House of Representatives

EXPLANATORY STATEMENT SUBMITTED BY MR. FRELINGHUYSEN OF NEW JERSEY, CHAIRMAN OF THE HOUSE COMMITTEE ON APPROPRIATIONS, REGARDING THE HOUSE AMENDMENT TO THE SENATE AMENDMENTS ON H.R. 244

The following is an explanation of the Consolidated Appropriations Act, 2017.

DIVISION H—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2017

In implementing this agreement, the Departments and agencies should be guided by the language and instructions set forth in House Report 114-699 accompanying the House bill, H.R. 5926, and Senate Report 114-274 accompanying the Senate bill, S. 3040.

Where the explanatory statement speaks to an issue that was addressed in the House or Senate reports, the explanatory statement should supersede the language in the House or Senate reports. In cases where the House Report and the Senate Report address a particular issue not specifically cited in the explanatory statement, the House Report and the Senate Report should be complied with and carry the same emphasis as the language included in the explanatory statement.

Each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement, and shall not reallocate resources or reorganize activities except as provided herein. Funds for individual programs and activities are displayed in the detailed table at the end of the explanatory statement for this division. Funding levels that are not displayed in the detailed table are identified within this explanatory statement. Any action to eliminate or consolidate programs, projects, and activities should be pursued through a proposal in the President's Budget so it can be considered by the Committees on Appropriations of the House of Representatives and the Senate.

Congressional Reports.—Each Department and agency is directed to provide the Committees on Appropriations of the House of Representatives and the Senate, within 30 days of enactment of this Act and quarterly thereafter, a summary describing each re-

quested report to the Committees on Appropriations along with its status.

TITLE I

DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION TRAINING AND EMPLOYMENT SERVICES

Reintegration of Ex-Offenders.—The agreement includes \$88,078,000 for ex-offender retraining and reintegration activities, of which \$25,000,000 is for competitive grants to national and regional intermediaries. Efforts to build partnerships with employers at the local level and to focus training on in-demand skills are strongly supported. In lieu of the report required by the House Report 114-699, the Department of Labor (DOL) is directed to provide detailed information in the fiscal year 2018 budget justification on efforts undertaken to date as well as any new activities or requirements that are intended to build effective industry partnerships and job-placement services, offer industry-recognized credentials, and focus training on high-demand occupations. Other than the reporting requirement, House and Senate report language is not superseded.

Apprenticeship Grants.—The agreement includes \$95,000,000 to support Apprenticeship Grants, an increase of \$5,000,000 above fiscal year 2016. The Department is directed to build on the success of the ApprenticeshipUSA program and continue funding innovative, job-driven approaches that expand apprenticeship programs in high-growth and new industries. In 2015 women comprised nearly half of the national labor force, but they made up less than ten percent of registered apprentices. The Department is directed to prioritize grant applications that engage, recruit, and serve women and other under-represented populations.

JOB CORPS

The agreement includes \$1,704,155,000 for Job Corps, including \$32,330,000 for administration, \$1,587,325,000 for operations, and \$84,500,000 for construction. The safety and security of students, staff, and facilities remains a very high priority. The Department is expected to use the increases in funding as necessary to prioritize safety and security improvements across the Job Corps system.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The agreement includes \$115,000,000, the same amount as fiscal year 2016, for the re-

employment services and eligibility assessment program. The amount reflects continued strong support for a program that has been shown to reduce improper payments and to provide intensive, individualized intervention for unemployment compensation beneficiaries to help return them fully and quickly to the workforce. The agreement maintains Senate language clarifying flexibility for local workforce agencies to target ex-service member claimants, those most likely to exhaust benefits, as well as claimants from a variety of backgrounds and lengths of time receiving benefits as local officials deem necessary based on local needs.

The agreement includes \$50,000,000 for the continued support of State consortia to modernize their Unemployment Insurance tax and benefit systems. The Department is expected to apply the full \$50,000,000 to this purpose, including assistance to State consortia as needed to comply with requirements of 26 U.S.C. 6103(l)(10)(B).

The agreement notes a provision in the preamble for the Interim Final Rule (IFR) issued by the U.S. Citizenship and Immigration Services and DOL in 2015 regarding H-2B mobile housing policy. The IFR was issued without the public review and comment period afforded in a typical rulemaking process, in order to continue operation of the program. DOL is urged to engage with all stakeholders to assess impacts of the housing policy in industries requiring a mobile workforce.

Unemployment Insurance (UI) Center of Excellence.—The agreement includes \$5,500,000 for the UI Center of Excellence (Center), an increase of \$2,500,000 above the fiscal year 2016 level. The increase of \$2,500,000 is intended as a payment on behalf of States to the entity operating the Center.

OFFICE OF WORKERS' COMPENSATION PROGRAMS

The Office of Workers' Compensation Programs (OWCP) has established a Program Integrity unit and data analytics team to identify and remedy areas of improper payments and fraud. Despite these advancements, OWCP has been reticent to act quickly in addressing reports of possibly improper and fraudulent payments associated with compound drugs. Therefore, OWCP shall issue a report within 120 days after the date of enactment of this Act on its plan to strengthen OWCP's role in evaluating these payments, including enhanced utilization of program

integrity measures in developing and implementing corrective actions for the timely identification and remediation of fraudulent and improper payments for programs it administers.

MINE SAFETY AND HEALTH ADMINISTRATION

The Mine Safety and Health Administration (MSHA) is directed to provide assistance and data necessary for the National Academy of Sciences study previously provided in the Centers for Disease Control and Prevention, National Institute of Occupational Safety and Health account. MSHA is directed to report to the Committees on Appropriations of the House of Representatives and the Senate and authorizing committees of jurisdiction within 72 hours of determining that compliance rates under the new sampling protocols taking effect in 2016 fall below 95 percent, and to provide such committees with quarterly reports on actual compliance rates under the new coal dust rule.

The agreement includes new language providing authority to use State grants funds for the purchase and maintenance of equipment required under the respirable coal dust standard. The authority is intended to assist entities determined by the Secretary to have demonstrated financial need to comply with the new regulation. The authority is not intended to be used for entities restructuring operations under bankruptcy laws.

IT MODERNIZATION

The agreement includes funding for the continuation of information technology (IT) modernization efforts. The Department is directed to take a risk-based approach to allocating fiscal year 2017 development funds and prioritize development projects that will result in more secure and cost-effective IT systems. Within 180 days of enactment of this Act, the Department is directed to submit a comprehensive update on the status of all IT development projects. This report should address both projects funded through the IT Modernization account as well as development projects being undertaken by individual agencies and offices. The report should provide information for each project including the name and type of project, current status including total expenditures to date, projected timelines to completion, expected improvements in agency processes, customer service and performance, total expected cost of development, expected annual cost of maintenance upon completion, and anticipated annual savings and cost avoidance from replacing or shutting down legacy systems.

Public Health Leadership and Support	113,570,000

Sodium.—The agreement directs the Director of CDC, within 90 days of enactment of this Act, to enter into an arrangement with the National Academy of Medicine (NAM) to develop a dietary reference intake report for sodium that takes into consideration studies on all-cause mortality. The agreement directs the CDC to provide a copy of the charter with NAM to the Committees on Appropriations of the House of Representatives and the Senate and to include an update in the fiscal year 2018 budget justification on the timeline for the report.

NATIONAL INSTITUTES OF HEALTH

The agreement provides \$34,084,000,000 for the National Institutes of Health (NIH) activities, including \$352,000,000 from the 21st Century Cures Act, an increase of \$2,000,000,000, or 6.2 percent, above fiscal year 2016. In addition, \$152,000,000 was provided to the National Institute of Allergy and Infectious Diseases in the Zika Response and Preparedness Appropriations Act, 2016 to research the Zika virus infection and for the preclinical and clinical development of vaccine and other countermeasures for the Zika virus and other vector-borne diseases.

The agreement continues the commitment to funding research on Alzheimer's disease and increases funding by \$400,000,000 to a total of \$1,391,000,000 in fiscal year 2017; increases funding for the Precision Medicine Initiative by \$120,000,000; increases funding for the Brain Research through Advancing Innovative Neurotechnologies (BRAIN) Initiative by \$110,000,000, and increases funding for antibiotic resistance research by \$50,000,000. In addition, a funding increase above fiscal year 2016 is provided to every Institute and Center to continue investments in research that will save lives, lead to new drug and device development, reduce health care costs, and improve the lives of all Americans.

Funding from the 21st Century Cures Act was previously appropriated for fiscal year 2017 by section 194 of the Continuing Appropriations Act, 2017. Per the authorization, \$300,000,000 is transferred to the National Cancer Cancer Institute for cancer research and \$52,000,000 will be allocated from the NIH Innovation Fund, in this agreement reflected in the Office of the Director, for the Preci-

sion Medicine Initiative cohort (\$40,000,000), the BRAIN Initiative (\$10,000,000), and regenerative medicine research (\$2,000,000).

The agreement increases funding for the Clinical and Translational Science Awards to \$516,120,000; increases funding for the Institutional Development Award to \$333,361,000; and continues to support the National Children's Study Follow-on program at \$165,000,000.

The Common Fund is supported as a set-aside within the Office of the Director at \$695,456,000, which includes \$12,600,000 to support pediatric research as authorized by the Gabriella Miller Kids First Research Act.

The agreement expects the 6.2 percent increase of funds over the fiscal year 2016 level to support an increase in the number of new and competing Research Project Grants.

The agreement expects NIH to support a consistent NIH-wide inflationary policy across all ICs that is no less than the general increase provided to all ICs (3.0 percent) for non-competing grants.

The agreement expects that NIH will continue its focus on emerging investigators and first-time renewals of these young investigators with actions to significantly reduce the average age of an NIH-supported new investigator.

The agreement expects NIH to support the number of Ruth L. Kirschstein National Research Service Awards and other training grants in proportion to at least the general IC level funding increase. The agreement expects NIH to provide a stipend level and inflationary increase to grantees that is at least consistent with any fiscal year 2017 Federal employee pay raise.

NATIONAL HEART, LUNG, AND BLOOD INSTITUTE

Chronic Obstructive Pulmonary Disease (COPD).—The agreement expects CDC and NIH to work together to complete the COPD action plan on a timely basis and report on the implementation of the recommendations of the plan in the fiscal year 2018 budget justification.

NATIONAL INSTITUTE OF GENERAL MEDICAL SCIENCES (NIGMS)

Science Education Partnership Awards (SEPA).—SEPA fosters important connections between biomedical researchers and K-12 teachers and their students. These connections establish an education pipeline to careers in biomedical sciences, which is one of the most important areas of workforce development in the U.S. economy. The agreement expects SEPA to receive not less than \$18,541,000, the fiscal year 2016 level, and transfers SEPA funding to NIGMS following NIH's transfer of the program earlier this year.

NATIONAL INSTITUTE ON MINORITY HEALTH AND HEALTH DISPARITIES (NIMHD)

Research Centers in Minority Institutions (RCMIs).—The agreement continues to support the core mission of RCMIs to develop new investigators from under-represented communities and to conduct world-class biomedical research that emphasizes minority health and health disparities. The agreement expects the RCMIs to receive not less than \$58,461,000, which is the fiscal year 2016 level plus the proportional share of the general increase provided to NIMHD.

NATIONAL CENTER FOR ADVANCING TRANSLATIONAL SCIENCES (NCATS)

Clinical and Translational Science Awards (CTSA) Program.—The agreement includes additional funding for the CTSA program to ensure that recommendations from the 2013 Institute of Medicine report can be implemented without reducing the total number of CTSA awards. The agreement directs NCATS to maintain the number of CTSA awards—including the number of clinical and

translational research institutions—at no less than the fiscal year 2016 level.

OFFICE OF THE DIRECTOR

Gabriella Miller Kids First Research Act.—The agreement continues bill language for specific funds authorized by the Gabriella Miller Kids First Research Act within the Common Fund to support the third year of the 10-year Pediatric Research Initiative. The agreement requests an update in the fiscal year 2018 budget justification on this effort as described in the House and Senate reports.

Clinical Center Reorganization.—The ongoing restructuring of the NIH Clinical Center (CC) to ensure patient safety and care after last year's highly critical Food and Drug Administration (FDA) inspection of the CC Pharmacy remains a high priority. NIH has started the reorganization laid out in the Red Team's recommendations, including hiring a new CC director and establishing a comprehensive oversight and compliance office. These steps should greatly reduce risks, increase assurance of participant safety, and improve research quality. The agreement directs NIH to continue providing timely updates on the reorganization to the Committees on Appropriations of the House of Representatives and the Senate, including an update in the fiscal year 2018 budget justification.

Natural Products.—The agreement commends the FDA for issuing draft guidance related to botanical drug products. There are reports that many alternative and potentially life-saving products are already helping those for whom traditional treatment is not enough or is ineffective. The agreement encourages the NIH, including NCCIH and NCI, and other Federal entities that fund cancer research, to speed development and testing of natural products and their derivatives, with the goal of accelerating the designation of Investigational New Drug applications to promising products. These drugs and their trials represent a promising complement to cancer treatment and the agreement urges NIH to conduct clinical trials in regions with disproportionately high cancer burden and late stage presentation.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION (SAMHSA)

The agreement continues bill language directing the Assistant Secretary for Mental Health and Substance Use to exempt the Mental Health Block Grant and the Substance Abuse Prevention and Treatment (SAPT) Block Grant from being used as a source for the PHS evaluation set-aside in fiscal year 2017, as was done prior to fiscal year 2012. Within the total for SAMHSA, the agreement includes \$20,000,000 to support programs authorized in the Comprehensive Addiction and Recovery Act of 2016, P.L. 114-198.

Medication-Assisted Treatment for Prescription Drug and Opioid Addiction.—The agreement provides \$56,000,000 for the Medication-Assisted Treatment for Prescription Drug and Opioid Addiction program. SAMHSA is directed to support continuation grants and expand the program to additional States. SAMHSA is directed to include as an allowable use medication-assisted treatment and other clinically appropriate services to achieve and maintain abstinence from all opioids and heroin. SAMHSA is directed to give preference in grant awards to treatment regimens that are less susceptible to diversion for illicit purposes. These grants should target States with the highest age adjusted rates of admissions, including those that have demonstrated a dramatic age adjusted increase in admissions for the treatment of opioid use disorders.

Criminal Justice Activities.—The agreement provides \$78,000,000 for Criminal Justice Activities and directs that no less than \$60,000,000 will be used exclusively for Drug Court activities. SAMHSA is directed to ensure that all Drug Treatment Court funding is allocated to serve people diagnosed with a substance use disorder as their primary condition. SAMHSA is further directed to ensure that all drug treatment court grant recipients work directly with the corresponding State substance abuse agency in the planning, implementation, and evaluation of the grant. SAMHSA is further directed to expand training and technical assistance to drug treatment court grant recipients to ensure evidence-based practices are fully implemented.

Pregnant and Postpartum Women.—The agreement includes an increase of \$4,000,000 for grants authorized under section 501 of the Comprehensive Addiction and Recovery Act of 2016, P.L. 114-198. Consistent with the authorization, the additional funding will be used to fund pilot programs to address treatment gaps for pregnant and postpartum women with substance use disorders, including opioid use disorders.

Substance Abuse Prevention and Treatment Block Grant-Overdose Fatality Prevention.—The agreement reflects strong concerns about the increasing number of unintentional overdose deaths attributable to prescription and nonprescription opioids. SAMHSA is urged to take steps to encourage and support the use of Substance Abuse and Prevention Block Grant funds for opioid safety education and training, including initiatives that improve access for licensed healthcare professionals, including paramedics, to emergency devices used to rapidly reverse the effects of opioid overdoses. Such initiatives should incorporate robust evidence based intervention training, and facilitate linkage to treatment and recovery services.

Grants to Prevent Prescription Drug/Opioid Overdose.—The agreement provides \$12,000,000 for discretionary grants to States to prevent opioid overdose-related deaths. This program will help States equip and train first responders with the use of devices that rapidly reverse the effects of opioids. SAMHSA is directed to ensure applicants outline how proposed activities in the grant would work

with treatment and recovery communities in addition to first responders.

First Responder Training.—The agreement provides \$12,000,000 for First Responder Training grants as authorized in the Comprehensive Addiction and Recovery Act of 2016, P.L. 114-198. Of this amount, \$6,000,000 is set aside for rural communities with high rates of substance abuse. CENTERS FOR MEDICARE AND MEDICAID SERVICES

PROGRAM MANAGEMENT

Air Ambulance Services and Payment Structures.—In lieu of the language in Senate Report 114-274, the agreement directs the Government Accountability Office (GAO) to submit a report to the Committees on Appropriations of the House of Representatives and the Senate on fixed wing and helicopter air ambulance services, operational costs, and, as available, payment structures no later than 18 months after the enactment of this Act. The report should include an analysis of costs, including all operational, mechanical, medical, human capital, and business expenses. The report shall include analysis of the number of providers providing either fixed wing or rotor wing ambulance services and the number of transports, taking into consideration the volume of transports per provider over time, and the number in comparative volumes for accident site, inter-facility, and non-emergency/charter transports. The report should reflect demographic and urban/rural/super rural differences as well as differences in fixed wing and helicopter services. GAO may examine the source and amount of reimbursement for these services among private insurance companies, Medicare, Medicaid reimbursement rates, and other Federal government sponsored reimbursement rates such as TRICARE. The agreement understands that the GAO already has an ongoing effort in regards to the requested report on Air Ambulance Services and Payment issues. To pre-

vent duplication of effort, GAO should include this information within the ongoing effort to the extent practicable. GAO shall consult with the Committees on Appropriations of the House of Representatives and the Senate as it develops the methodology and scope for the review.

Critical Access Hospitals.—The agreement continues to note concerns about the proposal to eliminate Critical Access Hospitals (CAH) status from facilities located less than 10 miles from another hospital and reducing the reimbursement rate from 101 to 100 percent on the hospitals to properly provide care to local residents. The agreement directs the Centers for Medicare & Medicaid Services (CMS) to take steps to limit the negative impact of the proposed rate reduction on CAH.

Health Insurance Exchange Transparency.—The agreement continues to include bill language in section 221 that requires CMS to provide cost information for the following categories: Federal Payroll and Other Administrative Costs; Exchange-related Information Technology (IT); Non-IT Program Costs, including Health Plan Benefit and Rate Review, Exchange Oversight, Payment and Financial Management, Eligibility and Enrollment; Consumer Information and Outreach, including the Call Center, Navigator Grants and Consumer Education and Outreach; Exchange Quality Review; Small Business Health Options Program and Employer Activities; and Other Exchange Activities. Cost information should be provided for each fiscal year since the enactment of the Patient Protection and Affordable Care Act (Public Law 111-148). CMS is also required to include the estimated costs for fiscal year 2018.

Meaningful Use.—The agreement notes that some eligible hospitals met the substantive requirements for the Medicare Electronic Health Records Incentive Program, but failed to be certified due to administrative error. As a result, the eligible hospitals did not receive an incentive payment or were subject to a payment adjustment. The agreement directs CMS to reconsider options to provide an appeal to such eligible hospitals that met substantive program requirements.

Medicare Diabetes Prevention Program (MDPP).—The agreement supports CMS' expansion of the Medicare Diabetes Prevention Program beginning in January 2018 to improve health outcomes and reduce diabetes-related healthcare costs. The agreement encourages CMS to include virtual and remote technologies, in addition to in-person services, as allowable means for providing MDPP services to beneficiaries in future rule-making.

Risk Corridor Program.—The agreement continues bill language to prevent the CMS Program Management appropriation account from being used to support risk corridor payments. The agreement directs CMS to provide a report starting with plan year 2014 and continuing through the duration of the program to the Committees on Appropriations of the House of Representatives and the Senate detailing the receipts and transfer of payments for the Risk Corridor Program.

Severe Wounds.—The agreement notes CMS' prompt implementation of section 231 of the Consolidated Appropriations Act, 2016 and directs CMS to implement this provision with an effective date of December 18, 2015.

ADMINISTRATION FOR CHILDREN AND FAMILIES REFUGEE AND ENTRANT ASSISTANCE

CHILDREN AND FAMILIES SERVICES PROGRAMS

Child Abuse Discretionary Activities.—The agreement includes funding to preserve, dis-

seminate, and amplify the work of the Quality Improvement Center (QIC) for Research-based Infant-Toddler Court Teams by providing training and technical assistance in support of such court teams' efforts across the country. These efforts shall build upon and continue the work of sites established through the QIC initiative, which have brought together the court system, child welfare agencies, health professionals, and community leaders to improve current practices in the child welfare system and make better-informed decisions on behalf of the child. The agreement strongly encourages the Administration for Children and Families to allocate the funds promptly.

Child Welfare Research, Training, and Demonstration.—The agreement includes funding within this program to continue the National Survey of Child and Adolescent Well-Being.

Community Economic Development.—The agreement does not provide funds for the Healthy Food Financing Initiative.

Early Head Start-Child Care Partnerships.—The agreement includes an increase of \$5,000,000 for Early Head Start-Child Care Partnerships for a cost of living adjustment.

Preschool Development Grants.—Consistent with the authorization of the Preschool Development Grant program in the Every Student Succeeds Act, the agreement requests a report describing the transition of authority and program operations from the Department of Education to the Department of Health and Human Services. The report shall include a specific and clear outline of how HHS will administer the program, including an outline for the transition process that will occur as the Departments shift the program from Education to HHS. The report shall be provided to the Committees on Appropriations and Education and the Workforce in the House of Representatives and the Committees on Appropriations and Health, Education, Labor, and Pensions in the Senate.

Social Services and Income Maintenance Research.—The agreement includes \$500,000 to complete the evidence-based, non-partisan analysis of the macroeconomic, health, and crime/social costs of child poverty—including a study of current efforts aimed at reducing poverty—and to propose recommendations with the goal of reducing the number of children living in poverty in the United States by half in 10 years. The funds are provided to extend the original agreement with the National Academy of Sciences.

ADMINISTRATION FOR COMMUNITY LIVING

AGING AND DISABILITY SERVICES PROGRAMS

The agreement is aware the Administrator and Assistant Secretary for Aging has committed to not using any funds from grant programs administered by the Administration For Community Living (ACL) to pay for administrative costs at ACL including additional staff or any other administrative or emergency expenses. The agreement expects ACL will maintain this commitment for fiscal year 2017 and further believes that in future budget years ACL should meet its administrative needs through targeted funding for its administrative accounts, not by shifting funds from grant programs.

Aging Network Support Activities.—The agreement provides \$9,961,000 for Aging Network Support Activities, of which \$2,500,000 is for the Holocaust Survivor Assistance program.

Senior Medicare Patrol Program.—The agreement includes bill language fully funding the Senior Medicare Patrol Program from the Health Care Fraud and Abuse Control Account in the Centers for Medicare & Medicaid Services.

OFFICE OF THE SECRETARY

GENERAL DEPARTMENTAL MANAGEMENT

Idea lab and Digital Services.—The agreement does not include funding for either the proposed “Idea lab” or the Digital Services team.

Lupus Initiative.—The agreement continues to provide \$2,000,000 for Lupus activities at the Office of Minority Health.

Nonrecurring Expenses Fund (NEF).—The Secretary is directed to provide to the Committees on Appropriations of the House of Representatives and the Senate, within 30 days of enactment of this Act and quarterly thereafter, a report with the following information concerning each activity the Department plans to support with funding from the NEF in the current fiscal year and the upcoming fiscal year: (1) a statement identifying and describing each activity the Department proposes to fund; (2) the operating division or office that administers the activity; (3) the estimated total amount of funding proposed for allocation to the activity; and (4) the current status of the activity and the amount of funding (NEF or other) obligated toward it to date, as well as expected to be obligated through the current fiscal year. Finally, the Secretary is directed to include in these reports information on balances by contributing operating division or office in the NEF at the start of the fiscal year and the anticipated and actual balances transferred into the NEF during the fiscal year and at the end of the fiscal year.

Office of Women’s Health.—The agreement includes \$3,100,000 to continue the State partnership initiative to reduce violence against women, which provides funding to State-level public and private health programs to improve healthcare providers’ ability to help victims of violence and improve prevention programs.

Quick Health Data Online System.—The agreement directs the Secretary to continue the operation of the Quick Health Data Online System. The data query system should include all variables previously available, and access data from relevant datasets beyond HHS. User-friendly data queries should have the capacity to seek information by sex and by race/ethnicity simultaneously, at the State and county levels.

OFFICE OF INSPECTOR GENERAL

The agreement includes \$80,000,000 for the HHS Office of Inspector General (OIG) account. The agreement expects the OIG to continue to improve its annual budget justification with more details and performance measures related to discretionary oversight.

PUBLIC HEALTH AND SOCIAL SERVICES
EMERGENCY FUND

The agreement includes a program level of \$1,532,958,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which includes \$1,517,958,000 in appropriated funds and \$15,000,000 in PHSSEF unobligated balances from pandemic influenza supplemental appropriations. This funding will support a comprehensive program to prepare for and respond to the health and medical consequences of all public health emergencies, including bioterrorism, and support the cybersecurity efforts of HHS. In addition, the Zika Response and Preparedness Appropriations Act, 2016 provided \$387,000,000 to prevent, prepare for, and respond to the Zika virus.

Pandemic Influenza Supplemental Balances.—The agreement directs the Secretary to make PHSSEF unobligated balances available within 30 days of enactment.

TITLE III

DEPARTMENT OF EDUCATION
EDUCATION FOR THE DISADVANTAGED

National Activities.—There is significant concern about the Department’s allocation of resources available through various national activities authorities for pay for success projects. While pay for success and other innovative financing mechanisms may prove to be a worthy investment, these projects were explicitly authorized under the Every Student Succeeds Act only in three instances. However, the Department chose to use fiscal year 2016 national activities resources for these projects in programs where Congress did not authorize such a use of funds and did so without any consultation with the committees of jurisdiction. Therefore, the Department is directed to submit to the Committees on Appropriations of the

House of Representatives and the Senate, Committee on Education and the Workforce in the House of Representatives, and Committee on Health, Education, Labor, and Pensions in the Senate operating plans describing in detail its planned use of funds for national activities program authorities funded in this title not later than 45 days prior to the announcement of the availability of funding for such activities.

SCHOOL IMPROVEMENT PROGRAMS

The agreement allows Student Support and Academic Enrichment grants funding provided in this Act to be distributed within a State on a competitive basis at a State’s discretion.

INDIAN EDUCATION

Native Youth Community Projects.—Within the total for Special Programs for Indian Children, the agreement includes \$43,452,000 for Native Youth Community Projects. This program makes competitive awards to support culturally-relevant coordinated strategies to improve the college- and career-readiness of Native American youth.

State-Tribal Education Partnership.—The agreement includes continued funding for the State-Tribal Education Partnership (STEP) Program, which makes grants to tribes to build capacity to assume certain State responsibilities for the administration of ESEA programs.

National Activities.—Within the total for National Activities, the agreement includes funding for a new language immersion program to maintain and promote the use of Native languages. These funds should be allocated to support extensive distribution across geography and language diversity and support both existing and new Native language immersion programs and schools.

INNOVATION AND IMPROVEMENT

Supporting Effective Educator Development.—The agreement includes funding for competitive grants, which may include a consortia of programs operating in multiple States, to improve the academic preparation and college readiness, including the college-and-career pipeline, of rural youth. Such programs should support teachers in all grade levels and across disciplines, students, families, and community members, in high-need rural areas. Specific activities could include professional development and on-site programming for teachers and school administrators throughout the year; youth writing and literacy programs; and community-based workshops for students and families.

Ready to Learn.—The agreement provides for additional funding to help Ready to Learn grantees meet their project objectives and successfully produce the high-quality educational programming intended by Congress. The Department shall provide each grantee a proportional share of such funds based on grantees’ initial budget submissions. There remains concern with the Department’s poor management in administering this program; accordingly, the Department is advised to improve future communications with both grantees and the Congress.

SAFE SCHOOLS AND CITIZENSHIP EDUCATION

Promise Neighborhoods.—The agreement includes bill language extending authority provided under the Promise Neighborhoods program in the Every Student Succeeds Act to grants made under the previous authorization of the program. The Department is directed to use that authority to extend funding for current high-quality Promise Neighborhoods programs operating in underserved areas that have demonstrated promising results through their initial implementation grant and propose to continue pursuing ambitious goals through continued innovative

activities during such extension of their award.

SPECIAL EDUCATION

Within Technical Assistance and Dissemination, the agreement includes \$12,583,000 for education activities authorized under P.L. 108-406, as amended.

Education Technology, Media, and Materials Program.—Progress has been made with tools and services provided under the Education Technology, Media and Materials program that have allowed more than 380,000 students free access to more than 325,000 books in multiple digitally accessible formats. The agreement directs the Department to include not less than the fiscal year 2016 level of funding to expand this program's reach to K-12 students in underserved areas.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

American Printing House for the Blind.—The agreement continues to recognize the significant progress being made through the Resources with Enhanced Accessibility for Learning (REAL) Plan toward developing new technologies to translate educational materials for delivery to students who are blind and visually impaired. These technological advances will provide educational materials to students more quickly than ever before, enhancing opportunities for academic achievement. The agreement continues to support implementation of the REAL plan, and includes not less than \$475,000 for such activities, the same as the fiscal year 2016 level.

National Technical Institute for the Deaf (NTID).—The agreement includes \$2,000,000 in continued funding to support NTID's operational costs and to continue support for at least one regional partnership via a subcontract with an external organization consistent with its mission and strategic plan. These partnerships enable NTID to expand the geographic reach of services and activities supported by the college for individuals who are deaf and hard of hearing. The partnership activities include a focus on: promoting training and postsecondary participation in Science, Technology, Engineering, and Math fields; working with NTID faculty to develop postsecondary preparation for students; providing professional development for teachers and developing partnerships with business and industry to promote employment opportunities for individuals who are deaf and hard of hearing.

STUDENT FINANCIAL ASSISTANCE

Pell Grants.—The agreement includes a provision as included in the Senate bill regarding year-round Pell grants. The Department should implement this provision to maximize flexibility for institutions of higher education and avoid unnecessary administrative burdens while ensuring the best interests of students. The Department is directed to issue guidance on this expanded eligibility and flexibility in the Pell grant program not later than July 1, 2017. The Department is also directed to provide reliable data on the implementation of this provision.

STUDENT AID ADMINISTRATION

Student Loan Servicing.—The agreement directs the Department to permit borrowers who are consolidating their student loans to choose from among all Federal student loan servicers when choosing a servicer for their new consolidated loans. The Department is expected to make common performance metrics available to borrowers to help guide their decision for which servicer to select. This will allow student borrowers to stay with their existing servicer if they wish to, limit unnecessary disruption for borrowers, and provide another incentive for servicers to provide high-quality service to borrowers.

The Department is directed to brief the Committees on Appropriations of the House of Representatives and the Senate and the Senate Committee on Health, Education, Labor, and Pensions and House Committee on Education and the Workforce within 30 days of enactment of this Act on how it plans to carry out this directive.

HIGHER EDUCATION

TRIO.—The agreement does not include funding for the TRIO demonstration project proposed in the budget justification.

The Department is directed to allocate fiscal year 2017 TRIO funding such that all current grantees receive an increase in their grant award. The Department is directed to avoid imposing additional requirements as a condition for grantees to receive these funds. Additionally, the Department is directed to increase the number of new grants awarded for those programs that will conduct a new competition this fiscal year.

There is concern that the Department has rejected and made ineligible for review several fiscal year 2017 grant applications based on minor formatting issues. The Department is strongly encouraged to provide flexibility to such applicants by permitting submission of a corrected application. The Department should include consistent formatting requirements across all TRIO competitions in the future.

INSTITUTE OF EDUCATION SCIENCES

The National Center for Education Statistics (NCES) shall explore ways to collect aggregate teacher-level data on student characteristics when it administers the National Teacher and Principal Survey so that in the future NCES is able to provide better data about the characteristics of students taught by teachers with different certifications.

GENERAL PROVISIONS

The agreement includes a new general provision expanding eligibility and flexibility in the Pell grant program relating to year-round Pell grants.

The agreement includes a new general provision rescinding unobligated balances available for the Pell grant program.

Information on the establishment of a field office shall be included in the fiscal year 2018 budget justification.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

AmeriCorps State and National Grants.—The agreement directs the Corporation for National and Community Service (CNCS) to issue clear, extensive guidance as part of their fiscal year 2018 request for proposals for AmeriCorps grants outlining specifically how grantees can demonstrate and justify the need for operating funds as part of their professional corps grant.

Training and Technical Assistance.—Under current law, CNCS has authority to set aside up to 25 percent of program funds for evaluation, training, and technical assistance. CNCS is directed to use this authority to provide not less than \$7,500,000 for training and technical assistance activities for State Commissions, to expand the capacity of current and potential AmeriCorps programs, particularly in underserved areas.

Innovation, Demonstration, and Assistance Activities.—The agreement does not include funding for the Social Innovation Fund.

SOCIAL SECURITY ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

Administrative Law Judge Hiring.—The Social Security Administration's National Hearing Centers (NHCs) provide the Social Security Administration (SSA) with invaluable flexibility and support to address the hearings backlog. Understanding the value of this flexibility and support, the agreement directs SSA to ensure that its upcoming Administrative Law Judge (ALJ) hiring allocates additional ALJs to NHCs.

Disability Case Processing System.—The agreement strongly supports the recommendation by the Office of Inspector General that SSA should periodically evaluate its path forward to ensure it is pursuing the most cost-effective alternative to achieve the goals of a modernized case-processing system for SSA and obtain the greatest value for the taxpayer. To that end, the agreement supports SSA's decision to obtain an independent, third-party evaluation of the advantages and disadvantages of pursuing various alternatives from this point forward, including continued deployment of DCPS2, and other options. The Social Security Administration is directed to brief the Committees on Appropriations of the House of Representatives and the Senate on the results of the evaluation within 90 days of enactment of this Act.

Prioritizing Continuing Disability Reviews To Maximize Cost Savings.—A recent Government Accountability Office report (GAO-16-250) found that SSA's Continuing Disability Review (CDR) prioritization models fail to maximize potential cost savings. Within 1 year, and every 3 years thereafter, the agreement directs SSA to review and update the models for prioritization of CDRs with the primary intent of efficiently and effectively maximizing lifetime cost savings to the government. A detailed, cost-based explanation

for the model's prioritization of different CDR types and justification for any updates made should be included in the annual CDR Report.

Program Integrity.—The agreement supports increased funding for program integrity activities within SSA. The intent of this agreement is for SSA to support program integrity activities solely from funds available for that purpose. The agreement provides an additional six months of availability to use program integrity funds to facilitate reconciliation of actual costs at the end of the fiscal year.

Reducing the Disability Adjudication Backlog.—The agreement includes funds to address SSA's disability adjudication backlog, which is currently 560 days on average. The Committees on Appropriations of the House of Representatives and the Senate are disappointed in SSA's progress in reducing the backlog when specific funding was provided in the Further Continuing and Security Assistance Appropriations Act, 2017. Due to concerns about continued weaknesses with SSA's CARES plan, SSA is directed to submit a detailed report to the Committees on Appropriations of the House of Representatives and the Senate, the Committee on

Ways and Means of the House of Representatives, and the Committee on Finance of the Senate within 90 days of enactment of this Act that outlines its plan for reducing the disability backlog of the Office of Disability Adjudication and Review (ODAR) and increasing ODAR's effectiveness. The report shall include measurable milestones toward achieving key elements of SSA's hiring and improved automation goals. These milestones shall include workload information, including receipts, pending, and processing time, award rate, and decisions rate at each level of adjudication, workforce information for ALJs, Decision Writers, and other support staff including new hires, separations, and support staff ratios, planned obligations by quarter for each component of the initiative, as well as the expected reductions in the backlog. To ensure this effort stays on schedule, SSA is directed to submit quarterly reports to such Committees that compare actual data with milestones identified in the initial report. The quarterly reports should compare actual and planned data on obligations, hiring, effects on the backlog, and other performance measures.

Representative Payee.—The agreement notes that any vendor hired to conduct representa-

tive payee monitoring reviews have significant and demonstrable experience monitoring representative payees, and addressing problems found among individuals with different types of disabilities and among different types of service providers. SSA should expect close Congressional oversight of this situation throughout the coming year. The agreement also notes with concern a lack of oversight and internal controls in the Representative Payee program. SSA is encouraged to improve program monitoring to address program deficiencies discussed in recent Office of the Inspector General reports.

Work Incentives Planning and Assistance and Protection and Advocacy for Beneficiaries of Social Security.—The agreement includes \$23,000,000 for Work Incentives Planning and Assistance and \$7,000,000 for Protection and Advocacy for Beneficiaries of Social Security.

DIVISION I—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2017

The following is an explanation of the effects of Division I, which makes appropriations for the Legislative Branch for fiscal year 2017. Unless otherwise noted, reference to the House and Senate reports are to House Report 114-594 and Senate Report 114-258. The language included in these reports should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

Reprogramming Guidelines: It is expected that all agencies notify the Committees on Appropriations of the House and the Senate of any significant departures from budget plans presented to the Committees in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committees prior to each reprogramming of funds in excess of the lesser of 10 percent or \$750,000 between programs, projects or activities, or in excess of \$750,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$750,000 from or to a particular program, activity, or object classification as well as reprogramming FTEs or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committees desire to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

Cybersecurity: In lieu of Senate report language pertaining to cybersecurity, the universe of information technology (IT) is an ever evolving, fast paced environment in which the Federal Government operates. As such, this bill provides funding for additional technology infrastructure and security enhancements.

There is concern, however, that a lack of standard operating procedures and known best practices related to technological investments, especially in the area of cybersecurity, may lead to wasteful spending by the government. To that point, agencies involved in the Legislative Branch Cybersecurity Working Group (LBCWG) shall work to improve the overall cyber security posture of the Legislative Branch and are directed to complete an assessment of IT resiliency as developed by the LBCWG within 90 days of enactment of this act. These assessments will be provided to the Committees on Appropriations of the House and Senate, and to each agency's authorizing oversight committee in both the House and Senate.

Additionally, this report directs the Library of Congress to conduct a study with a federally funded research and development corporation to assess the requirements and constraints in implementing multi-factor authentication for Legislative Branch agencies. This study will be provided to the Committees on Appropriations of the House and Senate, Senate Committee on Rules and Administration, and the Committee on House Administration. This study must be completed prior to the Library executing on its multi-factor authentication request.

TITLE I SENATE

The agreement includes \$871,176,081 for Senate operations. This item relates solely

to the Senate, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

ADMINISTRATIVE PROVISIONS

The agreement provides for unspent amounts remaining in Senators' Official Personnel and Office Expense Account to be used for deficit or debt reduction and authority for transfer of funds.

HOUSE OF REPRESENTATIVES

The agreement includes \$1,189,050,766 for House operations. This item relates solely to the House, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

Ford House Office Building Data Center Space: It is directed that any renovation plans for the data center space located in the Ford House Office Building commence no earlier than March 31, 2018 if those plans will impact data center operations of other Legislative Branch agencies. Accommodation should be given to affected agencies' funding and information technology needs in finalizing such plans.

House Food Service: There is concern with continued food service issues surrounding lack of food variety, consistent quality of service, and management challenges with the food services provider. It is known that additional cafeteria renovations and reconfigurations are needed in the near future; prior to moving forward with any significant renovations the Chief Administrative Officer (CAO) in conjunction with the Architect of the Capitol should explore the feasibility of making available additional branded options to the House community. The findings should be reported to the House Committee on Appropriations and the Committee on House Administration. Additionally, we are supportive of the CAO's recently developed food service quality assurance program. The CAO is encouraged to work with oversight committees to make recommendations on ways to improve food service based on the findings of the program.

Cybersecurity Assistance: Cybersecurity is quickly emerging as one of the most important aspects of the House of Representatives' security platform. Evolving threats and actors demand the House of Representatives, and the organizations under its jurisdiction, stay one step ahead. To that end, the House of Representatives' response capabilities may, in significant circumstances, dictate the need for additional support and assistance from the executive branch.

It is realized that the nature of the support and assistance provided by the executive branch is contingent on the threats and vulnerabilities experienced by the House of Representatives. It is intended that the Speaker, in consultation with the Minority Leader, outline the type of infrequent executive branch assistance that may be required, including resources provided by the House of Representatives, resources provided by the executive branch, actions and constraints on those resources necessary to protect the Separation of Powers, privileges under the Speech or Debate Clause of the Constitution, and other constitutionally-derived powers and rules including those enacted pursuant to the Rulemaking Clause of the Constitution.

ADMINISTRATIVE PROVISIONS

The agreement provides for unspent amounts remaining in Members' Representative Allowances account to be used for deficit or debt reduction; prohibits the delivery of bills and resolutions; prohibits the delivery of printed copies of the Congressional Record; places a limitation on amount avail-

able to lease vehicles; places a limitation on print copies of the U.S. Code; prohibits delivery of reports of disbursements, daily calendars, and printed copies of the Congressional Pictorial Directory; allows USCP dignitary protection detail to travel overseas with Members of the Leadership; prohibits delivery of telephone directories, Budget of the United States Government and Federal Register; and cybersecurity assistance.

The agreement includes \$3,838,000.

OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES

SALARIES AND EXPENSES

CAPITOL POLICE

SALARIES

The agreement includes \$325,300,000 for salaries of the Capitol Police. An obligation plan is no longer needed as required in House Report 114-594.

The increase includes full year funding for 24 hires added in FY2016 and half year costs of 72 hires expected to address implementation of additional screening and pre-screening at various building access points. The total staffing level is expected to be approximately 1,871 sworn and 372 civilian staff. No more than \$36,805,000 is recommended for overtime in fiscal year 2017, which includes funds to support the staffing of the Thomas P. O'Neill Federal Office Building. This provides for approximately 587,000 hours of additional duty.

The agreement does not include funds for USCP overtime for requirements associated with the restoration of the Cannon House Renewal Project, or any other major construction projects undertaken by the Architect of the Capitol (AOC) as those funds are provided to the AOC as part of the overall project costs for those major projects and are paid to the USCP on a reimbursable basis. It is expected the USCP to operate within the designated funding level for requirements associated with each project.

The agreement includes \$68,000,000 for general expenses of the Capitol Police.

ARCHITECT OF THE CAPITOL

The agreement includes \$617,887,000 for the activities of the Architect of the Capitol (AOC).

Construction Division: The Committees are aware of AOC's practice of employing its Construction Division employees as short-term, annual employees who do not have identical job protections and benefits available to permanent full-time employees.

Therefore, the AOC is directed to submit a report detailing the structure and operations of the Construction Division within 90 days of enactment. The report should include details on how the Construction Division's capabilities are integrated into AOC's project planning processes, how job security protections and other benefits are comparable to those extended to other AOC staff, how employment status affects workforce retention, AOC's dependence on outside contractors, and whether or not the Construction Division is still meeting the goals and purpose of its original creation.

Senate Restaurants: Concerns continue, as detailed in Senate Report 114-258, regarding findings that the food service provider for the Senate underpaid many of its employees by misclassifying their work duties, and that problems with contract compliance could continue. It is emphasized that the AOC shall follow all directives included in such report, particularly the directive for the AOC to consider all recourses in ensuring compliance and accountability with the contract. AOC is further directed to continue to consider all such recourses throughout the entire term of the contract if additional contract compliance problems arise. It is noted that the Government Accountability Office is conducting an audit of AOC's oversight of the Senate restaurant contract and that the AOC Inspector General has taken steps to incorporate AOC's restaurant contract management into its routine oversight.

It is noted that the Architect has committed, including in written correspondence to and meetings with Members of the United States Senate, to fully institute comprehensive reforms of the AOC's oversight of Senate restaurant contracts. Reforms include, but are not limited to: increasing the number of dedicated AOC staff to the oversight of restaurant contracts and ensuring such staff maintain a close and continuing connection to the Senate community; coordinating detailed, ongoing audits of employee wage rates and wage classifications; determining if areas of improvement to the contractor's pay administration practices exist so that information is readily available and transparent to contract employees; facilitating training on applicable labor laws for both AOC staff and relevant contract staff; ensuring the contractor maintains a full-time, dedicated human resources manager on site; and ensuring specific improvements in contractor communications with its employees, including for communications to be available in multiple languages, as needed, and ensuring contractor employees have convenient access to report possible violations. It is expected that the reforms AOC has committed to will be fully instituted and formalized as standard operating procedures as soon as practicable. The AOC is directed to continue to immediately report all developments related to contractor oversight of Senate restaurants to both to the Senate Committee on Appropriations and the Senate Committee on Rules and Administration.

Total, Capitol Grounds	\$12,826,000

Use of Grounds: It is understood the need to maintain safety and order on the Capitol grounds and the Capitol Police are commended for their efforts. Given the family-style neighborhood that the Capitol shares with the surrounding community it is expected the Capitol Police continue to forebear enforcement of 2 U.S.C. 1963 ("An act to protect the public property, turf, and grass of the Capitol Grounds from injury") and the Traffic Regulations for the United States Capitol Grounds when encountering snow sledgers on the grounds.

Bike Lanes. The Architect of the Capitol is commended for its efforts to develop a safe and accessible street system to better connect all road users to the U.S. Capitol, Union Station, and the National Mall by making cost-effective improvements to Louisiana Avenue, Constitution Avenue, and 3rd Street Northwest. The plan, as approved by the Senate Committee on Rules and Administration, would provide protected bike lanes on these roads to safely connect residents and tourists to Pennsylvania Avenue, the National Mall, the U.S. Capitol, Union Station, and the Metropolitan Branch Trail. As the

AOC works during fiscal year 2017 to develop detailed specifications on these new bike lanes, the AOC should continue to coordinate with the District of Columbia Department of Transportation, consistent with the necessary approvals of the Senate Committee on Rules and Administration, to pursue completion of this project in a timely manner. The AOC is also reminded to ensure close coordination with the Senate Sergeant At Arms and among AOC jurisdictions to minimize impact on other campus projects and priorities.

This item relates solely to the Senate and is in accordance with long practice under which each body determines its own house-keeping requirements, and the other concurs without intervention.

HOUSE OFFICE BUILDINGS

The agreement includes \$185,731,000 for the basic and recurring needs of the House within the House Office Buildings account, of which \$61,404,000 shall remain available until September 30, 2021 and \$62,000,000 shall remain available until expended.

LIBRARY OF CONGRESS

Subject Headings: In lieu of report language related to the Library of Congress' subject headings, the Library of Congress is directed to make publicly available its process for changing or adding subject headings. It is expected that the Library use a process to change or add subject headings that is clearly defined, transparent, and allows input from stakeholders including those in the congressional community. The process should consider appropriate sources of common terminology used to refer to a concept, including current statutory language and other legal reference sources; and other sources, such as reference materials; websites; and, titles in the Library of Congress' collection.

SALARIES AND EXPENSES

The agreement includes \$450,667,000 in direct appropriations and authority to spend receipts of \$6,350,000.

This amount includes \$6,563,000 for information technology security enhancements, \$1,348,000 for digital collections management, \$4,039,000 for shelving replacement in the Law Library's collection storage areas, \$1,888,000 for the Veterans History Project and \$8,444,000 for the Teaching with Primary Sources program.

Primary Computing Facility: In lieu of House report pertaining to the Library of Congress' Primary Computing Facility (PCF), the Library's current PCF built in the 1970's, can no longer provide a sufficient level of data center reliability and resiliency. The Library has conducted a review of the necessary requirements and has assessed numerous options to remediate the deficiencies of its current PCF. \$20,000,000 is being provided to move forward with this important initiative. Once fully developed the Library's Chief Information Officer shall provide a time-line and plan on the Library's transition out of its current PCF to the Committees on Appropriations of the House and Senate.

Digital Collections Management: The agreement supports language included in Senate Report 114-258 and reiterates the need for the Library to develop an efficient, organization-wide system for acquiring, managing, and sharing digital materials. It is critical for the Library to have a comprehensive digital collection management plan in place that centralizes and builds on current expertise, staffing, and funding. The Committees look forward to considering future funding requests for additional FTE's to add to current resources supporting digital collections as details for such plans are finalized.

eReader Program: The importance of having accessible reading material to U.S. citizens and residents who are unable to read printed material due to blindness or physical limitations is recognized. In 2016 Congress authorized the National Library Services for the Blind and Physically Handicapped (NLS) to provide readers for electronic braille (Public Law 114-219). This new authority is consistent with a 2016 Government Accountability Office report requested by the House Committee on Appropriations, which found that NLS could provide braille materials in a modern and potentially more cost-effective way by distributing braille eReaders to NLS patrons. In addition to the new authority NLS continues its mission of providing materials in audio and braille formats and players for talking books.

It is encouraging that NLS is moving forward to implement the braille eReader program. There is support for the Library's current approach to, within existing funds and in cooperation with an educational organization for the blind, pilot the introduction of braille eReaders, and, with information learned from the pilot, work with the network of participating NLS libraries to scale the braille eReader program up so that it can deliver the increased accessibility that Congress intended.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The agreement includes \$23,098,000 in direct appropriations to the Copyright Office. An additional \$39,548,000 is made available from receipts for salaries and expenses and \$6,179,000 is available from prior year unobligated balances.

Modernization: In lieu of direction provided in House Report 114-595 and Senate Report 114-258, the agreement provides the following with regard to the Copyright Office.

The House and Senate Committees on Appropriations fully understand and support the U.S. Copyright Office as it moves toward modernization in order to provide quality services and adapt to the continuously evolving copyright marketplace. In support of

these efforts, the Copyright Office's authority to spend receipts has been increased and it is expected that the additional funds made available will be used towards the modernization effort.

As a necessary part of providing quality services, the need for a robust information technology modernization effort within the Copyright Office to support the growth of creativity and commercial artistic activity in our nation and to effectively serve users and copyright owners in the 21st century is recognized. Various legislative proposals exist with regard to the Copyright Office and this agreement takes no position on larger systemic changes being considered. Given the importance of the copyright system to the creative community, the Committees on Appropriations of the House and Senate are committed to improving the IT systems as broader discussions are being had by relevant Congressional authorizing committees.

Last year the Copyright Office was required to provide a plan on necessary IT upgrades to the Copyright Office and to seek public comments on efforts to modernize. A provisional report was received on February 29, 2016. However, the report did not include the level of detail or collaboration with the Library's Chief Information Officer (CIO) as expected. Therefore, the Copyright Office is directed, in collaboration with the Library's CIO, to modify the plan to include potential opportunities for shared efficiencies and cost-savings as well as ways the Library's CIO Office can support the Copyright Office in its overall modernization efforts. This report should also include any new funding strategies based on the comments received from the public regarding changes in fee structures. This modified plan is to be provided to the Committees on Appropriations of both the House and the Senate within 90 days.

Without prejudice to the proposals on where the Copyright Office appropriately sits organizationally, it is recognized that there must be integration with the Library of Congress given it is currently a part of the Library. It is expected that the Copyright Office consult with the Library of Congress' CIO on its modified IT plan and use of shared services, where practicable, should be reflected in the plan. However, with regard to copyright specific IT systems and larger Copyright issues, it is expected that the Library continue to defer to the expertise of the Register of Copyrights.

Copyright Expertise: The Copyright Office has offered its expertise on copyright matters to the Executive Branch, including participation in international discussions, and expects the Office is expected to continue that important role.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The agreement includes \$107,945,234 for salaries and expenses.

Congressional Research Service Modernization: It is recognized that the Congressional Research Service (CRS) adhered to direction included in Senate Report 114-258 to examine ways in which the internal structure of the organization may be improved to meet the challenges of the ever-changing Congressional environment. The Director of CRS has already provided a verbal progress report on this internal examination to the Committees and will keep the Committees apprised of any structural changes moving forward. This obviates the need for a written report.

In lieu of the directives to the GAO contained in the House and Senate reports, this explanatory statement addresses matters on which the House and Senate concur and action by the GAO is requested.

Technology Assessment: GAO's work is recognized in the area of technology assess-

ment, since being tasked with this responsibility in 2002. GAO has produced highly technical and scientific reports in response to Congressional requests and statutory requirements. These reports have included technology assessments (TA), and other reports to Congress that incorporate analysis of scientific, technological and engineering issues in their evaluations of federal programs. GAO has also produced best practice guides for use across government on the topics of lifecycle cost estimating, project scheduling, and technology readiness assessment. GAO's work in these areas is led by GAO's Center for Science, Technology, and Engineering (CSTE).

GAO's CSTE provides wide-ranging technical expertise across all of GAO's areas of work, including support to various studies of federal programs with science and technology elements, such as cybersecurity, nuclear and environmental issues, and major technical systems acquisitions, among others. Also noted is the work of CSTE's e-Security laboratory and Cost Engineering Sciences groups which conduct computer and network security evaluations and advanced operations research analyses (including cost, schedule, and technical performance), respectively.

GAO has provided direct support to the Congress via congressional testimony, review of draft legislation, and the adoption of various report recommendations by Executive Branch agencies. GAO is commended for providing key direct technical support to various congressional committees on tech-

nology-focused topics such as the U.S. Capitol Police radio systems acquisition.

It is noted that GAO is using rigorous methods in its technical reports, including engaging key external technical experts via group meetings conducted in partnership with the National Academies, cost-benefit analysis, risk analysis, technology maturity assessment, and scenario-based trend identification.

Given the persistent and growing demand for this technical work, the Comptroller General is commended for his strategic initiative to build the scientific and technical capacity within GAO and encouraging further growth as the work portfolio requires. GAO is encouraged to continue a communication effort with Congress to ensure lawmakers are aware of these services.

In cases in which the House and Senate reports provide contradictory directives or instructions that are not addressed in this explanatory statement, such directives or instructions are negated.

The Secretary of State and the Administrator of the United States Agency for International Development (USAID), as appropriate, shall submit to the Committees on Appropriations a description of the cost-matching arrangements required by sections 7045(a)(2), 7080(c), and 8004(a) of this Act on a country and program basis prior to the obligation of funds made available by this Act for such purposes.

In lieu of the tables contained in the House and Senate reports, the tables contained in this explanatory statement shall guide departments, agencies, commissions, and other entities when allocating funds.

The Act modifies section 7019 from the prior fiscal year, and requires that amounts designated in the respective tables referenced in this explanatory statement for funds appropriated in titles III through V shall be made available in such designated amounts and shall be the basis of the report required by section 653(a) of the Foreign Assistance Act of 1961 (FAA) (the 653(a) report), where applicable. (2) significant departures in funding from the CBJ or the 653(a) report to be submitted 30 days after enactment of this Act; and

(3) plans for restructuring the department or agency involving funding or staffing changes.

CBJ documents, and operating and spend plans, shall not suffice for purposes of satisfying special notification requirements contained in this Act.

As in prior fiscal years, additional funding designated as Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985 (BBEDCA) is contained in title VIII of this Act. Such funds are intended to address the extraordinary costs of operations and assistance in countries in conflict and areas of instability and violence, particularly in the Middle East, South Asia, and Africa; security, stabilization, and peacekeeping programs; humanitarian activities; and counterterrorism and counterinsurgency efforts.

For purposes of this Act, the term “extremist organization” means the Islamic State of Iraq and Syria (ISIS); organizations affiliated with ISIS; a foreign organization that is determined to be engaged in terrorist activity, as defined in section 212(a)(3)(B) of the Immigration and Nationality Act (8 U.S.C. 1182); and other entities designated as foreign terrorist organizations pursuant to section 219 of such Act. Section 7048. United Nations

Subsection (f) prohibits the use of funds for the design, renovation, or construction of the UN Headquarters in New York and no such funds were requested for fiscal year 2017 for this purpose. In accordance with this subsection, any operating plan submitted shall include a list of ongoing and new capital projects funded by the plan. The following information shall also be included for each capital project with an estimated total assessed cost to all member states in excess of \$100,000,000 over the life of the project: (1) the justification for the project; (2) a detailed summary of the proposed budget, including costs for design, construction, project management, building fit out, and technology and security upgrades; (3) the assessed costs to be funded under such operating plan and an estimate of the total assessed cost to the United States for the project; (4) a description of the steps taken by the UN and the Department of State to keep costs within budget and the contingency plan to address potential cost overruns; and (5) a description of the risk management strategy and mechanisms to ensure transparency and accountability.

Subsection (j) requires a report on arrears. As a signatory to the Charter of the UN and other treaties and conventions, the United States has an obligation to pay assessed contributions to the UN regular budget, peacekeeping operations, and certain specialized agencies and organizations. Scales of assessments for these organizations are negotiated on an ongoing basis. Article 19 of the UN Charter states that a member of the UN that is in arrears “shall have no vote in the General Assembly if the amount of its arrears equals or exceeds the amount of contributions due from it for the preceding two full years.” Therefore, this subsection requires a report to ensure that the consequences of the accumulation of arrears are fully described to Congress. In assessing the impact to the national interest due to accumulation of arrears owed to the UN and other international organizations, the Secretary of State is directed to consider the relative loss of influence at such organizations to other countries.

human health. The Secretary may waive the regular notification procedures required under paragraph (3) pursuant to the authority of section 7015(e) of this Act.

Section 7059. Gender Equality (modified)

For the purposes of subsection (e)(1), funds are intended to be provided through grants and cooperative agreements, and the following programs and activities shall be included: for subparagraph (A), family oriented activities and culturally appropriate programs to promote tolerance and pluralism and the development and dissemination of early warning and response systems; for subparagraph (B), comprehensive programs that provide immediate and sustained livelihood support, psychosocial services (including for family members), and the establishment of safe houses and other centers dedicated to the empowerment and protection of women and girls; for subparagraph (C), forensic assistance and exhumation of mass graves, as appropriate; and for subparagraph (D), the use of social media and training programs. ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

Section 101 prohibits funds available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Department of Transportation Working Capital Fund to provide payments in advance to vendors for the Federal transit pass fringe benefit program, and to provide full or partial payments to, and to accept reimbursements from, Federal agencies for transit benefit distribution services.

Section 103 requires the Secretary of Transportation to post on the internet a

schedule of all Council on Credit and Finance meetings, agendas, and meeting minutes.

FEDERAL AVIATION ADMINISTRATION OPERATIONS (AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$10,025,852,000 for the operations of the Federal Aviation Administration (FAA), to remain available until September 30, 2018. Of the total amount provided, \$9,173,000,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

The following table compares the agreement to the levels proposed in the budget request by activity:

	Budget Request	Agreement
Air Traffic Organization	7,539,785,000	7,559,785,000
Aviation Safety	1,286,982,000	1,298,482,000
Commercial Space Transportation	19,826,000	19,826,000
Finance and Management	771,342,000	771,342,000
NextGen and Operations Planning	60,155,000	60,155,000
Security and Hazardous Materials		
Safety	107,161,000	107,161,000
Staff Offices	209,101,000	209,101,000
Total	9,994,352,000	10,025,852,000

Funding availability and transfer authority.—The agreement provides two-year funding availability for the entire operations account. This funding flexibility is provided to enhance assurance of continuity of air traffic operations during the annual transition from one fiscal year to the next. In addition, the agreement includes funding transfer authority of five percent among the activities in this account. This transfer authority is provided to meet emerging requirements as FAA works to accelerate the modernization of the Nation’s air traffic control system.

Operations funding.—The agreement includes \$20,000,000 above the budget request for the air traffic organization. This funding level fully supports the air traffic operational workforce, including the hiring and training of new controllers to fill critical positions. The increase above the budget request is provided to accelerate the safe integration of Unmanned Aerial Vehicles (UAVs) into the national airspace (NAS).

Aviation safety.—The agreement provides \$11,500,000 above the budget request for aviation safety activities. Of this amount, \$10,000,000 is provided to accelerate the safe integration of UAVs into the NAS; and \$1,500,000 is provided for six additional full

time equivalent (FTE) positions to support the certification of new technologies and advance FAA's organizational delegation authorization (ODA) efforts and strengthen safety oversight.

The agreement provides FAA with the resources it needs to work with industry to achieve the goal of full utilization of ODA to improve the effectiveness and efficiency of product certification. FAA is directed to ensure that an ODA can conduct all specified activities authorized and approved by FAA in their procedures manual. When requested by an ODA, FAA is directed to conduct a review of ODA limitations and remove limitations that FAA determines, through risk analysis, are associated with low and medium risk activities. These efforts should include all FAA field office activities for the type certification and delivery of new aircraft including the Aircraft Certification Office, Aircraft Evaluation Group, and Manufacturing Inspection District Offices. FAA's plan to expand the ODA performance scorecard to all ODAs nationally should be aligned with objectives to facilitate full utilization of ODAs by all FAA offices.

FAA is commended for continuing to strengthen international aviation safety cooperation and improve the flow of aviation products globally through strategic engagement with the European Aviation Safety Agency (EASA), Transport Canada Civil Aviation (TCCA), and National Civil Aviation Agency of Brazil (ANAC). These activities should result in streamlined validation and acceptance of type certificates and approvals among these authorities. FAA is directed to ensure that the efficiency of foreign validations is consistent with the terms of the Bilateral Agreement and to assist U.S. companies that experience significant delays.

The full budget request is provided for Commercial Space Transportation, Finance and Management, NextGen and Operations Planning, Security and Hazardous Materials Safety, and Staff Offices.

The agreement provides \$159,000,000 for the contract tower program.

The agreement includes language preventing the elimination of the Contract Weather Observers (CWO) program, therefore a report is not required.

The agreement directs FAA to develop a plan updating the controller staffing model for en route centers no later than one year after enactment.

The agreement directs FAA to review current policies concerning reporting and data collection standards for severe allergic reactions aboard aircraft. The FAA shall submit the results of the review to the House and Senate Committees on Appropriations no later than 180 days after enactment of this Act.

The agreement directs FAA to regularly report to the House and Senate Committees on Appropriations on the NextGen Advisory Committee's objectives for the implementation of airspace modernization programs.

The agreement directs the GAO to submit a report to the House and Senate Committees on Appropriations on the importance of collegiate aviation flight training operations. The report shall assess: the total capacity of collegiate aviation flight training programs in the United States to meet the needs of the nation to train commercial pilots, the footprint of collegiate aviation flight training operations at the airports in the United States, whether infrastructure beyond that necessary for operations of commercial air carriers is needed at airports with collegiate aviation flight training operations, and the cost of additional infrastructure if such infrastructure is warranted. Additionally, the report should identify avail-

able funding sources and recommendations for improving technical and financial assistance to airports to construct such infrastructure.

FACILITIES AND EQUIPMENT (AIRPORT AND AIRWAY TRUST FUND)

The agreement includes \$2,855,000,000 for FAA facilities and equipment. Of the total amount available, \$486,000,000 is available until September 30, 2017 and \$2,369,000,000 is available until September 30, 2019.

The agreement provides \$32,800,000 for separation management portfolio, including \$7,000,000 above the budget request to advance space-based automatic dependent surveillance-broadcast (ADS-B) technology.

The agreement provides \$11,500,000 for on demand NAS portfolio, including \$3,000,000 above the budget request to continue to develop and implement an integrated Cyber Testbed at the FAA Technical Center.

The agreement provides \$43,800,000 for System-Wide Information Management (SWIM), an increase of \$15,000,000 above the budget request. The additional funding for SWIM will accelerate FAA's ability to share traffic and weather data with airlines and other users of our national airspace. The Committee makes this investment with the understanding that both the FAA and its NextGen partners put a high priority on sharing data over SWIM's secure and reliable architecture.

The agreement provides \$9,000,000 for VHF Omnidirectional Radio Range (VOR) with Distance Measuring Equipment (DME), an increase of \$2,000,000 above the budget request to address the rationalization and recapitalization of aging en route navigational aids. These additional funds are provided to expedite the issuance of a request for proposals to implement a service-based procurement for Very High Frequency (VHF), Omnidirectional Range (VOR) and Tactical Air Navigation (TACAN) systems during fiscal year 2017, and to accelerate the selection of a final contract.

FAA budget documents report high numbers of reimbursable positions, but it is unclear whether those employees perform reimbursable work for the majority of their time on duty. The FAA is directed to reclassify positions, as appropriate, in order to ensure that the classification of positions as reimbursable or direct accurately reflects employees' work.

Telecommunications carriers have signaled their intention of discontinuing Time-Division Multiplexing (TDM) based connections. FAA should prepare to adopt Internet

Protocol (IP) connections across all national airspace system infrastructure, and it should utilize both near and long term strategies to manage this transition without impacts to air traffic services. Funding provided for two FAA programs—Surveillance Interface Modernization and Flight Interfacility Data Interface—will support the transition from TDM to IP telecommunications. FAA is encouraged to consider existing technology solutions that may be implemented while it continues to plan for modernization strategies.

RESEARCH, ENGINEERING, AND DEVELOPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The agreement provides \$176,500,000 for the FAA's research, engineering, and development activities, to remain available until September 30, 2019.

The agreement provides the following levels for specific programs:

Advanced material/structural safety.—The agreement provides \$6,500,000 for Advanced Material/Structural Safety, of which \$2,000,000 is for the FAA to work with public and private partners who provide leading-edge research, development and testing of composite materials and structures.

Unmanned aircraft systems research.—The agreement provides \$20,035,000 for Unmanned Aircraft Systems (UAS) Research, an increase of \$2,670,000 above the fiscal year 2016 enacted level, to address the host of research challenges associated with the integration of UAS into the NAS system. Of this amount, \$3,650,000 is provided to the NextGen integrated laboratories, in partnership with NASA laboratories, to provide for proofs of concept supporting the integration of UAS into the national airspace. This effort will ensure interoperability with national airspace systems through the Unmanned Traffic Management system, which will create an air traffic control network for UAS that will have the capability to communicate with existing NAS infrastructure. In addition to the amount provided for UAS Research, \$10,000,000 is directed to support the expanded role of the Center of Excellence in the areas of UAS research, including cybersecurity, agricultural applications, beyond visual line of sight technology, counter-UAS detection technology, and continuation of air and ground collision studies. Furthermore, the Center of Excellence shall establish a UAS safety research facility to study

appropriate safety standards for UAS and to develop and validate certification standards for such systems. Even with this additional funding, private sector contributions to the Center will likely continue to outmatch Federal investment.

The agreement provides a total of \$43,187,000 for research related to environmental sustainability, of which \$16,013,000 is for environment and energy, and \$27,174,000 is for NextGen—Environmental research aircraft technologies, fuels, and metrics.
