in support of the reconciliation recommendations recently released for consideration by your Committees. Together, they align with the President’s goal of rescuing Americans from the failures of the Affordable Care Act. These proposals offer patient-centered solutions that will provide all Americans with access to affordable, quality healthcare, promote innova- tion and offer peace of mind for those with pre-existing conditions.

Your legislative proposals are consistent with the President’s commitment to repeal the Affordable Care Act, provide advanceable, refundable tax credits for Americans who do not already receive such tax benefits through health insurance offered by their employers, end Medicaid on a sus- tainable path and remove burdensome require-
resources to those most in need; empower patients and put healthcare dollars and decisions back into their hands by expanding the use of health savings accounts; ensure a stable transition away from state lines, lower drug costs for patients, providing additional flexibility in Medicaid for states to manage their programs in a way that best serves their citizens, or medical legal reforms. Your proposals represent a necessary and important first step toward fulfilling our promises to the American people. We look forward to working with you throughout the legislative process, making necessary technical and appropriate changes, and ensuring an eventual arrival of this important bill on the President’s desk.

Yours true,

Thomas E. Price, M.D.
Secretary

Mrs. BLACK. Mr. Speaker, I include in the RECORD a letter that comes from 21 of our Governors in support of the repeal of ObamaCare, and I would like to read just two quick paragraphs out of the letter:

“We support efforts to Reform the system.

“...We support efforts to Reform the system.

“To provide access to affordable and quality health care, we must reform the system. We support a plan that gives state governments maximum flexibility to reform Medicaid and the system surrounding it. The states are more effective, more efficient and more accountable to the people. What works in one state may not work in another location, and true reform will allow states to recognize and meet the unique needs of the people all across America.

“We recognize that a vote in the House of Representatives is the first step in the Repeal, Replace and Reform process. The members of the United States Senate will undoubtedly make additional improvements before final approval by the President. We also recognize that the Secretary of Health and Human Services is committed to working with state leaders to provide maximum flexibility for true reform...”

MARCH 24, 2017.

Hon. MITCH MCCONNELL,
Majority Leader, U.S. Senate,
Washington, D.C.

Hon. PAUL D. RYAN,
Speaker, House of Representatives,
Washington, D.C.

Dear Mr. McConnell and Speaker Ryan:
Thank you for your service to our country. Please allow us to offer our thoughts about the pending vote on the American Health Care Act. Americans want personalized, patient-centered healthcare that treats them as individuals not a statistic, and that demands we repeal ObamaCare, replace it, and reform the system.

WE SUPPORT THE REPEAL OF OBAMACARE

ObamaCare is collapsing. If we do nothing, people will lose access to health care coverage. In east Texas, who writes me:

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. HENSARLING), the chair of the Financial Services Committee.

Mr. HENSARLING. Mr. Speaker, tragically, I receive correspondence every week like this. I heard from Rita in east Texas, who writes me:

Since ObamaCare took effect, my insurance no longer covers my colonoscopies as
proventative care. I now pay $1,000 and more out of pocket versus $100 outpatient fee.

I heard from Frances in the Dallas area near where I live. A few years ago she was traumatically diagnosed with tonsil cancer. The good news is she had a good policy; $600 a month premium and a maximum out of pocket of $3,500. But thanks to ObamaCare, her insurance company dropped her twice, and she wrote:

They dropped me again because they are leaving the Dallas market.

Her premiums and deductibles doubled. She lost her oncologist, and she writes that this is all because of ObamaCare, the Affordable Care Act.

I heard from Tonya in Van Zandt County, in my district:

We had five family members covered by insurance at around $800 a month until ObamaCare. Our insurance premiums skyrocketed to $1,500 a month, equivalent to a house payment, with a $15,000 deductible, and we cannot see the doctors that know our medical history. Repeal it. I should not be forced to pay for something I cannot use. This law is a nightmare.  

Mr. Speaker, ObamaCare has been a nightmare. It is collapsing as we speak. People are losing their coverages. Insurance plans are pulling out of States and counties. Tens of millions of our fellow countrymen have been forced to buy health insurance plans they cannot afford, they do not want, and that do not work for them.

Right here, right now, we have a choice: failed ObamaCare or the American Health Care Act that begins the process of providing Americans with guaranteed access to quality, affordable, patient-centered health care.

It clearly advances the cause of freedom, and all Members should support it and end the nightmare of ObamaCare.

Mr. SCOTT of Virginia. Mr. Speaker, I ask unanimous consent that I be allowed to manage the balance of the time remaining.  

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Virginia?

There was no objection.

Mr. SCOTT of Virginia. Mr. Speaker. I yield myself such time as I may consume.

Mr. Speaker, as we talk about the Affordable Care Act, I think it is important to remind ourselves of the situation before it passed: costs were going to increase by $600 per month— increase by $600 per month. Since she was of age to be on Medicare but wasn’t working because she was at home caring for a sick husband, she was frustrated with her situation.

Kaye, from Roanoke, contacted me about President Obama’s promise that she could keep her health care. She shared that she received a letter from her insurer stating that her policy was going to increase by $600 per month— increase by $600 per month. Since she wasn’t of age to be on Medicare but wasn’t working because she was at home caring for a sick husband, she was frustrated with her situation.

Kaye couldn’t afford the extra money she owed on top of the bills for her husband’s medical treatment. She told me: ‘‘So I will now have to pay the fine, drop my insurance, and hope I do not get sick.’’ I told Kay I would vote to repeal and replace ObamaCare.

Mr. Speaker, I told my constituents that I would stand for them to repeal the law that has hurt their ability to get the affordable care they want and need. Passing the American Health Care Act is the first step in repealing ObamaCare and replacing it with solutions that put patients first.

I urge my fellow Members to support this bill. ObamaCare has failed far too many in the Sixth District of Virginia. The status quo cannot continue.

Mr. SCOTT of Virginia. Mr. Speaker, I remind my distinguished colleague from Virginia that the bill will result in 56,100 more people from his congressional district in Virginia losing health care.

Mr. Speaker, I yield 1 minute to the gentleman from the Mariana Islands (Mr. SABLAN).

Mr. SABLAN. Mr. Speaker, I oppose the American Health Care Act because it fails to increase coverage for 3.8 million Americans in the insular areas: American Samoa, Guam, the U.S. Virgin Islands, Puerto Rico, and my own district, the Mariana Islands.

President Trump promised, ’’Everybody’s going to be taken care of much better than they’re taken care of now,’’ but that is not happening. Instead of taking the opportunity to take care of all Americans, the American Health Care Act ignores the insular areas:

We are not included in the new Medicaid per capita funding proposal. As a matter of fact, in a year, we would see our Medicare funding reduced by 68 percent.

We are not included in the new Patient and State Stability Fund. And the new tax credit for insurance premium is legislatively a new cost, an unfunded Federal mandate, imposed by Congress on territorial governments.

Everyone in this Chamber wants affordable, quality health care for all Americans. This bill fails to do that. So let us begin again. Let us work together. Let us work as one, as a Congress of colleague and friend. The President has set and many of us share: insurance for everyone, not just the rich.  

Now your coverage can’t be canceled if your insurance company decides that it has paid too much. Preventive services, such as cancer screenings, are free with no copays and deductibles. We are closing the doughnut hole. Those under 26 can stay on their parents’ policies.

We also committed health centers, made investments in education to produce more doctors, nurses, and other professionals. Through all of that, the Medicare trust fund is more solvent than it was before.

Still, the law is imperfect. But if we are going to make any changes, we ought to improve the law, not make it worse.

Incredibly this bill makes it worse. Now, the CBO has separated promises and press releases from reality. Twenty-four million fewer people will have insurance, and the Republicans call this choice in freedom to be uninsured. Most everybody else will pay more and get fewer benefits. All of those consequences will occur if the proposal actually works.

A number of States have done what this bill tries to do, and that is cover people with preexisting conditions without universal coverage. All of those attempts failed.

So the question we must ask is: Who will be better off if this bill passes? Whose life will be better, who will face the bill’s age tax. Certainly not veterans who will lose benefits. Certainly not senior citizens in nursing homes and people with disabilities because Medicaid is cut. Even the solvency of the Medicare trust fund will be worse.

But millionaires will get tax cuts.

Mr. Speaker, we have been hearing a lot of complaints and shortcomings about the Affordable Care Act, but if we are going to make any changes, we should improve it. Unfortunately, this bill makes things worse: 24 million will lose their insurance, most everybody else will pay more and get less. This bill should be defeated.

Mr. Speaker, I reserve the balance of my time.

Mrs. BLACK. Mr. Speaker, it is now my honor to yield 2 minutes to the gentleman from Virginia (Mr. GOODLATTE), the distinguished chairman of the Judiciary Committee.

Mr. GOODLATTE. Mr. Speaker, I want to tell you why I am supporting this legislation, the American Health Care Act.

Kaye, from Roanoke, contacted me about President Obama’s promise that she could keep her health care. She shared that she received a letter from her insurer stating that her policy was going to increase by $600 per month— increase by $600 per month. Since she wasn’t of age to be on Medicare but wasn’t working because she was at home caring for a sick husband, she was frustrated with her situation.

Kaye couldn’t afford the extra money she owed on top of the bills for her husband’s medical treatment. She told me: ‘‘So I will now have to pay the fine, drop my insurance, and hope I do not get sick.’’ I told Kay I would vote to repeal and replace ObamaCare.

Mr. Speaker, I told my constituents that I would stand for them to repeal the law that has hurt their ability to get the affordable care they want and need. Passing the American Health Care Act is the first step in repealing ObamaCare and replacing it with solutions that put patients first.

I urge my fellow Members to support this bill. ObamaCare has failed far too many in the Sixth District of Virginia. The status quo cannot continue.

Mr. SCOTT of Virginia. Mr. Speaker, I remind my distinguished colleague from Virginia that the bill will result in 56,100 more people from his congressional district in Virginia losing health care.

Mr. Speaker, I yield 1 minute to the gentleman from the Mariana Islands (Mr. SABLAN).

Mr. SABLAN. Mr. Speaker, I oppose the American Health Care Act because it fails to increase coverage for 3.8 million Americans in the insular areas: American Samoa, Guam, the U.S. Virgin Islands, Puerto Rico, and my own district, the Mariana Islands.

President Trump promised, ‘‘Everybody’s going to be taken care of much better than they’re taken care of now,’’ but that is not happening. Instead of taking the opportunity to take care of all Americans, the American Health Care Act ignores the insular areas:

We are not included in the new Medicaid per capita funding proposal. As a matter of fact, in a year, we would see our Medicare funding reduced by 68 percent.

We are not included in the new Patient and State Stability Fund. And the new tax credit for insurance premium is legislatively a new cost, an unfunded Federal mandate, imposed by Congress on territorial governments.

Everyone in this Chamber wants affordable, quality health care for all Americans. This bill fails to do that. So let us begin again. Let us work together. Let us work as one, as a Congress of colleague and friend. The President has set and many of us share: insurance for everyone, not just the rich.
Mrs. BLACK. Mr. Speaker, I yield 1½ minutes to the distinguished gentleman from Florida (Mr. DUNN).

Mr. DUNN. Mr. Speaker, I rise to repeal ObamaCare by supporting the American Health Care Act. We are here to take health care back from the bureaucracy and give it to the people.

The previous administration enacted ObamaCare, and we saw its effects: higher premiums, less choice, lost coverage, and broken promises. The deductible plan is bad, and it is like not having insurance at all.

The people who sent me to Congress sent me with strict orders: End this law. And on the American Health Care Act, I can report, it does.

With this bill, the Federal Government no longer forces you to buy a product you can’t use and don’t want. The individual mandate is gone, so is the job-killing employer mandate. Gone are a host of taxes on prescription meds, over-the-counter drugs, insurance premiums, and lifesaving medical devices.

It ends ObamaCare’s Medicaid expansion, and it puts Medicaid on a budget and focuses State efforts on those people truly in need. This is the biggest entitlement reform in a generation.

Of course the bill is not perfect. There is more to do. But I spent 30 years as a surgeon. In medicine, as in life, you do not get to choose the perfect option. You learn not to make perfect the enemy of the good.

With this vote we decide whether ObamaCare is our healthcare future or not. We can live with its failures and broken promises or create a market-based system that actually lowers the cost of health care and serves patients, not bureaucrats.

So I support the American Health Care Act, Mr. Speaker, and I urge that all Members do the same.

Mr. SCOTT of Virginia. Mr. Speaker, I remind my colleague that his vote for this bill will result in 63,900 people from his congressional district in Florida losing healthcare coverage and care.

I yield 1 minute to the gentleman from Connecticut (Mr. COURTNEY).

Mr. COURTNEY. Mr. Speaker, in a few minutes, the American people will see clearly what each and every Member of this House is made of. Will we vote to willfully strip healthcare coverage for 24 million Americans, older Americans, working Americans, Americans with chronic illness and developmental disabilities and now, incredibly, we even know, Americans who wore the uniform of this Nation?

In a few minutes, we will see who will vote to raid the Medicare trust fund in order to cut Medicare taxes for the rich, and we will see who will vote to cut Medicaid’s coverage for patients struggling with the curse of opioid addiction.

Mr. Speaker, this is not just a vote. This is a gut check of who we are as people and whether our purpose, as elected officials, is to serve the public interest or, rather, feckless special interests.

Show the Nation that we care more about people than politics, that we care more about the long arc of American history toward justice rather than the short, short cycle of who is up and who is down in Washington.

Make no mistake: History is watching this vote. Vote “no.”

Mrs. BLACK. Mr. Speaker, I yield 1½ minutes to the gentleman from Louisiana (Mr. ABRAHAM), who is a family practitioner and knows a little about medicine.

Mr. ABRAHAM. Mr. Speaker, as a practicing physician in the Louisiana and Mississippi delta, I have some of the best patients, but some of the poorest. They can’t afford to see me because they can’t afford ObamaCare, increased costs, skyrocketing premiums, high deductibles. I can’t cure a disease if I can’t see the patient. The cost is just too high for ObamaCare.

We have heard about Medicaid expansion here today. That is a second-class insurance for first-class people. I can’t get my patients to see a specialist. They have to go to the hospital. They have to go to the emergency room. Prices go through the roof.

I have heard my colleagues on the other side of the aisle reference the Hippocratic Oath. With all due respect, I don’t think they would know what the Hippocratic Oath says if their life depended on it. Guess what? It does. Google it.

Let me educate you. Let me educate our colleagues. It says I will always do what is right. I will always treat my patients as I would like to be treated. I will always do no harm. I will always respect the dignity of my patients. I will always respect the dignity of all Americans. This bill will do just that.

We have got to do better. We cannot cram people into a healthcare system that has failed just so politicians can thump their chest and have some type of mysterious victory that is hollow and very, very small.

We need to pass this American Health Care Act. ObamaCare has failed. It is a sham of an insurance. Americans deserve better. We deserve better as Americans. Let us strive and do better.

Mr. SCOTT of Virginia. Mr. Speaker, I remind my colleague that his vote for this bill will result in 51,700 people in his district losing their coverage and care.

Mr. Speaker, I include in the RECORD a letter from the American Academy of Family Physicians, the American Academy of Pediatrics, the American Academy of Medicine, the American College of Obstetricians and Gynecologists, and the American Osteopathic Association in opposition to the legislation.

[From the American Academy of Family Physicians, American Academy of Pediatricians, American College of Physicians, American Congress of Obstetricians and Gynecologists, and the American Osteopathic Association in opposition to the legislation.]

America’s Frontline Physicians Express Serious Concerns With the American Health Care Act

Washington, DC—After the release of the two budget reconciliation bills today, the physician leaders of our organizations, representing over 500,000 physicians and medical students, visited with members of the House of Representatives to urge that they “First, do no harm” to our patients by reeling back key coverage benefits, and consumer protections as required under current law, including the Affordable Care Act. We are concerned that by rushing to a mark-up tomorrow in the Energy and Commerce and Ways and Means Committees, there will be insufficient time to obtain non-partisan estimates of legislation’s impact on the Congres- sional Budget Office, or for medical organizations like ours and other key stakeholders in the health care community to offer substantive input on the bill.

During our meetings with members of the House of Representatives today, we shared our principles of good health care reform. They reflect our collective expertise, and represent the health care needs patients present to our members every day. We urge Representatives to utilize these principles to evaluate any legislation to modify current law, and ensure that patients and providers are not adversely affected. While each of our organizations individually is opposing the changes proposed by the American Health Care Act, released just hours ago, we share concern that what our principles because it will likely result in less access to coverage and higher costs for millions of patients.

Mr. Speaker, House Speaker Paul Ryan (R-WI) and the chairs of these two committees to reconsider the decision to move forward with mark-up, and instead allow the time needed for a thorough review of the bill to ensure that it meets our overarching principle, “First, do no harm” to patients.

About the American Academy of Family Physicians

Founded in 1947, the AAPF represents 124,900 physicians and medical students nationwide. It is the only medical society devoted solely to primary care. Family physicians conduct approximately one in five office visits—that’s 192 million visits annually or 48 percent more than the next most visited medical specialty. Today, family physicians provide more care for America’s under- served and rural populations than any other medical specialty. Family medicine’s corner stone is an ongoing physician relationship focused on integrated care. To learn more about the specialty of family medicine, the AAPF’s positions (5 page PDF) and contact us for downloadable multi-media highlighting family medicine, visit www.aafp.org/media. For information about health care, health conditions and wellness, please visit the AAPF’s award-winning consumer website, www.FamilyDoctor.org (www.familydoctor.org).

About the American Academy of Pediatrics

The American Academy of Pediatrics is an organization of 66,000 primary care pediatricians, pediatric medical subspecialists and pediatric surgical specialists dedicated to the health, safety and well being of infants, children, adolescents and young adults. For more information, visit www.aap.org and follow us on Twitter @AmerAcadPeds.

About the American College of Physicians

The American College of Physicians is the largest medical specialty organization in the United States. ACP members include 148,000 internal medicine physicians (internists), related medical subspecialists and medical students. Internal medicine physicians are specialists who apply scientific knowledge and clinical expertise to the diagnosis, treatment, and compassionate care of the spectrum from health to complex illness. Follow ACP on Twitter and Facebook.
ABOUT THE AMERICAN CONGRESS OF OBSTETRICIANS AND GYNECOLOGISTS

The American College of Obstetricians and Gynecologists (The College), a 501(c)(3) organization, is the nation's leading group of physicians providing health care for women. As a private, voluntary, nonprofit membership organization of more than 57,000 members, The College strongly advocates for quality health care for women. Maintaining the highest standards of clinical practice and continuing education of its members, the College promotes patient education, and increases awareness among women and patients of the changing issues facing women's health care. The American Congress of Obstetricians and Gynecologists (ACOG), a 501(c)(6) organization, is a companion.

ABOUT THE AMERICAN OSTEOPATHIC ASSOCIATION

The American Osteopathic Association (AOA) represents more than 120,000 osteopathic physicians (DOs) and osteopathic medical students; promotes public health; encourages scientific research; serves as the primary certifying body for DOs; and is the accrediting agency for osteopathic medical schools. Visit DoctorsThatDo.org to learn more about osteopathic medicine.

Mr. SCOTT of Virginia. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Ms. FUDGE).

Ms. FUDGE. Mr. Speaker, what is a life worth? What does it cost to save the life of a sick child or a senior citizen?

For all of the rhetoric about freedom and choices, this bill sends a clear message that there is too much cost associated with life-saving care.

They are telling hardworking families that insurance that only benefits the wealthy, the healthy, and the young is more important than access to nursing homes, to pediatric care, mental health services, substance abuse treatment, and the overall peace of mind that, if you get sick, you can afford care.

Speaker RYAN calls this "an act of mercy." This is by no means merciful, Mr. Speaker. Mercy is caring for the sick, the poor, for our elders. Mercy is extending a hand to those in need. This is heartless.

Human decency demands a "no" vote on TrumpCare. Vote "no."

Mrs. BLACK. Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. CONWAY), the chairman of the Agriculture Committee.

Mr. CONWAY. Mr. Speaker, we are faced with an unenviable choice of the fact that there is infinite demand for health care. There is no top on the amount of healthcare cost necessary to provide all the health care that we want for everybody in this country, and we have limited resources within which to do that.

The real question is: Does ObamaCare take up that task by asking government to make those hard choices, or do we as individuals and families and communities make those harder choices for ourselves?

I believe that the bill that we will get to vote on today moves us toward that direction. This isn't about health care, per se; this is about how do you pay for it.

Insurance is not a magic bullet anywhere across the spectrum. Insurance is simply a scheme in which we risk-manage together. We put a certain amount of money into a bucket, assuming not all of us will suffer the risks that we want to cover. If we do, we have got to put more money in; if we don't, then the system works.

This bill is to that extent that there is too much cost for the amount of resources that are available in any of these circumstances, and it is hard.

Many of my constituents ask: Why did Republicans spend 6 years railing against ObamaCare and not have the fix available on Inauguration Day? Will this even work?

Well, this is Exhibit A. This is hard stuff. Even among Republicans, we have got more than 218 votes among us, and we can't agree among ourselves necessarily what to do forward.

But I do know this, that we are down to the final choice: Do we keep ObamaCare and the failure that is confronting us and will continue to be there, or do we take a chance on moving toward what we believe is a different, moving toward freedom, moving toward choice, giving States back the opportunity to decide for their indigent population how they should take care of them?

I don't think anybody in Washington, D.C., can come up with a plan that fixes that for all 50 States. I trust my colleagues in Austin to make that happen far better than anybody I would trust in D.C., and this bill moves that direction, and that is the right direction for us to go.

This is a hard choice, but for me it is relatively straightforward. You keep ObamaCare with a "no" vote. You move toward a brighter future for the 68 million and the way we pay for it, who pays for it, and how we get that done by a "yes" vote. I encourage my colleagues to vote "yes" on this bill.

Mr. SCOTT of Virginia, Mr. Speaker, I remind my colleague that his vote for this bill will result in making things worse by 58,600 people in his district losing their healthcare coverage and care.

Mr. Speaker, I yield 1 minute to the gentlewoman from Florida (Ms. WILSON).

Ms. WILSON of Florida. Mr. Speaker, I would like to begin by asking my Republican colleagues one simple question: Don't you have constituents who get sick and need insurance?

Having insurance gives us peace of mind. It helps ensure that a medical crisis is not exacerbated by a financial crisis. It often makes a difference between life and death. If the Affordable Care Act is repealed, your constituents and millions of people will be kicked off the insurance roll, and that is a shame. They will suffer, and their families will suffer.

I have health insurance, and so does every Member of Congress. We even have a clinic and doctors at our disposal right here in this Capitol.

Doesn't every American deserve the same treatment as Members of Congress?

Instead of moving backwards, Republicans should partner with Democrats to amend and strengthen the existing law. By working together, we can create a plan that works for all Americans, not just the Members of Congress. Vote "no." Vote "no."

Ms. KAPTUR. Mr. Speaker, the Affordable Care Act needs to be repaired, not repealed. In 2010, Democrats passed health care reform in an effort to move toward health insurance for all Americans. Though we have made progress and more work to do, we cannot move America backward. Tens of thousands of people in northern Ohio and millions across America will lose insurance if TrumpCare becomes law.

This bill is cruel. It will take away care from some of our most vulnerable citizens like those who suffer from opioid addiction, mental illness or have disabilities. This bill will undermine Medicaid and cut $28 billion from Ohio's Medicaid program, the majority of which is spent on nursing home care. If Republicans succeed in repealing the Medicaid expansion, one in four Ohio hospitals would close according to the Ohio Hospital Association.

Our goal should be to make our health care system better, not worse. This merciless bill is not a health care bill. This bill is an $800 billion tax cut for corporations and the very rich. How that giveaway provides better health care to working and middle-class families is beyond me.

For Lent I gave up chocolate, I recommend the Republicans try giving up tax cuts to the rich.

Let me share a story about a young man in Ohio who was diagnosed with an extremely rare form of cancer one month before his 26th birthday.

Once he turned 26 he lost coverage under his parent's health care policy.

But after visiting an Ohio Jobs and Family Services office, he learned about his eligibility for the Ohio Medicaid expansion, which allowed him to receive the cancer treatment he needed to survive.

Frankly, without the Affordable Care Act's multi-layered protections, he would be dead.

The Affordable Care Act and its Medicaid expansion has allowed him to return to finish law school.

This bill shifts the burden of health costs to the working and middle class, all so the rich can have a trillion dollar tax cut. A tax cut for the super rich doesn't help working people and seniors get health care. Astonishingly, the falsely labeled, so called "health" bill actually rewards billionaires and corporations with hundreds of billions in tax giveaways.

This bill does nothing to control costs for health insurance. Millions will lose coverage. It will actually result in higher costs too all while undermining Medicare and Medicaid.

Congress ought to repair not repeal the ACA. We cannot move backward. This GOP bill is cruel and some of our most challenged
citizens like the mentally ill or disabled will lose care. Premiums for those over 50 could increase by 5 fold. As the old saying goes, “this dog won’t hunt.”

Ohio embraced the ACA and 866,000 people were finally able to receive health care coverage. But for this poorly conceived Republican tax giveaway bill do to Ohio:

1. About 47,000 will lose health insurance because they are insured through the ACA in Ohio’s 9th district.
2. 1% of the district’s uninsured rate has gone from 13.3% to 7.0% since the ACA was implemented. This 6.3 percentage point drop in the uninsured rate could be reversed if the ACA is entirely or partially repealed.
3. 318,900 individuals in the district who now have health insurance that covers preventive services like cancer screenings and flu shots without any co-pays, coinsurance, or deductibles stand to lose this access if the Republican Congress eliminates ACA provisions requiring health insurers to cover important preventive services without cost-sharing.
4. 370,700 individuals in the district with employer-sponsored health insurance are at risk of losing important consumer protections like the prohibition on annual and lifetime limits, pre-existing condition exclusions, and coverage of preexisting health conditions, if the ACA is entirely or partially repealed.

This Republican bill, hastily prepared, should be defeated. It is cruel, will leave millions of our fellow citizens bankrupt and destitute. What will this poorly conceived provision do to Ohio? It will make the health care of Ohioans who receive Medicaid, including tens of thousands of my constituents, more difficult to access. It will also put Ohioans behind. We know that TrumpCare will cause 24 million Americans to lose insurance plan—or have received an exemption from the individual mandate penalty or claimed an exemption, have actually purchased a plan through the exchange.

Groups like the American Medical Association, the American College of Physicians, the American Academy of Pediatrics and the American Nurses Association, just to name a few, are urging Congress to stop TrumpCare. These are the men and women who are out there on the front lines everyday treating and healing our fellow Americans.

To make things worse, TrumpCare is being rushed to the floor with minimal deliberation. It was introduced less than three weeks ago and we have not held a single hearing or heard from a single expert witness on it. Now we are being asked to vote on it despite receiving the newest version of the manager’s amendment late last night. This is not the regular order and transparency that the Republicans promised.

Mr. Speaker, this bill pushes the cost of health care onto those who can least afford it while providing massive tax cuts for the wealthy. I urge my fellow members to defeat this misguided bill and let us begin the serious work of making real improvements in the Affordable Care Act for all Americans.

Mrs. BEATTY. Mr. Speaker, I rise today to express my opposition to TrumpCare and my strong support for the Affordable Care Act.

Since the ACA was enacted seven years ago, more than 20 million Americans have gained access to affordable and high quality health insurance, including nearly one million Ohioans.

We thought 129 million Americans with pre-existing conditions would be able to keep their health care coverage. We thought 105 million Americans would no longer have to worry about annual or lifetime limits. Yet, we are here today wending back the clock on all the progress we have made based on a bill that wasn’t released to the public until last night.

What’s the rush to pass a bill that affects so many people without letting the public view it? What’s the rush to pass a bill that affects so many people without a new CBO score?

Mr. Speaker, we know that TrumpCare will cause Americans to pay more for less coverage. We know that TrumpCare will provide a massive tax cut to the super rich 400 families and leave the other 99.9 percent of people behind. We know that TrumpCare will cause 24 million Americans to lose their health insurance, including tens of thousands of my constituents in the Third Congressional District of Ohio. We know that TrumpCare will slash Medicaid funding by $880 billion. We also know that TrumpCare will put 13 million children, people with disabilities and adults just one emergency visit away from financial catastrophe.

Mr. Speaker, these cuts hurt people all across the country. AffordableCare will not make healthcare more affordable.

Democrats believe healthcare is a right, not a privilege. I join my colleagues in fighting for affordable healthcare for all Americans. I will vote no, and urge all my colleagues to vote no as well.

Mr. SMITH of New Jersey. Mr. Speaker, while the Affordable Care Act has been in effect since 2010, it has only provided actual access to health insurance benefits through the exchange and Medicaid expansion for a little over 3 years—beginning in 2014.

In that short period of time, however, serious problems and flaws have been exposed, yet in recent months the law’s systemic problems have been trivialized or ignored by many. Today, buying an insurance policy on the exchanges with high premiums, high copays, and most importantly, exceedingly high deductibles make the actual utilization of health benefits far costlier than originally advertised.

Republicans were told repeatedly that the ACA would save up to $2,500 in premium payments per family per year. President Obama said: “I will sign a universal health care bill into law by the end of my first term as president that will cover every American and cut the cost of a typical family’s premium by up to $2,500 a year.”

That didn’t happen—not even close.

Nationwide, since 2016, gross premiums before subsidies in the Bronze-priced tier rose a whopping 27 percent, silver 24 percent and gold 32 percent.

That should come as no surprise. As early as August 2012, Politifact found President Obama’s promise to be untrue and labeled the statement a “promise broken” in a Politifact report entitled: NO cut in premiums for typical family.

Health insurance consumers were promised they could keep their insurance plan if they liked it and keep their trusted doctors as well. That didn’t happen either.

As a matter of fact, several million were kicked off insurance plans they were very satisfied with—like my wife and I—only to be forced into an Obamacare plan that we didn’t want and was more expensive.

Also, in New Jersey—like much of the nation—insurance companies are pulling out of the exchanges. Insurers continue to exit the individual market and the exchange has experienced a net loss of 88 insurers. Today, five million families either have one insurer option. At home, last year five insurance carriers offered plans on the New Jersey exchange, today only two remain. The exodus of insurance companies from the individual market is an unsustainable and ominous trend.

Mr. Speaker, almost twice as many Americans have paid the financial penalty—pursuant to what is euphemistically called the “individual mandate”—for not buying a health insurance plan—or have received an exemption from the individual mandate as those who have actually purchased a plan through the exchange. By the numbers that means 19.2 million taxpayers either paid the individual mandate penalty or claimed an exemption, compared to 10.3 million individuals who paid for plans on the Obamacare exchanges.

Obamacare also increased taxes by about one trillion dollars.

For example, beginning in 2020, a new 40% excise tax on employer provided comprehensive health insurance plans is scheduled to take effect. Any plan provided by an employer exceeding $10,200 for individuals and $27,500 for families will be taxed at 40 percent for each dollar above those numbers. According to the Kaiser Family Foundation this so-called Cadillac tax will hit 26 percent of employers by 2020.

According to the IRS, approximately 10 million families took advantage of the chronic care tax deduction which is now been redefined out of reach for many. New taxes combined with skyrocketing premiums, copays and deductibles underscores the need for serious review, reevaluation and reform.

That said Mr. Speaker, I remain deeply concerned—and will vote no today—largely because the pending bill cuts Medicaid funding.
by an estimated $839 billion over ten years according to the Congressional Budget Office (CBO), rolls back Medicaid expansion, cancels essential health benefits such as maternity and newborn care, hospitalization, pediatric services, and mental health and substance use treatment. The AHCA also includes "per capita caps"—i.e., limits of which will likely hurt disabled persons, the elderly and the working poor.

For years, I have supported Medicaid expansion as a meaningful way of providing access to health care for struggling individuals and families living above the poverty line but still pushed below the health insurance safety net. For example, as of June 2014, 80 percent of all Medicaid enrollees in New Jersey are families with at least one working adult in 2017. Although more than 800,000 children are served by Medicaid in my state, the bulk of Medicaid funds are spent assisting the disabled and the elderly. In New Jersey approximately 74 percent of all Medicaid spending goes directly to assist persons with disabilities and senior citizens. Two out of every five people in nursing homes are on Medicaid.

According to the New Jersey Department of Human Services, in New Jersey total enrollment in Medicaid in February 2017 was 1.77 million people. Of that a significant number are newly enrolled under Medicaid expansion—663,523 "newly eligible." There are many who need and deserve our support. Current law provides states that opted to embrace Medicaid Expansion—like New Jersey—95 percent of the costs for the "newly enrolled." The federal share drops to 90 percent by 2020.

With the AHCA and the American Health Care Act continues Medicaid expansion however only until 2020. Those enrolled before December 31, 2019 would be grandfathered in at the 90 percent match rate but the federal-state match formula would then be reduced to a range between 75 percent–25 percent to 50 percent–50 percent or any new enrollee.

What does that mean?

The United State Conference of Catholic Bishops wrote each of us on March 17th: "...it is our assessment that some provisions of the AHCA, as written (and they reference the pro-life safeguards and other noteworthy provisions in the bill) ... while others present grave challenges that must be addressed before passage ... millions of people who would be eligible for Medicaid under current law will be negatively impacted due to reduced funding from the per capita cap system proposed in the legislation, according to the CBO. Those struggling families who currently receive Medicaid coverage from the recent expansion will see dramatic changes through the AHCA as well, with clear indication of affordable, adequate coverage to replace their current options. Many states begin their legislative sessions every cycle by attempting to overcome major deficits. State and local resources are unlikely to be sufficient to cover the gaps that will be created in the health care safety net as financial responsibility is further shifted to the states. Congress must rework the Medicaid-related provisions of the AHCA to fix these problems and ensure access for all, and especially for those most in need."

A letter led by the Consortium For Citizens with Disabilities, and signed by over 60 organizations states:“Dramatic reductions in federal support for Medicaid will force states to cut services and/or eligibility that puts the health and wellbeing of people with disabilities at significant risk. In fact, people with disabilities are particularly at risk because so many waivers and home- and community-based services are optional Medicaid services and will likely be the first services cut when states are addressing budgetary shortfalls. People with disabilities, independence, and wellbeing of 10 million enrollees living with disabilities and, often, their families, depends on funding the services that Medicaid provides. Likewise, Medicaid Expansion provides coverage for millions of people with disabilities who previously fell into healthcare coverage gaps. For many people with disabilities, being able to access timely, needed care is a life or death matter. The drastic cuts to Medicaid that will result from per capita caps and the ultimate elimination of Medicaid Expansion will endanger millions."

Autism Speaks, a leading autism awareness, science, and advocacy group, further articulated another concern, that "the choice of 2016 as a baseline year for per capita caps may prevent states from addressing the needs of children with autism. In July 2014 the Center for Medicaid and CHIP Services issued an informational bulletin clarifying Medicaid coverage of services to children with autism, including benefit requirements for the Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) program. Although EPSDT is a mandatory Medicaid program, few states in 2016 funded autism services at the required standard of care. Locking in 2016 as a baseline year can only perpetuate this historic under-funding of EPSDT benefits."

Ms. ROYBAL-ALLARD. Mr. Speaker, for my constituents and all Americans, Trumpcare would result in higher costs, less coverage, a crushing age tax for persons 50 to 64, a shorter Medicare life span, and the ransacking of the Medicaid funds that enable seniors to get the long term care they need. And last night, Republicans added a provision that would prohibit our veterans who are eligible to receive VA care from receiving any tax credits to help pay for their care outside the VA, even if they are not enrolled in the VA.

In my congressional district, the uninsured rate dropped from 31.7 to 17.5 percent due to Obamacare.

Among my constituents who benefited are a young mother from Bell Gardens, California, and her 15-month-old daughter, Olivia, who was born with Down Syndrome. Because of Obamacare’s Medicaid expansion in California, Olivia was able to have her congenital heart defect repaired shortly after birth. She is now being followed by a cardiologist to ensure her ongoing care for a healthy heart.

Obamacare’s Medicaid expansion also makes it possible for baby Olivia to receive early intervention and physical therapy services to enhance and accelerate her development.

Olivia’s mom is terrified that if Trumpcare passes, her daughter may not be able to receive these services, which help her remain healthy and make it possible for her to reach critical developmental milestones.

Republicans like to call Obamacare a failed disaster. That is simply one more example of their “alternative facts.” The Republican Trumpcare bill before us is the disaster waiting to unfold for countless families like Olivia’s, and millions of Americans across our country.

I urge my colleagues to vote no on behalf of the American people.

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise in strong opposition to H.R. 1628, the American Health Care Act, which not only seeks to repeal the Patient Protection and Affordable Care Act, but reform entitlements, redistribute wealth, and strip coverage from millions of people.

The American Health Care Act would repeal Medicaid coverage for Americans while increasing out-of-pocket costs for the sickest and the elderly. Health plans would fail to meet the needs of Americans with chronic or complex conditions. The bill also eliminates protections against annual and lifetime caps. With a last-minute manager’s amendment to repeal the Essential Health Benefits, the ten coverage rules set up by the Affordable Care Act, this ruthless bill has gotten even worse.

The Affordable Care Act required insurers to cover ten “Essential Health Benefits” from maternity care, mental health, and prescription drugs. The AHCA allows states to opt out of these protections. If this is repealed, comprehensive health insurance will become virtually unavailable in the individual market. This means that individuals with pre-existing conditions would not be protected. Younger and healthier people benefit, older and sicker people suffer.

While the new additions to this measure are startling, the original bill is just as shocking. Slashing and capping the Medicaid program will ration care and give tax breaks to the wealthy. This bill cuts $880 million from Medicaid and then caps and cuts the program so that it cannot expand and contract as needed. By the end of 2019, the Medicaid expansion program will freeze and this bill will shift costs to states for the elderly, children, individuals with disabilities, and low-income adults.

This bill will kick 24 million people off their health insurance by 2026, and 7 million people will lose their employer-based coverage. While the Affordable Care Act subsidies were based on income and when premiums rose, the federal subsidy also rose to pay for premium increases. Under the American Health Care Act, those subsidies with a fixed credit amount. The age-based tax credits are a refundable tax credits that is larger for older individuals, however, it allows insurers to charge older enrollees five times more than a younger enrollee.

Mr. Speaker, the public has spoken about this so-called “replacement” bill. People will live or die as a result of this legislation. This bill will force Americans to pay more for their premiums, more for their care, more on out-of-pocket expenses and deductibles; all the while driving up tax breaks directly to the wealthy. The Republican leadership has pushed this bill to the floor without any consideration and I urge you all to consider its harmful effects. Your constituents are asking you to work with us to repair the Affordable Care Act. Work with us. Mr. AL GREEN of Texas. Mr. Speaker, although Trumpcare is a terrible Healthcare plan, it is a terrific Wealthcare plan.

Trumpcare is terrific Wealthcare because in the final analysis, it allows the 400 richest families to get $7 million a year ad infinitum, $7 million a year forever.

In the final analysis, 79% of the cuts become Wealthcare dollars for the very rich, not healthcare dollars for the very poor.
In the final analysis, it sacrifices $1 trillion from Medicare and Medicaid to enrich the lives of millionaires and billionaires.

In the final analysis, it provides more money for Healthcare and less money for Healthcare.

Mr. Speaker, Trumpcare is more Wealthcare and less care for the American people.

Mr. CONVEYS, Mr. Speaker, I've been here a while and it's hard for me to recall a time when we've voted on something so obviously and willfully harmful to children, seniors and working Americans.

This bill strips healthcare from 24 million people.

It requires some seniors to pay 100 percent or more of their income in premiums.

This legislation dramatically cuts Medicaid, directly contradicting President Trump's claim not to.

In Michigan, HALF of all children rely on Medicaid.

In my district alone, 56,000 people will lose coverage, including 16,000 children.

Let's be clear: if we pass this bill, children, seniors, and working people will suffer and some will die, so that the wealthy can get a tax cut.

Healthcare is a right, not a privilege. That's why I support a single-payer, Medicare-for-All plan, and why I will be voting “no” on this mean spirited legislation.

Mr. Speaker, as Ranking Member on the House Judiciary Committee, I include in the REPORT a legal analysis prepared by committee staff that concludes that the provision of H.R. 1628 that requires New York State to change how its counties fund the State’s portion of Medicaid is unconstitutionally commandeering New York as compared to all other States, including 15 States which have sharing agreements with their counties. Nor has a justification been offered for why New York City should be excluded from the application of the special rule. As such, it is clear that the provision is discriminatory, “arbitrary” and has no rational basis.

Faso-Collins Amendment Principles—The Tenth Amendment provides in relevant part that powers not delegated to the Federal government or prohibited to the States are reserved for the States. This has been read to prevent the federal government from “commandeering” the states to serve its own purposes. In Printz v. United States, 521 U.S. 898 (1997), the Supreme Court held that Congress cannot commandeer State officers to implement Federal policy—in that case requiring criminal background checks for gun purchasers pursuant to the Brady Handgun Violence Prevention Act. The Faso-Collins language commandeers New York State government to facilitate the partisan political ends of a faction in the U.S. Congress, which would seem well outside the proscriptions of Printz. In fact, by essentially ordering New York to reorganize its internal affairs, the Faso-Collins amendment may run even further afield of Tenth Amendment principles than was the case in Printz, given the lack of a Federal purpose and any interference with the core sovereign function of how a State chooses to use its taxing power.

The most significant constitutional concern that the Faso-Collins provision directly interferes with New York’s internal decisions about how to structure its own tax and spending policies, and how to allocate those responsibilities between the State and its subdivisions—which is a core function of a sovereign entity protected by the Tenth Amendment and §4 of the Constitution, which provides that the “United States shall guarantee to every State in this Union a Republican Form of Government.” This is significant because in Reynolds v. Sims, 377 U.S. 533, 575 (1964), the Supreme Court held that political subdivisions such as counties and municipalities are considered a “class” of subordinate governmental instrumentalities created by the State to assist in the carrying structure Medicaid funding through a similar legally authorized system.

The Faso-Collins amendment specifies that any State that had an allotment of Disproportionate Share Hospital (DSH) funds that was more than 6 times the national average, and that requires subdivisions with more than 6 times the national average to contribute toward Medicaid costs, shall have its reimbursement reduced by the amount of contributions by such subdivisions. (This effect was extensively discussed to the New York, State, and carved out New York City.) Under the amendment, New York State is at risk of losing $2.3 billion of its $32 billion in Federal Medicaid funds.

This provision is unconstitutional, and could be struck down for several reasons:

Violation of Limits on Spending Power—Article I, Section 8, of the Constitution grants Congress spending power to “provide for the... general Welfare.” In South Dakota v. Dole, 483 U.S. 203 (1987), the Supreme Court held that any spending condition imposed on the States must be related to the Federal interest in that particular project or program and that Congress cannot coerce the States into compliance with the Federal government’s objectives. In NFIB v. Sebelius, 132 S. Ct. 2586 (2012), the Supreme Court found provisions of the Act which required all States to comply with the law’s Medicaid expansion violated this spending power, noting that the “Constitution has empower[ed] Congress to require that the States allow a specific Federal program’s beneficiaries to use Federal Medicaid funds: it does not further Medicaid’s purposes and has nothing to do with ensuring the proper administration of a Federal program.” Because the provision applies to counties in a single State—and leaves the very same system undisturbed in 15 other States—it could not possibly be justified by any legitimate Federal interest.

An additional line of Supreme Court cases, including New York v. United States, 505 U.S. 144, 461 (1993), the Supreme Court noted that the Equal Protection Clause of the Constitution prohibits “any spending condition imposed on the States to be related to any Federal interest or purpose in the Medicaid Program.”

As Yale Law School Professor Abbe Gluck wrote in a post on the Balkinization blog today, the Faso-Collins “amendment is like unconstitutional. The protection from federal interference of the internal functions of the States and other grants and limits of Federal authority.” Likewise, in Massachusetts v. United States, 549 U.S. 444, 461 (2007), the Supreme Court noted that “it is repeatedly held that the Federal Government may impose appropriate conditions on the use of Federal property or privileges and may require that State instrumentalities comply with conditions that are reasonably related to the Federal interest in particular national projects or programs.” Under these precedents, the Faso-Collins language would have to be held to be an arbitrary exercise of Federal power which intrudes on only one particular State’s sovereign role in determining how it spends its funds to any Federal interest or purpose in the Medicaid Program.

For the last 51 years, New York State has chosen to fund a portion of its share of the Medicaid Program by using funds from county property taxes. Fifteen other States
out of State governmental functions." In Hunter v. City of Pittsburgh, 207 U.S. 161, 178 (1907), the Court noted that these subdivisions are "created as convenient agencies for exercising the powers of the governmental power of the state, as may be entrusted to them" and that the "number, nature, and duration of powers conferred upon these [entities] and the terms upon which they shall be exercised rests in the absolute discretion of the state." The Paco-Collins amendment purports to invoke Federal power to displace New York's exercise of that particular discretion and, for that reason, violates the Constitution. As Chief Justice John Marshall explained in Gibbons v. Ogden, 22 U.S. 1, 198-200 (1824), the State's "power of taxation is indispensable to their existence. . . . In imposing taxes for State purposes . . . not doing what Congress is empowered to do, Congress is not empowered to tax for those purposes which are within the exclusive province of the States.'

Hon. NANCY PELOSI, Speaker, House of Representatives, Washington, DC.
Hon. HARRY REID, Majority Leader, U.S. Senate, Washington, DC.

The undersigned state attorneys general, in response to numerous inquiries, write to express our grave concern with the Senate version of the Patient Protection and Affordable Care Act ("H.R. 3590"). The current iteration of the bill contains a provision that affords special treatment to the State of Nebraska under the federal Medicaid program. We believe this provision is constitutionally flawed. As chief legal officers of our states we are contemplating a legal challenge to this provision and we ask you to take action to render this challenge unnecessary by striking that provision.

It has been reported that Nebraska Senator Ben Nelson's vote for H.R. 3590 was secured only after striking a deal that the federal government would bear the cost of newly eligible Nebraska Medicaid enrollees. In marked contrast all other states would not be so treated, and instead would be required to allocate substantial sums, potentially totaling billions of dollars, to accommodate the new Medicaid mandates. In addition to violating the most basic and universally held notions of what is fair and just, we also believe this provision of H.R. 3590 is inconsistent with protections afforded by the United States Constitution against arbitrary legislation.

In Helvering v. Davis, 301 U.S. 619, 640 (1937), the United States Supreme Court warned that Congress does not possess the right under the Spending Power to demonstrate a "display of arbitrary power." Congressional spending power may be arbitrary and capricious. The spending power of Congress includes authority to accomplish policy objectives by conditioning receipt of federal funds on compliance with statutory directives, as in the Medicaid program. However, the power is not unlimited and "must be in pursuit of the 'general welfare.'" South Dakota v. Dole, 483 U.S. 203, 207 (1987). In Dole the Supreme Court stated, "that conditions on federal grants might be illegitimate if they are unrelated to the federal interest in particular nationwide programs." Id. This view seems axiomatic that the federal interest in H.R. 3590 is not simply requiring universal health care, but also ensuring that the states share the governmental workload of providing such care to their citizens. This federal interest is evident from the fact this legislation would require every state, except Nebraska, to shoulder its fair share of the increased Medicaid costs the bill will generate. The provision of the bill that relieves a single state of its Medicaid costs appears to be not only unrelated, but also antithetical to the legitimate federal interests in the bill.

The fundamental unfairness of H.R. 3590 may also give rise to claims under the due process, equal protection, privileges and immunities clauses and other provisions of the Constitution. As a practical matter, the deal struck by the United States Senate on the "Nebraska Compromise" is a disadvantage to the States. Every state's tax dollars, except Nebraska's, will be devoted to cost-sharing required by the bill, and will be therefore unavailable for other essential state programs. Only the citizens of Nebraska will be freed from this diminution in state resources for critical state services. Since the only basis for the Nebraska preference is the substance of the legislation, it is unlikely that the difference would survive even minimal scrutiny.

We ask that Congress delete the Nebraska provision from the pending legislation, as we prefer to avoid litigation. Because this provision has not only this country but the future of our nation's legislative process, we urge you to take appropriate steps to protect the Constitution and the rights of the nation. We believe this issue is readily resolved by removing the provision in question from the bill, and we ask that you do so.

By singling out the particular provision relating to special treatment of Nebraska, we do not suggest there are no other legal or constitutional issues in the proposed health care legislation. Please let us know if we can be of assistance as you consider this matter.

Sincerely,

Henry McMaster, Attorney General, South Carolina; Rob McKenna, Attorney General, Washington; Mike Cox, Attorney General, Michigan; Greg Zoeller, Attorney General, Indiana; Ken Cuccinelli, Attorney General, Virginia; Tom Corbett, Attorney General, Pennsylvania; Mark Shurtleff, Attorney General, Utah; Bill McCollum, Attorney General, Florida; Jay Nixon, Attorney General, Missouri; Jon Bruning, Attorney General, Nebraska; Jack Conway, Attorney General, Kentucky; Troy King, Attorney General, Alabama; Mark Herring, Attorney General, Virginia; Alan Milutinovic, Attorney General, Mississippi;LT. Governor, Idaho; Marty Jackley, Attorney General, South Dakota.

Mr. NADLER. Mr. Speaker, for seven years, the Republicans have tried and failed to repeal the Affordable Care Act. So now, with a Republican-controlled House, a Republican-controlled Senate, and a Republican in the White House, what have they presented us to vote on today? Republicans complained that premiums were skyrocketing, so they offer a bill that raises premiums. They complained that deductibles were too high, so they propose allowing insurance companies to charge more. They complained that too many people were losing their insurance, so they have embraced a plan that will take away health care from 24 million Americans.

This bill imposes a devastating age tax on older Americans and does next to nothing to protect Americans with pre-existing conditions. It gives nearly $900 billion in tax cuts to the insurance companies and the wealthy, while refusing coverage for services as basic as hospitalization. It’s simple—Americans will pay more and get less under this bill.

In New York, 2.7 million people will lose insurance and the state will lose $4.6 billion in Medicaid funding. Compounding those cuts is a cynical so-called deal several upstate Members made to secure their votes on this bill. Under the bill, New York State, and ONLY New York State, will no longer be allowed to ask counties to provide a portion of state Medicaid funding. Don't be fooled—this is no deal at all for New York and will actually gut the State's Medicaid program, forcing hundreds of hospitals to close and rationing health care for millions of New Yorkers.

But my colleagues who have traded their vote for this provision have made an empty bargain. This provision is flatly unconstitutional and will never be enacted. They are giving away health insurance for millions of New Yorkers for an empty promise.

My Republican colleagues claim we need to pass this bill to give people “freedom” to buy health insurance. Let me tell you, freedom to buy health insurance and actually being able to afford health insurance are two very different things.

They keep talking about “access” to health care. Access is not coverage. When they talk about “access” and really mean covering, they are conceding that this bill does nothing to ensure that Americans have affordable, comprehensive health insurance to cover them no matter what their health care needs are.

The Republicans are clearly believers that Americans just need freedom to buy insurance, that when asked what a pregnant woman should do if her state no longer requires insurance companies to cover maternity care, OMB Director Mick Mulvaney said she can “figure out a way to change the state [state] law.” How callous are my Republican colleagues to believe that is a real option for Americans?

This bill is a cowardly, cynical effort to lower taxes on the rich and dismantle Medicare and Medicaid as we know it. I urge my colleagues to oppose this bill.

The SPEAKER pro tempore. Pursuant to clause 1(c) of rule XIX, further consideration of H.R. 1628 is postponed.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 3 o'clock and 31 minutes p.m.), the House stood in recess.

□ 1630

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HOLDING) at 4 o'clock and 30 minutes p.m.

TERRORIST AND FOREIGN FIGHTER TRAVEL EXERCISE ACT OF 2017

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the unfinished business is the question on suspending the rules and passing the bill (H.R. 1302) to require an exercise related to terrorist and foreign fighter travel, and for other purposes.
