

encourage green construction practices, and ensure equitable access for public charter schools. Our legislation would also provide \$30 billion for qualified school infrastructure bonds (QSIBs), \$10 billion each year from FY 2018 through FY 2020 and expand the bond authority of and eligible purposes for Qualified Zone Academy Bonds (QZABS) to allow local education agencies to construct, rehabilitate, retrofit, or repair school facilities. The School Building Improvement Act also supports American workers by ensuring that projects use American-made iron, steel, and manufactured products.

I would like to thank the broad coalition of educators, community organizations, and unions that have provided feedback and support for this legislation, including Rebuild America's Schools, American Federation of Teachers, Californians for School Facilities, Council of the Great City Schools, International Union of Operating Engineers, National Association of Elementary School Principals, National Association of Federally Impacted Schools, National Association of Secondary School Principals, National Education Association, National Parent Teacher Association, and North America's Building Trades Unions. We look forward to expanding this coalition in the weeks and months ahead.

We have no time to waste in fixing our deteriorating school infrastructure. In the words of a student activist in Providence, "Students cannot learn in a crumbling building, a school that isn't fit to uplift our minds." We need to listen to our students, strengthen our communities, and improve our school buildings. I urge all of my colleagues to cosponsor the School Building Improvement Act.
