The Senate met at 9:30 a.m. and was called to order by the Honorable RAND PAUL, a Senator from the Commonwealth of Kentucky.

**PRAYER**

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Beautiful Savior, You have been our dwelling place in all generations, and we are sustained by Your steadfast love. Today, surround our Senators with the shield of Your favor, as they labor to keep our Nation strong.

Lord, teach them to be obedient to Your commands, doing Your good will as Your presence fills them with joy. May they be quick to listen, slow to speak, and slow to anger. Manifest Your power throughout their labors, so that this Nation will be exalted by righteousness.

May Your angels guard us in all our ways. We pray in Your mighty Name. Amen.

**PLEDGE OF ALLEGIANCE**

The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. HATCH).

The legislative clerk read the following letter:

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable RAND PAUL, a Senator from the Commonwealth of Kentucky, to perform the duties of the Chair.

OREN G. HATCH, President pro tempore.

Mr. PAUL thereupon assumed the Chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

**HEALTHCARE**

Mr. MCCONNELL. Mr. President, the Senate took a critical step yesterday afternoon to finally leave the failed experiment of ObamaCare in the past. It marks an important moment for our country. It signals a positive development for the countless Americans who continue to suffer under ObamaCare’s skyrocketing costs and diminishing options.

I thank every colleague who voted to begin the debate. I thank the President, his administration, and our friends in the House for the roles they have played.

Now we have to keep working hard. We are determined to do everything we can to succeed. We know our constituents are counting on us. We will work through an open amendment process. I know Members in both parties have healthcare ideas they would like to offer. If you have one, bring it to the floor.

Last night the Senate considered a comprehensive ObamaCare repeal-and-replace substitute. That amendment was subject to a 60-vote threshold because the Congressional Budget Office had not provided a score for that provision as yet, but it represented a number of important healthcare reform ideas developed by our Members.

Later today, the Senate will vote on another alternative that is based on the ObamaCare repeal legislation that passed Congress in 2015 and was vetoed by President Obama.

We will consider many different proposals throughout this process from Senators on both sides of the aisle. Ultimately, we want to get legislation to finally end the failed ObamaCare status quo through Congress and to the President’s desk for his signature.

This certainly will not be easy. Hardly anything in this process has been.

We know that moving beyond the failures of ObamaCare is the right thing to do. We have put a lot of hard work already into this. We have had important successes, as we saw with the vote to proceed yesterday. We have to keep up the work now so we can get this done.

**RESERVATION OF LEADER TIME**

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

**CONCLUSION OF MORNING BUSINESS**

The ACTING PRESIDENT pro tempore. Morning business is closed.

**AMERICAN HEALTH CARE ACT OF 2017**

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 1628, which the clerk will report.

The legislative clerk read as follows:

A bill (H.R. 1628) to provide for reconciliation pursuant to title II of the concurrent resolution on the budget for fiscal year 2017. Pending:

McConnell amendment No. 267, of a perfecting nature.

Enzi (for PAUL) amendment No. 271 (to amendment No. 267), of a perfecting nature. Donnelly motion to commit the bill to the Committee on Finance with instructions to report back with instructions.

The ACTING PRESIDENT pro tempore. Under the previous order, the
time until 11:30 a.m. will be equally divided between the leaders or their designees.

Who yields time?

If no one yields time, time will be charged equally to both sides.

SENATE

The Democratic leader is recognized.

Mr. SCHUMER. Mr. President, I ask unanimous consent that my speaking time be taken from leader time, not the debate time.

The Acting PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, as the Senate continues the debate on the Republican healthcare bill, it seems the Republican majority is no clearer on what the endgame is because there is no good way out of this.

Last night, the Senate Republican TrumpCare bill—after months of back-room negotiating and provisions aimed at all the individual States and Members—died, with nine Republicans voting against the measure and many others who voted for it gritting their teeth unhappily.

Later today, we will vote on a bill to repeal the Affordable Care Act without replacing it. I know that you, Mr. President, have championed that bill. Based on public comments and public criticism from the other side of the aisle, repeal without replace will fail as well. It is becoming clearer that in the end, the majority leader might push a skinny repeal. It is a ruse to get to full repeal, the majority leader might push a much scaled-back version of repeal in the hopes of passing something—a so-called skinny repeal—just to get to conference. My colleagues, make no mistake about it, skinny repeal is equal to full repeal. It is a Trojan horse, designed to get the House and Senate into conference where a hard-right flank of the House Republicans, the Freedom Caucus, will demand full repeal or something very close to it. They will demand all the things—deep cuts to Medicaid, generous tax breaks for the wealthy, elimination of pre-existing conditions, slashing the kinds of things people need for nursing homes and opioid treatment and disabled kids—that many of my Republican colleagues in the Senate have very sincerely tried to undo.

There is no such thing as skinny repeal. It is a ruse to get to full repeal, with all the concomitant cuts to Medicaid, tax breaks which are so popular and which so many of my Republican colleagues here on the other side have opposed. It is clear House and Senate Republicans are miles apart. They are divided on major issues—on every amendment, and we still will not even be able to have debate on many amendments on one of the most major bills affecting us, that affects tens of millions of people’s health, and affects one-sixth of the economy. Don’t fool for this, oh, we are having a full process. I like my friend the Republican leader. We get along well, but sometimes he says things that when I hear them, I get a little twinge in the stomach. We have a full and open amendment process, he said three or four times. Everyone in this Chamber knows that is not the case. Don’t be seduced into thinking, well, we tried. We haven’t tried until we go back to regular order.

Mr. President, on another matter, President Trump continues to find new ways to humiliate his own Attorney General, Jeff Sessions, a man who stood by this President because he was jumping on a train that was headed down the track. Maybe he saw that, but no one else did, and now the President humiliates him.

I would say to my fellow Americans—Democratic, Republican, liberal, conservative—every American should be troubled by the character of this person who humiliates and turns his back on a close friend after only 6 months. We are already far beyond the dangers of letting theabby effect affect the Department of Justice. The President is taking almost every opportunity in public to demonstrate an open hostility toward the Attorney General. It seems clear the President’s intention is to make life unbearable for the Attorney General, hoping to prompt his resignation. All Americans should be wondering why the President is publicly demeaning and humiliating such a close friend and supporter—a member of his own party. The President is not the only one doing that. The President is trying to pry open the office of Attorney General to appoint someone during the August recess who will fire Special Counsel Mueller and shut down the Republican investigation. Let me say, if such a situation arises, Democrats will use every tool in our toolbox to stymie such a recess appointment.

Second, I can’t imagine my friends on the Republican side, particularly my friend the Republican leader and the majority leader and Speaker Ryan—I can’t imagine they would be complicit in creating a constitutional crisis. They must work with us and not
open the door to a constitutional crisis during the August recess.

SANCTIONS BILL

Mr. President, one final point because I know my colleagues are waiting: sanctions—finally, a word on them. Yesterday, the House of Representatives unanimously, 419 to 3, a sanctions bill that was a product of bicameral, bipartisan negotiations and includes strong sanctions against Russia, Iran, and North Korea. The Senate must act quickly on the legislation from the House.

I understand that earlier today the chairman of the Foreign Relations Committee indicated he plans to strip out a section of this package that relates to North Korea. This is yet another delay generated by Republicans to prevent this bill from landing on the President’s desk before we leave for the recess.

Even as we debate other items here on the floor, we shouldn’t delay this legislation any longer.

I wish the majority leader had scheduled another vote on the sanctions bill so that we can send the legislation to the President’s desk before the recess, and I expect the vote will constitute a veto-proof majority, just like the vote in the House.

Mr. SCHUMER. Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. COTTON). The Senator from Washington.

EXPORT-IMPORT BANK

Ms. CAPRIZI. Mr. President, I saw the remarks of the President of the United States in Youngstown, OH, and it has brought me to the floor this morning because the focus of some of his speech was on the economy and job creation. Well, I can tell the President right now that we need his urgent attention to making sure that we create jobs right now. It is not about something in the future; it is about right now.

There are over 40 projects worth $30 billion being held up because the Export-Import Bank does not have a quorum. It is incredibly important to get a functioning bank and to get a board that supports having the support of a credit agency to work with the private sector to finance the sale of U.S.-made products.

The President seems to embrace the notion that we should make things in America. I think we should make things in America, but I don’t think that we sell them only in America. I actually want to sell the great manufactured products of the United States of America to overseas markets, to the 95 percent of consumers who are outside the United States. But because this administration has not shown the leadership to get a functioning Export-Import Bank, we continue to struggle.

Those $30 billion in projects are being held up because we don’t have a functioning quorum.

Mr. President, I wish he would have visited them because they decided to move part of their operations to Canada and Brazil, instead of expanding in Ohio, to take advantage of countries that actually have a credit agency. GE Aircraft Engines decided to open a turbine prop engine facility in Europe for the same reason. We are losing jobs simply because we don’t have a tool in a Senate with private-sector backing to make sure that the sale of U.S.-manufactured products actually gets done to countries and organizations in those countries that don’t have the proper financing. GE supposedly said that they weren’t going to move GE Aircraft Engines to Europe for the same reason. They did not support the reauthorization of the Export-Import Bank.

Between 2012 and 2016, the Export-Import Bank supported more than 250 export deals in Ohio from all sizes of companies, such as Haltec, which exports auto parts, and Anglo American Hardwoods, which exports wood products to the GE Aviation that I mentioned and GE Aircraft Engines. These deals were worth more than $2 billion.

What I am so frustrated about is that this administration has not kept its word in support of the Export-Import Bank. We continue today with the folly of having our Trade Ambassador show up both sides of the aisle and say that the Export-Import Bank is controversial. I reminded him that it was actually supported by a majority of Democrats and a majority of Republicans in the U.S. Senate. It was also supported by a majority of Republicans in the House of Representatives and the Democrats in the House of Representatives. So how could it be so controversial if we reauthorized it?

But the White House has continued to have a double-edged strategy, pretend that they support the Export-Import Bank, and yet send up the name of a nominee to chair the bank who wants to destroy the bank and has made that intention clear.

If we want jobs in Ohio, we need to get the Export-Import Bank approving deals from manufacturers that are ready to close sales and create more jobs, so let’s focus on the task at hand. I hope the President will stand up and clearly articulate the need and support for an Export-Import Bank, stop sending us the name of someone who just wants to destroy it.

I thank the President.

Mr. SCHUMER. I yield the floor.

The PRESIDING OFFICER (Mr. COTTON). The Senator from Wyoming.

REQUESTS FOR AUTHORITY FOR COMMITTEES TO MEET

Mr. ENZI. Mr. President, I have 12 requests for committees to meet during today’s session of the Senate. They do not have the approval of the Democratic leader; therefore, they will not be permitted to meet past 11:30 this morning, but I ask unanimous consent that a list of committees requesting authority to meet be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

Committee on Commerce, Science, and Transportation.
Committee on Environment and Public Works.
Committee on Foreign Relations.
Committee on Homeland Security and Governmental Affairs.
Committee on Indian Affairs.
Committee on the Judiciary.
Committee on Veterans’ Affairs.
Committee on Aging.
Subcommittee on Public Lands, Forests, and Mining.
Subcommittee on Africa and Global Health Policy.
Subcommittee on Investigations.

Mr. ENZI. Mr. President, I listened with a lot of interest to the Democratic leader’s comments this morning and his proposal that there would be cooperation if we went to a system of putting it back through committees and doing that, but I have to say that we would have a lot more confidence in getting a solution if there were a single positive suggestion from the other side for a change. Until that happens, there is little confidence on our side that the promise of bipartisanship is going to happen.

They keep saying that it isn’t perfect, but they don’t put forward ideas for any of the changes. We have been suggesting changes for several years, and we have been told each time that it just needed a little more time, that it was a perfect bill.

Soon we will be trying to do a budget. It would be nice if we had some suggestions on budget items that were positive things. I put out that offer as well.

The reason we are having this is that more than 7 years ago, President Obama and congressional Democrats imposed a risky, partisan healthcare experiment on America that ultimately led to skyrocketing healthcare costs and collapsing insurance markets for millions of Americans across the country.

This riverboat gamble has caused a stark and dramatic outcome. Currently, there are projected to be 50 counties across the Nation that will not have a single insurer participating in the ObamaCare exchange.

To add further insult, Americans seeking affordable coverage in these almost 50 counties will still be fined under the ObamaCare mandate for not having health insurance. In other words, many Americans will either be forced to pay for insurance they cannot afford or pay a penalty for not having health insurance under this so-called Affordable Care Act, which they can’t even access. Where are these people supposed to go? What can we do to help? Again, we are looking for some positive suggestions.

My colleagues on both sides of the aisle know that this healthcare experiment has failed and that we must work together to free Americans from these mandates and put healthcare decisions back in people’s control.

Today, Senate Republicans are taking an important step to rescue the millions of hard-working families trapped by ObamaCare’s taxes and
mandates. We are trying to repair the Nation’s broken healthcare system because we now have a President in the White House who shares our commitment to improve America’s healthcare system and make better care available to all Americans.

One of our top priorities in Congress has been to provide relief for hard-working Americans from ObamaCare, which has pushed insurance markets to the brink of collapse. In Wyoming and across the country, premiums for hard-working families are soaring while choices for patients have dwindled. As I travel across Wyoming, I have a lot of people who tell me that their health insurance costs more than their mortgage and, if they ever need healthcare, they have a deductible that is bigger than that.

Simply put, ObamaCare stumbles out of the starting gate on the very first date the healthcare.gov website launched. You might remember how you could go to the website or sign up for ObamaCare, but you got kicked off after you had done a lot to put in information. Yes, ObamaCare stumbled out of the starting gate on the very first day that the healthcare.gov website was launched, and rightly failed to live up to its promise. It’s a living example of the failure of the ObamaCare concept of “affordable care.”

That last line of this letter is especially moving: “HELP MIKE HELP.” This is why Republicans in Congress and the President have focused on doing just that—helping hard-working Americans like my family in Wyoming. They are looking to us to provide real leadership and rescue them from the failed ObamaCare law.

The previous administration seemed to focus on protecting their self-described signature legislative achievement. Our focus must be to address ObamaCare and its failed promise of relief from ObamaCare.

Millions of Americans have been suffering under President Obama’s healthcare law, and this past fall our Nation voted for a change. These hard-working Americans made it clear that fixing our healthcare must be a top priority for Congress and the President. This fall, we are delivering on that promise of relief from ObamaCare.

Making America’s healthcare system more efficient and effective has always been an important and challenging endeavor for the public and private sector alike. President Obama and his congressional Democrats pushed Washington into the healthcare market, inflicting far greater uncertainty, cost, and disruption into the healthcare landscape than anyone ever imagined. By the current standard, it is necessary to untangle Americans from this unworkable, unpopular, and unaffordable law, hard-working families can expect to see stability in the skyrocketing healthcare costs and egregious penalties imposed on them by the ill-conceived ObamaCare concept of “affordable care.”

If you are young and healthy, ObamaCare has made it an easy choice to opt out of health coverage. But for those not so fortunate, for those who must have coverage, soaring healthcare costs are becoming a stunning reality. I have constituents in Wyoming who have written to me with worry and concern about their rising health insurance premiums.

I assume that my 99 other colleagues have received many letters like one I received from a family in Gillette, WY. They recently wrote me that under ObamaCare premiums are more than $2,400 a month—essentially taking on more than another mortgage.

In their letter to me, they write:

Mike, we are small business owners in Gillette, WY. Being to kill the coal, oil and gas industries and his insurance fraud, we are stuck between a rock and a hard place. I just paid a $2600 Blue Cross Blue Shield of Wyoming ObamaCare bill. I can’t keep doing that. I am a real person with real problems created by my own government. HELP MIKE HELP.

The goal of the Republican healthcare bill will be to improve the affordability of health insurance, preserve access to care for Americans with preexisting conditions—yes, to preserve access to care for Americans with preexisting conditions under President Obama. Most importantly, we will free the American people from the onerous ObamaCare mandates to purchase insurance that they don’t want and can’t afford.

The American people have endured a lot under ObamaCare—including every broken promise. We all remember President Obama’s promise to each and every American that if they liked their health plan, they could keep it. Well, Americans soon learned they couldn’t keep their plan or their doctor or any other commitment, and the main reason for this is because ObamaCare invaded the insurance marketplace and drastically reduced Americans’ choice of healthcare plans and with it the competition necessary to continue the promise of relief from ObamaCare.

For many Senators, especially from rural States like mine, the real impact of ObamaCare on our health insurance market is much more disturbing. Wyoming currently only has one health insurer in the individual market, both on and off the ObamaCare exchange. Let me say that again so there is no mistake. There is only one health insurer either on or off the ObamaCare exchange for all of Wyoming. One health insurer for all of Wyoming. Many States are in the same situation, with only one insurer left standing since others have entirely abandoned the exchanges.

For residents of Wyoming and millions of other Americans, the Obama administration’s public relations campaign—on which it spent millions of taxpayer dollars—taunted choice that ultimately became false advertising. This is the actual “choice” for millions of Americans: one and none—but the choice of the mandate penalty. You can’t afford it, so you don’t get it, and then it costs you because of the mandate penalty.

What about the promise of lower healthcare costs that provided the foundation for my colleagues on the other side of the aisle to pass this flawed bill? Even President Obama’s administration admitted that ObamaCare is failing to address costs, with average premiums rising by 25 percent for silver plans on the Federal exchange. That means families have to decide whether to purchase unaffordable insurance or pay a fine. In most cases, they are literally paying
more money for less control of their healthcare.

Last October’s dramatic premium increase was clearly on the minds of voters when they cast their ballots in the November election. Let me say that again. Last October’s dramatic premium increase was clearly on the minds of voters when they cast their ballots in the November election. There is trying to be some blame put on us for those increases, but that was before last November’s election.

This is the time for healthcare in America. We do not have the luxury of ignoring the crisis in health insurance markets and the crushing premiums faced by families across the country. Healthcare costs for my constituents in Wyoming continue to be among the highest in the Nation, with other States not far behind.

We must act now to rescue the millions of Americans who are suffering under ObamaCare in order to provide relief. These reforms have been thwarted by this law. Unwinding this failed law to make meaningful changes has not been easy, but Americans are relying on us to accomplish this task and keep the promise to them from ObamaCare. We need to change the healthcare system where Washington gets out of the way and families are again empowered to control their own healthcare, with more choices and lower costs.

So this is where we find ourselves today. Congress and the President are fulfilling their promise to provide relief for millions of hard-working Americans trapped by Obamacare’s taxes and mandates. We are not tied to any single idea. We hope our Democratic colleagues will ultimately join us in this worthy endeavor. The American people are expecting us to act. We must not let them down.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Ms. WARREN. Mr. President, since the Republicans have announced that their top legislative priority in this Congress would be to rip away healthcare from millions of Americans, I have come down to the floor many times to beg them to reconsider. I shared stories about families in Massachusetts who gained quality healthcare coverage for the first time after the passage of the Affordable Care Act. I shared letters and stories from hospitals and doctors in Massachusetts talking about the incredible difference healthcare coverage makes for the patients who walk through their doors. I also have shared many, many stories from parents with children who have complex medical needs—all of those children depending on Medicaid.

I know that families, doctors, hospitals, nursing homes, and patients lying in their hospital beds haven’t just been sharing their stories with me; they have been begging every Republican in the Senate to listen to them as well. People share their stories because they want to make a difference. These are the stories of families we represent. They are the reason we are here in the Senate. They are supposed to be our guiding light for the choices we make and the way we vote.

Senator Sasse, who voted yesterday to move forward with their effort to rip away Americans’ healthcare are not listening to the people they represent. Their vote was irresponsible. It was reckless. It was cruel. It was immoral. But more than that, this was a vote that is not who we are as a country.

Let’s be very clear about what is happening on the floor of the Senate right now. Fifty Republicans have voted to open debate on a series of bills, each of which would have devastating effects for healthcare in this country. Now the Republicans don’t know which of these bills will actually be the ones they will be asked to vote on. Only some of the bills have been analyzed by the number crunchers at the Congressional Budget Office, the CBO, to estimate exactly how many people would be kicked off insurance and how high premiums would go, but every version that the CBO did examine over the last few weeks was very ugly, with tens of millions of people losing their coverage and costs skyrocketing for millions more.

The latest plan Senator McCONNELL has been floating behind the scenes would have Republicans ultimately vote on what is called a skinny repeal bill. This bill would make a limited set of changes to the Affordable Care Act—just the important stuff. What is important to Senator McCONNELL? It seems to be the part of the Affordable Care Act that makes the health insurance system actually work, because the skinny bill would repeal the parts of the ACA that say everyone needs health insurance coverage. This is the individual mandate.

Republican leadership is telling their Members that if they vote for this skinny bill, they can hammer out the rest of the details in conference with the House of Representatives. But make no mistake—this isn’t a more moderate version of the Republicans’ ugly plan to repeal the Affordable Care Act. This isn’t compromise. In fact, this may be the worst idea they have had yet because if Senate Republicans vote for the individual mandate, they are getting rid of the linchpin of the insurance markets in this country. That is because this provision—the one the Republicans want to junk—is what keeps the price of insurance affordable for people with preexisting conditions.

Don’t just take my word for it. Independent experts have looked at what would happen if the Republicans repeal the individual mandate. Boy, it is not pretty. Just yesterday, the American Academy of Actuaries—these are the experts who understand how insurance works. They do that for a living. These are their numbers. They wrote to Senate leadership begging them not to go forward with this reckless plan. They wrote that eliminating this part of the health law “would likely have significant implications for health care coverage and costs both to consumers and the federal government.” They said that it “could lead to premium increases.” It would “weaken insurer solvency.”

Let me do the translation on this. The actuaries—those who study insurance for a living—are saying that what the Republicans are doing is reckless and voting on is a provision to jack up insurance costs through the roof and rip away coverage from those who can’t afford to pay those higher costs.

We are not heavily about the consequences. If the Republicans go through with that vote, they will be responsible for every dollar of premium increases that occur over the weeks and months that follow as this bill sits in a conference with the House and insurance companies jack up prices because they don’t know what they might be required to cover. Senate Republicans will be responsible for every single person who has to drop coverage because they can’t afford those price increases. The Senate Republicans will be responsible for every single person who didn’t go to the doctor when they needed to or didn’t schedule surgery when they needed to because they no longer have health insurance. The Senate Republicans will be responsible for every family in this country who misses a mortgage payment or can’t pay their electricity bill or is forced into bankruptcy because their medical debts have become too big to ever pay off.

Every time I have come to the floor to talk about this terrible Republican bill, I have said that I am ready to work on bipartisan proposals that will actually improve our healthcare system in this country, and I say it again. I am still ready to do that, but we cannot move forward while Senate Republicans are still trying to cut healthcare coverage away from millions of Americans and drive up costs for more Americans.

Republicans seem to think they can wear us down, that they can keep us here until we get too tired or we give up or we just give in, but, boy, that is where they are wrong. They do not have a clue what they are up against because we are fighting for families. We are fighting for little kids. We are fighting for our neighbors. We are fighting for parents and brothers and sisters and loved ones. We are fighting for the American people. When you fight for the American people, the wind is always at your back, and your heart is always strong.

So Democrats will be here, fighting for as long as it takes to beat back these shameful healthcare bills. We hear the American people. We hear you. We are on your side, and we will never give up.

Thank you, Mr. President.

I yield the floor.

The PRESIDING OFFICER. The Senator from Virginia.
Mr. WARNER. Mr. President, first of all, I thank my friend, the Senator from Massachusetts, for her comments today and for her relentless willingness to take on this fight and so many other fights that are so important to our country.

I come to join her call to point out some of the challenges in this legislation but also to make an appeal to my friends on the other side that this does not have to be the way we go. I have been one who has acknowledged for many years are challenges in the Affordable Care Act and that there are areas in which there could be common interests in finding solutions, but what we have before us now is a series of bad, badder, and baddest choices. In effect, we have a series of options that ask: Do we want to pass legislation that would take 16 million Americans off healthcare? Do we want to pass legislation that would take 22 million people off healthcare? Do we want to pass legislation that would take 32 million Americans off health insurance?

What parts of these choices do my Republican colleagues really embrace?

I think that in the 8 years I have been here we have seen some pieces of legislation that have been so unpopular, even before they are passed, than this litany of options from full repeal to skinny repeal and all of the variations in between.

As has been said by the Senator from Massachusetts and I know by the Senator from Washington State as well, the American people know this. That is why our phones are ringing in our offices and I know in our Senate Republican colleagues’ offices. People are saying do not pass this kind of legislation.

I think about the fact that in the last couple of weeks, the parents of a number of children and young adults who have serious medical conditions have come to my office. In Virginia, we run a very skinny Medicaid Program. Frankly, it has not been very generous. Some of the individuals who have come to my office have waited 5, 6 years—one person has waited 10 years—to get a Medicaid waiver. These families, these children, in any of the proposals that have been put forward, would be the first to lose their coverage.

Family after family talked about the fact that, in many cases, both parents can work because they have a little bit of relief to take care of their disabled young adults in certain cases. In many cases, it is because the young adults can at least find someplace to do some productive work themselves. Yet, if they were to lose the Medicaid waiver, one of the parents would have to stop working, and the child would have to stop his form of employment. Net-net, it would be a loss not only to that family, but it would be a loss to our economy.

I mentioned that I used to be the Governor of Virginia. In 2016, Virginia received about $4 billion in Federal Medicaid funds—51 percent of the State’s funding for people covered by Medicaid. As I mentioned, we are ranked one of the skinniest programs in the country. Unfortunately, we rank about 47th, I believe, in terms of our payments. Yet, under any of these proposals, we are a target of the $700 billion-plus of Medicaid cuts, are actually the States that have more generous programs. They are often States that are represented by Democratic Governors. In what way do these proposals help our Republican colleagues or, for that matter, their constituents?

We have heard, as well, that the American Cancer Society, the American Medical Association, the American Academy of Pediatrics, the American Hospital Association, and AARP—some of the groups affiliated with healthcare—have come in and pleaded: Please, do not do this, this way—any one of these litany of proposals that we will be dealing with over the next few days.

From what I have heard on an individual basis—and I take enormous pride in the fact that in my time here—and sometimes it has even gotten me crosswise with the ranking member of the HELP Committee—I have tried to reach out on virtually every piece of legislation I have worked on to find a Republican partner. I actually got put in a timeout by a previous leader for doing too much of that.

What I hear from my Republican colleagues is, they do not want to own this. They know, in many ways, that this is walking the plank on what is both bad policy, bad politics, bad for their constituents, but the notion that those groups would dramatically affect those individuals with preexisting conditions. I have three daughters. One of my daughters has juvenile diabetes. She has had it for 18 years. Another daughter has asthma and a very strange set of allergic reactions that have actually caused her to have been hospitalized 38 times in the last 40 months.

I am an extraordinarily lucky individual. I know that both through the resources, every time my two children got sick, I could make sure they got the medical attention they deserved. I cannot imagine talking to any Virginia family or Washington family or Wyoming family or Arkansas family who has a child with those same afflictions and trying to explain to them that my kids who have juvenile diabetes, asthma, and allergic reactions—through no fault of their own and that have caused this number of hospitalizations—have a right to health insurance because I had the resources, every time my two children got sick, I could make sure they got the medical attention they deserved. I cannot imagine talking to any Virginia family or Washington family or Wyoming family or Arkansas family who has a child with those same afflictions.

Our country is much better than this. We can figure out a way to get this right, but we are not going to get it right if we continue to have this play of one closed-door, cooked-up deal after another that is put forward, with no review and no real attempt to find a common solution.

I commit to my Republican colleagues that I will work with them. I have laid out a series of ideas, some of which they have endorsed in terms of the potential for them to take options, in terms of their selection; the ideas, as long as we protect consumers, of allowing insurance policies to be sold across State lines. I think of ideas in terms of the reinsurance that other colleagues have to mitigate some of the losses, but I also have a host of ideas we all agree on. Let’s start with that premise, in terms of coming to a solution, not coming up with legislation that is cooked up behind closed doors that even my strongest Republican colleagues have acknowledged they cannot vote on when they only get an hour to look at it.

I think about all of the same criticisms—some of them valid—that were made against the Democrats when we passed the ACA; although I would continue to remind my friends on the other side that we had, literally, hundreds of amendments which were Republican amendments that were accepted into that legislation. It was not a perfect process, but let’s learn from that and take this.advice from Senator McCain and Senator Kaine, and let’s work together to get this right.

The other item that will come about from any of this Republican legislation put forward, even from the skinniest of their proposals, would dramatically affect those individuals with preexisting conditions. I have three daughters. One of my daughters has juvenile diabetes. She has had it for 18 years. Another daughter has asthma and a very strange set of allergic reactions that have actually caused her to have been hospitalized 38 times in the last 40 months.

I come to join her call to point out some of the challenges in this legislation but also to make an appeal to my friends on the other side that this does not have to be the way we go.
all the kids who now get the coverage they did not have prior to the ACA and who have it now. It is the idea that insurance companies cannot discriminate against you because you have pre-existing conditions.

Let me make sure we maintain that commitment. In the greatest country in the world, as Senator McCain so eloquently put it yesterday, let’s see if we can work through to a way that makes this body, once again, the greatest deliberative body in the world. If we can find a common ground that would allow us to put forward legislation that at the end of the day, we would all be proud of. That is a goal worth working on.

My hope is, over the coming days, we will find that common ground of Senators who will say we are going to take that path rather than the path we are on right now.

I yield the floor.

The PRESIDING OFFICER. The Senator from Washington.

Mrs. MURRAY. Mr. President, I hope all Senators in this Chamber took the time to listen to the very wise words from the Senator from Virginia as to the fact that we are facing real issues in this country that we work together and go through the regular process of having committee hearings and no secret negotiations or back-room deals, we can lead this country in the way it should be led.

I urge the Senator for coming to the floor and reminding us that is how we get things done in a way that America accepts it.

Yet we are not here after having had committee hearings or process or anything. We are here because of back-room deals that have brought us to this floor at a time when no one can accept the fact that all of the proposals are as a result, so far, of how many millions of people will lose insurance—22 million, 20 million. This is what we are debating here, and that is a terrible debate. That is not what we should be talking about, but those are the proposals we are being offered.

Again, the Democrats are here. We are not giving up, and we are going to fight any effort to pass TrumpCare until the last possible moment because that will be the result. We are going to speak out for families nationwide—children, parents, patients, people with disabilities, and people who have called and tweeted and marched and filled our office halls. So many people are worried and, frankly, scared right now. These are families who are being kept in the dark by our Republican colleagues and who are being left to wonder what might happen to their healthcare, their financial security, and even their lives.

It is appalling the majority of Republicans who are willing to go along with this plan and do so even knowing what bill they will be debating. Yet, last night, the vast majority of the Senate did something unusual. It showed just how much agreement there actually can be among us, when 57 Republicans and Democrats agreed to reject a full TrumpCare replacement bill and sent a message that we agreed with Senator McCain in that we should stop letting the "bombastic loudmouths" drive our work and instead return to regular order and get back to work on policies that actually help the people we are here to represent.

There are responsible Republicans who disagree with the way the Republican leadership of the Senate is handling this process. Those Republicans rejected the collective effort from Democrats and the public throughout this process, who think there should be an open, transparent process, with both sides at the table, and who want hearings and public debate rather than backroom deals and secret negotiations. I do as well, and I know many of my Democratic colleagues agree.

Now that it is clear that there is absolutely no path to full TrumpCare in the Senate, the reason for continuing this damaging, rushed, deeply partisan effort on the floor to jam just any bill through the Senate? Together we can do a lot better than the lowest common denominator bill that simply stands and will send this to conference with the House and then gives the Freedom Caucus a blank check to gut Medicaid and put insurance companies back in charge of people’s healthcare, and more. Let’s be clear. The only reason to pass a cobbled-together, last-minute bill on the floor is to keep the extreme conservative dream of repealing ObamaCare alive, no matter what that means for patients and families.

I truly believe there is a better way to get this done right, and it is to stop what Senate Republican leaders are doing right now and start over.

So, once again, I ask my Republican colleagues to drop this partisan effort and join us at the table. Let’s work together to improve families’ healthcare, as so many of us truly want to do. My door is open, and I am ready to get started.

Thank you, Mr. President.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. MURPHY. Mr. President, no one should normalize what is happening on this Senate floor right now. We are all waiting for the white smoke to come and we have achieved so much. Why is it that the millions and millions of very scared people in my State will be able to see what is about to happen to their lives.

This isn’t a game. People’s lives are at stake. People’s health is at stake. Yet, because this debate is now devoid of policy and substance and seemingly just about delivering a political victory to Republicans, we wait and we wait and we wait.

People are scared. All over the Capital today there are parents of children with disabilities, many of whom rely on Medicaid in order to keep their children alive. I have spent a lot of time with them over the course of the last 6 months because, to them, the measure of a civilization is how it treats the most vulnerable, and their kids, with these deep disabilities, are among the most vulnerable. For much of the last 6 months I have seen anger in their eyes. I have seen them wonder what might happen to their kids or to force their family to go bankrupt.

Yesterday, I saw something new in their eyes. I saw fear. I saw deep, debilitating fear because they sense that they have something that they didn’t think was possible—a piece of legislation passing the Senate and the House that would deliberately and intentionally hurt their children.

There is no way around it. It is not hyperbole. The House bill that we are debating right now guts Medicaid to the point where 15 million people—the most vulnerable Americans—would lose access to healthcare.

It is very hard for people in this Chamber to understand because we all have really good healthcare. But when you have an expensive disease or your child has an expensive disease and you lose insurance, you can’t pay for it. You can lose your house, you can sell your car, and you can exhaust your savings. For some families, that will cover 6 months’ worth of expenses for their sick child. At some point, the patient dies if they don’t have access to healthcare.

So people are scared. They are really scared. They are scared not just at the consequences of the House bill eventually passing, but they are also scared at the casualness with which this debate seems to treat their plight.

There are rumors now that, at the end of this process, we are going to vote on what has been described as a stripped-down, gutted version of the original Republican healthcare bill. It may have one or two provisions in it—maybe the elimination of the individual mandate, maybe the elimination of a few taxes. The intent would be to essentially punt the more comprehensive debate about what our healthcare system is going to look like to a conference committee.

I want to talk about that for a few moments and what the consequences of that are. First, I want to talk about what the consequences are, that if end this debate right now, the consequence is we fail to take a principle that will likely face to the House of Representatives? Why go through all the trouble of running, of raising all the money, of getting all the votes to become a Senator if you aren’t prepared to actually render an opinion and pass a bill on the biggest priority issue facing this country right now—the future of the American healthcare system?

Republicans have been unable to come up with a bill that can get 50 votes. Why? Because they refuse to engage with Democrats. Now the solution
is to punt by passing a stripped-down version of the bill, handing all power to the House of Representatives, surrendering to the House of Representatives. What is the point of being a U.S. Senator if you aren’t actually going to make policy, if you are just going to hand off policy to the House of Representatives? This is the U.S. Senate.

I disagreed with Senator McCaIN’s vote yesterday, but I heard the speech he gave. There should be an end of the individual mandate. Insurance markets will fall apart.

What is the point of being a Senator if you just hand this debate over to the House of Representatives? By the way, that is what will happen. If the Senate goes to conference with the House of Representatives, there is only a stripped-down bill in that conference—and that is what will happen if a stripped-down version of this bill goes into conference and the House has a comprehensive re-form bill—the House bill will be the only thing that is under-scaled-committee, and the House bill will become law. The House bill will survive. It may have some small cosmetic amendments to it, but all of the power will be given to the House of Representatives in those states where there is only one idea that will be present.

Let’s go back for a moment and remember what was in that House bill that so many of my Republican colleagues told me was deeply objectionable, and they would never come to a vote on the Senate floor. Twenty-three million people will lose insurance. Rates will go up by 15 to 20 percent. People with preexisting conditions in most states will lose all protections for them. Insurers can refuse plans will not have to cover maternity care, mental illness, or addiction any longer. Medicaid will be gone as we know it. My small State, with an $8 billion Medicaid Program, will have a $3 billion cut. Children will lose their ability to stay alive because they lose their healthcare insurance. Seniors in nursing homes will be put out on the streets. That is not hyperbole. That is real. That is what happens when you kick 23 million people off of insurance. That kind of version of it would emerge from the conference committee because the Senate would have defaulted to it by going to conference with nothing. But that is just the long-term consequence. The short-term consequence is that the scaled-down bill reportedly will include an elimination of the individual mandate. Insurance markets will fall apart.

Everybody here knows, whether you are a Republican or a Democrat, that the only way you guarantee that people get priced the same if they are sick or not sick is to require people to buy insurance when they are not sick. In fact, the Republicans know that because in their bill that they wrote behind closed doors, they included an individual mandate. They did. It was designed in a different way. They said that if you don’t buy insurance, you will be penalized by being locked out of the insurance market for months. But they had a penalty for people who don’t buy insurance, just like the Affordable Care Act has a penalty. Republicans and Democrats understand that in order for the insurance markets to work, everyone should, you need to encourage people to buy insurance when they are healthy and penalize them if they don’t. The Republican bill does that. Just like the Affordable Care Act does that.

If you pass a bill that removes that mandate, then every insurance adjuster, every actuary who works for a major healthcare insurance company, will tell you that the markets will cra- ter because individuals won’t buy insurance, because you know what? They can’t be charged any more. Healthy people will not buy insurance. Rates will go up. Insurers will flee the markets. The entire thing collapses.

That is the short-term consequence of telegraphing to the insurance companies that you are getting rid of the individual mandate. Even if that is not the final result, that telegraph signal, at a point where insurers are already rethinking the markets because of the sabotage campaign that President Trump has undertaken, would be cata- strophic.

This is not a game. These stakes are big. The casualness with which people are approaching this debate is scaring the life out of people in my State, out of parents of kids with disabilities and folks who are dealing with sickness and illness all across this country.

It is not too late. We don’t have a communicable disease. We aren’t going to physically harm Republicans if they come to the floor. It is time to abandon this Republican-only approach and come work with Democrats. Let’s jointly own the problems that still exist in the healthcare system and jointly own the solution. People are scared of what is happening in the Senate today, and there is a different way.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. PAUL. Mr. President, as a physician and an eye surgeon, I have seen ObamaCare up close, and it is not working for Americans. If you look across the country and say “Is it working?” you find that ObamaCare premiums have doubled for those in the individual marketplace in just a few short years. You find that the ObamaCare insurance mandates have caused 4.7 million people to lose the insurance they chose. If you like your doctor, you can keep him or her—that was the promise, and it was a lie. Some 4.7 million people were told that they couldn’t choose the insurance they want and couldn’t choose their doctor.

It is estimated that there are 800,000 fewer jobs because of ObamaCare. How does that happen? Well, if you work 32 hours a week and your employer has to provide insurance at 30 hours, guess what happens. Some people get moved to 28 hours. You add up all those hours, and millions of people are working fewer hours.

Who are the people who got shafted by ObamaCare? Often, working-class people. In my State, there are 25,000 people who pay a fine because they can’t afford ObamaCare. These 25,000 people make less than $25,000 a year. They are our working class.

ObamaCare punishes them and says: You have to pay a fine.

They say: I wish I had insurance, but ObamaCare added all these mandates, things that I can’t afford. I sure didn’t want to have everything under the Sun covered by their insurance, but when you mandate that, you elevate the price of insurance. So what has happened? Young, healthy people have lost their insurance and don’t buy insurance in droves. ObamaCare says: You can come back any time after you are sick and buy your insurance.
That sounds good, but what it leads to is the death spiral of ObamaCare. ObamaCare premiums have doubled because the young, healthy people are saying it costs too much and the sicker people are the only ones left in insurance.

This is what happens when you let the government get involved in the marketplace. If you allow the marketplace to work—what is the one universal feature of capitalism? You get the lowest amount of cost and the most amount of distributed to the most amount of people.

Right now under ObamaCare, 50 percent of America has one choice. What does that mean? A monopoly. Who wants the insurance company to have a monopoly? When the insurance companies have monopolies, the prices get doubled.

There are now some parts of our country that have no choice in the individual market. If you are a plumber or a baker or a painter, you have to buy insurance in the individual market. In many places in America, you have no choice. In half of America, if you buy insurance by yourself, if you are not part of a large group, in half of America you don’t have one choice—a monopoly and monopoly prices.

In my State alone, 50,000 Kentuckians have to pay a tax. They have to pay a fine because they can’t afford ObamaCare. They are regular working people, and they do work and they do pay taxes. They pay a fine. We pay $16 million in fines just in my State. Across America, this is happening.

How did it become an American sort of legislation or plan to force people to buy stuff they don’t want and then to extract money out of their paycheck if they don’t do what you tell them?

Ultimately, Americans should remember that ObamaCare is predicated on force and coercion. ObamaCare dictates that you buy insurance or you have to get and makes you pay a fine if you don’t get what the politicians tell you you must get.

President Obama basically told you that you were too stupid to make your own choices. These people who want to dictate to you are elitists. They think they know better than you what kind of insurance you should get. If you don’t buy the insurance they dictate, they will fine you. If you don’t pay the fine, they will jail you. How consistent with the American ideal of freedom?

This debate is about more than actuarial tables. We get dragged down into this debate, and we think it is all this healthcare wonkiness, this and that. It is about freedom of choice. It is about whether you as an American can make the choice whether you want insurance or don’t want insurance, whether you want insurance that is really expensive or not.

They put a special tax in there if you have good insurance. First they tell you what kind of insurance to buy, and then they tell you that your insurance is too good. If you are in a union or you are an executive and you have great insurance, ObamaCare tells you they are going to tax you because your insurance is too good. These busybodies think they know everything about what you want. They are going to dictate that kind of insurance you can get, and then when you buy it, they are going to tell you that you have too much, so you have to pay a tax. That isn’t the American way.

Today we will vote on a bill we have voted on many, many times. The Senate itself voted on this 2 years ago. It is the identical bill. We are going to vote on a bill we voted on 2 years ago. I hope everybody who voted for it before will vote for it again. It is what we call a clean repeal. It is not cluttered with insurance company bailouts. It is not cluttered with this and that, new Federal regulations. It is just trying to peel back ObamaCare.

While it is a clean repeal, it is only a partial repeal? It is only a partial repeal because we have these arcane Senate rules that say we can’t repeal the whole thing. Because we are only repealing part of it, ObamaCare will remain. Even if we are successful with this, at least half of what ObamaCare remains. Bad things remain. All of the mandates on what you have to purchase on your insurance will remain. That doesn’t mean we shouldn’t do this.

The other side does not want to help. The other side has never met a regulation they want to repeal and has never met a tax they want to lower. So if you want to get rid of the taxes, it has to be done today.

People say: Well, this doesn’t have the replacement.

Well, sure we should replace ObamaCare. I have been advocating that from the beginning. But we have to figure out what that replacement is. And we don’t want to be forced into a bipartisan compromise if we repeal it. If we do not repeal it today, there is no impetus from either side to work on replacing it. If you repeal it, even the other side will say: Oh, my goodness, we have to do something because they repealed these subsidies in this Medicaid expansion. They will say: We will work with you now. But everything else is false.

They will not work on repealing one regulation if we don’t get rid of the others. That heavy lift is left to Republicans, and my hope is that Republicans would band together and say: Sure, this isn’t everything I wanted. It is not everything I want. It is a partial repeal. It leaves in place a lot of ObamaCare that we shouldn’t get rid of. Other side should continue to try to get rid of these Federal mandates on insurance.

This is a beginning, and it is all we are being offered up as a beginning, but that is a victory for those of us in America who have said: Enough is enough. My government shouldn’t be telling me what I can buy and what I cannot buy. My government should not tell me which doctor I can choose and which doctor I have to leave behind. The government should not be involved in my healthcare business. I want to be left alone. The right to privacy, the right to be left alone is a fundamental right of Americans. That is what this is about.

It is about freedom of choice. It is not about actuarial tables. It is not about the Federal Government designing a perfect healthcare system. The Federal Government cannot deliver. They lose a billion dollars a quarter delivering your mail. Do you want them in charge of your doctor? Do you want them in charge of your insurance? This is the one chance we get today. We will have a chance to repeal ObamaCare. We will have a chance to fulfill our promise to the American voters.

There is a partisan divide. Democrats are for keeping it; Republicans are for repealing it. But Republicans made a promise. We made a promise to the American people to repeal it. There may be some Republicans today who say: I am not voting to repeal any longer; things have changed. The problem is that we are not going to get to repeal anything if we don’t begin to repeal. The other thing about this repeal is that there is a 2-year window in which part of the repeal doesn’t take place for 2 years. Over those 2 years, my guess is that we will have impetus from the other side to actually begin to negotiate. Currently, there are 27 million people in America without insurance. From all the talk, you would think that ObamaCare has covered everyone, and somehow Republicans are against that.

Count me as one Republican who wants to figure out how we insure the 27 million who don’t have insurance. Of the 27 million people who don’t have insurance under ObamaCare, half of them don’t buy insurance because it is too expensive. Why is it too expensive? Because ObamaCare dictates about 15 different things that every insurance policy has to have: Vision, hearing, pregnancy—you name it; it is all on there. Everyone wants it. If you put it on every insurance policy, not everyone is going to be able to afford it. You force people out of the market. So 27 million people don’t have insurance, and half say they can’t get it because it is too expensive.

Where is the problem in insurance? If you are here today visiting in Washington, and you work for Toyota or Ford or General Motors or any big American company—any big corporation in our country—if you work for them, my guess is that you are not worried about your wife getting sick and they fire you from your job or raise your rates. What happens when you have group insurance is, if your family member gets sick, you don’t lose your job. Your insurance rates really don’t change, and you continue on with your life. You still have the tragedy to deal with of someone in
your family being sick. But if you have group insurance, it seems to work in our country.

What we are talking about is the individual insurance market. We are talking about the plumber, the pest control operator, the farmer—people who are in a small business. Either they have a few employees or it is just them. That is what we are talking about. It is horribly broken. I don’t wish it on any American. I wish that we could go buy any insurance in the individual market. In fact, what I am proposing would so disrupt the individual market that maybe everyone would leave. I am trying to give an exit ramp to everyone in the individual market to get out of the individual market because the individual market is a terrible place to be.

If you are a farmer in America and you buy insurance for you and your wife, and your wife gets breast cancer, you are not only deathly afraid for her health, you are deathly afraid for your family. Your insurance rates will be doubled, tripled, or you will be dropped. I don’t care if you are a Republican, Independent, or a Democrat. People in the individual market do worry. We have had people here this week. People are saying they are going to lose their health insurance. The individual market is a terrible place to be.

So what should we do? Should we give hundreds of billions of dollars to the insurance company and say: Please insure these sick people and minimize their rates aren’t too high. I don’t like that because I am not for crony capitalism. These companies make billions of dollars a year in profit. I am not for giving them one penny of your money.

Do you know what I want? I want something that doesn’t cost anything, that doesn’t cost one penny and would completely transform healthcare and insurance in this country. I want to legalize—I want to make it open to every American. I want to give it away. I want an association across State lines and buy your insurance as part of a group. What would that mean? In my State, the Farm Bureau has 33,000 people. But when you go to the Farm Bureau to buy your insurance, you get an individual policy. A farmer, his wife, and their family get a policy. It is just them. They are not really protected by the group. They don’t get the leverage of price, and they are not protected. If they leave the group, their rates are based on them and their family. Why don’t we let them join together? There are probably a million farmers in the Farm Bureau throughout the American Farm Bureau. What if the American Farm Bureau had an association and one person negotiated for them? I don’t think we can overstate the negotiating value of a group.

In China recently, they negotiated for patented medicines, and they reduced the price by 67 percent. Groups can negotiate prices down. This is a free market reform. This is collective bargaining for consumers. I can’t see why either side—I am still hopeful, no matter where this goes, that at some point in time, when partisan fervor dies down, we can go to the other side and say: What’s so wrong with collective bargaining? I thought you were for collective bargaining for labor. Why can’t we do collective bargaining for consumers? Let the consumers band together. AARP has 33 million people. What if one person negotiated the rate for their insurance and their drugs? My guess is that they would have the lowest prices in the world, and more money would be left over to the people who would want to join AARP. What if the credit unions—there are about 20 million people in credit unions, maybe more, across the United States. What if you could join your credit union and became a part of a national association to buy your insurance? The leverage of 20 million people would be maybe 40, 50 times bigger than America’s biggest corporation.

Right now, if you are General Motors and you are a big corporation, you can negotiate. If you are a farmer, your insurance rates will be doubled, tripled. Right now, if you are General Motors and you are a big corporation, you can negotiate. What if you were in a corporation 20 times bigger than General Motors—an association that negotiated your prices? This is freedom, though; this isn’t a government plan. This is the Federal Government saying that you are allowed to do what you want. You are allowed to collectively bargain as consumers.

I think there is every chance that we could fix a lot of the market. Where would we begin? Yes. If I mean, we have terrible tragedies. I spent my adult career in medicine. I have seen the terrible tragedies, the terrible disabilities, the terrible neurologic disorders people are born with and have to live their lives with. Those exceptions will be treated and are treated.

Frankly, one of the misunderstandings of this debate is that any Republican is up here talking about trying to fix the market. Democrats say take away stuff from those who are disabled, can’t work, and do have to have care. That is traditional Medicaid. They will continue to be cared for. Under this, we are talking only about able-bodied people. Should able-bodied people—people who walk around, hop out of their truck—should they be working? Should they be providing for their health insurance? Yes. Can there be a transition zone? Yes. We have transition programs between unemployment and employment. We shouldn’t have people permanently unemployed—people permanently on benefits who don’t work or won’t work. There should be work requirements. I am not afraid to say that every able-bodied person on Medicaid ought to work. There should be work requirements. I meet many people on both sides of the aisle who are for that.

I don’t say they should work as punishment. I think everyone in America should work as a reward. I think work is a reward. I don’t care whether you are from the lowest job on the totem pole to the top, to the chief executive. Work is where you get self-esteem. No one can give you self-esteem. Your self-esteem comes from work. I think we are wrong. In fact, I think what we have done—in some cases, we now have multigenerational dependency on government, and they are so distraught because they have to do an in-lay task care of also compounds the drug problem that we have.

Some say that we need more Medicaid money to fight the drug problem. I worry that more Medicaid trips to the doctor would not help with the drug problem—that much of the dependency is coming from OxyContin, which the drug company says was not addictive, but everyone got put on OxyContin because it supposedly wasn’t addictive. A lot of our heroin and OxyContin problem came out of going to the doctor.

If we were to get everyone out of the individual market into group insurance, there would be some people left in the individual market. People in the individual market do worry. We have had people here this week. People are saying they are going to lose their health insurance. The individual market is a terrible place to be.

The thing is, we have to try to fix what we have. We need to understand that what we are really doing is that we are trying to fix isn’t just some kind of policy that nobody can understand. Healthcare policy is very technical and detailed. This is about freedom.

Do you think that every American should get to choose whether they have insurance and what kind of insurance they have? This is what it is about. It is freedom of choice. It isn’t about whether we want people to be insured. When you hear these hyperbolic statements saying that all these people are going to die—Republicans want people to die—those hyperbolic statements aren’t really helpful to the debate.

I do not question the motives of any of my friends on the other side. Democrats are dedicated to trying to provide care. I never questioned President Obama’s desire to help people get insurance. To me, it is more of a question of what will work. What distributes goods better: socialism or capitalism? Look at the Soviet Union. We defeated the Soviet Union because capitalism defeated socialism. Socialism doesn’t work.

When the government fixes the prices, it doesn’t work. Are we going to have some government involvement? Yes. But because Government is so pitiful at anything they do, we should minimize government’s involvement in any industry. If we say that government must be involved to take care of the poor, let’s do it at the State level, not the Federal level.

People ask me: Are the people in government inherently stupid? I say no, but it is a debatable question. The reason is this: Government doesn’t get the proper incentives, and they are too distant from the people, and we have a printing press.

S26JYPT1
What is the fundamental deceit of ObamaCare? This is the fundamental problem of all government, but the fundamental deceit of ObamaCare is this: They said that everyone is going to get free healthcare. Everyone is going to have Medicaid, you don’t have to pay for it, and the States don’t have to pay for it. We are going to have the Federal Government pay for it. But the problem is the Federal Government can’t pay for most of the things we already do. We already had Medicaid we can’t pay for—Medicare we were short of money for. We already have Social Security that we are short of money for. What do we do? We borrow the money. Our deficit this year will be $500 billion. Our deficit is projected next year to be $3 trillion. That is the real question. It isn’t, do you want to help people? Is it, how are you going to pay for it? If this was done at the State level, what would happen? If the State of Kentucky wants to keep the expansion, we have expanded Medicaid to 450,000 people. The question should be, should we double the State income tax in Kentucky? If that went to the State legislature, they have to balance competing concerns. If we double the State tax—we live right next to Tennessee, which has no State income tax—would we possibly lose existing businesses or existing jobs or would we encourage new businesses not to come to Kentucky? That would be a valid debate. We want to help people, but we want to have a public debate.

In Washington, it is said that there are no ramifications because everything goes to the debt. Everything just piles up. We have $20 trillion in debt. Whose fault is it? Both parties. Under George Bush, the debt went from $5 trillion to $10 trillion. Under President Obama, it went from $10 trillion to $20 trillion. Both parties are at fault, but the entitlements are consuming us.

In my view, we should move forward with a bill that sets up a new insurance entitlement, as some of the Republican plans wanted to do? We can’t pay for the current entitlements. As we look forward today to the solution, what I would say is that there are alternatives. We really shouldn’t question the motives of those across the aisle, and they shouldn’t question ours.

I want more people to have insurance at a lower cost. We should have a disagreement on how it works. I think capitalism works better than socialism. I think we should minimize government’s involvement because government is not very good at distributing anything. Just look at the mail.

I also think there are exciting opportunities for saying how we could insure the 27 million who are not insured currently. Twenty-seven million people under ObamaCare are without insurance. The question shouldn’t be about debating over the past. It should be open-minded proposals for the future. The question should be about trying to figure out how we insure those 27 million. I think there are a lot of opportunities that involve more freedom of choice, more freedom to choose your doctor, more freedom to choose what insurance works for you. My goodness, that is what this debate is about. It is not about healthcare policy. It is about freedom of choice, and I hope every Senator today will vote for freedom of choice.

Thank you.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. ENZI. I object.

The PRESIDING OFFICER. Objection is heard.

The clerk will continue to call the roll.

The legislative clerk continued with the call of the roll.

Mr. ENZI. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. ERNST). Without objection, it is so ordered.

Mr. ENZI. Madam President, I ask unanimous consent that the actions scheduled to take place at 11:30 this morning and all other amendments that all other provisions of the previous unanimous consent agreement remain in place.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The time until 3:30 p.m. is now equally divided.

The Senator from Oregon.

Mr. WYDEN. Madam President, on this issue of the Affordable Care Act, soon the Senate is going to vote on just whether or not to repeal the Affordable Care Act. I think it is important to note that this would walk back months and months of Republican promises to directly link repealing the Affordable Care Act with a replacement—a replacement that would improve coverage, lower premiums, and be better for the American people. In fact, the President of the United States said repeatedly over the last few months that if this bill would be inextricably linked, that repeal and replace would go hand-in-hand. That is not what is on offer right now. What is on offer are specific changes that would actually harm Americans.

For example, no more middle-class tax credits for healthcare—that is something that is critically important to the millions of middle-class folks who are walking on an economic tightrope every month, balancing their food costs against their fuel costs. Their fuel costs against their medical costs. I was struck this morning when I heard that, under this repeal approach, there is not going to be any real pain, that everything is just put off. Make no mistake about it. The pain for our families under this repeal measure is going to start right away. Nobody says they are going to be part of a marketplace if they believe it is not going to be expanded. One trillion fewer Americans are going to have healthcare 1 year from now. An analysis from the Congressional Budget Office—and this is only a week old—said that half of the country will have zero insurance choices in the private marketplace under this scheme.

I would like to repeat that so people understand that, as to this idea that there is really no pain here and that nothing starts for a long time, the Congressional Budget Office—our nonpartisan, impartial umpire—doesn’t agree with that. They said just last week that half of the country will have zero insurance choices in the private marketplace under this scheme. That goes up to 75 percent of Americans with no options in later years.

So my view is that this is just legislative malpractice, first because of the pain and harm it is going to cause so many Americans. The Congressional Budget Office said the kind of misery is going to kick in quickly.

Second—and I don’t think this has been discussed on the floor—this walks back months and months of Republican promises. The American people were told again and again that repeal and replace were going to be directly linked. The President said it multiple times. Then he went over the top and told people that they were going to have lower costs and better coverage.

Mr. SANDERS. Madam President, will my friend from Oregon yield for a question?

Mr. WYDEN. I am happy to yield to my friend.

Mr. SANDERS. Madam President, one-sixth of the American economy is over $3 trillion every single year.

Now, when we are dealing with legislation that impacts virtually every American, over $3 trillion every year, would my friend from Oregon please tell me this—and I know that he is the ranking member of the Finance Committee, and I am on the Health, Education, Labor, and Pensions Committee: How many hearings have been held on the Finance Committee to discuss the economic implications of this legislation? Were there five, ten? How many hearings on this enormously
Mr. WYDEN. My colleague is being logical, and heaven forbid that logic should be introduced into this, because we would automatically assume that on a matter like this—on something that will impact one-sixth of the American economy—the Senate Finance Committee would have hearings. There have been no hearings.

Mr. SANDERS. No hearings?

Mr. WYDEN. None.

Mr. SANDERS. There have been no hearings on a bill that impacts one-sixth of the American economy and every single American.

Now, let me ask my friend from Oregon this. Obviously, before my Republican colleagues would go forward on radical legislation like this that would throw some 32 million Americans off of the health insurance they have, they have obviously consulted with doctors and hospitals to get their views as to the impact this legislation would have on patients and hospitals all over America.

What kind of testimony did the doctors make on this bill or the hospital administrators make?

Mr. WYDEN. I can tell my colleagues that Senator MURRAY and I, the two of us—the ranking member on the Budget Committee and I—have actually made public the overwhelming opposition from providers on this. So, in effect, providers and patients are standing together in opposition to this.

Mr. SANDERS. Right, so if my understanding is correct—and I am quite sure it is—the American Medical Association, which is not one of the great progressive groups in America but the group that represents the physicians in this country, A, they have not been able to make testimony. But, B, what is their view of this legislation? What do the doctors of America feel about this important legislation?

Mr. WYDEN. They are opposed, as I have indicated. I think it is particularly important to see this provider-patient opposition. Many of the rural hospitals, which are the economic engines of so many rural communities, are opposed to this legislation.

Mr. SANDERS. Let me ask my friend from Oregon: What kind of testimony did they make? What is this legislation on older working people, in terms of what it might mean in increased premiums? Have we heard much discussion? Has the AARP, which is strongly opposed to this legislation, been able to come forward at a public hearing and express their point of view?

Mr. WYDEN. The AARP has also not been in front of the Senate Finance Committee. I want to say again that my Republican colleagues are not going to be in front of the Senate Finance Committee, where we ought to actually hear testimony in line with the regular order, we are going to go out to the country and listen to AARP testifiers. They are overwhelmingly opposed to this because people between 55 and 64 would pay five times as much as younger people, and they would get fewer tax credits.

Mr. SANDERS. Madam President, would my colleague please repeat that. I think it is important for older Americans to hear this.

We had a candidate running for President of the United States by the name of Donald Trump, and he ran all over this country and said he was going to stand up for working families and he was going to stand up for the working class of this country.

Please repeat what this legislation would do to someone who is a 62-year-old worker in Vermont or in Oregon. What kind of premium increases might he or she see?

Mr. WYDEN. It is hundreds and hundreds of dollars and, in a number of instances, more. The reality is that I think they are going to have a lot of trouble getting coverage at all. The reality is, when you pour gasoline on the fires of uncertainty—and this is particularly important right now as plans are thinking about signing up—that makes it more likely you aren't going to have plans at all. The Congressional Budget Office has also found that the Paul legislation makes that worse.

Mr. SANDERS. Now, while the AARP and other senior groups have not been able to testify, would my friend from Oregon tell me what their views are on this particular legislation because of its impact on older workers and seniors in general?

Mr. WYDEN. While the senior groups have not been able to come before the Finance Committee to discuss this issue, I can say—and I have been working with a number of these organizations since my days with the Gray Panthers—that they are overwhelmingly opposed to this. I think, in particular, this idea that we heard from the Congressional Budget Office last week—that half of the country will have zero insurance choices in the private market because of this scheme, and that it goes up—will just cause even more seniors to be against it.

Mr. SANDERS. But it is not only older workers because we have as an aging population more and more people in nursing homes. Would my friend from Oregon describe what happens under this legislation if somebody has a mom or a dad in a nursing home, struggling with Alzheimer's or some other terrible illness?

Mr. WYDEN. Under this legislation, you would have a massive rollback of the Medicaid Program. So for all of those older people who scrimped and saved all of their lives—they didn't take that vacation; they tried to make sure they could cover their kids—Medicaid picks up the costs of two out of three nursing home beds in America. This legislation would produce a massive rollback of the Medicaid Program, and I believe so many older people are going to find long-term care unaffordable—millions.

Mr. SANDERS. I think it is important to repeat that because this is not something that I think most Americans are aware of. Medicaid now pays, as I understand it, for two out of three nursing home beds in this country; is that correct?

Mr. WYDEN. That is correct.

Mr. SANDERS. And a massive cut in Medicaid would be devastating to those families who have loved ones in nursing homes?

Mr. WYDEN. That is correct. It would be accompanied with further misery because it would leave the millions suffering from opioid addiction with nowhere to turn for coverage as a result of this massive rollback in Medicaid coverage under this amendment.

Mr. SANDERS. I have asked my colleague from Oregon a little bit about some of the cruel and devastating impacts this legislation would have, but we have to be honest and acknowledge that there are some beneficiaries in this legislation as well.

Would my friend describe the beneficiaries in the House bill, in particular? While millions were thrown off of Medicaid, while 23 million people lost their health insurance, some people actually did gain from this bill, and we have to acknowledge that; is that true?

Mr. WYDEN. Yes, the fortunate few would benefit under the House bill. There is no question about it.

To give my colleagues an idea of how regressive those efforts are, they would actually be retroactive. So this idea that these tax cuts for the well-to-do within some way going to create jobs is just absurd. They are made retroactive. So they aren't going to be creating jobs going forward.
Mr. SANDERS. Correct me if I am wrong, but my recollection is that in the House bill there were $300 billion in tax breaks going to the top 1 percent at exactly the same time that 23 million Americans were thrown off of their health insurance—that correct?

Mr. WYDEN. A few hundred families benefit so greatly that it could actually cover Medicaid expansion in several States.

Ms. STABENOW. Will the distinguished Senator from Oregon allow me a question?

This is a very, very important debate. On the point that my colleague just made, isn’t it correct that there is nothing in any of these versions that lowers the cost of prescription drugs, which is the No. 1 issue for people in this country, as it relates to healthcare, or for businesses? I hear it all the time. There is nothing in here to lower our costs of prescription drugs, but there are tax cuts in here for the prescription drug companies. Is that correct?

Mr. WYDEN. That is correct. The special interests get very, very substantial tax breaks. Those working-class people lose tax credits, so they actually lose, and, in effect, those dollars can be used for the tax cuts for the fortunate.

Ms. STABENOW. There is nothing to go further to use the buying power with Medicare to negotiate prescription drugs or to allow, with safe FDA approval, for people in Michigan to be able to drive across a bridge to Windsor and buy the very same prescription drugs for 40 percent less. There is nothing in there about that, is that correct?

Mr. WYDEN. There is nothing that would give Medicare bargaining power to make a better deal. There is nothing for the kind of effort that our colleague from Vermont and Senator KLOBUCHAR have pursued, which is the No. 1 issue for people in this country, as it relates to healthcare, or for businesses. I hear it all the time. There is nothing in here to actually lower our costs of prescription drugs, and be able to get the very same prescription drugs or to allow, with safe FDA approval, for people to be able to drive across a bridge to Windsor and pay for prescription drugs for 40 percent less. There is nothing in here for the prescription drug companies. Is that correct?

Mr. WYDEN. Two points are raised. First, in the immediate, those people who will go to the hospital emergency room, which means that, once again, we are turning back the clock toward the emergency room, which means that, once again, we are turning back the clock toward the emergency room. The State of Michigan will save $432 million in taxpayer money next year because they are focusing on children going to a doctor, people getting preventive care, not using the emergency room. It saves money.

Instead of doing these tax-cut provisions for the wealthiest and for the pharmaceutical companies that take dollars away, actually doing the right thing on healthcare, I think this is a great success story for saving taxpayer dollars.

Mr. WYDEN. My colleague is right. There is a very regressive effort going forward in the House, the House Budget Committee, and, clearly, this is to try to set up tax cuts for the fortunate few.

Mr. WYDEN. My colleague is right. There is a very regressive effort going forward in the House, the House Budget Committee, and, clearly, this is to try to set up tax cuts for the fortunate few.

Mr. WYDEN. My colleague is right. There is a very regressive effort going forward in the House, the House Budget Committee, and, clearly, this is to try to set up tax cuts for the fortunate few.
Ms. STABENOW. If I might ask one final question, would my colleague agree that rather than this approach, in which we don’t even know, moment to moment, what we are voting on here—unlike what we did in the Finance Committee in 2009, where there were the Finance Committee and the HELP Committee before we even voted on anything on the Affordable Care Act. Rather than that process, we are looking at a situation where everything coming before us will take place in healthcare for tens of millions of people and raise costs on everyone. Would my colleague agree that it would be better to stop this process and go back to a bipartisan effort to lower costs and increase healthcare coverage? Would my colleague agree, as well, that we know that there are people paying too much for copays and premiums, and that needs to be addressed?

In the private marketplace, there is not enough competition among insurance companies. In some places, there are none in the individual market. We need to work together to lower costs, starting with prescription drugs, and to also continue to increase the opportunity for people to get healthcare coverage. That is what we ought to be doing together and doing it in a thoughtful way and getting input and actually solving the real problems.

Mr. WYDEN. My colleague has described the Senate way. I wonder, when she says: Look, bipartisanship is not about taking each other’s lousy ideas. Bipartisanship is about both sides getting together, having hearings, listening to all alternatives and ideas, and often coming up with something no one has thought of.

My colleague knows a lot about bipartisanship in healthcare because my colleague was part of our effort in 2008 when we put together the first bipartisan committee on the Senate. We know that.

Mr. SCHUMER. And to discover that Amazon has no TVs at all.

I yield the floor.

The PRESIDING OFFICER. The Senator from South Dakota.

Mr. KAINE. Mr. President, I don’t need to tell anyone why we are here. We are here because ObamaCare is fundamentally broken. That is clear. It is evident. Everybody knows that.

A combination of soaring premiums and rapidly decreasing insurer participation has left the law’s centerpiece—the healthcare exchanges—literally on the brink of collapse. Insurers are fleeing. Nationwide, 141 insurers have registered to offer plans on the exchanges in 2018, 20 percent fewer than the previous year. We owe these people a nearly 30-percent drop from 2017, and that is on top of a nearly 30-percent drop in insurer participation from 2016 to 2017.

If the trend of the past 2 years continues, the final number of insurers offering plans on the exchanges in 2018 is likely to be roughly half the number that offered plans in 2016—a year ago. At least 40 counties around the country are likely to have no ObamaCare insurer in 2018 and another 1,300-plus counties will only have one insurer. That is not just one insurer. President Obama once said that shopping on the exchanges would be like buying a TV on Amazon. For a lot of people next year, it is going to be like shopping for a TV on Amazon, if Amazon only offered one brand of TV. Of course, for some people it is going to be like shopping for a TV on Amazon only to discover that Amazon has no TVs at all.

Another thing ObamaCare was supposed to do was make health insurance more affordable. That hasn’t worked too well. Premiums on the exchanges have soared and soared again. Between 2013 and 2017, the average individual market monthly premium in the healthcare.gov States increased by 165 percent. How many families in this country can afford to have their health insurance premium more than double in just 5 years—and there is no end in sight.

Here are some of the premium hikes insurers are proposing for 2018: In Maryland, one insurer has proposed an average premium increase of 52 percent; an Iowa insurer is seeking an average 43.5-percent premium increase; a North Carolina insurer is pursuing an average 22.9-percent hike; a Virginia insurer is looking for an average rate increase of 38 percent; a Delaware insurer is looking for an average rate increase of 35 percent. One insurer is seeking an average rate hike of 40 percent; and in New Mexico, one insurer is seeking a rate increase of nearly 80 percent.

Again, those are rate hikes for just 1 year. That is after years of dramatic premium increases on the exchanges. Suffering under ObamaCare isn’t limited to high premiums and decreasing choices. There are the Americans who have lost their healthcare plans, and the Americans who have lost access to the doctors they liked, the huge deductibles that left some Americans unable to use their insurance, and the ObamaCare tax hikes that have hurt small businesses and driven up the cost of health insurance.

ObamaCare has failed. Americans are suffering. Doing nothing is not an option.

Yesterday we moved forward to debate legislation to provide relief to the millions of Americans who have been hurt by ObamaCare’s failures. Democrats have made it clear that if they were elected, we would do everything we could to give them relief from ObamaCare. It is time to make good on that promise.

Chances to do away with damaging government programs don’t come around every day. Once you give the government power, it can be pretty hard to wrest it away. This week, we have a chance to start putting this really bad government program. We need to take it. If we don’t act to help the American people, no one will. Democrats have made it clear that if they were in power, they would be doubling down on ObamaCare’s failures.

The head of the Democratic Party in the U.S. Senate openly stated single-payer healthcare is on the table for Democrats. A number of colleagues on the Democratic side have proposed that legislation. An analysis of our Democratic colleague’s single-payer plan estimated that it would cost $32 trillion over 10 years. Well, that would require a tax hike so staggering the Washington Post pointed out that even the Senator who proposed it—an avowed Socialist—has finally realized having to pay that kind of money. The individual market, which is clamping down on the cost of pharmaceuticals. You take steps to stabilize the market immediately, and then you move again in a bipartisan way. We were talking about at every community meeting, which is that their Social Security checks, the benefits they get, aren’t coming close to keeping up with the rise in the cost of prescriptions.

I thank my colleague for her very helpful questions and our colleague from Vermont, Senator SANDERS.
would have on people across this country and American workers. I have to say, I talked to a lot of rank-and-file, hard-working South Dakotans and South Dakota families who have been hit so hard by these premium increases. In my State, families moving from a two-bedroom apartment and dad with two kids who are paying more than $2,000 a month in premiums to get insurance in the individual marketplace.

In my State of South Dakota, premiums since 2013—the last 5 years—have increase 33 percent. They have literally doubled. Do you know what that means in South Dakota? That is almost a $3,600 increase in just the last 5 years. What average family who is trying to raise kids, trying to pay the bills, trying to save for retirement, trying to put something aside for college education, trying to pay the mortgage and the utility bill—how many families can put up with a healthcare bill that has gone up in the last 5 years by almost $3,600? That is a crisis. That is why we are here.

Our colleagues on the other side want to turn a deaf ear and blind eye to what is happening out there. We can’t afford to do that because the status quo is unsustainable. There is absolutely no way the American people who are suffering under the harms caused by ObamaCare can continue to abide the status quo.

It is up to us to take the steps that are necessary to move us in a different direction, a better path that brings stability to the marketplace, that gives people more choices, more options, greater competition, and brings down premiums and deductibles and the costs that are driving family budgets through the roof.

What we have seen since ObamaCare has been implemented are higher costs, higher taxes, and fewer options. It is as simple as that. That is what we are up against. That is why it is time for us to act. I hope when we conclude this process at the end of this week—and we have an opportunity for everybody to offer their amendments—we will move forward with the bill and fulfill our promise to the American people. I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. WHITEHOUSE. Madam President, I appreciate the remarks of my friend from Rhode Island.

It would simply note that nothing he has said explains why you would want to strip hundreds of millions of dollars out of Medicaid or why you want to deny coverage to elderly folks who get Medicaid support for their nursing homes, people who are in the throes of addiction getting medical support for opioid treatment, children are often born on Medicaid—why you want to do all that. Nor does it explain why you would want to strip health care from the most well-off people in the country.

Fine, let’s fix the markets, if that is the problem, but this isn’t really about that. This is stripping money out of Medicaid to give it to very wealthy people who are doing quite well already, in my view.

I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. DAINES. Madam President, Karen from Missoula County wrote to me about how her daughter can’t afford to buy insurance. ObamaCare imposes a tax penalty on Americans who don’t buy insurance. In fact, in 2014 and 2015 alone, they collected over $5 billion in fines.

It turns out, this tax has hurt poor and middle-income Americans the worst. That is why I refer to this as ObamaCare’s “poverty” tax. For Karen from Missoula, paying ObamaCare’s poverty tax is cheaper for her so she pays the IRS a fine because she can’t afford healthcare insurance.

Take Debbie from Roundup, MT. She lost her own healthcare insurance. She shouldn’t have to pay the premiums so she, too, was subject to ObamaCare’s poverty tax and was forced to pay the IRS.

Take Mike from Kalispell, MT. He is concerned for his son who can’t afford a health insurance plan either. The IRS must be paid a tax to the IRS. This individual mandate—this IRS is expensive. It is hard to come up with money to pay it. There are American families who can’t afford health insurance because of ObamaCare, and what does ObamaCare do? It fines them. That is a bills of right. It has been clear that there are many on the other side of the aisle who just want to cut or gut Medicaid. What we are saying is, if you are serious about protecting Medicaid and stopping the war on Medicaid, then you should support the Donnelly-Cantwell-Casey amendment, which would recommit the bill to the Finance Committee with instructions to strike the language about Medicaid. It would make sure our States can expand Medicaid Program, and it would say: Don’t cost-shift to the States.

With this motion, we are saying to our Republican colleagues: We don’t want to cut people off of Medicaid. We want the committee to do exactly what the Republican Governors are saying, which is, quit beating up on Medicaid and focus instead on fixing the individual market. The individual market is 7 percent of the overall market for health insurance.

What we have found with the expansion of Medicaid that has been done by both Democratic and Republican Governors is great success.
I hope my Republican colleagues will heed the warnings of our Nation’s Republical Governors and Democratic Governors. In June, a letter from seven bipartisan Governors was sent to Senate leaders. This is a letter by the Governors of Ohio, Montana, Nevada, Louisiana, Massachusetts, and Pennsylvania. It shows the diversity of both our Nation and political parties. It says:

We believe that, first and foremost, Congress should focus on improving our nation’s private health insurance system.

Then they say:

Medicaid provisions included in this bill [that has been proposed by the House] are particularly problematic. Instead, we recommend Congress address factors we can all agree need fixing.

So the message was clear from these Governors, including Republican Governors, and I hope my colleagues will listen to them. The Nation’s Governors know because they have had to provide and help a partner cost on Medicaid for their citizens. They know how it affects their economy, and they know what it does when families in their States get access to healthcare. It reduces the bankruptcy rate. It helps people stay employed.

A nonpartisan study found that if the current bill we are debating, the House bill, is passed, state economies will shrink by $93 billion. So pulling the rug out from under Medicaid recipients would hurt jobs and hurt economies in Nevada, Alaska, and West Virginia. West Virginia would lose more than 10,000 jobs, more than $1 billion in gross State product, and more than $1.7 billion in business output. Nevada would lose 3,300 healthcare jobs and Alaska would lose 2,900.

So one thing we need to do is work together to say: If you are serious now—before you go home for the August recess—about protecting Medicaid and stopping this ridiculously war on Medicaid, vote for the motion. Stand up and say you understand that we may have challenges in the individual market, but it doesn’t mean that we should cut people off of access to healthcare through Medicaid.

I thank the Presiding Officer. I yield the floor to the Presiding Officer.

The PRESIDING OFFICER (Mr. PERDUE). Who yields time?

If no one yields time, time will be charged equally to both sides.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. DONNELLY. Mr. President, I rise today to offer a motion that would protect Medicaid, the Medicaid expansion, and the Healthy Indiana Plan—known as HIP 2.0—in my home State of Indiana.

I first want to thank my colleagues for their support of this motion. I am proud to have Senators CASEY, CANTWELL, BLUMENTHAL, LEAHY, BROWN, HARRIS, HASSAN, FRANKEN, FEINSTEIN, UDALL, SHAHEEN, CAPER, COONS, WHITEHOUSE, KAIN, VAN HOLLLEN, CORTEZ MASTO, BALDWIN, MENENDEZ, REED, DUCKWORTH, MANCHIN, MARKY, STABENOW, DURBIN, WYDEN, MURPHY, WARREN, GILLIBRAND, CAPRICE, KLEIN, HEINEMANN, B tribune, ROBERT, PETERS, WARNER, and NELSON as supporters of this effort.

I also want to extend a special thank-you to my friend Senator BOB CASEY of Pennsylvania. He has been a tireless advocate for protecting the Medicaid Program and the critical services it provides, not just to the people of Pennsylvania but to millions of Americans across our beloved country. Senator CASEY has done incredible work to remind all Americans of the important role Medicaid plays in our communities and the millions of children, families, students, and seniors who have coverage through Medicaid.

My motion is simple. It would send this legislation to the Finance Committee to get the consideration it never received, and it would require the committee to strike provisions that reduce or eliminate benefits for those currently eligible for Medicaid, provide States from expanding Medicaid, or shift costs to States to cover that care.

In my State of Indiana, we have seen the success of a bipartisan approach to expanding the Medicaid Program and helping our fellow citizen access health insurance. I was proud to work with then-Indiana Governor and now-Vice President MIKE PENCE when he used the Affordable Care Act to establish HIP 2.0. More than 400,000 Hoosiers have been able to access coverage through HIP 2.0, many for the first time in their lives. HIP 2.0 has helped reduce the uninsured rate in Indiana by 30 percent. Our Vice President called HIP 2.0—that is the Medicaid expansion in Indiana— a model.

Then-Governor PENCE is hardly the only Republican Governor to praise the Medicaid expansion as a way to cover more of our citizens. Governor Sandoval of Nevada said just yesterday that he “will continue to do all I can to protect the hundreds of Nevadans whose lives are healthier and happier as a result of the expansion of Medicaid.” Governor Kasich of Ohio has offered similar sentiments as he has fought to protect the Medicaid coverage for 714,000 Ohioans.

Nationwide, 31 States and Washington, DC, expanded coverage to more than 14 million Americans, many of whom have health insurance for the first time in their lives. All of that progress is at risk with the current bill.

Many of our States, including Indiana, have been devastated by the opioid abuse and heroin use epidemics. This problem has not been confined to simply one neighborhood or one economic bracket; it has been felt in communities across my State and all communities across our country.

Vice President PENCE said in his farewell address as Governor, “With HIP 2.0, we have also made great strides expanding treatment for those who struggle in the grip of drug addiction.” I agree with the Vice President. HIP 2.0 and the Medicaid expansion have made treatment and recovery services more accessible for thousands of Americans struggling with addiction as they work to get back on their feet.

Don’t think the proposal is a single Member of this entire body—the U.S. Senate—who hasn’t heard from the relative of someone who is battling addiction or from someone who has lost a loved one due to this epidemic. Getting Medicaid and expanding HIP 2.0 as we know them would not make life better for Hoosiers or for the other 14 million Americans who have gained coverage through the Medicaid expansion. It would actually do the opposite. But healthcare, at the end of the day, is inherently personal. It is about the health and the economic well-being of our loved ones. It is about not having to go just to visit a doctor. It is about our financial security so our families and our friends aren’t one illness away from bankruptcy.

The proposal before us wouldn’t just impact Medicaid expansion; it would harm millions of working Americans who count on Medicaid for basic healthcare. It would affect more families than that, including those families who have insurance through their jobs but also use Medicaid to access care for chronic or complex conditions.

In 2015, 63 percent of Medicaid households had at least one full-time worker, and another 14 percent had part-time workers. That is almost 80 percent. For these hard-working Americans, Medicaid provides their families with financial security and stability and the healthcare they need so they can keep working.

Last month I stood on this floor and shared the stories of Hoosiers, including those who have Medicaid for themselves or to ensure that their children have the care they need. I have met with these families and heard their struggles, their fears, and their pain. I have listened as they pleading with all of us here to protect their ability to access Medicaid. Many of these Hoosiers or their children are struggling with complex medical needs that have made it impossible for them to get coverage in the past. They would be priced out of the market under this current legislation. I cannot support a bill that takes care away from these families or from their children.

My faith teaches me that we are all God’s children, and every man, woman, and child should have the chance to live up to their God-given potential. That is not hard to do to take care of our kids. These aren’t just Indiana values. These are values in every town in every corner of our country.
My faith also teaches me that we all deserve to live, work, and retire with dignity. In Indiana, 62 percent of Hoosier nursing home residents use Medicaid to help pay for their care. According to the Kaiser Family Foundation, Medicaid supports more than 1.4 million American seniors across our country. Their care would be threatened by this bill, which is part of why seniors’ groups have been so vocal in their opposition to the proposed Medicaid cuts in this bill.

I have spoken with a number of school superintendents all across my State opposing the Medicaid cuts because of the harm it would cause to the thousands of students across the Hoosier State. Schools use Medicaid funding for certain health-related services they provide, including individualized education plans, special transportation for children with disabilities, social workers, physical and occupational therapists, and medical equipment at the schools.

Some school districts use Medicaid to help pay for health professionals or for full-time registered nurses at schools across the country, where they assist students with complex medical needs and treat students with everything from illnesses to asthma attacks. As school districts and local governments across the country continue to make even more difficult budget choices, cutting off this critically important funding creates just one more huge challenge. In addition to trying to make up the lost funding, our communities and States could be impacted in other areas as well, including infrastructure, other education spending, police and fire, and other local priorities.

The plan from my friends across the aisle undermines coverage for millions, but we haven’t even had a hearing on their proposal. Committees haven’t been able to go through regular order to examine the merits of Medicaid and the Medicaid expansion and how gutting them would harm millions of people—children with really complex medical conditions, those struggling with substance abuse disorders, and seniors in nursing homes trying to live with dignity and peace.

My motion sends this bill back to the Finance Committee to ensure that we can get off that path. We can make sure we do not reach the end of that very dangerous journey. It was as if yesterday we lit the fuse and the fire is growing and at the end of the fuse is the plan to totally blow up the Affordable Care Act, which will wreak havoc on our healthcare system.

That is why we have to put out the fire and prevent the harm that will be created in our healthcare system if we continue down this path.

The reality, we know, is that all the healthcare plans that we have seen emerge to date—whether it was House plan 1 or House plan 2, or Senate plan 1 or Senate plan 2, or the proposal to repeal entirely the Affordable Care Act, which would cause great harm—have the same rotten core. All of them have the same nasty DNA, and that is this: They would deny access to affordable care for tens of millions of our fellow Americans in order to give tax breaks to the very powerful and very rich and to big corporations. In fact, the math shows very soon, which is entirely repealing the Affordable Care Act with no replacement, will result, according to the non-partisan Congressional Budget Office—these are the nonpartisan referees who look at these proposals and tell the American people what the impact will be—in 32 million fewer of our fellow Americans having access to affordable care today. That is why I urge my colleagues to support this motion.

Thank you, Mr. President.

Mr. VAN HOLLEN. Mr. President, I thank the Presiding Officer, and I want to start by thanking my friend and our colleague, Senator Joe Donnelly, for standing up for Hoosiers and, in standing up for Hoosiers, standing up for all Americans whose healthcare is threatened if we continue to proceed down this very dangerous road in the Senate.

He talked about the opioid epidemic. Just last week I met with a dad by the name of Rick Warner and the brother and sister of a young man by the name of Jamie Warner who had recently graduated from the University of Maryland. He was a Terp. Jamie died of an opioid overdose. He was part of the opioid epidemic that is sweeping this country. Rick Warner and his family were here in the Senate asking Senators—in fact, pleading with Senators, Republicans and Democrats alike—not to pass this healthcare bill.

He had lost his son Jamie, and he is determined that other moms and dads not lose their children to opioid overdose. This bill—make no mistake—will make those tragedies much more likely by taking away access to care in the way Senator Donnelly just mentioned. Yesterday, with the tie-breaking vote of Vice President Pence, the Senate began down a very dangerous path, but we can get off that path. We can make sure we do not reach the end of that very dangerous journey. It was as if yesterday we lit the fuse and the fire is growing and at the end of the fuse is the plan to totally blow up the Affordable Care Act, which will wreak havoc on our healthcare system.

That is why we have to put out the fire on that fuse right here in the Senate. We have the power to do that. We have the power to prevent the chaos and harm that will be created in our healthcare system if we continue down this path.

The reality, we know, is that all the healthcare plans that we have seen emerge to date—whether it was House plan 1 or House plan 2, or Senate plan 1 or Senate plan 2, or the proposal to repeal entirely the Affordable Care Act, which would cause great harm—have the same rotten core. All of them have the same nasty DNA, and that is this: They would deny access to affordable care for tens of millions of our fellow Americans in order to give tax breaks to the very powerful and very rich and to big corporations. In fact, the math shows very soon, which is entirely repealing the Affordable Care Act with no replacement, will result, according to the non-partisan Congressional Budget Office—these are the nonpartisan referees who look at these proposals and tell the American people what the impact will be—in 32 million fewer of our fellow Americans having access to affordable care today. That is why I urge my colleagues to support this motion.

Thank you, Mr. President.
House and call it a healthcare bill when all the people who provide healthcare to our constituents say it is harmful to their health and when every patient advocacy group that has weighed in says that it is bad for their health. How is that a healthcare bill?

It is good for one group of Americans—those who will get a windfall tax break, but many of them, like Warren Buffett, are saying: Hey, I don’t want this.

Now there are some very big corporations that are wanting their tax breaks, and, yes, as corporations, they are going to get this windfall benefit at the expense of everybody else in America and at the expense of our healthcare system.

So let’s not go down this path. The way to avoid going down this path is to vote down all of these amendments and make sure that we don’t put this bill into the House of Representatives, where they have already passed a bill that would destroy Americans’ health.

In fact, I think people will remember that President Trump had this big celebration in the Rose Garden of the White House after the House passed that bill. They were slapping each other on their backs before the cameras.

Yet, behind closed doors, what did President Trump have to say about the House bill? Behind closed doors, he called it a mean bill, and it is a mean bill. That’s what, when it comes to cuts in Medicaid that our colleague Senator DONNELLY was talking about, are even meaner than the House bill, with deeper long-term cuts. This is not according to me. It is according to the nonpartisan Congressional Budget Office.

Those cuts get translated into stories of people like Rick Warner, the dad I talked about at the beginning of my remarks who lost his son Jamie. Those cuts get translated into harm to people throughout this country who have been crying out. We heard some of them in the Gallery just yesterday. What did they say? “Kill the bill. Don’t kill us.”

The reality is, when you deny access to affordable care to millions of Americans, you are putting their lives at risk, and when you raise premiums and costs, you are putting people’s livelihoods at risk. So let’s not go down this path.

The motion by Senator DONNELLY and others will do what Senator JOHN MCCAIN asked us to do yesterday—to go back to regular order, to go back to the committee process, to go back to the way this democratic institution is supposed to work which is when we hear from our constituents, we hear from the doctors, we hear from the nurses. We do not cover our eyes and ears to the facts and the truth.

This open process is designed to protect the American people. It is designed to protect the American people from bills just like this one for which this Senate took that dangerous first step down the road on proposals that only 11 percent of the American people think is a good idea—11 percent. I cannot even find that 11 percent myself. I have gone all over the State of Maryland, to those parts of our State that voted for Donald Trump for President and to those that did not. I cannot find 11 percent in Maryland who are for this bill. That is why we call the regular order around here is supposed to protect the public interest—because when you have a committee hearing on the bill and the doctors and the nurses and the hospitals all come out and testify against it, they let people know how bad it is. Instead, we have had this process in secret, behind closed doors. In many cases, we do not even know what the next amendments after this one that is coming up are going to be. We do not know what the Republican leader is cooking up behind closed doors.

Let’s do what Senator McCAIN urged us to do. Let’s get back to regular order. Let’s get back to a process that is designed to provide transparency because with transparency comes accountability. It lets the American public know exactly what we are doing and how we are going to impact their lives.

Here is what I do know. Everyday across this country who knows about this bill—everyone I have spoken to and from the phone calls we are getting and the emails we are getting and at the rallies and the townhalls—is catching on. Why are we just watching this roll over all of that important public sentiment coming from all political views? The American Cancer Society is not a Republican or a Democratic organization. The American Diabetes Association is not partisan. Those groups are crying out and saying: Stop.

So let’s get off this path, this very dangerous path. Let’s get back to regular order. We all know our healthcare system is not perfect. We all know the Affordable Care Act, Senator DONNELLY and I and others and many of our Republican colleagues have put forward much more narrow plans that focus on improving our healthcare system, not on blowing it up entirely. That is the path we should take.

I hope all of our Senators will agree not to continue to let that fire burn on the fuse until it gets to the end and blows up our healthcare system. Let’s stop—and let’s get together, and let’s have a committee process. Let’s do something that really improves our healthcare system and not something that destroys it.

Thank you, Mr. President.

The PRESIDING OFFICER. Who yields time?

If no one yields time, time will be divided equally between both sides.

The majority whip.

Mr. CORNYN. Mr. President, I am advised we are not in a quorum call. Is that correct?

The PRESIDING OFFICER. The Senator is correct.

CONGRESSIONAL RECORD — SENATE

S4245

Of course, as you might imagine with something as complex as healthcare, we have had a number of opinions on how best to achieve these goals. Even as approaches and ideas have differed, one thing has remained constant: the belief that the status quo is simply un-acceptable. It is unacceptable.

Take, for example, one of my constituents in Texas, who wrote me recently to say that his monthly insurance premium under the Affordable Care Act had tripled, to $990, and his deductible, to an earlier point, went from $1,500 to $6,000.

I don’t know many people—unless they happen to be well-to-do—who can afford to absorb those sorts of increases in premiums and deductibles. Because his coverage went from a PPO, a preferred provider organization, to an HMO, a health maintenance organization, some of his doctors are no longer in the network, forcing him to switch healthcare providers entirely.

That’s definitely not unique. It is typical. This is the norm under the Affordable Care Act. I often hear from Texans who would rather drop their coverage and pay the costly fine rather than have to pay for insurance that will be canceled more and more each month, which they can’t afford.

Here is a telling statistic. More than 400,000 Texans who earn less than $25,000 a year have decided to pay the penalty rather than to be forced to buy the insurance they can’t afford, so many of them pay the penalty because of the individual mandate in the Affordable Care Act. They are left with nothing, other than having to pay the penalty as required by the law. That is not a solution. That is why I hope that someday we can get out of this rut and off of the talking points on each side and say: What can we do to try to provide people access to affordable health care? That is the key.

People are going to make their own decisions based on their own economic self-interest. If you are a young person, you might decide: What I would like to do is to buy a policy that will cover me in emergency circumstances if I have to go to the hospital, but I don’t want to have to pay for all the bells and whistles that raise the price. You can’t don’t that under the Affordable Care Act and take advantage of the tax subsidies that everybody else can. It is basically a false promise.

I also heard from another small business owner in Donna, TX, who was forced to fire four employees just to comply with the employer mandate or otherwise owe the government more than $100,000 in fines that he said could bankrupt his business. Those are the kinds of decisions that ObamaCare is forcing. Rather than hire enough people—or if you have more than 50—you decide you need to fire people in order to avoid these penalties that come from the mandate. That’s not good for the economy. That is not good for the job prospects of hard-working Texans.

I shared the story of a constituent in Needville, TX, who, after a 50-percent increase in his monthly premiums, still lost his doctor because the doctor wouldn’t accept his ObamaCare plan.

Then there is the emergency room employee in North Texas, who wrote to say that she has seen a significant increase in the Medicare and Medicaid patients in the emergency room because fewer and fewer doctors would accept these patients.

In my State, only about one-third of doctors still accept a new Medicaid patient because it pays at such a low rate. We have a better idea that will make people up to 350 percent of the Federal poverty level eligible for a tax credit they can use to buy private insurance, which will increase their access to care and make it more affordable. We have coupled that with something else, the innovation and stability fund, in which we have taken the authority out of Washington and sent it back to States to let Governors and State legislators and regulators at the local level design policies that meet the needs of the people in the States.

The basic structural failure of ObamaCare was to assume that you could write a one-size-fits-all plan for 320 million-plus people that would work. It hasn’t. We know that. That is not a solution; this is based on experience.

I know my colleagues across the aisle have heard similar stories from their constituents, as well, but apparently they don’t seem to care very much about that. Otherwise, they would join with us in trying to improve the status quo, which they have refused so far to do.

One thing about the procedure that we are undertaking here is that any Senator who wants to offer an amendment to improve the bill or even offer an amendment that could be entitled to do so, and they will get a vote on that. Our colleagues on the Democratic side, despite hearing from their own constituents that they are hurting as a result of the status quo, appear not willing to lift a finger to help them.

Indeed, the only proposal I have heard from the other side—I have heard two. One is an insurance company bailout, which does nothing to effect reforms that would ultimately address the problems with ObamaCare or else they say: We want to have a single-payer system, which will bankrupt the country. Those are their solutions.

On Monday, I noted that in an effort to try to unite their deeply divided party after last year’s elections, our Democratic colleagues unveiled an economic agenda aimed at, they say, lifting up lower and middle-class Americans. That is an admirable goal.

If Democrats are really serious about alleviating the burdens placed on these very same folks by ObamaCare—the types of people I have been talking about back in Texas, whom I know exist in their States as well.

If the Democratic leader refuses to help get rid of one of the biggest economic burdens on lower and middle-income Americans, then his plan is not worth the paper it is printed on. What they are offering is false hope. Unless you are willing to deal concretely with the problem here and now, that is just another campaign promise—they will not be able to keep until they address what the failures of the Affordable Care Act have imposed on low- and middle-income Americans.

Simply stated, ObamaCare is a failed experiment. It has failed because Washington has tried to do too much at the expense of individual choices, individual liberties, and family control over what are deeply personal decisions.

Every day each that passes, ObamaCare keeps getting worse. The premiums for 2018 will soon be announced by the insurance companies, and we are going to see double-digit increases again, over and above what ObamaCare has seen so far—105-percent increases since 2013 alone—on top of that.

After yesterday’s vote, we now have the opportunity to provide relief from this failed law. I know Members have a lot of ideas about how to fix it, but that was precisely why it was so important for us to get on the bill yesterday, so Members on both sides of the aisle can offer amendments and share their ideas.

Do you know how many Democrats voted to get on the bill and begin the debate and offer amendments? Zero, zip, nada. Their protestations that they somehow want to do things on a bipartisan basis, really have fallen flat, as demonstrated by their own failure to act.

If they were really interested in working with us to do something on a bipartisan basis, why wouldn’t they take advantage of this opportunity to do so?

Last night we began the process of considering amendments, including one from my colleague in Texas, Senator Cruz, who has a plan to provide people with a lot of ideas about how to fix the insurance product the opportunity to do so, as long as the State also requires a comprehensive plan as well. This is something that is ideal for many people who want an insurance safety net but don’t necessarily want their health insurance to pay for their regular medical expenses or doctor visits. They can handle those through a health savings account or some other way.

Later today we will continue to work toward bringing relief to millions of Americans suffering from the failure of ObamaCare. Yesterday was a big step toward ending ObamaCare and the first step toward ending the mandates, the
penalties on low- and middle-class Texans who are having to choose between buying unaffordable insurance or paying a penalty that their government is forcing them to pay. We are going to end that.

We are going to end the job-killing employer mandate, which is forcing employers either to lay people off or not hire additional people because they don’t want to run into the additional costs required by the employer mandate.

Then there is the single mom, whom I met in Tyler, TX, a few years back. She said: I want to work full time. I want to work at least 40 hours a week, but I can’t because I was forced to work 29 hours a week, to working two jobs in order to make ends meet.

People keep talking about a secret process. Well, this is about as open and transparent as it gets. Everybody will have an opportunity to offer an amendment, to discuss what is in the amendment, and to vote on it. To the extent that the Senate’s work product differs from what the House of Representatives provides us, we can go to a conference and work out those differences. That is how the legislative process is supposed to work, to come out on four hands and complaining about something while offering no effort to try to help solve the problem simply boils down to hollow words. Unfortunately, that is all we have been hearing so far. We need an area of Congress will change their minds and join us. Insurance bailouts with reform are not the answer, a single-payer system is not the answer because it will bankrupt the country, but we are more than happy to entertain any reasonable proposal from our colleagues across the aisle.

We will guarantee they get a chance to debate it and to have a vote on their amendment. I don’t think they could ask for anything more.

The PRESIDING OFFICER (Mr. COR- TON). The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, as we all know, we are continuing to debate what we believe the Affordable Care Act without any indication of what is going to replace it—what is actually in the Republican leader’s bill. I think this is worth repeating because we are talking about changing one-sixth of the U.S. economy, impacting every American family, and yet we still have no idea what the bill actually is.

We do know this. A partisan bill to take away health insurance from tens of millions of Americans, written behind closed doors, opposed by every healthcare stakeholder group and by an overwhelming majority of the American people should not pass the Senate.

As I have repeatedly said, the only constructive way forward is for Demo- crats and Republicans to come to- gether in a good-faith, bipartisan effort to reform the current law. Bipartisanship should not be our last resort, as Senator MCCONNELL has suggested. It should be a starting point. It should be the foundation of what we do in this body. This is how the great majority of the American people want us to conduct the Senate’s business. This is what I hear from my constituents in New Hampshire, and this is especially true with healthcare legislation which affects families all across this country.

Make no mistake, every bill proposed by the Republican leadership has been designed as a bullet to the heart of the Affordable Care Act. Republican proposals will collapse the individual markets, make it impossible to provide affordable coverage for people with pre-existing conditions, and take healthcare coverage away from up to 32 million Americans, including the most vulnerable.

I hope nobody is fooled by this latest partisan measure to roll back the Affordable Care Act and take healthcare coverage away from tens of millions of Americans. I hope every Senator will, at long last, heed Senator McCAIN’s call for bipartisanship—as we have been hearing at townhalls and in countless messages from our constituents. The American people want us to make commonsense, bipartisan changes to the current law. We need to work together to build on the strengths of the Affordable Care Act, which has dramatically reduced the number of uninsured Americans and has given us valuable tools for fighting the opioid epidemic which is ravaging so many communities in America. This is the best way forward for both the Senate and our country.

Republican leaders have spent the last 7 months pushing deeply unpopular bills to repeal the Affordable Care Act, including their effort to dramatically cut the expansion of Medicaid under the Affordable Care Act but the Medicaid Program that has done so much to protect and provide healthcare for children across this country, for pregnant women, for those with disabilities and older Americans, so many of whom are in nursing homes who would lose that care if we dramatically cut the Medicaid Program as the Republican proposals have tried to do.

At the recent National Governors Association meeting, Democratic and Rep- ublican Governors alike urged Congress to reject the Republican leaders’ healthcare bill—in particular, its harsh and unsustainable cuts to Medicaid. The Republican Governor, John Kasich, was especially forceful in urging Members of Congress to work together to find bipartisan solutions. He urged Congress to give first priority to stabilizing the healthcare marketplaces.

We should listen to the Governors, but most importantly we should listen to our constituents—to the great ma- jority of our constituents who want to preserve what is working in the Affordable Care Act and see what is not working. Instead of legislation to take healthcare away from people, it is time now for an inclusive, bipartisan approach to provide quality, affordable healthcare for every American.

Thank you.

I yield the floor.

The PRESIDING OFFICER. The assistant Democratic leader.

Mr. DURBAN, Mr. President, yesterday, on the floor of the Senate, there was a speech which will be remembered for a long time. Our friend and colleague Senator JOHN MCCAIN came to the floor just days after he had been diagnosed with a dreaded, life-threatening chal- lenge. He made the trip from Arizona to Washington to vote on the floor on this healthcare debate, then asked for 15 minutes of time afterward to speak to the Senate. Of course, he was given that opportunity.

During the time that we learned about his diagnosis and he was home, virtually every one of us sent our perso- nal best wishes to him and his fam- ily. Our love and respect for JOHN MCCAIN is deeply felt in the U.S. Senate, and virtually everyone stayed on the floor to hear his speech. Look around the floor now. There aren’t many people, right? As good as my speech may be, it is not going to touch the quality of what John delivered yester- day. I wanted to be here for it and so did my colleagues on the Demo- cratic side and on the Republican side. JOHN said a lot about who we are and what we have done in the history of the United States of America, have had the honor to stand here and speak on the floor of the Senate. This is a rare opportunity. For many of us, it is a dream come true and one we couldn’t imagine, but what JOHN said yesterday, to summarize part of his statement, is that we ought to understand our re- sponsibilities, as well, as Senators.

We ought to be honest about what we now face in America, about the political discourse, the political de- bate. What we face now is a divided country, a divided Senate, divided House, and yet a yearning by all Amer- icans for us to step up and do some- thing different. We have the opportu- nity to help America’s families, the workers, the businesses; step forward and solve a problem. JOHN reminded us yesterday that to do that, we needed to move to what he called the regular order.

We ought not to those who are just watching this debate and don’t follow the Senate closely, but the reg- ular order is to introduce a bill into
the Senate, send it to a committee, have the committee staff review it, experts take a look at it, call for a committee hearing so the American people can see what is in the bill, debate the back-and-forth at the hearing, then have members offer amendments—no changes. Some will win, some will lose. Then the bill can come to the floor of the Senate for a similar process. It is an open, public process. That is what regular order is, and that is what John McCain spoke to.

Let's, at that point, quote what he said verbatim. I like this paragraph a lot so I am going to add it here. Here is what John McCain said yesterday on the floor of the Senate:

I hope we can again rely on humility, our need for the other, each other to learn how to trust each other again and, by so doing, better serve the people who elected us.

I like this part:
Stop listening to the bombastic loudmouths on the radio and television and the internet.

JOHN MCCAIN said:
To hell with them. They don’t want anything done for the public good. Our incapacity is their livelihood.

Let’s trust each other. Let’s return to regular order. We have been spinning our wheels on too many important issues because we keep trying to find a way to win without help from across the aisle. That is an approach that has been employed by both sides; mandating legislation from the top down, without any support from the other side, with all the parliamentary maneuvers it requires. We are getting nothing done, my friends. We are getting nothing done.

JOHN said it yesterday and it still applies and he is right. I say that as a Democrat with respect for him as a Republican, but if we are not going to do more than just listen and be warmed by his words and applaud his speech, what should we do at this moment?

What is pending before us on the floor of the U.S. Senate is legislation that will change healthcare for every single American—every one of them. It will change it for us in the Senate, but it will change it for the 125 million people I represent in Illinois too. Every one of them will be changed by this bill. What is in this bill that will change it? We honestly can’t tell you. The bill has not been written. We aren’t able to see it. We are being told before the end of the week we will actually see the bill. I am not making that up.

We have tried several amendments on the floor, and they failed—one has failed. Several are likely to fail this afternoon, but there is no bill before us. We can’t explain to the American people what this is ultimately going to be, except in the most general terms of what is being debated. That is embarrassing. It is embarrassing on the floor of the Senate.

What we should do is take this critical matter that affects every American and every American’s healthcare and send it to a committee—the HELP Committee, chaired by Senator Lamar Alexander, Republican of Tennessee:

Ranking Member Patty Murray, who is a Senator from Washington; the Finance Committee, Senator Hatch of Utah, Republican; Senator Wyden of Oregon, Democrat. They need to sit down and look at these bills carefully.

Let’s not make a mistake at the expense of the people who sent us here. Let’s stand up for sound, thoughtful judgment. Let’s stand up for a Senate that works, as John McCain challenged us, Is it in America’s people’s best interest? I think it is at the heart of all of it. I think John McCain really set a standard we ought to live up to. Let’s stop this waste of time over a debate over a bill that cannot even be printed. Let’s take this to the regular order. Let’s do it the right way, to the credit of the Senate and to the credit of our country.

We took an oath, each and every one of us, to swear to uphold the Constitution. That Constitution, that document we revere, spells out exactly what we should do at this moment, which is stop what we are doing on this floor, stop wasting the time of the American people and endangering their healthcare, and take this to a debate that is befitting a great Constitution and a great nation and a great Senate.

I yield the floor.

I do it with the hopes that those who speak after me, of both political parties, will first sit down and read what John McCain said yesterday and let their applause for his remarks be reflected in what they do on the floor of the Senate today.

I yield the floor.

THE PRESIDING OFFICER. The Senator from Oregon.

Mr. WYDEN. Mr. President, thank you for your statement and for appealing to the better angels.

Mr. President, I am rising to speak about the Donnelly amendment, which is very much needed because the President and the American people are walking back a clear commitment.

The President said in the campaign that he would not cut Medicaid, he wouldn’t touch it, but even before the inauguration, the Trump team eagerly signed on to a Republican plan to slash it by more than $700 billion. They stared into television cameras, looked American voters in the eyes, and said that somehow these massive cuts to Medicaid would not harm the seniors. Medicaid picks up 2 out of 3 dollars with respect to seniors in nursing homes, but it also picks up the costs that is befitting a great Constitution and a great nation and a great Senate.

I yield the floor.

THE PRESIDING OFFICER. The Senator from Oregon.

Mr. DONNELLY, has put forward an important amendment to stop this ideologically driven crusade to unravel the Medicaid safety net. Senator Donnelly’s proposal would send the President attack on Medicaid back to the Senate Finance Committee, where it should have been raised and struck down in the first place.

Mr. President, I am the ranking Democrat on the Senate Finance Committee. My focus in public life has always been to try to find common ground with people of common sense. And I wrote with colleagues—many of whom still serve on the Republican side—off an anti-Medicaid crusade that is a grave threat to the health and well-being of tens of millions of Americans.

Over the last few months, I have heard Republican colleagues say that Medicaid is a disincentive to work and that there are too many able-bodied adults enrolled. If you look at the facts, that is not what the program is all about. Medicaid is a vital source of coverage for our neighbors and friends who live in poverty. It tells those families that healthcare is covered while they work to climb the economic ladder in the private sector.

In addition to that, for the older people, we have millions of the folks who have done everything right in life. They went to school, they found jobs, they worked hard in their careers, they raised families, and they scrimped and saved all through their lives. Growing old in America is pretty costly. So what happens is that millions of seniors who have done everything right spend down their savings, and that is when Medicaid steps in to help. It covers two out of three seniors living in nursing homes. It is a safety net of funding for community-based care, and people generally don’t know that. Now they may have heard about nursing homes, but it also picks up the costs for community-based care, where older people can live more cheaply and it often costs less than institutional care.

Seniors who lose those benefits due to TrumpCare Medicaid cuts are going to have to find somewhere else to live. And if families want to be able to help elderly parents and grandparents, it is going to be pretty hard because a lot of them are walking on an economic tightrope, and if they go looking
for nursing home care, it is going to cost on average more than $90,000.

So it is seniors, and it is disabled folks who count on Medicaid to have a chance to be productive. With the Medicaid benefits under threat, people with disabilities are going to find it hard to be able to attain the productive role in our society that they so fervently want to have. Our communities are so much better off when folks with disabilities can contribute, and Medicaid makes that possible. It covers services that many private insurers don’t. It helps people make it out of bed and provides safe transportation to jobs. It helps them avoid unnecessary illnesses. It is not a disincentive for people with disabilities to work; having the support of Medicaid is what makes it possible for disabled folks to work.

Across the country, there are millions of kids with special needs who rely on Medicaid every day for services—behavioral care services, mental health services. Mom or dad might have good insurance through work, but private plans don’t always cover the care those vulnerable kids need.

The PRESIDING OFFICER. The Senator’s time has expired.

Mr. WYDEN. Mr. President, I ask unanimous consent for 1 additional minute.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, I have considered the secret process that went on in this discussion, but I will close with this: One version of TrumpCare has already been voted down here in the last day. Nobody knows where this debate will wind up, but what is important now is that Senator Enzi serves so admirably, and the Donnelly motion is going to ensure that Medicaid has to be preserved. I want to commend my colleagues, as I have heard from citizens all over the country telling me what the Affordable Care Act and Medicaid have meant to them, what repeal of it will mean to them, and how devastating and cataclysmic the damage will be.

If at some point my colleagues abandon this effort to repeal and decimate the Affordable Care Act, I stand ready to come across the aisle to work together to drive down the costs of healthcare—particularly pharmaceutical drugs. I open the exchanges to more competition and create more choices for consumers among insurance companies. There are steps we can take together to improve this process. As Senator McCaskill and I have proposed, we need to go back to regular order, come together, and work across the aisle. There is no panacea. There is no instant solution. But we need to work together.

Thank you, Mr. President.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wisconsin.

Mr. JOHNSON. Mr. President, I come to the floor today to speak to three amendments that I have submitted or plan to submit on the matter before the Senate here today, the repeal and hopefully complete replacement of ObamaCare.

There are two issues that concern me the most and that I have fought for and debated.

In this process, how can we bring down gross premium levels that have skyrocketed under ObamaCare? According to HHS, on a national average, premiums have increased 105 percent. They have more than doubled. And of course it is far worse than that in many places.

Janice Fenniman was a 62-year-old woman when I met her a couple of years ago. Prior to ObamaCare, she was paying $276 per month. In 2016, just 2 years into the implementation of ObamaCare, she was paying $786 per month. Last time I talked to her, she would be paying over $500 a month, but the problem is, she can’t afford it, so she is just taking a risk and going uninsured until she reaches the age of 65 and is qualified for Medicare.

The other issue I want to speak about is literally the unsustainable nature of Medicaid. The other thing I fought for is reducing the disparity between States that have expanded Medicaid and those that haven’t, like Wisconsin, that have done a great job managing Medicaid. My concern is that Medicaid expansion, which is directed toward able-bodied, working-age, childless adults, is funded by the Federal Government 90 to 100 percent, depending on which year you are looking at, versus traditional Medicaid targeted toward—40 percent of Medicaid spending is targeted toward children, the disabled, and the elderly. Medicaid expansion is putting at risk the sustainability of traditional Medicaid. So my three amendments deal with these issues, and I ask that we first take up the first two amendments dealing with premiums.

I have a few charts. Unfortunately, in Washington, DC, there is not a whole lot of people who understand the problem-solving process. Let me describe it briefly.

It starts with information. It starts with defining the problem, doing a root cause analysis, having the courage to recognize and acknowledge the truth in front of you. Based on that, we try to set achievable goals. From my standpoint, the achievable goals should be to bring down gross premium levels back to a reasonable level where they were prior to the implementation of this completely faulty architecture of ObamaCare and preserving and sustaining traditional Medicaid.

This chart, I realize, is a little busy, but let me walk you through it. This shows the trend line of ObamaCare, in terms of what we have experienced from 2010 to 2017, plus the estimates of the Congressional Budget Office as it relates to the Senate bill we voted on yesterday.

Let’s take a look at this. Back in 2010 to 2013, you see the trend line here. In 2013, on the national average, an individual is paying about $232 per month for healthcare. Now had that trend line just continued, had we not passed this faulty architecture of ObamaCare, we could reasonably expect that in about 10 years, an individual being about $303 per month.

What has happened—again, according to HHS—those premiums have gone...
from $232 per month to this year $476 per month on a nationwide average. That is a 105-percent increase.

One of the problems with CBO scoring is it is difficult to interpret. What I tried to do for my colleagues is put in chart form exactly what CBO is saying. In the Senate bill, they said next year premiums would be 20 percent above the current baseline. Of course, they don’t give you the baseline, and they don’t really give you the premiums so I had to try to cobble those things is pretty accurate. That would put premiums next year at about $546 versus $232 about 4 years ago. The following year it would be 10 percent above the baseline. So it would start decreasing with the Senate bill, and the third year would be 20 percent below baseline. You would see a dramatic drop. You would be at $441 per month. Then the trend over the next 7 or 8 years would be 20 percent below the baseline, $574.

To take a look at this, had we never passed ObamaCare, premiums should be in the $300-a-month level versus $574. This is the damage done by ObamaCare, and this, I am very sad to report, is not what we are adequately addressing because we do not have the courage to do the root cause analysis and be honest with the American public about what is happening.

Let me read you a dictation from the family I just heard from yesterday. Sheri and Vern Kolby, whom we heard about, one of our state legislators who contacted one of my regional directors. He sent me an email telling me their story.

I called Sheri last night. She didn’t have time. She was just off her shift. Her husband is working way more than 40 hours a week—basically, that is 60 hours a week. The people whom President Clinton was talking about, people busting it, working 60 hours a week, their premiums have doubled and their coverage has been cut in half. So my story is pretty accurate. That would put premiums next year at about $14,400 versus $7,200. We are blue collar. We usually fluctuate between $50,000 and $60,000. We are blue collar. We pay our bills on time, we respect people, and we want to live a good life, and we have just been dumped on. It has got to stop. It may come to a point where we might not have insurance, but we will just end up owing the hospital if something else happens. My husband works 60 to 70 hours a week, and I work 30. We drive a ‘86 Wrangler. We are not running around in a Ferrari. We don’t spend money beyond our means. We don’t take trips to Tahiti, and we are not trying to swindle the system, but it has been a very stressful experience. We have been married 26 years, and we have stayed together through so much stuff. We are not old enough to even think about retirement for a long time so I don’t know what we will do.

These are the forgotten men and women of this healthcare debate. People who are busting it, who don’t get subsidized, who can’t afford insurance coverage because of the faulty architecture of ObamaCare, and we are not courageous or honest enough to really address it. We did get from HHS a study that they commissioned and they had the results in May. I would like to put up my next chart here.

Basically, what they did is they studied the cause, and I have the study right here. Basically this is the question they are asking: What portion of the increase in premiums is attributable to the effects of guaranteed issue and community rating?

Now I realize there are many popular elements of ObamaCare. The problem is, they cause premiums to skyrocket. That last graph—way above what they would have been without that architectural feature—pricing people out of the market, forcing American taxpayers to pay far more in subsidies than we otherwise would have to do or would be necessary had we never passed ObamaCare.

Well, here is the result of their study. They studied four States: Georgia, Tennessee, Ohio, and Wisconsin. I cannot remember the last one, but I am going to focus on Tennessee.

What this graph shows—I realize it is kind of hard to see—but in Tennessee, between 2013 and 2017, premiums increased $327 per month, from $104 per month to $431 per month, on a nationwide average. That last graph—way above what they would have been without that architectural feature—pricing people out of the market, forcing American taxpayers to pay far more in subsidies than we otherwise would have to do or would be necessary had we never passed ObamaCare.

Now, the good news, if we were honest, if we were courageous, and if we actually addressed the root cause analysis, which has been done, which we have largely ignored, the good news is, you can actually cover people with high costs and preexisting conditions without collapsing insurance markets.

We were earning too much to qualify for the subsidized health coverage at my work either. We play employees at his company which doesn’t pick up milk, and there are only seven entitlements. We need affordable healthcare through Wisconsin.

We were earing too much to qualify for the subsidies, even though we held blue-collar jobs. We would have to pay the entire premium unsubsidized. In 2015, we made $59,000 and ended paying almost $30,000 for premiums and deductibles. That was 51 percent of our income. In covering our deductibles and our out-of-pocket costs, we used up almost all of our savings. And in 2016, my premiums have doubled and my out-of-pocket costs have gone up. So the trend over the next 7 years would be 10 percent above the baseline. The following year it would be 20 percent above the baseline. So it would start decreasing with the Senate bill, and the third year would be 20 percent below baseline. You would see a dramatic drop. You would be at $441 per month. Then the trend over the next 7 or 8 years would be 20 percent below the baseline, $574.

And I will add, parenthetically, also way overpriced because of the faulty architecture of ObamaCare. There aren’t a lot of companies that offer plans in Pierce County. We are kind of in a funnel and that funnel keeps narrowing. In May, I went back to healthcare.gov, but coverage was very limited. They would put premiums that would cost me about $14,400 per year in premiums for a policy with a $14,000 deductible. If you made $200,000, you could pay that, but we are not even close to that, to fully fluctuate between $50,000 and $60,000. We are blue collar. We pay our bills on time, we respect people, and we want to live a good life, and we have just been dumped on. It has got to stop.

One of the problems with CBO scoring is it is difficult to interpret. What this graph shows—I realize it is hard to see—but in Tennessee, between 2013 and 2017, premiums increased $327 per month, from $104 per month to $431 per month, on a nationwide average. The second amendment really relates to exactly what ObamaCare was originally designed to do, which was put Members of Congress in the exact same position of people like Sheri and Vern Kolby.

Back in July of 2009, November 18, as this was being debated in the HELP and the Finance Committee, Senators Coburn and Grassley introduced language to those bills that would make Members of Congress have to purchase their health insurance plans on any kind of program or the State-based exchanges, whatever was passed under the Democrats’ healthcare plan.

On December 24, 2009, the Senate passed the Patient Protection and Affordable Care Act, an Orwellian-named bill that did neither, that had Senator Coburn’s basic language from the HELP Committee that was going to require Members of Congress to purchase their coverage through the exchanges. What was interesting is, it did not include—employer contribution. Those were barred.

On March 24, after the House had passed their version of the Patient Protection and Affordable Care Act and the Healthcare Education Reconciliation Act, Grassley introduced language to those bills that would make Members of Congress have to purchase their healthcare through the State exchanges, and they cannot obtain an employer contribution for those plans.

Let’s fast forward to October 2, 2013. Members of Congress and their staff panicked. They went running to the Obama White House and said: You have to fix this. We know what we passed. We know what the law says, but we have to weasel our way around this—and they did. So the Office of Personnel Management issued a rule, first of all, that Congress was a small business that could purchase their insurance on a shop exchange which required a small business, which is defined in the law as less than 100 employees—I just want you to know that Congress has today 11,000 employees. There is no way this Congress is a small employer, but that was the technique that they were able to work their way around this law. So right now Members of Congress and their staffs are the only Americans who get the special treatment of being able to purchase insurance on ObamaCare exchanges and get an employer contribution.

Millions of Americans did lose their insurance because of ObamaCare. They had to purchase the overpriced insurance policies out of the exchanges, but they have no access to employer contributions. So my second amendment would put only Members of Congress—I don’t think we should penalize our staff—but I want to put Members of Congress in the exact same position as Sheri and Vern and thousands and maybe tens of thousands, maybe hundreds or thousands, millions of Americans who are making too much, who are working 60 hours a week. Their premiums have doubled, sometimes tripled. Coverage is cut in half, and they can’t afford it. They are taking a risk. Congress is still advantaged because they can afford more than $59,000. We are making $174,000.

The reason I am offering this amendment—I know it will not be popular—is that the only way Congress will have the courage to act is if they are affected every bit as much as the American public. I urge all of my colleagues to be honest, to be courageous, and to make sure they do not exempt themselves from the pain, from the damage of ObamaCare, so that they are helping themselves to actually fixing this problem.

Those are my first two amendments that have to do with premiums. I urge my colleagues to support them. I think that they are good amendments and deserve your support.

Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. There are 30 minutes remaining.

Mr. JOHNSON. Mr. President, let me move on to my next point. Again, I come from a State whose Governor showed real courage in recognizing that traditional Medicaid was unsustainable and was in trouble. The last thing we really should be doing to shore up traditional Medicaid is going to be taking the rug out from anyone but simply by allowing it to phase out further enrollment in Medicaid expansion.

Now, you hear about all of this slash-and-burn from the other side of the chamber, and Congress specifically said in the Patient Protection and Affordable Care Act Members of Congress and their staffs must purchase their healthcare through the State exchanges, and they cannot obtain an employer contribution for those plans.

Mr. President, I thank my colleague from Wisconsin, my fellow Senator from Wyoming.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. ENZI. Mr. President, I thank my colleague from Wisconsin, my fellow accountant, for doing a good job of accounting there and providing some charts that very explicitly show what he has been working on, what he has been encouraging people to do, and
rushed it through both Houses of Congress—some solutions.

Earlier this year, Congress took an important first step in fulfilling the promise of our presidential election by passing a budget resolution that paved the way for this debate that we are having right now and paved the way for some real healthcare reforms that we are currently debating. These reforms are focused on reducing the millions of hardworking families who are struggling by ObamaCare’s taxes and mandates.

You heard one example from the Senator from Wisconsin of a family who is paying excruciatingly high prices for their healthcare only to find out that they have $16,000 in deductibles, which makes it very difficult to utilize it at all. Is that insurance, if you have to pay $16,000 before the rest kicks in?

What we are doing here is working to stabilize our insurance markets that have left millions of Americans with no options. We improve the affordability of health insurance. We preserve access to care for Americans who have preexisting conditions while we safeguard Medicaid for those who need it the most. Today, the State of Wisconsin is the only state that is still solvent. We ensure that those who rely on this program will not have the rug pulled out from under them. Most importantly, we liberate the American people from the onerous ObamaCare mandates, giving insurance companies they do not want and/or cannot afford.

Additionally, these bills can reduce the Federal deficit, the amount the Federal Government overspends each year, by billions of dollars. They can also end up saving taxpayers billions more by improving and reforming the way Medicaid operates. These aspects of the bill are enormously important. This will be the first time in a generation that we will have even attempted to reduce the size of these programs and put them on a sustainable path—the ones that are threatening to bankrupt our country—without pulling the rug out from under people, as you saw from the charts by the Senator from Wisconsin.

By reducing spending, lowering the tax burden on hard-working families, and curbing our national debt, which now stands at almost $20 trillion and is on its way rapidly to $29 trillion, we will light a brighter and stable future for our children and our grandchildren. Actually, with that kind of debt, we are almost ensuring a brighter and stable future for ourselves. We are in trouble.

While my colleagues complain about using the reconciliation process to untangle the country from this unworkable, unpopular, and unaffordable law, they should remember that they actually employed the exact same procedure to support the passage of ObamaCare, without having any input or assistance from Republicans, and rushed it through both Houses of Congress in less than a week. Senate Republicans are responsibly utilizing this reconciliation process to address the healthcare crisis that has been thrust upon America by former President Obama and congressional Democrats.

There is also the common misconception that some of my friends across the aisle have promoted that ObamaCare is a runaway success and that repeal will be tearing down a functioning program. This is, simply, not true. My Democratic colleagues know it is not true. Former President Obama knows it is not true, and the American people, certainly, know it is not true.

Here is the reality. ObamaCare has put our health insurance markets on the brink of collapse in many parts of the country. As I pointed out in an earlier speech, that began in October of last year, which was before the elections. It has nothing to do with what has transpired since the elections. ObamaCare put our health insurance markets on the brink of collapse in many parts of the country, and what the Republicans are tackling now is what President Obama and congressional Democrats simply could not bring themselves to do when they had control of this very problem that they had created. This may be because ObamaCare has enshrined their idea that bigger government is better and that any changes, unless done by Executive action under the President, were out of the question.

In their zeal to protect this flawed program, they may have missed it when President Obama himself admitted last year that the law had real problems.

He said:

There are going to be people who are hurt by premium increases or lack of competition and choice.

He went on to say that these problems are simply called “growing pains.”

Now, these growing pains have forced millions of Americans across the country to grapple with impossibly high health insurance premiums for plans they do not want, out-of-pocket deductibles to help with common prescriptions, and disappearing insurance providers to even be allowed to shop for better coverage.

As I noted earlier, for more and more Americans, there is only a single insurer who can offer plans that are reasonably affordable, and they may soon not have a single ObamaCare insurer, as 50 counties already do not have one, and others are threatened. Thousands only have one choice. In fact, on the Federal exchanges, one in five consumers will only be able to select plans from a single insurer. Many residents across the country will have only one choice of health insurer. This includes my home State of Wyoming, as well as the entire State of Alaska.

What does this lack of competition mean? Premiums are surging for hard-working families, who now have to choose between unreasonable insurance rates or an unreasonable fine. If my colleagues wanted yet further evidence that competition lowers prices, they need look no further than their constituent mail.

In Wyoming, some families will be forced to pay more than 30 percent of their income in order to obtain healthcare coverage, which often includes deductibles of over $1,000. One family faced premiums of more than $1,600 a month. As an alternative, their tax penalty for not carrying insurance is only $695. That is a $1,600-a-month premium charge or a $1,700 penalty for not covering it for the whole year.

So guess what they did? They paid the fine because they could not afford the insurance premium, let alone the deductible. I think $5.3 million in fines were collected in Wyoming from the people who could not afford the insurance. They took the lesser alternative of paying a tax penalty, which gave them nothing.

For those who are lucky enough to be able to afford insurance, particularly in the individual market, under the new health law, premiums are expected to increase faster in 2017 than in previous years. Some States will see insurance premiums rise by as much as 55 percent. That is in 1 year. We are talking about a 4-year doubling of cost. This will be a 50-percent cost increase in 1 year. That is truly a healthcare emergency. Not doing anything and accepting the status quo is simply unacceptable to millions of Americans suffering under this law.

Now that we have discussed why we are doing this, it is important to also ask how we hope to help these suffering Americans. It is vital that we stabilize collapsing insurance markets that have left millions of Americans with no options, while reestablishing the affordability of health insurance.

Our bill will also preserve access to care for Americans with preexisting conditions, and it will safeguard Medicaid for those who need it most by giving States more flexibility, yet ensuring that those who rely on this program will not have the rug pulled out from under them—contrary to the scare tactics being put forth by ObamaCare’s defenders.

Most importantly, Congress is working to free the American people from the onerous mandates to purchase insurance they don’t want or can’t afford.

Congressional Republicans and our President are focused on securing the future of Americans’ healthcare system and truly understand the importance of restoring the trust of hard-working taxpayers.

What we are doing here under reconciliation, which is a budget process, will not solve all the problems. There will be an opportunity for an independent investigation, support, and changes if the other side is willing to do that. There are some things that need to be

To that end, I will be offering a motion to waive the point of order on the Hyde amendment protections for the Senate to extend the protections of the Hyde amendment wider than ever before.

After 8 years of a failed social experiment that subverted the will of a majority of Americans and denied rights of conscience and religious freedom, we have an opportunity to ensure that taxpayer dollars will not contribute to the scourge of abortion under any circumstance.

As we consider options to fix our nation’s failing healthcare system, partisan lines cut deeper on abortion than on any other issue. However, we should all be able to agree that taxpayer funds have no place in funding abortions.

I also hope we can agree that our society cannot be truly prosperous until it respects the rights of the most vulnerable among us. If we fail to stand for those who cannot stand for themselves, then the words of our founding documents, the words inscribed in the halls of this building, and the truths we each hold in our hearts mean nothing.

To that end, I will be offering a motion to waive the point of order on the Hyde amendment protections for the Senate to extend the protections of the Hyde amendment wider than ever before.
I think everyone here knows the disabilities story. I will just do a quick summary.

For centuries, people with disabilities have been placed against their will in institutions like this one. This is a building in Pennsylvania. It was opened and operating. It was known as Pennhurst. There were lots of places like this across the country, not just in one or two States. These institutions were, in fact, over time, warehouses, in which people were kept. They were told what time to wake up, what time to go to bed, and when to eat. They were told they could never leave. That was the basic set of rules they lived by when they lived in institutions like that. These were places where choice was unknown and where freedom, liberty, and self-determination were also unknown.

Over the past 50 years, we have made some improvements—slow improvements—with the voices of people with disabilities leading the way throughout those 50 years, individual and families have fought for their freedom and have worked to create laws that protect their freedom.

For example, the 1973 Rehabilitation Act of 1973, the Americans with Disabilities Act affirmed and protected the rights of people with disabilities to have access to all of society. The 1990 Olmstead Supreme Court decision reaffirmed the right of people with disabilities to live where they want to live and to be free of the confines of an institution.

Let’s take it from the institution down to the individual—to individuals like Jensen, who is pictured right here. People like Jensen, who were once forced to live in nursing homes, now live where they want to live and pursue their dreams. Yet we know that rights alone do not equal freedom and liberty for people with disabilities.

Medicaid is the supports that are necessary to live in the community and to have that full measure of freedom and that full measure of choice. Medicaid protects the hard-won rights of people with disabilities to have real choices. Medicaid home-based and community-based supports mean that people with disabilities can live in their own apartments, hold jobs, and contribute to their communities. Medicaid makes it possible to use the talents, skills, and knowledge of people with disabilities. Medicaid makes their rights a reality.

Do not take my word for it. Just ask the people who were here today in the Gallery, the people who are outside this Chamber and are walking the halls of the Senate, walking throughout the buildings, marching, demonstrating, and greeting people on the streets, with some of them staying overnight at one place to make their voices heard. Ask the members of the National Council on Independent Living. Ask the Arc’s 700 affiliates around the country. Ask the folks from Easterseals, the Association of University Centers on Disabilities, the Autistic Self Advocacy Network, and on and on and on—groups across the country that are telling us with one voice: Do not move forward with cuts to Medicaid as have been proposed in each of these bills.

These are the folks that will tell you that their rights are not real without community supports. This bill will drive people back into those institutions that I just showed you a picture of.

In this amendment—which would basically say: Let’s go back to the committee of jurisdiction—in this case, the Finance Committee—and spend some time to have some hearings, have some regular order, which some have called for, and really consider this issue seriously—I know there will be talk that some will reject my amendment and will introduce and maybe have a vote on a sense of the Senate.

There is a time and a place for that kind of action on the floor of the Senate when the Senate speaks with one voice on a matter. This is not one of those times. This is a time when we have to do more than just have a sense of the Senate. We have to be serious about a particular measure where in the case of Medicaid making sure that we protect people with disabilities so that they have all of the rights and all of the promises fulfilled in the Americans with Disabilities Act and other legislation.

So we are hearing that there might be a sense of the Senate offered as a side-by-side to the amendment that I will offer. This is totally inadequate in terms of the serious issue that we are here to talk about—in this case, protecting people with disabilities. It is a totally inadequate response to that. The people with disabilities who are in the Gallery, who are in the reception area, or who are back at home in congressional districts and States—those folks—often the folk closest to the community around the country—want to ensure that the promise that we made to them in the ADA and in other measures will be kept—that we will keep our promise. If Medicaid community-based services are slashed, statements by the Senate will not help very much.

What will we likely have in front of us in the next couple of hours or between today and tomorrow?

I know it has been described in a lot of ways, but one thing we know for sure is that Republicans have not abandoned their Medicaid cuts. They are going to get to that as soon as they can. This is simply what we are going to see over the next couple of hours—a back door to cutting and capping Medicaid—and anyone who believes otherwise is probably deceiving themselves. Anyone who believes otherwise is probably deceiving themselves.

What we need are serious policies crafted to ensure long-term supports and services that provide and guarantee community-based services that promote choice and freedom for people with disabilities. This bill doesn’t promise freedom or liberty. It doesn’t promise the choice to live in a community and to be part of a family, like this family, where one member of that family has a disability and gets to live in a home with other members of the family. That is not possible for many Americans without Medicaid.

For people with disabilities, this bill is anything but a bill that would enhance freedom or enhance choice. This bill would, in fact, be an anti-freedom bill. If they knew the price of that tax giveaway, I think most of them would not want it. They would know that tax giveaway to someone with a lot of money would be to decimate Medicaid.

So passing this version of the bill—passing a scaled-down scheme—means that Republicans have not abandoned their Medicaid cuts. They are going to get to that as soon as they can. This is simply what we are going to see over the next couple of hours—a back door to cutting and capping Medicaid—and anyone who believes otherwise is probably deceiving themselves.

this motion: Senators STABENOW, DUCKWORTH, HASSAN, VAN HOLLEN, MURRAY, BROWN, BLUMENTHAL, CARPER, DURBIN, KAINIE, BALDWIN, WYDEN, MARK, MURPHY, HARRIS, CARDIN, WARREN, HIRONO, REED, NELSON, KLOUCH, WARNER, SHAHEEN, COONS, BENNET, KING, MENEZES, WHITTINGTON, LEAHY, and BOOKER. I want to thank them for joining me in this effort.

Mr. President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. GRAHAM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Louisiana.

Mr. CASSIDY. Mr. President, we are struggling right now to find a replacement for the Affordable Care Act. The American people have voted in four successive elections for such a replacement, culminating in the election of Donald Trump to be President of the United States.

Now, one can ask oneself, if the Affordable Care Act is so great, why would the American people continue to want to have a different program? I think the wisdom of the American people is that they do not want the government to be intrusive in their lives, and secondly, they can see that somehow the Affordable Care Act is not entirely fair, that perhaps there are some who do better under the Affordable Care Act than others. Our country is about equity.

By the way, I am a physician, and for 25 years I have worked in the public hospital system of Louisiana trying to get healthcare for those who otherwise did not have it. I am all about those who do not have insurance or those who are currently insured getting better care. Ultimately, to have better care, there has to be adequate financing for that care. So we begin to look at the numbers that underlie how the Affordable Care Act is not entirely fair, that perhaps there are some who do better under the Affordable Care Act than others. Our country is about equity.

The American people have voted in four successive elections for such a replacement, culminating in the election of Donald Trump to be President of the United States.

Now, I would submit that if we equalize the payments between those States receiving very little, those States receiving a lot more, and those States that are kind of right where they should be. We do this by beginning with a formula that acknowledges that the poorer the people, the more support the person, the higher their medical expenses. So between poverty and age, it is a good starting point about how to divide those dollars. Between 2020 and 2026, we will actually gradually move those high-cost States down, those lower cost States up, and keep those just-about-right States just about right, until at the end, wherever that American lives, she or he is getting the same amount as every other person receiving support across the country.

When we say this—I am a physician. I know that if you have more disease burden in one State, that is a costlier population. If your average age is greater in one State, that is another aspect of a costlier population. We can go through those sorts of factors. So we do put wiggle room at the end, so that if a State is higher cost because they have more disease, they would get a little bit more money. But on the whole, if you net it out, wherever that American lives, she or he would get about the same amount of money.

Senator GRAHAM will go over this in more detail, but it turns out that the average American receiving benefits under the Affordable Care Act—if you combine Medicaid expansion and the tax credits people receive, the average credit is somewhere in the mid-$6,000 range; call it $6,400, $6,500. But if you look in the poor States that are heavy Medicaid States, in Massachusetts, it is about $18,000 per person. Now, that is a lot of money. So if the average is $6,600 and in one State it is $18,000, that is not fair.

Now, I would submit that if we equalize that treatment; if we just treat people fairly; if no matter where you live, the amount you get is not dependent upon the State in which you live but upon your need, then we can actually provide access. We can fulfill President Trump's campaign pledge of continuing benefits can only be taken in those States with preexisting conditions, lowering premiums—lowering premiums—and eliminating mandates.

By the way, it isn't just Republican-represented States that would benefit. We can look at West Virginia. These are some preliminary numbers. West Virginia would receive in 2020 about 43 percent more than they would based upon current trajectories. Indiana would receive 30 percent more. Let's look at Montana. Montana would receive about—my gosh—Montana would receive over 100 percent more than they are currently scheduled to receive.

This takes the money that has already been allocated, and instead of focusing it on three States—there are a few more; call it seven, but those are the States that really bring it home—if, instead of all of this Federal largess going to three States, we distribute it fairly, all Americans can do better. All Americans can do better.

Ultimately, we should be about fairness in this Chamber, not about partisan politics.

Mr. President, let me just talk to my colleagues where I am coming from.

Under the current system—ObamaCare as we know it—the money to help people buy insurance and the money for Medicaid expansion, those two pools of money are 58 percent of the total cost of the Affordable Care Act. If we take that money, and we do away with the mandate, and the power will leave Washington and it will go back to people where they live. It will be healthcare closest to the patient. So if you believe that
government is better—closer to the voter, closer to the people—if the idea of government close to the people is a good idea, I would argue that healthcare closer to the patient is a good idea.

I regret we didn’t think of this sooner.

What Senator Cassidy said is that our goal is to make sure that no matter in what State you live, you are going to get the affluent of dollars and it is going to be fairly equal no matter where you live. If you live in a State with a unique disease problem or an aged State, you will get a little bit more because you will need a little bit more.

The model we have today is really disproportionate. It doesn’t work. It is driving up healthcare costs all over the country. People are dropping coverage because the ObamaCare mandates are too expensive.

So what we are doing is we are levying the taxes on the wealthy in place. To my conservative friends, I am sorry, but that is what we are going to have to do to make this work. We eliminate the individual income tax because that hurts innovation. We eliminate the individual employer mandate because that stifles the whole idea of having creativity at the State level. We leave the taxes on the wealthier Americans in place. We are able to take that money, plus money we would give to insurance companies to stabilize the national market, and block grant it back to the States with a formula that is fairer.

Let me tell my colleagues what that would look like. Let me drill down to what two States do, by the way. California and Massachusetts by themselves are 28 percent of all ObamaCare money and 14 percent of the population.

Let’s look at Alabama. Beginning in 2020, you are going to get 200 percent more. How can that be? It is where you start from. The people in Alabama are going to get much more money because when you look at the money coming through the ObamaCare system to the good people of Alabama and how we spend per patient, you are way behind. You are going to get a lot of money to catch up with what should be the national average.

Our friends in California are going to get a 38 percent reduction, but we are going to give you time to adjust for that. There is going to be a wind-down period. It is not going to happen over night. There will be a fund that can help you if you can prove you have a unique population of people who are sicker and older.

To my good friend from Colorado, you get 42 percent more. How can that be? Under ObamaCare, the money that was going to these four States gets a little higher percentage if you block grant. Not only will you get 42 percent more money than ObamaCare would give the good people of Colorado, you actually get a chance to spend the money unique to the needs of Colorado.

Let’s go to Oklahoma, since we have a guy from Oklahoma here whom we like a lot. You get 200 percent. Congratulations. Why do you get 200 percent? You are starting way behind everybody else. The bottom line is, we want to catch you up beginning in 2020. We are not going to take away from some other people because they are hoggish.

New York, California, we want to help you transition, but the rest of us are not going to sit on the sidelines anymore. You have to make most of the money. We are going to begin to level this out.

Where is South Carolina? I have a unique interest in that State. How did we do? We get 125 percent. That shows you where we start from.

In about 6 years, we are all going to meet. It is going to take 6 or 7 years to level this all out, and we are going to get more. Other States are going to get a little bit less. The ones that are about where you need to be will get about the same.

The big benefit for all of us is, the people in your backyard get to make decisions about healthcare rather than a Washington bureaucrat whom you will never need. The big thing about this to me is, you have a voice now as a consumer.

Right now, if you don’t like your healthcare under ObamaCare, whom do you complain to? Do you complain to your Congressman or your Senator. At the end of the day, most of ObamaCare is administered by the Federal Government through a bureaucracy. We don’t manage healthcare in the Senate.

Under this construct, the same amount of money is going to go back to your backyard, and you will get a better deal if you are starting on the tail end of this now. If you don’t like what is going on in your State, you can actually vote for the people whom you vote for in the statehouse. You can go to your State capital and complain to your Governor.

The likelihood that the person you are complaining to goes to the same hospital as you and your family goes up. Wouldn’t it be nice to be able to complain to somebody who is in the same boat you are who goes to the same healthcare network because they live in your neighborhood?

To me, the most innovative thing we could do in healthcare in America is allow people in their own backyard to design healthcare systems that meet the unique needs of that State and give consumers a voice that really can be heard because, under this model, your statehouse and your Governor are going to have a lot of flexibility. They can’t spend it on roads and bridges. They have to spend it on healthcare.

If they get really efficient, the savings will accrue stays in that State and can be used to help you transition, but the rest of us are going to get roughly the same amount no matter where you live—you are going to get roughly the same amount of money from the Federal Government. The block grant so the people in that State can use it without being dictated to by a Washington bureaucrat as long as it is on healthcare. The biggest thing we give you is a chance to have a voice in your healthcare. The people in charge of your healthcare will be in your own backyard, not in Washington, somebody who doesn’t know you, you will never get to meet, and quite frankly doesn’t understand your world.

I hope we can rally around this. These are not 100 percent done numbers. Generally speaking, this is pretty accurate. It came from the Labor-HHS people. It may change a little bit, but when you start the debate with four States getting 40 percent of the money, clearly most of us are going to get more. When you see these big numbers like our friends in Oklahoma and Montana, the reason you are getting so much more now is that the current system leaves you behind in an unfair way.

My goal is, if you live in Oklahoma, New York, and California, the Federal Government is going to provide healthcare resources as equal as possible, but those resources will be managed by people in the State, not bureaucrats in Washington.

I hope over the coming day and a half that maybe we can rally around an idea that we should have started with to begin with. I don’t mind being generous when it comes to putting money on the table to make sure people can afford healthcare. The tradeoff is as follows. We leave most of the ObamaCare taxes in place because we need a funding stream to level out the inequities. We are going to have a tax cut bill later. I want a flatter tax, a smaller corporate tax, and lower individual taxes, but this revenue stream coming from wealthy Americans is going to be lost.

It is going to provide resources to States that they can manage, unlike ObamaCare where one-size-fits-all.
To me, this is a tradeoff. To the people in West Virginia, I am not asking you to take less and have a tax cut for rich people. We are going to keep the wealthy taxes in place. I am asking the people of West Virginia to take 43 percent more money. It is not a trick. Use it wisely.

Thank you all. I hope over the next day we can inform you about how your State benefits. To those States who are going to have to ramp down, the only reason you are ramping down is you are taking so much more from the rest of us. Quite frankly, that is not fair. We want to be fair to you and give you a chance to adjust, but the rest of us should stand up and say it is not fair that an American in California or New York or Massachusetts—all fine States—gets 40 percent of the money. That is not right.

It is not right to have a one-size-fits-all healthcare system because you will not get the best product. The best product comes from innovation. Your strongest voice will come from having a say to people who live in your same community, talking to a politician who sends their kids to the same hospital you do. That is what this is all about.

With that, I yield the floor.

The PRESIDING OFFICER (Mr. LEE). Time will be equally charged to both sides.

The Senator from Oklahoma.

Mr. INHOFE. Mr. President, I ask unanimous consent that I be recognized in morning business for as much time as I shall consume.

The PRESIDING OFFICER. Is there objection?

Mr. INHOFE. Mr. President, there seems to be some confusion. I will take whatever time you designate is left. I wanted to talk longer.

The things the Senator from South Carolina was talking about are pretty amazing. I have been in Oklahoma. I am sure you know our premiums in the State of Oklahoma under ObamaCare have tripled? They have gone up 201 percent.

When you look and you see the options that are out there, what really disturbs me—I understand one big difference between Democrats and Republicans is Democrats are disciplined, Republicans aren’t, so they are all voting against any kind of a change. I guess they are all in a little bit more of a rush.

The PRESIDING OFFICER (Mr. LEE). The Senator from Oklahoma.

Mr. INHOFE. The Senator from Oklahoma, I am not asking you to take less and have a tax cut for rich people. We are going to keep the wealthy taxes in place. I am asking the people of West Virginia to take 43 percent more money. I am going to keep the individual mandates done away with. It is going to have the taxes reduced. It is going to have block grants going to the States.

Look at my State of Oklahoma. That will increase the amount of money that will be coming in, with less taxes, by 200 percent. If you say, there are a lot of Democrats who would find that in the same situation.

One last note about that, as I go back and I work around the State, I find there are a lot of people who are saying: I don’t like this alternative. I would only say, not just in Oklahoma but anywhere in the Nation, if you oppose what is going to be the alternative, what you are saying is, you would rather have ObamaCare.

COMMENDING ATTORNEY GENERAL SESSIONS

Mr. President, actually, I came to the floor for a different reason. It is probably the most awkward situation I have been in before. Since they cut me down to 8½ minutes, I will have to come back to the floor and embellish a little bit more on my awkward situation. First of all, I believe that we have a President in President Trump who is doing a great job.

I look around and I see what is happening to us. We are now a leader in the States. We are implementing new laws that are going to have block grants. It is going to have the taxes reduced. It is going to have the expansion. It is going to have block grants going to the States. It is not right to have a one-size-fits-all healthcare system because you will not get the best product. The best product comes from innovation. Your strongest voice will come from having a say to people who live in your same community, talking to a politician who sends their kids to the same hospital you do. That is what this is all about.

With that, I yield the floor.

Mr. ENZI. Mr. President, I ask unanimous consent that Senator Enzi or his designee be recognized to offer the Heller amendment No. 288 and that the time until 6:10 p.m. be equally divided in the usual form on the Casey motion to commit and the Heller amendment. I further ask that at 6:10 p.m., the Senate vote in relation to the Casey motion to allow a vote in relation to the Heller amendment, with 2 minutes of debate equally divided in the usual form between the votes.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Delaware.

Mr. ENZI addressed the Chair.

Mr. CARPER. I am happy to yield. The PRESIDING OFFICER. The Senator from Wyoming.

AMENDMENT NO. 288 TO AMENDMENT NO. 267

Mr. ENZI. Mr. President, I call up the Heller amendment No. 288.

The PRESIDING OFFICER. The clerk will report.

The senior assistant legislative clerk read as follows:

The Senator from Wyoming [Mr. Enzi], for Mr. Heller, proposes an amendment numbered 288 to amendment No. 267.

Mr. ENZI. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To express the sense of the Senate that a Medicaid expansion is a priority and that Obamacare must be improved)

At the appropriate place, insert the following:

SENATE—SENSE OF THE SENATE.

It is the Sense of the Senate that—

(1) the committee of jurisdiction of the Senate—

(A) should review the issue of Medicaid expansion and coverage for low income Americans, and the incentives such expansion provides States for certain services;

The PRESIDING OFFICER. The Senator from Wyoming [Mr. Enzi], for Mr. Heller, proposes an amendment numbered 288 to amendment No. 267.

Mr. CARPER. I am happy to yield.

The PRESIDING OFFICER. The Senator from Wyoming.

July 26, 2017

CONGRESSIONAL RECORD — SENATE

S4257

(B) should consider legislation that provides incentives for States to prioritize Medicaid services for individuals who have the greatest medical need, including individuals with disabilities;
(C) should not consider legislation that reduces or eliminates benefits or coverage for individuals who are currently eligible for Medicaid;
(D) should not consider legislation that prevents or discourages a State from expanding its Medicaid program to include groups or individuals or types of services that are operational under current law; and
(E) should not consider legislation that shifts costs to States to cover such care;
(2) premiums or costs may be repealed because it increases health care costs, limits patient choice of health plans and doctors, forces Americans to buy insurance that they do not want, cannot afford, or may not be able to access, and increases taxes on middle class families, which is evidenced by the facts that:
(A) premiums for health plans offered on the Federal Exchange have doubled on average over the last 4 years, and those increases are projected to continue;
(B) premiums or costs have only a few options for Obamacare insurance in 2017, and at least 40 counties are expected to have zero insurers planning on their Exchange for 2018;
(C) premiums or costs on the Exchange are projected to have only one insurer to choose from for plan year 2018; and
(D) the Joint Committee on Taxation has identified significant and widespread tax increases on individuals earning less than $23,000; and
(3) Obamacare should be replaced with patient-centered legislation that:
(A) provides access to quality, affordable private health care coverage for Americans and their families by increasing competition, State, and individual choices;
(B) strengthens Medicaid and empowers States through increased flexibility to best meet the needs of each State’s population.

Mr. ENZI. I thank the Senator for yielding.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. CARPER. I was happy to yield.

Good to see you.

Mr. ENZI. I want to say a few words about ObamaCare. If you ask most people in this country “What is ObamaCare?” my guess is, they probably wouldn’t know. Those who do might think it has something to do with the exchanges that would allow people to have coverage who don’t have coverage on their own. They are not in a large group plan and they are not insured by their employer. They are not covered by Medicaid. They are not covered by Medicare. Maybe they are not a veteran. And 5 or 6 or 7 percent of the people today get their coverage from something called the exchanges.

We have large purchasing pools in each State that are insured by private health insurance. That was not invented by Barack Obama. People call it ObamaCare, but its roots go back well before he was a U.S. Senator, much less before he was President of the United States. The idea of these large purchasing pools in each State—called exchanges—dates back as far as 1993, when the new First Lady, Hillary Clinton, was offering to begin work to find a way to do what I think every President since Harry Truman has tried to do, and that is three things: provide better coverage for people in this country, do so at less cost, and cover everybody. I believe that has been the goal of every President since Harry Truman.

When Lyndon Johnson was President, some notable progress was made with the introduction of Medicare and Medicaid. But there were still a lot of people who, in 1963—in fact, in 2003 and 2008 and they didn’t have healthcare coverage in this country, tens of millions of people.

In 1993, when Hillary Clinton worked on what was called—in some cases derisively—HillaryCare, she and others said to Republicans: Well, where is your idea? What is your idea? At least we have an idea. The Republicans apparently turned to the Heritage Foundation and said: Help us come up with an alternative. And Heritage did. The alternative they came up with was a marketplace, also providing coverage for people. The idea was that in every State across the country, something called an exchange or marketplace would be created, which is really a large purchasing pool for people who don’t have coverage.

So the idea of the exchanges originally suggested by Hillary were introduced in the U.S. Senate by a Republican Senator from Rhode Island named John Chafee, who was a very good man, a marine veteran, a former Governor, and a greatly admired U.S. Senator. He offered legislation to do five things. As far as I can tell, all ideas were suggested by the Heritage Foundation.

No. 1, create purchasing pools in every State. People who didn’t have coverage could buy their coverage as a member of a much larger purchasing pool, and by doing that, bring down the cost of coverage.

The second thing in the Chafee legislation in 1993 was to allow folks who bought their coverage through the exchanges to be eligible for a slight tax credit—the lower their income, the bigger the tax credit. When their income reached a certain level, the tax credit would go away.

The third component of the Chafee proposal—again, going back to Heritage—was the idea of individual mandates. You can’t make people get coverage, but in the case of the Chafee legislation, they had very fine line for people who failed to get coverage. Over time, the amount of that fine would go up. The idea was to make sure that younger, healthier people would get healthcare coverage, and they would sign up for coverage in the exchanges. That way, the insurance companies would have a healthy mix of people to insure. Otherwise, people would wait until they were really sick—they need to go see a doctor, go to the hospital, or have an operation, or whatever it is that the health insurance companies would be left with a tough mix of people to insure. Financially, that would be very challenging for health insurance companies. They said: We need something to ensure that young, healthy people get their coverage through the exchanges.

The fourth piece of the 1993 legislation offered by Senator Chafee said that employers of a certain size, with a certain number of employees, have to cover their employees. You don’t have to cover them 100 percent for their insurance and their family’s insurance, but they have to be covered with insurance and have a small group health insurance through their employer.

The fifth and last piece of ObamaCare, which is really the Heritage Foundation’s idea, was a prohibition against health insurance companies saying to people who have a pre-existing condition—they had to cover people with preexisting conditions in these exchanges.

That is what people think of and call ObamaCare.

Barack Obama is a bright guy. I knew him before he was a U.S. Senator. I knew him when he was a State senator. He didn’t invent it. It was not made up in his head. The source of those ideas was originally the Heritage Foundation. I actually think they are good ideas. I thought they were good ideas then, and I think they are good ideas now.

Somewhere between 1993 and 2009, we debated on this floor the Affordable Care Act including exchanges, tax credits, the individual mandate, the employer mandate, a prohibition against insurance companies not covering people with preexisting conditions—somewhere between 1993 and the debate here in 2009 on the Affordable Care Act, a Governor of Massachusetts said: Why don’t we try to be the first State to provide healthcare coverage for everybody? And they took that Chafee legislation—the Heritage Foundation idea—dusted it off, and turned it into RomneyCare. It actually worked pretty well. They sure covered a whole lot of people in that State who hadn’t been covered before. They covered a lot of people who were not eligible for Medicaid, not eligible for Medicare, maybe not a veteran. They were not receiving coverage from a large group plan, so they now had an option to get coverage in the exchanges.

For those who chose not to in Massachusetts, they then had to pay a fine. As it turns out, it was not a very big fine, and it went up over time but not quickly and not very high. So did some people who were young and healthy get coverage in the exchanges in Massachusetts? Yes. If you asked some of the people who were involved with Governor Romney at that time, they would say that if they had to do it over again, the fine would have started a little bigger and gone up a little faster in order to make sure healthier, insurable people entered into the exchanges for their coverage.

Well, in 2009, we were here on this floor and debating what some people
still call ObamaCare, but it is something else. It is really RomneyCare. It is really ChafeeCare. It is really HeritageCare. But it ain’t ObamaCare. It is a market-based idea to get coverage for people. I think it happens to be a good idea.

Right now, this administration has done their dead level best to destabilize the exchanges. They made it a question of whether the individual mandates will be enforced. If young, healthy people decline to sign up for coverage, will there be a fine they would have to pay? Will it go up over time? This administration has thrown big doubt on that. As a result, a lot of young people haven't signed up. They are not sure they really need to.

We had something in place for a couple of years called CRAs, cost-sharing arrangements. Think, if you will, about people who are buying their healthcare coverage on the exchanges. Their income is under 250 percent of poverty. For them, they have been able to get help paying down their copays and their deductibles when they get their coverage on the exchanges.

What this administration has sought to do is throw doubt on whether those cost-sharing arrangements will continue. What has happened as a result is the health insurance companies, which lost their shirts in 2014, raised premiums, deductibles, and copays. They lost money again in 2015, but less. They raised premiums, deductibles, and copays, and lost money in 2016, but less. Some of them even actually made some money. They were not in a death spiral. According to Standard and Poor's, they were actually coming to a stronger financial position.

Enter into that this administration throwing doubt on whether the exchange are going to be around, the individual mandate is going to be enforced, these cost-sharing reductions are going to be enforced. That is why a lot of the health insurance companies in this country decided they are going to get out in different States. They are not going to offer coverage in a number of States, a number of counties. That is why. Businesses need certainty and they need predictability, and that includes health insurance costs. Frankly, they didn’t have that certainty and predictability.

If we are smart about it, we will hit the “pause” button and maybe before we do anything else, provide the certainty and the stability in the exchanges that are needed. And for the health insurance companies, make sure they will offer coverage without having to fear that they will be back in 2014 and lose their shirts again. That is not why they are in business.

There are three things that need to be done in order to stabilize the exchanges.

The first thing that needs to be done is the individual mandate, which we have by law. It says: If you don’t have healthcare coverage, get your coverage on the exchange. If you choose not to, you have to pay a fine. Over time, that fine goes up.

We need to preserve something that works like the individual mandate—maybe, ideally, the individual mandate as it is, and if we can’t get the votes for that, the something that works at least as well as the individual mandate in making sure people—healthy people too—get their coverage on the exchanges if they are eligible.

The second thing to do is reinsurance. Senator Kaine, myself, and others, including some recovering Governors who serve here in the Senate, have cosponsored legislation that we have described as reinsurance. I am told it has been around forever in the insurance business, and it is one of the reasons the Medicare Part D drug program is successful and works.

The way it works, quite simply, is this: Say an individual who has serious medical problems would have the liability in the exchanges. They first start in 2018. In 2018, 2019, and 2020, for a person who has significant health challenges and is expensive to insure, the first $50,000 of their cost to the insurer in a year would be borne by the Federal Government. Between $50,000 and $500,000 for one individual for one year, the Federal Government would pay 80 percent of that.

It is reinsurance.

For anything over that in those 3 years, 2018 through 2020, the first 3 years, anything between $50 and $500,000, the Federal Government would pay 80 percent.

Starting in 2021 and beyond, the reinsurance payment would continue, but it would be a little bit different. In 2021 and beyond, the first $100,000 of costs incurred by an individual covered by a policy in the exchange—the first $100,000 would be on the insurance company’s side, and anything above $100,000 in one year for that individual, 80 percent of that cost would be borne by the Federal Government. Anything above $500,000 from 2021 and beyond would be borne, again, by the insurance company. It is called reinsurance.

The last piece of the three is to make it clear that these cost-sharing reductions are reduced and make sure that the copays and the deductibles will continue to be subsidized by the Federal Government. It will reduce the out-of-pocket costs for people whose income is below 250 percent of poverty.

If we do those three things, the insurance companies will stabilize the exchanges. They will have a healthy group of people to insure. More insurance companies will come in to provide coverage in States and in counties. More insurance companies providing policies and coverage leads to competition. The competition leads to better quality coverage, and the competition leads to lower prices—lower prices for individuals who are getting their coverage in the exchange and lower prices, we are told, for Uncle Sam. The Federal Government, the costs to the Treasury, will be reduced, as well, if we do these three things.

Again, we are told by the health insurance companies that have been reluctant to stay in the exchanges, if we do those three things, we would reduce the cost of premiums in the exchanges by 25 to 35 percent. That helps individuals get their coverage, and it helps the government, too, in reducing our exposure. I think that makes a lot of sense.

Unfortunately, what our colleagues here on the floor are talking about—and the rumors we hear about is a kind of scheme—doesn’t stabilize the exchanges. It does more to destabilize the exchanges. That isn’t where we need to go.

We need to hit the pause button and say: Let’s stabilize the exchanges, and then let’s revert to regular order. People have ideas on health insurance. Let’s introduce bills. Let’s have hearings with witnesses who come in and say what is good or what is bad. The witnesses could include Governors, health insurance folks, providers, normal people.

Let’s have a debate. Let Members offer amendments in committee, have votes, report the bills out, and eventually bring them here and go through the same thing. We call that regular order. John McCain, in his return speech yesterday—thank God he is back—called again and again for return to regular order. We need to do that, and if we do, we will end up not with a Democratic victory or a Republican victory or a Trump victory, we might win a victory for democracy and actually doing what is right and what needs to be done. That, most of all, is what we need to do.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Hampshire.

MS. HASSAN. Mr. President, I rise today in support of Senator Casey’s motion to strike provisions from TrumpCare that would harm individuals with disabilities by reducing their access to affordable healthcare or limiting coverage or benefits under Medicaid or in the private health insurance market.

Today, as Senator Casey noted, we celebrate the 27th anniversary of the Americans with Disabilities Act, recognizing the enormous contributions that Americans who experience disabilities have made in communities in New Hampshire and across our Nation.

Unfortunately, Senate Republicans are proposing massive cuts to traditional Medicaid, which threaten the support that individuals who experience disabilities need to thrive in their homes, their schools, and their communities.

A few weeks ago, I visited an organization called Granite State Independent Living in Concord, NH. It is a nonprofit that helps individuals with disabilities lead independent lives and have an independent life for themselves. What struck me the most was the consistent theme that I heard over and over from
different people who experience different disabilities. They said that because of services like personal care attendants, transportation help, and other medical supports, they were able to work and live more independent lives.

Many shared their biggest fears about what would happen if they didn’t receive the support—a real possibility if plans to decimate Medicaid go into effect. Their biggest fear is that independence would go away. There were fears of becoming a burden for their families or having family members have to give up their jobs or having to be put in a nursing home because that would be the only way they could survive.

Person after person talked about how much they wanted to contribute to American life—to their communities, to their States, and to our economy. I kept thinking that all of these people were expressing such an American value—lives to roll up their sleeves, do everything they could to make a difference, to be self-sufficient, to be independent.

The ability for Americans who experience disabilities to reach their full potential is at risk with many of these TrumpCare proposals, and just a little while ago on the floor, I heard a discussion that perhaps there might be a proposal put forward on the floor—maybe this evening—that would record a sense of the Senate that the Senate wants to make sure that whatever action it takes will not hurt people with disabilities. It will support people with disabilities.

There is no doubt that a kind word can go a long way on a difficult day, but as someone who has raised a child who has experienced severe disabilities, as someone who has spent a lot of time talking to people with disabilities and their families, I can tell you that sympathy and empathy only go so far.

The people I know who experience disabilities want to do everything they can to support themselves, to be independent, to be able to reach their full potential. There is a difference between charity and justice, and while none of us would ever reject the kindness that so many people demonstrate to people with disabilities, what we really should be working toward is making sure people with disabilities have the same access to education and a workforce that will allow them to have what every American wants, which is an independent life where they are free to chart their own course, support themselves, move forward.

We celebrate the 27th anniversary of the Americans with Disabilities Act today—one of our great moments in this country, as we have reminded ourselves of our Founders’ vision. Our Founders said that every single person counts, and while they didn’t honor that in every way directly at our founding, while they did not count everyone at first, they have had the confidence that every generation of Americans would move forward, bringing in more and more people from the margins into the heart and soul of our democracy, our communities, our economy, and, in doing that, we would unleash the talent and energy of more and more Americans, the last thing we should do is pull the rug out from under those very people by decimating the Medicaid Program that provides them the kind of support that actually allows them to be free, to work hard, to be with their families, to make a difference, to be treated like every other American, to have the rights of every other American, and to feel like every other American.

We can’t afford to go back to the days when we marginalized or didn’t assist some of our most vulnerable people—people who want to participate and contribute to their communities and to the country they love. So I urge my colleagues to vote in favor of Senator Casey’s motion and make clear that individuals with disabilities deserve the right to receive the support they need at home, at school, and in their communities, so they can be free and thrive. Thank you.

Mr. CARDIN. Mr. President, I have listened very carefully to the majority leader and his requests that we come forward and bring amendments to the floor—all of our ideas about how we can improve our healthcare system so that this would be an opportunity to have a discussion that perhaps there might be a proposal put forward on the floor—that would record a sense of the Senate that the Senate wants to make sure that whatever action it takes will not hurt people with disabilities. It will support people with disabilities.

I also am concerned when I see that every one of the bills that have been suggested by the Republicans would reverse the protections that we put in law against the wrong practices—the discriminatory practices—of insurance companies. I have talked to many of my constituents who tell me that if we reimpose caps, either yearly or lifetime—they have the circumstance where their child was born with a disability and that cap would have been lifted years ago because he couldn’t get dental care—Deamonte Driver.

I asked my staff to take a look at preparing amendments to protect the Medicaid system from cuts. I asked my staff to prepare amendments to protect the essential health benefits that are in the Affordable Care Act because it is important that we preserve those benefits, whether it is mental health and addiction services or one that is particularly important to Maryland; that is, pediatric dental. In Maryland, we all recall the loss of a 12-year-old not too many years ago because he couldn’t get dental care—Deamonte Driver.

I asked my staff to take a look at preparing amendments to protect minority health and health disparities because the Affordable Care Act made tremendous advancements in trying to close that gap on the disparities in minority health and health disparities. I asked my staff to take a look at the tax provisions because we want to make sure that we are not giving tax breaks and expense breaks to companies that are cutting the Medicaid system. I asked them to look at this in a lot of different ways.

Listening to the majority leader, I also have introduced legislation that I will talk about that could build on the Affordable Care Act, and I was wondering what bill I should amend? What is the bill that we are considering? Is it not the bill that Senator MCCONNELL brought forward that was defeated? It is not the repeal—and we are starting with a blank slate—because that was defeated. I don’t believe it is the House bill because that has been discredited, called a mean bill by the President, as well as by Members of this body, who said it has no chance of passing. So my dilemma is that I don’t know what I should be amending.

I expect we will get to see another bill somewhere along the process with virtually no notice, any opportunity to read and no opportunity to amend, but the majority leader says I am going to have that opportunity. Yet we don’t know what the bill is that I am supposed to be addressing my amendments to.

We know that all the bills we have seen today—every single one from the Republicans—have been scored by the Congressional Budget Office as to tens of millions of Americans losing their health insurance coverage—tens of millions. I understand it is about 33 million if we just repeal the Affordable Care Act, 22 million if we use the type of replacement that the majority leader was suggesting. All of those move in the wrong direction.

We also know that in every one of these proposals to date, insurance premiums are going to go up, not down. That is one thing I have heard from my constituents. They would like to see us bring down the growth rate of health insurance costs and healthcare, not increase it. So, yes, I would like to be able to offer amendments, but I don’t know what to offer amendments to.
Every one of these proposals—every single one—moves us in the wrong direction in healthcare. We recognize that we can improve our healthcare system. I am for improving our healthcare system. I think we can work together—Democrats and Republicans—to improve our healthcare system.

So here is my request: Vote for the Casey motion. Why? For two reasons. One, I would hope that on this anniversary of the ADA, or the Americans with Disabilities Act, we would want to do no harm to those with disabilities in our healthcare system and they would have adequate coverage. I was in a celebration over the weekend in Baltimore City with the disabilities community. We celebrated one of the great victories in America, the Americans with Disabilities Act—a bipartisan bill, with Democrats and Republicans coming together in a proud moment, in the best traditions of the Senate, to say we are uninsured and we will be treated fairly in America. On this day we should adopt the Casey motion on the issue of protecting people with disabilities.

But there is a second issue here. The PRESIDING OFFICER. The Senator’s time has expired.

Mr. CARDIN. Mr. President, I ask unanimous consent to speak for 2 additional minutes.

Mr. CARDIN. I will try to conclude my remarks. On this day that we are celebrating the anniversary of the Americans with Disabilities Act, let’s do right by that. This is one example of the real stories behind the numbers, and I want to do everything I can to make sure they are protected and their coverage is not threatened. I want to make sure their daughter has healthcare coverage today and tomorrow.

Medicaid also plays a crucial role in Nevada when it comes to covering the elderly and people with disabilities. More than 30,000 of Nevada’s seniors receive healthcare through Medicaid, including nursing home care and services that they cannot afford at home. In fact, more than half of Nevada’s nursing home residents are covered by Medicaid. Nearly 50,000 people with disabilities in Nevada now have access to care that helps them live independently, thanks to Medicaid.

Karen from Henderson recently contacted me and said that her adult son has MS and depends on Medicaid to help cover the cost of his medication, which costs $300 per month. Without Medicaid, he wouldn’t be able to afford it.

One Nevadan traveled all the way from Las Vegas to talk with me about her two sons with cystic fibrosis. She is worried about any legislation that would jeopardize access to care for people with rare illnesses like hers, as the ones her sons are struggling with.

In total, over 631,000 people in Nevada are covered by the Medicaid Program. That is low-income children, pregnant women, seniors, and people with disabilities. It is why I have said since the beginning of the healthcare debate, that I will only support a solution that protects Nevada’s most vulnerable. The House bill didn’t go far enough to do that, and neither did the Senate’s bill, and that is why I voted against it last night.

Nevada faces unique challenges when it comes to healthcare. I have spent the past few months trying to find ways for our Nevada neighbors who depend on Medicaid and provide coverage for those with preexisting conditions, all the while bringing down costs and improving quality and access to care. I have also been having discussions with Nevadans in Washington and back home to hear from them how potential changes could impact their care.

Whether it is a mom in Reno who has a son with a heart condition and is terrified of the future of his treatments, or a Nevada’s who depend on Medicaid and provide coverage for those with preexisting conditions, all the while bringing down costs and improving quality and access to care. I have also been having discussions with Nevadans in Washington and back home to hear from them how potential changes could impact their care.

Make no mistake, ObamaCare needs fixing. It has led to higher costs and fewer choices in my State. For the past 7 years, I have said that we need more competition to drive down costs and increase competition for Nevadans. My discussions with Nevadans in Washington and Reno have also allowed me the opportunity to hear from them how potential changes could impact their care. I believe we can achieve these goals while recognizing the role that Medicaid plays in our States and ensuring that those who have coverage today are protected.

My role as a Senator is doing the very best I can for my State, and that means standing up for Nevadans who depend on Medicaid. We are having this debate because I do believe there are commonsense solutions that can improve our healthcare system, and I voted to give us the opportunity to have that discussion and to fight for them. But, as I have said all along, we have to be balanced on the backs of Nevada’s low-income families and sickest individuals. That is something I cannot and I will not stand for.

We can work to find a way to lower costs, increase choices, and improve the quality of care for Nevadans everywhere, but we can do it in a way that also protects our most vulnerable. That is why for the past few months I have been working with my colleagues in the Senate to find the unique challenges expansion States face, and we have been fighting for solutions that will protect those who currently rely on the Medicaid Program. It hasn’t been easy, but that is the way it has to be.

I am here to roll up my sleeves, get to work, and fight for policies that will be in the best interests of all Nevadans. So I encourage my colleagues to support this amendment, Heller No. 288, the Motion Protecting People with Disabilities in our States. We have much work ahead of us to do to improve the healthcare system for Nevadans and Americans across this country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Illinois.

Ms. DUCKWORTH. Mr. President, I speak in support of Senator CASEY’s motion protecting people with disabilities.

It is appalling that the Republican Party is working to strip healthcare from the disability community on the very anniversary of the day when we passed monumental legislation that improved the lives of Americans with disabilities.

It was 27 years ago that the Americans with Disabilities Act—one of the most important pieces of legislation of our time—was signed into law, and it is a shame that as we celebrate our great accomplishment, we are moving backward rather than building on the progress our community has worked so hard on to make it so Americans with disabilities can live healthy, productive, independent lives. We cannot afford to move backward, and I will not sit quietly by and let that happen and neither will my constituents.

I have heard from thousands of Illinoisans who are struggling to understand why lawmakers are considering ripping away the care that is keeping them alive and allowing them to be independent and productive members of our community. I want to share just one of their stories with you.

It is about a woman by the name of Jessica Baker, from Mascoutah, IL. Nearly 10 years ago, when she was a healthy and young 19-year-old, her entire life changed. Jessica was driving on the highway on a foggy morning. Because of the lack of visibility on the rural road, a truckdriver ahead of her ran through two cars. Jessica, just feet behind the truck, never saw the brake light go off. She struck that semi-truck and became part of a 20-car pile-up. This young, healthy woman’s life completely changed.

Jessica is now 29 years old and is a quadriplegic. She depends on Medicaid for her healthcare needs. She is living an independent life and has done well under the ACA. Now she fears she will lose her care that the law has helped her to receive. Jessica was a healthy, vital person whose life changed in an instant.

I understand how that feels. I went from being a soldier—one of the most physically fit people— to becoming wheelchair bound. So many of our brave men and women take that risk every single day, and we must be completely honest with ourselves as any American’s life can be cut short at any moment. The healthy can become sick, and the able-bodied can become disabled in a single moment. Any one of us can end up at the mercy of our healthcare system.

After her accident, Jessica had to fight to stay alive and have the care she needed to live as a thriving young person. Now Senate Republicans and President Trump are threatening her life by eliminating her access to care. As proud as I am to be a part of the Senate Chamber, which passed the monumental ADA, I am also appalled by what the Republicans in this body are doing today.

Yesterday’s vote to proceed on a debate on a bill that would rob tens of thousands of Americans of their care is utterly shameful. It would jeopardize a program that 1 in 10 veterans, 2 out of 3 nursing home residents, and children with autism, Down syndrome, and special needs depend on. That is simply unacceptable. Senate Republicans have done everything they can to hide their legislation from the American people, crafting it in secret, behind closed doors. However, one thing remains clear; that the fight to protect healthcare is far from over.

This is the time for the American people to keep speaking up, to make their voices heard, and Senate Republicans must listen. They must listen to their constituents and to the most vulnerable among us, like the members of the disability community who have been here day after day, literally, fighting for their lives. Day after day, I see people who come into my office who say: Save me. Save my child. Save my grandma. Save my family. That is why I am working every single day to not only push back against these Republican efforts to strip away care from those who need it the most.
but also to bring people together on commonsense improvements to our current healthcare system. We cannot be a nation that says: If you are sick or ill, we are going to leave you behind. That is simply not who we are. We are the greatest democracy on the face of the earth and we do not leave our most vulnerable behind.

Thank you.

The PRESIDING OFFICER (Mr. Tillis). The Senator from Pennsylvania.

Mr. CASEY. Mr. President, I know the Chair said I may speak for a few minutes before the vote. I spoke earlier so I will not reiterate every argument.

Really, what we are doing with this particular amendment is sending this legislation to the Finance Committee so as to focus it as the motion itself says: When this bill would be recommitted to the Finance Committee, the Finance Committee could examine it from there. So, in this case, people with disabilities and to focus on changes that could be made in order to prevent harm to individuals with disabilities as defined in the Americans with Disabilities Act of 1990.

The reason we mention that particularly is that it is the seminal piece of legislation to protect people with disabilities who would be harmed by this legislation because you cannot just have rights that are guaranteed without the support for those rights. Medicaid provides that support. So folks, if they want to live at home or if they want to live in a community-based setting, can do that, but they can only do that with the help of Medicaid. It is a pretty simple amendment to make sure there is some adequate review of the impact on Americans with disabilities.

We have, in Pennsylvania, for example, over 720,000 people who have a disability and depend upon Medicaid. I want to make sure every one of those Pennsylvanians has all of the protections we say we are guaranteeing with disability legislation—with laws like the Americans with Disabilities Act and with the protections Medicaid provides.

This is critically important. At a time when we are talking about freedom and liberty in the context of healthcare, I would hope we would take steps to guarantee that freedom and liberty apply to those with disabilities so that the Americans with Disabilities Act has enshrined in our law, they may be able to choose the kind of places they want to live and choose the settings within which they want to live their lives, to be able to have the freedom to choose that by way of the support they get from Medicaid. I hope that is something that is reasonable enough so as to get support from both sides of the aisle.

I know my friend from Nevada is offering a sense in the next vote, but I just do not think that a sense of the Senate, in any way, is commensurate with the gravity of this problem. There is a time and a place for a sense of the Senate—when we are expressing a sentiment that is bipartisan—but we need more than sentimentality here. We need more than good wishes. We need to make sure we get this policy right as it relates to people with disabilities.

Mr. President, I yield the floor. The PRESIDING OFFICER. All time has expired.

VOTE ON MOTION TO COMMIT

The question occurs on agreeing to the Casey motion to commit. The order of the amendment violates section 313(b)(A) of the Congressional Budget Act of 1974.

I am glad that the Senator from Nevada is concerned about Medicaid, but I would remind the Senate that yesterday the vast majority of Americans voted to throw 15 million people off of Medicaid on their way to end health insurance for 22 million Americans.

Our job as a nation is to guarantee healthcare to every man, woman, and child and join the rest of the industrialized world, not throw disabled children off of the healthcare they currently have.

I urge a “no” vote.

Mr. President, I raise a point of order that the pending amendment violates section 313(b)(A) of the Congressional Budget Act of 1974. The PRESIDING OFFICER. The Senator from Nevada.

Mr. HELLER. Mr. President, pursuant to section 904 of the Congressional Budget Act of 1974 and the waiver provisions of applicable budget resolutions, I move to waive all applicable sections of that act and applicable budget resolutions for purposes of amendment No. 288 and, if adopted, for the provisions of the adopted amendment included in any subsequent amendment to H.R. 1628 and any amendment between Houses or conference report thereon, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The motion was rejected.

AMENDMENT NO. 288

The PRESIDING OFFICER. There is now 2 minutes equally divided before the vote on the Heller amendment.

The Senator from Nevada.

Mr. HELLER. Mr. President, I have an amendment at the desk that would express the importance of Medicaid in our individual States. I would like to read from it two provisions that I think are important to this whole body; that is, the Senate prioritizes “Medicaid services for individuals who have the greatest medical need, includ-
The PRESIDING OFFICER (Mrs. Ernst). On this vote, the yeses are 10, the nays are 90.

Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The point of order is sustained and the amendment falls.

The PRESIDING OFFICER. The majority shall move to reconsider the amendment.

Mr. MCCONNELL. I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment, as modified, is as follows:

(Purpose: To provide for comprehensive health insurance coverage for all United States residents, improved health care delivery, and other purposes.)

Strike all after the first word and, insert the following:

SEC. 2. DEFINITIONS AND TERMS.

In this Act:

(a) MEDICARE FOR ALL PROGRAM; PROGRAM.—The terms “Medicare For All Program” and “Program” mean the program of benefits provided under this Act and, unless the context otherwise requires, the Secretary with respect to functions relating to carrying out such provisions.

(b) NATIONAL BOARD OF UNIVERSAL QUALITY AND ACCESS.—The term “National Board of Universal Quality and Access” means such Board established under section 305.

(c) REGIONAL OFFICE.—The term “regional office” means a regional office established under section 307.

(d) SECRETARY.—The term “Secretary” means the Secretary of Health and Human Services.

(e) DIRECTOR.—The term “Director” means the Director appointed under section 301.

TITLE I—ELIGIBILITY AND BENEFITS

SEC. 101. ELIGIBILITY AND REGISTRATION.

(a) IN GENERAL.—All individuals residing in the United States (including any territory of the United States) are covered under the Medicare For All Program entitling them to a universal, best quality standard of care. Each such individual shall receive a card with a unique number in the mail. An individual’s Social Security number shall not be used for purposes of registration under this section.

(b) REGISTRATION.—Individuals and families shall receive a Medicare For All Program Card in the mail, after filling out a Medicare For All Program application form at a health care provider. Such application form shall be no more than 2 pages long. No clinician shall convert for-profit providers of care that convert to non-profit status shall remain privately owned and operated entities.

(c) COMPENSATION.—The Secretary shall promulgate a rule that provides criteria for determining residency for eligibility purposes under the Medicare For All Program.

(d) RESIDENCY CRITERIA.—The Secretary shall promulgate a rule that provides criteria for determining residency for eligibility purposes under the Medicare For All Program.

(e) COVERAGE FOR VISITORS.—The Secretary shall promulgate a rule regarding visitors from other countries who seek premeditated non-emergency surgical procedures. Such a rule should facilitate the establishment of country-to-country reimbursement arrangements or self pay arrangements between the visitor and the provider of care.

under disciplinary action in any State may be a participating provider.

(c) Participation of Health Maintenance Organizations.—

(1) PROHIBITION.—Non-profit health maintenance organizations that deliver care in their own facilities and employ clinicians on a salaried basis may participate in the program and receive annual global budgets or capitation payments as specified in section 202.

(2) Exclusion of Certain Health Maintenance Organizations.—Other health maintenance organizations which principally contract to pay for services delivered by non-employees shall be classified as insurance plans. Such organizations shall not be participating providers, and shall be subject to the regulations promulgated by reason of section 104(a) (relating to prohibition against duplicating coverage).

3. Patients shall have free choice of participating physicians and other clinicians, hospitals, and inpatient care facilities.

SEC. 104. PROHIBITION AGAINST Duplicating Coverage.

(a) In General.—It is unlawful for a private health maintenance organization to offer health insurance coverage that duplicates the benefits provided under this Act.

(b) Construction.—Nothing in this Act shall be construed as prohibiting the sale of health insurance coverage for any additional benefits not covered by this Act, such as for cosmetic surgery or other services and items that are not medically necessary.

TITLE II—FINANCES

Subtitle A—Budgeting and Payments

SEC. 201. BUDGETING PROCESS.

(a) Establishment of Operating Budget and Capital Expenditures Budget.

(1) IN GENERAL.—To carry out this Act there are established on an annual basis consistent with this title—

(A) an operating budget, including amounts for optimal physician, nurse, and other health care professional staffing;

(B) a capital expenditures budget;

(C) reimbursement levels for providers consistent with subtitle B; and

(D) a health professional education budget, including amounts for the continued funding of resident physician training programs.

(2) Regional Director.—After Congress appropriates amounts for the annual budget for the Medicare For All Program, the Director shall provide the regional offices with an annual budget that reflect the costs of each region’s expenditures. Such allotment shall cover global budgets, reimbursements to clinicians, health professional education, and capital expenditures. Regional offices may receive additional funds from the national program at the discretion of the Director.

(b) Operating Budget.—The operating budget shall be used for—

(1) payment for services rendered by physicians and other clinicians;

(2) global budgets for institutional providers;

(3) capitation payments for capitated groups; and

(4) administration of the Program.

(c) Capital Expenditures Budget.—The capital expenditures budget shall be used for funds needed for—

(1) the construction or renovation of health facilities; and

(2) for major equipment purchases.

(d) Prohibition Against Co-Mingling Operations and Capital Improvement Funds.—It is prohibited to use funds under this Act that are earmarked—

(1) for operating capital expenditures; or

(2) for capital expenditures for operations.

SEC. 202. PAYMENT OF PROVIDERS AND HEALTH CARE CLINICIANS.

(a) Establishing Global Budgets; Monthly Lump Sum.

(1) In General.—The Medicare For All Program, through its regional offices, shall pay each institutional provider of care, including hospitals, nursing homes, community or migrant health centers, home care agencies, or other institutional providers or pre-paid group practices, a monthly lump sum to cover all operating expenses under a global budget.

(2) Establishment of Global Budgets.

The global budget of a provider shall be set through negotiations between providers, State directors, and regional directors, but are subject to the approval of the Director. The budget shall be negotiated annually, based on past expenditures, projected changes in levels of services, wages and input, costs, a provider’s maximum capacity to provide care, and proposed new and innovative programs.

(b) Three Payment Options for Physicians and Certain Other Health Professionals.

(1) In General.—The Program shall pay physicians, dentists, doctors of osteopathy, pharmacists, psychologists, chiropractors, nurse practitioners, nurse midwives, physicians’ assistants, and other advanced practice clinicians as licensed and regulated in States by the following payment methods:

(A) Fee for service payment under paragraph (2).

(B) Salaried positions in institutions receiving global budgets under paragraph (3).

(C) Salaried positions within group practices or non-profit health maintenance organizations receiving capitation payments under paragraph (4).

(2) Fee for Service.

(A) In General.—The Program shall negotiate a fee schedule that is fair and optimal with representatives of physicians and other clinicians, after close consultation with the National Board of Universal Quality and Access and regional and State directors. Initially, the current prevailing fees or reimbursement would be the basis for the fee negotiation for all professional services under this Act.

(B) Considerations.—In establishing such schedule, the Director shall take into consideration the following:

(i) The need for a uniform national standard.

(ii) The goal of ensuring that physicians, medical professionals, and other medical professionals be compensated at a rate which reflects their expertise and the value of their services, regardless of geographic region and past fee schedules.

(c) State Physician Practice Review Boards.—The State director for each State, in consultation with representatives of the physician community of that State, shall establish an independent physician practice review board to assure quality, cost-effectiveness, and fair reimbursements for physician delivered services.

(d) Final Guidelines.—The Director shall be responsible for promulgating final guidelines to all providers.

(E) Billing.—Under this Act physicians shall submit bills to the regional director on a simple form, or via computer. Interest shall be paid to providers who are not reimbursed within 30 days of submission.

(F) No Reimbursement.—Licensed health care clinicians who accept any payment from the Medicare For All Program may not bill any patient for any covered service.

(G) Uniform Computer Billing System.—The Director shall create a uniform computerized electronic billing system, including those areas of the United States where electronic billing is not yet established.

3. Salaries within Institutions Receiving Global Budgets.

(a) In General.—In the case of an institution, such as a hospital, health center, group practice, community and migrant health center, or home care agency, a monthly lump sum shall be paid a monthly global budget for the delivery of health care as well as for education and prevention programs, physicians and other clinicians employed by such institutions shall be reimbursed through a salary included as part of such a budget.

(b) Salary Range.—Salary ranges for healthcare providers or other professionals shall be determined in the same way as fee schedules under paragraph (2).

(c) Salaries within Capitated Groups.—

(A) In General.—Health maintenance organizations, group practices, and other institutions may elect to be paid capitation payments to cover all outpatient, physician, and medical home care provided to individuals enrolled to receive benefits through the organization or entity.

(B) Scope.—Such capitation may include the cost of service to physicians and other licensed, independent practitioners provided to inpatients. Other costs of inpatient and institutional care shall be excluded from capitation payments and shall be covered under institutions’ global budgets.

(d) Prohibition of Selective Enrollment.—Patients shall be permitted to enroll or disenroll from such organizations or entities without discrimination and with appropriate notice.

(E) Health Maintenance Organizations.—Under this Act—

(i) health maintenance organizations shall be required to reimburse physicians based on a capitation rate; and

(ii) financial incentives between such organizations and physicians based on utilization are prohibited.

SEC. 203. PAYMENT FOR LONG-TERM CARE.

(a) Allotment for Regions.—The Program shall provide for each region a single budgetary allotment to cover a full array of long-term care services under this Act.

(b) Regional Budgets.—Each region shall provide a global budget to local long-term care providers for the full range of needed services, including inpatient, nursing home, and community care-based.

(c) Basis for Budgets.—Budgets for long-term care services under this section shall be based on past expenditures, financial and clinical performance, utilization, and projected changes in service, wages, and other related factors.

(d) Favoring non-Institutional Care.—All efforts shall be made under this Act to provide long-term care in a home- or community-based setting, as opposed to institutional care.

SEC. 204. MENTAL HEALTH SERVICES.

(a) General.—The Program shall provide coverage for all medically necessary mental health care on the same basis as the coverage for other conditions. Licensed mental health clinicians shall be paid in the same manner as specified for other health professionals, as provided for in section 202(b).

(b) Favoring Community-Based Care:—The Medicare For All Program shall cover in-person, in-office, telephonic, videoconferencing, and ongoing mental health and counseling services outside the hospital for patients with serious mental illness. In all cases the highest quality and most effective care shall be delivered, and, for some individuals, this may mean institutional care.
SEC. 205. PAYMENT FOR PRESCRIPTION MEDICATIONS, MEDICAL SUPPLIES, AND MEDICALLY NECESSARY ASSISTIVE EQUIPMENT.

(a) NEGOTIATED PRICES.—The prices to be paid each year under this Act for covered pharmaceuticals, medical supplies, and medically necessary assistive equipment shall be negotiated annually by the Program.

(b) PRESCRIPTION DRUG FORMULARY.—

(1) IN GENERAL.—The Program shall establish a prescription drug formulary, which shall encourage best-practices in prescribing and discourage the use of ineffective, or excessively costly medications when better alternatives are available.

(2) PROMOTION OF USE OF GENERICS.—The formulary shall promote the use of generic medications but allow the use of brand-name and off-formulary medications.

(3) FORMULARY UPDATES AND PETITION HIGHERS.—The formulary shall be updated frequently and clinicians and patients may petition their region or the Director to add new pharmaceuticals or to remove ineffective or dangerous medications from the formulary.

SEC. 206. CONSULTATION IN ESTABLISHING REIMBURSEMENT LEVELS.

Reimbursement levels under this subtitle shall be set after close consultation with regional and State Directors and after the annual meeting of National Board of Universal Quality and Access.

Subtitle B—Funding

SEC. 211. OVERVIEW: FUNDING THE MEDICARE FOR ALL PROGRAM.

(a) IN GENERAL.—The Medicare For All Program is to be funded as provided in subsection (c)(1).

(b) MEDICARE FOR ALL TRUST FUND.—There shall be established a Medicare For All Trust Fund in which funds provided under this Act are deposited and from which expenditures under this Act are made.

(c) FUNDING.—

(1) IN GENERAL.—There are appropriated to the Medicare For All Trust Fund amounts sufficient to carry out this Act from the following sources:

(A) Existing sources of Federal Government revenues for health care.

(B) Increasing personal income taxes on the top 5 percent income earners.

(C) Institutionalizing a modest and progressive excise tax on payroll and self-employment income.

(D) Instituting a modest tax on unearned income.

(E) Instituting a small tax on stock and bond transactions.

(2) SYSTEM SAVINGS AS A SOURCE OF FINANCING.—Funding otherwise required for the Program is reduced as a result of—

(A) vastly reducing paperwork;

(B) requiring a rational bulk procurement of medications under section 20(a); and

(C) improved access to preventive health care.

(3) ADDITIONAL ANNUAL APPROPRIATIONS TO MEDICARE FOR ALL PROGRAM.—Additional sums are authorized to be appropriated annually as needed to maintain maximum efficiency and access under the Program.

SEC. 212. APPROPRIATIONS FOR EXISTING PROGRAMS.

Notwithstanding any other provision of law, transfers are forthrightly appropriated to carry out this Act, amounts from the Treasury equivalent to the amounts the Secretary estimates would have been appropriated to Federal public health care programs, including funds that would have been appropriated under the Medicare program under title XVIII of the Social Security Act, under the Medicaid program under title XIX of such Act, and under the Children's Health Insurance Program under title XXV of such Act.

TITLE III—ADMINISTRATION

SEC. 301. PUBLIC ADMINISTRATION; APPOINTMENT OF DIRECTOR.

(a) IN GENERAL.—The Director of the Medicare For All Program shall have the responsibilities of a State’s insurance commissioner with respect to medical care and as otherwise specifically provided, this Act shall be administered by the Director through a Director appointed by the Secretary.

(b) LONG-TERM CARE.—The Director shall appoint a director for long-term care who shall be responsible for administration of this Act and ensuring the availability and accessibility of high quality long-term care services.

(c) MENTAL HEALTH.—The Director shall appoint a director for mental health who shall be responsible for administration of this Act and ensuring the availability and accessibility of high quality mental health services.

SEC. 302. OFFICE OF QUALITY CONTROL.

The Director shall appoint a director for an Office of Quality Control. Such director shall, after consultation with State and regional directors, provide annual recommendations to Congress, the President, the Secretary, and other Program officials regarding how health care may be improved and the quality of health care service delivery. The director of the Office of Quality Control shall conduct an annual review on the adequacy of medically necessary services and shall make recommendations of any proposed changes to the Congress, the President, the Secretary, and other Medicare For All Program officials.

SEC. 303. REGIONAL AND STATE ADMINISTRATION; EMPLOYMENT OF DISPLACED WORKERS.

(a) ESTABLISHMENT OF MEDICARE FOR ALL PROGRAM REGIONAL OFFICES.—The Secretary shall establish and maintain Medicare For All regional offices for the purpose of distributing funds to providers of care. Whenever possible, the Secretary should incorporate pre-existing Medicare infrastructure for this purpose.

(b) APPOINTMENT OF REGIONAL AND STATE DIRECTORS.—In each such regional office there shall be—

(1) one regional director appointed by the Director; and

(2) for each State in the region, a deputy director (in this Act referred to as a “State Director”) appointed by the governor of that State.

(c) REGIONAL OFFICE DUTIES.—Regional offices of the Program shall be responsible for—

(1) coordinating funding to health care providers and physicians; and

(2) coordinating billing and reimbursements with physicians and health care providers through a State-based reimbursement system.

(d) STATE DIRECTOR'S DUTIES.—Each State Director shall be responsible for the following duties:

(1) Providing an annual State health care needs assessment report to the National Board of Universal Quality and Access, and the regional board, after a thorough examination of health needs, in consultation with public health officials, clinicians, patients, and patient advocates.

(2) Health planning, including oversight of the placement of new hospitals, clinics, and other health care facilities.

(3) Health planning, including oversight of the purchase and placement of new health equipment to ensure timely access to care and the availability of such equipment.

(4) Submitting global budgets to the regional director.

(5) Recommending changes in provider reimbursement or payment for delivery of health services in the State.

(6) Establishing a quality assurance mechanism in the State in order to minimize both under utilization and over utilization and to assure that all providers meet high quality standards.

(7) Reviewing program disbursements on a quarterly basis recommending needed adjustments in fee schedules needed to achieve budgetary targets and assure adequate access to care.

(e) FIRST PRIORITY IN RETRAINING AND JOB PLACEMENT 2 YEARS OF SALARY PARTLY BENEFITS.—The Secretary shall establish a Trust Fund from which expenditures shall be made to recipients of the benefits allocated in subsection (e).

(f) ANNUAL APPROPRIATIONS TO MEDICARE FOR ALL EMPLOYMENT TRANSITION FUND.—Sums are authorized to be appropriated annually as needed to fund the Medicare For All Employment Transition Benefits.

(g) RETENTION OF RIGHT TO UNEMPLOYMENT BENEFITS.—Nothing in this section shall be interpreted as a waiver of Medicare For All Employment Transition benefit recipients’ right to receive Federal and State unemployment benefits.

SEC. 304. CONFIDENTIAL, ELECTRONIC PATIENT RECORD SYSTEM.

(a) IN GENERAL.—The Secretary shall create a standardized, confidential electronic patient record system in accordance with laws and regulations to maintain accurate patient records and to simplify the billing process, thereby reducing medical errors and bureaucracy.

(b) PATIENT OPTION.—Notwithstanding that all billing shall be preformed electronically, patients shall have the right to keep any portion of their medical records separate from their electronic medical record.

SEC. 305. NATIONAL BOARD OF UNIVERSAL QUALITY AND ACCESS.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established a National Board of Universal Quality and Access consisting of 15 members appointed by the President, by and with the advice and consent of the Senate.

(b) QUALIFICATIONS.—The appointed members of the Board shall include at least one of each of the following:

(A) Health care professionals;

(B) Representatives of institutional providers of health care;

(C) Representatives of health care advocacy groups;

(D) Representatives of worker unions;

(E) Citizen patient advocates.

(3) TERMS.—Each member shall be appointed for a term of 6 years, except that the President shall stagger the terms of members initially appointed so that the term of no more than 3 members expires in any year.

(4) PROHIBITION ON CONFLICTS OF INTEREST.—No member of the Board shall have a financial conflict of interest with the duties before the Board.
S4266

CONGRESSIONAL RECORD — SENATE

July 26, 2017

(b) Duties.—
(1) In general.—The Board shall meet at least twice per year and shall advise the Secretary and the Director on a regular basis to ensure that health care delivery facilities are reliable and affordable.

(2) Specific issues.—The Board shall specifically address the following issues:
(A) Access to care.
(B) Quality improvement.
(C) Efficiency of administration.
(D) Adequacy of budget and funding.
(E) Appropriateness of reimbursement levels of physicians and other providers.
(F) Capital expenditure needs.
(G) Long-term care.
(H) Mental health and substance abuse services.
(I) Staffing levels and working conditions in health care delivery facilities.
(J) Establishment of universal, best quality standard of care.—The Board shall specifically establish a universal, best quality standard of care with respect to:
(1) (A) appropriate staffing levels;
(2) (B) appropriate medical technology;
(3) (C) design and scope of work in the health workplace;
(4) (D) best practices; and
(E) salary level and working conditions of physicians, clinicians, nurses, other medical professionals, and appropriate support staff.

(3) Establishment of universal, best quality standard of care.—The Board shall specifically establish a universal, best quality standard of care with respect to:
(A) Access to care.
(B) appropriate medical technology;
(C) design and scope of work in the health workplace;
(D) best practices; and
(E) salary level and working conditions of physicians, clinicians, nurses, other medical professionals, and appropriate support staff.

(4) Twice-a-year report.—The Board shall report its recommendations twice each year to the Secretary, the Director, Congress, and the President.

(c) Compensation, etc.—The following provisions of the Social Security Act shall apply to the Board in the same manner as they apply to the Medicare Payment Assessment Commission (except that any reference to the Commission or the Comptroller General shall be treated as references to the Board and the Secretary, respectively):
(1) Subsection (c)(4) (relating to compensation of Board members).
(2) Subsection (c)(5) (relating to chairman and vice chairman).
(3) Subsection (c)(6) (relating to meetings).
(4) Subsection (d) (relating to director and staff; experts and consultants).
(5) Subsection (e) (relating to powers).

TITLE IV—ADDITIONAL PROVISIONS

SEC. 401. TREATMENT OF VA AND HIS HEALTH PROGRAMS.

(a) VA Health Programs.—This Act provides for health programs of the Department of Veterans’ Affairs to initially remain independent of the Secretary of the Treasury. After such 18-month period that begins on the date of the enactment of this Act, and shall apply to items and services furnished on or after such date.

(b) VA Health Programs.—This Act provides for health programs of the Department of Veterans’ Affairs to initially remain independent of the Secretary of the Treasury. After such 18-month period that begins on the date of the enactment of this Act, and shall apply to items and services furnished on or after such date.

(c) Additional Provisions.—This Act includes the Affordable Care Act in the first place, holding public hearings and meetings with both Democrats and Republicans around the table. The Affordable Care Act included well over 150 Republican amendments. Yet they refused to work with us on our final passage of the law and refused to work with us on the current law and healthcare ever since.

However, today, we have seen a couple of glimpses of bipartisanship. First, they have voted to write both Democrats and Republicans, to reject the TrumpCare bill that would have provided tax breaks to special interests while decimating Medicaid. I am glad the Senate has spoken on that issue and said that we do not support this effort. This afternoon, Democrats and Republicans voted to reject a bill that would have repealed the Affordable Care Act with no replacement. A majority of Senators voted to say that this effort was unacceptable.

Now that we have taken those votes, Senators have had their say on what they think is the best path forward, and to me, these votes show that most Senators want to work in a bipartisan fashion to improve our healthcare system. I have heard many of my colleagues on the other side of the aisle say just that, as Senator McCaskill so eloquently yesterday.

I think, if my colleagues are willing to sit down and negotiate in good faith.
on legislation to improve our healthcare system and bring down costs, we could come up with a bill that would get the support of the majority of this body. My colleague Senator SHAHEEN, for example, introduced legislation to help stabilize the individual and small business markets that we would agree is an important step forward in improving the Affordable Care Act. However, we are now hurrying toward a vote with absolutely no plan to improve the healthcare system. My colleagues are struggling to get enough votes just to pass anything at all.

Right now we are debating the bill, but what does that mean when we have not yet seen the bill we are eventually going to vote on? This is not a meaningful exercise with opportunities to amend and improve legislation. We are simply killing time so that the Republican leadership can unveil a new bill, if they are able to come up with one, that they can convince enough of their Members to support. Hours or minutes before final passage this could be sprung upon us, and we would then be forced to take a vote. That is not the way the legislative process should work.

What kind of message does this send to our constituents? This is an example of legislating at its worst.

This is why many Americans don’t trust Washington to have their backs. We don’t know what changes for the better we intend to pass at the end of this debate, but we do know that they intend to pass something that is harmful. The CBO score, which the Democratic leader suggested, based upon the reports of what is pending, suggests significant losses in coverage across the country and significant increases in the cost of healthcare insurance for Americans. Based on what we have seen so far, each proposal would send the healthcare market into a death spiral, impacting all of our constituents—not just the Medicaid recipients, not just those who are in the exchanges—and even private employers who provide insurance coverage for their workers would see increases.

As I mentioned earlier, the bill we voted on this afternoon would repeal the Affordable Care Act with no replacement. In that case, the non-partisan Congressional Budget Office said, and it would lose 22 million Americans to lose health insurance over the next decade, including 17 million next year alone, and health insurance markets would collapse.

As I indicated, fortunately, that failed, with both Democrats and Republicans voting against it, but it looks like Senate Republican leadership is still trying to cobble together yet another version, taking some of the worst elements of the repeal act. What is worse, there will be no opportunity to read and analyze the bill and provide feedback, no opportunities for stakeholders, patients, and States to weigh in.

It is telling that the only path forward they have for their repeal effort is to pass a bill no one has literally read. The only chance they have to get support for their effort is to hide, essentially, the impact of the bill because on the merits it appears devastating to our constituents.

Nevertheless, as much as they try to hide this bill, the American people will find out. They will find out when they get the bill for their health insurance. They will find out when they go to their doctor and discover the treatment they had last year that was covered under the Affordable Care Act is no longer covered. They will find out when the only insurance company in their State decides to leave. They will find out when their employer says: We are no longer providing healthcare to our employees. They will find out when they start a family and discover that maternity care is no longer covered and, if the child needs medical care in its early years, the insurance company can say: No, thank you; we don’t have to cover the child. There is a pre-existing condition.

Just last night I got a call from a woman in Charlestown, RI—Amy. She had been diagnosed with a terminal illness to preserve the Affordable Care Act. She is a hairdresser and her husband is a commercial fisherman. Because they are both self-employed, they are not able to get coverage through work. They have been able to access care through our State’s health insurance marketplace, HealthSource RI. As Amy said, she and her husband are hard-working, middle-income taxpayers, but they never have been able to afford coverage without the help of the Affordable Care Act. They would not have been able to do that. Amy recently got sick and had to be hospitalized. She has coverage because of ObamaCare. She was able to get the treatment she needed. Without coverage, she would have been left to pay a bill of $78,000. Amy told me that she and her husband would have had to sell their house to afford that, and, probably even with that, they would have been left impoverished.

Is that really what my colleagues want for their constituents?

My constituents know what is at stake. I have heard from thousands and thousands of them throughout the year, urging me to keep fighting for it. I have heard from one other way to pay for her mother’s care. Her other millions that would be affected in such a negative, tragic way.

There is also Mari and Chrysann, both from Moorhead, MN. Moorhead is in northwestern Minnesota, right across the river from Fargo. Mari took care of her aging mother in her home as long as she could, but when Chrysann’s health began to decline, Mari helped her mom move to a nursing home where she could access the higher level of care she needed.

Mari and her husband work full time and still have children at home. I visited Chrysann’s nursing home a month ago. I spoke, and she got emotional when she told me that if it were not for Medicaid, her family would not have any other way to pay for her mother’s care. She does not know how she would care for her mother or what would happen to her.

Chrysann, Mari’s mom, is worried too. She spoke at this roundtable at the nursing home. She is worried about how the Republican plan will affect her own future and those of others who are in similar situations in nursing homes. Sixty-four percent of Americans in nursing homes have their care paid for by Medicaid. Chrysann told me this
plan is not about taking care of people but simply about "survival of the fittest."

Is that really the healthcare system we support in the United States of America—the survival of the fittest?

How? Chuck is the CEO of Perham Health. It is a rural hospital that is doing really innovative work in Northwest Minnesota. It is kind of central, north. It is in rural Minnesota, not unlike the rural areas in the Pre- sideing Officer's State.

Chuck told me: “Cutting Medicaid as drastically as they are proposing will force us to cut staff in areas that are actually saving the system money today.”

These cuts would affect nurses who run the hospital’s medical homes, community paramedics, and other staff who are helping to keep people out of the Emergency Department, reduce re-admissions, and keep people healthy overall. This is part of the innovation they are doing. This is part of the innovation that Minnesota leads the Nation in.

Perham Health is one of the largest employers in town so taking away jobs does not just impact the patients and the hospital it affects the community and rural economy. Cutting jobs and getting rid of successful reforms just does not make sense, and this would be repeated over and over and again in rural America.

Agreed, the question is, Why are Republicans pursuing such a reckless and irresponsible strategy?

All of the bills they have proposed thus far will increase patient costs, including premiums and out-of-pocket costs, will increase the number of uninsured Americans, and will rip apart our healthcare safety net. These are not the changes Americans want. In fact, this is the opposite of what Americans want and are asking for.

Now, over the last day, we have heard a lot more about another path Republicans may pursue—a scaled-back plan that eliminates a handful of the ACA provisions, including the employer mandate and individual mandate. While these two changes may be politically expedient, they would, according to the Congressional Budget Office, drive up premiums and cause millions of Americans to become uninsured.

What is more, as the New York Times points out, this plan does nothing to address the criticisms Leader McCONNEll, President Trump, and their allies continue to lodge against the Affordable Care Act. For example, this approach does nothing to improve competition and choice in the individual market and, in fact, injects far more uncertainty into individual health insurance markets, which are already rattled by the administration’s deliberate efforts to sabotage them.

Should this plan pass the Senate, it will surely get much worse when the differences between the plan and the House bill are reconciled in the conference committee. According to news reports, a number of my Republican colleagues are arguing that passing this scaled-back version of repeal is really just a means to get to conference, where Members can further negotiate the House and Senate repeal and replace bills. In fact, some are even suggesting that Congress should hold a conference where the House-passed bill would be a guidepost for negotiations.

I think all of us remember how awful, far-reaching, and—according to President Trump—mean the House-passed bill was. We saw the worst provisions of the Better Care Reconciliation Act resurface in the conference committee, which is the Senate repeal and replace bill that was defeated on a bipartisan basis.

Overall, pursuing this path is dangerous, given the tremendous number of unknowns. Not only would this half-baked—that is being generous—quarter-baked, scaled-back version of the ACA repeal destabilize health insurance markets, but it would also serve as a vehicle for Republicans to take up the most controversial measures included in the defeated BCRA and the House-passed bill.

Why on Earth would we support that? No one also de-husks to believe that a small group of House and Senate leaders can craft a workable solution in a matter of days or weeks. They have had 7 years to come up with an alternative. They do not have one so how can we expect them, all of a sudden, come up with a viable plan that affects one-sixth of our economy?

Look, this whole process has been and continues to be irresponsible. In fact, this is one of the most irresponsible policymaking processes I have seen in my time in the U.S. Senate. What we should do is just what Senator McCAIN called for in his speech yesterday, which is to pursue regular order, work together—Republicans and Demo- crats—and continue to act, as we did, to reject this wrongheaded effort, then I and many of my colleagues are ready and committed to work in a bipartisan way on reforms that will expand coverage, lower costs, and improve care.

Let’s have bipartisan hearings on the individual market, on drug prices, and more. Let’s call in nonpartisan expert witnesses. Let’s have meaningful committee and floor debates. Let’s fix what needs fixing in the Affordable Care Act. Annie, Carter, Mari, Chrysann, Chuck, and my colleagues, other Americans need us to do just that.

To my colleagues on the other side of the aisle, please, stand up to the bullying, stand up to the lies, and work with us to improve people’s lives, not make them worse. Paul Wellstone said that politics is not about winning, that it is not about power, that it is not about money. Politics is about working to improve people’s lives, and that is what we should be doing. You owe it to your constituents. You owe it to your- selves.

Thank you. I yield the floor.

The PRESIDING OFFICER. The Senator from Rhode Island.

CLIMATE CHANGE

Mr. WHITEHOUSE. Madam President, something else happened this afternoon in Washington that I wish to relate today on the floor, which is that the American Enterprise Institute hosted the launch of Senator SCHATZ’S and my American Opportunity Carbon Fee Act. I am delighted the American Enterprise Institute did that. Their conservative credentials are rock solid, and I do not fear they were extraordinarily helpful and open-minded in allowing us to make the announcement and in hosting a discussion on the bill that followed.

Virtual every person on the Republican side who has thought the climate change problem through to a solution has come to the same place—a revenue-neutral, border-adjustable price on carbon. That means that all of the reve- nues are returned to the American peo- ple.

Former Treasury Secretaries Baker, Shultz, and Paulson—all Republicans—former EPA Administrators Ruckelshaus, Thomas, Reilly, and Whitman—all Republicans—and leading econ- omic advisers Arthur Laffer, Gregory Mankiw, and Douglas Holtz-Eakin—all Republicans—along with many others, support a revenue-neutral, border-ad- justable carbon fee. Well, that is what we want.

You all know the phrase “offering an olive branch.” Former Republican Congress- man Bob Inglis described our proposal as an olive limb, not a branch, when pairing a carbon tax with cor- porate tax reduction. He said it pro- vides what he called “an opportunity for conservatives to show how free enterprise can solve climate change.”

When I first came to the Senate in 2007, this place was humming with bi- partisan action on climate change for years—but, in 2010, a dead stop. The Republican Party disappeared from the field after the fossil fuel industry secured from five Justices on the Su- preme Court the infamous Citizens United decision. The fossil fuel indus- try, as if it saw the decision coming, immediately launched a veritable So- viet May Day parade of political artill- ery and rocketry. No special interest had that kind of political muscle be- fore Citizens United. The combination of this industry’s political weaponry, plus the proliferation of dark money, plus the shady science simulacrum of climate denial has been formidable.

Despite this, there is room for opti- mism. There are Republicans who are willing to work with us. They just need some prospect of safe passage through the political kill zone that the fossil fuel industry has created.

Over 1,000 American companies have voiced their support for the Paris cli- mate agreement, including corporate powerhouses like Walmart, Goldman Sachs, PepsiCo, and Google. If Amer- ican companies were to mobilize in
First, the bill lowers the top corporate income tax rate from 35 percent to 29 percent—a longstanding goal of Republicans. This would cut American corporate taxes by almost $600 billion over the first decade.

Second, it provides workers with a $550 refundable credit—$1,100 for a couple—against payroll taxes. The tax credits, which would grow with inflation, would return almost $900 billion to the pocketbooks of American households over the first 10 years.

Third, the bill would transfer a matching benefit to Social Security beneficiaries, veterans program beneficiaries, and certain other retirees. These benefits would total nearly $500 billion over 10 years.

Finally, the bill would establish a block grant program, delivering the remaining funds to our States—over $100 billion to help workers in coal country, for instance, or provide coastal protection for seaside States facing terrible storms. It would also allocate funds to the discretion of the State, to meet local needs and concerns.

I understand the suffering in coal country. Coal country will continue to decline as natural gas drives coal out of the energy market. There is no mechanism to remedy that inevitability.

Remember Huey Long's old slogan, "Every Man a King"? With a carbon fee, we could make every miner a king. It would provide a retirement at any time, full health benefits for life, a cash bonus based on years worked, a voucher for a new vehicle, a college plan for their kids. These things become doable with carbon fee revenues. It is not the miners' fault that the coal industry has collapsed. They worked hard. They did dangerous work. It is a rigorous occupation to be a coal miner, and they are entitled to respect. Give them their dignity. Make them kings. If we have a small fraction of the revenue from a carbon fee, we could assure every single coal miner a lifetime of comfort, security, and financial stability.

Senator Schatz and I extend an open invitation to our Republican colleagues to participate in good faith in this conversation. It is not the miners' fault that their industry has collapsed. They worked hard. They did dangerous work. It is a rigorous occupation to be a coal miner, and they are entitled to respect. Give them their dignity. Make them kings. If we have a small fraction of the revenue from a carbon fee, we could assure every single coal miner a lifetime of comfort, security, and financial stability.

Mr. HEINRICH. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that the full text of my motion to commit be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Heinrich moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee and

(2) eliminate provisions that threaten to make health insurance unaffordable for people with prostate cancer.

Mr. CARDIN. Madam President, I intend to offer a motion to commit the reconciliation bill to the Finance Committee with instructions to report the bill back to the Senate within 3 days, not counting any day on which the Senate is not in session, with changes in the bill that—

(1) are within the jurisdiction of such committee; and

(2) eliminate provisions in the bill that would weaken access to essential health benefits, reduce access to affordable preventive services, and undermine the prohibition of annual and lifetime limits and caps on out-of-pocket expenditures for health insurance plans.

I am offering this motion because the reconciliation bill affects tens of millions of Americans who gained health care coverage through the Affordable Care Act. ACA. The reconciliation bill allows insurers to eliminate coverage of essential health benefits. Insurance companies could exclude essential benefits like maternity care, mental health disorder treatment, mental healthcare, prescription drugs, and hospitalization—the very services people buy insurance to obtain. Before the ACA, one-third of individual market health plans did not cover substance use disorder services, nearly one-fifth of those plans did not cover mental health, and only nine States required all insurers on the individual market to cover maternity care. Allowing insurers to eliminate essential health benefits would also allow insurance companies to reinstate annual and lifetime caps. This means that a premature baby could exceed its lifetime limit within its first few months of life. A patient could hit an annual cap just a couple of months into treatment.

Before the ACA, too many people and families were hurt physically and financially because they could not afford the healthcare they needed. We saw too many families go through bankruptcy because they could not afford the healthcare that they needed. We saw too many people literally cutting their prescription pills in half, hoping to stretch out their medicine because they could not afford more, even though they knew they were compromising their health. We cannot go backward. This cruel, dreadful situation.

The following Senators support my motion to commit: Senators CARPER, BROWN, BLUMENTHAL, WARREN, NELSON, VAN HOLLEN, DUCKWORTH, and STABENOW. I ask unanimous consent that the full text of my motion to commit be printed in the RECORD.

(B) reduce funding for the Indian Health Service or Medicaid such that Indians or Alaskan Natives would experience a decrease in access to services; or

(C) cause any cost or shift to the Indian Health Service for services that are currently paid for by Medicaid.

Mr. FRANKEN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Franken moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Menendez moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(A) increase the number of uninsured Americans;

(B) decrease Medicaid enrolment in States that have opted to expand eligibility for medical assistance under that program for low-income, non-elderly individuals under the eligibility option established by the Affordable Care Act under section 1902(a)(10)(A)(i)(VIII) of the Social Security Act (42 U.S.C. 1396a(a)(10)(A)(i)(VIII));

(C) reduce the likelihood that any State that has not opted to expand Medicaid under the eligibility option established by the Affordable Care Act under section 1902(a)(10)(A)(i)(VIII) of the Social Security Act (42 U.S.C. 1396a(a)(10)(A)(i)(VIII)) would opt to use that eligibility option to expand eligibility for medical assistance under that program for low-income, non-elderly individuals;

(D) increase the State share of Medicaid spending under that eligibility option.

Mr. MENENDEZ. Madam President, I intend to offer a motion to commit the reconciliation bill to the Committee on Health, Education, Labor, and Pensions with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that No. 1. are within the jurisdiction of such committee; and the bill shall not take effect until the Secretary of Health and Human Services certifies under oath, with standing given to each State attorney general for any charges of perjury, that no individual with a preexisting condition will be unable to receive the necessary medications to sustain their life, limbs, eyesight, or other necessary healthcare and medications for the preexisting condition due to a State cutting essential health benefits, minimum services, or necessary medication from the insurance plans offered through their exchanges. I am offering this motion because individuals with preexisting condition must not lose access to the medications they need to manage their conditions and live full, productive lives.

The following Senators support my motion to commit: SHAHEEN and BLUMENTHAL.
I ask unanimous consent that the full text of my motion to commit be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. MENENDEZ moves to commit the bill H.R. 1628 to the Committee on Finance, Education, Labor, and Pensions with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and

(2) ensure that the bill shall not take effect until the Secretary of Health and Human Services certifies under oath, with standing given to each State Attorney General for any charges of perjury, that no individual with a preexisting condition will be unable to receive the necessary medications to sustain their life, limbs, eyesight, or other necessary healthcare and medications for the preexisting condition due to a State cutting essential health benefits, minimum services, or necessary medication from the insurance plans offered by the State during the applicable period.

Mr. MENENDEZ. Madam President, I intend to offer a motion to commit the reconciliation bill to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that No. 1, are within the jurisdiction of such committee; and No. 2, add automatic sunset to the bill and reinstate the Affordable Care Act if the uninsured rate increases 20 percent as compared to the rate at the beginning of fiscal year 2017.

Mr. MENENDEZ. Madam President, I intend to offer a motion to commit the reconciliation bill to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and

(2) ensure that the bill shall not take effect until the Secretary of Health and Human Services certifies under oath, with standing given to each State Attorney General for any charges of perjury, that no domestic violence victim will have less coverage for any condition arising from the abuse than they have under current law. I am offering this motion because the Affordable Care Act will ensure that survivors of domestic or sexual abuse will receive the necessary medications to deal with their past trauma.

The following Senator supports my motion to commit: BLUMENTHAL.

I ask unanimous consent that the full text of my motion to commit be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Mr. BOOKER. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Booker moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and
(2) permit a State to continue to implement the provisions of the Patient Protection and Affordable Care Act (Public Law 111-148), as in effect on the date of enactment of this Act, if the Governor of that State elects to continue such implementation, including provisions relating to health insurance coverage gains, consumer protections (including those related to coverage of pre-existing conditions, essential health benefits, and the premium levels that older enrollees may be charged relative to younger enrollees), and Federal funding provided under that Act (including levels of Medicaid funding for the Medicaid expansion population, Federal funding for tax credits, and sharing reduction subsidies).

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. The motion is supported by Senators BLUMENTHAL and CARPER.

Some of the strongest opponents to the secretive and devastating Republican repeal effort are our hospitals, especially our rural hospitals, critical access hospitals, and safety net hospitals in underserved urban communities.

In particular, they warn us that the devastating cuts in Medicaid will dramatically increase uncompensated care costs.

The Illinois Hospital Association tells us that slashing Medicaid like these Republican repeal bills do will cost Illinois between 60,000 and 95,000 healthcare jobs.

You see, not only are our rural hospitals critical lifelines for healthcare in their communities, they are often the best jobs in town; yet these drastic Medicaid cuts will increase uncompensated care costs by billions, forcing cutbacks in services, staff, and expansion.

So my motion would instruct the Finance Committee to report out a bill—within 3 days—that would protect hospitals for these critical facilities and prohibit increases in uncompensated care costs for these critical facilities.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Durbin moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and
(2) prohibit increases in uncompensated costs or reductions in funding for rural hospitals, hospitals in underserved areas, or critical access hospitals.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. The motion is supported by Senators BLUMENTHAL and CARPER.

Medicaid covers one in two births in Illinois. It helps pay for two out of every three seniors in nursing homes, and it is the largest payor of opioid and substance abuse treatment.

But guess what else Medicaid does? It helps 45 percent of school districts provide medical and therapy services for
lower-income kids and those with special needs.

That is right, Illinois schools currently receive about $144 million in Medicaid funding each year.

They use this money to provide dental services, therapy services for kids with disabilities, to purchase handicap equipment, and employing trained staff.

What would happen to kids nationwide if the $4 billion in Medicaid funding went away?

My motion would instruct the Finance Committee to report out a bill—within 3 days—that would protect funding for schools and students and says, if you want to slash Medicaid, it won’t be on the backs of our kids.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. DURBIN moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and

(2) ensures no reduction in Medicaid funding for items or services provided in, or under arrangements with, any kindergarten through grade 12 elementary school in the Nation.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. The motion is supported by Senators BLUMENTHAL and CARPER.

When thinking about Medicaid, we often talk about low-income children or pregnant women. But do you know the most expensive part of Medicaid?

It is providing long-term care for your grandmother, your grandfather—at home or in the nursing home. When Social Security and Medicare aren’t enough, Medicaid steps in to care for millions of seniors over age 65. Medicaid helps pay for two out of three seniors currently in nursing homes.

These Republican proposals to slash Medicaid are so devastating that the American Association of Retired Persons, AARP, has come out in loud opposition to all the repeal bills.

My motion to commit would instruct the Finance Committee to report out a bill—within 3 days—that protects children and adults on Medicaid with disabilities from increased costs and fewer benefits.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Durbin moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and

(2) ensures no seniors on Medicaid lose benefits, have reduced provider payments for services furnished to them, or have any increase in out-of-pocket costs.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. The motion is supported by Senator BLUMENTHAL.

Over the past few months, I have met with many heroes in the disability community, including a woman in Illinois who has a 23-year-old son with autism. She told me that Medicaid allows her son to be at home and function independently.

She told me that, without Medicaid, his son would have to be in a facility she couldn’t afford.

You know what else all of these advocates and fighters tell me? They tell me that the Republican healthcare repeal proposals—all of which decimate the Medicaid Program in order to give tax breaks to the wealthy—would be devastating for people with disabilities.

Medicaid is a lifeline for 11 million people with disabilities. It is the core of our commitment to care for them, and it helps us meet our basic obligations as a society.

That is why my motion to commit would instruct the Finance Committee to report out a bill—within 3 days—that protects children and adults on Medicaid with disabilities from increased costs and fewer benefits.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

MOTION TO COMMIT WITH INSTRUCTIONS

Mr. Durbin moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

(1) are within the jurisdiction of such committee; and

(2) ensures no children on Medicaid lose benefits, have reduced provider payments for services furnished to them, or have any increase in out-of-pocket costs.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD. The motion is supported by Senators BLUMENTHAL and CARPER.

Thanks to the Affordable Care Act, Medicare is now financially stable for an additional 11 years.

Because of the healthcare reforms that improve the delivery of healthcare, seniors are now paying $700 less annually in premiums and cost-sharing.

The ACA is also closing the dreaded Medicare “donut hole”—the gap where seniors were faced with high costs for their drugs—saving 11 million seniors an average for $2,127 each year on their medications.

But Republicans want to jeopardize this progress.

Instead of strengthening Medicare for the long run, many of the Republican repeal bills would give a huge tax giveaway to wealthy Americans—cutting your kids’ Medicaid

That is why my motion to commit would instruct the Finance Committee to report out a bill—within 3 days—that does not shorten Medicare’s solvency.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

(2) ensures that the bill will not shorten the solvency of the Federal Hospital Insurance Trust Fund under section 1817 of the Social Security Act (42 U.S.C. 1395).

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the RECORD.

When Republicans talk about the challenges facing Obamacare, they
tend to be a bit misleading. Let’s set the record straight.

What they are really talking about is within the individual market, where 6 percent of Americans get their coverage and more than 70 percent of those people get subsidies to help cover their costs.

One problem Republicans like to cite is lack of competition, that private, for-profit insurers are pulling out, leaving few choices.

We call these “bare counties,” and they are more common in rural areas and in States that did not expand Medicaid.

I agree that we need more competition in the individual market.

As a solution, my motion to commit instructs the Finance Committee—within 3 days—to report out a bill that requires insurers offering Medicare Advantage plans in a particular county, to also offer an individual market plan in the same county.

Medicare Advantage insurance plans make huge profits off the Federal Government, yet many of those same insurers are refusing to participate in the individual exchange.

To address these “bare counties,” my motion says that, if you have a provider network and you are making money off the Federal Government, then you should also help improve choice by offering a plan in the exchange.

There being no objection, the material was ordered to be printed in the Record, as follows:

**Motion to Commit with Instructions**

Mr. Durbin moves to commit the bill H.R. 1628 to the Committee on Finance with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

1. Are within the jurisdiction of such Committee;
2. Require each insurer that offers a Medicare Advantage plan under part C of the Medicare program in a specific county to also offer health insurance coverage through the individual market in that county.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the Record. The motion is supported by Senator Duckworth.

All of these Republican repeal bills shift costs onto consumers, patients, hospitals, and state budgets.

None of them do anything to actually address what is driving the increase in healthcare costs. And one of those biggest drivers? Pharmaceutical costs—Blue Cross of Illinois tells me they spend more on prescription drugs than inpatient hospital care.

So what do we do to address prescription drugs? Have Medicare negotiate drug prices on behalf of seniors. Even the President says he supports this policy.

Medical can negotiate drug costs, the Veterans Administration can negotiate drug costs, why shouldn’t Medicare be able to leverage its 50 million beneficiaries to get a better deal?

This motion is simple; it is something the President has talked about, something the American people support.

This motion to commit would instruct the Finance Committee—within 3 days—to report out a bill that would require the Secretary of Health and Human Services to begin negotiating drug prices on behalf of seniors in Medicare.

There being no objection, the material was ordered to be printed in the Record, as follows:

1. Are within the jurisdiction of such Committee;
2. Require the Secretary of Health and Human Services to, beginning not later than one year after the date of enactment of this Act, negotiate the price of drugs covered by the Medicare program on behalf of Medicare beneficiaries.

Mr. DURBIN. Madam President, I intend to offer the following motion to H.R. 1628, and I ask unanimous consent that it be printed in the Record. The motion is supported by Senator Duckworth.

The process Republicans have undertaken to repeal our healthcare law has been secretive, wrong, and undemocratic.

At first, it was 13 chosen apostles—all men—meeting in secret to craft their repeal measure.

But what I do know is that there have been no hearings, no opportunity for public input, and no opportunity for myself and Senator Duckworth—as representatives of Illinois—to offer input.

If myself and Senator Duckworth have been locked out of the process from the beginning, why then should our constituents have to pay the price for this partisan Republican effort?

So our motion is simple. It says that the Republican repeal bill cannot unfairly impose hardships on our Illinois constituents. It cannot increase costs on our constituents, cut services or benefits or eligibility for my constituents, eliminate essential health benefits for my constituents, or impose lifetime limits or discriminate against my constituents with preexisting conditions.

If Senator Cruz who has been allowed to have input on this repeal bill—wants to rip away health insurance “root and branch” from his constituents, that is fine.

But this motion protects my constituents in Illinois.

There being no objection, the material was ordered to be printed in the Record, as follows:

**Motion to Commit with Instructions**

Mr. Durbin moves to commit the bill H.R. 1628 to the Committee on Health, Education, Labor, and Pension with instructions to report the same back to the Senate in 3 days, not counting any day on which the Senate is not in session, with changes that—

1. Are within the jurisdiction of such Committee;
2. Prohibit increases in health insurance premiums or out-of-pocket health care costs for residents of Illinois;
3. Prohibit reductions in eligibility or services, or any increases in cost-sharing (including premiums and co-payments) related to the eligibility of residents of Illinois to participate in the Medicaid program;
4. Prohibit health insurance issuers from imposing annual or lifetime limits on residents of Illinois;
5. Prohibit health insurance issuers from charging residents of Illinois who have pre-existing conditions more than the amount charged to healthy residents; or
6. Prohibit health insurance issuers from stopping coverage of any essential health

According to the AMA, these ads are, “driving demand for expensive treatments despite the clinical effectiveness of less costly alternatives.” In short, pharma advertises their drugs because they know you will tell your doctor you need it—driving up the cost—regardless of whether it’s right for you. That is why they spend billions on it.

But the moment of truth on when patients find out about the cost is when they are checking out at the pharmacy. That is wrong.

So my motion to commit would instruct the Finance Committee—within 3 days—to report out a bill that helps lower the cost of healthcare by tackling the driving cost of prescription drugs, requiring pharmaceutical companies to disclose the price of their drug in their ads.

The PRESIDING OFFICER. The Senator from Wyoming.

MORNING BUSINESS

Mr. ENZI. Madam President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUDGETARY REVISIONS

Mr. ENZI. Madam President, section 3001 of S. Con. Res. 3, the concurrent resolution on the budget for the fiscal year 2017, allows the chairman of the Senate Budget Committee to revise the allocations, aggregates and levels in the budget resolution for legislation related to healthcare reform. The authority to adjust is contingent on the legislation not increasing the deficit over the period of the total of fiscal years 2017 to 2026.

I find that amendment No. 27 fulfills the conditions of deficit neutrality found in sec. 3001 of S. Con. Res. 3. Accordingly, I am revising the allocations to the Committee on Finance, the Committee on Health, Education, Labor, and Pensions, HELP and the budgetary aggregates to account for the budget effects of the amendment. I am also adjusting the unassigned to committee savings levels in the budget resolution to reflect that while there are savings in the amendment attributable to both the HELP and Finance committees, the Congressional Budget Office and Joint Committee on Taxation are unable to produce unique estimates for each provision due to interactions and other effects that are estimated simultaneously.

This adjustment supersedes the adjustment I previously made for the processing of S. Amdt. 267. This adjustment applies while this amendment is under consideration. Should the amendment be withdrawn, fail, or lose its pending status, this adjustment will be null and void and the adjustment for amendment No. 267 shall remain active.

I ask unanimous consent that the accompanying tables, which provide details about the adjustment, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

HONORING CHIEF EDWARD SWITALSKI

Mr. PETERS. Madam President, today, I wish to honor the 58-year public servant, Comstock, MI, Fire Chief Edward Switalski. Known for his bravery and devotion to his family and community, Chief Switalski was killed in the line of duty on June 14, 2017, having been struck and killed by a motorist on Interstate 94 in Kalamazoo County, as he was responding to a previous car crash at that site. He is survived by his wife, Holly, and two daughters, Alison and Emily.

Chief Switalski’s dream of becoming a firefighter arrived early. As a child, he volunteered to clean equipment and perform other tasks for his local fire department. His career began as a part-time paramedic at Pleasantview Fire District in Illinois in 1982; while there, he rose to become battalion chief before retiring after 32 years of service and moving to Michigan to be closer to his daughters.

While in Illinois, Chief Switalski won numerous awards and citations, including one for running into the basement of a burning building in an attempt to rescue one of his colleagues. The chief was also a compassionate volunteer who traveled to New Orleans to rebuild the community in the wake of the devastating Hurricane Katrina.

After his relocation to Michigan, Switalski became the chief of the Comstock, MI, fire department in 2013. Chief Switalski quickly became known as a visionary leader who would often pick up open firefighting shifts in his small department. Active in the community, the chief was involved in numerous organizations and was a member of Zion Lutheran Church in Kalamazoo.

Colleagues have paid numerous tributes to Chief Switalski. A former chief of his said, "Chief Switalski was one who enjoyed being a firefighter more than he did." The public safety chaplain of a neighboring fire department said that, on June 14, "we lost a great man on Earth that day, but we gained one in heaven." The leader of a local ambulance service called Chief Switalski "an extraordinary man who had a deep compassion for his family and the communities that he served. He was a man of integrity, who believed in doing the right thing."

It was entirely appropriate that United States of America flags flew at half-staff on all State buildings on the day of the chief’s funeral.

Chief Switalski was a brave and selfless public servant who was taken from our world much too soon. The tremendous outpouring of support demonstrated at his funeral service is a reminder of the risks undertaken every day by our first responders and the gratitude the public has for their vital work.
on growing. This unfettered momentum showed enough potential that in 1886, 4 years before Wyoming became the 44th State, the construction of a State capitol was approved in Cheyenne. Among these barren plains, a wellspring of prosperity and opportunity tugged at the foot of the independent, brave folks who were willing to work hard to build it. In that, Cheyenne's legacy perfectly captures Wyoming's spirit.

Cheyenne, WY, is a railroad town through and through. General Grenville Dodge, chief engineer for the Union Pacific Railroad, selected this dusty spot as a connecting point in the Nation's first transcontinental railroad. Thousands of men and their families came here to lay track up the Gangplank, the unique geography that allows a gradual grading from the plains to the Laramie Mountains. Supply stores, banks, and dentists all sprang up in their wake to accommodate the booming town. Now, Interstate 80 runs alongside the Gangplank from Cheyenne to Laramie, where the climb from the plains to the mountains continues today. On March 3, 2006, the Cheyenne Frontier Depot became a National Historic Landmark, solidifying the railroads irremovable stitching in the fabric of Cheyenne, WY, and the rest of the Nation.

During Cheyenne's first fragile years, soldiers were stationed at Fort D.A. Russell to protect the railroad. The base was established on the same day as the city, and construction began in October 1867. It later became the F.E. Warren Air Force base that continues to be crucial to Cheyenne today. The base was expected to last 6 months, then to dry up along with the town itself as folks followed the train tracks to find more work. However, Cheyenne endured—and the base along with it. It became a permanent Army installation in 1904. These ramshackle wood shanties were replaced with brick buildings. In 1930, it was renamed F.E. Warren Base by President Herbert Hoover to honor Wyoming's first Governor, Francis Emroy Warren. It was officially renamed F.E. Warren Air Force Base in 1949, making it the oldest continuously active base in the Air Force system. The base is currently responsible for 15 missile alert facilities and 150 Minute Man III missiles and is known throughout Wyoming as a fixture in the Cheyenne community. The F.E. Warren Base and some 4,000 personnel on site continue to be a massively positive presence in the Cheyenne neighborhood, especially at Cheyenne Frontier Days.

As with the F.E. Warren Air Force Base, there would be no Cheyenne without Cheyenne Frontier Days. The first frontier day took place on September 13, 1897, kicked off with a parade led by Buffalo Bill Cody. This event started as the brainchild of frontier cowboys compete for over $1 million while enjoying the festive celebration of cowboy culture. This event symbolizes the western spirit that beats from within Cheyenne throughout the rest of Wyoming.

In honor of the 150th anniversary of Cheyenne, WY, I urge my esteemed colleagues to visit this “Magic City” themselves. I congratulate all the folks who work to preserve Cheyenne's rich history and continue its valuable legacy. I stand proudly with them in celebrating this historical achievement.

TRIBUTE TO ELLEN SCHLECHTER

- Mr. ROUNDS. Madam President, today I recognize the distinguished accomplishment of a young South Dakotan, Ellen Schlechter, a 2017 recipient of the National Federation of Independent Business NFIB Young Entrepreneur Award. Ellen is a recent high school graduate from Orient, SD, and the founder and owner of The Calving Book App, a convenient and simple way to keep calf records on a user's smartphone, tablet, or computer.

Growing up raising cattle, Ellen recognized a need in the agricultural sector for an application that would allow producers to document all of their cattle records in one place. Two years after the launch of The Calving Book App, Ellen has introduced an advanced version of the app and been featured in numerous ag publications and on local media in our State.

I extend my congratulations to Ellen for being recognized by the NFIB for her accomplishments and entrepreneurial spirit, and I thank her for the work she has done to help our producers become more efficient. I wish her continued success in the years to come.

TRIBUTE TO ABIGAIL KOSIAK

- Mr. THUNE. Madam President, today I recognize the hard work of my Commerce, Science, and Transportation Committee intern Abigail Kosiak. Abigail hails from Sioux Falls, SD, and is a rising junior at Utah State University.

While interning on the Commerce Committee, Abigail worked in the committee's front office, assisted the Communications, Technology, Innovation, and Competitiveness Subcommittee, and gave tours of the Capitol. She is a dedicated worker who was committed to getting the most out of her internship.

I extend my sincere thanks and appreciation to Abigail for all of the fine work she did for the Commerce Committee and wish her continued success in the years to come.

(1) DEFINITIONS.—In this section the term ‘expanded affiliated group’, ‘foreign incorporated entity’, ‘person’, ‘domestic’, and ‘foreign’ have the meaning given those terms in section 835(c)(1) of the Homeland Security Act of 2002 (6 U.S.C. 395(c)).

(2) SPECIAL RULES.—In applying subparagraph (B) of this subsection for purposes of subsection (a) of this section, the Secretary (or the Secretary’s delegate) shall establish regulations for determining whether an affiliated group has substantial business activities for purposes of subparagraph (A), except that such regulations may not treat any group as having substantial business activities if such group would not be considered to have substantial business activities under the regulations prescribed under section 7874 of the Internal Revenue Code of 1986, as in effect on January 18, 2017.

(3) SIGNIFICANT DOMESTIC BUSINESS ACTIVITIES.—

(A) IN GENERAL.—For purposes of paragraph (1)(B)(ii), an expanded affiliated group has significant domestic business activities if at least 25 percent of—

(i) the income of the group is derived in the United States;

(ii) the employees of the group are based in the United States; or

(iii) the assets of the group are located in the United States;

(B) DETERMINATION.—Determination pursuant to subparagraph (A) shall be made in the same manner as such determinations are made for purposes of determining if substantial business activities under regulations referred to in paragraph (2) as in effect on January 18, 2017, but applied by treating all references in such regulations to ‘foreign country’ and ‘relevant foreign country’ as references to ‘the United States’. The Secretary of the Treasury (or the Secretary’s delegate) may issue regulations decreasing the threshold percent in any of the tests under such regulations for determining if business activities constitute significant domestic business activities for purposes of paragraphs of this section.”.
(2) Clerical Amendment.—The table of sections at the beginning of chapter 47 of title 41, United States Code, is amended by inserting after the item relating to section 4712 the following item:

"1732. Prohibition on awarding contracts to inverted domestic corporations."

(b) Defective Contracts.—

(1) In General.—Chapter 137 of title 10, United States Code, is amended by adding at the end the following new section:

12340. Prohibition on awarding contracts to inverted domestic corporations.

("a) Prohibition.—

(1) In General.—The head of an agency may not award a contract for the procurement of property or services awarded by the executive agency with a value of more than $100,000,000, other than a contract for exclusively commercial items, to a foreign incorporated entity if such entity has substantial business activities in the foreign country in which or under the law of which the entity is created or organized when compared to the total business activities of such expanded affiliated group.

(2) SUBCONTRACTS.—

(A) In General.—The head of an agency shall include in each contract for the procurement of property or services awarded by the executive agency with a value of more than $100,000,000, other than a contract for exclusively commercial items, a clause that prohibits the prime contractor on such contract from—

(i) awarding a first-tier subcontract with a value greater than 10 percent of the total value of the prime contract to an entity or joint venture described in paragraph (1); or

(ii) awarding a second-tier subcontract in a manner designed to avoid the limitation in paragraph (1) by enabling an entity or joint venture described in paragraph (1) to perform more than 10 percent of the total value of the prime contract as a lower-tier subcontract.

(3) Penalties.—The contract clause included in contracts pursuant to subparagraph (A) shall provide that, in the event that a prime contractor violates the contract clause—

(i) in a case where the prime contract may be terminated for default; and

(ii) the matter may be referred to the suspension or debarment official for the appropriate agency and may be a basis for suspension or debarment of the prime contractor.

(3) Significant Domestic Business Activities.—

(A) In General.—For purposes of paragraph (1), an expanded affiliated group has significant domestic business activities if at least 25 percent of—

(i) the employees of the group are based in the United States;

(ii) the compensation incurred by the group is incurred with respect to employees based in the United States;

(iii) the assets of the group are located in the United States; or

(iv) the income of the group is derived in the United States.

(B) Determination.—Determinations pursuant to subparagraph (A) shall be made in the same manner as such determinations are made for purposes of determining substantial business activities under regulations prescribed by the head of an agency under section 4712 of this title. The Secretary of the Treasury shall prescribe the regulations for determining whether an affiliated group has substantial business activities for purposes of subparagraph (A), except that such regulations may treat any group as having substantial business activities if such group would not be considered to have substantial business activities under the regulations prescribed by section 4712 of the Internal Revenue Code of 1986, as in effect on January 18, 2017.

(c) Waiver.—

(1) In General.—The Secretary of the Treasury (or the Secretary’s delegate) shall establish regulations for determining whether an affiliated group has substantial business activities under regulations prescribed by the head of an agency under section 4712 of this title. The regulations prescribed under the preceding sentence shall apply to periods ending on or after May 8, 2014.

(2) Exception for Corporations With Substantial Business Activities in Foreign Countries.—

(A) In General.—For purposes of section 4712(b)(6)(A) of title 41, United States Code, and section 2340(b)(1)(B)(ii) of title 10, United States Code, as added by subsections (a) and (b), respectively, prescribe regulations for purposes of determining cases in which the management and control of an expanded affiliated group is to be treated as occurring, directly or indirectly, primarily within the United States. The regulations prescribed under the preceding sentence shall apply to periods after May 8, 2014.

(2) Executive Officers and Senior Management.—The regulations prescribed under paragraph (1) shall provide that the management and control of an expanded affiliated group shall be treated as occurring, directly or indirectly, primarily within the United States if substantially all of the executive officers and senior management of the expanded affiliated group who exercise day-to-day responsibility for making decisions involving strategic, financial, and operational policies of the expanded affiliated group are based or primarily located within the United States. Individuals in fact exercise such day-to-day responsibilities shall be treated as executive officers and senior management regardless of their title.

Title VI—Miscellaneous Provisions

Sec. 601. Severability.

Sec. 602. Effective date.
“(i) All contributions to such account are made by individuals who are not prohibited from making contributions under this Act.

(ii) The aggregate amount of contributions made by a particular individual to such account and all other accounts of the political committee do not exceed the amount described in paragraph (ii)(C).

SEC. 508. FAIR ELECTIONS FUND.

(a) Establishment.—There is established in the Treasury a fund to be known as the “Fair Elections Fund.”

(b) Amounts appropriated by Fund.—The Fund shall consist of the following amounts:

(1) Appropriated amounts.—

(A) In general.—Amounts appropriated to the Fund.

(B) Sense of the Senate regarding appropriations.—It is the sense of the Senate that—

(i) there should be imposed on any payment made to any person (other than a State or local government or a foreign nation) who has a contract with the Government of the United States in excess of $10,000,000 a tax equal to 0.50 percent of amount paid pursuant to such contract, except that the aggregate tax on each contract for any taxable year does not exceed $500,000; and

(ii) the revenue from such tax should be appropriated to the Fund.

(2) Voluntary contributions.—Voluntary contributions shall be deposited to the Fund.

(3) Other deposits.—Amounts deposited into the Fund under—

(A) section 513(c) (relating to exceptions to contribution requirements);

(B) section 521(c) (relating to remittance of allocations from the Fund);

(C) section 533 (relating to violations); and

(D) any other section of this Act.

(4) Investment returns.—Interest on, and the proceeds from, the sale or redemption of, any obligations held by the Fund under subsection (c).

(c) Investment.—The Commission shall invest portions of the Fund in obligations of the United States in the same manner as provided under section 9002(b) of the Internal Revenue Code of 1986.

(d) Use of Fund.—

(1) In general.—The sums in the Fund shall be used to provide benefits to participating candidates as provided in subtitle C.

(2) Contributions.—Under regulations established by the Commission, rules similar to the rules of section 9002(c) of the Internal Revenue Code shall apply.

SUBTITLE B—Eligibility and Certification

SEC. 511. ELIGIBILITY AND CERTIFICATION.

(a) In general.—A candidate for Senator is eligible to receive an allocation from the Fund for any election if the candidate meets the following requirements:

(1) The candidate files with the Commission a statement of intent to seek certification as a participating candidate under this title beginning on the first day of the Fair Elections period.

(2) The candidate files with the Commission an affidavit signed by the candidate and the treasurer of the candidate’s principal campaign committee declaring that the candidate—

(A) has complied and, if certified, will comply with the contribution and expenditure requirements of section 518;

(B) if certified, will comply with the debate requirements of section 514;

(C) if certified, will not run as a non-participating candidate during such year in any election for the office for which such candidate is seeking; and

(D) has either qualified or will take steps to qualify under State law to be on the ballot.

(b) General election.—Notwithstanding subsection (a), a candidate shall not be eligible to receive an allocation from the Fund for a general election unless the candidate’s party nominated the candidate to be placed on the ballot for the general election or the candidate otherwise qualified to be on the ballot under State law.

SEC. 512. QUALIFYING CONTRIBUTION REQUIREMENTS.

(a) In general.—A candidate for Senator meets the requirement of this section if, during the Fair Elections qualifying period, the candidate obtains—

(1) a number of qualifying contributions equal to the greater of—

(A) the sum of—

(i) 1,000; plus

(ii) 500 for each congressional district in the State with respect to which the candidate is seeking election; or

(B) the amount determined by the Commission under section 521(b) based on the candidate’s net worth;

(ii) a total dollar amount of qualifying contributions equal to the greater of—

(A) 10 percent of the amount of the allocation such candidate would be entitled to receive for the primary election under section 522(c)(1) (determined without regard to paragraph (5) thereof) if such candidate were a participating candidate; or

(B) the amount determined by the Commission under section 531.

(b) Requirements relating to receipt of qualifying contributions.—Each qualifying contribution—

(1) may be made by means of a personal check, money order, debit card, credit card, or electronic payment account;

(2) shall be accompanied by a signed statement containing—

(A) the contributor’s name and the contributor’s address in the State in which the contributor is registered to vote; and

(B) an oath declaring that the contributor—

(i) understands that the purpose of the qualifying contribution is to show support for the candidate so that the candidate may qualify for Fair Elections financing; and

(ii) is making the contribution in his or her own name and from his or her own funds; and

(iii) has made the contribution willingly; and

(iv) has not received anything of value in return for the contribution; and

(3) shall be acknowledged by a receipt that is sent to the contributor with a copy kept by the candidate for the Commission and a copy kept by the candidate for the election authorities in the State with respect to which the candidate is seeking election.

(c) Verification of qualifying contributions.—The Commission shall establish procedures for the auditing and verification of qualifying contributions to ensure that such contributions meet the requirements of this section.

SEC. 513. CONTRIBUTION AND EXPENDITURE REQUIREMENTS.

(a) General rule.—A candidate for Senator meets the requirements of this section if, during the election cycle of the candidate, the candidate—

(1) except as provided in subsection (b), accepts no contributions other than—

(A) qualifying contributions;

(B) qualifying multicandidate political committee contributions; and

(C) multicandidate political committee contributions,

(b) Revocation of certification.—

(1) In general.—The Commission may revoke a certification under subsection (a) if—

(A) the candidate fails to appear on the ballot at any time after the date of certification; or

(B) the candidate fails to comply with any regulatory requirements prescribed by the Commission.

CONGRESSIONAL RECORD — SENATE July 26, 2017

“(2) REPAYMENT OF BENEFITS.—If certifi-
cation is revoked under paragraph (1), the candidate shall repay to the Fund an amount equal to the value of benefits received under this title during the prior election (at a rate determined by the Commission) on any such amount re-
ceived.

“Subtitle C—Benefits

“SEC. 521. BASE AMOUNT FOR PARTICIPATING CAN-
didates.

“(a) IN GENERAL.—For each election with re-
spect to which a candidate is certified as a par-
ticipating candidate, such candidate shall be enti-
tled to—

“(1) an allocation from the Fund to make or 
oblige to make expenditures with re-
spect to such election, as provided in section 
522; and

“(2) matching contributions, as provided in 
section 523; and

“(b) PROHIBITION ON USES OF ALLOCATIONS 
FROM THE FUND.—Allocations from the Fund 
received by a participating candidate under 
section 522 and matching contributions 
derived from the Fund may only be used for cam-
paign-related costs.

“(c) REMITTING ALLOCATIONS FROM THE 
FUND.—

“(1) IN GENERAL.—Not later than the date 
that is 45 days after an election in which the 
participating candidate appeared on the bal-
lot, such candidate shall remit to the Com-
mision for deposit in the Fund an amount equal to the lesser of—

“(A) the amount of money in the can-
didate’s campaign account; or

“(B) the sum of the allocations from the Fund 
received by the candidate under section 
522 and the matching contributions re-
derived from the Fund under section 523.

“(2) EXCEPTION.—In the case of a candidate 
who qualifies to be on the ballot for a pri-
mary runoff election, a general election, or a 
general runoff election, the amounts de-
scribed in paragraph (1) may be retained by 
the candidate and used in such subsequent 
election.

“SEC. 522. ALLOCATIONS FROM THE FUND.

“(a) IN GENERAL.—The Commission shall 
make allocations from the Fund under sec-
tion 521(a)(1) to a participating candidate—

“(1) from amounts provided under sub-
paragraph (c)(1), not later than 48 hours 
after the date on which such candidate is 
certified as a participating candidate under 
section 521.

“(2) in the case of a general election, not 
later than 48 hours after—

“(A) the date of the certification of the re-
sults of the primary election or the primary 
runoff election; or

“(B) in any case in which there is no pri-
mary election, the date the candidate quali-
ifies to be placed on the ballot; and

“(3) in the case of a primary runoff elec-
tion or a general runoff election, not later 
than 48 hours after the certification of the 
result of the primary election or the general 
election, as the case may be.

“(b) METHOD OF PAYMENT.—The Commis-

sion shall distribute funds available to par-
ticipating candidates under this section 
through the use of an electronic funds ex-
change or a debit card.

“(c) LIMITATION.—The Commission may 
not make an allocation or matching contri-

bution from the Fund for a primary elec-
tion to a participating candidate in an 
amount equal to 25 percent of the amount 
the participating candidate was eligible to 
receive under this section for the primary 
election.

“(d) GENERAL ELECTION ALLOCATION.—Ex-
cept as provided in paragraph (5), the Com-
mision shall make an allocation from the Fund 
for a general election to a partici-
pating candidate in an amount equal to the 
base amount with respect to such candidate. 

“(e) AUTOMATICALLY ALLOCATED ELEC-
RATION.—The Commission shall make an allo-
cation from the Fund for a general runoff elec-
tion to a participating candidate in an 
amount equal to 25 percent of the base 
amount with respect to such candidate.

“(f) UNCONTENDED ELECTIONS.—

“(1) IN GENERAL.—In the case of a pri-
mary or general election that is uncontested 
excluding a general runoff election, the Com-
mision shall make an allocation from the Fund 
for a participating candidate for such election 
in an amount equal to the lesser of—

“(A) the amount of money in the can-
didate’s campaign account; or

“(B) the sum of—

“(i) the amount of funds available to a 
candidate certified as a participating candidate 
in a general election; and

“(ii) $150,000 for each congressional dis-

tric in the State with respect to which the can-
didate is seeking election; or

“(B) the amount determined by the Com-
mision under section 531.

“(2) INDEXING.—In each even-numbered 
year after 2021—

“(A) each dollar amount under paragraph 
(1)(A) shall be increased by the percent dif-
ference between the price index (as defined in 
section 315(c)(2)(A)) for the 12 months pre-
ceeding the beginning of such calendar year 
and the price index for calendar year 2020;

“(B) each dollar amount so increased shall 
remain in effect for the 2-year period begin-
ning on the first day following the date of 
the last general election in the year pre-
ceeding the year in which the amount is in-
creased and ending on the date of the next 
general election; and

“(C) if any amount after adjustment under subparagraph (A) is not a multiple of $100, 
such amount shall be rounded to the nearest 
multiple of $100.

“SEC. 523. MATCHING PAYMENTS FOR QUALIFIED CONTRIBU-
TIONS.

“(a) IN GENERAL.—The Commission shall 
pay to each participating candidate an 
amount equal to 600 percent of the amount of 
qualified small dollar contributions received 
by the candidate from a resident of the State in 
which such candidate is seeking election in the 
State with respect to which such candidate is 
entitled to receive such contribution.

“(b) LIMITATION.—The aggregate payments 
derived from the Fund under subsection (a) 
with respect to any candidate shall not exceed the greater of—

“(1) 400 percent of the allocation can-

didate is entitled to receive under section 
522; and

“(2) the percentage of such allocation de-
termined by the Commission under section 
531.

“(c) TIME OF PAYMENT.—The Commission 
shall make payments under this section no 
later than 2 business days after the receipt of 
a report made under subsection (d).

“(d) REPORTS.—

“(1) IN GENERAL.—Each participating can-
didate shall file reports of receipts of quali-

died small dollar contributions at such times 
in such manner as the Commission may by 
regulations prescribe.

“(2) CONTENTS OF REPORTS.—Each report 
derived from the Fund shall disclose—

“(A) the amount of each qualified small 
dollar contribution received by the can-
didate;

“(B) the amount of each qualified small 
dollar contribution received by the can-
didate from a resident of the State in which 
the candidate is seeking election; and

“(C) the name, address, and occupation of 
each individual who made a qualified small 
dollar contribution to the candidate.

“(e) FREQUENCY OF REPORTS.—Reports 
derived from the Fund shall be made no more 
frequently than—

“(1) once every month until the date that is 
90 days before the date of the election;

“(2) once every week after the period de-
scribed in subparagraph (a) and until the 
date that is 21 days before the election; and

“(3) once every day after the period de-
scribed in subparagraph (b).

“(f) LIMITATION OF REGULATIONS.—The 
Commission may not prescribe any regula-
tions with respect to reporting under this 
section with respect to any election after the 
date that is 180 days before the date of such 
election.

“(g) APPEALS.—The Commission shall pro-

vide for a written explanation with respect to 
any denial of any payment under this section 
and shall provide the opportunity for review 
and reconsideration within 5 business days of 
such denial.

“SEC. 524. POLITICAL ADVERTISING VOUCHERS.

“(a) IN GENERAL.—The Commission shall 
establish and administer a voucher program 
for the purchase of airtime on broadcasting sta-
tions for political advertisements in ac-
cordance with the provisions of this section.

“(b) CANDIDATES.—The Commission shall 
establish and administer a voucher program 
under subsection (a) to particip-

ts certified pursuant to section 515 who 
have agreed in writing to keep and furnish to 
the Commission financial statements, and 
other information as it may require.

“(c) AMOUNTS.—The Commission shall dis-
burse vouchers to each candidate certified 
under subsection (b) in an aggregate amount 
equal to the greater of—

“(1) $100,000 multiplied by the number of 
congressional districts in the State with 
respect to which such candidate is running 
for office; or

“(2) the amount determined by the Com-
mision under section 531.

“(d) USE.—

“(1) EXCLUSIVE USE.—Vouchers disbursed 
by the Commission under this section may 
be used only for the purchase of broadcast 
airtime for political advertisements relating 
to a general election for the office of Senate 
by the participating candidate to which the 

vo-

}
December 31st of the odd-numbered year follow- 
ing the year in which the voucher was issued by the Commission.

(5) VOUCHER AS EXPENDITURE UNDER FECA.—The value of a broadcast time purchased with a voucher constitutes an expenditure as defined in section 301(9)(A).

(6) DEFINITIONS.—In this section:

(a) The term ‘broadcasting station’ has the meaning given in section 315(f)(1) of the Communications Act of 1934.

(b) The term ‘political party’ means a major party or a minor party as defined in section 902(3) or (4) of the Internal Revenue Code of 1986 (26 U.S.C. 902(3) or 902(4)).

Subtitle D—Administrative Provisions

Section 531. Fair Elections Oversight Board

(a) Establishment.—There is established within the Federal Election Commission an entity to be known as the ‘Fair Elections Oversight Board’.

(b) Structure and Membership.—

(1) In General.—The Board shall be composed of 5 members appointed by the President by and with the advice and consent of the Senate, of whom—

(A) 2 shall be appointed after consultation with the majority leader of the Senate; and

(B) 2 shall be appointed after consultation with the minority leader of the Senate; and

(2) Vacancies.—A vacancy on the Board shall be filled only by the member appointed to fill the vacancy who is an employee of the Federal Government or an officer of a political party or political campaign. No member of the Board may be—

(i) an employee of the Federal Government;

(ii) a registered lobbyist; or

(iii) an officer of a political party or political campaign.

(c) Term.—Members of the Board shall be appointed not later than 60 days after the date of the enactment of this Act.

(d) Chairperson.—The Board shall designate a Chairperson from among the members of the Board.

(e) Duties and Powers.—

(1) Administration.—

(A) In General.—The Board shall have such powers, functions, and duties as the Commission may prescribe, including the power to administer the provisions of this title.

(B) Review of Fair Elections Financing.—

(i) The Board shall conduct a comprehensive review of the Fair Elections Financing program under this title, including—

(A) the maximum dollar amount of qualified small dollar contributions under section 501(11); and

(B) the maximum and minimum dollar amounts for qualifying contributions under section 501(10); and

(ii) the number and value of qualifying contributions a candidate is required to obtain under section 512(a) to qualify for allocations from the Fund; and

(2) Qualifications.—

(B) Continuation of Candidate Obligation.—If a candidate transfers a voucher or portion thereof to a political party committee under subparagraph (A)—

(i) the value of the voucher or portion thereof transferred shall be treated as a contribution from the candidate to the political party committee to the candidate, for purposes of sections 302 and 304;

(ii) the committee may, in exchange, provide to the candidate only funds subject to the prohibitions, limitations, and reporting requirements of title III of this Act; and

(iii) the amount, if identified as a ‘voucher exchange’, shall not be considered a contribution for the purposes of sections 435 and 531.

(e) Value; Acceptance; Redemption.—

(1) Voucher Redemptions.—Each voucher disbursed by the Commission under this section shall have a value in dollars, redeemable upon presentation to the Commission, together with such identification and other information as the Commission may require, for the purchase of broadcast time for political advertisements in accordance with this section.

(2) Acceptance.—A broadcasting station shall accept vouchers in payment for the purchase of broadcast time for political advertisements in accordance with this section.

(3) Redemption.—The Commission shall redeem vouchers accepted by broadcasting stations in accordance with the preferences of the candidate and the requirements of the Commission to ensure the accuracy and integrity of the voucher redemption system.

(4) Expiration.—

(A) Candidates.—A voucher may only be used to pay for broadcast time for political advertisements to be broadcast before midnight on the day before the date of the Federal election in connection with which it was issued and shall be null and void for any other reuse or purpose.

(B) Exception for Political Party Committees.—A voucher held by a political party committee after the date of the Federal election in connection with which it was issued and shall be null and void for any other reuse or purpose.
"(2) QUORUM.—Three members of the Board shall constitute a quorum for purposes of voting, but a quorum is not required for members to meet and hold hearings.

(3) REPORT.—Not later than March 30, 2019, and every 2 years thereafter, the Board shall submit to the Senate Committee on Rules and Administration a report documenting and making recommendations relating to the administrative implementation and enforcement of the provisions of this title.

"(4) ADMINISTRATION.—

"(1) COMPENSATION OF MEMBERS.—

"(A) IN GENERAL.—Each member, other than the Chairperson, shall be paid at a rate equal to the daily equivalent of the minimum annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

"(B) CHAIRPERSON.—The Chairperson shall be paid at a rate equal to the daily equivalent of the minimum annual rate of basic pay prescribed for level III of the Executive Schedule under section 5314 of title 5, United States Code.

"(2) PERSONNEL.—

"(A) DIRECTOR.—The Board shall have a staff headed by an Executive Director. The Executive Director shall be paid at a rate equal to a rate established for the Senior Executive Service under section 5312 of title 5, United States Code.

"(B) STAFF APPOINTMENT.—With the approval of the Chairperson, the Executive Director may appoint such personnel as the Executive Director and the Board determines to be appropriate.

"(C) ACTUARIAL EXPERTS AND CONSULTANTS.—With the approval of the Chairperson, the Executive Director may procure temporary and intermittent services under section 3109(b) of title 5, United States Code.

"(D) DETAIL OF GOVERNMENT EMPLOYEES.—Upon the request of the Chairperson, the head of any Federal agency may detail, without reimbursement, any of the personnel of such agency to the Board to assist in carrying out the duties of the Board. Any such detail shall not interrupt or otherwise affect the civil service status or privileges of the Federal employee.

"(E) OTHER RESOURCES.—The Board shall have reasonable access to materials, resources, statistical data, and other information from the Congress and the agencies of the executive and legislative branches of the Federal Government. The Chairperson of the Board shall make requests for such access in writing when necessary.

"(G) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out the purposes of this subtitle.

"SEC. 532. ADMINISTRATION PROVISIONS.

The Commission shall prescribe regulations to carry out the purposes of this title, including—

"(1) to establish procedures for—

"(A) verifying the amount of valid qualifying contributions with respect to a candidate; and

"(B) effectively and efficiently monitoring and enforcing the limits on the raising of qualified small dollar contributions;

SEC. 122. SMALL BUSINESS HEALTH PLANS.

(a) Tax Treatment of Small Business Health Plans.—A small business health plan (as defined in section 801(a)(1) of the Employee Retirement Income Security Act of 1974) shall be treated as

(i) a group health plan (as defined in section 2791(a)(1) of the Public Health Service Act (42 U.S.C. 300gg–91)); or

(ii) a self-insured group health plan, if such plan is a qualified group health plan described in section 733(a)(5) of the Internal Revenue Code of 1986, by which the sponsor was deemed to be certified under paragraph (1) of subsection (b) of the Internal Revenue Code of 1986, for purposes of applying sections 4980B and 5000 and chapter 100 of the Internal Revenue Code of 1986; and

(b) Rulemaking.—The requirements of this subsection (as amended by this section) shall apply to any small business health plan (as defined in section 733(a)(1) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1191(b)(1))) for purposes of applying parts 6 and 7 of title I of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1161 et seq.) and

SEC. 801. SMALL BUSINESS HEALTH PLANS.

(a) IN GENERAL.—For purposes of this part, the term ‘small business health plan’ means—

(1) a fully insured group health plan, offered by a health insurance issuer in the large group market; or

(2) a self-insured group health plan, whose sponsor is described in subsection (b).

(b) SPONSOR.—The sponsor of a group health plan is described in this subsection if such sponsor—

(1) is a qualified sponsor and receives certification by the Secretary;

(2) is organized and maintained in good faith, with a constitution or bylaws specifically stating its purpose and providing for periodic meetings on at least an annual basis;

(3) is established as a permanent entity; and

(4) does not condition membership on the basis of a minimum group size.

SEC. 802. FILING FEE AND CERTIFICATION OF SMALL BUSINESS HEALTH PLANS.

(a) FILING FEE.—A small business health plan shall pay to the Secretary at the time of filing an application for certification under subsection (b) a filing fee in the amount of $5,000, which shall be available to the Secretary for the sole purpose of administering the certification procedure applicable with respect to small business health plans.

(b) CERTIFICATION.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this part, the Secretary shall prescribe by interim final rule a procedure for certification, applying the requirements given such terms for purposes of section 733 of title XXVII of the Public Health Service Act for the State involved with respect to such issuer; and

(2) PENALTY.—The Secretary may assess a penalty against a State if the Secretary determines that the application for certification of such small business health plan was willfully or with gross negligence, as defined in subparagraph (A) or (B).

SEC. 803. PARTICIPATION AND COVERAGE REQUIREMENTS.

(a) COVERED EMPLOYERS AND INDIVIDUALS.—The requirements of this subsection are treated as the small business health plan if, under the terms of the plan—

(1) each participating employer must be—

(A) a member of the sponsor; or

(B) the sponsor; or

(C) an affiliated member of the sponsor, except that, in the case of a sponsor which is a professional association or other individual-based association, if at least one of the officers, directors, employees of the employer, or at least one of the individuals who are partners in an employer and who actively participate in the business, is a member or such an affiliated member of the sponsor, participating employers may also include such employer.

(b) a participating employer is not treated as a plan sponsor or as an employer under the plan after certification under this part must be—

(1) an active or retired owner (including a self-employed individual with or without employees), officer, director, or employee of, or partner in, a participating employer; or

(2) an employer after the plan is made available under the plan, if no fewer than 2 participating employers or participants described in section 732(d)(3) on the first day of the plan year.

SEC. 710. EXCEPTION TO INCREASE IN COST-SHARING REQUIREMENTS FOR TRICARE PHARMACY BENEFITS PROGRAM FOR BENEFICIARIES WHO LIVE MORE THAN 40 MILES FROM A MILITARY TREATMENT FACILITY.

(a) In General.—Notwithstanding paragraph (6) of section 1074g(a) of title 10, United States Code, as amended by section 708(a), the Secretary of Defense may not increase after the date of the enactment of this Act any cost-sharing amounts under such paragraph with respect to covered beneficiaries described in such paragraph.

(b) Covered Beneficiaries Described.—Covered beneficiaries described in this subsection are eligible covered beneficiaries (as defined in section 1074g(a)(2) of title 10, United States Code) who live more than 40 miles driving distance from the closest military treatment facility to the residence of the beneficiary.

(c) Report on Effect of Increase.—(1) In General.—Not later than 60 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the potential effect, without regard to subsection (a), of the increase in cost-sharing amounts under section 1074g(a)(2) of title 10, United States Code, on covered beneficiaries described in subsection (b).

(2) Elements.—The report required by paragraph (1) shall include an assessment of the increase in cost-sharing amounts described in such paragraph, including the average amount per individual and the aggregate amount.

SA 293. Mr. ROUNDS submitted an amendment intended to be proposed by him to the bill H.R. 2810, to authorize appropriations for fiscal year 2018 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. __. SENSE OF THE SENATE.

It is the Sense of the Senate that—
(1) the committee of jurisdiction of the Senate—
(A) should review the issue of Medicaid expansion and coverage for low-income Americans, and the incentives such expansion provides States for certain services;
(B) should consider legislation that provides incentives for states to prioritize Medicaid services for individuals who have the greatest medical need, including individuals with disabilities;
(C) shall not consider legislation that reduces or eliminates benefits or coverage for individuals who are currently eligible for Medicaid;
(D) should not consider legislation that prevents or discourages a State from expanding its Medicaid program to include groups or individuals or types of services that are operational under current law; and
(E) should not consider legislation that shifts costs to States to cover such care;
(2) Obamacare should be repealed because it increases costs, limits patient choice of health plans and doctors, forces Americans to buy insurance that they do not want, cannot afford, or may not be able to access, increases taxes on middle class families, which is evidenced by the facts that—
(A) premiums for health plans offered on the Federal Exchange have doubled on average over the last 4 years, and those increases are projected to continue;
(B) 70 percent of counties have only a few options for Obamacare insurance in 2017, and at least 40 counties are expected to have zero insurers planning on their Exchange for 2018;
(C) 2,300,000 Americans on the Exchange are projected to have only one insurer to choose from for plan year 2018; and
(D) the Joint Committee on Taxation has identified significant and widespread tax increases on individuals earning less than $200,000; and
(3) Obamacare should be replaced with patient-centered legislation that—
(A) provides for quality, affordable private health care coverage for Americans and their families by increasing competition, State flexibility, and individual choice; and
(B) strengthens Medicaid and empowers States through increased flexibility to best meet the needs of each State’s population.

SEC. 103. QUALIFICATION OF PARTICIPATING PROVIDERS.

(a) Requirement To Be Public or Non-Profit.—

(1) IN GENERAL.—No institution may be a participating provider unless it is a public or not-for-profit institution. Private physicians, private clinics, and private health care providers shall continue to operate as private entities, but are prohibited from being investor owned.

(2) Conversion of Investor-Owned Providers.—A provider of capital to participate shall be required to convert to not-for-profit status.

(3) Private Delivery of Care Requirement.—For-profit providers of care that convert to non-profit status shall remain privately owned and operated entities.

(b) Compensation for Conversion.—The owners of such for-profit providers shall be compensated for reasonable financial losses incurred as a result of the conversion from for-profit to non-profit status.

(c) Salaried Positions.—Salaried positions of investor-owned entities shall be exempt from the provisions of paragraph (3) unless they are required to be converted to not-for-profit status.

(d) Requirements.—The payments to owners of converting for-profit providers shall occur during a 15-year period, through the sale of U.S. Treasury Bonds. Payment for conversions under paragraph (3) shall not be made for loss of business profits.

(e) Mechanism for Conversion Process.—The Secretary shall promulgate a rule that will provide a mechanism to further the timely, efficient, and feasible conversion of for-profit providers of care.

(f) Billing Standards.—

(1) IN GENERAL.—Health care delivery facilities must meet State quality and licensing guidelines as a condition of participation under such program, including guidelines regarding safe staffing and quality of care.

(2) Licensure Requirements.—Participating physicians must be licensed in their State of practice, and meet the quality standards for their area of care. No clinician whose license is under suspension or who is under disciplinary action in any State may be a participating physician.

(g) Participation of Health Maintenance Organizations.—

(1) IN GENERAL.—Non-profit health maintenance organizations that deliver care in their own facilities and employ clinicians on a salaried basis may participate in the program and receive global budgets or capitation payments as specified in section 102.

(2) EXCLUSION OF CERTAIN HEALTH MAINTENANCE ORGANIZATIONS.—Other health maintenance organizations which principally contract with physicians or other providers of services delivered by non-employees shall be classified as insurance plans.

(i) Such organizations shall not be participating physicians, and are subject to the regulations promulgated by reason of section 104(a) (relating to prohibition against duplicating coverage).

(j) FEE FOR SERVICE.—Patients shall have free choice of participating physicians and other clinicians, hospitals, and inpatient care facilities.

SEC. 104. PROHIBITION AGAINST DUPLICATING COVERAGE.

(a) IN GENERAL.—It is unlawful for a private health insurer to sell health insurance coverage that duplicates the benefits provided for under paragraph (2).

(b) Construction.—Nothing in this Act shall be construed as prohibiting the sale of health insurance coverage for any additional benefits not covered by this Act, such as for cosmetic surgery or other services and items that are not medically necessary.

TITLE II—FINANCES

Subtitle A—Establishment and Payments

SEC. 201. BUDGETING PROCESS.

(a) Establishment of Operating Budget and Capital Expenditures Budget.—

(1) IN GENERAL.—To carry out this Act there shall be established on an annual basis consistent with this title—

(A) an operating budget, including amounts for optimal physician, nurse, and other health care staffing;

(B) a capital expenditures budget;

(C) reimbursement levels for providers consistent with title II; and

(D) a health professional education budget, including amounts for the continued funding of resident physician training programs.

(2) REGIONAL ALLOCATION.—After Congress appropriates amounts for the annual budget for the Medicare For All Program, the Director shall provide the regional offices with an annual funding allotment to cover the costs of each region.

(B) Such allotment shall cover global budgets, reimbursements to clinicians, health professional education, clinician requirements, or may receive additional funds from the national program at the discretion of the Director.

(c) OPERATING BUDGET.—The operating budget shall be used for—

(1) payment for services rendered by physicians and other clinicians;

(2) global budgets for institutional providers;

(3) capital payments for capitiated groups; and

(4) administration of the Program.

(d) CAPITAL EXPENDITURES BUDGET.—The capital expenditures budget shall be used for funds needed for—

(1) the construction or renovation of health facilities; and

(2) for major equipment purchases.

(2) OPERATING BUDGET EXCLUSIONS.—The payment to clinicians, health professional educators, and other health care providers receiving global budgets under paragraph (3) shall not be included as part of such a budget.

(3) PAYMENT OF PROVIDERS AND HEALTH MAINTENANCE ORGANIZATIONS.—

(a) Establishing Global Budgets; Monthly Lump Sum.—

(1) IN GENERAL.—The Medicare For All Program, through its regional offices, shall pay each institutional provider of care, including hospitals, nursing homes, community or migrant health centers, home care agencies, or other institutional providers, a monthly lump sum to cover all operating expenses under a global budget.

(2) ESTABLISHMENT OF GLOBAL BUDGETS.—The global budget of a provider shall be set through negotiations between providers, State directors, and regional directors, but are subject to the approval of the Director. The budget shall be negotiated annually, based on past expenditures, projected changes in levels of services, wages and input, costs of a provider's maximum capacity to provide care, and proposed new and innovative programs.

(b) THREE PAYMENT OPTIONS FOR PHYSICIANS AND CERTAIN OTHER HEALTH PROFESSIONALS.—

(1) IN GENERAL.—The Program shall pay physicians, dentists, doctors of osteopathy, osteopathic physicians and surgeons, doctors of optometry, nurse practitioners, nurse midwives, physicians' assistants, and other advanced practice clinicians as licensed and regulated by the States by the following payment methods:

(A) Fee for service payment under paragraph (2). (B) Salaried positions in institutions receiving global budgets under paragraph (3).

(C) Salaried positions within group practice of non-profit health maintenance organizations receiving capitation payments under paragraph (4).

(2) FEE FOR SERVICE.—The Medicare For All Program shall negotiate a simplified fee schedule that is fair and optimal with representatives of physicians and other clinicians, after close consultation with the National Board of Universal Quality and other national and State directors. Initially, the current prevailing fees or reimbursement would be the basis for the fee negotiation for all professional services covered under this Act.

(b) CONSIDERATIONS.—In establishing such schedule, the Director shall take into consideration the following:

(1) The need for a uniform national standard.

(2) The goal of ensuring that physicians, clinicians, pharmacists, and other medical professionals who lose such compensation which reflects their expertise and the value of their services, regardless of geographic region and patient services.

(C) State Physician Practice Review Boards.—The State director for each State, in consultation with representatives of the physician community of that State, shall establish and appoint a physician practice review board to assure quality, cost-effectiveness, and fair reimbursements for physician delivered services.

(D) Final Guidelines.—The Director shall be responsible for promulgating final guidelines to all providers.

(E) Billing.—Under this Act physicians shall submit bills to the regional director on a simple form, or via computer. Interest shall be paid to providers who are not reimbursed within 30 days of submission.

(F) No Balance Billing.—Licensed health care clinicians who accept any payment from the Medicare For All Program may not bill patients for any services furnished.

(G) Uniform Computer Electronic Billing System.—The Director shall create a uniform computerized electronic billing system, including those areas of the United States where electronic billing is not yet established.

(3) SALARIES WITHIN INSTITUTIONS RECEIVING GLOBAL BUDGETS.—

(A) IN GENERAL.—In the case of an institution, such as a hospital, health center, group practice, community and migrant health center, or a home care agency that elects to be paid a monthly global budget for the delivery of health care as well as for education and prevention programs, physicians and other clinicians employed by such institutions shall be reimbursed through a salary included as part of such a budget.

(B) SALARY RANGES.—Salary ranges for health care providers shall be determined in the same way as fee schedules under paragraph (2).

(4) SALARIES WITHIN CAPITATED GROUPS.—

(A) IN GENERAL.—Health maintenance organizations, group practices, and other institutions may elect to be paid capitation payments to cover all outpatient, physician, and medical home care services delivered to patients enrolled to receive benefits through the organization or entity.

(B) SCOPE.—Such capitation may include the costs of services delivered to patients enrolled to receive benefits through the organization or entity.
inpatient and institutional care shall be excluded from capitalization payments, and shall be covered under institutions’ global budget.

(C) PROHIBITION OF SELECTIVE ENROLLMENT.—Patients shall be permitted to enroll or disenroll from such organizations or entities without discrimination and with appropriate notice.

(D) HEALTH MAINTENANCE ORGANIZATIONS.—

Under this Act:

(i) health maintenance organizations shall be required to reimburse physicians based on a salary; and

(ii) financial incentives between such organizations and physicians based on utilization are prohibited.

SEC. 203. PAYMENT FOR LONG-TERM CARE.

(a) ALLOTMENT FOR REGIONS.—The Program shall provide for each region a single budgetary allotment to cover a full array of long-term care services under this Act.

(b) REGIONAL BUDGETS.—Each region shall provide a budget for long-term care providers for the full range of needed services, including in-home, nursing home, and community based care.

(c) BASIS FOR BUDGETS.—Budgets for long-term care services under this section shall be based on past expenditures, financial and clinical performance, utilization, and projected changes in service, wages, and other related factors.

(d) FAVORING NON-INSTITUTIONAL CARE.—

All efforts under this Act shall be made to provide long-term care in a home- or community-based setting, as opposed to institutional care.

SEC. 204. MENTAL HEALTH SERVICES.

(a) IN GENERAL.—The Program shall provide coverage for all medically necessary mental health care on the same basis as the coverage for other conditions. Licensed mental health clinicians shall be paid in the same manner as specified for other health professionals, as provided for in section 202(b).

(b) FAVORING COMMUNITY-BASED CARE.—

The Medicare For All Program shall cover supportive residences, occupational therapy, and other community based care.

(c) BUDGET FOR MENTAL HEALTH.—Budgets for mental health services under this section shall be based on past expenditures, financial and clinical performance, utilization, and projected changes in service, wages, and other related factors.

(d) FAVORING NON-INSTITUTIONAL CARE.—

All efforts under this Act shall be made to provide long-term care in a home- or community-based setting, as opposed to institutional care.

SEC. 205. PAYMENT FOR PRESCRIPTION MEDICATIONS, MEDICAL SUPPLIES, AND MEDICALLY NECESSARY ASSISTIVE EQUIPMENT.

(a) NEGOTIATED PRICES.—The prices to be paid each year under this Act for covered pharmaceuticals, medical supplies, and medically necessary assistive equipment shall be negotiated annually by the Program.

(b) PRESCRIPTION DRUG FORMulary.—

(i) IN GENERAL.—The Program shall establish a prescription drug formulary system, which shall encourage best-practices in prescribing, discourage the use of ineffective, dangerous, or excessively costly medications when better alternatives are available.

(ii) PROMOTION OF USE OF GENERICs.—The formulary shall promote the use of generic medications but allow the use of brand-name and off-formulary medications.

(iii) FUNDAMENTAL UPDATES AND PETITION RIGHTS.—The formulary shall be updated frequently and clinicians and patients may petition their region or the Director to add new pharmaceuticals or to remove ineffective or dangerous medications from the formulary.

SEC. 206. CONSULTATION IN ESTABLISHING REGIONAL AND STATE DIRECTORS.

Reimbursement levels under this subtitle shall be set after close consultation with regional and State Directors and after the annual meeting of National Board of Universal Quality and Access.

Subtitle B—Funding

SEC. 211. OVERVIEW; FUNDING THE MEDICARE FOR ALL PROGRAM.

(a) IN GENERAL.—The Medicare For All Program is to be funded as provided in subsection (c)(1).

(b) MEDIcare FOR ALL TRUST FUND.—There shall be established a Medicare For All Trust Fund in which funds provided under this section are deposited and from which expenditures under this Act are made.

(c) FUNDING.—

(i) IN GENERAL.—There are appropriated to the Medicare For All Trust Fund amounts sufficient to carry out this Act from the following sources:

(A) Existing sources of Federal Government revenues for health care.

(B) Increasing personal income taxes on the top 5 percent income earners.

(C) Instituting a modest and progressive excise tax on payroll and self-employment income.

(D) Instituting a modest tax on unearned income.

(E) Instituting a small tax on stock and bond transactions.

(ii) SYSTEM SAVINGS AS A SOURCE OF FINANCING.—Funding otherwise required for the Program is reduced as a result of—

(A) Vastly reducing paperwork;

(B) Requiring a rational bulk procurement of medications under section 205(a); and

(C) Improved access to preventive health care.

(iii) ADDITIONAL ANNUAL APPROPRIATIONS TO MEDIcare FOR ALL PROGRAM.—Additional sums are authorized to be appropriated annually as needed to maintain maximum quality, efficiency, and access under the Program.

SEC. 212. APPROPRIATIONS FOR EXISTING PROGRAMS.

Notwithstanding any other provision of law, there are hereby transferred and appropriated to carry out this Act, amounts from the Treasury equal to the amounts the Secretary estimates would have been appropriated under the Medicare program under title XVIII of the Social Security Act, under the Medicaid program under title XIX of such Act, and under the Children’s Health Insurance Program under title XXI of such Act.

TI TLE III—ADMINISTRATION

SEC. 301. PUBLIC ADMINISTRATION; APPOINTMENT OF DISPLACED CLERICAL WORKERS.

(a) ESTABLISHMENT OF MEDICARE FOR ALL PROGRAM REGIONAL OFFICES.—The Secretary shall establish and maintain Medicare For All regional offices for the purpose of distributing funds to provide services. Whenever possible, the Secretary should incorporate pre-existing Medicare infrastructure for this purpose.

(b) APPOINTMENT OF REGIONAL AND STATE DIRECTORS.—In each such regional office there shall be—

(1) one regional director appointed by the Director; and

(2) for each State in the region, a deputy director (in this Act referred to as a “State Director”) appointed by the governor of that State.

(c) REGIONAL OFFICE DUTIES.—Regional offices of the Program shall be responsible for—

(1) coordinating funding to health care providers and physicians; and

(2) coordinating billing and reimbursement with physicians and health care providers through a State-based reimbursement system.

(d) STATE DIRECTOR’S DUTIES.—Each State Director shall be responsible for the following duties:

(1) Providing an annual State health care needs assessment report to the National Board for Universal Quality and Access, and the regional board, after a thorough examination of health needs, in consultation with public health officials, clinicians, patients, and patient advocates.

(2) Health planning, including oversight of the placement of new hospitals, clinics, and other health care delivery facilities.

(3) Health planning, including oversight of the purchase and placement of new health equipment to ensure timely access to care and to avoid duplication.

(4) Submitting annual budgets to the regional director.

(5) Recommending changes in provider reimbursement or payment for delivery of health services in the State.

(6) Establishing a quality assurance mechanism in the State in order to minimize both under utilization and over utilization and to assure that all providers meet high quality standards.

(7) Reviewing program disbursements on a quarterly basis and recommending needed adjustments in fee schedules needed to achieve budgetary targets and assure adequate access to needed care.

SEC. 302. OFFICE OF QUALITY CONTROL.

The Director shall appoint a director for an Office of Quality Control. Such director shall, after consultation with State and regional directors, provide annual recommendations to the President, the Secretary, and other Program officials on how to ensure the highest quality health care service delivery. The director of the Office of Quality Control shall conduct an annual review on the adequacy of medically necessary services, and shall make recommendations of any proposed changes to the Congress, the President, the Secretary, and other Medicare For All Program officials.

SEC. 303. REGIONAL AND STATE ADMINISTRATION; EMPLOYMENT OF DISPLACED CLERICAL WORKERS.

(a) ESTABLISHMENT OF MEDICARE FOR ALL PROGRAM REGIONAL OFFICES.—The Secretary shall establish and maintain Medicare For All regional offices for the purpose of distributing funds to provide services. Whenever possible, the Secretary should incorporate pre-existing Medicare infrastructure for this purpose.

(b) APPOINTMENT OF REGIONAL AND STATE DIRECTORS.—In each such regional office there shall be—

(1) one regional director appointed by the Director; and

(2) for each State in the region, a deputy director (in this Act referred to as a “State Director”) appointed by the governor of that State.

(c) REGIONAL OFFICE DUTIES.—Regional offices of the Program shall be responsible for—

(1) coordinating funding to health care providers and physicians; and

(2) coordinating billing and reimbursement with physicians and health care providers through a State-based reimbursement system.

(d) STATE DIRECTOR’S DUTIES.—Each State Director shall be responsible for the following duties:

(1) Providing an annual State health care needs assessment report to the National Board for Universal Quality and Access, and the regional board, after a thorough examination of health needs, in consultation with public health officials, clinicians, patients, and patient advocates.

(2) Health planning, including oversight of the placement of new hospitals, clinics, and other health care delivery facilities.

(3) Health planning, including oversight of the purchase and placement of new health equipment to ensure timely access to care and to avoid duplication.

(4) Submitting annual budgets to the regional director.

(5) Recommending changes in provider reimbursement or payment for delivery of health services in the State.

(6) Establishing a quality assurance mechanism in the State in order to minimize both under utilization and over utilization and to assure that all providers meet high quality standards.

(7) Reviewing program disbursements on a quarterly basis and recommending needed adjustments in fee schedules needed to achieve budgetary targets and assure adequate access to needed care.
which expenditures shall be made to recipients of the benefits allocated in subsection (a).

(b) PATIENT OPTION.—Notwithstanding that all billing shall be performed electronically, patients shall have the option of keeping any portion of their medical records separate from their electronic medical record.

SEC. 305. NATIONAL BOARD OF UNIVERSAL QUALITY AND ACCESS.

(a) Establishment.—

(1) In general.—There is established a National Board of Universal Quality and Access (in this section referred to as the ‘‘Board’’) consisting of 15 members appointed by the Secretary, by and with the advice and consent of the Senate.

(2) Qualifications.—The appointed members of the Board shall include at least one of the following of each:

SEC. 833. BENEFITS OF THE MEDICAID PROGR. AM.

Not after than 90 days after the date of the enactment of this Act, the Secretary of Health and Human Services established the program for low-income, non-elderly individuals to take the eligible or reducing Federal assistance to States available under section 1902(a)(10)(A)(i)(VIII) of the Social Security Act (42 U.S.C. 1396d(y)(1), 1996(c)(2)) or other means, unless the Director of the Congressional Budget Office certifies that the legislation would not—

(1) increase the number of uninsured Americans;

(2) decrease Medicaid enrollment in States that have opted to expand eligibility for medical assistance under that program for low-income, non-elderly individuals under the eligibility option established by the Affordable Care Act under section 1902(a)(10)(A)(i)(VIII) of the Social Security Act (42 U.S.C. 1396d(y)(1), 1996(c)(2));

(3) reduce the likelihood that any State that, as of the date of the adoption of this Amendment, was not opted under the eligibility option established by the Affordable Care Act under section 1902(a)(10)(A)(i)(VIII) of the Social Security Act (42 U.S.C. 1396d(y)(1), 1996(c)(2)) would opt to that eligibility option to expand eligibility for medical assistance under that program for low-income, non-elderly individuals.

(4) increase the State share of Medicaid spending under that eligibility option.

(b) Waivers and determinations (a) may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn. An affirmative vote of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under subsection (a).

(a) IN GENERAL.—Subchapter E of chapter 32 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

SECTION 4192. OPIOID PAIN RELIEVERS.

“(a) IN GENERAL.—There is hereby imposed on the sale of any active opioid by the manufacturer, producer, or importer a fee equal to 1 cent per milligram so sold.

“(b) ACTIVE OPIOID.—For purposes of this section—

“(1) IN GENERAL.—The term ‘active opioid’ means any controlled substance (as defined in section 102 of the Controlled Substances Act, as in effect on the date of the enactment of this section) which is opium, an opiate, or any derivative thereof.

“(2) EXCLUSION FOR CERTAIN PRESCRIPTION MEDICATIONS.—Such term shall not include any prescribed drug which is used exclusively for the treatment of opioid addiction as part of a medically assisted treatment effort.

“(3) EXCLUSION OF OTHER INGREDIENTS.—In the case of a product that includes an active opioid and another ingredient, subsection (a) shall apply only to the portion of such product that is an active opioid.

“(b) CLERICAL AMENDMENTS.

“(1) The heading of subchapter E of chapter 32 of the Internal Revenue Code of 1986 is amended by striking ‘Medical Devices’ and inserting ‘Other Medical’.

(A) In general.—In the case of individuals who are married to each other, if both spouses have family coverage under a high deductible health plan as of the first day of any month—

(i) the limitation under paragraph (1) shall be applied by not taking into account any other high deductible health plan coverage of either spouse (and if such spouses both have family coverage under separate high deductible health plans, only one such coverage shall be taken into account),

(ii) such limitation (after application of clause (i)) shall be reduced by the aggregate amount paid to Archer MSAs of such spouses for the taxable year, and

(iii) such limitation (after application of clauses (i) and (ii)) shall be divided equally between such spouses unless they agree on a different division.

(B) Treatment of additional contribution amounts.—If the total amount of Federal, State, and local expenditures under the Medicaid program under title XIX of the Social Security Act in fiscal year 2014 made directly to the prohibited entity or any affiliate, subsidiary, or clinical entity, or made directly to the prohibited entity and to any affiliates, subsidiaries, successors, or clinics of the entity as part of a nationwide health care provider network, exceeded $1,000,000,000, the ‘‘treatment spending’’ has the meaning given that term under section 250(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900(c)).

(ec) Effect Date.—The amendment made by this section shall apply with respect to coverage under a high deductible health plan beginning after December 31, 2017.

SEC. 118. SPECIAL RULE FOR CERTAIN MEDICAL EXPENSES INCURRED BEFORE ESTABLISHMENT OF HEALTH SAVINGS ACCOUNT.

(a) In General.—Section 223(b)(2)(D) of the Internal Revenue Code of 1986 is amended by adding at the end the following new paragraph:

‘‘(D) Treatment of certain medical expenses incurred before establishment of account.—If a health savings account is established during the 60-day period beginning on the date that coverage of the account beneficiary under a high deductible health plan begins, then, solely for purposes of determining whether an amount paid is used for a qualified medical expense, such account shall be treated as having been established on the date that such coverage begins.’’

(b) Effective Date.—The amendment made by this section shall apply with respect to coverage under a high deductible health plan beginning after December 31, 2017.

SEC. 119. EXCLUSION FROM HSAS OF HIGH DEDUCTIBLE HEALTH PLANS INCLUDING COVERAGE FOR ABORTIONS.

(a) In General.—Subsection (d) of section 223(d)(2) of the Internal Revenue Code of 1986 is amended by adding at the end the following flush statement:

‘‘A high deductible health plan shall not be treated as described in clause (v) if such plan includes coverage for abortions (other than coverage necessary to save the life of the mother) or for a pregnancy that is the result of an act of rape or incest.’’

(b) Effective Date.—The amendment made by this section shall apply with respect to coverage under a high deductible health plan beginning after December 31, 2017.

SEC. 120. FEDERAL PAYMENTS TO STATES.

(a) In General.—Notwithstanding section 504(a), 1902(a)(23), 1903(a), 2002, 2005(a)(4), 2102(a)(7), or 2106(a)(1) of the Social Security Act (42 U.S.C. 704(a), 1397a(a), 1397a(a)(4), 1397b(a)(7), 1397ee(a)(1), or the terms of any Medicaid waiver in effect on the date of enactment of this Act that is applied under section 1115 or 1118 of the Social Security Act (42 U.S.C. 1115, 1118a), for the 1-year period beginning on the date of enactment of this Act, no Federal funds provided under this subsection that is considered direct spending for any year may be made available to a State for payments to a prohibited entity, whether made directly to the prohibited entity or through a managed care organization under contract with the State.

(b) Definitions.—In this section:

(1) Prohibited entity.—The term ‘‘prohibited entity’’ means an entity, including its affiliates, subsidiaries, successors, and clinics—

(A) that, as of the date of enactment of this Act—

(i) is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code;

(ii) is an essential community provider described in section 156235 of title 45, Code of Federal Regulations (as in effect on the date of enactment of this Act), that is primarily engaged in family planning services, reproductive health, and related medical care; and

(iii) provides for abortions, other than an abortion—

(I) if the pregnancy is the result of an act of rape or incest; or

(II) in the case where a woman suffers from a physical disorder, physical injury, or physical illness that would, as certified by a physician, place the woman in danger of death unless an abortion is performed, including a life-endangering physical condition caused by or arising from the pregnancy itself; and

(B) for which the total amount of Federal and State expenditures under the Medicaid program under title XIX of the Social Security Act in fiscal year 2014 made directly to the entity and to any affiliates, subsidiaries, successors, or clinics of the entity, made directly to the entity and to any affiliates, subsidiaries, successors, or clinics of the entity as part of a nationwide health care provider network, exceeded $1,000,000,000.

(2) Direct spending.—The term ‘‘direct spending’’ has the meaning given that term under section 250(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900(c)).

SEC. 121. MEDICAID.

The Social Security Act (42 U.S.C. 501 et seq.) is amended—

(1) in section 1902—

(A) in subsections (a)(10)(A), (a)(10)(B), and (a)(10)(C), by striking ‘‘(including by reason of section 1222(g)(1) of such Code)’’

(B) in subsection (a)(47), by inserting ‘‘and (II)’’ before ‘‘(II) any other high deductible health plan coverage under subparagraph (A) for the taxable year’’;

(C) in subsection (f)(1) and (f)(2), by adding at the end the following new paragraph:

‘‘(g) FEDERAL PAYMENTS TO STATES.—The Social Security Act (42 U.S.C. 501 et seq.) is amended—

(1) in subsection (a)(7)(A), by striking ‘‘(including by reason of section 1222(g)(1) of such Code)’’

(b) Effective Date.—The amendment made by this section shall apply with respect to coverage under a high deductible health plan beginning after December 31, 2017.
SEC. 122. REPEAL OF MEDICAID EXPANSION.

Title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) is amended—

(1) in section 1902 (42 U.S.C. 1396a) as amended by striking “in or after the month in which the recipient makes application for assistance” and inserting “or in after the third month before the month in which the recipient makes application for assistance, or, in the case of a recipient who is 65 years of age or older who is eligible for medical assistance on the basis of age”;

(2) in clause (i)(VIII), by striking “and”; and

(3) in section 1905 (42 U.S.C. 1396d) as amended by inserting “in or after the third month before the month in which the recipient makes application for assistance,”.

the excess aggregate medical assistance payments (as defined in paragraph (3) for that previous fiscal year. In this section, the term 'State' means only the 50 States and the District of Columbia.

"(2) EXCESS AGGREGATE MEDICAL ASSISTANCE EXPENDITURES.—In this subsection, the term 'excess aggregate medical assistance expenditures' for a State for a fiscal year, the amount (if any) by which—

(A) the amount of the adjusted total medical assistance expenditures (as defined in subsection (c)(3)) for the State and fiscal year; exceeds

(B) the Federal average medical assistance matching percentage (as defined in paragraph (4)); and

"(3) FEDERAL AVERAGE MEDICAL ASSISTANCE MATCHING PERCENTAGE.—In this subsection, the term 'Federal average medical assistance matching percentage' means, for a State for a fiscal year, the ratio (expressed as a percentage) of—

(A) the amount of the Federal payments that would be made to the State under section 1903(a)(1) for medical assistance expenditures for calendar quarters in the fiscal year referred to in paragraph (1) that did not apply to—

(B) the amount of the medical assistance expenditures for the State and fiscal year.

"(4) FEDERAL AVERAGE MEDICAL ASSISTANCE MATCHING PERCENTAGE.—In this subsection, the term 'Federal average medical assistance matching percentage' means, for a State for a fiscal year, the ratio (expressed as a percentage) of—

(A) the amount of the Federal payments that would be made to the State under section 1903(a)(1) for medical assistance expenditures for calendar quarters in the fiscal year referred to in paragraph (1) that did not apply to—

(B) the amount of the medical assistance expenditures for the State and fiscal year.

"(5) BASE PERIOD.—

(A) IN GENERAL.—In this section, the term 'per capita base period' means—

(i) only select a period of 8 (or, in the case of a State selecting a period under subparagraph (C), not less than 4) consecutive fiscal quarters for which all the data necessary to make determinations required under this section is available, as determined by the Secretary; and

(ii) shall not select any period of 8 (or, in the case of a State selecting a period under subparagraph (C), not less than 4) consecutive fiscal quarters that begins with a fiscal quarter earlier than the first quarter of fiscal year 2014 or ends with a fiscal quarter later than the third fiscal quarter of 2017.

(B) BASE PERIOD FOR LATE-EXPANDING STATES.—

(i) IN GENERAL.—In the case of a State that did not provide for medical assistance for the 1903A enrollee category described in subsection (e)(2)(D) as of the first day of the fourth fiscal quarter of fiscal year 2015 but which provided for such assistance for such category in a subsequent fiscal quarter that is not later than the fourth quarter of fiscal year 2016, the State may select a per capita base period that is less than 8 consecutive fiscal quarters, no case shall the period selected be less than 4 consecutive fiscal quarters.

(ii) APPLICATION OF OTHER REQUIREMENTS.—In the case of a State selecting a period under this subparagraph, all other requirements described in paragraphs (1) through (3) of this section shall apply to such period as if such period were a period of 8 consecutive fiscal quarters.

"(3) EXCLUDED EXPENDITURES.—In this section, the term 'excluded expenditures' includes—

(A) DSH payments made for disproportionate share hospitals under section 1922(2),

(b) MEDICARE COST-SHARING.—Payments made for medicare cost-sharing (as defined in section 1905(p)(3)).

(C) SAFETY NET PROVIdER PAYMENT ADJUSTMENTS IN NON-EXPANSION STATES.—Payment adjustments under subsection (a) of section 1923A for which payment is permitted under subsection (c) of such section.

"(4) 1903A BASE PERIOD POPULATION PERCENTAGE.—In this subsection, the term '1903A base period population percentage' means, for a State, the Secretary's calculation of the percentage of the aggregate of medical assistance expenditures, as reported by the Secretary on the CMS–64 reports for calendar quarters in the State's per capita base period, that are attributable to 1903A enrollees (as defined in subsection (e)(1))

"(5) ADJUSTMENTS FOR PER CAPITA BASE PERIOD.—In calculating medical assistance expenditure payments under paragraph (2) and excluded expenditures under paragraph (3) for a State for its per capita base period, the total amount of each type of expenditure for the State and base period shall be divided by 2.

"(6) AUTHORITY TO EXCLUDE STATE EXPENDITURES FROM CMS-64 REPORTS DURING PUBLIC HEALTH EMERGENCIES.—

(A) IN GENERAL.—During the period that begins on January 1, 2020, and ends on December 31, 2024, the Secretary may exclude, from a State's medical assistance expenditure payments for a fiscal year or portion of a fiscal year that occurs during such period, an amount that shall not exceed the amount determined under subparagraph (B) for the State and year or portion of a year if—

(i) a public health emergency declared by the Secretary pursuant to section 319 of the Public Health Service Act existed within the State during such year, or portion of a year;

(ii) the Secretary determines that such an exemption would be appropriate.

(B) MAXIMUM AMOUNT OF EXCLUSION.—The amount excluded for a State and fiscal year or portion of a fiscal year under this paragraph shall not exceed the amount by which—

(i) the amount of State expenditures for medical assistance for 1903A enrollees in the State in the fiscal year or portion of a fiscal year; and

(ii) the amount of Federal payments made for 1903A enrollees in the State in the fiscal year or portion of a fiscal year.

(C) AGGREGATE LIMITATION ON EXCLUSIONS AND ADDITIONAL BLOCK GRANT PAYMENTS.—In addition to the amount of expenditures excluded under this paragraph and additional payments made under section 1903B(c)(3)(E) for the period described in subparagraph (A) that exceed $5,000,000,000.

(D) REVIEW.—The aggregate limitation under subparagraph (C) shall not apply after November 30, 2024.

"(7) Clause (iii) of section 2107(a)(3) of title 20 shall not apply to amounts for per capita base periods selected under this section.
"(c) Target Total Medical Assistance Expenditures.—

(1) Calculation.—In this section, the term ‘target total medical assistance expenditures for a State for a fiscal year’ means the sum of the products, for each of the 1903A enrollee categories (as defined in subsection (e)(2)),—

(A) the target per capita medical assistance expenditures (as defined in paragraph (2)) for the enrollee category, State, and fiscal year; and

(B) the number of 1903A enrollees for such enrollee category, State, and fiscal year, as determined under subsection (e)(4).

(2) Target Per Capita Medical Assistance Expenditures.—In this subsection, the term ‘target per capita medical assistance expenditures’ means, for a 1903A enrollee category and State—

(A) for fiscal year 2020, an amount equal to—

(i) the provisional FY19 target per capita amount for such enrollee category (as calculated under subsection (d)(5)) for the State, increased by

(ii) the applicable annual inflation factor (as defined in paragraph (3)) for fiscal year 2020; and

(B) for each succeeding fiscal year, an amount equal to—

(i) the target per capita medical assistance expenditures (as defined in subparagraph (A) or this subparagraph) for the 1903A enrollee category and State for the preceding fiscal year; increased by

(ii) the applicable annual inflation factor for that succeeding fiscal year.

(3) Applicable Annual Inflation Factor.—In paragraph (2), the term ‘applicable annual inflation factor’ means—

(A) for fiscal years before 2025—

(i) for each of the 1903A enrollee categories described in subparagraphs (C), (D), and (E) of subsection (e)(2), the percentage increase in the medical care component of the consumer price index for all urban consumers (U.S. city average) from September of the previous fiscal year to September of the fiscal year involved; and

(ii) for each of the 1903A enrollee categories described in subparagraphs (A) and (B) of subsection (e)(2), the percentage increase described in clause (i) plus 1 percentage point; and

(B) for fiscal years after 2025, for all 1903A enrollee categories, the percentage increase in the consumer price index for all urban consumers (U.S. city average) from September of the previous fiscal year to September of the fiscal year involved.

(4) Adjustments to State Expenditures Targets to Promote Program Equity Across States.—

(A) In General.—Beginning with fiscal year 2020, the target per capita medical assistance expenditures for a 1903A enrollee category, State, and fiscal year, as determined under subsection (2), shall be adjusted for the fiscal year involved by a percentage that shall be determined by the Secretary but which shall not be less than 0.5 percent or greater than 2 percent; or

(ii) are less than the mean per capita categorical medical assistance expenditures for such category for the fiscal year in which the target per capita medical assistance expenditures for such category for the fiscal year involved was equal to or greater than the Secretary shall determine by the Secretary but which shall not be less than 0.5 percent or greater than 2 percent.

(C) Rules of Construction.—

(I) Budget Neutrality Requirement.—In determining the appropriate percentages by which to adjust the target per capita medical assistance expenditures for a category and fiscal year under this paragraph, the Secretary shall make such adjustments in a manner that does not result in a net increase in Federal payments under this section for such fiscal year, and if the Secretary cannot adjust such expenditures in such a manner there shall be no adjustment under this paragraph for such fiscal year.

(II) Assumption Regarding State Expenditures.—For purposes of clause (i), in the case of a State’s target per capita medical assistance expenditures for a 1903A enrollee category and fiscal year increased under this paragraph, the Secretary shall assume that the categorical medical assistance expenditures (as defined in subparagraph (D)(ii)) for such State, category, and fiscal year will equal such increased target medical assistance expenditures.

(III) Nonapplication to Low-Density States.—This paragraph shall not apply to any State that has a population density of less than 15 individuals per square mile, based on the most recent data available from the Bureau of the Census.

(IV) Disregard of Adjustment.—Any adjustment under this paragraph to target medical assistance expenditures for a State, 1903A enrollee category, and fiscal year shall be disregarded when determining the target medical assistance expenditures for such State and category for a succeeding year under paragraph (2).

(V) Application for Fiscal Years 2020 and 2021.—In fiscal years 2020 and 2021, the Secretary shall apply this paragraph by deeming all categories of 1903A enrollees to be a single category.

(VI) Per Capita Categorical Medical Assistance Expenditures.—

(I) In General.—In this paragraph, the term ‘per capita categorical medical assistance expenditures’ means, with respect to a State, 1903A enrollee category, and fiscal year, an amount equal to—

(A) the categorical medical expenditures (as defined in clause (ii)) for the State, category, and year; divided by

(B) the number of 1903A enrollees for the State, category, and year.

(II) Categorical Medical Assistance Expenditures.—The term ‘categorical medical assistance expenditures’ means, with respect to a State, 1903A category, and fiscal year, an amount equal to the sum of—

(A)(i) for each 1903A enrollee category, an expenditure (subject to subparagraph (C)(i)) for the State for the fiscal year in which such item or service is provided that is attributable to expenditures described in clause (iii) or non-DSH supplemental expenditures (as defined in clause (ii)) and is authorized under section 1923; and

(ii) is not made with respect to a specific item or service for an individual;

(III) is in addition to any payments made to the provider under the plan (or waiver) for any such item or service; and

(IV) complies with the limits for additional payments under the plan (or waiver) for such item or service, determined under regulations (or any successor regulations).

(III) An expenditure described in this clause is an expenditure that meets the criteria specified in subclauses (I), (II), and (III) of clause (ii) and is authorized under section 1151 for the purposes of funding a delivery system reform pool, uncompensated care expenses designated State high priority program, or any other similar expenditure (as defined by the Secretary).

(2) Per Capita Expenditures for Fiscal Year 2019 for Each 1903A Enrollee Category.—The Secretary shall calculate (and provide notice to each State not later than January 1, 2020, of) the following:

(A)(I) For each 1903A enrollee category, the amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State for fiscal year 2019.

(B) The number of 1903A enrollees for the State in fiscal year 2019 (as determined under subsection (e)(4)).

(3) Aggregate and Average Expenditures Per Capita for Fiscal Year 2019.—The Secretary shall calculate for each State the following:

(A) The amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State for fiscal year 2019.

(B) The number of 1903A enrollees for the State in fiscal year 2019 (as determined under subsection (e)(4)).

(4) Per Capita Expenditures for Fiscal Year 2019 for Each 1903A Enrollee Category.—The Secretary shall calculate (and provide notice to each State not later than January 1, 2020, of) the following:

(A)(I) For each 1903A enrollee category, the amount of the adjusted total medical assistance expenditures (as defined in subsection (b)(1)) for the State for fiscal year 2019.

(B) The number of 1903A enrollees for the State in fiscal year 2019 (as determined under subsection (e)(4)).
"(C) For the State's per capita base period, the State's non-DSH supplemental and pool payment percentage is equal to the ratio (expressed as a percentage) of—

(i) the amount of non-DSH supplemental expenditures (as defined in subparagraph (A)(i) and adjusted under subparagraph (E) and payments described in subparagraph (F) and pool payments described in subparagraph (E) for the State for the period; to

(ii) the amount described in subsection (b)(1)(B) of the repeal of the Section for the State's per capita base period.

"(D) For each 1903A enrollee category an average medical assistance expenditures per capita for the State for fiscal year 2019 for the enrollee category equal to—

(i) the amount calculated under subparagraph (A), increased by the non-DSH supplemental and pool payment percentage for the State (as calculated under subparagraph C(i)); divided by

(ii) the number calculated under subparagraph (B) for the State for the enrollee category.

"(E) For purposes of subparagraph (C)(i), in calculating the total amount of non-DSH supplemental expenditures and payments described in subparagraph (A)(ii) for a State for the per capita base period, the total amount of such expenditures and the total amount of such payments for the State for the fiscal year and base period shall each be divided by 2.

"(F) Provisional FY19 per Capita Target Amount for Each 1903A Enrollee Category.—

Subject to subsection (D)(2), the Secretary shall calculate for each State a provisional FY19 per capita target amount for each 1903A enrollee category equal to the average medical assistance expenditures per capita for the State for fiscal year 2019 (as calculated under paragraph (A)(iii)) for such enrollee category multiplied by the ratio of—

(A) Required—

(i) the fiscal year 2019 average per capita amount for the State, as calculated under paragraph (2); and

(ii) the number of 1903A enrollees for the State in fiscal year 2019, as calculated under paragraph (3)(B); to

(B) the amount of the adjusted total medical assistance expenditures and payments for the State for fiscal year 2019, as calculated under paragraph (3)(A).

"(G) 1903A Enrollee; 1903A Enrollee Category; Child Enrollee.—

Subject to paragraph (1)(B), the Secretary shall calculate for each State a 1903A enrollee category (not described in a previous subparagraph) who—

(i) is 19 years of age or older; and

(ii) is eligible for medical assistance under this title on the basis of being blind or disabled.

"(H) 1903A Enrollee Category.—The term '1903A enrollee category' means each of the following:

(A) Elderly.—A category of 1903A enrollees who are 65 years of age or older.

(B) Blind and Disabled.—A category of 1903A enrollees who are eligible for medical assistance under this title on the basis of being blind or disabled.

(C) Children.—A category of 1903A enrollees (not described in a previous subparagraph) who are enrolled in the State plan approved under section 1115, as defined in subparagraph (C)(ii), who are children under 19 years of age.

(D) Expansion Enrollees.—A category of 1903A enrollees (not described in a previous subparagraph) who are eligible for medical assistance under this title on the basis of being blind or disabled.

(E) Other Nonelderly, Nondisabled, Non-expansion Adults.—A category of 1903A enrollees who are not described in any previous subparagraph.

(F) Medicaid Enrollee.—The term 'Medicaid enrollee' means, with respect to a State for a month, an individual who is eligible for medical assistance for items or services under this title and enrolled under the State plan (or a waiver of such plan) under this title for the month.

(G) Determination of Number of 1903A Enrollees.—The number of 1903A enrollees for a State and fiscal year or the State's per capita base period, and, if applicable, for a 1903A enrollees who are not described in subparagraph (C) who are enrolled in the State plan (or a waiver of such plan) under this title for the month.

(H) Special Payment Rules.—

(1) Calculation in Case of Research and Demonstration Projects and Other Waivers.—In the case of the State with a waiver of the State plan approved under section 1115, section 1115A, or section 1116 of this title, this section shall apply to medical assistance expenditures and medical assistance payments under the waiver, in the same manner as if such expenditures and payments had been made under a State plan under this title and the limitations on expenditures under this section shall supersede any other limitation in this section (including limitations based on a per capita limitation) otherwise applicable under such a waiver.

(2) Treatment of States Expanding Coverage After January 1, 2016.—In the case of a State that did not provide for medical assistance for the 1903A enrollee category described in subparagraph (A) before July 1, 2016, but which subsequently provides for such assistance for such category, the proportional increase in Federal matching percentage to support improved data reporting systems for fiscal years 2018 and 2019 shall be increased by 25 percentage points to 100 percent.

(3) Required Reports; Federal Matching Percentage for Certain Administrative Expenses.—

(A) CMS-64 Data.—The Secretary shall conduct for each State an audit of the number of individuals and expenditures reported through the CMS–64 report for the State's per capita base period, fiscal year 2019, and each subsequent fiscal year, which audit may be conducted on a representative sample (as determined by the Secretary).

(B) Section 1117(b) Audit.—The Inspector General of the Department of Health and Human Services shall conduct an audit (which shall be conducted using random sampling and as determined by the Inspector General) of each State's spending under this section not less than once every 3 years.

(C) Temporary Increase in Federal Matching Percentage to Support Improved Data Reporting Systems for Fiscal Years 2018 and 2019.—In the case of any State that selects as its per capita base period the most recent 8 consecutive quarter period for which data are not satisfactory submitted to the Secretary, the Federal matching percentage shall be increased by 25 percentage points to 100 percent. Not later than January 1, 2018, the Inspector General shall submit a report making recommendations as to whether data from the year 2018 are made available to the Secretary, and the number of Medicaid enrollees for whom the State meets the Federal matching percentage to support improved data reporting systems for fiscal years 2018 and 2019 shall be increased by 25 percentage points to 100 percent.

(D) HHFI Report on Adoption of T-MHS Data.—Not later than January 1, 2018, the Secretary shall make a determination as to whether using this data to make determinations required under this section is available, for amounts expended during calendar quarters beginning on October 1, 2017, and before October 1, 2019—

(A) The Federal matching percentage described in subparagraph (a) shall be the percentage of such expenditures and payments applicable under subsection (d) that is equal to the Federal matching percentage described in subsection (c)(2)(B) shall be increased by 25 percentage points to 100 percent.

"(A) IN GENERAL.—As a condition of receiving the increased Federal medical assistance percentage described in paragraph (4)(B), each eligible State shall collect and report information to the Secretary, for the purposes of providing Federal oversight and evaluating the State's compliance with the health and welfare and financial accountability safeguards taken by the State under subsection (c)(2)(A).

(B) FORMS.—Expenditures by eligible States on HCBS payment adjustments shall be separately reported on the CMS-44 Form and in T-MSIS.

(6) DEFINITIONS.—In this subsection:

(A) ELIGIBLE STATE.—The term 'eligible State' means:

(i) one of the 50 States or the District of Columbia;

(ii) has in effect—

(1) a waiver under subsection (c) or (d); or

(2) a State plan amendment under subsection (i);

(B) FMAP APPLICABLE TO HCBS PAYMENT ADJUSTMENTS.—The term 'FMAP applicable to HCBS payment adjustments' means HCBS payment adjustments made by an eligible State to the amount of payment otherwise provided under a waiver under subsection (c) or (d) of the payment adjustment provided to a 1903A enrollee (as defined in section 1903A(e)(1)) who is in the enrollee category described in subparagraph (A) or (B) of section 1903A(e)(2).

SEC. 128. FLEXIBLE BLOCK GRANT OPTION FOR STATES.

Title XIV of the Social Security Act, as previously amended, is further amended by inserting after section 1903A the following new section:

SEC. 1903B. MEDICAID FLEXIBILITY PROGRAM.

(A) IN GENERAL.—Beginning with fiscal year 2020, any State (as defined in subsection (e)) that has an application approved by the Secretary under subsection (b) may conduct a Medicaid Flexibility Program to provide targeted health assistance to program enrollees.

(B) STATE APPLICATION.—

(1) IN GENERAL.—To be eligible to conduct a Medicaid Flexibility Program, a State shall submit an application to the Secretary that meets the requirements of this subsection.

(2) CONTENTS OF APPLICATION.—An application under this subsection shall include the following:

(A) A description of the proposed Medicaid Flexibility Program and how the State will satisfy the requirements described in subparagraph (B); and

(B) The proposed conditions for eligibility of program enrollees.

(C) The applicable program enrollee category (as described in subparagraph (A)).

(D) A description of the types, amount, duration, and scope of services which will be offered as targeted health assistance under the program, including a description of the proposed package of services which will be provided to program enrollees to whom the State would otherwise be required to make medical assistance available under section 1922(a)(10)(A).

(E) A description of how the State will notify individuals currently enrolled in the State plan for medical assistance under this title of the transition to such program.

(F) Statements certifying that the State agrees to—

(1) submit regular enrollment data with respect to the program to the Centers for Medicare & Medicaid Services at such time and in such manner as the Secretary may require;

(ii) submit timely and accurate data to the Transformed Medicaid Statistical Information System (T-MSIS); and

(iii) report annually to the Secretary on adult health quality measures implemented under the program and information on the performance of health care providers under the program as part of the annual report required under section 1133(d)(1).
for program enrollees, the amount specified in paragraph (3)(A).

(a) Amount of block grant funds.—(A) In general.—The block grant amount under this paragraph for a State and year shall be equal to the sum of the amounts determined under subparagraph (B) for each 1903A enrollee category included in the applicable program enrollee category for the State and year.

(B) Enrollee category amounts.—(i) For initial year.—Subject to subparagraph (B) and clause (ii), for the fiscal year in which a 1903A enrollee category is included in the applicable program enrollee category for a Medicaid Flexibility Program conducted by the State, the amount determined under this subparagraph for the State, year, and category shall be equal to the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) for the State and year, multiplied by the product of—

(A) the target per capita medical assistance expenditures (as defined in section 1903A(a)(2)) for the State, year, and category; and

(B) the number of 1903A enrollees in such category for the State for the second fiscal year preceding such first fiscal year, increased by the percentage increase in State population from such second preceding fiscal year to April of the second fiscal year preceding the fiscal year involved, based on the best available estimates of the Bureau of the Census.

(ii) For any subsequent year.—For any fiscal year that is not the first fiscal year in which a 1903A enrollee category is included in the applicable program enrollee category for a Medicaid Flexibility Program conducted by the State, the block grant amount under this paragraph for the State, year, and category shall be equal to the amount determined under subparagraph (B)(i), the total number of 1903A enrollees in such 1903A enrollee category for the State and year shall not exceed the adjusted number of such enrollees for the State (as defined in clause (ii)).

(iii) Adjusted number of base period enrollees.—The term ‘adjusted number of base period enrollees’ means, with respect to a State and 1903A enrollee category, the number of 1903A enrollees in the enrollee category for the State for the per capita base period (as determined under section 1903A(a)(4)), increased by the percentage increase, if any, in the total State population from the last April in the State’s per capita base period to April of the fiscal year preceding the fiscal year involved (determined using the best available data from the Bureau of the Census) plus 3 percentage points.

(B) Federal payment and state maintenance of effort.—(A) Federal payment.—Subject to subparagraph (B), the Secretary may make a block grant to each State conducting a Medicaid Flexibility Program under this section for a fiscal year, from its block grant amount under paragraph (2) for such year, an amount for each quarter of such year equal to the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) of the total amount expended under the program during such quarter as targeted health assistance, and the State is responsible for the balance of the funds to carry out such program.

(B) State maintenance of effort expenditures.—For each year during which a State conducts a Medicaid Flexibility Program, the State shall make expenditures for targeted health assistance under the program in an amount equal to the product of—

(A) the grant amount determined for the State and year under paragraph (2); and

(B) the enhanced FMAP described in the first sentence of section 2108(b) for the State and year.

(C) Reduction in block grant amount for states failing to meet MOR requirement.—(i) In general.—In the case of a State conducting a Medicaid Flexibility Program that makes expenditures for targeted health assistance under the program for a fiscal year in an amount that is less than the required amount under subparagraph (B), the amount of the block grant determined for the State under paragraph (2) for the fiscal year shall be reduced by the amount by which such expenditures are less than such required amount.

(ii) Disregard of reduction.—For purposes of determining the amount of a State block grant under paragraph (2), any reduction made under this subparagraph to a State’s block grant amount in a previous fiscal year shall be disregarded.

(iii) Application to states that terminate program.—In the case of a State described in clause (i) that terminates the State Medicaid Flexibility Program under subsection (d)(2)(B) and such termination is effective with the end of the fiscal year in which the State fails to make the required amount of expenditures under subparagraph (B), the reduction amount determined for the State and succeeding fiscal year under clause (i) shall be treated as an overpayment under this paragraph for the fiscal year in which such program was in effect.

(D) Reduction for noncompliance.—If the Secretary determines that a State conducting a Medicaid Flexibility Program is not complying with the requirements of this section, the Secretary may withhold payments, reduce payments, or recover previous payments to the State under this section as the Secretary determines.

(E) Additional federal payments during public health emergency.—(i) In general.—In the case of a State and fiscal year for which the Secretary has excluded expenditures under section 1903A(b)(6), if the State has uncompensated targeted health assistance expenditures for the fiscal year or portion of a year, the Secretary may make an additional payment to such State equal to the Federal average medical assistance percentage (as defined in section 1903A(a)(4)) of the amount of such uncompensated targeted health assistance expenditures, except that the amount of such payment shall not exceed the amount determined for the State and year or portion of a year under clause (ii).

(ii) Maximum amount of additional payment.—For a State and fiscal year or portion of a fiscal year under this subparagraph, the maximum amount of such payment shall be equal to the amount expended during such year or portion of a fiscal year involved during which no such declaration was in effect.

(iii) Uncompensated targeted health assistance.—In this subparagraph, the term ‘uncompensated targeted health assistance expenditures’ means, with respect to a State and fiscal year, the amount of expenditures under any block grant for the first year in which a declaration was in effect.

(3) Block grant amount calculation.—(A) In general.—A State Medicaid Flexibility Program approved under subsection (b)—

(i) the amount of State expenditures for targeted health assistance for program enrollees in areas of the State which are subject to a declaration described in section 1903A(b)(6), for the fiscal year or portion of a year, exceeds

(ii) the amount of such expenditures for such enrollees in such areas during the most recent fiscal year (for which data are available) for a fiscal year of equal length to the portion of a fiscal year involved during which no such declaration was in effect.

(B) Election to terminate program.—(i) In general.—Subject to clause (ii), a State conducting a Medicaid Flexibility Program may elect to terminate the program effective with the first day after the end of the
program period in which the State makes the election.

"(ii) TRANSITION PLAN REQUIREMENT.—A State may not elect to terminate a Medicaid Flexibility Program unless the State has in place an appropriate transition plan approved by the Secretary.

"(iii) EFFECT OF TERMINATION.—If a State elects to terminate a Medicaid Flexibility Program, the per capita cap limitations under section 1903A shall apply effective with the day described in clause (i), and such limitations shall be applied as if the State had never conducted a Medicaid Flexibility Program.

"(C) PROVISION OF TARGETED HEALTH ASSISTANCE.—

"(1) I N GENERAL.—A State conducting a Medicaid Flexibility Program shall establish conditions for eligibility of program enrollees, which shall include other conditions for eligibility under this title, except that the program must provide for eligibility for program enrollees to whom the State would otherwise be required to make medical assistance available under section 1902(a)(10)(A)(1).

"(2) M A C.—Any determination of income necessary to establish the eligibility of a program enrollee for purposes of a State Medicaid Flexibility Program shall be made using modified adjusted gross income in accordance with section 1902(e)(14).

"(3) BENEFITS AND SERVICES.—

"(a) REQUIRED SERVICES.—In the case of a State conducting a Medicaid Flexibility Program, a State plan amendment described in subparagraph (A) shall apply in the following manner:

"(i) IN PATIENT AND OUTPATIENT HOSPITAL SERVICES.

"(ii) LABORATORY AND X-RAY SERVICES.

"(iii) NURSING SERVICE AND EQUIPMENT, EQUIPMENT AND SUPPLIES.

"(iv) DENTAL SERVICES.

"(v) HOME HEALTH CARE SERVICES (INCLUDING HOME NURSING SERVICES, MEDICAL SUPPLIES, EQUIPMENT AND SUPPLIES, AND HOME DIALYSIS SERVICE).

"(vi) RURAL HEALTH CLINIC SERVICES (AS DEFINED IN SECTION 1905S(1)).

"(vii) FEDERALLY-QUALIFIED HEALTH CENTER SERVICES (AS DEFINED IN SECTION 1905S(2)).

"(viii) FAMILY PLANNING SERVICES AND SUPPLIES.

"(ix) NURSE MIDWIFE SERVICES.

"(x) CERTIFIED PEDIATRIC AND FAMILY NURSE PRACTITIONER SERVICES.

"(xi) FREESTANDING BIRTH CENTER SERVICES (AS DEFINED IN SECTION 1905S(3)).

"(xii) EMERGENCY TRANSPORTATION.

"(xiii) NON-COSMETIC DENTAL SERVICES.

"(xiv) PREGNANCY-RELATED SERVICES, INCLUDING POSTPARTUM SERVICES FOR THE 12-WEEK PERIOD BEGINNING ON THE LAST DAY OF A PREGNANCY.

"(B) OPTIONAL BENEFITS.—A State may, at its option, provide services in addition to the services described in subparagraph (A) as targeted health assistance under a Medicaid Flexibility Program.

"(C) BENEFIT PACKAGES.—

"(1) IN GENERAL.—The targeted health assistance provided by a State to any group of program enrollees under a Medicaid Flexibility Program shall have an aggregate actuarial value of at least 95 percent of the aggregate actuarial value of the benchmark coverage described in subsection (b)(1) of section 1937 or benchmark-equivalent coverage described in subsection (b)(2) of such section, as such subsections were in effect prior to the enactment of the Patient Protection and Affordable Care Act.

"(2) AMOUNT, DURATION, AND SCOPE OF BENEFITS.—Subject to clause (i), the State shall determine the amount, duration, and scope of such targeted health assistance under a Medicaid Flexibility Program, including with respect to services that are required to be provided to program enrollees under subparagraph (A) except as otherwise provided under subclause (B) of such subparagraph.

"(3) MENTAL HEALTH AND SUBSTANCE USE DISORDER COVERAGE AND PARITY.—The targeted health assistance provided by a State to program enrollees under a Medicaid Flexibility Program shall include mental health services and substance use disorder services and the financial requirements and treatment limitations applicable to such services under the program shall comply with the requirements of section 276 of the Public Health Service Act in the same manner as such requirements apply to a group health plan.

"(4) PRESCRIPTION DRUGS.—If the targeted health assistance provided by a State to program enrollees under a Medicaid Flexibility Program includes prescription drugs, such drugs shall be subject to a rebate agreement that complies with the requirements of section 1927, and any requirements applicable to the medical assistance for covered outpatient drugs under a State plan (including the requirement that the State provide information to a manufacturer) shall apply in the same manner to targeted health assistance for covered outpatient drugs under a Medicaid Flexibility Program.

"(D) COST SHARING.—A State conducting a Medicaid Flexibility Program may impose premiums, deductibles, cost-sharing, or other similar charges, except that the total annual aggregate amount of all such charges imposed with respect to all program enrollees in a family shall not exceed 5 percent of the family’s income for the year involved.

"(E) ADMINISTRATION OF PROGRAM.—Each State conducting a Medicaid Flexibility Program shall do the following:

"(i) IN GENERAL.—In the case of a State conducting a Medicaid Flexibility Program, a State plan amendment described in subparagraph (A) shall provide for program enrollees to whom the State would otherwise be required to make medical assistance available under section 1902(a)(10)(A)(1).

"(ii) WAIVER AND AMENDMENT.—A State conducting a Medicaid Flexibility Program shall include mental health services and substance use disorder services and the financial requirements and treatment limitations applicable to such services under the program shall comply with the requirements of section 276 of the Public Health Service Act in the same manner as such requirements apply to a group health plan.

"(F) BENEFICIARY PROTECTIONS.—Establish a fair and effective process for appeal of adverse eligibility determinations with respect to the program.

"(G) APPLICATION OF REST OF TITLE XIX.—

"(1) IN GENERAL.—To the extent that a provision of this section is inconsistent with another provision of this title, the provision of this section shall apply.

"(2) APPLICABILITY OF SECTION 1903A.—With respect to a State that is conducting a Medicaid Flexibility Program, section 1903A shall be applied as if program enrollees were not 1903A enrollees for each program period during which the State conducts the program.

"(3) WAIVERS AND STATE PLAN AMENDMENTS.—

"(i) IN GENERAL.—In the case of a State conducting a Medicaid Flexibility Program, a State may mirror provisions of a waiver or State plan amendment described in clause (i) in the program to the extent that such provisions are consistent with the requirements of this section.

"(ii) EFFECT OF TERMINATION.—In the case of a State described in clause (i) that terminates its program under subsection (d)(2)(B), any waiver or amendment which was limited pursuant to subparagraph (A) shall cease to be so limited effective with the effective date of such termination.

"(D) NONAPPLICATION OF PROVISIONS.—With respect to the design and implementation of Medicaid Flexibility Programs conducted under this section, paragraphs (1), (10)(B), (17), and (23) of section 1902(a), as well as any other provision of this title (except for this section and as otherwise provided by this section) that the Secretary deems appropriate, shall not apply.

"(e) DEFINITIONS.—For purposes of this section:

"(1) APPLICABLE PROGRAM ENROLLEE CATEGORY.—The term 'applicable program enrollee category' means, with respect to a State Medicaid Flexibility Program for a program period, any enrollee category specified by the State for the period in its application under subsection (b):

"(A) 2 ENROLLEE CATEGORIES.—Both of the 1903A enrollee categories described in subparagraphs (D) and (E) of section 1903A(e)(2),

"(B) EXPANSION ENROLLEES.—The 1903A enrollee category described in subparagraph (D) of section 1903A(e)(2),

"(C) NONELDERLY, NONDISABLED, NONEXPANSION ADULTS.—The 1903A enrollee category described in subparagraph (E) of section 1903A(e)(2),

"(2) MEDICAID FLEXIBILITY PROGRAM.—The term 'Medicaid Flexibility Program' means a State program for providing targeted health assistance to program enrollees funded by a block grant under this section.

"(3) PROGRAM ENROLLEE.—

"(A) IN GENERAL.—The term 'program enrollee' means, with respect to a State that is conducting a Medicaid Flexibility Program for a program period, an individual who is a 1903A enrollee (as defined in section 1903A(e)(2)) who is in the applicable program enrollee category specified by the State for the period.

"(B) RULE OF CONSTRUCTION.—For purposes of subsection (b)(17), eligibility and enrollment of an individual under a Medicaid Flexibility Program shall be deemed to be eligibility and enrollment under a State plan (or waiver of such plan) under this title.

"(4) PROGRAM PERIOD.—The term 'program period' means, with respect to a State Medicaid Flexibility Program, a period of 5 consecutive fiscal years that begins with either:

"(A) The first fiscal year in which the State conducts the program;

"(B) The next fiscal year in which the State conducts such a program that begins after the end of the previous program period;

"(C) THE 50 STATES.—The term 'the 50 States' means one of the 50 States or the District of Columbia.

"(6) TARGETED HEALTH ASSISTANCE.—The term 'targeted health assistance' means assistance for health-care services and medical services for program enrollees.'

(i) by striking ‘‘(and, (B)’’ and inserting ‘‘(B);’’ and

(ii) by inserting before the semicolon at the end the following: ‘‘; and (C) subject to subsection (b)(4), qualified inpatient psychiatric hospital services (as defined in subsection (a)(16)(C) and are furnished by a health care provider to a beneficiary, or, if such services are not furnished by a health care provider, are furnished by an entity that is responsible for furnishing such services, under a waiver of such plan, within the State plan under this title or title XXI in a manner determined by the Secretary’’;

(B) in the subsection (b) that follows paragraph (29), by inserting ‘‘(other than services described in subparagraph (C) of paragraph (16) for individuals described in such subparagraph)’’ after ‘‘patient in an institution for mental diseases’’; and

(2) in subsection (b), by adding at the end the following new paragraphs:

‘‘(8) For purposes of subsection (a)(16)(C), the term ‘qualified inpatient psychiatric hospital services’ means medical assistance services described in subparagraph (B) of paragraph (16) for persons who—

(A) in an institution (or distinct part thereof) which is a psychiatric hospital (as defined in section 1139A), and

(B) are not otherwise covered under subsection (a)(16)(A) and are furnished—

(i) in a calendar year.

(3) As a condition for a State including qualified inpatient psychiatric hospital services as medical assistance under subsection (a)(16)(C), the State shall establish a formula for computing State allotments under this paragraph for each fiscal year determined in section 1905(b)(1) of the Social Security Act (42 U.S.C. 1396d(b)) is amended, in the third sentence, by inserting ‘‘and with respect to amounts expended by a State as medical assistance for services provided by any other provider under the State plan to an individual who is a member of an Indian tribe eligible for assistance under the State plan’’ before the period.

SEC. 132. SMALL BUSINESS HEALTH PLANS.

(a) TAX TREATMENT OF SMALL BUSINESS HEALTH PLANS.—A small business health plan (as defined in section 6011(a)(2) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1181)) is treated as small business health plans for purposes of applying section 1001(b)(1) of the Internal Revenue Code of 1986; and

(b) RULES.—Subtitle B of title I of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1101 et seq.) is amended, by adding at the end the following new section:

‘‘PART 8—RULES GOVERNING SMALL BUSINESS RISK SHARING POOLS

SEC. 801. SMALL BUSINESS HEALTH PLANS.

(a) IN GENERAL.—For purposes of this part, the term ‘small business health plan’ means a small business health plan, offered by a health insurance issuer in the large group market, whose sponsor is described in subsection (b).

(b) SPONSOR.—The sponsor of a group health plan is described in this subsection if such sponsor—

(1) is a qualified sponsor and receives certification by the Secretary;

(2) is organized and maintained in good faith, with a constitution or bylaws specifically stating its purpose and providing for periodic meetings on at least an annual basis;

(3) is established as a permanent entity;

(4) is established for a purpose other than providing health benefits to its members, is not an organization established as a bona fide trade association, franchise, or section 7705 organization; and

(b) RULES.—Subtitle B of title X of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1001 et seq.) is amended, by adding at the end the following part:

‘‘PART 10—RULES GOVERNING SMALL BUSINESS HEALTH PLANS.

(a) FILING FEE.—A small business health plan shall pay to the Secretary at the time of filing an application for certification under section (b) a filing fee in the amount of $5,000, which shall be available to the Secretary for the purpose of administering the certification procedures applicable with respect to small business health plans.

(b) CERTIFICATION.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this part, the Secretary shall prescribe by interim final rule procedures under which the Secretary—

(A) will certify a qualified sponsor of a small business health plan, upon receipt of an application that includes the information described in paragraph (2); and

(B) may provide for continued certification of small business health plans under this part;

(2) CERTIFICATION.—The Secretary shall provide for the revocation of a certification if the applicable authority finds that the small business health plan involved

(2) shall conduct oversight of certified plan sponsors, including periodic review, and consistent with section 504, applying the requirements of sections 518, 519, and 520; and
(3) will consult with a State with respect to a small business health plan domiciled in such State that is certified by the Secretary as a result of the small business health plan being certified under this part and other enforcement authority under sections 502 and 504.

(2) INFORMATION TO BE INCLUDED IN APPLICATION FOR CERTIFICATION.—An application for certification under this part must meet the requirements of this section only if it includes, in a manner and form which shall be prescribed by the applicable authority by regulation, at least the following information:

(A) identifying information;
(B) States in which the plan intends to do business;
(C) bonding requirements;
(D) plan documents;
(E) agreements with service providers;
(F) requirements for certified plan sponsors.

(3) REQUIREMENTS FOR CERTIFIED PLAN SPONSORS.—Not later than 6 months after the date of enactment of this part, the Secretary shall by interim final rule require certified plan sponsors to include requirements regarding—

(A) structure and requirements for boards of trustees, or official or officials designated by the plan sponsor to perform the functions of such board;
(B) notification of material changes;
(C) notification for voluntary termination of plan participation;
(D) filing notice of certification with States.

(A) A certification granted under this part to a small business health plan shall not be effective unless written notice of such certification is filed by the plan sponsor with the applicable authority by regulation, at least the following information:

(A) a person who is otherwise eligible to be a member of the sponsor but who elects an affiliated status with the sponsor,
(B) in the case of a sponsor with members which consists of associations, a person who is a member of the group and an employee of any such association and elects an affiliated status with the sponsor.

(2) APPLICABLE STATE AUTHORITY.—The term "applicable state authority" means, with respect to a health insurance issuer in a State, the State insurance commissioner or official or officials designated by the State to enforce the requirements of title XXVII of the Public Health Service Act for the State involved with respect to such issuer.

(3) FRANCHISOR; FRANCHISEE.—The terms "franchisor" and "franchisee" have the meanings given such terms for purposes of sections 336.2(a) through 336.2(c) of title 46, Code of Federal Regulations (including any such amendments to such regulation after the date of enactment of this part) and, for purposes of this part, franchisor or franchisee means a person who participates in a group health plan that is certificated and is such employer with or without employees (or, for plan years beginning on or after January 1, 2019, 5 to 1 for adults (consistent with section 2707(c)) or other certified plan sponsor that is deemed certified under paragraph (1) of this section only if it includes, in a manner and form which shall be prescribed by the applicable authority by regulation, at least the following information:

(A) identifying information;
(B) States in which the plan intends to do business;
(C) bonding requirements;
(D) plan documents;
(E) agreements with service providers;
(F) requirements for certified plan sponsors.
