

IN HONOR OF SHERRY HABER

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, April 3, 2017

Ms. SPEIER. Mr. Speaker, I rise to honor Sherry Haber, a remarkable community leader and tireless advocate for children, who is being recognized as the Hillsborough Citizen of the Year by the Associated Parents' Group. This award honors a resident who has made a sustained and significant contribution to the community, especially to the education and well-being of our children. Sherry is truly deserving of this honor. There is no task too big or too small for Sherry to handle and if you want to get something done, you hand it to her.

Sherry served as Parent Group President for North Hillsborough School from 2009 to 2010. It was on her watch that the lower playground was installed and the hot lunch program was implemented. In her role as Art in Action Chair, she established the tradition of hosting an art show during North's annual open house, expanded Art in Action from 3rd through 5th grade to include K through 5th grade, was instrumental in launching the school's first talent show and choreographed multiple group performances. She also led efforts to renovate the library, chaired the 5th grade promotion and worked on the year book committee for eight years. For six years, she opened her home for the annual teacher appreciation lunch.

When Sherry's two children Ben and Cami moved on to Crocker Middle School, she again served as Parent Group President from 2012 to 2013 and repeated many of her contributions. She implemented a hot lunch program, established the Crocker Art Show and coordinated the Janet Chun Mural project. She also was graduation chair and organized the first Flash Mob.

From 2013 to 2015, Sherry served as communications chair of the Hillsborough Schools Foundation and hosted many successful fundraisers. For the last two years, she has served as the President of the Burlingame High School Music Boosters which means she has been supporting 150 students in band and choir. She even organized the band's first performance trip to Anaheim in over 20 years.

In addition to her deep involvement in the schools, Sherry found time to be a Den Leader for the Boy Scouts and Troop Leader for the Girl Scouts for a total of ten years. For six years, she was a volunteer for Hillsborough's Memorial Day Parade. In 2015, she served on the Israeli Art Show Committee at Peninsula Temple Shalom. Sherry Haber has an inexhaustible reservoir of energy and passion for children, our community and the arts.

Sherry is originally from Sacramento. She went to Punahou School in Honolulu, Hawaii and earned her BA in English at Stanford University. She and her husband of 24 years, Scott Haber, live with their two children in Hillsborough.

Mr. Speaker, I ask the members of the House of Representatives to join me in honoring an exemplary citizen, a dedicated community leader and a devoted mother and wife. Sherry Haber never stops giving of herself and she does it with enjoyment of life (*joie de vivre*), I join with all Hillsborough residents in

saying we are very fortunate to have her as a neighbor and friend.

IN RECOGNITION OF DR. STEPHEN
OSTROFF

HON. PETE SESSIONS

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Monday, April 3, 2017

Mr. SESSIONS. Mr. Speaker, together with Congressman ERIC SWALWELL, we rise today to thank Acting Commissioner of the Food and Drug Administration (FDA), Dr. Stephen M. Ostroff, and his team for their efforts to assist Congress and the Administration in improving patient enrollment, retention, minority participation and equitable access in cancer clinical trials, especially among underserved and underrepresented populations.

Patient participation is the single most critical ingredient to successful cancer trials being completed on time and on budget as well as bringing life-saving cancer drugs to market.

Unfortunately, most cancer clinical trials only provide for the cost of the trial drug and require the patient to cover all other costs affiliated with participation including but not limited to travel, lodging, and ancillary medical costs.

The result of this has been abysmally low cancer participation rates. Overall, only 6 percent of eligible cancer patients participate in clinical trials and a mere 5 percent of those participants represent the Black, Hispanic, Asian, Native American and Pacific Islander populations combined. According to Tufts Research, 38 percent of all clinical trials fail to finish on time or within budget due to lack of enrollment, and an astonishing 11 percent of trials fail to ever enroll a single patient, primarily due to the financial burden on patients to participate.
